Trainer George Haag has a big stable at Calgary, of which Hydrangia 2:28¾, by Vice Commodore 2:11; Countess Peter, by Peter The Great. Ambassador Todd (3), by Kentucky Todd (3) 2:08¾, out of Sadie T. 2:09¼; Delamon (2), by The Director General, out of Ella Belmont, by Belmont; W. H. S., by Gamaleon 2:25¾, are among the trotters. Alberta 2:09¾, the pony pacer by Searchlight 2:03¼, heads the pacers of which others are: M. S. McCarthy 2:24¾, by The Director General; Albert Boy, by Vice Commodore 2:11; I. J. Ruttle, by Charley Herr 2:07; Minnie B. B., by Searchlight 2:03¾; Minor Eel, by J. J. Audubon 2:19; Minnie H., by Alycane Jr.; Klein Ream, by Klatawah 2:05½, with some green ones by General Adelle, Gambetta Wilkes, Leland Onward and so on.

The committee of citizens which started out last Saturday to get stock subscriptions to raise the \$12,000 mortgage on the Tulare fair grounds and thus save them to the city, succeeded in getting the necessary subscribers at \$600 each. This means that the fair grounds will be saved. After many futile attempts to raise the \$12,000, the holders of the mortgage, Joseph LaMarche and William Swall, decided to sell the grounds at auction on March 16. The developments of Saturday, however, mean that the sale will be called off. Mayor H. C. Heitzeg, W. E. Green, I. B. Hunsacker and W. A. Swall headed the movement which terminated successfully, and in a few weeks an effort will be made to revive the fair and race meets of former years. An aviation meet is being talked of for this fall.

The two fillies purchased by C. A. Harrison, of Seattle, for John W. Considine, are as fine looking and as well-bred as any ever foaled on the Woodland Stock Farm. One is called Lottie Ansel, by Prince Ansel (2) 2:20½; she is a full sister to that remarkably game and consistent campaigner Prince Lot 2:09½, being out of Lottie 2:15, by San Diego 8776 (son of Alcona Clay 2756 and Fontana, dam of 4, by Almont 33), second dam, Flora B. 2:27 (dam of 2), by Whippleton 1883; third dam Kate. The other is called Laura Ansel; she is also by Prince Ansel (2) 2:20½, and is a full sister to Laura Rogers 2:15¾, being out of Laurens, by Mendocino 2:19½; second dam Laura Drew 2:36 (dam of the great yearling Freedom 2:29¾, and 3 others in 2:30; by Arthurton 365; third dam Molly Drew 2:27 (dam of Alannah 2:14, etc.), by Winthrop 505; fourth dam Fanny Fern (dam of Balkan 2:15, etc.), by Jack Hawkins, son of Boston; fifth dam the Moore Mare. These fillies are heavily engaged in all the Pacific Coast stakes and will be among the money winners of the year.

Geo. T. Algeo, of Oakland, has leased his stallion Chestnut Tom, to Ike Lipson, of Tulare, who will stand him this season.

Little Lucille (3) 2:09 is a member of Dr. Herspring's string of good ones at Woodland. She is springing and doing well.

Will Durfee was at Pleasanton Wednesday and was agreeably astonished at the way the horses were all working there.

Dick Wilson is paying strict attention to the care and development of all the horses he has in training at Pleasanton and they show it. He will have some good ones out this year that will make some of our horsemen "sit up and take notice."

Cbas. R. Marley, of Woodland, is a happy man. His good mare Nusta 2:23½, foaled a fine filly by The Bondsman, March 11th. It is forty-three inches high and one of the most perfect foals ever seen in Yolo County. Mr. Marley has named it Maude Bond, in honor of his wife.

Wm. Howell, of Boise City, Idaho, now visiting California is the owner of Lady Garland by Zombro 2:11, out of Lady Secretary by Secretary, and he is also the owner of a gelding called Mountain Boy by Seymour Wilkes 2:08¾, dam Silver Bud, by Silver Bow 2:16 and the little trotting mare Lady Cyrus 2:10¾ by Cyrus, out of Lady Ensign. He also owns a stallion by Monbells 2:23½ called Lord Stanford 51823, out of Sonoma by Electioneer.

Charles Wilson, of Regina, Saskatchewan, became so impressed with the appearance and gait of a ten-months-old colt by Dillcara, out of Floweret Bell by Monbells 2:23½; second dam Floweret (dam of two) by Electioneer; third dam Mayflower 2:30½, that remarkable progenitress of speed, that he purchased and named him Moncara, and will send him with Kalatan to Canada, next week. Mr. Wilson is one of the leading horsemen in Canada, and this is his first visit to the Coast. Mr. S. Christenson of the Palace Hotel tendered him the use of Brutus, the cup winner, while in this city, and Mr. Wilson declares that after driving him through the Golden Gate Park he will try and repeat his visit, and like all others from his province, who have come to California annually, he will also be one of that "persuasion."

The good looking Dictatus stallion Dickens B., owned by S. H. Burns, proprietor of the Santa Rosa race track, is quite a pacer. He has no record, is absolutely sound and will be a hard one to beat in the green classes this year. He won the San Francisco Driving Club Cup in straight heats, best time 2:21, driven by the late C. Buckley. Then in his next start he captured the Rolkins Cup, best time 2:17, Joe Cuicello driving him the last quarter in 31 seconds. Four days after Cuicello drove him a mile in 2:13¾, last half in 1:04, last quarter in 30 seconds flat. This was over the Stadium track, Golden Gate Park. Dickens B. will be handled this year by that well-known reinsman, Dan Misner, who is also the superintendent of the Santa Rosa race track.

ENTRIES FROM CALIFORNIA BREEDERS IN OREGON.

In the published lists of entries to the Oregon Futurities, California breeders are well represented. In the Futurity No. 2 for foals of 1909 there appear: Moses and Billiken, S. S. Bailey; Laura A. Keyes and Jay Cole Pointer, Harry D. Brown; Bonnie Ansel and Guyrisco, Alex. Brown; Mabel Claire, Mrs. F. H. Burke; His Highness, H. S. Hogoboom; Miss Helen, J. A. Hardy; Busybody, Sam Hoy; Hemet, Wilhur Lou and Fiesta Queen, Hemet Stock Farm; Allen Jay, H. H. Helman; Aeroletta, G. H. Magruder; Nutwood Lou, A. L. Scott; Joe Todd, J. H. Torrey; Sissy, D. W. Wallis, and El Bel Maden, J. W. Zibbell.

Out of the fifty entries that are paid up to date in Oregon Futurity No. 3, for foals of 1910, there are the following: George Seattle, Thomas Seattle, Lucy Seattle and Bertie Seattle, S. S. Bailey; Zomie Secretary and Zomie Gray, Geo. E. Beckers; a filly and colt (unnamed) I. C. Borden; Laura Ansel and Lottie Ansel, Alex. Brown; Carlos, Fulton G., Firenze, Dr. Hagan, and an unnamed colt, W. G. Durfee; five unnamed colts and fillies from Hemet Stock Farm; Expression, H. S. Hogoboom; May Marian, Chas. A. Riggs, Bon Prix, A. L. Scott; Arista Ansel, E. M. Barber; Zomhowage, W. A. Clark Jr., and an unnamed colt, Fred E. Ward.

There were ninety-two second payments in the Oregon Futurity for foals of 1911, of which the following were entered by California breeders: Three unnamed from Geo. T. Beckers; four unnamed from I. L. Borden; Yoncalla, Mrs. M. A. Burke; Bon Cress, J. J. Campbell; five unnamed from W. G. Durfee; Jessie Cook, Henry Delaney; Bonheur, Bertha E. Brown, and an unnamed colt, Ted Hayes; two unnamed colts from H. D. Hogoboom; Caroline, Geo. L. Herndon; Airlie Dimetis, Chas. Johnson; Prince Vosta and La Jolla, M. C. Keefer; five unnamed from J. W. Marshall; Maxine, J. E. Montgomery; Healan, M. B. McGowan; Laveta, W. T. McBride; Patrick de Oro and an unnamed filly, James Stewart; Bon Rose, A. L. Scott; Pinodu and Senator, D. W. Wallis; Patchen Bird, Richard Wilson; two unnamed fillies from J. W. Zibbell.

STANDARD BRED STALLIONS LICENSED BY CALIFORNIA STALLION REGISTRATION BOARD.

February 17th to March 6th, Inclusive, 1912.

- Wesington, Charles W. Young, Colusa, Cal.
- Corpus, N. J. McKaughan, Fullerton, Cal.
- Prince Derby, B. F. Lavin, Santa Paula, Cal.
- Prince Ansel, Alex. Brown, Walnut Grove, Cal.
- Bon Roy, A. M. Foslack, San Diego, Cal.
- Montbaine, P. W. Hodges, Sacramento, Cal.
- Highland C., R. R. Ketchum, Arroyo Grande, Cal.
- Doctor Bryson, J. B. Stearns, Oakdale, Cal.
- Los Alto, John S. Phippen, Mayfield, Cal.
- The Bondsman, Capt. C. P. McCan, Hood River, Ore.
- The Patchen Boy, Capt. C. P. McCan, Hood River, Ore.
- Guy McKinney, M. A. Lewis, Oakdale, Cal.
- Dictatus Medium, Paicines Ranch Co., Paicines, Cal.
- Zomora, W. E. Tuttle, Rocklin, Cal.
- Vena Mc., W. E. Tuttle, Rocklin, Cal.
- Sadie Moor, Wm. R. Johnson, Rohnerville, Cal.
- Menlo McKinney, J. W. Offutt, Petaluma, Cal.
- Bonnie Steinway, C. L. Griffith, Pleasanton, Cal.
- Alto Express, H. S. Hogoboom, Woodland, Cal.
- Fred Branch, M. J. Zahner, San Jose, Cal.
- Patrick D., R. W. Mann, Watsonville, Cal.
- Boyo Derby, B. F. Lavin, Santa Paula, Cal.
- Zoon, Ray Branscom, Norwalk, Cal.
- W. H. D., L. Dobrzensky, Newman, Cal.
- Jonesa Basier, P. Mull, Bakersfield, Cal.
- Delmer D., P. W. Herold, Winters, Cal.
- Osoto W., Dr. R. E. Perkins, Petaluma, Cal.
- Fritz Nutwood, Bart Essen, Turlock, Cal.
- Salisbury Junior, A. M. Dillwood, Oakdale, Cal.
- Red Robin, Paul Bianchi, Soledad, Cal.
- Turbine, Reuben Clark, Monticello, Cal.
- Doc Hicks, Jr., J. A. Franklin, Durham, Cal.
- Diablo Jr., E. J. Miller, Grand Island, Cal.
- El Paso, E. J. Miller, Grand Island, Cal.
- Stamboulette Jr., C. G. Larsen, Kerman, Cal.
- Togo, F. H. Cardway, Lodi, Cal.
- Harry L., H. Leslie, Taylorsville, Cal.
- Prince, Geo. E. Brown, Clovis, Cal.
- Alto Arabian, Wm. Breeze, Jenny Lind, Cal.
- Sir Vaux, J. C. Hess, Chico, Cal.
- Stamboul Jr., L. L. Cannon, Pennings, Cal.
- Dixie Harold, J. R. Sampson, San Lorenzo, Cal.
- Perkins, E. W. Jennings, Visalia, Cal.
- Sultan Bay, Manuel Vinager, Hollister, Cal.
- La Peloma, Benj. L. Sprague, Nordhoff, Cal.
- Sindwood, C. M. Steinbeck, Hollister, Cal.
- Star McKinney, T. O. Thomas, Selma, Cal.
- Silute, E. T. York, Fowler, Cal.
- Ed., John Grimes, Petaluma, Cal.
- McMrytle, John Grimes, Petaluma, Cal.
- Harry B., Bond & Berge, Irvington, Cal.
- Big Boy, Geo. E. Sabin, Piru, Cal.
- Chestnut Dan, A. J. Stull, Jenny Lind, Cal.
- Snip Fairrose, J. J. Mitchell, Elk Grove, Cal.
- Jack McKinney, John Snover, Ceres, Cal.
- Alex. Burton III, A. D. Hunt, Waldo, Cal.
- Cedric Mac, Sierra Vista Stock Farm, Chino, Cal.

TROTTERS FOR THE ARMY.

George W. Rommel, chief of the animal husbandry bureau, United State Department of Agriculture, is much impressed with the value of the trotter as the breed of horse most suitable for army remounts. It is a much discussed fact that the government is finding it difficult to secure the right kind and number of horses for cavalry purposes and the admirers of the thoroughbred have taken advantage of that fact to advocate the use of the running horse for the purpose of breeding saddle horses for the army.

The trotting horse men, for the most part, seem to rest secure in their own knowledge that the trotter is the greatest all-round horse in the world and have taken little, if any, action to call the attention of the army officials to the fact that the trotter makes the best saddle horse in the world. With proper selection the trotter would prove invaluable in the army. While the trotting horse men are resting secure in their own knowledge the running horsemen are taking steps to have thoroughbred stallions located in sections of the country where there are plenty of good mares for the purpose so that the farmer breeder can patronize them and sell the produce to the government for use as cavalry horses when they attain the proper age. In view of this it is refreshing to have a gentleman of Mr. Rommel's standing say a few words for the trotter, which he does as follows:

"Whether this army situation is met now, next year, or at some future time, the trotter will play a large part in its solution. Of all the good traits of the trotter, his gameness, his stamina, his speed, his level head, one characteristic, in the writer's opinion, stands pre-eminent—that is the breed's versatility. It is not such a wonderful thing that R. T. C. may once have been a plain drudge of a plow horse. Who knows how many good racers went down to their final resting place pulling a harrow, a cultivator or a mowing machine, in the good old days when every farmer bred to a trotter?"

"Many good saddle horses are trotting bred and some of the best show carriage horses our country ever knew were trotting bred, and even standard bred. Therefore, when Uncle Sam takes hold of this breeding problem in earnest, the trotting horse will have his full share of the work."

"Will it help the trotter? Of course it will help. If the government can show a farmer breeder how to breed intelligently, will not that farmer remember the lesson? And if the advice is to breed to a trotting stallion, will not that help the trotting breed? If the army can show a regiment of cavalry mounted on remounts sired by trotting horses in, say Kentucky, Tennessee, Montana or Wyoming, and that regiment has a high efficiency on account of the quality of its mounts, will that not help the trotter? Of course it will help."

"The army horse breeding plan of the government is a splendid opportunity to demonstrate by definite, careful experiment, the value of the trotter as a useful, versatile horse, 'the kind everybody likes.'"

HANFORD NOTES.

There has been very little doing at the Hanford race track during the winter months in the way of speeding or developing, as the course has not been kept in first class condition since the closing of the Fair, but from now on Superintendent Coverl says it will be prepared for horsemen to get their horses in readiness to face the starter.

M. G. Liggett has Vera Hal 2:07¾, which he expects to name in all the big 2:08 classes. He also has a full brother to this mare which is owned by M. M. Vincent, of Merced. Moody thinks a great deal of him. He also has McCola, by Stanford McKinney, a jet black stallion of magnificent proportions and shows considerable speed. These are all pacers, then he has a black three-year-old stallion owned by Gravatt & Co., that is an inbred Direct, is a trotter and gives promise of further increasing the already great fame of the Direct family.

W. W. Gallup is jogging his handsome Stone Direct by Robert Direct, on the road. This colt has shown eighths in 15½ seconds at the pace, is a perfect road horse and is absolutely fearless. Walter's imported Percheron Marigold is looking well and will undoubtedly make as heavy a season this year as he did in 1911. This owner also has his Expressive Mac—Clara Mac filly and his Best Policy—Ida May, two-year-old colt, turned out.

C. D. King is handling a string of his own trotters and pacers besides a few belonging to others. He has P. L. Aguirre's Guy Borden and he is doing well. Mr. King recently sold to J. H. Nelson the colt Magruda by Nutwood Wilkes, dam Ida May, and then purchased from the latter his imported Percheron stallion Hediard. So, with Mr. Gallup's Marigold and Mr. King's Hediard breeders of heavy horses in Kings county can find two stallions at the race track from which they can make their choice.

The great broodmare Ida May died March 4th, the property of W. W. Gallup. She was 26 years old and was the dam of three with records under 2:15, viz: Albert Derida 2:14¼, Homeward 2:13½ and Homeward 2:14¼. Homeward sired that wonderful trotter George G. 2:05¼. Ida May's sons Uganda by Nutwood Wilkes 2:16½ and W. W. G. by Best Policy will very likely give the good old mare two more with records in standard time. Ida May was sired by Grosvenor 1823 (son of Administrator, he by Hambletonian 10), dam Susie K., by Alarie, son of Imp. Hercules. The year book fails to give her credit for having three in the list.

HANFORD.

A GOOD BON VOYAGE.

Mr. Ted Hayes, of Los Angeles, received a letter from J. N. Anderson, of Salinas, and as it contained some interesting news regarding a Bon Voyage colt, with Mr. Hayes' permission, we copied the following:

"My Bon Voyage colt stands 16:3 hands but is remarkably well proportioned. As you know he is out of Dora D. 2:22¾ (dam of Della Derby 2:11¼), by Del Sur 2:24. I call him 'Farewell.' He will be four years old on April 16th. The above is all right, but the way he has developed speed is something remarkable.

"I started to drive him last year and after brushing him eighths a half dozen times, he went lame behind. The fastest one was in 21 seconds, and you might say he did that naturally, until disabled. I turned him out and caught him up October 1st. I used him in a business buggy till January 10th, before I tried to move him up. I then took him to the track and drove him an eighth in 22 seconds. The next time I worked him in 20 seconds, next time a quarter in 41 seconds, and four workouts after that a quarter in 35 seconds. No one has ever driven him but myself and I am anything but a trainer. The above trials were on different days and I drove him in a huggy every day between trials.

"He is a grand gaited trotter, does not touch a hair, and never breaks. Messrs. Helman and Williams, our trainers, saw him in all his work. I would stop working him now but I want to put him in the list May 1st if he stays sound. After that, I shall do nothing in the way of developing his speed until he is six years old. I know you have his dad and I just thought you would like to hear how this son of his is doing."

ANSWERS TO CORRESPONDENTS.

A subscriber asks, 1st, What is the age of Peter the Great? 2d, How many sons has Peter the Great that have sired standard performers. 3d, How many sons has The Bondsman that are sires of standard performers? Ans.—1, Peter the Great is 17 years old. 2, Two sires of 5, one sired Peter the 2d, 2:04¼. 3, The Bondsman has 2 sous that sired 7 in 2:30.

Is Mary Celeste 2:17¾ by Oro Wilkes the dam of Direction (p.) 2:18½? Answer—Yes.

Answer—Lightfoot 2:22 has none in the 2:30 list. Iowa Chief sired five trotters and one pacer, one of his sons sired three trotters and three of his daughters produced two trotters and one pacer in the 2:30 list. Pride got a record of 2:44 as a yearling, but has never produced a 2:30 performer. Iowa Chief only had one son a sire—Buccaneer. I cannot find any account of Lady Bishop producing a 2:30 performer.

Have you seen Will Durfee's auction sale notice? This is a sale which should be well attended.

THE HEMET STOCK FARM.

[By E. S. Train.]

I am going to tell you a little story as told to me by the greatest of reinsmen, Budd Doble. First I must give you a general description of the Hemet Valley and my first impressions of the town itself.

I took the Santa Fe train in Los Angeles one Sunday morning at 9 o'clock, and after leaving the big buildings and noise of a large city we passed into the open country, thence through the alfalfa fields and orange groves of Riverside County until we came to a little town called Highgrove, which is the junction point of the railroad line running to Hemet. After leaving Highgrove the train runs through a gap in the hills and into a beautiful valley known as the San Jacinto or Hemet Valley. About three-quarters of an hour's run landed us in Hemet, and after leaving the train I glanced around and could hardly realize that such a beautiful, peaceful little town existed such a short distance from the bustling, bustling city of Los Angeles and still have escaped the hungry influx of the tourist. It gave me a sense of peace and quiet just to linger for a few moments on the station platform.

The Hotel Hemet, a project of Mr. Whittier's, the gentleman who is responsible for this fertile little valley being what it is today, stands in beautiful grounds amid the palms and foliage that grows only in Southern California. The hotel is cool and cozy and made me feel at home as soon as I entered.

My host, D. D. Whitten, made me comfortable, and when I told him my mission, which was to see Mr. Doble and pay my respects to the wonderful colt trotter Wilbur Lou (1) 2:19½, nothing was too good for me. In other words, I had stumbled upon the magic word or open sesame when I said Budd Doble and Wilbur Lou.

After taking lunch with Mr. Doble we walked out to the track and stock farm, which is but three blocks from the hotel.

As I said before, I will try to tell this little story as Mr. Doble told it to me.

It seems that away back in the '70s, Mr. Whittier came to this little valley and the surrounding hills to hunt the wild game which was so plentiful, and seeing the possibilities if water could be put upon the land, decided, with the assistance of an engineer, to build a dam in the hills and harness the water so it could be utilized.

This was done at a great expense, for all the materials used were freighted in with horses and mules, as no railroad then touched this point. The result is that they built a dam of solid masonry (concrete was practically unknown at that time), which is today the largest piece of masonry work in the West.

Of course, from this beginning, grew the present fertile valley and town of Hemet, in which there are two banks, schools, first-class stores, all housed in brick buildings, as well as the hotel and beautiful bungalows. It is a modern town in every respect, and, if called "Spotless Town," one would make no mistake.

It seems that Mr. Whittier's partner in this enterprise of reclaiming the valley was a lover of horses and had acquired Geo. W. McKinney and a few others. After his death, Mr. Whittier took these horses in the settlement of the partnership, and, business man that he is, decided to have them trained. The late Mr. Frank Holloway, who had charge of the stage line and livery stables of the concern, started jogging them and later moved them to the San Bernardino race track, to which place he would drive upon work-out days.

Mr. Whittier, however, decided that this took too much time and made it too hard on Mr. Holloway, so he decided to build a little track nearer home.

After careful deliberation, the present site was chosen and, as no half-way measures would do, Mr. Whittier built the present plant, which in itself is the most complete place of its kind in the United States. Not satisfied with this, whenever anything in the way of improvements is seen to be needed, it is immediately done.

Enough for the past history of the farm. Now for the present.

After passing through the gate, which, by the way, is as neat a little piece of architecture as one could imagine, now let me stop and describe the first impression gained of the farm.

The gateway is a big arch of white, on both sides of which are gates for pedestrians, while the horses and rigs pass through the big opening, over which is a large sign, "Hemet Stock Farm, Home of Wilbur Lou 2:19½, World's Champion Trotting Stallion."

We walked up the sanded path under the pepper trees which line both sides of the drive, they in turn being flanked on one side by a strip of alfalfa and on the other by the paddocks for the broodmares and little colts, all of which are in alfalfa.

After a short inspection of the grandstand, which is complete in every detail, we walked out on the track, and a prettier piece of soil I have never seen. The center field is in alfalfa, which will be used for pasture or hay as may be desired.

Now we turn to the stables, which all open out under a broad shed and the stalls back into one another. They, like the rest of the plant, are perfect down to the most minute detail, such as closed boxes for manure and even fly traps, thereby doing away with that troublesome insect which ordinarily swarms around a stable. The barns are full of colts and fillies by the farm's former premier Geo. W. McKinney, and there are many of them that promise to make fast trotters and pacers.

Mr. Doble then showed me the stalls, which had

been arranged so that he could turn his horses into them whenever their feet needed it. In other words, they had a plank floor and six inches of blue clay, always kept wet. This in itself is a good plan for every trainer to follow.

Next we passed up and down the different rows of stables, between which there are beautiful driveways that are wet down every night. In the center of these drives are rows of pepper trees, making plenty of shade for the horses and men during workouts.

After showing me the new blacksmith shop and the paddocks for the farm's stallions we came to the stallion stable, in which is kept "The King," Wilbur Lou, and his understudy, Harry R. (1) 2:24½, the pacing son of Armand Lou, and the dethroned stallion Geo. W. McKinney.

This barn is perfectly equipped with the three stalls and a sleeping room for the stallioner. From his room is a sliding panel which opens into every stall.

Directly across the driveway from the stallion stable is a spacious hay barn built of concrete and corrugated iron, in which is kept the feed, etc., for the horses.

There is a clubhouse for the grooms with a reading room, lockers, bath and showers. Each man has a separate sleeping room midway in the string of horses which are in his care.

The office building, in the center of the place, overlooks the track and stables, where one may sit on the broad porch, which goes around all four sides, and see everything, the track in the foreground and the mountains and valley in the distance.

Mr. Doble has a distinct innovation in the form of a quarter of a mile straightaway over which the yearlings are given their first lessons. Just stop to consider, Mr. Trainer, the temptation to keep a little colt going over one-eighth of a mile if he is going at a good gait. Now, with this idea of a quarter-mile straightaway, there is no possibility of brushing over one-eighth of a mile, as the whole track is just one-quarter mile in length, giving you one-sixteenth to start and the same to pull up.

If more of these were in vogue there would be more good colts getting to the races than now, owing, as I said before, to the ever-present temptation of going too far with a little fellow on the regular track.

Just a word now about the horses and then I will describe the rest of my visit to this little "Paradise on Earth."

Wilbur Lou (1) 2:19½ was, of course, the feature, and it is surprising how he has filled out in the last six months since returning from his campaign, where he defeated all comers in his class. He is a typical Kinney Lou in every respect, and when he is aged and fills out to maturity will be a grand type of the American trotter. He is unlike many speed marvels, as he has the conformation and finish of the typical carriage horse and has nothing freakish or peculiar in his make-up.

Harry R. (1) 2:24½, the yearling pacer by Armand Lou (son of Kinney Lou), is a replica of his stable-mate Wilbur Lou in color and conformation, but differs in being a much smaller and finer made horse.

Geo. W. McKinney, the sire of Silver Dick 2:09½, although well along in years is very well preserved and looks good for many years more of active service.

Kinney de Lopez, the handsome chestnut son of Kinney Lou 2:07½, owned by Mr. Doble personally, is in fine fettle and seems to be perfectly satisfied with his present quarters.

Armand Lou, another son of Kinney Lou, and sire of Harry R. (1) 2:24½, is a horse of much finish and of good conformation as Kinney de Lopez.

The broodmares are all turned out on another ranch at present and consequently I did not see them.

The young things in the stables are almost too numerous to mention, but these following come to my mind as I thought they were out of the ordinary.

A yearling colt by Geo. W. McKinney, out of Lady Zombro, by Zombro 2:11, trotted a quarter in 54 seconds in January; another yearling by Geo. W. McKinney, out of the dam of Wilbur Lou, trotted a quarter in 56 seconds, while a pacing filly by the same sire out of a Searchlight 2:03¼ dam has been a quarter in 53 seconds.

One by Worth While (son of Allerton 2:09½), out of a Geo. W. McKinney mare, trotted a quarter in 55 seconds.

When a person considers that these babies were only nine months old or less, they surely look good. At present they are all in pasture, where they will stay until fall.

Now, to get back to the office, which is as it should be, completely given up to the business of the farm. The walls are covered with neatly framed pictures of the famous light harness horses, past and present, from Budd Doble's first love, Dexter, right down the line through Goldsmith Maid, Nancy Hanks, Kinney Lou, and last but not least, Wilbur Lou (1) 2:19½ and Harry R. (1) 2:24½.

Here a register such as you find in any hotel is kept, and in glancing over the names you will find such men as John Shepard, of Boston, Mass.; F. E. Mannin, San Antonio, Tex.; T. E. Purdy, Gallup, N.M.; A. F. Keith, Albuquerque, N.M.; C. D. Stimson, Seattle; J. B. Ford, Cedar Rapids, Iowa, etc. So you can see that it is a mecca for the Easterner as well as the Californian.

Mr. Doble entertained several other visitors as well as myself with little stories of the bygone champions of the turf for over an hour, after which we walked back to the hotel.

Personally, I cast many covetous glances at the little plant as we walked away and can readily understand why Budd Doble is so happy in the manage-

ment of the most perfectly appointed stock farm I have ever seen.

At the hotel I met Mrs. Doble, and after taking dinner with them both, we had a little chat regarding the racing outlook, after which I retired very much at peace with the world, and because I saw that one of my friends, Budd Doble, had at last gotten what he told me he had always wished for.

Just a line more in which I wish to congratulate Mr. Whittier upon his progressiveness, not only in building the plant, but in securing for his manager the most experienced and without a doubt the greatest trainer and race driver the world has ever known, Budd Doble.

AN AMENDMENT TO THE LICENSE LAW.

Editor Breeder and Sportsman:

Without soliciting the consent of Attorney George L. Warlow, the privilege of amending his line of argument, which was well placed in criticizing the statutory law governing licensing of stallions and jacks in the State of California, I wish to say there appears to me to be an additional defect in the law, and that is, "A man may own and breed to his own mares an inferior breed or type of a stallion or jack without having him licensed under this law," while the man who has a high-class stallion, as his tabulated breeding would indicate, if in public service must comply with the law and contend with a State classification as "Pug," "Mongrel," "Whelp," or "Hound."

The contention of the law is the upbuilding or elevation of the bloodlines of all horses, and I would ask if a man owns an inferior bred stallion and crosses them with "his own" ilk bred mares and unloads the results of such a cross upon the public, what good is the law going to do towards elevating the bloodlines of "all" horses. And why should a stallion for public service be licensed and a private stallion go exempt?

Furthermore, under this law, "any stallion" can be licensed, only classified (improperly), and if all stallions can be licensed, what is the use of issuing a license to any? If this law called for extermination or castration of mongrels or inferior breeds, then the inferior bloodlines cease to flow on.

The law, in a way, is a step toward a definite law of value to the public, but the way it stands at this writing it is lowering the standing of good stallions instead of elevating them.

For comparison, the present law reads like it would look for a City Council to license one saloon in a town and allow every other place of business and all residences to sell spirituous malts without even criticizing them or issuing them a license.

Yours truly,

DR. A. J. HULLINGER.

Exeter, Cal., March 4, 1912.

NOBAGE 48390.

In Nobage, Bon Voyage 2:08 has a most creditable son, not only as a perfectly formed one, but also as a sire. This year he is to make the season at A. S. Kellogg's Easterby Ranch, three miles east of the city of Fresno. Nobage, as an individual, won first prize whenever exhibited; his colts and fillies are also of show horse caliber, and the only two that have been handled for speed (yearlings) are phenomenally fast trotters. Ted Hayes has one in Los Angeles, and Jim Thompson the other at Sacramento. Nobage is "royally bred," he is out of a mare by Stam B. 2:11¼, one of Stamboul's best bred sons, and his second dam was a great broodmare by Sidney 2:19½, and she represents a line of breeding that made the Valensin Stock Farm famous throughout the world for the number of remarkably precocious young speed marvels that startled everybody by their performances. Owners of broodmares will do well to go and see Nobage; if they do, they will undoubtedly breed their mares to him.

In many parts of Turkey horseshoes are simply a flat plate of iron with a hole in the middle. An extraordinary method still obtains in portions of the Ottoman empire of shoeing the horse. The farrier doubles a long rope and knots a loop at the end to about the size of a large horse collar. This is put over the horse's head after the manner of a horse collar, and the knot rests on the horse's chest. The next step is to bring the two ends of the rope, then taken by a man, hitched on the fetlocks of the horse's legs and brought through the loop in front. Then, by a hard, steady pull, the hind legs are drawn heavily up to the forelegs and the horse falls heavily on its side. All four feet are now tied together by the fetlocks, the horse propped up on his back, and the farrier sits quietly down beside him, takes off his old shoes and puts on the new.

In selecting a brood mare from which to raise race winners, first tabulate her pedigree and see if the combination of blood lines is such as has produced a high rate of trotting speed with uniformity. If so, learn the characteristics of the mare and her ancestors. The most successful producers of extreme trotting speed in the past have been mares that had "wills of their own" and were full of gimp or nerve force. This is a very essential quality. Many of the best producers have been somewhat notioned and very resolute animals. If the mare is all right in other respects, don't discard her solely for the fact that when driven to harness she pulls on the bit.

TROTTING IN NEW ZEALAND.

Christchurch, February 8, 1912.

Editor Breeder and Sportsman:

Though Christchurch is the home of light harness racing in New Zealand, its long established supremacy is being seriously challenged both by the Dunedin and Auckland centers. For many years the sport hung fire in Dunedin, the result mainly of mismanagement and lack of high-class competitors. Several seasons ago the Dunedin authorities decided to change their headquarters from Tahuna Park to Forbury Park, and since then trotting in the southern center has gone ahead by leaps and bounds. The track at Forbury Park is undoubtedly the fastest in New Zealand, and when the club erects a new stand and completes other projected improvements it will have a property second only to that of the Metropolitan Club at Christchurch. The Forbury Club holds three two-day meetings each season, one of which took place last week. At this gathering no less than \$12,500 was distributed in stake money, the highest endowed event being the Dunedin Cup of \$2,500, a race confined to harness horses capable of going two miles in 4:45 or better. It attracted fifteen entries of whom nine went to the post. All of these, with one exception, hailed from Canterbury (in which Christchurch is situated), for though there are many useful track horses owned and trained in the southern province, they have not yet reached the same standard of efficiency as have the Canterbury-owned horses. Favoritism for the Dunedin Cup rested with Dillon Bell, a four-year-old son of the California-bred Harold Bell, by Sidney Dillon, and Fannie Bell, the latter a daughter of the local Berlin horse General Tracey and the imported American mare Fannie Belle, by Mambrino King, from Fanny Cloud, by Flying Cloud, from Cashmere, by Sovereign. In his first public appearance, made two seasons ago, Dillon Bell won the Futurity stakes at Christchurch, and in the interim has worked his way right into the forefront of the Dominion's top-notchers. Last season, as a three-year-old, he went a mile in 2:15 and two miles in 4:40-5, but towards its close the little fellow turned somewhat unreliable, the result, no doubt, of too much racing. At the close of the season he was spelled and given a few mares, only being re-commissioned two months ago. Though rather on the small side, as New Zealand horses go, he is a beautifully proportioned colt, and is raced by his owner-trainer, M. Edwards, one of the oldest and best-known reinmen in Canterbury. In the Dunedin Cup, Dillon Bell showed both speed and stamina of exceptional character, and by getting to the end of two miles in 4:35 put up a performance that has only been bettered by King Cole 4:31 and Wildwood Jr. 4:33. The race resulted as follows:

Dunedin Cup (in harness), at 500 sovs.; second 75 sovs. and third 25 sovs. from stake. Two miles.
 1. M. Edwards's Dillon Bell, by Harold Dillon—
 Fannie Belle, 2 sec. (Owner) 1
 4. R. McDonnell's Emmeline, 1 sec. (Owner) 2
 3. D. Spence's Little Tib, 7 sec. (J. Messervey) 3
 8 Lady Clare scr., 7 Redchild 1 sec., 10 Piecework 2 sec., 6 Marie Narelle 4 sec., 5 Sparkling Kalo 5 sec., 11 Prince Warbeck 5 sec., 2 Adonis 6 sec., and 9 Discoverer 7 sec., also started.
 Adonis seemed to be catching the limit pair as they completed a furlong, but they kept him out in the whole round, and passing the stand after six furlongs had been covered, Discoverer and Little Tib were still in front of Adonis, with Emmeline next, then Harold Dillon, who broke on completing the mile. Emmeline rushed through and assumed a strong lead, and with five furlongs to go she was six lengths in front of Dillon Bell, Little Tib and Discoverer following. Dillon Bell gradually diminished Emmeline's lead, but she turned into the straight a length in front. Then Edwards called on the favorite, and in a great spurt he won by a length, easing a trifle in the last two strides. The third horse was ten lengths away; then came Redchild and Adonis. Time, 4 min. 35 sec.

[The figure in front of each horse's name denotes its position in the order of favoritism on the totalizer.]

When fully matured I have no doubt but that Dillon Bell will take a much faster mark than 4:35, indeed it would come as no surprise to find him setting up a fresh two-mile record for the distance. Emmeline, who followed him home, is one of the speediest mares in New Zealand, but, unfortunately, she always fails to go a hard-fought contest over two miles to the limit. Later in the day she acted as runner-up to Granetta, to whom she was conceding six seconds in the Royal Handicap, and left the mile and a quarter behind at a 2:13 gait. Among the other winners at the meeting was Adonis, the promising half brother to Wildwood Jr., by Harold Dillon, who showed further improvement by annexing the mile and a quarter Dash Handicap at 2:18 gait. Another good winner at the meeting was Innisfail, a sister to Dan Patch 2:11 (Australian), who accounted for a high field in the Stewards' Handicap with the greatest ease. This is a filly of great promise, much more so than her full sister, Glendalough, who, though speedy, is decidedly rattleheaded. As usual, Canterbury-trained horses accounted for most of the big purses, and in the matter of training they always hold a big advantage over the Dunedin representatives. However, the latter are gradually on the improve, and before long should be capable of holding their own with the northern contingent.

The New Zealand Metropolitan Trotting Club holds a one-day meeting at Christchurch on Saturday next. Previously this was a two days' feature, but when Parliament decided to curtail the amount of racing, it was one of the meetings to suffer. Most of the good horses engaged at it raced at the Forbury Park meeting, and those that ran into places there have been penalized. This system of penalizing is a most unjust one. It is brought into operation when the handicaps for one meeting are declared prior to another meeting taking place. For example, the handi-

caps for next Saturday's meeting at Christchurch were declared before the Forbury Park meeting was held, quite a number of prominent Christchurch-owned horses being engaged at both places. Several of these ran into second and third money at Forbury Park, and in doing so bettered any of their previous best times. The result is that most of them, though not actual winners, have been penalized for their races at the Christchurch meeting, and I shall be surprised if any of them succeed. It has always been the rule in New Zealand to penalize winners who better their time, and that is only fair, but to penalize non-winners is offering a premium to owners to run their charges crooked.

Two prominent Christchurch trainers, one of whom is known in your city, got mixed up in an assault case when returning home from the Forbury Park meeting, and as a result have had their licenses suspended. A special meeting of the governing body is to be held on Monday next when their cases will be dealt with.

The next meeting of importance in New Zealand is that of the Metropolitan Club, to be held at Christchurch early in April. Owners and trainers are looking forward to a big increase in stake money at this fixture.

FRED THOMAS.

VALUABLE FOR BREEDERS.

In the splendid souvenir number of the Western Horseman just received, James M. Hazleton, a well-known horse breeder who banded such horses as Klemlin, Charley Hayt, Wm. Penn, Early Reaper, Rex Americus, Midnight, Pistachio, Lancelot, Oratorio, Sterling McKinney, Brignoli Wilkes, Inline, Anderson Wilkes, and Sidney Dillon, writes as follows regarding breeding and caring for stallions and mares, and such good advice should be heeded by all who are engaged in the business:

First, attention should be paid to the stallions. Presuming that these have been selected with due care and have reputations as speed sires, the most important thing in order to interest visitors to the farm, is to keep them in show ring condition all of the time. No one knows when a visitor is going to drop in and look the sires over, and the impression they get at this time is apt to influence them greatly in selecting a horse with which to mate their mares. I have had visitors who seemed to be lookers pure and simple, who, after inspecting the horses, have hooked one or more mares because they were impressed with things as they saw them. If these casual visitors are not shown the greatest respect, and are allowed to see the horses at their best, the farm is apt to lose a source of revenue that will spell the difference between profit and loss.

The stallions should be driven every day for exercise. Turning them out in a paddock or leading them at the end of a halter will not do. They have got to be harnessed, and after a drive of several miles, let them step the last mile home fast, with a real brush the last quarter. They will come in steaming and the boys will not like the extra work of doing them up properly, but it's part of their duties and a most important one, too. In this way the stud will be kept in good physical condition and will have a satisfactory percentage of foals. The reason why many stallions are not "sure" is because they are allowed to remain in a box stall or a paddock all day. This has been proven time and again. If driven every day and properly put up afterwards, the stallions will always be in show ring condition.

It is impossible to live up to any one set of rules and make a success of the breeding business. One has to study the individuality of the horses in his charge, and this applies to both stallions and mares. In regard to the mares, cleanliness is the great essential. All instruments used in connection with breeding operations should be thoroughly sterilized previous to being used and should be thoroughly cleaned after being used. This will save lots of trouble.

I believe the best time to mate a mare and horse is in the evening, when everything is quiet around the place. Whatever the time selected, be sure that it is as quiet as possible around the barn. Also be sure that the mare is in a quiet state of mind. Another excellent time is in the early morning. This is especially true if the mare has to be opened up the night previous. Every mare should be examined before breeding, and if any artificial aids are necessary, see that they are performed the evening previous. Then allow the mare to remain quiet all the night and she will be in good condition in the morning.

One reason why there are barren mares is that the man in charge does not carefully examine them previous to the mating, and this is too often the case with old mares that have not been bred for several years. A stallion man who understands his business, can attend to this as a rule very well, but there are occasions when it is necessary to secure the services of a competent veterinarian. I always place a set of breeding hobbles on the mare. Never omit it. Even the best tempered mare in the world may become excited and kick and injure your horse. Several good stallions have had to be killed within the last few years, because some mares kicked and broke their legs. It is cheap insurance. Don't forget that there are plenty of mares and few good stallions, and it is better to be safe than sorry.

I find an excellent method in breeding is to have a special stall constructed for the mare with a movable floor that can be raised or lowered accordingly as the mare is large or small. In front of this stall is a small enclosure in which the mare's foal can be placed. Often if the mare is separated from her foal she becomes restless, but if the colt is right

in front of her, where she can see it and reach it, she will stand contentedly. Anything that will tend to keep the mare quiet is an excellent thing, and this is one of the best and at the same time it is very simple and costs very little to construct.

I never allow a stallion to serve a mare unless I am present, for this is one duty that I never delegate to an assistant. I watch the horse very carefully, for some of the older ones can fool the caretaker, unless he is on the watch, and there will be no foal. Some stallions, especially those that are bred to a large number of mares, are clever in fooling the watcher, and I credit considerable of my success to this one fact. After the mare has been bred remove her to a quiet stall and give her an ear or two of corn to munch on, or a bot bran mash. That will add much to the success of the operation.

As to trying the mares, I have a card on which the mare's name is written and she is regularly tried on the 14th, 18th, 21st, and 27th days. Sometimes a mare will fool even an experienced horseman, and for that reason too much attention can not be paid to this feature, for if the impression is gained that she is not in foal and she is again bred to the horse, the result is a dead colt. As a rule, it is possible to determine at the end of twenty days if the mare is safe in foal, but I have sometimes had them fool me and show no signs until two months. These are exceptional cases, but it is the exceptions that make a man a success in taking charge of a breeding farm. He has got to be on the watch for the unusual all the time, else he will score some failures, and there are enough of these without curting them.

At foaling time it is better to let the mare have her own way. Nature is a great caretaker, and many a nervous mare loses her foal because the man in charge tries to give her too much assistance at this important period. Of course, there are times when a mare must have assistance, especially when the foal comes wrong, but whenever things move right, the less people there are around, the more successful is the foaling. Nature has provided even young mares with an instinct that enables them to sever the navel string in a proper manner and much better than man. I like to have the mare in a place where I can observe her without her knowing it, for if she thinks there are others around, either men or horses, she may become nervous and not attend to her duties as she should and as nature intended.

In case of an abortion, the mare should immediately be separated from all the other horses on the place. It is an excellent thing to have a few isolated stalls in which the mare can be placed in such instances. The fetus should be buried as quickly as possible in quicklime and all traces of blood removed and the mare herself should be carefully washed with warm water in which some good disinfectant has been placed. If these precautions are not taken, other mares are likely to abort, and it is a well known fact that mares in foal often abort at the smell or sight of blood.

There are dozens of little things about a breeding farm that must be attended to, but common sense will dictate the answer to most of the questions that arise. Always bear in mind, that Nature is much wiser than man, and that in their natural state, mares pass through the foal period with little trouble. The great trouble is that mares are kept in a state removed from the natural one, and that the result is that we have to make allowances accordingly. After the foal has arrived, it sometimes happens that the mare will not own her own colt and will not take care of it. This happens more often when there has been assistance at the birth. In such rare instances, the colt should be brought to the mother and the latter must be forced to own it and mother it.

At the end of five days it is possible to turn mare and foal into the pasture. If there are other mares and colts in the field, care must be taken that the mother sticks to her own colt. Sometimes they display a fondness for the colt belonging to some other mare and often it is necessary to place the mare and colt in a separate paddock.

BEAUTY AND SPEED.

The fame of Prince Ansel (2) 2:20½ as a sire of speed is world-wide. The remarkable performances of his sons and daughters stamps him as a sire of more than ordinary merit and worth. His breeding is well known, while, as an individual, he is just the conformation most of our greatest speed sires are noted for. His disposition is faultless and this highly desired trait is found to be possessed by every colt and filly he has sired, even though the dams were noted for their obstinacy and nervousness. Mr. Alex Brown, his owner, has, without doubt, the largest and finest collection of broodmares at present owned by any single breeder on the Pacific Coast, and at the Woodland track, as well as the Sweetwater track, National City, San Diego, there are colts and fillies by this sire out of these mares which, for all the purposes light harness horses are bred, cannot be excelled. Last season only three of his progeny appeared in the races, but they returned to Woodland with many races to their credit. There was Prince Lot 2:09½, Wesos 2:12¼, and Adansel (3) 2:14½; they were trained and driven by Chas. A. Spencer. There are many more which will be heard from this year, and everybody who owns a Prince Ansel is proud of that ownership; and they have just cause to be, for a better limbed tribe of trotters was never foaled, nor a tribe with greater powers of endurance. For further particulars see advertisement.

Drink Jackson's Napa Soda.

W. H. GOCHER'S REPLY.

THE \$26,000 KENTUCKY FUTURITY

Hartford, Conn., March 7, 1912.

Mr. W. P. Ijams, President of The American Trotting Association, Terre Haute, Ind.

Dear Sir:—My attention has been called to the following extract which appeared in "The Horseman" February 27, 1912:

I am glad to see this Association stand on its own bottom. After an action like this, I am proud to be its president. And while I am on my feet I want to answer a remark from one of the Ohio delegates, who described the sentiment in his State, and stated he didn't know how it started. I have no hesitancy in stating that I believe this whole agitation was started by Mr. A. P. Sandles, the Secretary of the Ohio State Board of Agriculture for his own political advancement. I may be wrong (and I hope I am, although I don't think so) but I believe he and Secretary Gocher of the National Trotting Association conspired together to repeal the hopple rule so they could increase the membership of the National Trotting Association."

While I have no means of knowing whether you are correctly quoted or not, I beg leave to advise you that there is no foundation for the belief expressed as to myself, nor for your surmise that Mr. Sandles conspired with me for any purpose. The recent agitation in The National Trotting Association over the hopple rule grew out of two decisions of the Board of Review rendered at its last December meeting. In both of them it was held that the winnings of three-year-olds wearing hoppers were unlawful, and such winnings were ordered redistributed to the horses entitled to them.

Up to that time the officers of many of our associate members were of the opinion that the rule was optional. These decisions enlightened them and after a full discussion and understanding of the question, 295 of the 356 associations represented at the Congress required their votes to be recorded against the rule as it then stood. They acted strictly within their rights. By our laws, each member is "entitled to one vote, and may vote by a delegate duly authorized who shall have the power of substitution." There was an earnest, open contest, both in the committee, and on the floor of the Congress, which resulted in the modification of the rule.

It was an honest difference of opinion, fairly and openly considered, with scrupulous regard for the lawful rights of all concerned. The minority, though outvoted, were in no sense wronged or humiliated, and at once harmonized with their associates by agreeing to the rule conceding three seconds to horses coming from mile tracks to race on half mile tracks. This rule establishes the equality of competition, and is expected to develop the unity of interest that exists where all are seeking to promote a common purpose.

There was no conspiracy or preconceived arrangement for the passage of any rule, or other act of the Congress, and all statements to the contrary are fabrications, and all opinions that there was, are without foundation in truth.

Where there is such diversity of conditions, the welfare of all cannot be identical in every particular, but all are trying for the best, and for unity with all who are devoted to the interest of the trotting and pacing horse.

Respectfully yours,

W. H. GOCHER,
Secretary, N. T. A.

LOS ANGELES NOTES.

Our correspondent under date of March 9th writes: Southern California is enjoying at the present time a bountiful and much needed rain which will be of vast benefit to the whole southern country and will assure good crops, consequently everybody is wearing that glad smile. Things also look brighter for the harness horse industry in Los Angeles than they have for some time. This is entirely due to the financial aid and deep interest being taken by W. A. Clark Jr. and C. A. Canfield. They seem to be untiring in their efforts to further its best interests not only here but on the entire Pacific Coast. They have certainly been very liberal with their money.

There is a big movement on foot at the present time for a harness meeting here this fall, but this will necessitate a whole lot of rustling and will also take the expenditure of considerable money to build a grandstand, stables, etc. Still, I think, with such able men as Messrs. Canfield and Clark at the head of it, there will be no trouble in enlisting the support of all the others who are becoming so deeply interested in this track and the horses that are in training here.

Clarence Berry is also taking a great interest in the sport and I believe is willing to give his assistance to the project, financially and otherwise.

Next Monday or Tuesday there will be a meeting of the Harness Horse Association called. At this meeting there will be something definite accomplished in the way of devising ways and means toward giving a splendid race meeting here this fall.

It is more than likely that Messrs. Canfield, Berry and Clark will build their own stables at Exposition Park, following the example set by C. K. G. Billings at Cleveland.

There are several good young "prospects" here, some of which may prove to be topnotchers a little later on.

We are all pleased to hear Mr. Bailey has purchased the Pleasanton race track. People who love trotting horses as Mr. Bailey does, and have the means to gratify their desires, are certainly welcome additions to the light harness horse industry of California.

Is announced by the Kentucky Trotting Horse Breeders' Association in this issue to close April 1st. Although this great classic has proved the most popular and attractive colt stake ever offered for the light harness horse since its inception twenty-two years ago, it is safe to predict for the Futurity foals of 1912 by far the largest list of nominations ever made in any Futurity.

In the first place, the value of the stake has been advanced to \$26,000, making it by far the biggest and richest colt stake in the world for trotters. This figure is an increase of \$5000 over the Futurity for 1911 and previous years and this added amount will be divided amongst the first four colts in a four-year-old division provided for in the conditions of the Futurity 1912. This division has been designated "The Champion Futurity" and the winner in same in addition to receiving the first money of \$3000, will be presented with a handsome gold cup, appropriately engraved, commemorating the victory. This four-year-old division gives to eligible colts an earning capacity at an age when, on account of being handicapped by a record or for other reasons, the owner would not feel justified in competing with aged and seasoned campaigners and his colt would be out of training with no possible chance to pay his own expenses, not to speak of creating a snug bank account besides.

In the second place, the payments necessary to carry entry to year of race remain the same. In other words, the first payment of \$5 April 1st, and second payment of \$10 Jan. 1, 1913, to keep weanling eligible, constituting only 1/17 of 1 per cent of entire amount of stake, is all that is required to carry entry to four months before race as in the past. Also no additional expense is entailed, except in the four-year-old division itself.

In the third place, the Kentucky Breeders' Association has been importuned for several years past by the breeders of the country, to change the Futurity conditions from three in five to two in three for three-year-olds. That request has this year been acceded to and it is a foregone conclusion that this feature of itself will be no small factor in swelling the list of nominations.

The display ad. of the Futurity will be found on another page of this issue. Read the conditions embodied in same carefully; write for entry blanks; and make your entries on or before April 1st with J. W. Williams, Acting Secretary, Lexington, Kentucky.

NO APOLOGIES ARE NECESSARY.

When the National Trotting Association at their recent meeting, amended Rule 27, they didn't do a thing to it, to make use of a twentieth century colloquialism. Section 5, of the rule reads, "Every heat in the race must be contested by every horse in the race, and every horse must be driven to a finish." By way of amendment it has received the following addition: "This shall not be construed to mean that when a horse is hopelessly beaten, or from a bad start, or other unavoidable cause, the chances to win are destroyed."

In other words the rule, after prohibiting the laying up of heats, goes on to furnish all kinds of excuses by way of condoning the offense when it occurs. If there was either strength or virtue in the section as it stood before, it is surely eliminated by the amendment, says Spirit of the West.

The laying up of heats is one of the hardest propositions racing associations have to handle, because, after all there is a good deal to be said from the driver's standpoint. This racing game, regarded by the general public as "sport," is with the driver, a simple question of bread and butter. Not so simple either, as some other things, on second thought. But it is a business proposition. The driver must connect with the money or go broke and quit the business. So when a man figures it out by the exercise of a bit of generalship, such as laying up a heat, for instance, he can the better go out and win, and get in touch with the money, it is pretty hard to convince him that it is not the thing to do. If by waiting out a heat he thinks his chances are improved for winning in the end, he is not likely to consider it in the light of a great crime. But he can find his own excuses, plenty of them, goodness knows. There was no necessity for the Association to provide apologies in advance. Those words, "bad start," and "unavoidable cause," are sufficiently elastic to cover a multitude of sins.

LETTER FROM VISALIA.

Visalia, Cal., March 6, 1912.

Editor Breeder and Sportsman:

Horse matters have been very quiet in these parts owing to the long drouth. But now it seems a little more hopeful, though crops are far from being an assured thing. It is to be hoped that the season will yet turn out good. If it does, it will put the horse business on such a footing as it has never yet attained in California, with the great interest now directed to it. There is a splendid lot of young horses coming on in this county now. Mr. I. M. Lipson, of Tulare, has a trotting baby by Best Policy, that will not be twelve months old till about the 20th of May, that trotted a quarter in :40½ seconds on Saturday, March 2d. She is large and strong of her age and very pleasing to look at. I am not reporting this with a motive of boosting for its sire, but out of

admiration of its merit and the pleasure that comes to any admirer who does not wallow in the cesspool of selfishness. This is no accident, as it's only one of a number of Policy colts that are showing phenomenal speed. Mr. Lipson's baby is entered in all the California stakes so far.

I do not want to criticize any one, but since referring to this colt as being staked and in view of my own experience and observation as a trainer, I am wondering if we do not all make very serious mistakes in working such precocious youngsters? Some years ago, I was working on a ten-months-old pacing filly, and I still think that she was away out of the ordinary, for by the time she was twelve months of age, I drove her a full mile in 3:00 with the last eighth in :17½ seconds. In the beginning she was a sweet tempered plastic little thing, and up to this time showed no signs of distress of misusage, nevertheless I was working her ruin. She was very clean gaited, and stood on a set of perfect feet and legs. But the bone was so soft that the front shins and ankles began to spring and turn bringing them up to such speed at ten or twelve in and I booted her for protection, she only brushing them lightly in the beginning, but eventually she developed into a real knee knocker of the worst kind. And from the punishment through hitting herself, she almost became an outlaw. I had worked her ruin. No matter how much judgment is used in months of age the bone is too soft to sustain it, and so rapidly do they gain in strength and substance, that they will stand twice the amount of work at 18 months of age that they will at 12, with half the attending danger. At least this is my judgment and experience in all which I have worked. I remember when the great Dorothy Ansel trotted a quarter in 32¼ seconds early in the spring of her yearling form, I remarked that it was her undoing, that with it her glory had departed. The wisdom of this prediction is vindicated by the summaries of her racing in her stake engagements. Perhaps Wilbur Lou was the greatest yearling trotter that ever lived and surely no other ever approached his speed with so little amount of drilling which no doubt accounts for his soundness. Possibly at no time in the history of California were so many good yearlings in training as there were last fall, some of which have trotted miles around 2:30 at different times during the winter. Before many months now they will answer the call for their stake engagements and it is good betting that some yet unheard of colt will land the lion's share of the stakes.

Yours truly,

JACOB BROLIER.

NORTHERN RACING PROGRAMMES.

The horsemen on the North Pacific Circuit are getting their programmes out. The Vancouver, B. C., Association, which is to open the Pacific Coast Circuit, sends out the following:

For Trotters.

| | |
|--|---------|
| Free-for-all, Hotel Proprietors' stake..... | \$2,000 |
| \$400 of this will be for consolation race, first, second and third horses barred. | |
| 2:16 trot, the Druggists' stake | 1,000 |
| 2:25 trot, Citizens' stake | 3,000 |
| \$400 of this will be for consolation race, first, second and third horses barred. | |
| 2:30 trot, Merchants' and Manufacturers' stake..... | 1,000 |
| Stallion trot, two-in-three, half mile heats..... | 500 |
| Two-year-old, two-in-three, half-mile heats..... | 500 |
| Three-year-old trot | 500 |

For Pacers.

| | |
|--|---------|
| 2:05 pace, Vancouver Breweries' stake..... | \$2,000 |
| \$400 of this will be for consolation race, first, second and third horses barred. | |
| 2:14 pace, Real Estate Brokers' stake..... | 3,000 |
| \$400 of this will be for consolation race, first, second and third horses barred. | |
| 2:20 pace, Cascade stake..... | 1,500 |
| Guaranteed by Vancouver Breweries. | |
| 2:30 pace | 1,000 |
| Stallion pace, two-in-three, half-mile heats..... | 500 |
| Two-year-old pace, two-in-three, half-mile heats..... | 500 |
| Three-year-old pace | 500 |
| All races will be five heats, except where noted. | |
| Stake events close June 15th. Purse events close August 1st. | |

Secretary Frank Meridith, of the Oregon State Fair, at Salem, announces the following as the harness racing programme for the fair to be held September 2 to 7 inclusive:

For Trotters.

| | |
|--|--------|
| Two-year-old division Oregon Futurity..... | \$ 900 |
| Three-year-old division Oregon Futurity..... | 2,000 |
| 2:30 class | 500 |
| 2:24 class (Innovation Purse) | 2,400 |
| 2:20 class | 500 |
| 2:15 class | 800 |
| 2:12 class (Lewis & Clark Purse) | 5,000 |
| Free-for-all (Rural Spirit Purse) | 1,000 |

For Pacers.

| | |
|--|--------|
| Two-year-old division Oregon Futurity..... | \$ 600 |
| Three-year-old division Oregon Futurity..... | 1,500 |
| 2:25 class (W. O. W. Purse) | 2,400 |
| 2:20 class | 500 |
| 2:15 class (State Fair Purse)..... | 1,000 |
| 2:12 class (Capitol City Purse)..... | 800 |
| 2:08 class (Greater Oregon Purse) | 5,000 |

This calls for a total distribution of \$24,900 and makes a program that compares favorably with the average Grand Circuit meeting.

READING NOTICE FOR QUINN'S OINTMENT.

Are you acquainted with all the best remedies for removing blemishes from a horse? If you do not know Quinn's Ointment, you are not. It is worth a trial. Mr. Henry O'Neil, a prominent horse trainer, Prairie du Chien, Wis., writes: "I have used Quinn's Ointment for several years and always with the best of results. It is a great absorbent and does all that it is recommended to." Quinn's Ointment will remove a curb, splint, spavin, windpuff or any other enlargement and will save you money. Address W. B. EDDY & CO., Whitehall, N. Y. Price, \$1.00, delivered.

TRACING PEDIGREES.

In tracing obscure or unestablished pedigrees of noted horses, there is danger that the person engaged in the task may not sift the evidence with sufficient care to give due weight to all the facts on all sides. An investigator who makes up his mind before beginning his search for facts that the animal, whose pedigree is sought, is bred in certain lines, is apt to reject as evidence, important facts which tend to show that the animal was not bred as the investigator had hoped or expected to find him or her, and to accept as positive evidence trivial unimportant statements or rumors which tend to show that the animal was bred as the investigator desired.

Such an investigator is evidently not seeking earnestly for "the truth, the whole truth, and nothing but the truth." The investigator may lead others to believe that he is honest and impartial, and may even persuade himself to believe that he is so, but he is so warped by prejudice or self interests that he is incapable of weighing evidence candidly and fairly. It was such an investigation as this that caused Pilot Jr. 12 to be registered as from a dam of unknown breeding whose sire was claimed to be a large bay cart horse, and several other horses have been erroneously registered by means of accepting very weak evidence and rejecting much stronger evidence that pointed unmistakably in a different direction.

In cases of disputed pedigrees the statements of all parties must be considered carefully, as must also the opportunities of the different parties for being well informed concerning the facts upon which their statements are made, the dates when the events occurred, the ages of the parties at the time the events transpired and other social events which occurred at the same time were of sufficient importance to the individuals making the statements to fix the event connected with that particular animal so indelibly in the memory as to render it reasonably sure that there can be no mistake.

It is very difficult for the person of average intelligence to state with certainty from memory the exact dates of events that occurred no longer than ten years past, and the longer the time that has elapsed, the less the certainty that the date of the event can be given accurately from memory alone. Fortunately for the trotting breeding industry most foals in recent times are registered when young, so there can be no doubt concerning either the date of their birth, or their blood lines. Many breeders, however, neglect to register their animals that are not standard bred, which is a great mistake, for disputes are likely to arise over the breeding of some of these non-standard animals in future.

Some very fast record trotters now living are not eligible to standard registry. Uhlan 1:58 1/4 is one of them; R. T. C. 2:06 3/4, the largest money winning trotter in the Grand Circuit last season, is another; Charley Mitchell 2:04 1/4 is another; but fortunately for the guidance of trotting horse breeders the blood lines of the above named noted horses are known.

Since the facts furnished by Dr. J. W. Day have established the breeding of the dam of George Wilkes 2:22 beyond any question of doubt, in the minds of all persons who have carefully compared and weighed all the evidence, and the facts obtained by Joseph Battell have proven beyond a doubt that the dam of the famous sire Wilson's Blue Bull 75 was by a direct descendant of Gen. Jackson's famous thoroughbred race horse Truxton, and that facts point most conclusively to Iron's Cadmus as the sire of the second dam of Electioneer 125, and to old Messenger Duroc by Duroc; dam by imported Messenger, as the sire of the Eldridge Mare, dam of Mambrino Chief II there is now no noted sire of the past half-century whose blood lines are not known.—American Horse Breeder.

THE LIGHT HARNESS HORSE AND CAVALRY REMOUNTS.

The horse upon which the artist painted General Phil Sheridan in the famous ride to Winchester was many removes from a thoroughbred, and there were very few thoroughbreds in the North at the beginning of the Civil War. In the reconstruction period there were but two thoroughbred breeding farms in the United States, Woodburn in Kentucky, and Belle Meade in Tennessee. In 1870 only three hundred and fifty thoroughbred foals were reported to the editor of the American Stud Book. Thousands of horses were used up by the opposing armies in the war which began at Fort Sumter and ended at Appomattox, but very few of these were strictly racing bred. The horses came from farmers who never registered anything, and they were a promiscuous lot. Registration in the American Stud Book and in the American Trotting Register came after the war. These are such well known historical facts that it seems idle to discuss them at length. The horse that was bred for harness purposes did good service when the Blue faced the Gray, and now that he is of much higher type than then, why should we not place faith in him again? Ozono, the strongly built brown stallion at Walnut Hall Farm, illustrates the steady climb to higher platforms. When peace was declared, Rysdyk's Hambletonian was the best patronized trotting stallion, and he traced directly to the thoroughbred horse, imp. Messenger. In 1865 there came into the world 123 foals by him, and at that time he was the sire of 148 yearlings. George Wilkes, a son of Hambletonian, was bred to Belle Patchen, daughter of Mambrino Patchen, he by Mambrino Chief, another foundation sire, and the result was Baron Wilkes 2:18. Queen Ethel, by Strathmore (son of Hambletonian), dam Princess Ethel, by Volunteer, by Hambletonian, was sent to the court of Baron

Wilkes, and the outcome was Moko. Ozama, by Director, by Dictator, by Hambletonian, dam Mary Sprague, by Gov. Sprague, by Rhode Island, was bred to Moko, and the produce was Ozono, who as a two-year-old trotted a mile in 2:17 1/2. The third dam of Ozono was Patchena, by Mambrino Patchen, by Mambrino Chief; the fourth dam was Vandalia, by Revil, son of Vandal; the fifth dam was Judy O'Trot, by a son of the celebrated American Eclipse, and then on through Imp. Priam, Sir Alfred, Sir Harry, Worthy, Buzzard, Highflyer, Squirrel, and Regulus to Bartlett's Childers. Every advance step gave us a better horse, adapted to higher service for the benefit of mankind. Ozono is a sample of hundreds of other modern horses, and only through a violent stretch of the imagination can the average harness horse of fifty years ago be lifted to the plane of the average harness horse of to-day. The light harness horse of 1912 is more widely distributed in this country than any horse possessed of speed, and in an emergency he could make efficient the mounted branch of the military establishment. The best grade of the light harness horse is not found in our cavalry for the reason that the National Government, which has done nothing to evolve him, will not pay the price at which he is sold in the open market.—H. B. Busbey.

THE MEANING OF SOME NAMES.

I have been asked what is the authority for placing the accent on "i" in Arion, writes Hamilton Busbey. Well, the word is Greek and it means martial or war horse. Arion was the horse which Hercules gave Adrastus. Arion was also the horse which Neptune brought out of the earth by striking it with his trident. The horse has for centuries figured in romance and history. The standard of the ancient Saxons was a pure white horse. Abatos was one of the horses of Pluto. Abraxas was one of the horses of Aurora. Aethon was one of the horses of the Sun. Arundel was the horse of Bevis of Southampton, and the word means swift as a swallow. Balios was one of the horses given by Neptune to Peleus and it means swift. Bucephalos was the charger of Alexander the Great. Celer was the horse of the Roman Emperor Velus. It was stalled in the imperial palace and largely fed on almonds and raisins. Incitatus was the horse of the Roman Emperor Caligula, and it had an ivory manger and drank wine out of a golden pail. Phalias was the horse of Heracles. The word means stallion. White Suney was the favorite horse of King Richard III. In Christian art the horse was the emblem of courage and generosity. I have sifted this information from books of reference to show how intimately the horse is interwoven with the development of the races of mankind. He is a part of our lives and it is absurd to talk about his complete elimination. Why is it considered lucky to pick up a horse shoe? At one time horse shoes were nailed up over doors as a protection against witches. Lord Nelson had a horse shoe nailed to the mast of the ship Victory. Thousands of us have our superstitions, and if we can get any comfort out of a horse shoe, why not take it? Some people are more interested in the romantic side of the horse than in the practical side. When oats are high it is cheaper to maintain a horse of fable than one of solid flesh and blood.

C. K. G. BILLINGS BUYS THE HARVESTER.

Chicago, March 13.—Announcement was made today of the purchase by C. K. G. Billings of New York city of the champion trotting stallion The Harvester, record 2:01. The price is stated to have been "in excess of \$50,000." The negotiations on behalf of Billings were conducted by Joseph I. Markey, of Chicago, while J. T. Boyd, of Milwaukee, acted for the August Uhllein estate, which owned the horse.

The transaction makes Billings owner of three world's champion trotters, the others being Lou Dillon 1:58 1/4, champion mare, and Uhlan 1:58 3/4, champion gelding.

The Billings horses will leave about April 15 for Moscow, Russia, where they will be exhibited.

The Harvester is a son of Walnut Hall 2:08 1/4, tracing thence on the male line to Electioneer. His dam, Notelet, is a daughter of Moko, grandson of George Wilkes 2:22, which was a champion trotting stallion in his day. This combines in the pedigree of the present champion the blood of the two most noted sons of Rysdyk's Hambletonian, the greatest progenitor of trotting speed. The Harvester is a good gaited trotter, there being no waste motion in his action, but by reason of having been in training since colthood is not a stallion of the lusty, big chested sort. He is handsome, however, and is in every way the opposite of the Russian breed of trotters, the Orloffs.

A LAME, SORE, BLEMISHED HORSE.

Can be made clean and sound with ABSORBINE. "The Antiseptic Liment." It is the safest, surest and most economical liniment I know of. It may be applied to an open sore or wound, not only with safety but with the assurance that it will kill the germs and cause a healthy healing. This is why ABSORBINE is so successful in Poll Evil, Fistula, Quittor, Wire Cuts, etc. ABSORBINE is very penetrating and soothing, consequently stops lameness promptly and allays pain. A twenty-year record of results makes ABSORBINE the remedy for you to use in removing Bog Spavin, Thrush, Shoe Bolls, Capped Hocks, Swollen Glands, Thickened Tissues, Rheumatic Deposits, Painful Swellings, etc.; to cure any strain or lameness; to repair strained, ruptured tendons, ligaments or muscles; to strengthen any part that needs it. ABSORBINE at regular dealers, \$2.00 a bottle, or sent to you, express prepaid, with full instructions. Interesting book free. W. F. YOUNG, P. D. F., 54 Temple Street, Springfield, Mass.

A SPLENDID SHOWING.

While the season of 1911 fell short of last year in number of new 2:10 trotters, in point of pacers entering the select circle, it exceeded that of any previous season, there being one hundred acquiring records of 2:10 or better, and at this time, the official returns have not yet reached us.

In the list which follows, we furnish in addition to the performer, his color and sire, also the age in each case we have been able to learn. Those marked with an (*) were either bred in California, earned their records here, or by sires that were here or are at present standing for public service on this Coast:

Will G. Durfee has decided to take the following string East: Helen Stiles 2:08 1/4, Carlokin 2:07 1/2. Don Pronto 2:05 1/4, Murico the great three-year-old, Aviator, the brother to Blanch R. 2:06 3/4, and the three-year-old Peter Fairbanks, by Peter the Great.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

ECHOES FROM THE NORTHWEST.

[By August Wolf]

Cost of fencing enclosures and of maintenance or lack of experience, leading to overcrowding and overfeeding the animals, are the chief causes assigned for the failures in skunk farming, says the director of the Biological Survey of the United States Department of Agriculture in a letter to A. C. Ware, the chairman of the fish and game committee of the Spokane Chamber of Commerce.

"Many attempts have been made to raise skunks for their fur, but the enterprises have usually been given up as unprofitable," the writer continues, adding:

"In many cases, where the animals were successfully reared, it was found that the expense of feeding them to maturity exceeded the value of the fur, while in other instances the antipathy of neighbors led to the abandonment of the experiments. At present the value of the best black skins would probably allow a margin of profit in rearing this class of skunks.

The writer gives the following practical hints on skunk farming:

"In the matter of food, the chief aim should be to supply a suitable and sufficient diet at reasonable cost. A certain proportion of meat is necessary, but the animals eat also bread, green corn, clover, tomatoes, and many other vegetable substances. Butcher and table scraps given fresh are the main reliance. The food should not be salted, and fresh water should be supplied regularly.

"Skunks are especially fond of insects, and if the pens are large enough and favorably placed, the animals will forage for a part of their food.

"At least an acre of ground should be enclosed for each 50 skunks, and even then there is danger of cannibalism unless there are plenty of separate dens for the females. The fence should be made of poultry netting one and a quarter-inch mesh. The posts should be set in ditches 18 inches or more in depth, which should be filled with broken stone or concrete. Another plan is to extend the wire netting underground. The fence should be from three to four feet high and have an overhang at the top to keep the animals from climbing over.

"Skunks breed once a year and produce from six to eight young. They are born in May or June and mature by December."

Practical hints on mink farming, which gives promise of becoming an important industry in the Pacific Northwest are contained in a letter from the Biological Survey of the United States Department of Agriculture to Martin J. Wessels, curator of the Spokane Chamber of Commerce, as follows:

"Minks should be kept in the proportion of one male to five or six females, and each breeding female should have a separate pen. Rutting begins about the middle of February, and the young are born about the middle of April. The male should be kept by himself except at mating time, when he should be admitted to the female's pen for about one day. The females must be kept separate or they will be likely to kill each other's young. The male would also kill them if he had a chance.

"Bread and sweet milk, corn-mush and milk, or corn-mush cooked with bits of meat in it, is the best steady food. Meat (which may be of a cheap kind) or fish should be provided about twice a week. Feed once a day, except females that are suckling young, which should be fed twice. Provide fresh water regularly. Do not salt the food. Keep pans clean and feed only as much as the animals will eat up clean at each feeding.

"Pens should be five or six feet square, the sides of smooth wide boards cut four feet long and set up with the lower end resting on a footing of stone or concrete 18 inches in the ground. The sides may be of heavy wire netting instead of boards, but in that case the top would need to be netted or the animals would climb out. Pens may be built economically in groups of four or more. The floor of the pen should be the bare ground.

Boxes about 24 by 18 by 18 inches in size should be provided for nests and have hinged lids so as to allow being opened and examined. The boxes may be outside the pens, bolted to the fence, with a hole in the fence and box to admit the animals. Boxes should be three or four inches above the ground, and should be as dark as possible, with a hole four inches in diameter for the entrance of the minks. A boarded passageway is an excellent device to insure darkness inside the nest box. Fine straw or hay should be provided."

The director of the survey says the fact that the raising of wild animals for their fur is of much interest to many is evidenced by the large number of inquiries received by the department. The government has no publication dealing with the mink, but offers the foregoing as the most practical suggestions on the subject.

NATIONAL RIFLE ASSOCIATION NOTES.

The International small-bore match for 1912 is on. Word has been received from the British Association allowing the United States to shoot their matches at any time most convenient to us, and in accordance therewith it is proposed to shoot the official scores about the first week in April.

As there will be no opportunity to have preliminary try-outs to determine the personnel of the team in the same manner as was done in 1910, the secretary of the National Rifle Association has addressed a communication to all of its affiliated rifle clubs carrying on gallery practice, putting in their hands the organization and carrying on of preliminary trials within the club. The trials are to consist of fifty shots per man, using the prone position at 75 feet, N. R. A. gallery target. The clubs are to report to the association the ten highest men with their scores. These reports, along with the list of men who have qualified as sharpshooters on gallery ranges during the present season, will be used as a basis from which the executive committee will select the fifty men to compose the United States team. Every effort will be made to retain the DeWar Cup on this side of the ocean.

The only change in the match this year is the disallowing of the use of the telescope.

International Teams.—Interest in the rifle teams the National Rifle Association is sending abroad is not abating. Several States have notified the N. R. A. of their intention to send representatives to the trials on the Marine Corps range at Winthrop. California will send two; West Virginia, two; New Jersey, four, and Maine and Texas will also be represented. The old standby shooting States of New York, Massachusetts and Ohio have not yet responded, but in all probability will send the maximum six men each. The Adjutant General of Pennsylvania writes that that great State will not be represented. The Army and Marine Corps will send about twenty each. The Navy has not yet been heard from.

Up to the present time the subscriptions toward the fund to send these teams abroad have been very disappointing. The amount received to date is \$1,224 of the \$15,000 required.

From \$1,224 to \$15,000 is a long road to travel, and will necessitate the rifle shooting fraternity of the country putting their shoulder to the wheel, as we cannot afford to make a failure of this enterprise now.

The 1st Regiment Infantry, National Guard of Missouri, will hold a review, drill and dance at their armory in St. Louis on the night of February 29, for the benefit of the fund, and Colonel Spencer, an enterprising rifle enthusiast, and commanding officer of that regiment, predicts that at least \$200 will be forthcoming from them.

Targets for Try Outs.—A supply of the Olympic targets are on the way from Sweden. These targets will be used in the final try outs for position on the Olympic team as well as in the State trials. The N. R. A. has ordered a supply of these, and will be in a position to sell to the States and individuals at ten cents each. The Association will also in a few days have a supply of sear springs for the service rifle that will pull six pounds, for the use of those who expect to enter the trials for the Argentine team. These springs can be secured from the association at a price of ten cents each.

Indoor Qualifications.—From the number of targets arriving in the office of the N. R. A. showing qualifications as marksmen and sharpshooters, it is evident that the qualifications as laid down is not difficult, especially that for marksmen. Among those who have the sharpshooter's score and received their silver watch fob may be mentioned Captain C. M. Cale, I. S. A. P., 1st Illinois Infantry; Mr. Harry Overbaugh, Philadelphia Rifle Association; Col. John J. Dooley of Maine, John E. Besse, Standish Rifle Club; Eugene P. Carver Jr., Harvard University Rifle Club; Lieut. K. A. Burnham, M. V. M.; E. H. Williamson, Jr., Philadelphia Rifle Association; Captain W. A. Murphy, Federal Rifle and Revolver Club, Boston.

The association is now issuing qualification targets for 50-ft. ranges. The new target is a departure from all other targets in that it has two targets printed on one card. The competitor fires five shots on each target, and thus keeps his entire string of ten shots on one card. This method simplifies the counting and keeping of records.

Amateur Status for Olympic Team.—Word has been received from the Swedish Olympic Committee unofficially that the only men who would be considered as ineligible to compete in the shooting matches at the Olympic games, are those men who are actively engaged in testing and sighting rifles at rifle manufacturing plants. This will bar out very few men in this country, and this interpretation will mean a much larger entry in the trials for the Olympic team.

International Teams.—The Association, not satisfied with undertaking the organization and sending of rifle teams to Argentine Republic and to Stock-

holm, Sweden, has authorized the organization of an international team to represent the United States in the international continental matches, which will be held this year at Bayonne-Biarritz, France, during the latter part of July. These international continental matches are an old established institution. They are the matches of the International Union of National Associations, in which fourteen nations hold membership. The United States has been a member for several years, but has never attended any of the shoots, owing to the fact that the style of shooting is so radically different from that carried on in this country. The rifles authorized and used are of a type called "Schuetzen," and are very heavy rifles with palm rest, hair triggers, and often equipped with peep and globe sights. The shooting is all at 300 meters on a decimal target similar to what is called the German ring target in this country. The team that will represent the United States this year will have to be equipped with this special rifle.

While the French matches are in progress there will be held a convention for the purpose of deciding upon where the 1913 matches are to be held, and the American delegation will present an invitation to that body to have the matches held in the United States next year at Camp Perry, Ohio. Plans for holding the international matches at Camp Perry are under way. A program is now in the course of preparation, and will be printed in four languages, and a supply of them taken abroad by the three teams for distribution among the nations of the world assembled at the three big shooting tournaments.

Ohio has guaranteed \$10,000 for prizes, which will be distributed between two international teams and two international individual matches, and one team and individual revolver match.

The try out to ascertain the number of the team to go to France will be held on the Camp Perry range on May 23, 24 and 25. After these three days' shooting all but twenty-five men will be eliminated, and these twenty-five men will have a further test of their skill and ability on Monday, the 27th.

Indoor Qualifications.—The National Association is now prepared to issue official indoor qualification targets for 50 foot ranges. This target differs from the 75 foot target in that 10 shots will be fired on one target in strings of five in separate bull's-eye. This is done to help in the count, as it is often very difficult to count a close score on such a small target with any degree of accuracy.

International Small-Bore Match.—A representative of the Society of Miniature Rifle Clubs of Great Britain has been in this country the last few weeks, with full authority to negotiate for a continuation of the small bore contest between this country, England and Australia. This representative has conceded every point asked for by our association, and the match will probably be held the first week in April.

Owing to the congestion of work in the office caused by details connected with the organization of the three international teams, and the organization of the three international teams, and the six indoor league matches now in progress, it is utterly impossible for the association to hold try outs similar to those held in 1910, and it will be necessary to arbitrarily select the team, which is composed of fifty men. The selection will probably be from the records of the Inter-Club League matches and the indoor qualification shooting. All those who have qualified as sharpshooters will be considered in the selection of the team to represent the United States.

With eight matches out of the way and one more to go the Western Intercollegiate League shows no change among the leaders. The State University of Iowa with eight straight wins is still in the lead, with the University of Minnesota second with seven victories and one defeat. Again Iowa has the best score for the week, making a total of 940, with the University of Minnesota second with 920.

The scores for last week's matches and the standing to date are as follows:

Iowa University vs. University of California, 940-901.

Michigan Agricultural College vs. University of Michigan 904-869.

University of Nebraska vs. College of St. Thomas, 874-813.

University of Minnesota vs. Kansas University 920-defaulted.

Purdue University vs. University of Arizona, 903-defaulted.

Standing—University of Iowa won 8 lost 0, University of Minnesota won 7 lost 1, Michigan Agricultural College won 6 lost 2, Purdue University won 5 lost 3, University of California won 5 lost 3, University of Arizona won 3 lost 5, University of Michigan won 3 lost 5, University of Nebraska won 2 lost 6, College of St. Thomas won 1 lost 7.

ALBERT S. JONES, Secretary.

Washington, D. C.

An Important Question.—The shooting of wild ducks on the ocean shore line at Bodega, in Sonoma county, the rights of public vs. private ownership of tide lands, etc., are to be sifted in the Superior Court of the county, judging from the fact that J. Robertson has taken an appeal from a Justice Court to the Superior Court of Marin county. Robertson was arrested and fined five dollars by Justice Atkinson for trespass.

Drink Jackson's Napa Soda.

AT THE TRAPS.

The rules for trap shooters at the coming Olympic Games at Stockholm, Sweden, has given rise to quite a lot of discussion among Eastern powder burners. The position to be assumed at the score seems to be the main bit of argument. In this respect we give the opinions of Elmer E. Shaner, secretary-treasurer Interstate Association, Edward Banks, of the du Pont Powder Company and Carl Von Lengerke, which were published in Forest and Stream and forwarded to that journal by request.

Your letter of January 15, relative to trapshooting at the Olympic games, is at hand, and very carefully noted.

I am not familiar with the standard rules governing trapshooting on the other side of the Atlantic Ocean, consequently I do not know how they correspond with the rules issued by the Olympic committee. If said standard rules call for "the butt of the gun to be held between the hips and armpits," I think the committee is well within its rights in enforcing the so-called "field position," but if this rule was manufactured for the occasion, I think it is entirely wrong to enforce it, and pressure should be brought to bear upon the committee to change the rule.

In this connection, I am a firm believer in adhering to rules adopted, and I believe in enforcing them as long as they are in existence, always provided that the rules are not specially made for an unfair purpose; therefore I cannot see how this particular rule is not fair to Americans and others, who are accustomed to hold their guns in any position. We must admit the right of our fellow sportsmen on the other side of the Atlantic to make rules of their own, the same as we do in America, and we should, therefore, be governed accordingly. If the trapshooting fraternity on this side of the Atlantic do not approve of the rules governing, they can exercise that great American privilege which we all have of not making entry for the competition.

Personally, I do not approve of the "field position" rule, as it leads to bickering and much ill-feeling when strictly enforced by the referee. A similar rule was in force in America many years ago, but it was changed to the present rule on account of the wrangling it engendered. With a "quick man" at the firing points, the question was nearly always raised as to whether or not, in placing the gun to the shoulder, the contestant "beat" the target's appearance in the air. I for one, would not care to fill a referee's position with this rule in force.

In my opinion, the "two shots at each target" stipulation, so far as the scores made by trapshooters on this side of the Atlantic are concerned, will figure little, if any, in the final results. They have been so drilled and accustomed to deliver with such deadly effect the one shot allowed by our rules that I very much doubt the use of two shots will make any material difference in the scores made by them. By this I mean that, knowing they have two shots at each target, they will become somewhat careless in delivering the first shot, and the result will be the percentage of extra misses with the first shot, due to this carelessness, will fully offset any extra breaks made with the second shot, the final results being about the same as they would have been with the use of only one shot. The records of the Interstate Association covering those events conducted by it under the rule allowing the use of "two shots at one target" will bear me out in this opinion.

ELMER E. SHANER,
Secretary-Treasurer Interstate Association.

In reply to your favor asking my opinion as to how I like the enforcing of the "field position" at the traps, would say, that across the Atlantic practically everybody adopts the field position at the traps, and in fact, I don't believe they care anything about "gun in any position."

They have also had two very forcible lessons as to what Americans can do with the gun at the shoulder. One lesson was the trip of the American team to England in 1901; the other was the victory of W. H. Ewing of Montreal, Canada, at the Olympic games in 1908. The explanation of the practically universal adoption of the "field position" on the other side of the water, is the fact that trapshooting there is regarded more as practice for "field shooting" than as a sport itself.

You also ask me what my opinion is of the "two shots at each target" stipulation. This really means as I take it, that you can fire two shots if you want to. You surely would not want, and would not be forced to shoot two shots if you broke the target with the first fired at each clay pigeon, it really means "two shots may be fired at each clay pigeon."

Clause 7, which reads, "The competitor must not shoulder his gun and take sight, or rest the butt against his shoulder, before the clay pigeon thrown up has appeared in sight," seems to me a little ambiguous. Translated literally, it apparently means that a man must not align his gun over the trap and then drop it from his shoulder so that the butt is held "between the hips and the armpits." If this is the case, all members of the proposed American team will have to be very careful as to how they handle their gun at the score, or run risk of disqualification. Probably the idea of those who drew up the Olympic rules was that no sportsman would put his gun to his shoulder and then take it down again while a dog was pointing a covey.

Under Section 9, which defines what are "no birds" the shooter is given the right to refuse a broken

target, but there is no provision apparently made for the refusal of a target thrown at an appreciable time after the shooter has called "pull."

One of the most important rules or regulations governing the shooting at Stockholm, Sweden, is that which contains the definition of an amateur. After stating that "the competitions are exclusively confined to amateurs according to the following definition," it goes on to say, "An amateur is one who has never (a) shot in public, or been specially coupled with instruction in shooting with the intention of thereby earning his living; (b) taken part in an open competition for professional shooters; (c) sold, pawned, hired out, or exhibited for payment any prize won in a competition; (d) been engaged at a gunsmith's, and there been specially occupied with sighting and adjusting weapons."

Of the above, section b is probably the most important. EDWARD BANKS.

Replying to your letter of yesterday, will say that I have really not given the Olympic question the consideration it deserves, simply because I have been too busy. However, since you put the question to me, and were good enough to inclose the rules, I have taken the opportunity and time to read it over more carefully and must say that although their ideas of target shooting are much behind the times in "our way" of thinking, yet it is a fair way of shooting, and no doubt those who are thoroughly acquainted with that style enjoy it fully as much as we do our rapid fire system. They have their own rules, which are perfectly fair in their way, and I believe that shooters from other countries going there to compete for prizes should do so accepting those rules without a kick or a murmur.

So far as the "two shots at each target" rule is concerned, I am frank to say that I do not believe it will be of any material benefit to our American target shooters, nor do I believe that the "second shot" will beat them. The "field position" will bother most of the American shooters at this target shooting game, yet I see no reason why an international event such as this, conducted under rules adopted by an association, to govern this event, should be changed to suit any one particular class of shooters.

On the other hand, if any changes can be suggested by you, and could be made without causing any reflections on the good sportsmanship of our American shooters, I would say that rules on the lines of those adopted by the Interstate Association would eventually prove the most satisfactory to all concerned, and those who now enjoy the field style of shooting at targets would perfect their trapshooting. Field shooting and trapshooting each is in a class by itself, and should be conducted under separate style and rules.

I hope "our boys" will go over there, meet them at their own game, beat them on their own "dunghill" and keep up the unblemished reputation of good American sportsmanship, win or lose, and not raise a "howl" about conditions.

CARL VON LENGERKE.

Sixty-seven shooters attended three local blue rock club trap shoots last Saturday and Sunday, as will be noted below. These meets were the initial of one club and practice shoots for the other two. This season at the traps locally, and, from what we can gather, throughout the State promises to be the best in many years.

Saturday afternoon clay pigeon smashing is a sport that will be much followed this season at different trap grounds.

The Exposition City Gun Club took the initiative in this respect Saturday, when a dozen shooters took part in five 25-bird practice matches.

Hoelle broke the only 25-string during the meeting, following with a score of 24. A match was shot at 25 clays between Prior, Higgin and Mansfield against Dutton, Dorsey and Bassett. The three first named shooters won, 63 to 61, out of a total of 75 birds a side. Hoelle shot with the squads and broke 49 out of 50. Emil Holling's 90 per cent average was the highest in four 25-bird events. The scores were:

| Targets | 25 | 25 | 25 | 25 | 25 |
|-----------------|----|----|----|----|----|
| E. Hoelle | 18 | 21 | 20 | 25 | 24 |
| L. F. Prior | 17 | 18 | 18 | 22 | 21 |
| E. Holling | 23 | 21 | 23 | 23 | 23 |
| W. Higgin | 16 | 17 | 18 | 15 | 19 |
| J. W. Dorsey | 22 | 21 | 19 | 19 | 20 |
| H. McMurchy | 18 | 21 | 21 | 19 | 19 |
| C. A. Haight | 14 | 20 | 17 | 21 | 21 |
| H. F. Bassett | 17 | 13 | 17 | 17 | 17 |
| H. Dutton | 12 | 14 | 14 | 15 | 15 |
| A. Farnbacher | 17 | 18 | 19 | 19 | 19 |
| W. D. Mansfield | 13 | 10 | 11 | 10 | 10 |
| J. S. French | 12 | 13 | 13 | 20 | 20 |
| Joe Rische | 9 | 12 | 11 | 11 | 21 |

The Ben Lomond Gun Club, which was recently organized by Santa Cruz sportsmen at Rowardennan, will hold regular shoots this season. At the last weekly meet, the scores in a 25 bird match were: M. A. Perkins 20, F. A. Dickinson 18, W. E. Stevens 13, Charles Paradis 18, Sam Annand 14, P. Peterson 15, W. Lamb Jr. 15, J. Kober 17, R. H. Hamilton 19, E. F. Varroza 19, 16, W. Lamb Jr. 8, H. A. Dickinson 16, 7.

Ten bird match: Dickinson 7, G. Triplett 3, Stevens 3, T. Hersey 5.

Dickinson's score of 21 out of 25 is the best, so far, at the club shoots.

The opening shoot of the Bay View Gun Club last Sunday, on the Golden Gate Club Grounds in Alameda, mustered forty guns on the firing line.

A windy day and cloudy sky effects were not conducive to the piling up of many phenomenal scores. The club roster contains a number of new names this season. Several of the beginners, however, sbot very creditable scores.

Five events comprise the club monthly schedule. No. 1, club medal match; No. 2, Peters trophy; No. 3, Selby trophy; No. 4, Du Pont trophy; 15 targets each. Event No. 5, miss and out.

The club medal shoot was the opening event. Armorer W. H. Price won this match with a straight score of 15 birds. Swales, Morss and Levinson were nosed out by dropping a bird apiece.

Percy Fox hit up the second event for a straight string of 15 targets and won. W. Lancaster, the Oakland shooter, was next up with 14 breaks out of the 15.

George D. Morss kept the 15 straight pace in the third event and shot the winning score. Hughey Wobber led a squad of five thirteens, the nearest scores to the top one.

Fox captured the fourth race with a 14 string. Wobber again headed a squad of five thirteen men.

In the final miss and out shoot, Price again was the winner, breaking 14 straight. J. Vosburgh's 11 was the next best score.

Lon Hawxhurst scored a straight string in the first event, but was not in the medal competition. The scores follow:

| Events | 1 | 2 | 3 | 4 | 5 |
|-----------------|----|----|----|----|----|
| Targets | 15 | 15 | 15 | 15 | 15 |
| W. H. Price | 15 | 11 | 11 | 11 | 14 |
| P. S. Fox | 14 | 15 | 13 | 14 | 6 |
| G. D. Morss | 14 | 13 | 15 | 11 | 5 |
| L. Hawxhurst | 15 | 13 | 6 | 3 | 1 |
| H. Wobber | 11 | 12 | 13 | 13 | 3 |
| J. Vosburgh | 7 | 7 | 7 | 10 | 11 |
| H. D. Swales | 14 | 11 | 13 | 13 | 8 |
| S. Parker | 7 | 10 | 11 | 7 | 3 |
| C. A. Haight | 10 | 10 | 11 | 12 | 3 |
| G. Killam | 9 | 10 | 6 | 9 | 4 |
| H. C. Peet | 9 | 8 | 11 | 10 | 6 |
| J. W. Dorsey | 13 | 11 | 11 | 13 | 7 |
| H. McMurchy | 13 | 12 | 13 | 14 | .. |
| L. Vosburgh | 13 | 13 | 8 | 13 | .. |
| J. H. Jones | 6 | 10 | 11 | 11 | .. |
| W. J. Higgin | 9 | 9 | 6 | 7 | .. |
| McGill | .. | 13 | 9 | 11 | 2 |
| W. A. Simonton | .. | 9 | 10 | 13 | 6 |
| W. B. Sanborn | .. | 12 | 12 | 11 | .. |
| P. Ashcroft | .. | 7 | 11 | 7 | .. |
| M. O. Feudner | .. | 13 | 9 | 10 | 8 |
| J. Millett | .. | 6 | 8 | 8 | .. |
| G. Millett | .. | 8 | 8 | 8 | .. |
| E. L. Viers | .. | 8 | 12 | 9 | .. |
| C. Lancaster | .. | 8 | 12 | 11 | .. |
| Putzer | .. | 5 | 7 | 8 | .. |
| Howlett | .. | 5 | 12 | 13 | .. |

| Schreiber | .. | 10 | .. | .. | .. |
| Meinecke | .. | .. | 5 | .. | .. |
| L. Nogusi | .. | .. | 5 | .. | .. |

J. F. Mallory again led the trap shooting at the Los Angeles Gun Club's trap shoot held at Venice, Sunday, February 25, with a total club have been classified according to their ability and several beautiful trophies have been donated for the winners of the competition shoots. Following are the scores:

| Targets | 25 | 25 | 25 | 25 | Ttl. |
|----------------|----|----|----|----|--------|
| Miller | 22 | 22 | 16 | 18 | 78 |
| Bull | 23 | 22 | 20 | 20 | 85 |
| Pugh | 22 | 23 | 20 | 88 | Malory |
| Middleton | 19 | 21 | 18 | 19 | 77 |
| A. Bruner | 20 | 21 | 18 | 19 | 78 |
| Peterson | 19 | 17 | 21 | 16 | 72 |
| S. Bruner | 22 | 22 | 22 | 89 | Trens |
| Clemons | 19 | 18 | 16 | 17 | 70 |
| Van Valkenberg | 23 | 23 | 22 | 22 | 90 |
| W. H. Wilshire | 16 | 20 | 20 | 16 | 77 |
| Great | 16 | 13 | 19 | 17 | 65 |

Secretary J. A. Adelman writes: I am sending you the scores of Portland Gun Club of Sunday, February 18. The club is growing very rapidly, all the shooters except Veatch and Reid being amateurs. The majority of them are new shooters:

Cullison, 94, Ellis 93, Abraham 92, Wagner 92, Young 90, Veatch 89, Morris 88, Knight 88, Holohan 87, Long 84, Rice 82, Steanke 82, Mrs. Koehler 82, Honeyman 80, Connell 80, Fay 80, Beno 80, Beck 80, Reid 80, Carlson 79, Sequin 79, Love 78, Bakman 77, Mathews 76, Sequin 76, Fay 76, Price 74, Loomis 74, Boesman 74, Zimmerman 72, Cofoid 70, Jones 69, Nogo 68, Joy 68, Lown 60.

While the day was not any too pleasant at Denver, Colo., recently, yet twelve of the trap shooters showed up at ten o'clock, waited an hour for it to quit snowing, and then smoked 'em up. Harry Keefe, the well-known professional, was high with 96 out of 100. R. E. Murray and B. Moritz tied for high amateur with 91 out of 100. The scores at 100 birds were:

Harry Keefe 96, G. Burt 95 Wm. Bowman 9, Bert Moritz 91, R. E. Murray 91, McDuffee 87, S. Bell 82, E. Johnson 80, Bradberry 79, Skinner 78.

There was an attendance of about seventy-five prominent sportsmen of Cincinnati, Philadelphia, Lexington and other Kentucky cities gathered at the grounds of the Hilltop Gun Club at Austerlitz, Ky., on Monday, February 26, to witness the first match in the series of three for supremacy between J. D. Gay, of Pine Grove, Ky., and Harry W. Kahler of Philadelphia, Pa., according to the Sportsman's Review.

SAN FRANCISCO SHOW.

Mr. Gay is a veteran in the game and is reckoned one of the best wing shots in the country, har none; Mr. Kahler is one of the younger generation of shooters who has taken front rank among the crackerjacks of the East, and in that section they have the best. The conditions under which the match was shot could hardly have been harder. A gale of wind blowing from the southwest, quartering toward the traps, made quick and accurate work absolutely necessary.

Hon. T. A. Marshall of Keithsburg, Ill., was referee and Frank Pragoff, of Louisville, Ky., official scorer.

Kahler won the toss for position and fired the first shot at 2:10 p. m., killing his first 12 straight, but the 13th proved a hoodoo, and was lost. Gay dropped two in the first 10, the first 25 being finished with Kahler one bird in the lead. Score, 22 to 21.

In the next 25 Gay lost hut two, while Kahler lost four, and the match was half over with Gay one bird ahead. Score, 44 to 43.

The third round of 25 was Kahler's, on a score of 20 to 19; this made the contestants tied on 63 birds out of 75. During the last round the light was getting rather poor, and the wind seemed to increase in force. In this round Gay forged to the front, killing 21 to Kahler's 18, and winning the match by three birds.

Taken altogether the match was the finest and cleanest exhibition of skill which has been seen at the traps in this part of the country.

Following are the scores of the first match:

Table with 2 columns: Name and Score. J. D. Gay.....22200222202202222222222222-31. H. W. Kahler.....22222222222222222222222222-21.

The scores of the second match, which came off Wednesday, February 28, were:

Table with 2 columns: Name and Score. J. D. Gay.....222*22222*2222*2222222222-22. H. W. Kahler.....22222222222222222222222222-22.

The third match was shot Friday, March 1, the scores were as follows:

Table with 2 columns: Name and Score. J. D. Gay.....2222*22222222222222222222222222-23. H. W. Kahler.....22222222222222222222222222-21.

The conditions were \$500 a side for each match at 100 birds per man, 30 yards rise, loser to pay for the birds.

Meridian Gun Club shooters attended the club shoot at Meridian Corners, near San Jose last Sunday. A heavy wind puzzled most of the boys. J. Bollinger with 58 out of 72 birds, was high gun. Other scores were: F. Allen 28 out of 60, C. Litchfield 47-84, A. Sutherland 46-84, J. Bryant 27-36, H. Gordon 45-72, B. Lorrigan 39-48, T. Bollinger 26-36, R. Murray 49-72, R. Murray Jr. 9-24, S. Blackman 13-24.

A live bird shoot is the club program for tomorrow.

The Easton Gun Club Saturday afternoon shoots will start in today. Last Sunday fifteen members participated in a series of 25 target practice shoots.

The results were: J. B. Lee 19, 21, 21, 19, 17, 21, 25, 21, Lester Prior 17, 21, 18, 18, 18, 18, H. P. Jacobsen 17, 16, 18, 18, 18, D. B. McDonald 14 11, 5. Zachman 10, 8, 10, E. L. Hoag 17, 17, 16, 16, 17, Ed. Levy 16, 17, 17, 17. Alton 17, J. A. Rice 11, 13, 9, 7. Holbrook 14, 17, E. R. Cuthbert 19, 18, 17, 18, Emil Holling 17, 20, 21, 20, 18, Bert Gracier 19, 18, E. L. Toepke 19 18, 16.

Doubles—12 pairs and 1 target—Lee 19, Prior 17, Jacobsen 11, Hoag 12, Levy 16. Lee shot up a 25 straight in one event whilst the wind was blowing heavily.

The Golden Gate Gun Club program for this season for the regular club shoots, the third Sunday of each month, embraces four events, a total of 100 targets.

Event 1, 20 targets, 16 yards. Four classes—90% and over, 75 and under 90%, 60 and under 75%, 60% and under, five merchandise prizes in each class.

Event 2, grub shoot, 10 targets. Event 3, Selby and Peters trophies, 20 targets, distance handicap, 14 to 21 yards. Winner to have choice of trophies.

Event 4, Du Pont trophy, 50 targets, high average for the season of seven shoots—350 targets, to win.

The club's opening shoot will take place tomorrow.

A number of field trial handlers in the big open countries ride horseback and run down the unsteady one and command staunchness, by riding up to the point and using the whip at the proper moment. The antics of an old timer amused me on one occasion. He carried a goodly supply of rocks in his capacious pockets, and as the young dog drew in to point he got close to him; if he showed any inclination to chase the bird flushed he threw rock after rock at him. He eventually secured his point, despite the old weapons used.

The fourteenth annual hench show of the San Francisco Kennel Club, February 29, March 1 and 2, has the distinction of being the second five point show held in this city for several years past. The show was held under National Dog Breeders' Association rules. The prior five point show was given by the same club.

A total of 314 exhibitors representing San Francisco and nearby points within a radius of 50 miles—there was one entry from Oregon and one from Los Angeles and one from Sau Luis Ohispo, a strong evidence of enthusiastic local support for the "home rulers."

The number of dogs entered was 475 accounting for 571 entries, according to the catalogue. Of these less than 10 were absent when the judging number was called. The exclusion edict of the A. K. C. representatives had a beneficial instead of a deterrent effect. Many entries were offered after the closing date; had the club officials started their office two weeks sooner than they did, possibly 100 more dogs would have been entered.

The different breeds were judged by J. E. Wehster of St. Joseph, Mo., C. W. Buttles of Kansas City, Mo., and G. S. Halliwell, formerly of Boston. Chas. R. Harker who was down for bulldogs and St. Bernards was unavoidably kept away by reason of illness in his family.

The awards of the judges met with general approval. Here and there a change of former position, between close rivals, was made, a result of condition and accepted in good faith.

The gate was very good the opening afternoon, better in the evening and improved each afternoon and evening, far better than at any of the club's shows in six years past. The benching arrangement was convenient alike for spectator, exhibitor and occupant, the only drawback being the unsanitary old junk benching that has been in commission on the Coast for 15 years past, a menace to young dogs particularly. Coast kennel clubs should own their own henching.

The general class and quality of the dogs shown compares very favorably with past shows. One pleasing fact in connection with the show was that most of the winning dogs were homebred—here the one dog man stood out prominently. Many of the winning dogs would be in the money at any show. A list of the breeds and entries here follows:

Table with 4 columns: Breeds, Dogs tries, Breeds, Dogs tries. St Bernards (R.C.) 10, Bull Terriers 12, St. Bernards (S.C.) 1, French Bulldogs 5, etc.

The section of the hall where the sportsmen's favorite breeds were located was the center of attraction for devotees of upland and marsh hunting. The entry of pointers, setters and Irish water spaniels was notable in numbers and for the generally good condition in which the dogs were shown at the close of the shooting season. Not for many years past has there been henching a better averaging lot of bird dogs in this city.

The English setters, of course, showed the advantage of careful grooming, but to the eye of the sportsman quite a few of the two breeds showed the condition and shape that the hunting season imparts to a good gun dog, and a pleasing sight it is.

Miss Helen Gabriel's Manzanita, the winning English setter dog, is by Champion Mallwyd Invader, out of Lady Kate, and a most pleasing style of dog. J. M. Elliott's Handsome Jennie, a granddaughter of Ch. Mallwyd Beau, won the special for best of opposite sex. Sven C. Phil Wand's field trial setter, won the blue ribbon in the challenge class. Taking the English setters all together, a half dozen could be picked that would be in the money at any hench show, here or across the water.

R. W. Lewis' Boots was awarded the special for best Gordon over a rather good class for this breed out here.

The pointers also came in for much praise from those who fancy the short-haired, clean-huilt upland working dog. Dr. C. L. Six of Stockton owns the winning dog and bitch pointers. Dick Swiveller was put in the ring in splendid shape and won over his kennel mate, reversing decisions that had been awarded Meade's Princess last year. Princess seemed in too fine condition, the dog showing in more sturdy shape. At the same time, both are fine examples of the modern pointer, there being but little difference in good points between the two. With

this breed, also, there could be selected a nice string that would not be overlooked by any show ring judge.

In the collie competition a large class was entered. The principal specials were won by Valverde Kennels' dogs, home bred ones, Mrs. A. Green's Scotchman, a grand headed, strong-boned and acceptably coated dog, winning the special prize for best in the graduate class. Mrs. E. F. Green's Skye terriers were the winners of the principal awards for the breed. Mrs. H. Harrar's Lohurnum Mite won the Pomeranian special cup prize. In toy poodles the entries of Mrs. Brighton swept the field. The Chihuahua dogs shown were all good specimens. Sam Goldberg's Bonita annexed the special for best.

When the Airedale terrier classes were judged a large and interested audience thronged the ringside. This breed of game and useful dogs has come rapidly to the front on the Coast in the last decade. Otto Feudner's Parnassus Outlaw won the special for best shown, and several of his progeny were also on the receiving list for ribbons and prizes.

Tamalpais Shortall, a son of old Ch. Ben Ali and owned by Mrs. Sidney St. Cavill, carried the colors of victory over a scrappy and clean built looking set of hull terriers.

Frisco Bahe, owned by W. V. N. Bay, one of the best Irish Water spaniel hood matrons on the Coast, won the special cup for the breed. Frisco Donovan, J. Hervey Jones' hunting dog, was awarded the prize for best of opposite sex.

The water dogs were a far better lot than is usually seen on the benches. This breed has advanced here steadily during the past decade and is a growing favorite.

Judge Butt's awarded the special for best Irish setter to Robert F. Larkin's Milo L., a previous winner at different shows.

George B. M. Gray's St. Lambert's Belle won the special for best of opposite sex. The Irish setter entries were also a pleasing exhibit throughout. The first award of the judges was a blue ribbon to H. Takiguchi's Dick—which goes to show that the Japs know something about good dogs other than the chrysanthemum plumed spaniels.

One dog that attracted more attention than any other was Tom O'Day's English bulldog Julian Street Prince. The dog was presented to O'Day in London by the National Sporting Club of that city and this show was the first one for him in this country. Prince has all the earmarks of quality and has shown that by many wins on the other side.

Cocker spaniels were the largest class of the breed ever berthed on the Coast and full of quality.

Jack W. Matthews' Athens' El Mario Nell won the Breeders' cup for best whelped in 1911. George A. Nieberger's Brynword Camille won the special for best, V. Ruh's Beacon Light getting the special for best of opposite sex.

Sturgeon Protection Beneficial.—The long close season on sturgeon has accomplished much good, practically saved the fish from extermination in California waters. The weight limit at present is 25 pounds.

A sturgeon with the dimensions of a shark was brought to Chico last week by Sacramento fishermen who have a station 13 miles from that city. Very often sturgeon are captured in the Sacramento river along with salmon, but this is the first that is duly entitled to the sobriquet of "whopper." Here are a few figures indicating the size of the novel catch. Weight when caught, 285 pounds; length, slightly over seven feet; weight when dressed, 160 pounds; value to fishermen, 10 cents per pound, or \$16. There were extracted from the mammoth fish 47 pounds of eggs, or spawn, valued at \$11, making the total value of the fish to the catchers, \$27.

The sturgeon eggs will be converted into what is known as caviar, a delicacy which is enjoyed by many epicures and which comes in little tin boxes stamped with untintelligible Russian letters.

The taste for this delicacy is cultivated. Some are never able to achieve a liking for the fish eggs, despite their caviar label. It is considered to be quite the thing to enjoy the delicacy, which has a taste similar to that of a combination of old leather and feathers.

Peters Points.

On February 19 the five-man team representing the Cuyahoga Rifle Club of Cleveland, Ohio, in the National Rifle Association Inter-Club Matches scored the remarkable total of 995 points out of a possible 1000—equaling the world's record in this style of shooting—that is, 25 yards, prone, open sights, 22 caliber.

The individual scores are as follows: W. C. Andrews 200, J. Humphrey 200, M. M. Foster 199, F. C. Fry 199, G. L. Hale 197; total 995.

Each member of the team shot Peters 22 caliber long rifle semi-smokeless ammunition, as has been their custom throughout the series of matches. Mr. Fry in the last five Inter-Club matches has scored 998 out of a possible 1000, a record that has not been excelled or equaled for five consecutive matches. The members of the Cleveland team are all loud in their praise of Peters semi-smokeless cartridges, which they say are absolutely perfect and the most uniform ammunition they have ever had any experience with.

BUYS HERD OF 31 JERSEYS.

W. Fisk, a progressive dairyman of Lucerne farm, in the West Putah creek section, has decided after four years of exhaustive tests, that the Jersey cow for the economical production of butter fat, on a straight alfalfa diet, is the cow for him, and has hacked up his judgment by investing in 31 head of the St. Lambert strain at long prices. Twelve head of these are registered, the balance very high grades. He favors the St. Lambert strain by reason of large udders and well spaced teats.

On March 12th this herd will start on a yearly official test under the supervision of the University Farm. It is confidently expected that the cows will make a showing far beyond the average dairy herd; fourteen head, now milking, with first calf, have an average test of 6.8 per cent butter fat. Those familiar with cow testing at the different periods of lactation will have to admit that for strictly fresh cows this test is going some and is bound to bring home the long green.

Mr. Fisk is now corresponding with Hood farm of Massachusetts, the originator of St. Lambert strain, for a suitable sire to head the herd and in the event of a deal, Davis will be on the map as a producer of fine Jerseys. In addition to his new purchase he has on hand 17 head of his own raising, two and three years old, that are under official test and which are producing from 40 to 59 pounds of butter fat per month. Taking as an illustration the latter amount, this cow, allowing the regular overchurn, is making 70 pounds of butter per month on a strictly alfalfa hay diet.—Contributed.

TRIANGLE TRIP

OVER THE

Northwestern Pacific Railroad

One of the most delightful scenic one-day jaunts in America.

150 miles of Mountain and Redwood Forest Scenery, a Boat Ride on San Francisco Bay and by rail along the Russian River.

Leave San Francisco 7:45 A. M. daily except Sunday, and 8:45 A. M. Sunday only, by boat across the Bay of San Francisco, in full view of the Golden Gate to Sausalito (the Sorrento of America). Thence via picturesque San Rafael and thriving Petaluma (home of the chicken industry), through Sonoma Valley to Santa Rosa and Fulton. From Fulton, through magnificent mountain scenery and redwood forests and along Russian River, to Monte Rio. Return is made along the coast, passing Tomales Bay, Point Reyes, San Anselmo, etc., to Sausalito, arriving at San Francisco 7:35 P. M. daily the same evening.

If preferred, trip can be reversed, leaving San Francisco at 8:15 A. M. via the coast to Monte Rio and returning along the river and through the valleys, arriving at San Francisco 7:35 P. M. daily except Sunday and 7:05 P. M. Sunday the same evening.

Round Trip Fare for Triangle Trip, \$2.80, except on Fridays or Saturdays, it is \$2.50 and on Sundays only \$2.20.

Tickets on sale at 874 Market Street (Flood Bldg.) and Sausalito Ferry Ticket Office.

The Detroit Driving Club

FOR ITS 28TH ANNUAL

BLUE RIBBON MEETING

July 22, 23, 24, 25, 26, 1912,

ANNOUNCES THE FOLLOWING EARLY CLOSING PURSES:

| | |
|---|----------|
| No. 1—2:24 Class, Trotting, "Merchants' and Manufacturers' Stake" | \$10,000 |
| No. 2—2:13 Class, Pacing, "Chamber of Commerce Stake" | 5,000 |
| No. 3—2:10 Class, Trotting | 3,000 |
| No. 4—2:16 Class, Trotting | 3,000 |
| No. 5—2:05 Class, Pacing | 2,500 |
| No. 6—2:16 Class, Pacing | 2,000 |

CONDITIONS.

Entries Close Tuesday, April 2nd.

When Horses Must be Named.

The Detroit Driving Club holds membership in the Grand Circuit, the Great Western Circuit, the National Trotting Association and the American Trotting Association.

Rules of the National Trotting Association will govern except as otherwise specified.

Two or more horses under the same ownership or control or trained in the same stable may start in any race, but rules regarding assistance and interference will be rigidly enforced.

Events Nos. 1, 2, 4 and 6 will be decided by the best 3 in 5 heats, limited to a maximum of five heats, and all starters shall continue in the race to the finish unless distanced or drawn. In case of a tie for first place in the summary at the end of the fifth heat, the horses so tied shall race an extra heat to decide the winner. Events Nos. 3 and 5 will be decided by the best 2 in 3 heats and will continue until a horse has won two heats, and non-heat winners shall be ruled out only when three heats have been raced.

Entrance is 5 per cent of purse and 5 per cent additional from winners of each division of same, but in case two or more horses are entered by the same stable in the same class, full 5 per cent entrance is charged on only one horse. And for each additional horse the entrance is only 1 per cent. But full 5 per cent entrance will be required from each starter.

Entrance is Payable in Easy Installments as follows:

| | April 2. | May 7. | June 4. | July 9. |
|--|----------|--------|---------|---------|
| M. & M. Stake—One nomination | \$75 | \$100 | \$150 | \$175 |
| Each additional nomination | 20 | 25 | 25 | 30 |
| C. of C. Stake—One nomination | 50 | 60 | 65 | 75 |
| Each additional nomination | 10 | 12 | 13 | 15 |
| 2:10 Trot and 2:16 Trot—One nomination | 30 | 35 | 40 | 45 |
| Each additional nomination | 5 | 7 | 8 | 10 |
| 2:05 Pace—One nomination | 25 | 30 | 30 | 40 |
| Each additional nomination | 5 | 6 | 7 | 7 |
| 2:16 Pace—One nomination | 20 | 25 | 25 | 30 |
| Each additional nomination | 5 | 5 | 5 | 5 |

Liability of Nominator Ceases When Written Notice of Withdrawal is Lodged With the Secretary.

Entrance must be paid on each Horse named and every Horse named is entitled to Start.

Horses not named April 2d cannot start.

When entries close April 2d you know exactly what horses can start. There is no opportunity to buy nominations for fast horses that show later.

Other events will be announced later to complete the racing program for five days, July 22-26, with classes to suit campaigning stables, especially those represented in the stakes. Past classes will be 2 in 3. Horsemen are invited to furnish lists of horses for which classes are desired.

The State Fair Grounds at Detroit will be open for trainers about the middle of April. First-class stabling, pure water, green grass, shade trees, cinder paths, good jogging roads, and one of the best tracks in the country, afford ideal conditions for the preparation of race horses. Secure stalls early.

Horse—COVERS 58 FORMS OF

LAMENESS—ILLUSTRATED.

Mailed Free to Owners, Trainers and Managers, Only.

JUST NOTE THE KIND OF WORK THIS HORSE DOES IN 5 DAYS' TIME.

Troy Chemical Company, Binghamton, N. Y.:

Dear Sirs: I have used your remedy now for five days and must say it is wonderful; did not expect any such results. The horse had not been able to put her heels to the ground and when she walked she would barely touch her toe to the ground and then jump with the other foot. I gave her the first treatment Sunday noon and when I went in the stable Monday morning she was still resting the foot, but when I made her stand over she put the foot plumb on the ground, and bore her weight on it; then I took her out and she walked on it very well. I put her in the team Thursday afternoon and went in the woods after a load of wood, and got in a place where they had to do their best or stay there. She lifted as hard as ever I saw her. I expected to see her lame next morning, but she was not. The trouble seemed to be in the lower part of the tendons of her hind leg. Under these conditions, how long shall I continue to treat her?

Very truly,

R. H. WILLIAMS.

YOU WILL OBSERVE THERE WAS NO FEVER OR ENORMOUSLY SWOLLEN LEG, NOR LAYING UP OF THE HORSE WITH THE TREATMENT.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

With a binding contract to refund money or cure any case of Bone and Bog Spavin, Thoropin, Ringbone (except low), Curb, Splint, Capped Hock, Windpuff, Shoe Bole, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual.

Most Central Track in California.

San Jose Driving Park

SAN JOSE, CAL.

1 hour and 20 minutes from San Francisco. 20 minutes from business center of San Jose by street car.

The Most Perfect One-Mile Training and Racing Track in the West.

Large, tight-board paddocks, with running water in each, at the disposal of patrons. All stalls 12 x 14 feet, with 12-foot shed running full length. Boarding house on the grounds.

Plenty of green feed the year round. Stalls \$2 per month. Shipping station, Hillsdale, Cal. Free track and feed rooms. Address all communications to

RAY MEAD, San Jose, Cal.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$2 each per month. The finest climate in California and the track over which world's champions have been made. Address S. H. BURNS, Proprietor, Santa Rosa, Cal.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE.—Mike C., bay gelding, pacer; sired by Sidney Dillon. Has only raced in amateur races. Good prospect for the circuit. For particulars, write J. RYAN, Sonoma, Cal.

CLOSING OUT.—Sixty head of young mares and mules. One four-year-old, two-thousand-pound Percheron stallion. Might consider some trades. N. FARNSWORTH, R. D. 3, Bakersfield, Cal.

STANDARD McKINNEY STALLION FOR SALE OR LEASE.—Scott McKinney 33749, by McKinney, dam Primrose (great broodmare) by Sidney; second dam Brown Rose by Privateer; third dam Lady Baldwin by The Moor; fourth dam daughter of Ben Lippincott, son of Williamson's Belmont. Scott McKinney is a handsome bay horse; weighs about 1100; good gaited, and all his get are fine individuals and show speed. Price reasonable. Has State license for this year. Address DR. M. F. SCHALTENBRANDT, 4051 20th St., San Francisco.

WHO WANTS THIS GOOD COLT?—Lynwood Ayers, 2 years, by Lynwood W. 2:20, out of Irene Ayers, full sister to Jasper Ayers 2:09 and May Ayers 2:23. Irene's trial 2:32 at 3 years, ten weeks off pasture. Lynwood Ayers is entered in Breeder Stake No. 10; also Stanford Stake for 1913. Will sell Lynwood Ayers for \$200. If I don't sell him will sell his entry for what it cost me—\$33.00, I paid into the above Stakes. He is nicely broken; never trained, but very promising. H. T. OWEN, 921 Oregon St., East Bakersfield, Cal.

FOR SALE.—A black stallion; hind pasterns white; stands 17 hands high and weighs 1300 pounds. Sired by Monterey 2:09 1/4; dam Leap Year 2:26 1/4 (dam of Yosemite 2:19, California trial 2:16 1/4), by Tempest 1881; second dam by Commodore Belmont 4340. Sire and dam registered. This grand-looking horse can show a 2:30 gait, and is a fine, clean-gaited trotter; needs no boots, and I think will learn to trot fast. Will make a sire of very useful horses for either track or road. He is sound and all right. On account of ill health I must sell him. Price reasonable. Address P. J. WILLIAMS, San Lorenzo, Cal.

FOR SALE.—Beautiful Trotting Mare; color brown; coming 5 years; dam by Zombro; full sister to Zomalto; very promising; fast trotter; has only been worked the last 3 months and can trot close to 2:20 on mile track. She is also a fine roadster; city broke. Registered Electioneer-Wilkes mare; bay; coming 7 years; by Expedition; dam by St. Vincent; second dam by Guy Wilkes; third dam by Baron Wilkes; fourth dam by Geo. Wilkes. She was bred by C. W. Williams of Galesburg, Ill. Is a fine driver and has speed. Should make an excellent brood mare.

No fancy prices asked. Write to E. F. BINDER, 1364 West 5th St., Riverside, Cal.

FOR SALE.—Arawana B. by Sidney Dillon; dam Lily Stanley 2:17 1/2 (dam of 3 in 2:30) by Whippleton, etc. This is one of the most stylish, best-broke and purest-gaited trotters in California. She is in foal to Prince McKinney (2) 2:29 1/4 (trial 2:13).

A two-year-old filly by Prince McKinney (2) 2:29 1/4, out of Arawana B., a pure-gaited pacer with a world of speed; nicely broken.

A two-year-old filly by McKena (son of McKinney 2:11 1/4 and Helena 2:11 1/4 by Electioneer; dam Zorilla (dam of Prince McKinney (2) 2:29 1/4) by Dexter Prince; second dam Lily Thorn by Electioneer, etc. A fine trotting "prospect"; perfectly broken; level-headed.

Both of these are entered in the Futurities and all payments made. On account of my ill health I must sell these splendid individuals. They can be seen at McKinney Stables, 36th avenue and Fulton street. For price and further particulars, apply to stables. F. GOMMETT, Owaer.

FOR SALE.—Maud Jny C., the dam of Nearest McKinney 2:13 1/4, and also El Angelo by The Angelus 2:07 1/4, at Banta, and another very promising colt by Star Pointer at Eureka that is a whirlwind pacer. She also has a filly by Bon McKinney that cannot be beaten. Maud Jny C. is a beautiful mare having color, size and conformation. She is a fine roadster and a lady can drive her. She was bred to Tom Smith 2:13 1/4 in 1911, but failed to get with foal. Maud Jny C. is registered standard. She was sired by Nearest 2:22 1/4, out of Fanny Menlo, dam of Claudius (4) 2:13 1/4 by Menlo 2:21 1/4; second dam Nelly Anteeo by Anteeo 2:16 1/4; third dam Panny Patchen (dam of California Nutwood, a sire) by Geo. M. Patchen Jr. 2:27. As a broodmare she is destined to be one of the greatest if her four foals are any criterion. I will price her very reasonably. For further particulars, address T. W. BARSTOW, Driving Park, San Jose, Cal.

FOR SALE, CHEAP.—One registered stallion, sired by McKinney 2:11 1/4; 8 years old; sound. Also one imported draft registered stallion; weight 1800 pounds; 7 years old. Would consider trade on heavy mare or standard-bred mares, or fillies. Breeding and pictures sent to interested parties. Address D. A. BAKER, Hill P. O., San Diego, Cal.

GOOD ONES FOR SALE.

PAL (2) 2:17 1/2, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (2) 2:20 by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24 1/2 made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no hopsies. By Palite 45062; dam Babe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; a good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15 1/2; second dam a producer by Anteeo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOLLA, a standard bred 4-year-old filly by Nushagak, sire of two 2:10 performers, dam by Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15 1/4) by Ansel; third dam Mayflower 2:30 1/2 (dam of Manzanita 2:16 and Wildflower) by St. Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in all of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address E. D. DUDLEY, Dixon, Cal.

DISPERSAL SALE.

I must move owing to the sale of my property, consequently must dispose of all my horses, a list of which follows:

Zomstein, a very handsome four-year-old bay pacing stallion by the great Zombro 2:11; dam by Steinway. He has had very little work, but can pace halves in 1:06 and quarters in 31 1/2 seconds. This fellow is sound, gentle, and is a good-gaited, good-headed horse and will do to race.

Zomie Secretary, a two-year-old black trotting colt by Zombro; dam by Secretary, is well staked and will do to spend some money on. He has been a mile in 2:45, last half in 1:20, last quarter in 37 1/4 seconds. This fellow is entered in all the stakes on the Pacific Coast.

A yearling, full sister to Zomie Secretary, is a very handsome baby and is also staked throughout the West.

Zomie Gray, two-year-old gray colt by Zombro; dam by McGrath, has been a quarter in 40 seconds and is also staked.

High Pride, a very handsome stallion by Judge McKena, out of Whisper (dam of Zombro 2:11), is as handsome as his dead brother and acts like as good a trotter.

A yearling, full sister to Lady Garland, three-year-old, trial 2:14 1/2, and five weanlings by The Bondsman, Zombro, etc.

For further particulars, prices, etc., address GEO. T. BECKERS, 3727 So. Figueroa St., Los Angeles.

HOMEPHONE PRAISED.

A new subscriber writes the Home Telephone Company under date of October 28, 1911:

"Please install a phone at my home. I did not know anything about the good points of the Homephone and was rather prejudiced against it until I began using it in my office. I use it all the time now, not only in phoning around the building, but getting outside numbers, because it saves me time and trouble. The Homephone delivers the goods."

"You know the burners of candles rioted in London about 500 years ago when gas was introduced. Most of us object to changes. Possibly that is the reason why I am so late in ordering a Homephone."

PUBLIC TRAINING STABLE.

Al. Russell, Los Angeles, Cal.

I have decided to make my home in Los Angeles, Cal., and will conduct a Public Training Stable. I would be pleased to meet or correspond with parties having horses to train or race. My stable is located on Menlo avenue, between 38th and 39th streets, one-half block from the New Exposition Track. This year I will race my horses through the Canadian and Pacific Circuits, starting about June 1st. AL. RUSSELL 910 W. 39th St., Los Angeles, Cal.

CHARLES JAMES.

Public Training Stable

Pleasanton Race Track,

Pleasanton, Cal.

Trotters and pacers trained at reasonable rates for this season's campaign. Best of care given. Developed and drove the following better than 2:13 in 1911: Prof. Heald 2:09 1/2, Cresto 2:12 1/2, Bodaker 2:13, Merryfena 2:23 (miles in 2:12) and Reina Directum, matinee, 2:11, over the Stadium track. These are all trotters. Address CHARLES JAMES, Pleasanton, Cal.

The Kentucky Futurity

Value \$26,000 and Gold Cup. Closes April 1, 1912. Fee \$5 per mare.

Opened by the Kentucky Trotting Horse Breeders' Association for foals of 1912, the produce of mares nominated April 1, 1912, or their substitutes as provided below, divided as follows:

| \$5,000 for 2-year-olds to Trot At Fall Meeting, 1914 | |
|---|-------------------------------------|
| \$3,000 to first. | \$150 to nominator of dam of first. |
| 1,000 to second. | 75 to nominator of dam of second. |
| 500 to third. | 50 to nominator of dam of third. |
| 200 to fourth. | 25 to nominator of dam of fourth. |

| \$14,000 for 3-year-olds to Trot At Fall Meeting, 1915 | |
|--|-------------------------------------|
| \$3,500 to first. | \$200 to nominator of dam of first. |
| 1,250 to second. | 100 to nominator of dam of second. |
| 750 to third. | 75 to nominator of dam of third. |
| 250 to fourth. | 25 to nominator of dam of fourth. |

| \$5,000 and Gold Cup for 4-yr-olds to Trot At Fall Meeting, 1916 | |
|--|-------------------------------------|
| \$3,000 to first. | \$150 to nominator of dam of first. |
| 1,000 to second. | 75 to nominator of dam of second. |
| 500 to third. | 50 to nominator of dam of third. |
| 200 to fourth. | 25 to nominator of dam of fourth. |

\$2,000 for 3-year-olds to Pace at Fall Meeting, 1915. \$1,200 to first, \$500 to second, \$200 to third, \$100 to fourth.

ENTRANCE \$5 To accompany nomination of each mare April 1, 1912. \$10 January 1, 1913, when color and sex of foal must be given. Nothing more until June 1 of year they start, no payment being due in 1914 or 1915 on colts not intended to start until 1916.

FUTURE PAYMENTS AS FOLLOWS:
 FOR 2-YEAR-OLD TROTTING DIVISION: \$25 June 1, 1914; \$50 Sept. 1, 1914; \$100 night before race.
 FOR 3-YEAR-OLD TROTTING DIVISION: \$50 June 1, 1915; \$50 Sept. 1, 1915; \$250 night before race.
 FOR 3-YEAR-OLD PACING DIVISION: \$25 June 1, 1915; \$25 Sept. 1, 1915; \$50 night before race.
 The races for 2-year-olds and 3-year-olds will be mile heats, 2-in-3, to a finish on the following conditions: A horse winning two heats will be awarded the race. If the race is not ended at the conclusion of the third heat, a horse not standing for money will be ruled out.
 FOR 4-YEAR-OLD TROTTING DIVISION: \$50 June 1, 1916; \$50 Sept. 1, 1916; \$100 night before race. Best 3-in-5 heats.

If a nominated mare has no living foal on January 1, 1913, her nominator may substitute another mare and foal regardless of ownership.

All payments forfeits. National Trotting Association Rules in force in 1911 to govern with exceptions noted. No hopped horses allowed to start. Name, color and pedigree of nominated mare, and name of stallion serving same in 1911, must be given in entries, which, accompanied by payments, must be mailed on or before April 1, 1912, to ED. A. TIPTON, President. Address the Breeder and Sportsman for official conditions and blanks. W. WILLIAMS, Acting Secretary, Lexington, Ky. 40th Annual Meeting October 8 to 19. About \$50,000 in fixed events for Fall Meeting 1912 will be announced shortly, to close June 1. Apply in May for Blanks.

Greatest Sale of Trotting Stock in California!

AT EXPOSITION RACE TRACK, LOS ANGELES, WEDNESDAY, MARCH 27, 1912, At 10 A. M.

All the Youngsters are in Training. There's Not a Cripple in the Lot.

For the following reasons I have decided to hold a sale of the choicest bred and most promising trotters and pacers I have ever handled: 1st—I have determined to take a small string of horses East this year. 2d—I do not care to carry over any until next season. 3d—I am determined to sell now that I have brought these along to a point where I know they have given every indication of having extreme speed. 4th—They are sound and ready to go on with. 5th—I have no "culls" to sell. 6th—These are all the well-bred horses I have excepting Carlokin 2:07 1/4, Copa de Oro 1:59, three brood mares and the few colts which are heavily engaged in the Eastern stakes, and a few aged horses. 7th—I have no farm to keep them on, and the expenses of paying for pasturage on such a large number is too much.

DEL OESTE, a four-year-old brown colt in May, sired by Del Coronado 2:09 1/4, dam Little Agnes (trial 2:20) dam of Jupiter B. 2:12, a good mare by Gossiper 2:14 1/4; second dam Leonor 2:24 (dam of 7 in 2:30, two better than 2:10 and another with a matinee record of 2:08 1/4) by Dashwood; third dam a great broodmare by Echo; fourth dam by Rifleman, son of Imported Glencoe. Del Oeste is a clean-going pacer, wears no hoppers, has a matinee record as a three-year-old in May of 2:12, over a half-mile track. He has been two miles in 2:09 this season. Will be a 2:05 pacer this year; is sound, rugged and ready. Been an eighth in 14 seconds repeatedly; has paced halves in 1:02 1/4. This horse is capable of getting the world's record for four-year-old pacers this year.

ZOMWOOLSEY, bay stallion, seven years old, by Zombro 2:11, dam Queen (trial 2:20) by Woolsey (brother to Sunol 2:08 1/4, world's record holder); second dam by Will Crocker (full brother to Fred Crocker 2:25 1/4, another world's record holder) by Electioneer 125. Zomwoolsey is a free-legged pacer, has been a mile in 2:07 1/4. Last week he worked a half in 1:02 1/4, and if he goes into the right hands will undoubtedly get a very low mark. Have every reason to believe he will be better than ever. He is strong, rugged and in fine condition to go on with. Absolutely sound and kind.

ZULU BELLE, a six-year-old black mare by Petigru 2:10 1/4, dam Johannah Treat (dam of Del Coronado 2:09 1/4, etc.). Zulu Belle has a trotting record of 2:18 1/4; won every race she started in as a two and three-year-old. She commenced pacing last June and has shown her ability to pace in 2:05. She paced a half in Phoenix in 1:00 1/4. No hoppers; big, strong, kind and remarkably level-headed. Only wears a pair of quarter boots; never wore hoppers. Barring accidents will be as good a green pacer as there is in America this year. Is a good doer, is dead game and can go like a runner. She has paced eighths in 14 seconds on several occasions. Standard and registered.

HASTINGS, bay stallion, four years old, by Del Coronado 2:09 1/4; dam Sappho 2:15 1/4 (trial 2:08) by Robert McGregor 2:17 1/4 (sire of dams of Jay McGregor 2:07 1/4, Grattan Boy 2:08, Elmore 2:08 1/4, York Boy 2:08 1/4, Blizzard 2:09 1/4, etc.); second dam Pauline (dam of Sappho 2:15 1/4 and three sires) by Ashland Chief 751, son of Mambrino Chief 11; third dam Rosena by Abdallah 15. With very little training trotted trials in 2:21 1/4 and will get a record of 2:10 this year if given an opportunity. Has no record. Is perfectly sound. Stands 15 1/2 hands, and when matured will weigh 1200 pounds. He is a remarkably handsome stallion of show horse type. Standard and eligible to be registered. His breeding is of the stoutest and best. By one of McKinney's greatest race winning and choicest bred sons, out of one of Robt. McGregor's fastest daughters, and she out of a famous speed-producing mare. Hastings should, when his days of racing end, be invaluable as a sire of handsome, stylish, perfect trotting horses; sire and dam registered.

WILKES BOY JR. 39058; brown stallion, sired by Wilkes Boy 2:24 1/4; dam Carona by Liberty Bell 2:24 (son of Bell Boy 2:19 1/4 and Prefix by Hancock, etc.); second dam Carna (dam of Aurita 2:25 1/4, Carnation 2:26 1/4 and Axewood, sire of 2) by Nutwood 2:18 1/4; third dam Candace (dam of Albert Lee 2:26, a sire) by Harold; fourth dam Fairy Belle (dam of 2) by Belmont 64; fifth dam Waterwitch (dam of 6) by Pilot Jr. 12, etc. As can be seen he is one of the best-bred stallions in America. He is nine years old; stands 15:2 1/4 hands; weighs 1050 pounds. Has never been trained, but can show a 2:10 gait. Is good gaited; does not wear boots and does not pull. Should be one of the greatest of sires.

TOM MOKO 57294, a trotting stallion six years old, by Moko (the great Futurity sire) out of Hazel Nutwood (dam of 3 trotters and 2 dams of 2 trotters) by Nutwood 2:18 1/4; grandam Corabell by Joe Gavin 564; great grandam by Louis Napoleon 207. He stands 16 hands high, weighs about 1200, beautiful rich cherry bay, black points and is a remarkably well formed horse. Has trotted in 2:16, last half in 1:06 as a four-year-old. Will go in 2:10, barring accidents this year. He was bred to a few mares and all proved with foal. His colts are a great recommendation for him. He is a show horse and one of the handsomest moving horses in this State. Kind and tractable; "a gentleman among trotters!"

BEATRICE ZOMBRO, handsome bay mare, 16 hands high, weighs 1150 pounds. Is seven years old and has a foal by Carlokin 2:07 1/4. With very little work she showed 2:29 speed as a three-year-old. Sound and gentle. Sired by Zombro 2:11; dam Atherine 2:16 1/4 (dam of Copa de Oro 1:59 and Crescendo, trial 2:13 1/4, etc.). Standard and registered; a regular breeder. Zombro mares are exceedingly scarce and there are few to be bought which are as well bred or perfect as Beatrice Zombro.

CONSUELO B., by Del Coronado 2:09 1/4, a handsome three-year-old dark brown colt; good gaited; will do to race. Entered in Oregon Breeders' Futurity stakes. Only trained six weeks, trotted in 2:35; last eighth in 18 seconds. This colt is also out of Atherine 2:16 1/4 (dam of Copa de Oro 1:59, Stallion 2:21 1/4, etc.) by Patron 2:14 1/4; second dam Athene (dam of 2) by Harold 413; third dam Minerva (dam of 2) by Pilot Jr. 12; fourth dam Bachante Mambrino.

FULTON G., by Carlokin 2:07 1/4; a two-year-old bay colt; good size and a perfect type. Entrance on him is paid up in Oregon Breeders' Futurity stakes. Fair's Occident and Stanford stakes and the Canfield-Clark stakes. Good gaited and level-headed. Came off pasture in December 1st, trotted in 2:39 1/2, last eighth in 18 1/2 seconds on February 16th. Sound.

REGALO, a three-year-old bay trotting colt, by Nutwood Wilkes 2:16 1/4, out of Ludenia (trial 2:14) dam of Lou Derby 2:17 1/4, by McKinney 2:11 1/4; second dam Lucy R. 2:18, by Sultan 2:24; third dam Lucy Mackey (dam of Oakland Baron 2:09 1/4, sold for \$30,000) by Silverthreads; fourth dam Fleetwing (dam of Stamboul 2:07 1/4, sold for \$51,000), by Hambletonian 10. This is the making of a great trotting horse. I did not intend to sell him, for I believe he is one of the best bred and most promising horses I ever owned but I must dispose of all but the older stallions. Regalo is fit for racing or to head any stock farm. A glance at his breeding is convincing and an inspection of him will cause anyone to say he is hard to excel anywhere. He will be one of the fastest of the family. In my opinion I think he is all I bred him for. Regalo's sire and dam are registered standard.

PRINCESS REDLAC, chestnut four-year-old filly by Redlac 2:07 1/2, out of Princess Louie 2:19 by Del Coronado 2:09 1/4; second dam Lady Inca (great broodmare) by Inca 557; third dam Paine Mare by White Cloud; Princess Redlac is a pure-gaited trotter. Less than 90 days after being taken up she trotted a half last week in 1:12. She is a very level-headed trotting mare and will make some one a high class one. She is strong, well made and handsome. Both sire and dam were extremely fast; both had better than two-minute speed and this filly is in their class.

SELMA BELLE, three-year-old bay filly by Peacock, a son of Iran Alto 2:12 1/2, dam Hanford Belle (trial 2:16 trotting) by Col. K. F. 2:19 1/2. Selma Belle is a trotter and a very fast one; good gaited, and a good doer; was taken up December 1st, and on February 1st trotted in 2:28, half in 1:12.

MARY, a three-year-old bay filly, by Star Pointer 1:59 1/4, out of Leonor McKinney 2:08, by McKinney 2:11 1/4. (I consider her dam the fastest pacing mare I ever gaited; she paced eighths in 33 1/2 seconds); second dam Leonor 2:24, dam of 1 (see Del Oeste). I believe Mary is the handsomest filly of her age in California. She is a pacer. I worked her about six weeks in her two-year-old form and she showed a mile in 2:38, that was in the fall. I concluded to lay her over and raise a colt by Copa de Oro from her, so I bred her this spring to him. When it comes to speed inheritance who has a greater one, or who has one that will produce greater speed?

GOLD LILY, two years old this spring, by Copa de Oro 1:59, dam Lilly Mc. 2:24 1/4 (trial 2:14) by McKinney 2:11 1/4; second dam Pond Lilly 2:29 1/4, by Geo. M. Patchen Jr. 2:27. This is a phenomenal pacer. Have driven her 30 days and although hardly broken can step a quarter in 36 1/2 seconds. Entered in the Breeder and Oregon Futurity stakes.

CARLOS, a coming two-year-old black gelding by Carlokin 2:07 1/4, dam My Irene S. (dam of the sensational nine-months-old filly I sold for \$1500 last week) by Petigru 2:10 1/4; second dam Johannah Treat (dam of Del Coronado 2:09 1/4, etc.) Carlos is a full brother to that phenomenal youngster. He came off the grass December 1st and trotted a half in February in 1:14 1/4. He is good headed, perfect mannered and pure-gaited. If ever there was a stake winner foaled Carlos is the one. He is entered and paid up in the following stakes: Oregon Futurity, Breeders' Futurity, Canfield and Clark Stake, Occident Stake, and Stanford Stake, and will undoubtedly capture his share of them. I know of no horse in the West that I would sooner take a chance on than I would on Carlos.

ACCLAIM, a black filly, coming two years old, sired by Carlokin 2:07 1/4, out of Lady H. 2:26 by Del Coronado 2:09 1/4; second dam by Gossiper 2:14 1/4; third dam by Hesperion, son of Satellite; fourth dam by Sultan 2:24; fifth dam by Overland. Acclaim has had very little work but shows well. She reminds me very much of Sonoma Girl 2:04 1/4 in appearance and pure trotting gait. Is a beautiful filly and is entered and paid up in the Breeders' Futurity, Canfield and Clark Stakes, Occident Stake and Stanford Stake.

BLANCHE, a ten-months-old brown filly by Directum Penn 2:12 1/4 (sixth heat in a winning race) by Directum 2:05 1/4, out of the dam of Wm. Penn 2:07 1/4. Blanche's dam was Caroline C. (a mare that as a three-year-old trotted quarters in 30 seconds) by Axtell 2:12; second dam Expedition by Expedition 2:14 1/4; third dam Lurline by Princeps. Blanche is a Simon-pure trotter. Her breeding is of the best; she is in perfect condition and will show for herself on the day of sale. Entered and paid up in the Oregon Futurity, Breeders' Futurity, Canfield and Clark Stake, Stanford Stake and Occident Stake.

VASSALITE, a two-year-old chestnut stallion by Vassar 2:07 1/4, out of the dam of Zomwoolsey (see Zomwoolsey). This is a beautiful youngster; handsome as a picture. He trots now, but pacing is his gait and he will undoubtedly be a good game one. He should be extremely fast and is a perfect type of a good horse.

CARLOTTA D., a twelve-months-old filly by Carlokin 2:07 1/4, out of Lady Hackett (quarter in 30 seconds) by Jerome; second dam by Onco, son of Altamont 2:26. Handsome, big trotting filly. Is a remarkably fast lot trotter; has been hitched only a few times. Entered in a number of stakes.

Sale Preemptory. Everything offered will positively be sold to the highest bidder.

Catalogue free.

J. DAVID WEST,

1265 and 1267 Golden Gate Ave., near Filmore,

Phone Park 1253.

San Francisco, Cal.

(No. 10 V). Highest grade soft flexible Vulcan leather Bell Quarter Boot ever made, with latest improved anti-chafing roll—smooth lining that cannot chafe, metal loop fastener. It is light, strong, well-shaped, and the best seller we have ever handled.

Price \$4.10 net.

Keller Toe Weight.—Strongest, simplest and most practical toe weight ever made. Absolutely dependable—put on without tools, bolts, nuts or springs. Can't come off till you take it off. Convenient holder for quarter boot strap. Can't throw off or rattle and fastens tighter at every step.

Price per pair, any size 2 to 6 oz. 75c net.

CLIP YOUR HORSES

Clipped horses work better, feel better, look better, and are worth more than unclipped horses. Clip off the thick, heavy coat that holds sweat and dirt. Clipped horses dry quickly, rest well and get more good from their food. They come out refreshed and look and work better.

This Stewart Ball Bearing Clipping Machine is acknowledged in every civilized country on earth as the finest outfit ever made for horse clipping. It has all file hard cut steel gears, enclosed, protected and swimming in oil. Friction and wear reduced to minimum. Turns easiest, clips fastest, lasts longest. Guaranteed for 25 years. Price, complete, \$8.50

Prince McKinney (2) 2:29 1/4 Reg. No. 51803

Winner of 2-y.-o. Trotting Division Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by McKinney 2:11 1/4, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lilly Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17 1/4, that sired Sidney, grandsire of the world's champion trotter, Lou Dillon 1:58 1/2.

Prince McKinney is a handsome dark bay horse, standing 16 hands and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St. SAN FRANCISCO, CAL.

Good opportunity for San Francisco owners of good mares to breed them to a high-class stallion. FEE \$40 (cash), with return privilege. F. GOMMET, Owner. Apply or address F. E. BURTON, McKinney Stables, 36th Avenue, San Francisco.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11 1/4

Bay stallion; 15 1/2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barcana (dam of Bayard Wilkes 2:11 1/4, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03 1/4, Denervo 2:06 1/2, Nordwell 2:05 1/2, Memonia 2:03 1/2, Demonio Wilkes 2:03 1/4, Ben Rush (3) 2:10 1/2, Grace R. 2:10 1/2, Miss Winn 2:12 1/4, Normono 2:14 1/4, and is a full brother to the sires, Diablo 2:09 1/4, sire of 50, Arner 2:17 1/4, sire of 2, and Don Derby 2:04 1/2, sire of 1.

Will make the season of 1912 at SUI SUN STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address RUSH & HAILE, Suisun Stock Farm, Suisun, Cal.

Shipping Fever

Influenza, pink eye, epizootic, distemper and all nose and throat diseases cured, and all others, no matter how "exposed," kept from having any of these diseases with SPOHN'S LIQUID DISTEMPER CURE. Three to six doses often cure a case. One 50-cent bottle guaranteed to do so. Best thing for brood mares. Acts on the blood. 50c and \$1 a bottle. \$6 and \$11 a dozen bottles. Druggists and harness shops. Distributors—ALL WHOLESALE DRUGGISTS.

SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

BREED TO THE BEST BRED TROTTING STALLIONS!

Palo King 2:28 1/2 --- Reg. No. 44910.

Sire of Little Lucille (3) 2:09, the greatest pacer of her age on this Coast. Sired by Marengo King 2:29 1/4 (son of McKinney 2:11 1/4 and By By by Nutwood 2:18 1/4); dam Palo Belle 2:24 1/4 by Palo Alto 2:08 1/4; second dam Belle Isle (great brood mare) by Piedmont 2:17 1/4; third dam Ida Belle (great brood mare) by Hambletonian 10; fourth dam Godfrey Star by American Star 14. Palo King is a beautiful bay, stands 16 hands, is a pure-gaited trotter, and all his progeny are intelligent, have style, finish and extreme speed. TERMS \$25 for the season.

Iran Alto 2:12 1/4 --- Reg. No. 24586.

Sired by Palo Alto 2:08 1/4; dam Elaine 2:20 (dam of 4 trotters, 1 sire of 15, 2 dams of 9) by Messenger Duroc; second dam Green Mountain Maid (dam of Electioneer and 9 others in 2:30) by Harry Clay 45, etc. Iran Alto was one of our gamest trotters. He has 15 in 2:30, 3 dams of 3 in 2:30. TERMS \$15 for the season.

Alto Express --- Reg. No. 57364

Sired by Iran Alto 2:12 1/4; dam Beautiful Bird by Nutwood Wilkes 2:16 1/2; second dam Expressive (3) 2:12 1/4 (dam of Atlantic Express (3) 2:08 1/4, Esther Belle 2:08 1/4, and the dam of Eva Bellini, timed as a two-year-old in 2:11 1/4, as a three-year-old beat 2:10 in her races) the greatest racing daughter of Electioneer. Alto Express is a perfectly made trotter and will undoubtedly be a sire. TERMS \$20 for the season.

For further particulars, address H. S. HOGOBOOM, Woodland, California.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/4. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California);

dam, Daphne McKinney (also dam of Frank N. 2:07 1/4, the only other one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11 1/4, Yolande 2:14 1/4 and Tina 2:20 1/4) by Guy Wilkes 2:15 1/4; third dam, Moscova 2:28 1/4 (dam of Mamie R., 3-y.-o., 2:15 1/4, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino.

BON MCKINNEY 51480 (3) 2:24 1/4 is a beautiful bay horse and is in every respect a magnificent individual, possessing size, style, quality, intelligence and frictionless trotting action. With little work as a yearling he trotted a quarter in 35 seconds and a half in 1:13. The next spring as a two-year-old, with 2 1/2 months' work, he worked a mile in 2:19 3/4, a half in 1:08 and a quarter in 32 seconds. Having no stake engagements, he was taken out of training after making this wonderful showing for a two-year-old. There is no doubt he could have trotted a mile in 2:12 that year had he been worked until fall. As a three-year-old he was given a record of 2:24 1/4, which is no mark of his speed. Mr. Ted Hayes trained him and says that he considers him the best colt he ever trained and firmly believes that he will not only make a great race horse, but a great sire. As a two-year-old he was bred to ten mares and got nine foals, and everyone who has one of his get is confident that he has the best foal on the coast. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is a young horse and has already commenced to make his mark in the world, and now is the time to breed to him and take advantage to get something exceptionally good at a reasonable price. Study his pedigree, come and see him, and you will be sure to send your mare.

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59 1/4.

Dam Effie Logan (dam of Sir Albert S. 2:03 3/4; Jim Logan 2:05 1/4, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 1:25 1/2 (sire of Shecam 2:12 1/2 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javein 2:08 3/4, etc.); 3rd dam Grace (dam of Daedalion 2:08 3/4, etc.) by Buchanan, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15 1/2 hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to **The Harvester 2:02**

Sired by **Ozono**, trial (2) 2:17 1/4, sire of **Norvalon** (4) 2:22 1/4, by **Moko** 2:45 1/2 (sire of **Pereno** 2:05 1/2, **Brenda Yorke** 2:04 1/4, **Native Belle** (3) 2:06 1/2, and the dam of **The Harvester** 2:01. First dam **Maggie Yeazer** (dam of **Walnut Hall** 2:08 1/4, sire of **The Harvester** 2:01, etc.) by **Red Wilkes** 1749; second dam **Docia Payne** (great broodmare) by **Almont** 33.

Black Hall is a very handsome black horse, standing 15 1/2 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS:** \$50 for the season; usual return privilege. California Stallion License. Pure bred.

ATHADON 20990 Reg. (1) 2:27

Sire of **The Donna** 2:07 1/4, **Athasham** 2:09 1/4, **Donasham** 2:09 1/4, and 15 others

Sired by **Matadon** 9392, sire of **Athadon** (1) 2:27, etc. First dam **Athalie** (dam of 7) by **Harkaway** 11808; second dam, **Mag** by **Alcalde** 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of **Kinneys** (2) 2:18 1/2, winner 2-y.-o. pacing division **Breeders' Futurity**

Sired by **McKinney** 2:11 1/4 (sire of 23 in 2:10 list). First dam **Palavena** (2) 2:19 1/2, also dam of **Mendovena** 2:19 1/2, and **Menlo** 2:29 1/4, sire of **Blanche R.** 2:06 1/2, by **Palo Alto**, rec. 2:08 1/4, Reg. No. 5354, he by **Electioneer** 125; second dam **Astoria** (dam of **Palavena** (2) 2:19 1/2 by **General Benton** 1755; third dam by **Kentucky Prince**, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15 1/2 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS:** \$25 for the season; usual return privilege. California Stallion License No. 126. Pure bred.

These horses will make the **Season of 1912 at FRESNO, CAL.,** at **Geo. L. Warlow's ranch.** Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **Geo. L. Warlow, Fresno, Cal.**

NOGI 2:10 1/2

Winner of **Pacific Breeders' Futurity**, **Occident** and **Stanford Stakes**, and never beaten as a three year old.

Sired by **Athablo** 2:24 1/4. First dam **Cora Wickersham** (dam of **Athasham** 2:09 1/4, **Donasham** 2:09 1/4, **Nogi** 2:10 1/2, **Mattawan** (3) 2:17 1/2, **Kinneys** (2) 2:18 1/2) by **Junio**; second dam by **Whippleton** 1883; third dam by **Gladiator** 8326.

Nogi 2:10 1/2 is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

Season of 1912 at barn of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madera, Cal.**

Geo. L. Warlow (Owner), Fresno, Cal.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by **Bon Voyage** 2:08; dam **Loma B.** by **Stam E.** 2:11 1/4; second dam **Italia** (great broodmare) by **Sidney** 2:19 1/4; third dam **Dot** 2:29 by **Prompter**, sire of dam of **Gratt** 2:02 1/4. **Nobage's** first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free.

Will make the season of 1912 at **EASTERBY RANCH**, 3 miles east of **FRESNO, CAL.** **TERMS:** \$50 to insure. Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

Sire of (Bert Kelly (trial) 2:11 1/2
Trix McAdrian 2:23 1/4
Grace Chalmers (tr) 2:24

Sired by **GUY MCKINNEY** (sire of **Vernon McKinney** 2:02, **Linden Girl** 2:22, etc.); dam **MAPLE LEAF** 2:34 1/4 by **Adrian** 2:26 1/4 (sire of **Roseta A.** 2:14 1/4), son of **Reliance** 2:22 1/4 and **Adriana** by **Skenandoah**. **McAdrian's** granddam was **OLLIE RAY** 2:39 1/4, dam of **Acclamation** 2:24 1/4 (sire of **Lizzie C.** 2:15), **Vendome**, dam of **McKinley** 2:29; his great granddam was **MARY BLAINE** by **Signal** 3327 (sire of the dam of **Prussian Maid** 2:19, etc.). **Guy McKinney**, sire of **McAdria** 2:24, was by **McKinney** 2:11 1/4, out of **Floessie D.** by **Guy Wilkes** 2:15 1/4; second dam, **Blanche Ward** (dam of **China Maid** 2:05 1/4), by **Onward** 2:25 1/2; third dam, **Blanche Patchen**, by **Mambrino Patchen** 58, etc.

McAdrian is one of the handsomest and strongest made grandsons of **McKinney** in California. He has no faults; is a pure gaited trotter and a sure foal getter. He will make the season of 1912 at the **Pleasanton** race track. **Terms:** \$30 for the season. For further particulars, apply to or address **E. D. DIGGES, Owner, Pleasanton, Cal.**

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04 3/4, champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07 1/2, second fast-old stallion of 1910.

Grace Bond (3) 2:09 1/4, winner both of Kentucky Futurity.

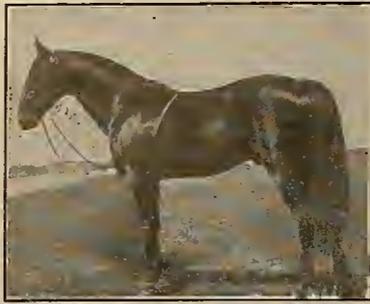

Creighton 2:08 1/4, record made in 1911. and 31 others.

Half brother to Jay Hawker 2:14 3/4, sire of Country Jay 2:05 3/4, Susie Jay 2:06 1/4, etc.

Half brother to The Tramp, sire of Bervaldo 2:08 1/4, Trampfast (2) 2:12 1/4.

Half brother to Sorrento Todd (4) 2:14 1/4, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18.. Sire of 12 in 2:10, including Bumps 2:03 3/4, Rubenstein 2:05, Baron May 2:07 1/4; sired dams of 4 in 2:10.

SORRENTO..... Dam of Jay Hawker 2:14 3/4, Sorrento Todd (4) 2:14 1/4, Belle Sentinel 2:15, Bola 2:19 1/4, Lay Bird 2:26 3/4, Teddy Sentinel, 2:29 3/4, The Tramp (sire), etc.

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

GEORGE WILKES 2:22 Sire of 83, dams of 204.

BELLE PATCHEN 2:30 3/4 In great brood mare list.

GRAND SENTINEL 2:29 1/4 Sire of 23, including Nettle 2:16 3/4, Tosca 2:18 1/2.

EMPRESS..... Dam of 2 and granddam of 9.

HAMBLETONIAN 10 Sire of 40.

DOLLY SPANKER Dam of 1.

MAMBRINO PATCHEN 58 Sire of 25, dams of 162.

SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.

SENTINEL 280 Sire of 8 in list.

MAID OF LEXINGTON By Mamb. Pilot 29.

ABDALLAH MAMBRINO Sire of 15, dams of 42.

BIG ELLEN By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033

Three-Year-Old Record 2:10 3/4 in a Winning Race. Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:
Francis J. 2:08
Evelyn Patchen... 2:10 1/4
Scott Patchen ... 2:12 1/4
Dessie Patchen ... 2:13
Frank Patchen ... 2:13 1/2
Ruby Patchen ... 2:13 3/4
J. C. Patchen ... 2:14 1/4
Legal Patchen ... 2:15 1/4
Lucile Patchen ... 2:16
Jerry Patchen ... 2:16 1/4
Knightstown Belle 2:16 1/4
Alec Williams ... 2:18 1/2
Lois Patchen ... 2:19 1/4
Auduous the Miller 2:19 1/4
Dorothy C. 2:19 1/4
Louise Patchen ... 2:19 1/4
Dr. Warren ... 2:19 1/4
Roscoe Binning ... 2:20
Mary Patchen ... 2:20 1/4
Black Patchen ... 2:20 1/4
and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 1/4 (trotted to high wheels), Anglin Wilkes 2:16 3/4 over half-mile track, trial 2:09 3/4, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park, Fee: \$50 Return privilege 1913

Both of the Above Horses Will Remain in California. Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal. A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062 A Sire of Early Speed.

Sire, Nutwood Wilkes 2:16 1/4, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/4, etc., and 2 dams of San Francisco 2:07 1/4, Mona Wilkes 2:08 1/4, etc.
Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17 1/4 and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13 1/4, and timed separately in 2:14 1/4, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24 pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes. For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13 Sire of Futurity Stake Winners.

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22 1/2, (3) 2:15 1/4, (4) 2:11 1/4, Ella Mac (3) 2:14 1/4, Valjejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed.
Sire, McKinney 2:11 1/4; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09 1/4 to 2:28 1/4) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege. The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at their train. For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bore in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

BEAUTY, BREEDING AND SPEED.

Prince Ansel 29220

2-y.-o. Race Record 2:20½.

By Dexter Prince 11363 (sire of Lisonjero 2:08¾, Eleata 2:08½, James L. 2:09½, Edith 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 10 and 1 dam of 1) by Ansel 2:20 (sire of 14; 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29, 1911, 2:09½; Wesos 2:12¾; Adansel (3) 2:14¾; Dorothy Ansel (2) 2:20, 1910; Laura Rodgers (2) 2:18¾; Frances C. (3) 2:24¾, Mat. 2:19; Anjella 2:27¾, tr. 2:16¾; Bonnie Princess 2:25½; Princess Mamie 2:27¾, tr. 2:18¾; Prince Gay, tr. 2:12¾; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevola, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18½; Oddmark (2), tr. 2:23; Georgie K. (2), tr. 2:30.

PRINCE ANSEL is a handsome bay stallion, stands 15 1/2 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09½. Adansel, his three-year-old son, lowered his record to 2:14½ and Wesos started three times and won twice, lowering his record to 2:12¾.

Season of 1911 at the Race Track, WOODLAND, CAL.

Terms: \$50 to insure, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address **A. B. KENNEY, Manager Woodland Stock Farm, Woodland, Cal.**

COPA DE ORO 1:59

REG. NO. 52785.

Fastest Horse on the Pacific Coast.

15.3½ hands; weighs 1200 lbs. A Faultless Horse. By Nutwood Wilkes 2:16½; dam Atherine 2:16¾ by Patron 2:16¾; second dam Athene by Harold 413; third dam Minerva by Pilot Jr. 12; fourth dam Bacchante Mambrino by Mambrino Chief 11.

FEE: \$75 for the season. (Limited to 50 mares.)

CARLOKIN 2:07 1/2

REG. NO. 39548.

Exhibition Mile 2:05¾; 15.2 hands; 1100 lbs.

By McKinney 2:11¾; dam the great broodmare Carlotta Wilkes (dam of Inferlotta 2:04¾, Mary Dillon 2:06¾, Carlokin 2:03¾, Volita 2:15¾, Lottie Dillon 2:16 (trial 2:10¾), Frank S. Turner 2:28, etc.); second dam Aspasia (dam of 4 standard performers); third dam Miss Buchanan, great broodmare, etc.

FEE: \$75 for the season. (Limited to 50 mares.)

New Exposition Park, Los Angeles, Cal.

Very best care taken of mares at reasonable rates. For further particulars, address

W. G. DUFFEE, Box 1, University Station, Los Angeles, Cal.

LOS ALTO Registered No. 57267

The Standard Trotting Stallion

By McKena 39460, son of McKinney 2:11¾, out of Helena 2:11¾ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16½ (sire of Copa de Oro 1:59, John A. McKerron 2:04½, Happy Dentist 2:05¾, etc.); second dam Novelist 2:27 by Norval 2:14½; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gated trotter. Is 5 years old. As a three-year-old he broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at **MAYFIELD, Santa Clara Co., Cal.**

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address **J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.**

BALLISTITE
A PERFECT
DENSE SMOKELESS POWDER

FOR

FIELD AND TRAP SHOOTERS

Ballistite is a perfect "dense" smokeless powder for Shot-guns. It has a moderate recoil which commends it to all shooters. Shoots clean—no unburned grains to "blow back." Age does not affect its shooting qualities, which are further enhanced by its waterproof characteristics.

In addition to these essentials of a sporting powder, is the **guarantee of quality which is assured to every purchaser** of Ballistite Smokeless Powder. 110 years as powder makers enables us to combine practical experience and materials in a manner to insure the production being exactly as required and of uniform quality.

Ask your dealer for shells loaded with Ballistite.

Send for Ballistite hooklet No. 99, showing proper loads for various game.

Quinn's Ointment

Will Make A Horse Over;

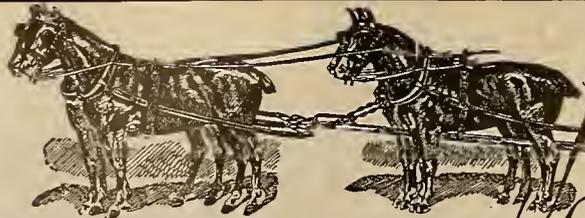

will put sound legs under him and will save him from the cheap bawker and trader. It is the standard cure for Spavings, Curbs, Splints, Windpuffs and all the various lumps and bunches of like kind. Keep it always on hand and you will be prepared when trouble comes. Leading horsemen everywhere know it and use it.

Mr. H. H. Clark, Fredonia, N. Y., writes: "The bottle of Quinn's Ointment purchased from you about two years ago removed a curb and thoroughpin and did it for good. My horse's leg is as smooth as ever."

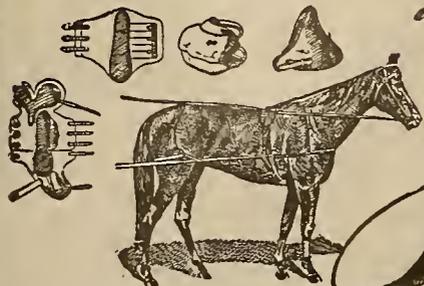

Price \$1.00 per bottle. Sold by all druggists or sent by mail. Write for circulars, testimonials, etc.

**AUTOLOADING
SHOTGUN**

Five shots all under absolute control—three to get the cripples. The action is simple, powerful and sure. The trigger pull is smooth and easy. The hammer is light and quick. Part of the recoil ordinarily absorbed by the shooter's shoulder is utilized to operate the mechanism. Not one single ounce of muzzle energy is lost. Handles the heaviest loads with ease and safety. Solid breech, hammerless, safe.

Remington-UMC ---the perfect shooting combination.

JOE PATCHEN II. 2:17 $\frac{1}{4}$

Property of R. J. MacKenzie, Winnipeg, Manitoba.

The Kentucky Futurity

Value \$26,000 and Gold Cup.

Closes April 1, 1912.

Fee \$5 per mare.

Opened by the Kentucky Trotting Horse Breeders' Association for foals of 1912, the produce of mares nominated April 1, 1912, or their substitutes as provided below, divided as follows:

\$5,000 for 2-year-olds to Trot At Fall Meeting, 1914

\$3,000 to first. 150 to nominator of dam of first.
1,000 to second. 75 to nominator of dam of second.
500 to third. 50 to nominator of dam of third.
200 to fourth. 25 to nominator of dam of fourth.

\$14,000 for 3-year-olds to Trot At Fall Meeting, 1915

\$3,500 to first. \$300 to nominator of dam of first.
3,000 to second. 100 to nominator of dam of second.
1,250 to third. 75 to nominator of dam of third.
750 to fourth. 25 to nominator of dam of fourth.

\$5,000 and Gold Cup for 4-yr-olds to Trot At Fall Meeting, 1916

\$3,000 to first. \$150 to nominator of dam of first.
1,000 to second. 75 to nominator of dam of second.
500 to third. 50 to nominator of dam of third.
200 to fourth. 25 to nominator of dam of fourth.

\$2,000 for 3-year-olds to Pace at Fall Meeting, 1915. \$1,200 to first, \$500 to second, \$200 to third, \$100 to fourth.

ENTRANCE \$5 To accompany nomination of each mare April 1, 1912. \$10 January 1, 1913, when color and sex of foal must be given. Nothing more until June 1 of year they start, no payment being due in 1914 or 1915 on colts not intended to start until 1916.

FUTURE PAYMENTS AS FOLLOWS:

FOR 2-YEAR-OLD TROTTER DIVISION: \$25 June 1, 1914; \$50 Sept. 1, 1914; \$100 night before race.
FOR 3-YEAR-OLD TROTTER DIVISION: \$50 June 1, 1915; \$50 Sept. 1, 1915; \$250 night before race.
FOR 3-YEAR-OLD PACING DIVISION: \$25 June 1, 1915; \$25 Sept. 1, 1915; \$50 night before race.
The races for 2-year-olds and 3-year-olds will be mile heats, 2-in-3, to a finish on the following conditions: A horse winning two heats will be awarded the race. If the race is not ended at the conclusion of the third heat, a horse not standing for money will be ruled out.
FOR 4-YEAR-OLD TROTTER DIVISION: \$50 June 1, 1916; \$50 Sept. 1, 1916; \$100 night before race. Best 3-in-5 heats.

If a nominated mare has no living foal on January 1, 1913, her nominator may substitute another mare and foal regardless of ownership.

All payments forfeits. National Trotting Association Rules in force in 1911 to govern with exceptions noted. No hopped horses allowed to start. Name, color and pedigree of nominated mare, and name of stallion serving same in 1911, must be given in entries, which, accompanied by payments, must be mailed on or before April 1, 1912, to J. W. WILLIAMS, Acting Secretary, Lexington, Ky.

ED. A. TIPTON, President.

Address the Breeder and Sportsman for official conditions and blanks.

40th Annual Meeting October 8 to 19. About \$50,000 in fixed events for Fall Meeting 1912 will be announced shortly, to close June 1. Apply in May for Blanks.

THERE seems to have been a decided awakening among the farmers and breeders of San Joaquin county since it was announced that the Stockton Driving Club and its numerous friends have decided to raise enough money to induce the Pacific Coast Trotting Horse Breeders' Association to hold their meeting there this year. It is to follow immediately after the State Fair at Sacramento and the advantages of holding this meeting and also a live stock exhibition and industrial fair are so great that people for miles around this wide-awake city have signified their intention to aid, in every way possible, to make this one of the most successful fairs and race meetings ever held there.

The system of interurban cars which connects so many of the cities and towns in that great valley and the mountains surrounding it, is one which will carry carloads to it, as well as from all towns on the Yosemite road. The city of Sacramento and all the places between it and Stockton, are connected by these lines. The towns and cities touched by the Western Pacific, Santa Fe and Southern Pacific Railroads, will also contribute their share of visitors to this meeting. There will be certain days set apart for excursionists from the north, south, east and west, and the desire to place Stockton once more on the map as the greatest center for trotting and pacing races is revived in a manner that speaks volumes for the enterprise and devotion of these people to the harness horse industry.

Committees are busily engaged in devising ways and means to make it a success. The Board of

Supervisors is an active one and seems determined to have the track, its grounds and all the buildings thereon in first-class shape so that when the greatest lot of trotters and pacers that were ever assembled on any course in California "come for the word" the spectators will enjoy seeing close contests and many records broken, because the Stockton track has a national reputation for being one of the fastest and safest in the United States.

When the kite track was in active use there was not a newspaper, daily or weekly, that did not proclaim to the world the marvellous flights of speed shown there, and Stockton's fame was made. Records were made over it that have stood the test of time for almost twenty years and those that beat old Father Time on that course have proven their worth as sires of fast performers and famous matrons. When Arion, driven by Chas. Marvin, trotted as a two-year-old on that warm November afternoon in 1891, and set the mark of 2:10 1/4 (a record never lowered since by a stallion of that age) the news was flashed around the world, and when this colt was sold for \$125,000, there were many horse owners who wished they had also trained their horses at Stockton. The Pacific Coast Trotting Horse Breeders' Association is to hold a meeting next week to take action on the proposed race meeting, and when it is finally decided that it will be held in Stockton the light harness horse industry of this coast will receive an impetus which will not be checked until next November, and all connected with this great industry will feel like doing all in their power to make the racing season of 1912 one that we can refer to with pleasure hereafter.

THE greatest interest is being taken in the sale of W. G. Durfee's choice collection of trotting stock which is to take place next Wednesday, March 27th, at 10 a. m. at Exposition race track, Los Angeles. To select one out of this lot as better than the rest for its particular place in the trotting horse world would be a difficult task. The stallions are all royally bred and fit to head any stock farm in America after their days on the race track end; they are all young and thoroughly broken and were selected after much study by Mr. Durfee, who is considered one of the best judges of equine form in America. The broodmares, and there are only a few, are just what a seeker after the very highest type of matrons should have, while the young trotters and pacers which are in training and ready to be shown are a credit to Mr. Durfee's judgment and will be worth boasting about in their new owner's hands. Many of these youngsters are heavily staked and eligible to start this year, and were it not that Mr. Durfee is going East with a small string of colts which are named in the Eastern stakes, he would not part with these, but would be seen leading all competitors to the wire. There's not a cull in the lot, neither is there a cripple, nor one for which the pages of the excuse book will be scanned in order to make a speech about any known defects it may have. At this sale there will be neither apologies nor excuses, for every animal offered will be just as it is represented and will be sold on its merits. There will be no by bidding. Samuel Watkins, the silvery tongued auctioneer of Los Angeles, will call for the bids at this sale. If any of our readers contemplate owning the very best, this is their opportunity.

OWNERS of broodmares will find that it will pay them to breed to any of the stallions advertised in this issue. The subject of mating is one which calls forth the exercise of good judgment, a knowledge of bloodlines and conformation as well as a close application of the laws of heredity. Some horses will "nick" better with certain mares than others. The owner of a good mare should decide which stallion he deems the most suitable according to the breeding, then he should scan the horse carefully, and, if he sees he has defects such as he knows his mare has (no horse or mare is perfect,) either in conformation, set of the head on the neck, the incline of the shoulders, length of hack, shape of barrel, or droop from the coupling to crop, the way the horse stands (whether he toes in or out) and whether he has defective hocks and flat feet, all these things must be studied, and, as there may be others bred in similar lines,—that is by the same sire—which have none of these glaring defects and are well muscled, stand well, are good-gaited and have sired speed, it is not a difficult matter to decide. There are many young

stallions advertised in this issue which have never had a chance to prove their worth. They are bred to make sires, they come from speed producing sires and dams, have speed themselves and are handsome individuals, sound in every way and level-headed, and which will undoubtedly lower whatever records they have. Don't overlook these for some famous horse whose bloodlines and all other characteristics may please you but will not suit your mare. She is the one you are to look to for results. Many of our greatest record holders, according to statistics, were sired by very young horses.

THERE will be \$10 due and payable on all two-year-olds April 1, 1912, in the Breeders' Futurity Stake No. 10. Value \$7250. Don't overlook this.

"DREAMS, JUST DREAMS!"

Every breeder in the animal industry is a dreamer, but particularly so in the trotting horse branch. A large portion of breeders of trotters are business or professional men who take to this line of endeavor as a natural selection and as a relaxation from other cares, and find therein stimulation for tired brains and frazzled nerves.

Yet there is another type of breeder who exists in every community where the trotter flourishes. This individual has, by constant and detailed repetition of his dream, allowed himself to become in such a trance-like condition that, figuratively speaking, he thinks, talks, eats and sleeps horse.

Politics, religion, war, pestilence and famine, have no more than a passing interest for him.

Generally, the owner of a broodmare or so, possibly a stallion, he has allowed his hobby to ride him so hard that he has forsaken any profession or business he may have had, so that he is always in needy circumstances; yet, strange as it may seem, his family have likewise absorbed the same rosy hue view of the circumstances that he indulges in, and with never a doubt as to ultimate success postpone such commonplace necessities as shingling the roof or getting a new stair carpet until "Emma J.s colt wins the stake."

With characteristic ardor and determination he centers all his ideals and theories on the mare and of the blood she carries, and unmindful of defects in character, conformation and pedigree, he toils on and dreams.

Ever ready, nay even anxious, to explain each successive failure, having always some plausible excuse for the temporary wrecking of his plans and hopes, he is unmindful of the mocking jibes of his fellow breeders, of their sarcastic reference to the marked and unfortunate failing of his young stock, and seeing not the diabolical and subtle humor in their solicitous inquiry and hopes for their future welfare, he dreams and dwells in another world; a world, wherein the old mare, or stallion (as the case may be) shall have founded a new family, a family that shall be pre-eminent for all time, and the descendants of whom shall by their performances vindicate his judgment and be his living and shining memorial.

And so he dreams and dreams. With eager interest he scans the pedigree of each latest 2:10 performer hoping to find therein some of the blood represented in old Emma J, and no bridegroom is happier on his wedding day than old Dreamer when he is successful in his quest, no matter how distant or remote the relationship. Even that charitable word "untraced" covering so many sins, has its measure of compensation.

As the years pass on he becomes more and more partisan and passionately clings to his beliefs, and even as the Lorelei sits on the rocks of the Rhine and by her song entices the unsuspecting sailors to their watery graves, so does each temporary and transitory success lure him on to obtain the realization of his dreams.

And yet he needs no pitying condescension, for he is happy, far happier if the truth were known, than many whose desires have been fulfilled, for he is always accompanied through his chosen labors by the two great attributes, Faith and Hope, and it would seem that kind Providence, which in the first instance caused him to be inoculated out of all proportion by the "horse bug" has, in its benevolence, never let him be confronted with a fearful reality; hence, he goes on plodding and dreaming, to the wonderment of a practical world, but with full understanding by those who, themselves, have endeavored at some time or other to make their dreams come true.

There is a difference between pure bred and thoroughbred. Thoroughbred refers to a certain strain or breed of horses. That is their name, the same as Percheron is the name of another breed. The name, however, is often erroneously used to apply to any breed of stock that is of pure blood. It is quite common to speak of them as thoroughbred. This is wrong. They are not thoroughbred unless they are of that particular breed of horses.

The Kentucky Futurity stakes for foals of 1912 (value \$26,000) will close April 1st. Read the advertisement and send in your entries. No breeder can afford to keep his best bred colts and fillies out of a Futurity like this.

NOTES AND NEWS

Foaling time is here, send us in the list of new arrivals.

Entries to the big stakes at Grand Rapids (value \$37,000) will close April 2d.

Allerton 2:09½, has 237 standard performers in the list, including 14 new ones to his credit in 1911.

The third payment in the Canfield Clark stakes No. 3 is due and payable April 1. Don't overlook this.

The bluest-blooded colt ever foaled will never amount to a pinch of snuff without proper feed and care.

Mr. Silva, of Sacramento, recently purchased the horse Steve Bailey 2:10 for \$1500, from Mr. Moshier, of Los Angeles.

Columbus and Buffalo have withdrawn from the Great Western Association, by reason of the adoption of the bopple rule.

T. D. Witherly, of Irvington, has sent his good colt Valentine Boy to Al Schwartz, Pleasanton, to prepare for the races this year.

Any one having a trotter or pacer with a record of 2:15 and wishes to sell can find a buyer by addressing "B," this office.

The Kentucky Trotting Horse Breeders' Association has distributed \$1,756,095 in purses and stakes since it was organized in 1873.

Lou Dillon 1:58½, is not expected to produce a foal this season to Moko, and is to be bred to Atlantic Express 2:08¾, by Bellini 2:13.

Era 2:10, by Zombro 2:11, was bought at the recent auction sale at Los Angeles, by J. C. Buckley, who will breed her to The Bondsman.

"Advertising," says a Sherman county, Kansas, editor, "is like courting a girl; you must have something good to offer and keep on calling."

Someone will get a bargain in Gold Lily, the Copa de Oro-Lillie McK. filly next Wednesday. She is a "phenom" and will be a winner this year.

There are several stallions to be sold at Exposition Park, Los Angeles, by W. G. Durfee next Wednesday, which will pay for themselves this season.

Don't forget to attend that sale in Los Angeles next Wednesday. Every animal offered will be sold to the highest bidder. There will be no by-bidding.

Mr. Chas. Chick, of Los Angeles, recently sold his fine Zombro mare to R. J. MacKenzie, of Winnipeg, for \$2500. This mare is now at Pleasanton in charge of Havis James.

Diamond Mac 2:17¾, by Kinney Lou 2:07¾, has wintered fine and is generally rated as one of the best 2:18 class trotters in the country. He is at Goshen, Indiana.

Everybody who has aspirations to own a winner on the Pacific Coast Circuit this year should attend the sale of W. G. Durfee's horses at Los Angeles, next Wednesday, March 27th.

Charles Durfee is visiting Los Angeles. It would not surprise his friends if he was a buyer at that sale next Wednesday. He needs a few more to complete his string at San Jose.

Walter Maben is to train J. W. Considine's latest purchase, Lottie Ansel by Prince Ansel, and Chas. A. Spencer will train Laura Ansel, his other two-year-old.

Zomwoolsey, the Zombro stallion to be sold next Wednesday, pulled a cart last Wednesday over the Los Angeles track last eighth in 15 seconds. He will be a "hummer" this year for someone to make money with.

There is some talk of the new grand stand at Exposition Park, Los Angeles, being built of reinforced concrete. If this be true and they build one of this material, it will be in harmony with the other substantial edifices for which this park is justly celebrated.

Del Oeste (4) by Del Coronado 2:09½, will be a good buy for some one. That he is fast enough to get the world's record as a four-year-old pacer is conceded by all. He has no record, is eligible for all classes, and should be one of the greatest winners in the United States. He is one of the best-bred youngsters in California, and will be sold next Wednesday by W. G. Durfee at Exposition Park, Los Angeles. He is sound, level-headed and a perfect race horse.

C. A. Spencer notifies us that the dam of Arista Ansel, the colt by Prince Ansel, entered in the Oregon Futurity for foals of 1910, is Arista and not Morain as published in our list of entries. The dam of Bonnie Ansel is Bonnie Derby and not Everette as our list has it.

On page 839 of the Year Book for 1906, the record of 2:10 made by Daisy Direct, by Direct 2:05½, out of Daisy Nutwood, at Goshen, New York, August 21, of that year, was irregular. This prevents Daisy Nutwood, dam also of Consuela S. 2:07¾, from being registered as standard.

Chas. R. Marley, of Woodland, has a very handsome three-year-old filly by Nushagak, out of Addie B. (dam of Nusado 2:25) by Dexter Prince; second dam Addie W. (dam of three, including Nada 2:08¾) by Whips 2:27½, that has a nice way of going and is learning to trot fast on the Woodland track.

The most useful man to a stallion owner at this season of the year is a friend that boosts for his horse, while the man most despised is that one who goes about knocking the horse that the friend is bragging about. As a successful stallion owner once remarked, "there are never too many friends."

Beatrice Zombro, the mare to be sold at W. G. Durfee's sale, is worthy as an individual to grace any stock farm in America. Her breeding is not gilded; it is "solid gold." She is a producer, and is in foal to Carlokin 2:07½, the greatest money-winning race horse of the McKinney tribe.

S. Christenson of this city has one of the hand-somest and purest gaited trotting fillies he ever owned, a yearling by Bon Voyage 2:08 out of Perza (dam of Enchantress 2:29¾) by Allie Wilkes. Her sister, Peresteria, is now in Kentucky and will be bred to General Watts.

C. R. Windeler, of Concord, writes: "I am sorry to say there is no more Concord race track. The K. N. Burgess Co. bought it some time ago, and have set it all out to walnuts, and are going to cut it up in acreage. Mr. S. Benson has leased the Oakwood Park Stock Farm track to train on this season."

The good brood mare, Maud Jay C. (dam of Near-est McKinney 2:13¾), is offered for sale by T. W. Barstow, San Jose. She has three others which will obtain lower records this year, and a better bred trotting mare cannot be found on any of our stock farms. Mr. Barstow will sell her very reasonably.

E. A. Gammon of Oakland reports that during the last hour of the 17th of March (St. Patrick's Day) his good mare Cleo G. (dam of Easter Direct 2:09½ and Cleo Dillon 2:13¾) by Yosemite, gave birth to a large bay filly by The Bondsman, and so well pleased was this proud owner with the appearance of the youngster that he immediately booked the mare hack to its sire.

Mr. G. Lindauer, of 122 Clara street, has just received from South Dakota one of the handsomest, best-framed and best-bred three-year-old bay Shire stallions ever brought to California. He is called Honest Glory 12551, and is fit to pay for himself the first year in the stud. He is a model representative of this most popular and useful breed of draft horses.

P. H. Murphy, Enderby, B. C., owner of the noted pacer, Earl, Jr., 2:02¾, has decided to send the stallion to George Haag, the Calgary, Alberta, trainer. Haag will race Earl, Jr., through the early Canadian Circuit, and if the Pacific Coast meetings will supply a free-for-all pace, he will make them later. Otherwise, it is possible that Earl, Jr., may be seen on the Grand Circuit.

Lew Kinney 57433 is the name given to Kalatan, son of Kinney Lou 2:07¾ and Cricket 2:10. He belongs to Mr. Chas. Wilson, of Regina, Saskatchewan, and on Wednesday started for his northern home along with Moncara, the son of Dillcara and Floweret Belle by Monbells 2:23½. We shall expect to hear from these two hereafter.

Mr. L. L. Pope, secretary of the Williams-Lawrence Co., manufacturers of that standard remedy, Gombault's Caustic Balsam, in making his annual tour throughout the United States, in the interest of this preparation, stopped for a few days at Los Angeles, and also at San Francisco, where he has many friends. Mr. Pope reports business brightening up everywhere, and the prospects for good times are much better than they were.

Dr. D. F. Herspring opened a public training stable at the Woodland race track on or about the 2d of this month. He has engaged stalls from A. B. Kenny, who is in charge of the track, and arrangements will be made to have the track kept in first-class condition. The doctor has in his stable John Clark's game little mare, Little Lucille, with a record of 2:09, which is entered all through the circuit from California to Canada, and his own stallion, Don Rosine, both sired by Palo King. He also has four others, all considered good prospects. Dr. Herspring was formerly head trainer and manager of the Palisade Stock Farm in New York, and a successful driver on the eastern circuit.—Woodland Democrat.

D. L. Crane, a young man who conducted the leading horse shoeing shop in Sacramento several years ago, is now located at Whittier and is delighted with the climate and the prospects of all engaged in the horse industry in that place. By the way, he is quite a dog fancier. He owns "Joyeuse," a royally bred Llewellyn setter and is very proud of her success as a field trial and show winner.

George Bollinger, who at one time owned a number of trotting horses, died at San Jose last Tuesday. Cause of death, peritonitis, following an attack of appendicitis. Deceased was at one time a sheriff of Santa Clara county. He has left a large circle of friends and acquaintances to mourn his loss.

Mr. C. A. Butters of Berkeley, Cal., sent his handsome mare Lottie Lynwood (full sister to Sonoma Girl 2:04¾) to Pleasanton last spring to be bred to The Bondsman, and last Monday she presented him with a fine big lusty colt, marked exactly like herself: chestnut, two hind pasterns and star. Mr. Butters is so well pleased with the youngster he will doublet return the mare to this great sire and hopes to get another to match him.

In reply to a letter requesting the pedigree of the two Zombros advertised by Geo. T. Beckers, of Los Angeles, he writes as follows: They are out of Lady Secretary (formerly known as California Poppy) by Secretary 23378; second dam Aurora by Dawn 2:18¾; third dam Fan by Rustic 2:29¾; fourth dam by Gen. McClellan. S. K. Dougherty, of Santa Rosa, bred and owned Aurora and also California Poppy. These are very promising trotting youngsters and are entered in all the Pacific Coast stakes.

"Has any one ever seen a better lot than this offered for sale at public auction?" was the query made by an old California trainer as one after another of the W. G. Durfee horses to be sold next Wednesday were led out for inspection at the Exposition Park, Los Angeles. "Such grandly bred stallions, well-shaped brood mares, choice fillies and colts that have shown the greatest flights of speed should not be waiting for buyers. This sale should attract men who desire to own the very best and have horses that will be money-winners and earners."

Weyburn (Saskatchewan), March 19.—Many horses brought into Canada by American settlers have been shot by the Canadian Government orders on suspicion of having glanders and an international question has developed. Last week scores of horses belonging to Iowa and Minnesota farmers were killed at Weyburn by Government inspectors, and it is said by the owners that they were affected only with train fever and not with glanders. The owners here appealed to Washington. The Canadian Government also is investigating.

Patsy Davey, of San Jose, broke and trained a gelding by Almont Patchen 2:15, out of Effie Logan (dam of Sir Albert S. 2:03¾, and Jim Logan 2:05¾), for the late F. H. Burke, and called him Corey, after the owner of its sire. This gelding paced trial miles in 2:18 at San Jose and gave every promise of being much faster when he was suddenly stricken with some illness (supposed to be heart disease) and died. Effie Logan, his dam, paced in 2:22 at the Honolulu track, but got no record.

Captain Wm. Matson recently purchased a strong-made brown gelding that, according to his blood lines, should be a good one. He is practically untried, and is called Cameo. He was sired by Unimak (brother to Sterling McKinney 2:06¼), out of a mare by Hart Boswell (son of Onward 2:25¼, and Nancy Lee, dam of Nancy Hanks 2:04, by Dictator 113); second dam by 2 Menlo 2:21½ (son of Nutwood 2:18¾); third dam by Fallis 2:23 (son of Electioneer 125); fourth dam by George M. Patchen Jr. 2:27. Cameo's dam produced that good, game pacer Jack (matinee 2:13).

E. D. Dudley, of Dixon, attended the auction sale held at Pleasanton by Fred Chase & Co., March 10th, 1910, and purchased a bay filly he afterwards called Ruby Crellin. She was by C. The Limit 2:04¼, out of La Moscovita (dam of Yolande 2:14¼, Tina 2:20¾, and Dahpne McKinney, dam of Frank N. 2:07¾, and Bon McKinney 2:24½), by Guy Wilkes 2:15¾; second dam Muscova (3) 2:28½, (dam of Mamie 2:15, etc.), by Belmont 64, etc. He bred Ruby Crellin to The Bondsman and last Friday she dropped one of the finest made colts Mr. Dudley ever saw. When it comes to breeding this new arrival stands alone. Through his sire he gets the blood of Baron Wilkes 2:18, Grand Sentinel 2:29¾, Abdallah Mambrino, Clark Chief, and through his dam, C. The Limit 2:04¼, Searchlight 2:03¾, Bark Night, Alyceno 2:27, Alcantara 2:23, Guy Wilkes 2:15¾, Belmont 64, Woodford Mambrino 2:21½, Edwin Forrest and thoroughbred. But the number of great broodmares in this little fellow's pedigree is remarkable: Bertha, the greatest broodmare in the world, Sorrento, Fanny Mapes, Barena, Noontide, La Moscovita, Moscovita, Mosa, Hermosa, Black Rose, Midnight, Alma Mater (twice), Empress, Hattie Mapes, Noontay, Nora Mapes, Blandina, Betsy Trotwood, Lady Bunker, Belle Patchen and Sally Chorister. What a sire he will make. We congratulate Brother Dudley on his good fortune in having such an accession to the ranks of royally bred ones on his beautiful farm near Dixon.

With the addition of two new purses, the early closing purse list for the Grand Circuit meeting at Readville is swelled to \$25,000, an increase of \$9,000 over that of 1911. The American Trotting Derby is this year valued at \$10,000, but a very material change in the conditions. This year there are five preliminaries of \$1,000 each for 2:15, 2:10, 2:08, 2:06 and free-for-all horses, the winners to complete in the final \$5,000 division. There are only three monies in the preliminary races, and four in the final, the winners in all cases taking a larger proportion of the purse than is ordinarily awarded. The event offers every incentive to race to the bitter end, and under the new order of things, the Derby handicap of 1912 should prove to be the most popular.

A telegraphic dispatch from Lexington, Kentucky, dated March 17th, says: "David R. Look, of New York, has bought a string of trotting horses from William R. Bradley, of Ardmaer Stock Farm, New Jersey. The consideration is slightly more than \$100,000. Included in the number are Bingen 2:06½, Consuella S. 2:07¾, and Sweet Marie 2:02. Besides these there are twenty-eight brood mares and twelve yearlings." Mr. Look has already purchased a number of very promising youngsters to place on his recently acquired farm, formerly known as "The Castleton Farm," near Lexington, Ky. One of them, Miss Dorothy W., the two-year-old trotting filly by Sliko 2:08¾, and out of Icon 2:10, that he purchased of Al. Pennock, is regarded by Lon McDonald as a very promising youngster.

The pacing gelding Bradmont 2:24¼ has been sold and delivered to Charley Dean of Palatine for R. J. Mackenzie of Winnipeg. The horse was the property of Judge James Bradley and Harry Montgomery of Georgetown and trialed in 2:06 with a quarter in 28½ seconds last season. He was by Alto Leyburn 2:21½, the sire of Jack Leyburn 2:04¼. There is a little story that goes with the horse. He was produced from a gift season from P. P. Parrish of Leyburn fame to a neighbor at Midway, the mare being a little hind saddle mare. When a four-year-old the gelding was bought by W. L. Nutter, a young Scott county farmer, who bought the horse for matinee purposes for \$500. He started him two or three times in the Georgetown matinees, winning each time, and then was bought at a pretty good figure by Messrs. Bradley and Montgomery.

Regina, Sask., Can., offers \$13,000 in purses. Nine \$1,000 purses and two \$2,000 affairs are to be offered for the big fair meeting, July 29-Aug. 3, and for the following classes: 2:15, 2:18, 2:23, 2:30 and free-for-all trotters; 2:10, 2:15, 2:20, 2:25, 2:30 and three-year-old pacers. The foregoing races will be valued at \$1,000 each, while the M. and M. for 2:18 trotters and The Hotel Stake for 2:25 pacers will be worth \$2,000 each. The winning drivers of the M. and M., the Real Estate Stake for three-year-olds, and The Hotel Stake will be awarded a silver cup. The circuit programme will be issued in book form shortly. The race committee directors are W. M. Williamson, Jas. Boyle, R. W. Hammil, Charles Wilson (who was recently at Pleasanton), and Dr. A. W. Armstrong. W. M. Williamson is chairman of the board. In addition to the regular card, The Capital City Driving Club will give two matinee races every evening of the fair.

On Mendelism, Professor W. S. Anderson, in The Horseman, says: "In view of the facts of heredity which have come from a study of Mendelism, it is but natural that the question should be asked, 'What is the practical value of Mendelism to the horse breeder?' I answer that its great value to him is not what it tells him to do, so much as it tells him what not to do. And the thing not to do is to use a hybrid in the stud. It may be advisable to produce hybrids for utility horses, or if a breeder has decided that he wishes to develop a new type or family he can use to advantage the hybrid. But his type or family is not established until he has eliminated the cross-bred animals so that the remainder breed true." After all, then, where does Mendelism differ from the breeding theory which involves the breeding of like to like, selecting always those individuals possessing the characters most desired, in the most pronounced degree?

Queer, that Tommy Murphy, Walter Cox, W. L. Snow and others can get horses ready to win real horse races on the Grand Circuit by wintering them where there's snow, ice and slush all winter and the thermometer averages zero, while other trainers we know of think they have to leave the mild climate of the Pacific Northwest and go to California to winter horses that couldn't win a fixed race.—Horse and Sportsman Review. (The writer overlooks the successful campaigns made by Salisbury, Goldsmith, Marvin, Hickok, Sanders and Keating when they captured near all the leading events in the East each year they started, and they had to meet the pick of the United States to do so. Because accidents from railroads and disease visited one stable last year helouging to one owner who never did and never will start in a "fixed" race, that does not prove he will have a repetition of misfortunes this season. And as for "fixed" races, very few of them are to be found on the Grand Circuit any year. If there are any this critic should make the facts public.—Ed.)

An old and neglected but careful method for approximating the age of horses is by means of knots in the tail. These knots are little prominent eminences on either side of the base of the tail formed by the transverse of the process of the coccygeal bones. The process can be felt in young horses and becomes especially prominent after the emaciation of a severe illness, but in this case they are rounded and apparently contiguous with the other tissues, while in old horses they become more distinct and seem to stand out in the muscles and softer structures of the tail. The knots are felt distinctly at the base of the tail when the horse has attained the age of thirteen years. Two years later, when they have become more prominent, they have behind them a distinct little depression two or three lines in width. At sixteen a second pair of knots is found, which, like the first, in about two years have behind them a distinct depression, and so on. Every three years a new pair of knots furnishes an approximate indication of the age of the animal.—Exchange.

The highest priced horse sold the first day of the Kentucky horse sales at Lexington, and the second highest of the entire sale, was Crito Leyburn 2:13¼, sired by Arion 2:07¾; dam Criterion 2:29¾, by Crittenden 433; second dam Mamie, by Star Almont 6673; third dam by American Boy; fourth dam by Rogers Highlander. It seems when they can deliver the goods a long or fashionable pedigree can be dispensed with. On the dam's side Crittenden was a Clay horse of no great repute, and Star Almont never set the world on fire, as he does not figure in the Great Tale, and neither had records while the only two standard sires in the dam's breeding. But Criterion has a splendid credit as a brood mare, numberless standard crosses and fashionable families are not exacted for the long prices. The lesson is an old one that the older and shorter pedigrees need only to become producing to take the lead in sales and elsewhere. Give the mares and their foals a chance if not in the pink or purple, or seven generations standard-bred, and if they show the stuff no further question will be asked.

Here is the rule that the National Trotting Association insists upon being enforced. It is the one that starting judges must follow. It looks as if he does so he will earn his salary: Rule 24, Section 5 —Struck out and the following substituted: "In addition to the duties heretofore required of the starter, he shall give information as to the practical application of the rules when called on by track officers or employees. He shall also at the close of the meeting send the secretary of the National Trotting Association a special report of the races decided, giving the names of each of the starters, their positions in each heat as announced, and the official time made in each heat, together with a notice of all penalties imposed and announced from the judges' stand. For a failure to do this, his license shall be revoked by the president of this association. The starter shall also report to the secretary of the National Trotting Association if there is any misrepresentation of time at a meeting at which he officiates, together with the facts in connection with same. In the event of there being any suppression or misrepresentation of time, and the starter fails to report it, he shall be expelled."

WHAT AUTOS COST CALIFORNIA,

With an average monthly increase in excess of two thousand, the total number of automobiles registered in California to January 1, 1912, was 61,784, so that it is safe to say that 64,000 at this date, March 1st, is about correct. Estimating the cost of each machine at \$1,600, which is a fair average, the total investment, in this state, in the form of luxury and necessity, reaches as high as the sum of \$102,400,000, which must be regarded as a non-earning segregated fund.

Figuring the average monthly keep of these autos, which includes chauffeur hire, a most conservative estimate, the inside annual cost of maintenance reaches a total of \$38,400,000. Add this to the principal and we get a net outlay of \$104,800,000, which at six per cent, the average earning power of money in California would yield \$8,448,000, to be deducted from the incomes of the automobile owners in the mass. Now calculate that 30 per cent of the machines are insured at an annual cost of \$50.00 a year, thus creating another of expense, and an intelligent idea is gained of the initial and yearly cost of maintenance of this modern invention now in general use.

But that is not all. Probably in no other form of investment is the depreciation of value so great as in automobiles. Twenty-five per cent reduction annually is not an excessive estimate, which means that every four years this entire investment of \$150,000,000 has been wiped out and the same non-productive segregation of capital begins anew its process of elimination. Add to the original cost the price of robes, automobile clothing, hotel extras en tour—while the household maintenance remains at about normal—and a still further expense must be charged up to this fascinating amusement.—Pasadena News.

(Automobiles have come to be a necessity for farmers and business men if they feel that they can afford to purchase and keep them for use as well as for pleasure, and all this newspaper talk will not stamp them out of existence. Automobiles have come to stay. They are among the greatest inventions of the age and horsemen recognize their worth even though they have driven many of them away from the allurements of breeding, owning and driving fast horses.—Ed.)

THE SALE OF THE HARVESTER 2:01.

Mr. J. G. Markey ("Marque") of the Horse Review staff, who conducted the negotiations with Capt. J. T. Boyd of the Uihlein estate for the sale of the champion to Mr. C. K. G. Billings, says in the last issue of that valuable publication:

The price paid we are not at liberty to divulge, as it was agreed by the parties interested that it should, for the present at least, remain private. We are, however, empowered to state that it was the largest one that has been paid for a trotting horse, of any age or sex, since the inflated "boom days" some twenty years ago. The highest price previously paid for a trotter in recent years was \$50,000, which Mr. William Simpson gave for the imperial sire McKinney 2:11¼ in the fall of 1904; while it was said at the time that Mr. Lewis Winans, in the fall of 1908, paid the same price for the winner of that year's American Trotting Derby, Allen Winter 2:06½, though in the latter instance the report lacked absolute and final confirmation.

Mr. Billings is now the owner of the world's champion trotters of all three sexes, or, to speak more accurately, of the male and female sexes and the unsexed one. He purchased the trotting queen Lou Dillon 1:58½, the champion mare, in the spring of 1903, paying for her, at auction, the sum of \$12,500. She had at that time no record and had never appeared in public, but later that same season made herself the world's champion and has ever since remained so. The world's champion gelding, Uhlán 1:58¾, was purchased privately by Mr. Billings in the fall of 1909 for \$35,000. His record at that time was 2:02¼, and he trotted to his present world's record for geldings, 1:58¾, which is also the world's the next season, driven by Charles Tanner, the record for trotters "in the open," regardless of sex, trainer and manager of the Billings stable for the past ten years.

This is the first time in the history of the trotting turf that all three aged champions have been owned by one man, while only one other man ever owned two of them simultaneously, this having been the late Henry N. Smith, proprietor of Fashion Stud, Trenton, N. J., he having been in 1872, the owner of Jay Gould, who that season lowered the stallion record to 2:21½, and of Goldsmith Maid, who the same year lowered the world's record for all sexes, as well as for mares, to 2:16¾. For the past dozen years Mr. Billings has been known internationally as the most munificent patron which the trotting sport has ever known, but his latest acquisition places him in a still more pre-eminent position. His three present champions have cost him approximately \$100,000, and when we add to this sum the high prices paid by him for a host of other horses which he has also purchased, the expenditures of the late Robert Bonner and all other extreme speed connoisseurs are eclipsed.

Mr. Billings' object in purchasing The Harvester was a double one. He desired to complete his collection of champions, and he desired to add to the stable which he is preparing to take to Europe the stallion king in order, having shown Old World horsemen the queen, Lou Dillon, in 1909, that he might also show them the two kings, entire and unsexed, in Uhlán and The Harvester, thereby enabling them to see and compare the world's three supreme individual trotters.

The Harvester, in company with Uhlán, and the other famous performers which have been selected to accompany them across the water, will sail on or about April 15, and go direct to Moscow, Russia, via Hamburg, their first European appearance being scheduled to take place at the ancient capital of the Czar's dominions. Later they will be seen at Vienna, Austria, at Berlin, Germany, and possibly at other great European trotting centers. Their tour will be managed, as was the previous one of the Billings horses abroad, by Charles Tanner. At its close the stable will return to America, and in 1913 Mr. Tanner will devote himself to the special preparation of both Uhlán and The Harvester for the tasks of lowering their present records—in which, considering his conspicuous success in similar efforts in the past, there is every likelihood that, provided the two champions remain sound, he will succeed.

The Horse Review extends to Mr. Billings its sincerest congratulations upon his purchase of The Harvester, and desires to say that in its opinion he will never regret it. Congratulations are also due to the trotting world at large on the fact that the champion trotting stallion has passed into the hands of the one man of all others most fit to be his owner. Finally, it is cause for congratulations that, having passed out of the care of the man who has "made" him, Mr. Geers, he has been transferred to that of another who is so eminently capable of conditioning him for the achievement of new honors.

After long deliberation Wm. G. Durfee finally concluded to sell to E. E. Sherwood of McFarland Station, Kern County, Crescendo B., a full brother to Copa de Oro 1:59. He is a trotter and has shown two-minute speed. He will be a valuable acquisition for the horsemen of Kern, Kings, Tulare and Fresno counties.

Excellent reports are received as to the condition and improvement of the horses at Sacramento. Messrs. Montgomery, Childs, Quinn, Hodges, Ivey and Walker are busy every day, and the track is being kept in first-class order. Secretary Teifer is a daily visitor, and is taking a great interest in the park and the progress made by the horses there.

FAMOUS WAR HORSES.

Chargers That Fought Loyally in the Civil War.

(By Francis Trevelyan Miller.)

According to the official records 825,766 horses fought in the American Civil War under the Union flag. Vouchers show that these horses cost \$123,864,915, or an average price of \$140. The Confederate records cannot be found, but it is estimated that there were proportionately as many horses under the Stars and Bars, and thus leaving 1,500,000 horses in the fighting armies.

Those old war horses have never been given their true recognition in history. There were many noble animals among them, with an intelligence and understanding of warfare that seemed at times almost human.

Gen. Grant rejected an offer of \$10,000 for his war horse Cincinnati, claiming that it was one of the greatest soldiers he ever knew. Upon the back of this gallant stallion he rode over the last battlefield of the Civil War—Appomattox—to receive the surrender of the Army of Northern Virginia.

The manner in which Grant came into possession of his famous steed is an interesting story that has never been told before. The young son of the general (now Maj. Gen. Frederick Dent Grant) was sick in St. Louis, and his father came to visit him. A carrier brought a letter to Gen. Grant as he sat with his son. As he opened it he found it to be in strange handwriting asking him to call at the deathbed of the writer, who had "the finest horse in the world" to give to the general. It was signed "S. S. Grant." The similarity in the names attracted Grant, and he decided to follow it up. He did not find a relative in the dying man, but he did find the finest horse he had ever seen—a magnificent animal standing seventeen hands high, the son of the famous racing thoroughbred Lexington, the fastest four-mile horse in the United States at that time.

From that time Cincinnati was Grant's prized companion. He guarded the animal with jealous eyes, and no one was permitted to ride him except the general. Only in two instances did he allow even intimate friends to mount the beloved war horse. During the closing weeks of the war, Abraham Lincoln visited the commander-in-chief at City Point. There was a peculiar admiration between the two men, and Grant has written in a respectful strain of the great American: "Lincoln spent the latter days of his life with me all the time. He was a fine horseman, and rode my horse Cincinnati every day." The only other man who was ever permitted to bestride Grant's horse was Admiral Ammon, who when the two men were boys had saved Grant's life by rescuing him from drowning.

When not mounted on Cincinnati, Grant rode a little black pony named Jeff Davis. The pony was supplied to the commander-in-chief of the Federal army by a brother of Jefferson Davis—but not intentionally. While the siege of Vicksburg was in progress, a scouting party raided the plantation of Joe Davis. Among the rewards was a broken-down black pony—far from attractive in his unkempt coat. The horse was turned over to Grant's son, who carefully fed and groomed him until his black coat shone. One day Gen. Grant found himself face to face with an emergency. He called for a horse. There was nothing available at the moment except the little "stolen" pony. He found him so tractable and intelligent that he became very fond of the animal.

"Turn that pony back to the quartermaster for appraisal," ordered Grant.

Then the general bought the pony for his own use, and named him Jeff Davis. From Vicksburg to Appomattox Jeff Davis was the close second in the affection of the great general.

Another of Grant's war horses was found wandering, riderless, over the bloody field of Shiloh. A Federal officer captured him, and, judging from his ugly appearance and ungainly stride that he was worthless, sent him as a joke to one of Grant's aides. This aide prided himself on the excellence of his mounts, and, disgusted with the appearance of the horse, determined to get rid of him. Grant saw the animal. He carefully examined him, and then surprised the aide by telling him that he had a thoroughbred. Nevertheless, when Grant offered to take the horse, the aide did not hesitate to give him up. A few weeks of careful feeding and grooming proved that Grant was a judge of horseflesh. This horse was Grant's famous Kangaroo, which carried the general through the Vicksburg campaign.

One of the first horses to constitute Grant's famous stable was a cream-colored stallion, with black eyes and a mane and tail of silver white, named Jack. This animal was brought to the army when Grant was making his historic march from Illinois to Missouri at the opening of the war. He served the general until after the battle of Chattanooga, when he was sent to the Sanitary Commission Fair at Chicago, a donation by Grant, to be raffled off to the highest bidder and the money to be used in alleviating the suffering of the Federal soldiers of the ranks.

Grant was a superb horseman, and there is no record of the general ever being thrown on the battlefield. But while mounted on a borrowed racer, he was dismounted and severely wrenched his ankle at a time when the accident nearly proved disastrous to the Federal cause.

It was at New Orleans, after the surrender of Vicksburg, Gen. Banks owned a famous bay thoroughbred, Charlie. Grant was to review the army; but he had not brought a mount with him, and so Banks loaned Charlie to him. It was a brilliant sight, as the group of uniformed officers sedately rode along the front of the army. All went well until the end

of the line had been reached, and Grant spurred the steed. Charlie, his nostrils an angry red, leaped forward like a shot out of a gun. Banks, mounted on a fiery black mare, clung close to Grant, but the rest of the staff were left far behind. The army was astonished as the two generals rode like demons in the rear of the host. To this day it has not been definitely decided whether the generals were engaged in an impromptu horse race or the steeds were running away with them.

A few days later, a race was arranged between Charlie and Donna, a thoroughbred Kentucky bay, owned and ridden by Gen. James G. Wilson, who is still living in New York, and was at that time a colonel of cavalry. Grant was to ride Charlie. The course was laid along the Carrolton shell road. The hero of Vicksburg and the obscure colonel plunged along the highway neck and neck. Neither seemed to be gaining when they turned a sharp bend in the road. A railroad train was then crossing in front of the racers, and its whistle sounded a warning. Charlie swerved from the course to avoid the collision. Before the general could prevent it he sailed over the head of the horse and landed in the roadway. He was confined to his bed for several weeks, and it was many months before he fully recovered. While Grant lay in bed, the battle of Chickamauga was fought. Military authorities claim that if Grant had been able to go to Chickamauga the battle would have been a victory for the Union, instead of a defeat.

Gen. Robert E. Lee was equally as good a horseman as Grant. The Confederate commander always owned beautiful horses. Some of them were not costly at the time of purchase, but they all became priceless under his skillful horsemanship.

Gen. Lee paid but \$200 for his historic battle charger, Traveler. At the opening of the war the iron gray was owned by Maj. Broun, who had bought him for \$175, and named him Jeff Davis. It is a coincidence that the two great military masters, Lee and Grant, had horses with the same name. The gray had been repeatedly offered to Lee as a gift, only to be refused. Finally, he agreed to purchase it. He immediately rechristened the horse, and gave it the name which since has become indelibly linked with the general—Traveler.

When Lee bought the horse it was five years old. He was sixteen hands high, with a deep chest, short back, strong haunches, flat legs, small head, quick eyes, broad forehead, and small feet. His color was iron-gray, with black points, a long flowing mane and a longer tail. His easy, rapid step easily carried Lee's weight on all the long, hard campaigns of the war at five and six miles an hour.

The saddle was hardly once taken from the sturdy back of Traveler during those heart-breaking days from the Rapidan to the James, when the Federal army closed in upon the Confederate capital in 1864. It was this faithful four-footed warrior that carried the saddened general to the surrender at Appomattox, and thence to Richmond. In the hills of Rockridge county, when Lee was president of Washington and Lee University, the two were inseparable comrades. When Lee died, and the funeral cortege was wending its way to the last resting place, Traveler, in all his war trappings, paced behind the hearse with a bowed head, as though his equine intelligence told him that his beloved master had left him forever.

Second to Traveler in Lee's affection was Lucy Long. Gen. "Jeb" Stuart, the dashing cavalier of the Civil War, discovered the mare in the Virginian hills and bought her. Then he presented the mare to Lee, his warm friend and idol. For two years Lucy Long alternated with Traveler in the hardships of battle and campaign; but finally broke down under the terrific strain, and was sent to pasture to recuperate. Just prior to the evacuation of Richmond, in 1865, she was recalled for service. Through carelessness, the mare became listed with some public horses and was sent to Danville, and Lee lost all trace of his faithful mare. An unremitting search was continued, and two years later she was found, and immediately sent to Lexington to pass her last days with her comrade-warriors, Lee and Traveler. At the age of thirty-three years, a son of the general mercifully chloroformed the aged war horse of the Army of Northern Virginia.

In the rooms of the George C. Meade Post of the G. A. R. in Philadelphia is one of the most unique and cherished relics of the great Civil War. It is an ebony shield on which are mounted the head and fore boofs of Gen. Meade's famous war horse Baldy.

Baldy's war record is remarkable. He bore his distinguished master through ten of the bardest-fought battles of the great war. At the first battle of Bull Run he was wounded twice, and at the battle of Antietam the horse was left on the field for dead, later to be discovered grazing on the bloodiest battlefield of the war with a fearful wound in his neck. At Gettysburg, where Meade was commanding general of the Federals, Baldy received his most grievous wound during the second day's struggle from a bullet entering between the ribs and lodging there. Another horse would have died, but the tough war horse, under the tender care of his master, recovered sufficiently to be sent to Downingtown, Pa., where, after the war was over, Meade found his faithful charger, fully recovered. Baldy outlived his distinguished master by ten years.

Like Grant's Jeff Davis, Gen. Jackson's famous war horse was supplied by the foe. In the spring of 1861, while Jackson was in command at Harper's Ferry, a trainload of horses intended for the Federals was captured, and among the number was one that attracted the general's attention. He had him appraised by the Confederate quartermaster, and then bought the animal from the government. The irre-

pressible rank and file soon gave the horse the name of "Old Sorrel"—even as they bestowed an affectionate nickname on their stern commander, "Old Jack"—and this is the name by which the generations have known the charger.

It was upon the back of this horse, which he had ridden throughout that memorable day at Chancellorsville, that Jackson rode to his death in the dusk of that May evening, when his own men poured a volley into the road where "Stonewall" was riding and robbed the Confederacy of one of its greatest military masters, and of an even greater overwhelming victory for the Stars and Bars. Old Sorrel bolted for the Federal lines in panic, but turned back. Afterward he was placed in the stable of Gov. Letcher at Richmond.

Twenty-one years later he was the principal attraction at the Hagerstown fair. Crowds thronged about his corral, and, before they left, the mane and tail of the war horse had nearly disappeared into the grasping hands of relic fiends. After his death a taxidermist preserved the body of Old Sorrel, and it now stands in the Soldiers' Home at Richmond.

Thomas Buchanan Reed immortalized Gen. Sheridan's black battle charger in his poem, "Sheridan's Ride." While Sheridan was colonel of the Second Michigan Cavalry, at Rienzi, Miss., a brother officer brought a powerful three-year-old horse to the army, and presented it to the colonel. He was bred from the famed Black Hawk stock, and was a magnificent animal, standing over seventeen hands high. His step was quick and the casual observer would believe that he was impetuous and difficult to manage. But Sheridan never had any trouble with him, though his staff officers found difficulty in holding position near the horse when walking—as Rienzi could cover five miles an hour on a steady walk, like Meade's Baldy and Gen. Sherman's Sam. Under fire, the horse was as cool and unafraid as any of the two-footed veterans of rank and file. This was the steed that sprang "up from the South, at break of day" on that memorable morning when "Sheridan was twenty miles away." After that twenty-mile race with disaster that brought hope and courage to a discouraged army, the sleek coat was dark with sweat, and the quivering nostrils were flecked with foam. It was this historic ride that gained the name of "Winchester" for the gallant charger, and a silver-mounted saddle from admiring friends of the master.

At Five Forks, the closing battle of the siege of Richmond, Sheridan stood watching the ineffectual attempts of his troops to drive the Confederates from their intrenchments. "Where is my battle flag?" screamed the general. With the flag whipping over his head, he spurred Winchester forward. Like an arrow, the horse and rider plunged straight at the flaming earthworks and, leaping the barrier, landed in the midst of the startled Confederates.

Today the remains of Winchester stand in the museum at Governor's Island, New York, placed there as a gift by Gen. Sherman.

Another battle charger immortalized by poets is Kearny's brown steed, Bayard. Edmund C. Stedman has left an indelible word picture of one-armed Kearny at Seven Pines: "He snuffed, like his charger, the wind of the powder. . . . How he strode his brown steed! How we saw his blade brighten—in the one hand still left—and the reins in his teeth." The battlefield had darkened under a rain and the approach of night. Kearny became confused and rode direct upon the Confederate line. He was challenged, hut, ever audacious, turned Bayard and attempted to escape. A bullet killed the gallant cavalier instantly. Both the dead general and Bayard were captured by the foe. Lee, a staunch admirer of Kearny, sent the body under a flag of truce to Gen. Pope. A month later the southern commander sent Bayard, the blood-stained saddle, and general's sword into the Federal lines to be forwarded to the sorrowing widow of gallant Kearny. Only a few days before his death, Kearny lost one of his best-beloved mounts at the battle of Fair Oaks, where Decatur, a light bay, was shot through the neck.

The veterans of the Army of the Potomac can still recall the thrilling sight of the one-armed general seated upon his most famous war horse, Moscow. It was an inspiring sight to see the superb horseman on the back of a handsome, spirited white horse, in the midst of a charge, the reins between his teeth, and his single hand waving a gleaming saber over his head. It was a sight that often struck terror in the heart of the unfortunate who stood before that keen blade of Kearny.

Fire Eater was the suggestive name of the war horse of Gen. Albert Sydney Johnston, the veteran leader of the Confederates at Shiloh. At the crisis of the battle, Johnston rode to the front of his lines mounted upon the back of a magnificent thoroughbred bay, whose nostrils were dilated with fire as they snuffed the powder.

"Men, they are stubborn; we must use the bayonet!" cried the general. "I will lead you!" As though understanding the thrilling words, Fire Eater leaped forward at the head of the charge. When the cloud of smoke lifted, Johnston was reeling with a desperate wound in his foot, while gallant Fire Eater was riddled with bullets—four gaping wounds in his side. Both general and horse were led behind a knoll to escape further injury. Later in the day both Johnston and Fire Eater were dead.

Gen. "Jeb" Stuart, the dashing sabreur of the Confederate army, was once saved from capture by the sagacity of his bay mare Highfly. Stuart was stretched out upon a bench on a tavern porch at Verdierville, Va., awaiting the arrival of Fitzhugh Lee, with whom he intended to arrange a raid on the Federals. Highfly was grazing in the tavern yard, unbridled. A clatter of hoofs aroused the general,

and he walked to the roadside, expecting to see Lee coming along the road. The galloping horsemen came into sight and gun range—they were dressed in blue! For an instant Stuart was startled—he had expected to see his brother officer, but he was face to face with the Federal foe.

Stuart rushed toward his battle charger and leaped upon the bare hack. Highly did not need urging—she turned toward a high fence by the roadway and cleared the harrier like a bird, and was off down the road in a flash. The heavily-mounted Federal cavalry thundered on behind for a few miles, but fleet-footed Highly soon left them far behind.

The famous escape of Israel Putnam from the British dragons at Horse Neck during the American Revolution was duplicated during the Civil War. Gen. John B. Gordon, at the battle of Cedar Creek, found himself on the brink of a precipice, while on the other three sides was the Federal army, momentarily pressing nearer. His capture seemed certain. A dash through the Federal lines would be foolhardy, and might terminate as did poor Kearny's attempt at Seven Pines. A last desperate chance was left, and this Gordon reluctantly accepted.

He urged his charger to the brink, and peered down the rugged side. Here and there jagged rocks thrust through a thin coating of sand and dirt. Several feet below, the bank terminated in a tangle of trees. It seemed like suicide to leap that precipice—but the vision of a Federal prison urged the general on.

Again and again, Gordon drove the faithful steed to the edge only to have the horse rear and balk. Finally, he coaxed him to the brink and then viciously and suddenly drove his spurs into the laboring haunches. The horse gave a mighty leap and a snort of pain. His feet slipped, and both horse and rider tumbled to the bottom. They crashed through a fringe of trees and rolled into a sheltered glen, where the foliage hid them from the sight of the Federals above. Both were heeding from vicious cuts from the ledges. The horse's head and haunches were wet with his own blood. Gordon, wrenched and in pain, dragged himself to the side of his charger and into the saddle. After a tortuous ride by secret roads, the general and battle horse joined the Confederate troops.

Gen. Sherman owned a thoroughbred Kentucky bay that carried its master over the longest march during the Civil War. It was a fleet, powerful and large-boned bay named Sam, and the course of the march was from Vicksburg across country to Chattanooga, thence to Knoxville, and back to Chattanooga. With scarcely any rest Sam carried his owner through the four-months' campaign to Atlanta, and from there across Georgia to Savannah, and then through the Carolinas to the Grand Review at Washington. But in the review, Sam was replaced by the more resplendent Lexington, another of Sherman's steeds.

Lexington, a thoroughbred from Kentucky, was the admiration of Sherman's men. At first sight the war horse invariably provoked exclamations of admiration from strangers because of his sleek coat, spirited action and beautiful appearance. Lexington was the horse used for parades and reviews, while Sam was the sturdy work horse, the one on whom Sherman could place absolute dependence in the heat of action. The severest storms of bullets and screaming shells failed to disturb the calm of the charger. The horse was wounded several times.

Louis Napoleon, the Emperor of the French nation, once hid against Gen. Hooker for a Kentucky three-quarterbred. The horse was from a half-bred mare by Mambrino, and was a rich chestnut color, standing nearly seventeen hands high, with long, slender legs. It had a racing record of a mile in 2:45, which was then considered remarkable for such a heavy horse. The Emperor repeatedly offered the owner of the horse \$1,000, but when the nation's hero, Gen. Hooker, mentioned that he would like the horse, it was sold to him immediately.

This was the horse that carried Hooker through that fearful battle of Lookout Mountain, over the rocky trails and even up the side of the mountain with his army when they fought and won that famous "battle above the clouds." Here, the gallant horse was christened Lookout, in honor of the battle that he had helped to win.

One of the heaviest men in the Federal armies was Gen. Thomas. To carry his 200-and-more pounds of weight, it was necessary to obtain an unusually powerful horse. His ideal was found in a bay standing sixteen hands, and broad and strong, called Billy, named after Thomas' close friend, Gen. Sherman.

Like his master, Billy was sedate and slow in his movements, and was also just as sure of results when he did get started as was the general. With his master, Billy stood on that hullet-swept field of Chickamauga, with the entire Confederate army swarming on all sides and threatening at any moment to break the harrier, but did not betray the least sign of fear. When that fateful day was over and Thomas began his retreat to join the balance of the Federal army in Chattanooga, the horse walked slowly and sedately along, to the great exasperation of the staff officers following their chief, who expected to hear at any moment the wild Confederate yell of Bragg's men in pursuit.

Today Billy stands immortalized in bronze, with his gallant master on his back, in the city of Washington—a noble replica of the master military leader and his veteran war horse.

Gen. Kilpatrick, the Federal cavalry leader, and Gen. Wheeler, the Confederate cavalier, were classmates and close friends at West Point. When the Civil War came, Kilpatrick remained under the Stars and Stripes, while Wheeler joined the new Confederacy and rode under the Stars and Bars.

Kilpatrick was the owner of a beautiful spotted bay

stallion, a faithful animal that had served him on many hard-fought fields, and had become closely attached to the steed. In the fall of 1864, Kilpatrick led his cavaliers into North Carolina, and one night sought rest in a cabin. When the encampment was quiet, and all seemed well, a portion of Wheeler's command suddenly dashed into the bivouac. The Federals were surprised and outnumbered. Kilpatrick, aroused from a sound sleep by the sudden firing, dashed from the cabin in his night clothes, to find that unless he escaped immediately he would be captured. His uniform was forgotten for the moment. Kilpatrick leaped upon the nearest tethered horse—but it was not his famous spotted stallion. This fell into the hands of the Confederates, and was later turned over to Wheeler, who with great joy mounted his classmate's war horse and rode him throughout the balance of the war.

Stories could be related indefinitely of the wonderful intelligence of these old fighting horses. They did their duty like men, and no one ever knew to what extent they were actually responsible for the victory or defeat of those great fighting armies in America fifty years ago.

A RACE MEETING AT STOCKTON.

It is pretty certain that, following the State Fair in September, there will be a four day's race meet here of the Pacific Coast Trotting Horse Breeders' Association, with the fastest horses in the West competing. This was decided upon late Wednesday afternoon at a meeting of the Driving Club, the Merchants' Association, the Chamber of Commerce and the Supervisors. It will be necessary to raise a bonus of \$2,000, which will be readily forthcoming. Accommodations for the spectators and the horses will be provided, and the Supervisors will attend to this, says the Stockton Evening Mail.

President Bert Lewis of the Merchants' Association expressed himself heartily in favor of the proposition. He thought that the reason county fairs were being held in the city was, among other things, because the track was too far from a car line.

Secretary Frank Liegiger of the San Joaquin Driving Club said that there were no race tracks between here and Fresno and from here to Sacramento, and he believed that people interested in the races would come here from all the surrounding counties. He said that it would also give local horse breeders a chance to show what kind of stock they have.

President A. B. Sherwood of the local club said he believed that the Breeders' Association should be invited to come here this fall to restore this county and the race track to their former greatness in the racing line.

Supervisor Tretheway, speaking for the Board, said that the Supervisors were willing to help, and invited the Pacific breeders here, and stated that the Board would try to fix everything at the track.

Supervisor George French and C. L. Newton, and J. N. Jones, C. T. Wiggins, F. J. Johnson and John M. Perry also made remarks. President F. B. Nims of the Chamber of Commerce presided.

It was decided that the Merchants' Association, the Driving Club and the Chamber of Commerce, at their separate meetings, each should appoint a committee of three to solicit funds to raise the necessary \$2,000 bonus and such other funds as could be raised to help pay for the improvements at the track.

A committee of three from the Chamber of Commerce was then elected to solicit for a \$2,000 bonus and other funds to bring the meeting of the Pacific Coast Trotting Horse Breeders' Association here next fall. The committee is one of three which will be appointed by the Merchants' Association, the San Joaquin Valley Driving Club and the Chamber. The following are on the committee: John Galloway, Andrew McCormick and Frank S. Boggs.

STANDARD BRED STALLIONS LICENSED BY CALIFORNIA STALLION REGISTRATION BOARD.

March 6th to 18th Inclusive, 1912.

Mondeco, E. J. Oranges, French Camp.
Baronette Todd, J. H. Torrey, Los Angeles.
Chief, D. R. Snively, Bakersfield.
"R. W.", Robert Earl, Santa Maria.
Jolley, A. G. Shippee, Stockton.
Western McKinney, A. G. Shippee, Stockton.
Prince McKinney, Fleury Gomet, San Francisco.
Silver Fox, Wm. Siegelkoff, Lodi.
Fattier McKinney, J. S. Lockie, Fairfield.
Eoodle, Jr., L. E. Spurgeon, Lincoln.
Kentucky Baron, Oscar Sanders, Colusa.
King Earytone, Wm. Green, Cedarville.
McCola James Liggett, Hanford.
Vernon McKinney, R. J. MacKenzie, Pleasanton.
Stuart, O. D. Alex, Coalinga.
Ourbells, W. I. Webb, Porterville.
Athamax, Otis Loveridge, Pittsburg.

A. C. Lohmire, of Portland, Oregon, President of the Master Horse Shoers' Association of the Pacific Coast, stopped in Los Angeles for about ten days, and on his return home called at this office. He visited Pleasanton, Tuesday, and was delighted with the exhibitions of speed he saw there. Mr. Lohmire is a great favorite among horsemen and always manages to have a few horses ready to race. He has been identified with the light harness industry for many years and his memory of the old-time horses and even fast horses of the present day on this Coast, is remarkable.

Spohn's Distemper Compound is the largest selling horse medicine in the world. The merits of this remedy have produced this result. All druggists sell it.

MARYSVILLE MATINEES.

The initial harness matinee of the Yuba and Sutter Driving Club will be held in Marysville on April 13. The directors of the club met last night in the Decker Jewett bank and definitely decided upon that date for the opening of the season.

One particular feature of the meet will be the match race between two green colts, Bell S., owned by Manager Gomez of the race track and Caroline, owned by J. E. Strain. The colts, which are both two-year-olds, are remarkably matched and will compete for a bet of \$500.

Horses will be entered from Sacramento, Oroville, Colusa, Meridian, Yuba City, Sutter City, Woodland and Chico. The program has not as yet been arranged, but it will probably consist of four or five events.

Owners of horses entered in the various events will have to drive. The track committee will get together shortly and arrange the program and call for entries. Frank Wright, of Sacramento, will be the starter.

The local track is said to be in excellent condition and Marysville horsemen look for some fast time. There are about fifty horses now in training at the track, and others are arriving every day.

A horseman of considerable reputation, F. B. Loomis, of Minneapolis, has just arrived and will take an active part in the coming events. He has had thirty-five years' experience as a trainer, and is said to understand the business thoroughly. He was attracted to Marysville by the fast time made here in the big meet last year, and he intends to settle here indefinitely. He is a Grand Circuit man.

The first matinee of the season will take place in Sacramento on April 1. A number of local horses will be entered for the event.—Marysville Appeal.

THE APPEAL WILL HAVE NO EFFECT.

It is claimed that an appeal is to be sent out to the farmers of New York State by Assemblyman Cuvillier in which he makes the statement that legislation which holds the owners or directors of race tracks responsible for the gambling done on them has diminished the breeding and raising of horses in New York State and in the United States.

His statements in relation to the diminished breeding of serviceable horses are not based on fact. The breeding of racing stock has declined for the reason that that class of horses, ranging in weight from 950 to 1050 pounds, was so unprofitable, selling for \$125 to \$150 each, that farmers have been forced to give up breeding them. They have not been the class of horses that are required for the army, for fire departments, and for the commercial needs of our cities.

There are over 24,000,000 horses in the United States, and, notwithstanding automobiles, they have increased enormously in demand both for pleasure and for business. Horses of heavier weight are in greater demand and have increased in value. The business of the country has grown so rapidly that the increase in the type of horses most wanted has not kept up with the demand for them. There is a very general increase in the breeding of heavier horses that command \$250 to \$350 each not only in New York State but in every section of the United States.

The appeal to farmers in New York State to help reopen gambling on the race tracks will be futile, for they are no longer interested in breeding that class of horses which is only the rich man's toy and luxury.

GEORGE T. POWELL,
President the Agricultural Experts' Association.
New York, March 10, 1912.

BIG STAKES AT GRAND RAPIDS.

Grand Rapids will open the Grand Circuit for 1912 with a five-day meeting, July 8 to 12, and will offer \$37,000 in early and late closing purses.

This year's meeting, because of a combination of peculiar and unforeseen circumstances, is to be the earliest Grand Circuit meeting ever held. To let in Pittsburgh and Salem everybody "moved up." The shift gives campaigners an additional week of racing and \$37,000 more to race for. They ought to be glad to hustle a little harder and get ready. The Grand Rapids people have earned the support of every horseman. Their early closing events close April 2 and are worth a total of \$23,000. They include the Furniture Manufacturers' Purse of \$10,000 for 2:12 trotters, the Comstock Purse of \$5,000 for 2:11 pacers and four other purses of \$2,000 each. To help the owners of fast record horses there is a 2:05 class for pacers and a 2:07 class for trotters. The fourteen late closing purses will be worth \$1,000 each.

H. J. Kline, secretary, will send entry blanks to all applicants and cheerfully furnish any desired information.

A CHANCE TO GET A SULKY OR CART CHEAP.

The McMurray Sulky Co. of Marion, Ohio, are offering some Houghton and Frazier Sulkies, also some Carts, at a very cheap price to dispose of them quick.

These Carts and Sulkies have all been put in first-class condition, including new, bolted-on tires, new special leather trimmings, new painting and stripings, bearings all renewed, etc.; in fact, Sulkies and Carts will give as good service as new, and they will sell for about half cost. You can no doubt save some money by writing The McMurray Sulky Co., Marion, Ohio, No. 288 N. Main St., to-day, for bargain list. *

Drink Jackson's Napa Soda.

A CHEERFUL OUTLOOK FOR 1912.

The time is rapidly approaching for directors of the various fair and racing associations to make final preparations for arranging their programmes for the meetings they are to hold this year. The prospects for good meetings are fine and the year 1912 gives promise of being one of unparalleled prosperity not only in the country but in all the cities on this coast. With abundant rains, a large acreage sown, a mild spring, noted for its absence of killing frosts, a large influx of population opening up new tracts of land, and with the assurance that good prices will be obtained for all that is harvested in the fields, gathered in the orchards and picked from the vines, those whose lives are spent in the valleys, foothills and mountains have indeed and in fact a splendid future.

The thousands of people who are moving into our cities from all parts of the United States are changing all local conditions. The old-time, easy-going spirit which pervaded the masses is being pushed aside by the nervous energy of these progressive new-comers who realize they have at last found the ideal place to live. They are investing their savings in homes and in business pursuits and are taking advantage of every opportunity to make and save money. Manufacturers are beginning to be attracted to California. The question of fuel—our great drawback in the past—has been solved by the discovery of oil in so many portions of this State. Light and power are also becoming cheaper every year, as more of our mountain streams and lakes are being dammed in order that the water may be utilized to drive the powerful machinery which generates electricity and sends it through miles of wires from the Sierra Nevadas along the coast to Monterey and are stretching farther into the interior along the Sacramento and San Joaquin rivers for pumping water, telegraphing, telephoning, running cars, lighting homes and in hundreds of other ways serving to save time and manual labor. Mining operations are also conducted more safely and cheaper since the introduction of electricity. Thousands of acres of land will soon be irrigated through the installation of pumping plants which will also derive their propelling power from the wires charged with this electricity. Alfalfa fields are being set out everywhere and as this lucerne is being better understood and its many virtues are being discovered it has been said it will in a decade revolutionize the whole system of fodder for stock and poultry. It is undeniable that as "blue grass" made Kentucky, so will alfalfa make California. But its properties are more varied and valuable than the thin blades to which have been attributed Kentucky's greatness as a stock growing State, for we have five and six crops annually harvested from our alfalfa fields and have the whole world for a market for it.

Aside from the great agricultural, horticultural, viticultural, mining and manufacturing interests, we have among others that oldest of all pursuits, animal husbandry. In this we are destined to lead the world! We have lands richer than the lowlands of Holland, and miles of it where there are only acres there. We have meadows not excelled in Great Britain or France, and hills and sloping pastures that are unexcelled in the productiveness of all that tends to fatten our herds and flocks. California seems to be, above all other States, the habitat of horses, cattle, sheep and swine. Our climate makes it the choice of all others, for it is never so cold as to prevent the growth of grasses, and it is always "tempered to the shorn lamb." Besides the breeding and development of the finest herds of cattle, sheep and hogs we have the finest country on earth for the dairying industry. No better evidence is needed than the fact that every one who engages in it and uses judgment and care is prospering. Almost every month our leading dairy men are striving to improve their herds of Holsteins, Jerseys, Ayrshires, and other breeds by purchasing the very choicest prize winners and record holding cattle from the largest agricultural centers in the Western, Middle and Eastern States. Dairying and butter and cheese making are progressing with marvelous rapidity and with their growth the swine industry is keeping pace, for the skim milk from these establishments is one of the articles used for feeding. Another industry which has grown wonderfully in the past year is the converting of casein into a by-product used in the coating for white paper. This is sent in carload lots from California to Massachusetts and the demand is increasing every year; hence it is quite a factor in bringing an additional revenue to our dairymen.

In our valleys, foothills, and mountains there is a noticeable increase in our flocks of sheep and large sums of money are invested in this lucrative branch of animal husbandry. The leading breeds are Shropshires, Cotswolds and Merinos. Statistics show a marked increase in the value of our exports of wool, while the demand for lambs and mutton and their by-products is so great on this coast that there is always an active market for all that is raised.

Our poultry industry is also being recognized throughout the civilized world as one of the best money-making of all callings. Instead of receiving eggs in carload lots from the Middle West, as in days gone by, we are beginning to send our surplus to the far Eastern States. Last month forty-two carloads were sent to Chicago and New York, and the industry is just in its infancy.

The horse industry—light harness horse and draft stock—is also flourishing on this coast, just as it is elsewhere in the United States. The supply of certain classes is greater than the demand, consequently good prices are sustained. The importation of registered Clydes, Shires and Percherons to California exceeds that of all previous years, and more mares are being bred this year than ever before. California farmers need heavy horses just as the teamsters in the large cities do. The auto-cars have not supplanted them, except where very long hauls are to be made, and as there are not many of these, farmers and breeders should not entertain any fears for the future. They can raise nothing that will pay them better for their investments than heavy draft horses and middling large "chunks." The trotting horse industry is also reviving and this leads up to the question of fairs and race meetings. Many have advocated that besides giving races for horses there should be some novelty races to take place between heats instead of having the worn out and frazzled "cowboy stunts." Someone has suggested races between trained ostriches, reindeer races, chariot races with only thoroughbreds used in drawing them (no ordinary plugs), and races between esquimaux dogs would be an innovation. Some trained llamas could also be brought from South America to take part. Racing is what the people delight in, and fair directors are willing to receive any suggestions along this line which may draw the crowds. We are gradually working up to that point where we must give races of all kinds which will attract thousands from all parts of the world. At our big Exposition fair we should be prepared to educate the crowds not only by our industrial exhibits but also entertain them by giving the finest livestock exhibits and the best race meeting ever held in the United States. Owners of good trotting mares should breed them to the best stallions procurable this year so that the produce as two-year-olds will be eligible for the best races ever given for colts and fillies of that age, pacers and trotters. With such a promising outlook surely there is not a citizen on the Pacific Coast who has not a license to feel optimistic and have the courage to say so on every occasion.

LIABILITY FOR SHIPPERS.

There is an excellent prospect for the early settlement of a question which has long been a thorn in the side of horsemen who find it necessary to ship horses from one part of the country to another by rail. A suit brought by a Western horseman against a railroad company for damages owing to the death of the horse he shipped, caused through fire started by a spark from the locomotive destroying the car, has now reached the United States Supreme Court. The owner who brought suit in the United States Circuit Court was defeated, the judge ruling that the valuation of \$100 which was in the shipping bill signed by the owner invalidated the claim for damages exceeding that amount. The complainant carried the case to the Supreme Court of Appeals, and the decision obtained by the railroad was reversed, says Horse World. Then suit was brought for valuation, and the owner was awarded \$3,000 damages. On appeal, this decision was affirmed, and the railroad then took the case to the United States Supreme Court, as stated, and it is expected that it will come to trial this month. The railroads and express companies have long used the shippers of horses most unfairly, forcing them to sign a contract placing the valuation of a horse at \$100 or else charging them an exorbitant rate for shipping regardless of the fact that the carrying of highly-bred horses and other breeds of domestic livestock is a most prominent branch of their business. If the Supreme Court upholds the decision of the court from which appeal has been taken, the shippers of livestock will not be so wholly at the mercy of the railroad and express companies as they have been in the past.

THAT STALLION LICENSE LAW.

Concord, March 18, 1912.

Editor Breeder and Sportsman:

I would like to be enlightened on this new stallion law. I have read with interest the letters from George L. Warlow and Dr. A. J. Hullinger, but I am still from Missouri, so I would like to know where these wise men who worded this license law got the word "pure," as in all the horse history that I ever read, and of all the horsemen I have ever talked with, I have never seen nor heard that word used. It looks to me like the men who framed this law did not know any more about the trotting-bred horse than they do about Adam's off ox.

Why didn't they use the term "standard bred and registered," and "standard bred and not registered"?

I agree with Dr. A. J. Hullinger that the law should have the power to destroy all such mongrels by castration or the ax. Then I would say it was a good law; and in regards to misrepresenting the breeding of his horse, I have found the breeders are all from Missouri.

Yours truly,
C. R. WINDELER.

Chas. Durfee has been wearing a constant smile ever since he bought the two Sidney Dillon mares from Mr. Geo. Stickle. They are now members of his string at San Jose and, on his return from Los Angeles, he says he will "get busy" and see if they can move along as smoothly as Helen Stiles 2:08¾.

THE LOS ANGELES MEETING.

Los Angeles, Cal., March 20, 1912.

Editor Breeder and Sportsman:

Upon the return of Mr. Clark and myself from the meeting in San Francisco, a meeting of the Los Angeles Harness Horse Association was called for the purpose of devising ways and means of giving a good live meeting here this fall. We had a large attendance of very enthusiastic horsemen. Mr. C. A. Canfield was elected president; C. J. Berry, vice-president; W. A. Clark Jr., vice-president; L. J. Christopher, treasurer, and E. J. Delorrey, secretary. A committee was appointed to arrange a program, to decide upon classes and conditions, and report at a meeting which was held Tuesday, 19th inst.

The following program was then presented to the meeting and adopted:

| | |
|---|--------|
| Canfield-Clark stake (closed) | \$1000 |
| 2:20 trot, heats 3-5 | 1200 |
| 2:16 trot, heats 3 | 1200 |
| 2:12 trot, heats 3-5 | 1500 |
| Three-year-old trot, heats 2-3 | 1200 |
| 2:10 trot, heats 3-5, stake | 2500 |
| 2:08 trot, heats 3 | 2000 |
| 2:25 trot for Sixth California District horses..... | 750 |
| 2:20 pace, heats 3 | 1000 |
| 2:12 pace, heats 3 | 1000 |
| 2:08 pace, heats 3-5, stake | 2500 |
| 2:05 pace, heats 3 | 2000 |
| 2:25 pace for Sixth California District horses .. | 750 |

In addition to the above there will be one cup race each day for amateur drivers, all eligible to start to be members of any recognized driving association of California.

There was also set aside \$2400 for specials. This will enable us to secure sensational horses from the East which have come into prominence on the Grand and Great Western circuits.

It was also decided that all three heat races should be conducted on the plan of each heat a race and the horses paid off at the end of each heat.

The amount of the stakes and purses have been guaranteed by Messrs. C. A. Canfield, W. A. Clark Jr., C. J. Berry, W. G. Durfee and L. J. Christopher.

There being no grandstand at Agricultural Park, Mr. Canfield offers to start a subscription list with \$5000 for the purpose of erecting such a stand, and the required amount will be subscribed very shortly.

Those here interested in the harness game are very enthusiastic and this amount of money was guaranteed and subscribed inside of thirty minutes.

At this meeting it was also decided to give a futurity stake for foals of 1912 to start in 1914 as two-year-olds and in 1915 as three-year-olds—guaranteed value \$10,000! Entries to close May 15, 1912.

Yours truly,

SHIRLEY CHRISTY.

JAS. T. THOMPSON IN KENTUCKY.

James T. Thompson, of Sacramento, Cal., has arrived in Lexington with six head of trotting brood mares that are to be bred the coming season to some of the various stallions in the Blue Grass. It required seventeen days to make the journey, and though fierce weather was encountered en route, the mares arrived in good condition, despite their journey of nearly 3,000 miles, and did not look any worse than horses usually do after a day's shipment.

He is a believer in the old practice of "not putting all his eggs in one basket," and as a result will breed the six mares to five different stallions, General Watts being the one stallion that is to embrace as many as two of them. The other stallions to be patronized are Moko, Vice Commodore 2:11, Kentucky Todd (3) 2:08¾, and Tregantle 2:09¾. The mares will be left here until after they produce to these stallions, when they will be bred to others and then shipped back to California.

The following is the list of the mares:

Demiana, h. m. (4), by Bon Voyage 2:08 (winner two-year-old division Kentucky Futurity), dam Simmone, by Simmons 2:28, second dam by Baron Wilkes 2:18. In foal to The Bondsman and hooked to Moko.

Peresteria, b. m. (4), by Bon Voyage, dam Perza, by Allie Wilkes; second dam Anglia, by George Wilkes. Booked to General Watts.

Zombell, h. m., by Zombro 2:11, dam Silver Bell (dam of Sweet Bow (2) 2:17, winner of the Pacific Coast Breeders' Futurity, and Hymettus (p) 2:07¾, record (3) 2:08¾, and champion three-year-old pacing gelding) by Silver Bow 2:16, son of Robert McGregor, and also the sire of the dam of the fast mare, Helen Stiles 2:08¾. Zombell is a full sister to Hymettus, and has been hooked to General Watts. She is the property of L. H. Todhunter.

Lillie Young, h. m., by McKinney 2:11¾, dam Lena, by Nephew; second dam by John Nelson. She is the dam of a two-year-old that trialed in 2:28, is now in foal to Quintell, and will be bred to Kentucky Todd.

Queen, blk. m. by Dictator Wilkes dam Trusswood (dam of Worthy Trial 2:14¾) by Nutwood Booked to Tregantle. The sire of this mare is not the Dictator Wilkes that is a half brother to Nancy Hanks 2:04, but was sired by a son of Dictator that L. U. Shippee purchased from Major McDowell and took to Stockton, Cal.

Cripple, h. m. (4), by Bon Voyage, dam by Zompro; second dam by Sidney. Booked to Vice Commodore 2:11.—Kentucky Stock Farm.

Drink Jackson's Napa Soda.

SALINAS RACE TRACK.

I dropped off "The Lark" at 6:23 a. m. and after walking up town to the Abbott House, wherein mine host, G. A. Lapiere, holds forth, I sat down to a sumptuous breakfast of ham and eggs, good old-fashioned buckwheat cakes, etc., which seemed to touch the proper spot, in other words, the void in my midst region. After breakfast I decided to make a few calls on old friends before going to the track.

Iver Cornett, better known as "Red," was the first person I saw and as he is greatly interested in the trotter and pacer, it did not surprise me in the least to know that he had a few good ones in his stable, the best of which seems to be a four-year-old filly by Alconda Jay, that good son of Jay Bird, out of a mare by Lovelace (sire of Lord Lovelace 2:07½, the mud lark pacer of Oregon). This filly, although having very little work, can trot a quarter in 35 seconds without trouble and if nothing occurs, will make a fast mare. She was purchased solely to matinee, but may be raced.

By the way, I must not forget to mention the matinee club that has just been organized, under the caption of the Salinas Driving Club. Jim Anderson, the lucky owner of Della Derby 2:11¼, by Chas. Derby, is president; Dr. J. P. Nichols, secretary and Worthy Parsons, treasurer.

While only the preliminary plans are under way the organization has many more members than it seemed possible to get in a city of this size. The Salinas people are great lovers of horse flesh and realize the importance of the horse as a means of pleasure as well as business, hence the formation of the driving club.

Della Derby 2:11¼, the good trotter campaigned by Charlie Whitehead, is in fine fettle and looks very matronly after her sojourn in the blue grass country, where she spent two years at the court of Peter the Great 2:07¼, and was only brought back to the alfalfa fields of the Golden State when her owner, genial Jim, was satisfied she was with foal to that great horse.

Dr. Nichols has the trotting mare, Alma, by Dexter Prince, in a spacious stall at his veterinary hospital, where there is much speculation as to what kind of a foal she will produce to the cover of The Bondsman, to which horse she was bred last spring.

Worthy Parsons, the breeder of that good game trotting mare, Berta Mac 2:08, is still stabling at his stable in town, but will shortly move to the track with his string.

G. Albert Mac, full brother to Berta Mac 2:08, is in fine fix and after a season in the stud Mr. Parsons will reduce his record of 2:20½. He has some very fine colts by this good son of McKinney, namely: Merry Widow, Merry Mac, etc., and several young things.

Berlock by Zolock, out of Alberta, dam of Berta Mac, will be worked this year, as will Berta Lou, by Kinney Lou, and Berta Bon by Bon Voyage, out of the same dam. All his horses are in nice shape, which is not unusual for Worthy, as he was always a good feeder and care taker.

Now for the track itself. This is the training grounds of central California, in my opinion; it cannot be a bad place when we stop to consider that such good ones as Ray o' Light (3) 2:08¼, the double Futurity winner, North Star 2:11¼, winner of all the stakes as a three-year-old, Della Derby 2:11¼, a Futurity winner, Berta Mac 2:08, Dictatress 2:08½, Prince Gift 2:12, Princess 2:13¾, and numerous others got nearly all their lessons and completed work over this track, where there are never any sore or lame horses.

"Senator" Henry Helman (so-called by the late Mike Wisdom, bard of the Northwest), has the track and fair grounds under lease for a term of years, and from the improvements already made, it is safe to say that Henry will have as nice a place as any mile track in California in a short time. The stables have all been overhauled and white-washed inside and out, the track re-soiled, and with center field in oats and the grass about eight inches high, it sure looked good to me after the dry barren spots of Southern California.

There are not a great many horses at the track at present, but applications have been made for many stalls, so it should soon fill up.

W. H. Williams, the old stand-by, is working a few head, namely Darkness, a black mare by St. Nicholas, dam by Sable Wilkes, owned by Peter Thompson, of Watsonville. This mare is a nice pacer and will be raced some this year.

Mecina, by Barondale, dam by Mendocino, is a nice trick, and if she has no bad luck should be a useful mare to race, as she can pace in 2:11 and is good-gaited and good mannered. She is owned in Salinas by a Mr. Fees.

Dexter Lou, by Kinney Lou, out of Alma, by Dexter Prince, is a high class trotter and is well staked. His owner, Doc. Nichols, is very enthusiastic about this fellow.

Mr. Williams has his little pacing mare Lettie D., trial 2:08¼, by Booodle, looking good, and she is sound as a nut and had two years' rest. She should do to race this season.

Henry Helman is not only track superintendent, trainer, manager, etc., but chief cook as well, as his better half has not yet arrived. And he is some cook, too. I will swear to that, because I had about as good a "mulligan" stew as I ever ate and I have eaten a few at that. The only thing Henry forgot was the tomatoes but he made up for them with the quantity and quality of everything else. Any way,

who could be expected to remember the tomatoes when there was a hot horse to work? Answer that if you can, some of you professional cooks, and besides Henry does not pretend to be a cook. There is one thing he does pretend to be and that is a good enough judge of horses to go East and and pick out a stallion to cross to our California-bred mares. And he did it too, if I am a judge.

Alconda Jay, the handsome son of Jay Bird, is certainly bred in the purple, and judging from the few colts at the track by him he will be sure to make a sire not only of speed but of looks and conformation.

While Alconda Jay himself is a grand horse, I don't think he can show with his son, the black three-year-old Allen Jay. He is a nice turned fellow, well matured and although he has had no work to speak of can trot quarters in 36 seconds. Chanate, another three-year-old by the same sire, out of a McKinney mare, promises to be a good trotter, and quarters in 39 seconds seem play for him. Bob Gar-side owns this fellow.

Thomas M. 2:12¼ is going sound and taking his work nicely, and Henry Helman hopes to be able to keep him up so as to race him this year.

Clare Healey by Quate, out of the dam of Thomas M., is a nice bay mare and is well thought of.

Welcome Dan, by Welcome 2:11, out of the dam of Sidonas, trial 2:12, is a nice going trotter, and has been a quarter in 33¾ seconds.

Elaine, brown mare by Robin, owned by Cherry Hebert, one of the Monterey Fair Directors, is taking her work nicely, and as she has plenty of speed at the pace, will be a useful racing tool.

"Uncle Jim" Iverson has four head in Helman's stable, namely: Pointer Belle (2) 2:17, winner of the two-year-old pacing division of the Breeders' Futurity, by Star Pointer out of Dictatus Belle, by Dictatus; she is very good now and will be raced. Salinas Star, the three-year-old full brother to North Star, a fine big chestnut fellow, and will be pointed for all the stakes. Eugene I, a two-year-old trotting filly, by Eugeneer, is well staked, as is Belle Neer, the three-year-old half sister to Pointer Belle, by Eugeneer.

Henry has two two-year-olds of his own that are both staked and will be trained. A black filly, by Alconda Jay, out of the dam of Lady Mowry 2:09¼, is a nice thing, and so is Alma Jay by the same horse, but out of Lady Mowry 2:09¼.

Ada McKinney, the dam of Allen Jay, foaled a black colt on the morning of Washington's birthday, and Henry is trying to think of an appropriate name.

Everything points toward a good year at Salinas, and if the association decides to repeat last year's performance of the "One Big Week" it is a certainty the horsemen will all enter their stables.

Should a meeting be held the track will be found in first-class shape and the stables up to date in every respect.

If the "Senator" keeps up the good work he has commenced he will have a plant second to none on the coast.

"Here's how, Henry, and good luck."

E. S. TRAIN.

OUR LIVESTOCK EXHIBIT IN 1915.

George M. Hyland of Oregon in his address to the Panama-Pacific Exposition Directors last week referred to one of the important features of the exposition, the live stock industry, as follows:

"You have told us that we are the representatives of Oregon; but I want to tell you that up there on the ranches of Oregon are men the latchet of whose shoes we are not worthy to unloose. It has been said that the people of the Pacific Coast are always asking for something. I one time heard a speaker answer that by saying that we are the only people on earth who have everything, and all that we want is for the rest of the world to come and enjoy it with us.

"We have been told that the directors of your exposition are men of substance; that they are wise in their plans for this great work. But there is one particular in which we want to be heard to give advice, and that is in connection with the live stock exhibit at the exhibition.

"We want you to be awake to the fact that among all the good results of the exposition there is not one to compare with that which will come to the Pacific Coast from a good live stock exhibit. You must work with your directors to make them see that the live stock exhibit is one that will accomplish lasting results of permanent value to the whole coast.

"It should be your ambition to see to it that the best animals are brought here in 1915, and that you have a director of this work who will see to it that every animal that comes is kept right here on the Pacific Coast. Then after your Streets of Cairo have vanished and your Igorrote village has been swept away, there will remain on our ranches the permanent result of this exhibit.

"The success of this exposition is, after all, with the people of the West. For this reason we of the Pacific Coast must work together to make it what we want and expect it to be.

"And in this connection let me say that if it hadn't been for the sign post at the State line not one of our party would have known when we passed out of Oregon and into California."

CANFIELD-CLARK STAKE.

The Canfield-Clark Stake No. 4 for foals of 1911 to trot and pace as two-year-old in 1913 closed with the following sixty-six entries. Mr. Canfield and Mr. Clark are pleased with the liberal support this stake received from the breeders. The conditions reading that owners must become members in the California Breeders' Association to start, will not be insisted upon. The third payment in the Canfield-Clark Stake No. 3 will be due April 1st:

Mrs. F. H. Burke's Yoncalla, ch. c. by Bon Voyage. Alex Brown's br. c. by Prince Ansel, b. c. by Prince Ansel, br. f. by Nuristo, br. f. by Nuristo.

R. B. Witeman's blk. f. by Joe Lock.

J. W. Zibbell's foal by Tom Smith, foal by Tom Smith, foal by Eddie G.

E. L. Matthes' Opitsah, ch. f. by William Harold.

Homer Rutherford's Bonnie Porter, b. f. by Bon McKinney.

The breeder needs to know comprehensively the type of horse of any class he intends to produce that will command the highest price by consumers. A year spent in reading the literature of the breed one intends to raise and a study of the best types of the breed exhibited at exhibitions will prove of incalculable value in exploiting the horse-breeding industry. The man who achieves the largest measure of success in any enterprise is the one who so thoroughly understands the business that he can act on his own initiative. Confidence must be based on knowledge; otherwise the breeder will be swayed by the hallucinations of fanciers who have no fixed type to produce.

THE KENTUCKY FUTURITY CLOSES APRIL 1.

On another page of this issue will be found the display advertisement of the Kentucky Futurity for foals of 1912. It has a total value of \$26,000, divided as follows: \$5000 for 2-year-olds; \$14,000 for 3-year-old trotters; \$2000 for 3-year-old pacers; and \$5000 for 4-year-old trotters, the winner in which will also be presented with a handsome Gold Cup.

The action of the Kentucky Trotting Horse Breeders' Association in thus adding \$5000 on top of its already rich Futurity stake, without increasing in any wise the two initial payments, which carry entry to year of race, is certainly a most liberal action on their part and they are justified in their implicit belief that the breeders of the country will show their appreciation and lend their encouragement in this step by giving it their fullest support.

By winning all three divisions of the Futurity, it is possible for an eligible colt to earn a grand total of \$15,100, a fortune in itself. Outside of a money consideration, there is an honor and a sentimental value attached to a Kentucky Futurity winner greater than all others combined. Wealthy lovers of the trotter have in the past, and will continue in the future, to pay out small fortunes for colts that appear to have a fair chance to win the Futurity. There is a reason for this condition beyond a money consideration, for the winner of the Kentucky Futurity is conceded by all to be the champion colt of the year and his name is thus chronicled among the really famous trotters of his time.

The list of winners in the Kentucky Futurity includes such star 3-year-olds, as well as aged, performers of their day as Peter the Great, Borama, Ferona, Sadie Mae, Grace Bond, Miss Adbell, Silko, General Watts, The Harvester, Grace, and Peter Thompson.

Read the conditions carefully; write for blanks, and make your entries on or before April 1, with J. W. Williams, Acting Secretary, Lexington, Kentucky.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

RANDOM NOTES.

[By J. B. Thompson]

We can hardly estimate the numerous methods and appliances used for teaching the youngster steadiness to wing; as this is the initial step in his field education, its importance is pronounced—for it is the key to all further control. Thousands of pups will point naturally, but as soon as the bird flushes they are in hot pursuit, and no amount of shouting or whistling can check their haste to capture the bird. If great care is exercised while teaching this point, breaking to shot and other nasty actions, will be easily controlled before the pupil becomes thoroughly enamored with them.

Many begin teaching steadiness to wing during the yard work, and often it proves its advisability; but with highly strung youngsters it is frequently a waste of time that could have been used with more effect in the field on game. In the yard is generally used a long lead and the force collar, or merely the ordinary slip noose, the dog is allowed to follow or incited to run, and when he reaches the end of the line, a jerk is given to the lead at the same time saying "Steady!" This is done for a week or more, until the pupil realizes that the word "Steady" means to stop; and by adding the word "On" as you move up, he learns that he is to remain still until the word "On" is uttered.

At the commencement the dog should not be made to stay steady but an instant; as he absorbs knowledge the duration of his stop can be prolonged. Afterward we excite him into chasing some object, and check him with the word "Steady," when he reaches the end of the line. We can have him perfectly under control in the yard on inanimate objects; or on pigeons and sparrows in the town or open places, but it is another thing to have him steady to wing when his whole little body is quivering with excitement for chasing. It is on game, and game alone, that a due appreciation of this method can be felt; and here is where the amateur is very liable to commit the grievous error of checking the high class pup into staunchness before nature has shown its signs that it is the time to bring the pup in to the handler's control.

He of course with perseverance will teach the pup steadiness to wing at almost any age he wishes, but it is questionable as to whether steadying that particular dog at an early age has not checkered his future career. There can be no set rules as to when a dog should be steadied, but the course of steadying a young dog before he has had his fling of natural wildness is open to criticism; chiefly because we may have wasted a lot of work on an animal that may never have the goods in him to make it worth your time. Or his instinct may be dormant, and checking him too early will make a pottering, raking animal of little merit, when if he had been allowed full liberty he would have developed into an animal of dashing excellence. The art of breaking is too closely followed with the wellbred field dog; developing should be the course at first, permitting him to get out and search and gain a knowledge of the habits of game, then as his instincts become pronounced and he has stamina with it, work can begin in slow stages. No one has ever gained much by haste in training, but rather a judicious recognition of the right moment to apply checking methods has secured the great future. Do not check the dog into pointing sparrows, meadow larks and every bird you run across; but even when on game exercise your judgment, for a false step at the start through over anxiety, can encourage false pointing, and rob the dog of the snap and style that adds so much to his value.

When the youngster begins his work on real game don't expect too much of him, and hold him up on every bird that flushes; give him some liberties until he develops a nice self confident method of handling that is delightfully at variance with cringing subjection to a handler, a condition that over control at the start will positively bring about. It is no hardship on the young handler's part to bring about high class bird work, but it can never be done in haste, or by holding the youngster too much under control.

If you like the wide ranger, work the dog at first on covies and do not be too particular about forcing him to work out each single; always remembering that it is far easier to rob a dog of range than to give it. Cutting range requires little skill, but to increase range that has once been curtailed is a matter that exacts deft handling. We like to see the "scattered bird" dog work, but do not give the pup too much work on scattered birds if you see that it will react on his natural stylish way of working. Work up gradually to it, and with time and faithful devotion to the youngster's work afield you will have one of those rare creatures, that are often spoken of but seldom seen in a life time, a high class combination covey and single bird dog. You may not reach the standard essential to the different performances, but your dog will approach so closely to it, that he will be invaluable on game.

While speaking of steadiness, in the last few years there has been placed on the market several appliances to assist the young handler in his work. One manufactured in the East consists of two cords dragging from the dog's collar, reaching back a few inches behind his hind feet, which have attached at the ends rubber balls. When the dog gives a bound or sudden rush, or runs, the weight of the balls causes a snap back and the cord is wrapped around the dog's legs, instantly throwing him or preventing further progress until the handler arrives and releases him. A whistle is used, or word of command. When the dog rushes, and the handler sees the dog is about to be checked, he issued the command. It is an attempt to displace the force collar, and in the open is of some benefit. I say "some," because I have seen occasionally a big fellow bounce off with the harness wrapped around him, perfectly delighted that he had been able to defy the intentions of the master.

As a rule though they are a valuable assistance in an open field, but very dangerous where there is timber or brush adjacent. I almost lost a very valuable animal by using this device. He was a high strung fellow, that if let idle a few days during the bunting season became overly full with hunt and bolted from me the first dash out of the yard, picking me up an hour or so later. I had seen this appliance in use, and purchased it especially for his benefit. I snapped it on to his collar, nevertheless he disappointed me. Instead of running, or jumping he straddled his legs apart, and took a fast wide walking gait until he got out of my sight. It was three days before I found him half starved, and the appliance wrapped around a sumach bush holding him a prisoner. It stopped the bolting, but, however, it was a very drastic method to cure him. I have seen it to be of great service to the amateur, but to me it appears really dangerous in a brushy country. Many of the shooting dog trainers use for the same purpose chains, from one to three, and sometimes four, the collar being loosened enough, so if the dog gets fastened outside of the range of the handler, it will easily slip over his head. This training device, unfortunately, wraps the animal's legs to the brush, and he is unable to draw his head through the collar.

AMERICAN GAME ASSOCIATION NOTES.

Wild duck, quail, ruffed grouse and pheasants will be raised by the American Game Protective and Propagation Association for free distribution among members, according to its March bulletin, just issued.

Between five and six thousand acres have been secured near the town of Fremont, on Cape Cod, to be used as a game farm and sanctuary. There are thirty ponds on the land and a good growth of pine and scrub oak. During the last four years it has been used as a game refuge, and as a result there are now many quail and ruffed grouse in the covers.

The breeding of wild duck will be the initial work in propagation. A supply has been purchased, and it is estimated that thousands can be raised this year. Special attention will be given to the wood duck, which is not only one of our most beautiful specimens, but was at one time among the most common. It is a sad commentary on the thoughtlessness of the American people that this bird is now on the verge of extinction.

There have been numerous attempts in this country to raise quail and ruffed grouse, but few of them have been successful. The reasons for this are various, but it is not strange that we should fail in the beginning, for we have no game keepers trained to the work of breeding our native birds. The Association will secure an expert game keeper to take charge of rearing upland birds. The game raised on the Association's farm will be distributed among members for stocking purposes.

The Association is advocating the establishment of game refuges in all parts of the country. If the birds have a place where they can raise their young in security they will increase so rapidly that they are bound to overflow into the surrounding territory, and thus improve the shooting in the neighborhood of the sanctuary.

The March bulletin also tells of the Association's activities in securing bearings on bills for the federal protection of migratory game birds. Since it was issued these hearings have taken place, and representatives from forty different States came out in favor of federal protection.

The hearty support of sportsmen throughout the country has been continued, and up to March 1st, about six thousand dollars had been subscribed. Particularly gratifying is the way fish and game clubs and local and State protective associations have joined the movement. Such bodies, situated in all parts of the country, are hastening to affiliate with the National one, which now has members in every State in the Union.

Drink Jackson's Napa Soda.

A High Old Time.—Of the many San Joaquin valley clubs possibly the Gustine Gun Club has the largest membership. The club preserve covers several thousand acres, owned by Miller & Lux, and on which, at the opening of last season, were many ponds, some favorably situated and others located far away from the clubhouse and somewhat difficult to reach, except to the gunners who knew the trails and cutoffs.

The general rule in gun clubs is to draw lots for blinds and shooting ponds. With the Gustine Club the extra large membership precluded a satisfactory and quick settlement of this question by drawing straws, and this led to an episode unprecedented in the annals of duck bunting—a small-sized Oklahoma rush the day previous to the opening of the last season, October 14.

On that afternoon over 100 bunters were at the clubhouse. The transportation facilities included four automobiles, about forty vehicles and rigs of various kinds, saddle horses and a rear guard that journeyed via "shank's mare."

Notwithstanding the small army of shooters, there was ample shooting territory for the whole crowd. Choice of position was settled by a go-as-you-please chase. The assemblage of trigger pullers was lined up near the clubhouse, each individual equipped with motive power as best he could. The starting signal was the clang of a big bell.

At the first alarm of the old farm dinner bell the line of waiting and laughing men broke away with wild yells and shouts. The scene was ludicrous in the extreme. The alignment was broken in short order. The automobiles and several hay wagons were forced to keep to the road. Soon coming to a narrow bridge there was a jam, and a small-sized riot, was started by the light rigs coming behind.

Meanwhile the plain was dotted here and there by carts and buggies, galloping horsemen—doubly mounted, some nags were—and the footmen sprinting away hither and thither to secure a duck blind for the opening morning shoot. Hats and tempers were lost, and the bunch charged over the adobe country like a crowd of yelling Comanche Indians.

The open land being dotted with ponds and criss-crossed with cowpaths, some of these two feet deep, compelled deviation from air-line progress. The fellows who knew the ground had no difficulty in mapping out a route. Speed, however, was a factor, and some of the boys went over the ruts and bumps in bonebreak style. One shooter stated afterward that his buggy strayed a deep cut and he bounced up in the air so high he thought the buggy would shoot from under him before he came down.

In due course the duck Marathon was over, and every man had his name posted on a shooting spot. Some were lucky in getting a choice blind or pit; others had to take what they could grab. Once a webfoot claim was staked the stampede for that individual was over, his pre-emption was respected.

The course of this steeplechase covered a territory about four miles square. A number of local powder burners were in the skirmish. Despite the suppression of the affair early in the shooting season, the episode loses none of its ludicrous features at the present time.

Maybe the strenuous game was worth the going, for the next day over seventy-five limits of fat ducks were shot.

Some Day They Will Stop It.—The closing of the season was celebrated by the Raisin Gun Club of Fresno and visitors to the Oxalis preserve to the number of 240 by a "mudhen shoot." Four thousand of these unfortunate birds were slaughtered. One shooter bagged over 100.

A "mudhen battle" in the afternoon, in which 2,000 dead birds were the missiles used in a free-for-all bombardment, and a brass band headed parade when the party returned to town closed the day's proceedings.

Mudhens, contrary to general information, are a very palatable bird. They are seed and vegetable eaters, and are far better eating than their reputation implies. They are a despised bird, for the principal reason that they eat up the bait in most preserves quicker than it can be put out.

The day is coming, however, when such uncalled for prodigality will not be further countenanced, the birds may possibly count in the bag.

Desultory Shots.—Wild geese and English snipe shooting are the shotgun diversions yet in vogue for the sportsmen. In the Maine Prairie and Elmira sections wild goose hunting has been particularly good. The birds were also very plentiful in the vicinity of Rio Vista until the recent rains. Down in the San Joaquin valley the best goose shooting is found on the west side of the San Joaquin river, the birds in the open fields on the east being difficult to approach. Best results are obtained by hunters who use live geese for decoys.

Poor Duck Season.—According to Deputy State Game Commissioner A. D. Ferguson of Fresno district, including Tulare and Kings counties, the open season for ducks which closed March 1, was the worst in point of scarcity of birds that has been experienced in that section of the San Joaquin valley in many years.

Duck shooting, states Mr. Ferguson, has been almost exclusively confined to the gun club preserves, which, owing to the scarcity of rain, contained about all of the available water.

In the past seasons the territory between Fire-

baugh on the south to Newman on the north has been literally covered with ducks. But this season the birds that invaded the valley were compelled to remain on the preserves or else continue their flight to the Tulare lake region.

Mr. Ferguson also stated that wild geese are still very plentiful in the valley. There is of course no law protecting wild geese, and if rains come within the near future sportsmen may yet be afforded some good shooting.

At present the best shooting for geese is to be found west of the San Joaquin river, the birds in the fields to the east being difficult to approach.

FISH LINES.

Prospects for the First.—Coast stream angling for steelheads will be open April 1, nine days hence. Whether there will be any fishing or not has been a vexed question. It all depends upon weather and water conditions. Up to date the rainfall has not been heavy enough to keep the creeks and rivers muddy or roily on the first day of the season, should there be a cessation of the rain from now on. The streams will be high, no doubt, but the water will be clear.

Such being the conditions fairly good fishing with bait—roe or the barnyard hackle and the spinning spoon—will be at the disposal of the Waltonians.

With the exception of Napa creek, reports from Point Reyes, San Gregorio, Pescadero lagoons and other steelhead resorts were recently that the water was high and muddy and fishing successfully was impossible.

Nick Boracco, a Napa angler, fished at the dam in Napa creek, about a mile or so above town, a week ago, and landed seven steelhead, the largest scaling fourteen pounds.

The season far rainbow trout fishing in State fish and game districts No. 3 will not open until May 1.

Santa Clara Streams.—Game Warden Walter Welch, of Santa Cruz county, writing early last week, outlined the situation affecting the thirty and odd streams in that county as follows:

"During the past winter there has not been sufficient rain to raise the streams in a degree worthy of mention and consequently up to the present time (March 10) there has not been the usual run of fish upstream. Many adult steelhead trout have congregated in the lagoons at the mouths of the creeks and streams when the lagoons were open.

"Throughout the month of February hundreds of large steelheads were caught in the tidewaters of the San Lorenzo river within the city limits of Santa Cruz, and also a few fish were taken in the Sequoia and other streams.

"Should we have a good rainfall between now and April 1 there will be a run of trout and angling will be fairly good. At this time the waters of Monterey bay are alive with steelhead of all sizes awaiting a chance to ascend the streams.

"A heavy enough downpour now to raise the Salinas and the Parajo rivers is not likely; the fish, therefore, will probably run up the small streams of Santa Cruz county—if we have enough rain to raise and roll the water in them.

"At this time the water in all of our streams is almost as low as midsummer. We are having showers today, and I hope they will turn into a regular old time downpour."

Record Black Bass.—That black bass have thrived remarkably well in the waters of this State since the introduction of this delicious food fish is generally well understood. But that the prediction made several years ago that they would become plentiful as carp should prove practically true at this time is not realized, except in certain localities of the Sacramento and Yolo basins and the San Joaquin valley, where the wonderful increase of the fish is so apparent as to lead to the belief that California is today one of the best black bass stocked states in the Union. The rivers, sloughs and streams throughout the Sacramento and San Joaquin valleys are teeming with both large and small mouth black bass. In many other sections of the state these fish have increased in the same ratio.

one of the best black bass stocked States in the increased in the same ratio. The large mouth black bass have been caught in the upriver waters weighing as high as fourteen pounds. A few years ago an eleven pound large mouth was caught in Lake Merced. This variety is apparently the better known one of the two.

A recent seizure of illegally caught bass, near Fresno, develops some particularly interesting data concerning the small mouth bass in this state—a few facts that will certainly cause anglers to take notice. The intimation that ten pound small mouth black bass are to be found in our waters will undoubtedly lead skeptical Eastern anglers to believe that this is "only a fisherman's story."

Fish and Game Commission Secretary Ernest Schaeffe is in receipt of the following communication from District Deputy Andy Ferguson, of Fresno, that bears upon the subject:

"Replying to your letter of the 11th inst., in regard to small mouth black bass, I beg to advise that I am confident we can in proper season secure any number of small mouth black bass to fill your requirements.

"In this connection I would call your attention to the fact that, like every other transplanted fish, the small mouth bass in our waters have attained a size

beyond which bass were ever known to acquire in their native habitat.

"The thirty two fish weighed 138½ pounds. Their individual weights ran from one pound two ounces to eight pounds eight and one-four ounces.

"In the lot were one fish weighing eight and one-half pounds, six over six pounds, seven over five pounds, six over four pounds, six over three pounds, three over two pounds and four over one pound. The maximum weight of small mouth bass, according to American Food and Game Fishes, by Jordan and Everman, is given as five pounds. I believe individual specimens could be found in our waters which exceed the weight of the largest in the lot here described.

"Going into the history of the black bass of this section, I personally distributed all of the original stock fish. I recall that the first lot received from the Commission were understood to be of the small mouth variety.

"This lot was planted in Kings river. Thereafter I received 4000 large mouth black bass fry which I also planted in Kings river. My recollection is that I also distributed both varieties in the San Joaquin river.

"When the bass first began to appear in numbers in this section some seven years after the original plantings, vast numbers were taken in lower Kings river, and of the hundreds of specimens examined by me all were of the small mouth variety.

"On the other hand, those taken in the San Joaquin, about the same time, were invariably of the big mouth variety. To this date the large mouth bass predominate in the San Joaquin, but in the Kings river the two varieties seem to be more evenly divided."

NATIONAL RIFLE ASSOCIATION NOTES.

Inter-Club Championship.—Whew! But wasn't that finish for the Inter-Club Rifle shooting championship a corker? Just think of 15 men placing 285 shots out of 300 in a space that could be covered with a ten cent piece. My! That is some shooting. Literally speaking the Bridgeport bunch had a hair-breadth escape from another tie with the Winchester Club, as only a hair separated one shot on the Winchester targets from another 10. The Winchester boys certainly do have hard luck in the Inter-Club matches. They shoot like fiends through all the matches, have the highest average, and make the record scores, but are always nosed out at the finish.

One thing has been accomplished by these indoor matches and that is, the building up of a class of gallery shooters in this country that have no peers in the world. The results of this winter's work should count towards victory in the International smallbore match for the Dewar trophy. Speaking of that match it would look as though the three clubs that shot off for the league championship could almost furnish a winning team in that contest. The International Match will undoubtedly wind up the indoor season in a blaze of glory.

Indoor Qualification.—Interest is rapidly increasing in the new indoor code of the Association, and qualification targets are coming in rapidly. The Association is receiving many congratulations on the beauty and style of the design of the fobs they are issuing. The club and school boys are after them strong, and the adoption of this code has undoubtedly resulted in greatly stimulating indoor rifle shooting throughout the country. It looks as if the Association will have to duplicate its order for 1912 decorations

International Team.—More or less gloom prevails in the office of the Association these days on account of the way the proposition to have the rifle shooters of the United States represented in the Olympic games has been received by the fraternity, and it looks as though the humiliating statement will have to be made that we could not raise \$6,000 in the United States to have the riflemen of the country represented at Stockholm. It is undoubtedly true that the followers in this country of the kingly sport of rifle shooting are not of the wealthier class, but we do not believe that there is one in this country today who would miss a ten cent piece, and if every member of our rifle clubs would do this much, it would bring in over \$200. As our last appeal we ask our rifle clubs to take up a dime subscription among their members. Of the 100 odd clubs affiliated with the National Rifle Association of America, subscriptions have so far been received from the following: Santa Ana, California, Rifle Club, \$3; Detroit Rifle and Revolver Club, \$5; Cupress Hills Rifle and Revolver Association, \$5; total \$13. We have still to raise \$5000 for the Olympic men.

New Haven's average per man for the entire series of matches was 991.3; Bridgeport 985.6; Cleveland 982.3. It will be seen from this that the New Haven Club did the most consistent shooting. The highest individual average in the Eastern League was made by Mr. George W. Chesley of the New Haven team with an average of 199. Close behind came H. S. Williams of the same team with 193.2; Jarvis Williams Jr., of Bridgeport was third with 197.6, and E. L. Anderson of Birmingham, fourth with 196.1. During the matches Chesley made four possibles, Captain Richard three, F. C. Frye of Cleveland, three; Humphrey, Cleveland, two; and one possible each by Thomas and Haas of New Haven, Williams and Naramore of Bridgeport and Andrews of Cleveland.

AT THE TRAPS.

Last week we noted that sixty-seven shooters attended three local blue rock functions. This number of sportsmen was increased last Sunday and Saturday.

The Saturday shoots of the Easton Gun Club and The Family Club mustered ten and twenty-one respectively, the opening shoot of the Golden Gate Gun Club had fifty guns participating in the regular club events. This number was increased by several shooters who shot at odd times in the practice squads.

Eighty-one trigger pullers at the traps for the two days' shooting is a bit unprecedented in local trap history for many years past. Indications point to keeping up the good start made thus early in the season.

Another thing, and a good move in the right direction, is the general sentiment in favor of Saturday afternoon trap shooting. Many professional and business men will gladly avail themselves of the week-end opportunity of keeping their shooting eye keyed up to proper form, others again will be pleased to take advantage of a long delayed or postponed desire to enjoy a sport that is almost without parallel.

The live bird shoot contemplated by the Meridian Gun Club for March 17, did not come off, a supply of birds failing to materialize, so the match is, for the time being hanging in the air.

Blue rocks, however, supplied the missing link and nine members satisfied themselves with smashing inanimate targets. The scores were. Allen 121 out of 168, Freeman 6-48, J. Bollinger 7-48, T. Bollinger 26-36, C. Litchfield 27-36, Gordon 78-96, Murray 47-60, Hogg 57-60, Blackman 12-12.

The club is arranging for a big shoot in the near future. Possibly at this time, matches will come off between Bart Lorigan and Ray Hogg against Clem Arques and N. H. Cadwallader, or mayhap between the latter shooter and Lorigan.

Vacaville Gun Club shooters held the first club shoot for the Peters trophy on the 17th inst. This shoot was a bird handicap affair. Not counting the target allowance, R. Rippey, with 21 out of 25, was high score. W. Z. McBride was next with 20 breaks. Under the handicap allowance a number of the shooters scored the possible 25.

The shoot for the DuPont trophy is billed for April 3. "Howdydew" Rice has been requested to arrange another handicap for the Vacaville shooters. The handicaps and scores follow:

The San Berdoo crack shot, Fred C. Drew, March 17, on the Urbita Gun Club grounds at San Bernardino, broke the Coast record with a run of 191 targets. After losing his 192nd bird he finished out the 200 with the grand total of 198, and that is going some. Drew was a member of the Urbita Gun Club squad in the Pacific Coast handicap at Madera last year. The Urbita shooters made the squad high averages.

Nearly 7000 rounds fired by Golden Gate Gun Club shooters last Sunday sounded as if a small-sized battle was on in Alameda at the club shooting ground on the marsh south of the Webster street bridge.

H. D. Swales broke every target in the opening club at 20 days, and made the initial win in the event. In this shoot and the following "grub" shoot, 10 birds, the shooters all shot from the 16 yard mark.

Captain Clarence A. Haight's team of 21 gunners outshot Captain Dick Reed's squad of 21 artilleryists. The score was 163 to 161, the winners being designated by a star in the score table. The losing team paid for the luncheon served on the grounds. These "grub shoots" have become popular features at trap meetings.

W. A. Simonton, 16 yards, broke 19 out of 20 in the distance handicap shot for the Peters and Selby trophies. In this smokeless powder argument the shooters were placed at different marks, 14 to 21 yards, from the traps, according to past records of efficiency in pulverizing the flying clays. This is Simonton's second season, beginning as a novice. He will wind up at the end of the club shooting year with the topnotchers.

In the "grub shoot Toney Prior, E. Hoelle, Dick Reed, J. A. Cook and Jim Lee all connected with straight scores of 10.

Toney Prior and A. J. Webb each won club gold bars, when they scored straight runs of 25; 20 straight entitles a club member to receive a gold bar and a run of 15 is productive of a silver bar club token.

The club event will be class shooting this season. High guns will win in the trophy event. The high average for the year counts for the Du Pont trophy—seven 50 target days, 350 targets altogether. These figures embrace the three regular club events.

After the club program was disposed of squads of shooters kept peppering away at the inanimate targets until nearly 5 o'clock p. m.

Among the visitors were A. Henning, of Shanghai, formerly a familiar figure at local shoots. Russ Mace of the Madera Rod and Gun Club, staid in numerous 25 bird races.

E. R. Cuthbert cracked out the first straight of the day, a fifteen in a preliminary practice skirmish. The scores follow: Event 1, club match, 20 targets. Event 2, "grub shoot," 10 targets. Event 3, handicap trophy event, 20 targets—

Table with columns: Events, 1, 2, H'd'p, 3. Lists names and scores for various events.

Members of the Family Club, eighteen of them, shot blue rock targets last Saturday afternoon as guests of the Exposition City Gun Club at the Presidio. In a series of three 25 blue rock matches, George Uhl was high gun, breaking 60 out of 75, and Dr. McGettigan was top score in The Family row for the five events with a total score of 93 out of 125. Bill Lange was satisfied with 8 out of 25, well pleased that they did not all get away.

E. Hoelle's score of 24 out of 25 was the best record for the afternoon. N. W. Sexton was next up in general average. The scores follow:

Table with columns: Name, 25, 25, 25, 25, 25. Lists names and scores for 25-target events.

The Exposition City Gun Club blue rock season will open to-morrow at the Presidio trap ground.

The regular monthly club shooting days will be on the fourth Sunday of the month, closing September 22. Regular club practice days are set for the second Saturday afternoon of each month during the season.

The season's program embraces four events monthly. Event 1, club match, 20 targets, class shooting, 16 yards rise, \$100 in cash prizes, \$25 for each class, high guns, \$10.00, \$7.50, \$5.00 and \$2.50. Event 2, "grub shoot," 15 targets. Event 3, handicap trophy, 20 targets, 14 to 20 yards distance; 14 yard men allowed 5 targets, 16 yards, 3 targets, 18 and 20 yards, scratch men. Event 4, individual challenge match, 20 targets, class shooting, trophy for each class, winners of first shoot subject to challenge the same day, not more than three challenges at each shoot. Winners must attend subsequent shoot or

lose by default. Silver bars will be given for 10 straight, and 20 straight wins a club gold bar. Bar shooting must be declared.

A trophy will be awarded to the member making the largest run of consecutive breaks during the season. Targets trapped for members, 1 cent; visitors, 2 cents.

The Golden Gate Gun Club trap grounds at Alameda are open for practice every Saturday afternoon. Visitors are welcome to shoot over the traps.

E. B. Van Arman, formerly with the Honeyman Hardware Company, Portland, Ore., is now connected with the Winchester Repeating Arms Company. His territory will embrace the San Joaquin valley, southern and coast sections of this State.

The members of the Butte Rod and Gun Club turned out in large numbers at the range March 17, and many out of town experts took part in the shooting. Harry Altenbrand of Manhattan won the Con-far medal. The scores follow:

Table with columns: Name, 20, 19, 19, 19, 15, 20, 11, 19, 22. Lists names and scores for the Con-far medal event.

Ralph L. Spotts of the Larchmont Yacht Club, and one of the shooters who will represent America in the Olympic Games at Stockholm, was high gun in the fifth annual tournament of the Keystone Shooting League, which ended March 15. Only three events of 15 targets each had been shot when the meet was forced to close by the downpour of rain.

Spott's total for the two days was 188 breaks in 195 targets. He broke 43 out of 45 today. A. B. Richardson of Dover, Del., broke 44 out of 45, while Neaf Apgar, the professional, was the only shooter to make a clean sweep of 45 straight.

GOLDEN GATE BENCH SHOW.

After sixty days' strenuous and fulsome publicity in the daily papers the third annual show of the Golden Gate Kennel Club started at Auditorium Rink in this city, Tuesday morning.

The show as a whole was a very good one. In Boston, Bull terriers, Russian wolfhounds, Scotch terriers, several toy varieties the "googoes" had a bit of a lead over the National show two weeks previously.

The catalogue gives a list of 285 exhibitors, the San Francisco Kennel Club has 315 exhibitors. The latter club is credited with 431 dogs benched. The Golden Gate show, according to the reports of several "ticker" men had on Tuesday evening at 7:45 o'clock, 409 dogs benched. Two pointers came up from Los Angeles on Wednesday, they won out in the pointer judging, too.

In point of attendance the National's show had two people to one in their hall over the "googoes."

The exclusion resolution was evidently made of rubber that would stretch a little. For dogs that were shown at the San Francisco show were accepted by the "googoes." There was, it is alleged, a slight change of name of dog or shift of owners, but the same dogs were there all right.

That, is, one was not, a foxhound owned by Dr. Lacoste, an exhibitor at the S. F. show, his entry and money was accepted but when he brought his dog to the show he was refused recognition. That cut down the competition in the breed and let in a new A. K. C. champion. Nothing like consistency, you know!

The above figures are given despite the statement of Spratt's man that the Nationals benched 330 dogs—a ridiculous statement on the face of it, for the list of awards of dogs judged will prove the inaccuracy, to draw it mildly, of such a statement. The other report credited to Spratt's oracle was, that 460 dogs was the "googoo" array, a difference of 130 dogs. Such a variance has not been noted by those who counted both benchings accurately.

Furthermore, had the Nationals desired to go into individual limits in entries, one exhibitor could have put in 60 more dogs than the half dozen good ones he did show. Further than that, dogs of his breeding were the winners, in their classes, at the "googoo" show, too. The Nationals could have put in over 100 more dogs, without any trouble. As it was the "googoes" were put to their utmost to get what they did. It was very much advertised in the dailies that their total entry was 504 dogs!

A large number of Oakland entries were deliberately steered away from the Dreamland Rink show. Owners were sought out and advised to keep their dogs on that side of the bay for the reason that the Oakland authorities were going to quarantine outside dogs and prohibit any and every dog from being brought into the city—just the time the National show was to be held.

The "mad dog" scare also took root prior to the National show, a muzzling ordinance is now in force in this city, the rabies shibboleth is going the rounds widely.

And despite all this and that the Nationals gave a bigger show and had a larger following than the "googoes." The gate at the latter show for four days was just about one-half that of the Nationals for three days.

The hall, show ring and benching arrangements of the Golden Gate show was one of the best we have seen here in 20 years and the management of the show is very creditable. It is a pity, however that local and Coast bench shows must rely on stock benching furniture, that has been used all over the Pacific Slope for years past, the chances breeders of young dogs take with distemper contagion are enough to prevent wise owners from taking the risk.

All of which leads to the query—Why should there be in a city that can put over 800 dogs on the benches, the condition of affairs such as are at present in existence?

When the answer to this query is generally known and the real causes of the split understood the A. K. C. magnates in New York will have the belated satisfaction of knowing that the shears should have been used on somebody's ears three years ago.

ANGLING TACTICS.

Plain go-ahead casting, across and up the width of a river, is all very well in its way, but it is not quite the most interesting way of fishing, and frequently there are occasions when a little consideration will add weight to the basket. In such cases we should proceed more carefully, and suit our tactics to the moment's need, writes Iron Blue in the Christ-church Weekly Express.

Scene one is on a clear rapid stream, perhaps forty feet wide at this particular place; on my side a foot-high shingle bank, and opposite a willow protection work, where recently the branches have been lopped, and wired so that they may lie in a continuous line down stream along the bank. Two-thirds of the distance up the water rushes straight into the protection work; there to be turned through a deep swirling pool, and afterwards into a long swift run. A hundred and a half yards below is a bridge, beneath which are the horrible wire entanglements used nowadays about such spots. At the left of the rush of water against the willows, there is a smooth space of surface, and as the fly dragged across it was followed by a four pounder.

If one is not sure that any trout exist in a certain length of water, a good way to find out is by fishing across and down with a couple of biggish flies. By giving an appearance of a struggle to escape, the drag against the current seems to render them specially attractive, and the size of the flies making them easily seen, even the most unhungry fish will often reveal their presence by following out near the edge.

Having found that the pool held at least one good fish, I went crouching back from the edge, as I had approached, and circling round, returned from below to cast upstream in a more orthodox style. The proper fly was a matter of doubt, but when the brown beetles are about, a "coch-y-bondu" generally will kill, so I tied one on as stretcher, with a red governor for the drop fly. It was probable that the place contained other fish, so accordingly I began at the extreme end, and was rewarded by a two-pounder almost at the first cast. He being luckily well-hooked, was pulled instantly down the run and dealt with firmly; and the water above was not disturbed.

Meanwhile another, about half a pound larger than the first, showed himself as he rose at some solitary fly, and the same set of tactics were equally successful in his case. Then coming to the spot where I had seen the four pounder, he rose at once, and I missed him with exceeding clumsiness. Of course the "tactic" suitable to the occasion was to rest him for a few moments," so it seemed fitting to make them pass by slowly filling a pipe. This I knew perfectly well did not take long enough, but in lighting up I dropped the box of matches, which scattered over the stones. Hang it, no; surely the shade of good old Isaac Walton must have sent this for a sign, and putting down the rod I picked up every match with thoughtful care. When the job had been finished there could be no doubt that sufficient time had elapsed, and persuading myself that I was fated to catch that fish, I put the fly over him again. He rose willingly, and after trying hard to smash the cast among the willow branches, swam down and down until we were close to the bridge. Affairs became hazardous; the water was too shallow to get the landing net under him conveniently, and another dozen yards would bring him into the wires by the bridge. However, my luck held, and gradually he was edged out on to the shingle, apparently to the great satisfaction of the occupants of three vehicles upon the bridge.

Special Selby Loads.

One of the many advantages of the Coast loaded Selby Loads are "Special Selby Loads." Quite a few of the shooters prefer to have their own specifications as to length of shell, wadding, etc., loaded and as the Selby loading plant is a local institution these "Special Selby Loads" can be finished at a moment's notice.

As heretofore Selby loads are furnished in Winchester, United States or Remington Arms-Union Metallic Shells.

THE REACTIONARY.

The old ranch is sold to a syndicate That is simply loaded with "tin"; They say that our methods is out of date

An' they're fencin' the ranges in. They'll coddle the cows in a pasture lot

An' feed 'em on muffins an' tea, But I'm goin' on to another spot— They can't make a "milker" of me!

They can cut off the horns of the cows an' steers,

An' put 'em in rosewood stalls, They can tie pink ribbons into their ears

An' take 'em on afternoon calls. But I won't get down on a dinky stool With a shiny tin pail at my knee. Say, wouldn't I feel like a condemned fool?— They can't make a milker of me!

I'm moving along with my old cayuse To a place where the ranges are, Where the cattle are runnin' free an' loose

With never a fence to bar; Where the lariat's used an' they wear the chaps

An' the life's like it used to be, They can make a "farm" of the ranch, perhaps,

But they can't make a milker of me!

MUSTARD FOR CHICKEN FEED.

Have you heard of the very latest addition to Biddie's bill of fare? asks Mrs. Ellen Jacque, in the "Petaluma Poultry Journal." It is a great discovery, she says, and it is nothing more than common mustard. Those of us who object to condition powders will shy at this one at once, but there is no cause for alarm. The English fanciers have tested it out thoroughly and have found that mustard fed daily promotes egg production and fertility and that it does not harm the birds. The dose or portion is a teaspoonful mixed thoroughly with the mash for six hens. In England it costs sixteen cents for mustard for one hen for a year and they feel that the results more than justify the outlay. The lowest figure I have received is 25 cents per pound. One pound is sixty-four teaspoonfuls which will feed 384 hens once, or one hen 384 days. In speaking of this matter to some Eastern people who are starting in the poultry

business in this country, they said that mustard grew wild on their ranch in the East, and they gathered the seed and fed it to their fowls with the best results. They got eggs when their neighbor's hens were on a strike, and their flock was always healthy. They are intending to raise a patch or field of mustard on their four-acre poultry farm. As they will keep their mature fowls in houses all the time, they will have plenty of room to raise mustard, vegetables and all of their green feeds. Great scheme, these yardless houses! To be sure, it will take some time for us to get educated up to their use, and we will probably always feel sorry for chickens kept shut up in them, the same as we pity people who live in flats, but our sympathy is wasted in both cases. Chickens are in better health and are more productive (which proves they are contented) in these houses than when running in either a sun-baked or muddy yard and a flat-dweller could not be hired to live in a house with a yard.

The silo is a good investment for the rich farmer and a great blessing for the average dairyman who is striving to decrease the cost of the milk production.

Warranted to give satisfaction.

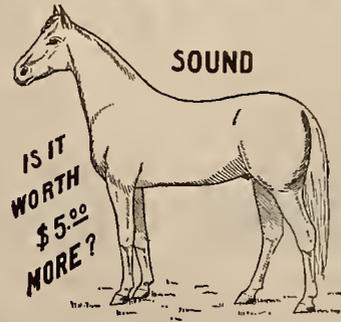

GOMBAULT'S CAUSTIC BALSAM

Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address: **THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio**

SAVE-THE-HORSE TRADE MARK REG'T.

Is Your Horse an Expense or a Profit?

This is Business Logic From the Word Go. Results must be measured by actual resistance when the endurance tests and ordeals occur. Can you say that your horse is cured to this extent? Depend upon it—with Save-the-Horse there will be no relapses or breakdowns when the endurance tests are made. Save-the-Horse make weak legs strong: it will cure to stay cured. If you have a doubt about the condition of your horse's legs to stand racing use Save-the-Horse and you will not need to worry.

PEOPLE'S NATIONAL BANK. Gallatin, Tenn. January 27, 1912. Troy Chemical Co., Binghamton, N. Y.: Gentlemen: Having obtained satisfactory results by using Save-the-Horse for curbs and windpuffs, will ask that you forward me a bottle to use on a badly sprained ankle that has been blistered for a number of times without having any effect. Enclosed find New York exchange for \$5.00 in payment. I have used Save-the-Horse several times and have always secured a complete cure. Very truly yours, **W. H. HITCHCOCK.**

C. E. CRONHAM, JR. 157 Chambers Street. New York, Feb. 19, 1912. Troy Chemical Co., Binghamton, N. Y.: Dear Sirs: Being a subscriber of the Trotter and Pacer, I have read your advertisement many times; about one month ago I purchased a bottle of Save-the-Horse to use on a draft horse that hurt his ankle and could not stand on it, or would not put the foot to the ground. In six days he walked good and sound, and I am very well satisfied with the quick results I obtained from its use. I note in your advertisement that you publish a book on all kinds of lameness. I would be pleased to receive one. Yours truly, **C. E. CRONHAM.**

For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it undoes the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

\$5 A Bottle

With a binding contract to refund money or cure any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except foot), Curb, Splint, Capped Hock, Windpuff, Shoe Bolt, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual.

AT ALL DRUGGISTS AND DEALERS OR EXPRESS PAID.

TROY CHEMICAL CO., BINGHAMTON, N. Y. D. E. NEWELL, 50 Bayo Vista Avenue, Oakland, Cal. 251 Kenry Street, San Francisco, Cal.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

G. LINDAUER, Owner, Union Livery and Sales Stable, 122-124 Clara Street, San Francisco.

TRIANGLE TRIP OVER THE Northwestern Pacific Railroad

One of the most delightful scenic one-day jaunts in America.

150 miles of Mountain and Redwood Forest Scenery, a Boat Ride on San Francisco Bay and by rail along the Russian River.

Leave San Francisco 7:45 A. M. daily except Sunday, and 8:45 A. M. Sunday only, by boat across the Bay of San Francisco, in full view of the Golden Gate to Sausalito (the Sorrento of America). Thence via picturesque San Rafael and thriving Petaluma (home of the chicken industry), through Sonoma Valley to Santa Rosa and Fulton. From Fulton, through magnificent mountain scenery and redwood forests and along Russian River, to Monte Rio. Return is made along the coast, passing Tomales Bay, Point Reyes, San Anselmo, etc., to Sausalito, arriving at San Francisco 7:35 P. M. daily the same evening.

If preferred, trip can be reversed, leaving San Francisco at 8:15 A. M. via the coast to Monte Rio and returning along the river and through the valleys, arriving at San Francisco 7:35 P. M. daily except Sunday and 7:05 P. M. Sunday the same evening.

Round Trip Fare for Triangle Trip, \$2.80, except on Fridays or Saturdays, it is \$2.50 and on Sundays only \$2.20.

Tickets on sale at 874 Market Street (Flood Bldg.) and Sausalito Ferry Ticket Office.

REINDEER TO BE OUR MEAT SUPPLY.

Two years ago, when the extortions of the Beef Trust were exciting widespread indignation throughout the United States, much interest was manifested in a proposal to stock the Southern swamps with hippopotami and other African animals, with the ultimate object of supplementing the beef supply of the country with a cheap and satisfactory meat.

Nothing came of the scheme. A report just issued on the reindeer indus-

1 hour and 20 minutes from San Francisco. 20 minutes from business center of San Jose by street car.

The Most Perfect One-Mile Training and Racing Track in the West.

Large, tight-board paddocks, with running water in each, at the disposal of patrons. All stalls 12 x 14 feet, with 12-foot shed running full length. Boarding house on the grounds.

Plenty of green feed the year round. Stalls 50 per cent. Shipping station, Hillsdale, Cal. Free track and feed rooms. Address all communications to

RAY MEAD, San Jose, Cal.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

WANTED.—A sound kind trotter or pacer with a record of 2:15. State lowest cash price and full particulars. Address "B." this office.

FOR SALE.—Horatius, thoroughbred stallion, winner of the Seattle Derby and a noted stake winner by Imp. Oddfellow, out of Kinda. His dams produced from 1 to 7 winners each. Address Thomas Miles, 1153 45th St., Oakland, Cal.

FOR SALE.—Mike C., bay gelding, pacer; sired by Sidney Dillon. Has only raced in amateur races. Good prospect for the circuit. For particulars, write J. RYAN, Sonoma, Cal.

CLOSING OUT.—Sixty head of young mares and mules. One four-year-old, two-thousand-pound Percheron stallion. Might consider some trades. N. FARNSWORTH, R. D. 3, Bakersfield, Cal.

FOR SALE.—A black stallion; hind pasterns white; stands 17 hands high and weighs 1300 pounds. Sired by Monterey 2:09½; dam Leap Year 2:26¼ (dam of Yosemite 2:19, California, trial 2:16¼), by Tempest 1881; second dam by Commodore Belmont 4340. Sire and dam registered. This grand-looking horse can show a 2:30 gait, and is a fine, clean-gaited trotter; needs no boots, and I think will learn to trot fast. Will make a sire of very useful horses for either track or road. He is sound and all right. On account of ill health I must sell him. Price reasonable. Address P. J. WILLIAMS, San Lorenzo, Cal.

FOR SALE.—Beautiful Trotting Mare; color brown; coming 5 years; dam by Zombro; full sister to Zomalto; very promising, fast trotter; has only been worked the last 3 months and can trot close to 2:20 on mile track. She is also a fine roadster; city broke. Registered Electioneer-Wilkes mare; bay; coming 7 years; by Expedition; dam by St. Vincent; second dam by Guy Wilkes; third dam by Baron Wilkes; fourth dam by Geo. Wilkes. She was bred by C. W. Williams of Galesburg, Ill. Is a fine driver and has speed. Should make an excellent brood mare.

No fancy prices asked. Write to E. F. BINDER, 1364 West 8th St., Riverside, Cal.

FOR SALE.—A grandly bred pacing six-year-old daughter of Arner 2:17¾, out of a mare by Direct 2:05½, etc. A coal black, 15.2 hands, weighs 1050. Can pace three heats inside of 2; has no mark. Sound and handsome as a picture; in perfect shape; wears only 6 ounce shoes all around and a light pair of quarter boots, and that's all. If anyone is interested, a photograph, with full pedigree will be sent.

A brown gelding, 16 hands, by Chas. Derby 2:20; a natural pacer; can go a mile in 2:10; no mark; clean; wears no boots, and is ready for work; a perfect beauty; absolutely safe on the road; afraid of nothing; stylish. Reason I am selling, I lost my husband and have no further use for them.

MRS. LOHMIRE, 1450 46th Avenue, Oakland, Cal.

FOR SALE.—Arawanna B. by Sidney Dillon; dam Lily Stanley 2:17½ (dam of 3 in 2:30) by Whippleton, etc. This is one of the most stylish, best-broke and purest-gaited trotters in California. She is in foal to Prince McKinney (2) 2:29¼ (trial 2:13).

A two-year-old filly by Prince McKinney (2) 2:29¼, out of Arawanna B., a pure-gaited pacer with a world of speed; nicely broken.

A two-year-old filly by McKena (son of McKinney 2:11¼ and Helena 2:11¼; by Electioneer); dam Zorilla (dam of Prince McKinney (2) 2:29¼) by Dexter Emily; second dam Lily Thorn by Electioneer, etc. A fine trotting "prospect"; perfectly broken; level-headed.

Both of these are entered in the Futurities and all payments made. On account of my ill health I must sell these splendid individuals. They can be seen at McKinney Stables, 36th avenue and Fulton street. For price and further particulars, apply to stables. F. GOMMET, Owner.

FOR SALE.—Maud Jay C., the dam of Nearest McKinney 2:13¼, and also El Angelo by The Angelus 2:07¾, at Banta, and another very promising colt by Star Pointer at Eureka that is a whirlwind pacer. She also has a filly by Bon McKinney that cannot be beaten. Maud Jay C. is a beautiful mare having color, size and conformation. She is a fine roadster and a lady can drive her. She was bred to Tom Smith 2:13¼ in 1911, but failed to get with foal. Maud Jay C. is registered standard. She was sired by Nearest 2:22¼ out of Fanny Menlo, dam of Claudia (4) 2:13¼ by Menlo 2:21¼; second dam Nelly Anteeo by Anteeo 2:16¼; third dam Fanny Patchen (dam of California Nutwood, a sire) by Geo. M. Patchen Jr. 2:27. As a broodmare she is destined to be one of the greatest if her four foals are any criterion. I will price her very reasonably. For further particulars, address T. W. BARSTOW, Driving Park, San Jose, Cal.

FOR SALE, CHEAP.—One registered stallion, sired by McKinney 2:11¼; 8 years old; sound. Also one imported draft registered stallion; weight 1800 pounds; 7 years old. Would consider trade on heavy mare or standard-bred mares, or fillies. Breeding and pictures sent to interested parties. Address: D. A. BAKER, Hill P. O., San Diego, Cal.

STANDARD MCKINNEY STALLION FOR SALE OR LEASE.—Scott McKinney 33749, by McKinney, dam Primrose (great broodmare) by Sidney; second dam Brown Rose by Privateer; third dam Lady Baldwin by The Moor; fourth dam daughter of Ben Lippincott, son of Williamson's Belmont. Scott McKinney is a handsome bay horse; weighs about 1100; good gaited, and all his get are fine individuals and show speed. Price reasonable. Has State license for this year. Address DR. M. F. SCHALTENBRANDT, 4051 20th St., San Francisco.

GOOD ONES FOR SALE.

PAL (2) 2:17½, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (3) 2:20 by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24¼ made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no horse. By Palite 45062; dam Babe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; a good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15¼; second dam a producer by Anteeo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOULIA, a standard bred 4-year-old filly by Nushak, sired two 2:10 performers; dam Bessie Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15¼) by Ansel; third dam Mayflower 2:30¼ (dam of Manzanita 2:16 and Wildflower) by St. Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in all of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address E. D. DUDLEY, Dixon, Cal.

DISPERSAL SALE.

I must move owing to the sale of my property, consequently must dispose of all my horses, a list of which follows:

Zomstein, a very handsome four-year-old bay pacing stallion by the great Zombro 2:11; dam by Steinway. He has had very little work, but can pace halves in 1:06 and quarters in 31¼ seconds. This fellow is sound, gentle, and is a good-gaited, good-headed horse and will do to race.

Zomie Secretary, a two-year-old black trotting colt by Zombro; dam by Secretary, is well staked and will do to spend some money on. He has been a quarter in 2:45, half in 1:20, last quarter in 37¼ seconds. This fellow is entered in all the stakes on the Pacific Coast.

A yearling, full sister to Zomie Secretary, is a very handsome baby and is also staked throughout the West.

Zomie Gray, two-year-old gray colt by Zombro; dam by McGrath, has been a quarter in 40 seconds and is also staked.

High Pride, a very handsome stallion by Judge McKena, out of Whisper (dam of Zombro 2:11) is as handsome as his dead brother and acts like as good a trotter.

A yearling, full sister to Lady Garland, three-year-old, trial 2:14¼, and five weanlings by The Bondsman, Zombro, etc.

For further particulars, prices, etc., address GEO. T. BECKERS, 3727 So. Figueroa St., Los Angeles.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$3 each per month. The finest climate in California and the track over which world's champions have been made. Address S. H. BURNS, Proprietor, Santa Rosa, Cal.

HOMEPHONE PRAISED.

A new subscriber writes the Home Telephone Company under date of October 28, 1911:

"Please install a phone at my home. I did not know anything about the good points of the Homephone and was rather prejudiced against it until I began using it in my office. I use it all the time now, not only in phoning around the building, but getting outside numbers, because it saves me time and trouble. The Homephone delivers the goods."

"You know the burners of candles rioted in London about 500 years ago when gas was introduced. Most of us object to changes. Possibly that is the reason why I am so late in ordering a Homephone."

try of Alaska by the Interior Department shows that the situation of the meat eaters of the United States will never be so desperate as to make it necessary to import wild beasts from Africa to satisfy their appetites for animal food.

Today there are 35,000 reindeer in Alaska. Twenty years from now there will be 4,000,000. In other words, there will be 600,000,000 pounds of extremely palatable meat available for consumption in the United States markets.

The first shipment of reindeer meat this season to the port of Seattle arrived there recently and consisted of 135 carcasses, having a weight of 150 pounds each. Reindeer steak is said to be the favorite order of diners at Seattle's leading hotels and restaurants. In flavor the meat of the reindeer is a cross between mutton and beef, and is said to be more palatable than either.

There is probably no meat animal of consequence which reproduces as rapidly as the reindeer. Breeding begins at the age of two years and continues for ten years. The does give up one fawn a year, and forty-eight out of fifty fawns survive. Under present conditions in Alaska the cost of maintenance for a reindeer is about \$1 a year. The carcass of a

four-year-old reindeer is worth from \$50 to \$100.

In Alaska there are 400,000 square miles of frozen tundra, a great area in no way fit for cultivation and in no way subject to improvement. However, it provides excellent pasturage for reindeer, and 40,000 square miles of it will give abundant food for 10,000,000 animals.

When William H. Seward, New York's great statesman, while Secretary of State, negotiated with Russia for the purchase of Alaska by the United States for \$7,200,000 in gold, he met with a storm of opposition. The basis of the opposition was the supposed worthlessness of the territory. Now more than the purchase price is taken out of Alaska's gold mines every year, and in a few years the territory may be the producer of the main meat supply of the whole United States. The good judgment of Mr. Seward in making the purchase is being magnificently vindicated.

KENDALL'S SPAVIN CURE

—has saved thousands of dollars and thousands of horses. The old reliable cure for Spavin, Ringbone, Splint or lameness. For sale at all druggists. Price \$1 per bottle, 6 for \$5. "Treatise on the Horse" free at druggists or write to Dr. B. J. KENDALL COMPANY, Eadsburg Falls, Vt., U. S. A.

The Detroit Driving Club

FOR ITS 28TH ANNUAL

BLUE RIBBON MEETING

July 22, 23, 24, 25, 26, 1912,

ANNOUNCES THE FOLLOWING EARLY CLOSING PURSES:

| | |
|---|----------|
| No. 1—2:24 Class, Trotting, "Merchants' and Manufacturers' Stake" | \$10,000 |
| No. 2—2:13 Class, Pacing, "Chamber of Commerce Stake" | 5,000 |

| No. 6—2:16 Class, Pacing | 2,000 |

CONDITIONS.

Entries Close Tuesday, April 2nd.

When Horses Must Be Named.

The Detroit Driving Club holds membership in the Grand Circuit, the Great Western Circuit, the National Trotting Association and the American Trotting Association.

Rules of the National Trotting Association will govern except as otherwise specified.

Two or more horses under the same ownership or control or trained in the same stable may start in any race, but rules regarding assistance and interference will be rigidly enforced.

Events Nos. 1, 2, 4 and 6 will be decided by the best 3 in 5 heats, limited to a maximum of five heats, and all starters shall continue in the race to the finish unless distanced or drawn. In case of a tie for first place in the summary at the end of the fifth heat, the horses so tied shall race an extra heat to decide the winner. Events Nos. 3 and 5 will be decided by the best 2 in 3 heats and will continue until a horse has won two heats, and non-heat winners shall be ruled out only when three heats have been raced.

Entrance is 5 per cent of purse and 5 per cent additional from winners of each division of same, but in case two or more horses are entered by the same stable in the same class, full 5 per cent entrance is charged on only one horse. And for each additional horse the entrance is only 1 per cent. But full 5 per cent entrance will be required from each starter.

Entrance Is Payable in Easy Installments as follows:

| | April 2. | May 7. | June 4. | July 9. |
|--|----------|--------|---------|---------|
| M. & M. Stake—One nomination | \$75 | \$100 | \$150 | \$175 |

| 2:16 Pace—One nomination | 20 | 25 | 25 | 30 |
| Each additional nomination | 5 | 5 | 5 | 5 |

Liability of Nominator Ceases When Written Notice of Withdrawal Is Lodged With the Secretary.

Entrance must be paid on each Horse named and every Horse named is entitled to Start.

Horses not named April 2d cannot start.

When entries close April 2d you know exactly what horses can start. There is no opportunity to buy nominations for fast horses that show later.

Other events will be announced later to complete the racing program for five days, July 22-26, with classes to suit campaigning stables, especially those represented in the stakes. Fast classes will be 2 in 3. Horsemen are invited to furnish lists of horses for which classes are desired.

The State Fair Grounds at Detroit will be open for trainers about the middle of April. First-class stabling, pure water, green grass, shade trees, cinder paths, good jarring roads, and one of the best tracks in the country, afford ideal conditions for the preparation of race horses. Secure stalls early.

SEND FOR ENTRY BLANKS.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/2.

By McKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:03 1/2, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:08 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

Now Ready --- The Year Book

Vol. 27. For 1911.

Contains over 1100 pages, with same complete tables as heretofore.

PRICE \$5 f. o. b. CHICAGO

If desired sent prepaid remit 35 cents additional. Please make all remittances by draft on New York or Chicago, or money order.

American Trotting Register Association

137 South Ashland Boulevard, - - - CHICAGO, ILL.

We have on hand a copy of Vol. 8, for 1892.

Greatest Sale of Trotting Stock in California!

AT EXPOSITION RACE TRACK, LOS ANGELES, WEDNESDAY, MARCH 27, 1912,
At 10 A. M.

All the Youngsters are in Training. There's Not a Cripple in the Lot.

DEL OESTE, a four-year-old brown colt in May, sired by Del Coronado 2:09½, dam Little Agnes (trial 2:20) dam of Jupiter B. 2:12, a good mare by Gossiper 2:14½; second dam Leonor 2:24 (dam of 7 in 2:30, two better than 2:10 and another with a matinee record of 2:08½) by Dashwood; third dam a great broodmare by Echo; fourth dam by Rifleman, son of Imported Glencoe. Del Oeste is a clean-going pacer, wears no hobbles, has a matinee record as a three-year-old in May of 2:12, over a half-mile track. He has been two miles in 2:09 this season. Will be a 2:05 pacer this year; is sound, rugged and ready. Been an eighth in 14 seconds repeatedly; has paced halves in 1:02½. This horse is capable of getting the world's record for four-year-old pacers this year.

ZOMWOOLSEY, bay stallion, seven years old, by Zombro 2:11, dam Queen (trial 2:20) by Woolsey (brother to Sunol 2:03½, world's record holder); second dam by Will Crocker (full brother to Fred Crocker 2:25½, another world's record holder) by Electioneer 125. Zomwoolsey is a free-legged pacer, has been a mile in 2:07½. Last week he worked a half in 1:02½, and if he goes into the right hands will undoubtedly get a very low mark. Have every reason to believe he will be better than ever. He is strong, rugged and in fine condition to go on with. Absolutely sound and kind.

ZULU BELLE, a six-year-old black mare by Petigru 2:10½, dam Johannah Treat (dam of Del Coronado 2:09½, etc.), Zulu Belle has a trotting record of 2:16½, won every race she started in as a two and three-year-old. She commenced pacing last June and has shown her ability to pace in 2:05. She paced a half in Phoenix in 1:00½. No hobbles; big, strong, kind and remarkably level-headed. Only wears a pair of quarter boots; never wears hobbles. Barring accidents will be as good a green pacer as there is in America this year. Is a good doer, is dead game and can go like a runner. She has paced eighths in 14 seconds on several occasions. Standard and registered.

HASTINGS, bay stallion, four years old, by Del Coronado 2:09½; dam Sappho 2:15½ (trial 2:08) by Robert McGregor 2:17½ (sire of dams of Jay McGregor 2:07½, Grattan Boy 2:08, Elmore 2:08½, York Boy 2:08½, Ellizard 2:09½, etc.); second dam Pauline (dam of Sappho 2:15½ and three sires) by Ashland Chief 751, son of Mambrino Chief 11; third dam Rosa by Abdallah 15. With very little training trotted trials in 2:21½ and will get a record of 2:10 this year if given an opportunity. Has no record. Is perfectly sound. Stands 15.3 hands, and when matured will weigh 1200 pounds. He is a remarkably handsome stallion of show horse type. Standard and eligible to be registered. His breeding is of the stoutest and best. By one of McKinney's greatest race winning and choicest bred sons, out of one of Robt. McGregor's fastest daughters, and she out of a famous speed-producing mare. Hastings should, when his days of racing end, be invaluable as a sire of handsome, stylish, perfect trotting horses; sire and dam registered.

WILKES BOY JR. 38958; brown stallion, sired by Wilkes Boy 2:24½; dam Carona by Liberty Bell 2:24 (son of Bell Boy 2:19½ and Prefix by Pancoast, etc.), second dam Carna (dam of Aurita 2:25½, Carnation 2:26½ and Axewood, sire of 3) by Nutwood 2:18½; third dam Candace (dam of Albert Lee 2:26, a sire) by Harold; fourth dam Fairy Belle (dam of 2) by Belmont 64; fifth dam Waterwitch (dam of 6) by Pilot Jr. 12, etc. As can be seen he is one of the best-bred stallions in America. He is nine years old; stands 15:2½ hands; weighs 1080 pounds. Has never been trained, but can show a 2:10 gait. Is good gaited; does not wear boots and does not pull. Should be one of the greatest of sires. Is a show horse. Has perfect neck and head.

TOM MOKO 57294, a trotting stallion six years old, by Moko (the great Futurity sire) out of Hazel Nutwood (dam of 3 trotters and 2 dams of 2 trotters) by Nutwood 2:13½; granddam Corabell by Joe Gavin 564; great granddam by Louis Napoleon 207. He stands 16 hands high, weighs about 1200, beautiful rich cherry bay, black points and is a remarkably well formed horse. Has trotted in 2:16, last half in 1:06 as a four-year-old. Will go in 2:10, barring accidents, this year. He was bred to a few mares and all proved with foal. His colts are a great recommendation for him. He is a show horse and one of the handsomest moving horses in this State. Kind and tractable; "a gentleman among trotters!"

BEATRICE ZOMBRO, handsome bay mare, 16 hands high, weighs 1150 pounds. Is seven years old and is with foal to Carlok in 2:07½. With very little work she showed 2:20 speed as a three-year-old. Sound and gentle. Sired by Zombro 2:11; dam Atherine 2:16½ (dam of Copa de Oro 1:59 and Crescendo, trial 2:13½, etc.). Standard and registered; a regular breeder. Sire is dam of Fulton G. and Consuello. Zombro mares are exceedingly scarce and there are few to be bought which are as well bred or perfect as Beatrice Zombro.

CONSUELO B., by Del Coronado 2:09½, a handsome three-year-old dark brown colt; good gaited; will do to race. Entered in Occident and Breeders' Futurity stakes. Only trained six weeks, trotted in 2:35, last eighth in 18 seconds. This colt is also out of Atherine 2:16½ (dam of Copa de Oro 1:59, Pauline 2:21½, etc.) by Patron 2:14½; second dam Athene (dam of 2) by Harold 413; third dam Minerva (dam of 2) by Pilot Jr. 12; fourth dam Bacchante Mambrino.

FULTON G., by Carlok in 2:07½; dam Beatrice Zombro by Zombro 2:11; a two-year-old bay colt; good size and a perfect type. Entrance on him is paid up in Oregon Breeders', California State Fair's Occident and Stanford stakes and the Canfield-Clark stakes. Good-gaited and level-headed. Came off pasture in December 1st, trotted in 2:39½, last eighth in 18½ seconds on February 16th. Sound.

REGALO, a three-year-old bay trotting colt, by Nutwood Wilkes 2:16½, out of Ludeniga (trial 2:14) dam of Lou Derby 2:17½, by McKinney 2:11½; second dam Lucy R. 2:18, by Sultan 2:24; third dam Lady Mackey (dam of Oakland Baron 2:09½, sold for \$30,000) by Silverthreads; fourth dam Fleetwing (dam of Stamboul 2:07½, sold for \$51,000), by Hambletonian 10. This is the making of a great trotting horse. I did not intend to sell him, for I believe he is one of the best bred and most promising horses I ever owned but I must dispose of all but the older stallions. Regalo is fit for racing or to head any stock farm. A glance at his breeding is convincing and an inspection of him will cause anyone to say he is hard to excel anywhere. He will be one of the fastest of the family. In my opinion I think he is all I bred him for. Regalo's sire and dam are registered standard.

PRINCESS REDLAC, chestnut four-year-old filly by Redlac 2:07½, out of Princess Louise 2:19 by Del Coronado 2:09½; second dam Lady Inca (great broodmare) by Inca 557; third dam Paine Mare by White Cloud; Princess Redlac is a pure-gaited trotter. Less than 90 days after being taken up she trotted a half last week in 1:12. She is a very level-headed trotting mare and will make some one a high class one. She is strong, well made and handsome. Both sire and dam were extremely fast; both had better than two-minute speed and this filly is in their class.

SELMA BELLE, three-year-old bay filly by Peacock, a son of Iran Alto 2:12½, dam Hanford Belle (trial 2:16 trotting) by Col. K. R. 2:19½. Selma Belle is a trotter and a very fast one; good gaited, and a good looker; was taken up December 1st, and on February 1st trotted in 2:28, half in 1:12.

MARY, a three-year-old bay filly, by Star Pointer 1:59½, out of Leonor McKinney 2:08, by McKinney 2:11½. (I consider her dam the fastest pacing mare I ever saw; she paced eighths in 13½ seconds); second dam Leonor 2:24, dam of 7 (see Del Oeste). I believe Mary is the handsomest filly of her age in California. She is a pacer. I worked her about six weeks in her two-year-old form and she showed a mile in 2:38, that was in the fall. I concluded to lay her over and raise a colt by Copa de Oro from her, so I bred her this spring to him. When it comes to speed inheritance who has a greater one, or who has one that will produce greater speed?

GOLD LILLY, two years old this spring, by Copa de Oro 1:59, dam Lilly Mc. 2:24½ (trial 2:14) by McKinney 2:11½; second dam Fond Lilly 2:29½, by Geo. M. Patchen Jr. 2:27. This is a phenomenal pacer. Have driven her 30 days and although hardly broken can step a quarter in 36½ seconds. Entered in the Breeder and Oregon Futurity stakes.

CARLOS, a coming two-year-old black gelding by Carlok in 2:07½, dam My Irene S. (dam of the sensational nine-months-old filly I sold for \$1500 last week) by Petigru 2:10½; second dam Johannah Treat (dam of Del Coronado 2:09½, etc.). Carlos is a full brother to that phenomenal youngster. He came off the grass December 1st and trotted a half in February in 1:14½. He is good headed, perfect mannered and pure-gaited. If ever there was a stake winner foaled Carlos is the one. He is entered and paid up in the following stakes: Oregon Futurity, Breeders' Futurity, Canfield and Clark Stake, Occident Stake, an l Stanford Stake, and will undoubtedly capture his share of them. I know of no horse in the West that I would sooner take a chance on that I would on Carlos.

ACCLAIM, a black filly, coming two years old, sired by Carlok in 2:07½, out of Lady H. 2:26 by Del Coronado 2:09½; second dam by Gossiper 2:14½; third dam by Hesperion, son of Satellite; fourth dam by Sultan 2:24; fifth dam by Overland. Acclaim has had very little work but shows well. She reminds me very much of Sonoma Girl 2:04½ in appearance and pure trotting gait. Is a beautiful filly and is entered and paid up in the Breeders' Futurity, Canfield and Clark Stake, Occident Stake and Stanford Stake.

BLANCHE, a ten-months-old brown filly by Directum Penn 2:12½ (sixth heat in a winning race) by Directum 2:05½, out of the dam of Wm. Penn 2:07½. Blanche's dam was Caroline C. (a mare that as a three-year-old trotted quarters in 30 seconds), by Axtell 2:12; second dam Expedience by Expedition 2:14½; third dam Lurline by Princes. Blanche is a Simon-pure trotter. Her breeding is of the best; she is in perfect condition and will show for herself on the day of sale. Entered and paid up in the Oregon Futurity, Breeders' Futurity, Canfield & Clark Stake, Stanford Stake and Occident Stake.

VASSALITE, a two-year-old chestnut stallion by Vassar 2:07½, out of the dam of Zomwoolsey (see Zomwoolsey). This is a beautiful youngster; handsome as a picture. He trots now, but pacing is his gait and he will undoubtedly be a good game one. He should be extremely fast and is a perfect type of a good horse.

CARLOTTA D., a twelve-months-old filly by Carlok in 2:07½, out of Lady Hackett (quarter in 30 seconds) by Gerome 29631, record 2:26, by Mambrino Wilkes 2:17; second dam by Oneco 2:29½, son of the Altamont 2:26. Handsome, big trotting filly. Is a remarkably fast lot trotter; has been hitched only a few times. Entered in a number of stakes.

COLT by Del Coronado 2:09½; dam Annabelle Loftus (sister to Robert I 2:08½, Murray M. 2:14) by Hambletonian Wilkes; second dam Annabelle 2:17½ (dam also of La Belle 2:16 and granddam of Conqueror 2:10½, Amada 2:16 and Pegasus 2:19½) by Dawn 2:18½ by Nutwood 2:18½. This is a very promising youngster and will undoubtedly be one of the fastest of his celebrated family.

Sale Peremptory. Everything offered will positively be sold to the highest bidder.

WM. G. DURFEE, 2019 So. Figueroa St., Los Angeles, Cal.

BREED TO THE BEST BRED TROTTING STALLIONS!

Palo King 2:28½ --- Reg. No. 44910.

Sire of Little Lucille (3) 2:09, the greatest pacer of her age on this Coast. Sired by **Marengo King 2:29½** (son of McKinney 2:11½ and By By by Nutwood 2:18½); dam Palo Belle 2:24½ by Palo Alto 2:08½; second dam Belle Isle (great brood mare) by Piedmont 2:17½; third dam Ida Belle (great brood mare) by Hambletonian 10; fourth dam Godfrey Star by American Star 14. Palo King is a beautiful bay, stands 16 hands, is a pure-gaited trotter, and all his progeny are intelligent, have style, finish and extreme speed. **TERMS \$25** for the season.

Iran Alto 2:12¼ --- Reg. No. 24586.

Sired by Palo Alto 2:08½; dam Elaine 2:20 (dam of 4 trotters, 1 sire of 15, 2 dams of 9) by Messenger Duroc; second dam Green Mountain Maid (dam of Electioneer and 9 others in 2:30) by Harry Clay 45, etc. Iran Alto was one of our gamest trotters. He has 15 in 2:30, 3 dams of 3 in 2:30. **TERMS \$15** for the season.

Alto Express --- Reg. No. 57364

Sired by Iran Alto 2:12¼; dam Beautiful Bird by Nutwood Wilkes 2:16½; second dam Expressive (3) 2:12¼ (dam of Atlantic Express (3) 2:08½, Esther Belle 2:08½, and the dam of Eva Bellini, timed as a two-year-old in 2:11½, as a three-year-old beat 2:10 in her races) the greatest racing daughter of Electioneer. Alto Express is a perfectly made trotter and will undoubtedly be a sire. **TERMS \$20** for the season.

For further particulars, address H. S. HOGOBOOM, Woodland, California.

TALLION OWNER

MAGNUS FLAWS & CO. 358 Dearborn St. CHICAGO.

Prince McKinney (2) 2:29¼ Reg. No. 51803

Winner of 2-y.-o. Trotting Division Pacific Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by McKinney 2:11½, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lilly Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17½, that sired Sidney, grandsire of the world's champion trotter, Lou Dillon 1:58½.

Prince McKinney is a handsome dark bay horse, standing 16 hands, and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St. SAN FRANCISCO, CAL.

Good opportunity for San Francisco owners of good mares to breed them to a high-class stallion. **FEE \$40** (cash), with return privilege. F. GOMMET, Owner. Apply or address F. E. BURTON, McKinney Stables, 36th Avenue, San Francisco.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11¼

Bay stallion; 15.2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Eucendine (dam of Bayard Wilkes 2:11½, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03½, Denervo 2:06½, Nordwell 2:08½, Memonia 2:09½, Demonio Wilkes 2:09½, Ben Rush (3) 2:10½, Grace R. 2:10½, Miss Winn 2:12½, Normono 2:14½, and is a full brother to the sires, Diabolo 2:09½, sire of 50, Arner 2:17½, sire of 2, and Don Derby 2:04½, sire of 1.

Will make the season of 1912 at SUISUN STOCK FARM. **FEE: \$50**. Usual return privilege. Good pasturage, \$3.00 per month. Address

RUSH & HAILE, Suisun Stock Farm, Suisun, Cal.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24½. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07½, the only other one of her get ever trained) by McKinney 2:11½; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11½, Yolande 2:14½ and Tina 2:20½) by Guy Wilkes 2:15½; third dam, Moscovita 2:28½ (dam of Mamie R., 3-y.-o., 2:15½, and Oro Belmont 2:15½) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino.

BON MCKINNEY 51480 (3) 2:24½ is a beautiful bay horse and is in every respect a magnificent individual, possessing size, style, quality, intelligence and frictionless trotting action. With little work as a yearling he trotted a quarter in 33 seconds and a half in 1:13. The next spring as a two-year-old, with 2½ months' work, he worked a mile in 2:19½, a half in 1:08 and a quarter in 33 seconds. Having no stake engagements, he was taken out of training after making this wonderful showing for a two-year-old. There is no doubt he could have trotted a mile in 2:12 that year had he been worked until fall. As a three-year-old he was given a record of 2:24½, which is no mark of his speed. Mr. Ted Hayes trained him and says that he considers him the best colt he ever trained and firmly believes that he will not only make a great race horse, but a great sire. As a two-year-old he was bred to ten mares and got nine foals, and everyone who has one of his get is confident that he has the best foal on the Coast. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is a young horse and has already commenced to make his mark in the world, and now is the time to breed to him and take advantage to get something exceptionally good at a reasonable price. Study his pedigree, come and see him, and you will be sure to send your mare.

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59¼.

Dam Effie Logan (dam of Sir Albert S. 2:03½; Jim Logan 2:05½, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 1:25½ (sire of Shecam 2:12½ and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08½, etc.); 3rd dam Grace (dam of Daedalion 2:08½, etc.) by Buccaners, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15½ hands big and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to **The Harvester 2:02**

Sired by **Ozono**, trial (2) 2:17½, sire of **Norvaln** (4) 2:22½ by **Moko** 2:457 (sire of **Pereno** 2:05½, **Brenda Yorke** 2:04½, **Native Belle** (3) 2:06½, and the dam of **The Harvester** 2:01. First dam **Maggie Yeazer** (dam of **Walnut Hall** 2:03½, sire of **The Harvester** 2:01, etc.) by **Red Wilkes** 1:49; second dam **Docia Payne** (great broodmare) by **Almont** 33.

Black Hall is a very handsome black horse, standing 15.3 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS: \$50 for the season; usual return privilege.** California Stallion License. Pure bred.

ATHADON 20990 Rec. (1) 2:27

Sire of **The Donna** 2:07½, **Athasbam** 2:09½, **Donasbam** 2:09½, and 15 others

Sired by **Matadon** 9392, sire of **Athadon** (1) 2:27, etc. First dam **Athalie** (dam of 7) by **Harkaway** 11898; second dam, **Mag** by **Alcalde** 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of **Kinneysbam** (2) 2:18½, winner 2-y-o pacing division **Breeders' Futurity**

Sired by **McKinney** 2:11½ (sire of 23 in 2:10 list).

First dam **Palavena** (2) 2:19½, also dam of **Mendovena** 2:19½ and **Menlo** 2:29½, sire of **Blanche R.** 2:06½, by **Palo Alto**, rec. 2:08½, Reg. No. 5354, he by **Electioneer** 125; second dam **Astoria** (dam of **Palavena** (2) 2:19½ by **General Benton** 1755; third dam by **Kentucky Prince**, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15.3 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS: \$25 for the season; usual return privilege.** California Stallion License No. 126. Pure bred.

These horses will make the **Season of 1912 at FRESNO, CAL.**, at **Geo. L. Warlow's ranch.** Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **Geo. L. Warlow, Fresno, Cal.**

NOGI 2:10½---Reg. No. 57383

Winner of **Pacific Breeders' Futurity**, **Occident** and **Stanford** Stakes, and neverbeaten as a 3 year old.

Sired by **Athabdo** 2:24½. First dam **Cora Wickersham** (dam of **Athasbam** 2:09½, **Donasbam** 2:09½, **Nogi** 2:10½, **Mattawan** (3) 2:17½, **Kinneysbam** (2) 2:18½) by **Junio**; second dam by **Whippleton** 1883; third dam by **Gladiator** 8386.

Nogi 2:10½ is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madera, Cal.**
Geo. L. Warlow (Owner), Fresno, Cal.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by **Bon Voyage** 2:08; dam **Loma E.** by **Stam E.** 2:11½; second dam **Italia** (great broodmare) by **Sidney** 2:19½; third dam **Dot** 2:29 by **Prompter**, sire of dam of **Gratt** 2:02½. **Nobage's** first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free.

Will make the season of 1912 at **EASTERBY RANCH, 3 miles east of FRESNO, CAL.** **TERMS: \$50 to insure.** Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

M. Patchen Jr.** 2:27. **Nearest McKinney** is one of the handsomest McKinneys standing for public service. Color beautiful brown, 16 hands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14½, and in 1911 got a record of 2:13¼, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address **T. W. BARSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.**

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By **Allerton** 2:09½, **Jay Bird's** greatest son; dam **Exine** 2:18½ (dam of **Riverside** (3) 2:30 and **Rinola** (3) 2:30) by **Expedition** 2:15½; second dam **Euxine** (dam of 6) by **Axtell** 2:12; third dam **Russia** 2:28 (great broodmare) by **Harold** 413; fourth dam **Miss Russell** (dam of **Maud S.** 2:08½ and 6 others), etc. **Best Policy** is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

Season of 1912 at my feed stable, corner of **Bridge and Center Streets, VISALIA, CAL.**

R. O. NEWMAN, Owner.

Athasham

Race Rec. 2:09¼
Reg. No. 45026.

A Game Race
Horse in the Stud

Bay stallion; stands 15.3 hands; weighs 1150. Sired by **Athadon** (1) 2:27 (sire of **The Donna** 2:07½, **Athasbam** 2:09½, **Donasbam** 2:09½, **Sue** 2:12, **Listerine** 2:13½, **Mattawan** (3) 2:17½, and 8 others in 2:30); dam the great broodmare **Cora Wickersham** (also dam of **Nogi** (3) 2:17½, (4) 2:10½, winner of 3-year-old trotting division **Breeders' Futurity** 1907 and **Occident** and **Stanford** Stakes of same year, and **Donasbam** 2:09½ and **Kinneysbam** (2) 2:18½), by **Junio** 2:22½ (sire of dams of **Geo. G.** 2:05½, etc.). **Athasham** has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06½ in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at **Orchard Farm and Race Track, Fresno, Cal.**, for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place.

D. L. BACHANT, R. R. 1, Fresno, Cal.

The Jay Bird-Baron Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by **Jay Bird** 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam **Alma Wilkes** (dam of 2) by **Baron Wilkes** 2:13; second dam **Almeta** 2:31 by **Almont** 33; third dam **Alma Mater** (dam of 8) by **Imp. Australian**, etc. **Alconda Jay** sires size, style and good looks.

His colts are fast, natural trotters. **Alconda Jay**, dark brown stallion, stands 15.3 and weighs 1150 pounds. He was bred at **Maplehurst Stock Farm, Paris, Ky.**; foaled in 1905.

Will make the Season of 1912 at

THE SALINAS FAIR GROUNDS, SALINAS, CAL.

TERMS: \$40 the Season. Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. **H. H. HELMAN, Salinas, Cal.**

KING S. (Trial) 2:15

Sire of
Maurice S. 2:07¼

Sire, **Silver King** 3622; dam **Maud** by **Brigadier**; second dam by **Owen Dale**.

King S. is one of the handsomest stallions on the Pacific Coast. He has size, style, speed, is a sure foal-getter, and has every qualification to make him one of the greatest of sires. His oldest and first colt trained is **Maurice S.**, one of the most consistent race horses in California last season, and five others, now being handled at the **Marysville** track, show remarkable speed.

King S. will make the Season of 1912 at the **J. E. STRAIN RANCH, 10 miles north of MARYSVILLE, CAL.**

FEE: \$50. Usual return privilege. The best of care taken of mares at \$2.50 per month, but no responsibility assumed for accidents or escapes. For further particulars, address **J. E. STRAIN, Marysville, Cal. Box 514.**

McADRIAN 2:24

Reg. No. 45391.

Sire of (Bert Kelly (trial) 2:11½
Trix McAdrian . . . 2:23½
Grace Cbalmers (tr) 2:24

Sired by **Guy McKinney** (sire of **Vernon McKinney** 2:02, **Linden Girl** 2:22, etc.); dam **MAPLE LEAF** 2:34½ by **Adrian** 2:26½ (sire of **Roseta A.** 2:14½), son of **Reliance** 2:22½ and **Adriana** by **Skenandoah**; **McAdrian's** grandam was **OLLIE RAY** 2:39½, dam of **Acclamation** 2:24½ (sire of **Lizzie C.** 2:15), **Vendome**, dam of **McKinley** 2:29; his great grandam was **MARY BLAINE** by **Signal** 3327 (sire of the dam of **Prussian Maid** 2:19, etc.). **Guy McKinney**, sire of **McAdrian** 2:24, was by **McKinney** 2:11½, out of **Flossie D.**, by **Guy Wilkes** 2:15½; second dam, **Blanche Ward** (dam of **China Maid** 2:05½), by **Onward** 2:25½; third dam, **Blanche Patchen**, by **Mambrino Patchen** 58, etc.

McAdrian is one of the handsomest and strongest made grandsons of **McKinney** in California. He has no faults; is a pure gaited trotter and a sure foal getter. He will make the season of 1912 at the **Pleasanton** race track. **TERMS: \$30 for the season.** For further particulars, apply to or address

E. D. DIGGES, Owner, Pleasanton, Cal.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fast-old stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both divisions of Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911. and 31 others.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05¹/₄, Susie Jay 2:06¹/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08¹/₄, Trampfast (2) 2:12¹/₄. Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

- | | | |
|---|--|---|
| <p>BARON WILKES 2:18.. Sire of 12 in 2:10, including Bumps 2:03¹/₄, Rubenstein 2:05, Bar-on May 2:07¹/₄; sired dams of 4 in 2:10.</p> <p>SORRENTO Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sen-tinel 2:15, Eola 2:19¹/₄, Lazy Bird 2:26³/₄, Ted-dy Sentinel, 2:29¹/₄, The Tramp (sire), etc.</p> <p>4th dam Virgie—by Abdallah 15. 5th dam Lucy—by Highlander (Veech's).</p> | <p>GEORGE WILKES 2:22 Sire of 83, dams of 204.</p> <p>BELLE PATCHEN 2:30³/₄ In great brood mare list.</p> <p>GRAND SENTINEL 2:29³/₄ Sire of 23, including Nel-lette 2:16³/₄, Tosca 2:18¹/₂.</p> <p>EMPRESS Dam of 2 and granddam of 9.</p> | <p>HAMBLETONIAN 10 Sire of 40.</p> <p>DOLLY SPANKER Dam of 1.</p> <p>MAMBRINO PATCHEN 58. Sire of 25, dams of 162.</p> <p>SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.</p> <p>SENTINEL 250 Sire of 3 in list.</p> <p>MAID OF LEXINGTON By Mamb. Pilot 29.</p> <p>ABDALLAH MAMBRINO Sire of 15, dams of 42.</p> <p>BIG ELLEN By Clark Chief.</p> |
|---|--|---|

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. **\$100** the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race. Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

- The Patchen Boy 39033 is sire of the following:
- | | | |
|--|---|---|
| Francis J. 2:08 | Legal Patchen ... 2:15 ³ / ₄ | Dorothy C. 2:19 ¹ / ₄ |
| Evelyn Patchen... 2:10 ³ / ₄ | Lucile Patchen ... 2:16 | Louise Patchen ... 2:19 ¹ / ₄ |
| Scott Patchen ... 2:12 ¹ / ₄ | Jerry Patchen ... 2:16 ¹ / ₄ | Dr. Warren ... 2:19 ¹ / ₄ |
| Dessie Patchen ... 2:13 | Knightstown Belle 2:16 ¹ / ₄ | Roscoe Binning ... 2:20 |
| Frank Patchen ... 2:13 ¹ / ₄ | Alec Williams ... 2:18 ¹ / ₄ | Mary Patchen ... 2:20 ¹ / ₄ |
| Ruby Patchen ... 2:13 ¹ / ₄ | Lols Patchen ... 2:19 ¹ / ₄ | Black Patchen ... 2:20 ¹ / ₄ |
| J. C. Patchen ... 2:14 ¹ / ₄ | Auduous the Miller 2:19 ¹ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24¹/₄ (trotted to high wheels), Anglin Wilkes 2:16¹/₄ over half-mile track, trial 2:09¹/₄ by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913. Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal. A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062 A Sire of Early Speed.

Sire, Nutwood Wilkes 2:16¹/₄, sire of Copa de Oro 1:59, John A. McKerron 2:04¹/₄, etc., and 2 dams of San Francisco 2:07³/₄, Mona Wilkes 2:03¹/₄, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17¹/₄ and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13¹/₄, and timed separately in 2:14¹/₂, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24¹/₂ pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes. For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13 Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22¹/₄, (3) 2:15¹/₄, (4) 2:11¹/₄, Ella Mac (3) 2:14¹/₄, Valleejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed. Sire, McKinney 2:11¹/₄; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09¹/₄ to 2:28¹/₄) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege. The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

BEAUTY, BREEDING AND SPEED.

Prince Ansel 29220

2-y.-o. Race Record 2:20 1/2.

By Dexter Prince 11363 (sire of Lisonjero 2:08 1/2, Eleata 2:08 1/2, James L. 2:09 1/2, Editb 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 19 and 1 dam of 1) by Ansel 2:20 (sire of 14, 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29, 1911, 2:09 1/2; Wesos 2:12 1/4; Adansel (3) 2:14 1/4; Dorothy Ansel (2) 2:20, 1910; Laura Rodgers (2) 2:18 1/4; Frances C. (3) 2:24 1/4. Mat. 2:19; Anjella 2:27 3/4, tr. 2:16 1/4; Bonnie Princess 2:25 1/2; Princess Mamie 2:27 1/4, tr. 2:18 1/4; Prince Gay, tr. 2:12 3/4; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevoia, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18 1/4; Oddmark (2), tr. 2:23; Georgie K. (2), tr. 2:30.

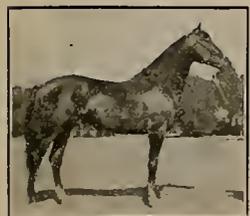

PRINCE ANSEL is a handsome bay stallion, stands 15.3 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09 1/2. Adansel, his three-year-old son, lowered his record to 2:14 1/4 and Wesos started three times and won twice, lowering his record to 2:12 1/4.

Season of 1911 at the **Race Track, WOODLAND, CAL.**

Terms: \$50 to insure, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address

A. B. KENNEY,

Manager Woodland Stock Farm, Woodland, Cal.

COPA DE ORO 1:59

REG. NO. 52785.

Fastest Horse on the Pacific Coast.

15.3 1/2 hands; weighs 1200 lbs. A Faultless Horse. By Nutwood Wilkes 2:16 1/2; dam Atherine 2:16 1/2 by Patron 2:16 1/2; second dam Athene by Harold 413; third dam Minerva by Pilot Jr. 12; fourth dam Bacchante Mambriño by Mambriño Chief 11.

FEE: \$75 for the season. (Limited to 50 mares.)

CARLOKIN 2:07 1/2

REG. NO. 36548.

Exhibition Mile 2:05 3/4; 15.2 hands; 1100 lbs.

By McKinney 2:11 1/4; dam the great broodmare Carlotta Wilkes (dam of Inferlotta 2:04 1/4, Mary Dillon 2:06 1/4, Carlokin 2:08 1/4, Volita 2:15 1/4, Lottie Dillon 2:16 (trial 2:10 1/4), Frank S. Turner 2:28, etc.); second dam Aspasia (dam of 4 standard performers); third dam Miss Buchanan, great broodmare, etc.

FEE: \$75 for the season. (Limited to 50 mares.)

The above stallions will make the Season of 1912 at

New Exposition Park, Los Angeles, Cal.

Very best care taken of mares at reasonable rates. For further particulars, address

W. G. DURFEE,

Box 1, University Station, Los Angeles, Cal.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11 1/4, out of Helena 2:11 1/4 (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16 1/2 (sire of Copa de Oro 1:59, John A. McKerron 2:04 1/2, Happy Dentist 2:05 1/4, etc.); second dam Novelist 2:27 by Norval 2:14 1/2; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old he broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at **MAYFIELD**, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address

J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

THE SURVIVAL OF THE FITTEST

The Match

KAHLER VS. GAY

Lexington, Ky.—Inclosed find check for \$750, forfeit money of pigeon race between Harry W. Kahler of Philadelphia and Jacob D. Gay of Pine Grove, Ky. Isn't He Worth Saving?

Why trade off or sell at a beggarly price a good horse just because he "goes lame," "throws a curb" or develops some other blemish? There is nothing in the way of Spavins, Curbs, Splints, Windpuffs or Buaches which will not yield readily and permanently to treatment with

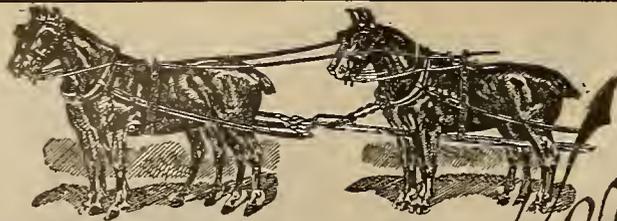

QUINN'S OINTMENT.

Dr. E. H. Davenport, a prominent physician of Sheridan, Ind., writes: "I have used a number of remedies for the removal of curbs, splints, thickened tendons and tissues generally, but for the last two years I have not been without Quinn's Ointment. I have tested it thoroughly at different times, and say without hesitancy that it is the only reliable remedy of the kind I have ever tried." Price \$1.00 per bottle. Sold by all druggists or sent by mail. Write for **W. B. Eddy & Co., Whitehall, N. Y.**

The Board of Directors of that sterling organization, the Pacific Coast Trotting Horse Breeders' Association, have decided to hold their meeting this year at Stockton, and this is the first time since its organization over twenty-two years ago that it will be at this city, which once had the reputation of being the greatest light harness racing center in the world. The action of the Board in deciding to hold its meeting there will receive the endorsement of almost every one engaged in the industry. It is the logical place for it this year, following as it does the big fair and race meeting at the State Fair, Sacramento. The people of Stockton and, in fact, all who live in San Joaquin county, are very enthusiastic over its prospects and will endeavor to induce every livestock exhibitor at the State Fair to come and bring their choicest horses, cattle, sheep, hogs and poultry there. Then there will be entertainments down town in the big square near the City Hall; and, as the people of this favored part of California have been very prosperous for the past ten years, they have signified their intention of spending considerable money to make this Fair Week the best ever seen there. The example set by the good people of Salinas during their "Big Week" last year will be followed and, if possible, improved. Thousands will be attracted from the mountains and small valleys adjacent to the big valley, and with the prospect of attending one of the best race meetings ever held in the San Joaquin they have a right to anticipate a week of thorough enjoyment where all the cares and drudgery of every-day life will be forgotten amid the pleasurable excitements of that week.

The Breeders' Association will have a four days' meeting commencing September 25th, and ending Saturday, September 28th. The purses for the nine races will be for \$1000 each, besides these, there will be decided the Breeders' Futurity stake races for two and three-year-old trotters and pacers, amounting to \$7,250, and two other races for local horses, owned and driven by members of the San Joaquin Driving Club. The total amount to be distributed among the horsemen during this four days' meeting will be \$17,050. There will be the very best horses entered in these races that can be gathered in Northwestern Canada, Idaho, Washington, Oregon, California and Arizona, and close and exciting contests between big fields will be witnessed every day. The classification of these races was decided upon after a most careful study of the horses which have made records on this Coast for the past three years; the idea being to insure as large fields as possible in every event; hence, owners and trainers will work with greater interest now that this important item is determined.

The local organizations co-operating with the various railroads and railway lines intend to organize excursions from the principal stations and give low rates to all who will visit Stockton that week. There are plenty of hotels and ample accommodations for thousands in that city, and the wideawake merchants and business men (judging from the success attending their former county fairs) have signified their intention of doing all in their power to show to visitors the many advantages Stockton has, and call attention to its growth and improvements during the past few years. The newspapers there are also becoming enthusiastic, and when once these valuable adjuncts to success take hold nothing can stop their progress, and whatever they endorse (and they are endorsing this big Stockton Fair and race meeting of 1912) is sure to make it the greatest and best attended week of festivities ever held there, for it will draw people from all parts of the Pacific Coast, many of whom have never visited this thriving city.

LOS ANGELES will be on the map as a racing center this year. There can be no doubt of this after reading the splendid programme of races which has been arranged by the Los Angeles Harness Horse Association, wherein the sum of \$18,600 is to be given at their meeting this fall to the winners of the trotting and pacing races. Besides this amount, the sum of \$2,400 has been set aside for specials, and all who attended the business meeting of this organization left there more determined than ever to do all in their power to make it a success and in that manner show to the people how deeply they appreciate the efforts of that little band of five enthusiastic horsemen who guaranteed the stakes and purses for them, viz: Messrs. C. A. Canfield, W. A. Clark Jr., C. J. Berry, W. G. Durfee, and L. J. Christopher. Not only this, but Mr. W. A. Canfield immediately offered the splendid sum of \$5,000 to start a subscription list to erect a suitable grandstand; by this time, no doubt, sufficient funds for this laudable purpose have been obtained.

Then again, a futurity stake for foals of this year (1912) was announced, those entered to start as two this Golden State will be here. That year (1915) when the greatest crowd of people that ever visited this Golden State will be here. This year (1915) will not only be noted for the Panama-Pacific Exposition, but it will also go down into history as the greatest one for the light harness horse industry on the Pacific Coast that was ever known. There will be more races, bigger purses, larger meetings, and more famous horses assembled on this Coast than one can imagine, and with the progressive spirit which dominates all who come to Southern California, Los Angeles will hold a meeting that will hardly be eclipsed by any other in the United States.

There is a concerted move all along the line to have at least six big fairs and race meetings every year in California, besides the State Fair meetings at Sacramento and Los Angeles, these fairs to be aided by the State government. And by the conduct of our few meetings to be held this year will the verdict be decided by the Senate and Assembly and ratified by the Governor calling for annual appropriations for such agricultural fairs. Los Angeles is the center of one of the richest agricultural sections in the world, and its meeting this year promises to be the best ever held there. All the representatives to the Legislature from that portion of this State will be in attendance, and in the enthusiasm shown by the directors of this harness horse

association and the speed which is being developed over that magnificent course there can be no doubt of the good effect these will have in causing even the most doubtful of these Legislators to work night and day at Sacramento to get the aid which this great enterprise is justly entitled to.

Besides this race meeting in Los Angeles there will be a livestock exhibition and two big pavilion displays. These will be highly creditable to the people and must leave a most favorable impression upon the minds of all visitors, causing many to take up new industries and work which will strongly appeal to them through the exhibits shown during that week of stirring events.

THE PEOPLE of Santa Rosa and adjacent country should assemble and see if a first-class light harness horse meeting cannot be given there during the latter part of July. Mr. S. H. Burns, the enterprising owner of the Santa Rosa race track, has expended thousands of dollars in making it and all its appointments second to no other in California. The course is conceded to be one of the fastest and safest, the stalls have all been renovated and put in splendid condition, the grandstand has been repaired and strengthened and, in fact, everything has been done to restore this celebrated course to its former glory. The climate of Santa Rosa is unsurpassed for mildness; everything possible can be said in praise of it, and yet the half would not be told. It is simply perfect. There are many trotting horse enthusiasts in Sonoma county who would work hard to get a first-class race meeting up, all that is need is an effort on the part of three or four to call them together at some appointed place and set before them the advantages that would follow the holding of a race meeting there. The purses need not be large, and many horsemen will be delighted to take their horses there before shipping them to Vancouver, B. C., where the first big meeting of the Pacific Coast Circuit will commence August 12th. Men of Sonoma, think this matter over. It is worthy of your careful consideration and a good meeting will pay well and be the means of infusing new life into the industry which once made Sonoma county famous throughout the world!

THE RECENT SALE of The Harvester 2:01 for a sum claimed to be in excess of \$50,000, and the sale of the great stallion Bingen 2:06 1/4 and a small collection of mares and colts for \$100,000 shows that the industry is in a healthy condition and that "if a man has the goods he can always find a buyer." We look for many sales ere the snow flies which will run well into the thousands this year, and many a "green" horse will appear which will make its owner rich beyond measure. In the light harness horse industry this has been the rule ever since racing was established, and will continue until the last tap of the bell in the judges' stand proclaims that the day for fast trotting and pacing has passed away forever. That will be many, many years yet, and it is a question if the sun will ever cast its warm rays on such a day. The horse industry is becoming better understood and better established and its influence is spreading over a wider territory than ever because more wealthy people in other countries are coming under its influence each day. Prices for good horses will continue to be sustained because these people will vie with those we have in America in paying for whatever merits their consideration, hence, there need be no fears of its future.

THE EXAMPLE set by the members of the San Joaquin Valley Driving Club in using their united influences to have the Board of Supervisors, the Chamber of Commerce and the Board of Trade of Stockton assist them in having the best fair and race meeting ever held in Stockton, cannot be too highly commended. Their example might be profitably followed by other amateur driving clubs in this State.

THIS is the last call for that payment of \$10 on all two-year-olds entered in the Breeders' Futurity, for on Monday next (April 1st), they will close with Secretary F. W. Kelley. The value of this stake is \$7,250, and anyone who has a chance to win cannot afford to let this payment pass.

ALL who have made entries in the Canfield-Clark Stakes No. 3 should not overlook the fact that the third payment in this rich stake is due and payable on Monday, April 1st.

NOTES AND NEWS

Have you noticed the Los Angeles race programme?

Entries to the big stakes at Grand Rapids, Michigan, will close next Tuesday, April 2d.

Shirley Christy is wide awake and will be in evidence at all our race meetings this year.

This will be the greatest year for light harness racing on the Pacific Coast we have had in fifteen years.

F. A. Ramsey, of Turlock, recently purchased the stallion, Milton Gear 2:12½, from D. D. McDonald, of Fresno.

How about that \$10,000 Futurity Stake for foals of 1912 at Los Angeles? They mean business in the Orange City.

The Breeders' meeting will be held at Stockton this year. It is ten years since a big race meeting was held there.

Lady Carreta 2:20½, by Nutwood Wilkes 2:16½, has a nice foal by Palo King 2:28½ and was bred back to him again.

Hazel Kinney 2:09¼, by McKinney 2:11¼, and Miss Griffith 2:14¼, by Bonnie Direct, will soon foal to Toddlers (3) 2:18¼.

A. J. Molera of Monterey will breed ten of his choicest bred mares to his stallion, Alta Vela 2:11¼, by Electioneer, this year.

Chas. Whitehead is handling all of H. E. Armstrong's horses at Pleasanton and will have them ready for the races this fall.

Fred Woodcock has been engaged by S. S. Bailey to act as second trainer under Joe Bryant to handle his string of trotters and pacers.

Hans Frelson has decided not to rent the big stable belonging to the Park Amateur Club on Thirty-fifth avenue, near the Stadium, after April 1st.

There will be a big matinee at Pleasanton April 13th. S. S. Bailey, proprietor of the track, is determined to have the course in perfect order.

Mr. Geo. Henagin, of Woodland, has two pacers—one by Stanford, the other by Marvin Wilkes 2:12½—which he sent to Montgomery & Childs at the Sacramento race track.

Lillian Wilkes 2:17¼, according to story, has spent the last half dozen years of her life raising half-breed hackneys. She is the dam of the young sire Guy Axworthy (4) 2:08¼.

Mr. Heller expects to take Hal McKinney 2:06½ East this year. He has worked him on the half-mile track at Riverside a mile in 2:09, a half in 1:01½, last quarter in 29 seconds.

Horseowners and trainers should feel encouraged after seeing the programmes issued for this year's races at two of our meetings in California, viz: Los Angeles and the Breeders' Meeting at Stockton.

The foals by Geo. L. Warlow's grandly bred stallion, Black Hall, that are making their appearance at Fresno are as handsome as pictures and every owner is exceedingly proud of them.

Attention is called to J. David West's advertisement of toe weights, "Sells" boots and the fine line of turf and track goods he carries. Send for a catalog of Sells goods. It will be forwarded to all applicants.

Patsy Davey of San Jose has entirely recovered from the injuries resulting from his being thrown out of an auto and is busy driving quite a string of trotters. He also has several youngsters to handle that he thinks a great deal of.

The royally bred trotting stallion, Belmar 2:21¼ (brother to Mobil 2:10¼, Mochester 2:10¼, etc.), is making the season of 1912 at Los Angeles in charge of Geo. McPherson. He is the best bred Moko brought to California.

Arrangements are being made to have another "Big Week" at Salinas this year. A committee has been appointed to make arrangements for it and also to see about the trotting horse races to be held there on that occasion.

There is neither a lame nor an ailing horse at Pleasanton. Every afternoon the caretakers are out in the infield cutting alfalfa, affilliera and grass for their charges, and the watering carts are busy "wetting down" the track. There are nearly 300 horses working over this course at present and the three horseshoeing shops are running on full time.

T. D. Sexton, of Oakland, was a visitor at Pleasanton last Saturday, and drove his trotter Silver Hunter, by Zombro 2:11, a mile in 2:24, last quarter in 33 seconds. This is a remarkably clean going horse and will be heard from this season.

Vela Alta, the speedy little green pacer by Alta Vela 2:11, owned by A. V. Mendenhall, is one of the sweetest "sidewheelers" at Pleasanton. Nearly everybody who sees her work predicts she will have a mark of 2:10 or better this fall.

One of the best pacers at Pleasanton is a slashing big bay by Directly, called Billy Smith, belonging to R. J. MacKenzie, who purchased him from Mr. Smith of "Smith's Wonder Worker". Billy Smith has paced miles in 2:12½, last half in 1:02¼.

D. McNally, of Livermore, has a very handsome and promising four-year-old trotting mare called Bonnie Jean, by Bon Voyage, 2:08, out of Ruth C. 2:16, by Guide. F. Chadbourn is handling her and is well pleased with the way she trots.

Frank Lieginger's good mare Lady Bess, by Major P. (son of Dexter Prince) dam by Priam, dropped a fine-looking colt by McAdrian, 2:24¼, son of Guy McKinney, and all the horsemen in Stockton say that it is a good one. Lady Bess will be bred back to this strongly made stallion.

E. W. Hanks, the "live wire" racing manager of the race meeting at Augusta, Maine, which is to commence August 5th, has been visiting San Francisco and intends to return here in a few weeks. He is without doubt the most optimistic light harness man that ever crossed the Rocky Mountains.

Farmers and horsebreeders of Tulare should avail themselves of the opportunity of breeding their best mares to Chestnut Tom 2:15, one of the best bred stallions bred in California, and a speed producer, too. I. M. Lipson has recently had this horse sent to him and will be pleased to show him.

H. S. Hogoboom says "there is more horse talk around Woodland now than there has been all winter. He also says Sam Hoy has sent the dam of his good little mare Complete to Woodland to be bred to Palo King 2:28½."

Vallejo Girl 2:10¼ will be raced on the Pacific Coast circuit this year. Patsy Davey will drive her. He will also have Vallejo Boy 2:15, Mabel Claire, and Hazel Smith, all blood relatives to this mare in his string.

J. T. Silva, of Pinole, has a beautiful mare sired by John Rowan's Sidney stallion, St. Nicholas, out of a thoroughbred mare. On March 18th she dropped a chestnut colt by Chestnut Tom 2:17¼, that is the image of his dam.

Nancy Hanks 2:04, dam of Malcolm Forbes 47353, has the distinction of being the only mare in the world to hold a place among the ten greatest producers, and also a place among the world's champion trotters.

The Index-Tribune announces that steps are being taken in Sonoma and Sonoma Valley to arrange for a wild west show on the grounds of the Sonoma Valley Driving Club. There are many good horsemen in the Sonoma Valley.

A casual examination of the breeding of the new standard sires of 1911 reveals the fact that a large number of them carry the blood of either Robert McGregor, 2:17½, or Nutwood, 2:18¼, on their dams' sides.

Mr. S. S. Bailey is thorough in all that he undertakes. He is proving this by the manner in which he is having the track in Pleasanton kept in order, and it is asserted by the horsemen there that there is not a lame horse to be seen on the course.

Another 2:10 performer should be placed among the descendants of A. W. Richmond. A horse called Ivan B. got a record of 2:09¼. He was sired by Limber Jim, a son of Richmond Chief, 2:11¼; he by Monroe Chief, 2:18¼, out of Ela, by A. W. Richmond.

Dick Wilson is very proud of the way the handsome two-year-old trotter U. Lynn, owned by Denny Lynn, of Salinas, is doing. He is a natural trotter and is a credit to his sire, G. Albert Mac, and Belle Lynn, by Diablo, his dam. He will be a Uhlan instead of a U. Lynn some day.

It is now charged that Californians are discriminated against at the Davis State Farm. Charges of various kinds are being made continually and it would seem to an outsider that an investigation should be held to determine once and for all their foundation, if any.

At Indianapolis one day Mr. R. J. MacKenzie was approached by a tall, reverential man, who said: "Mr. MacKenzie, I came a long distance to see that handsome horse, Joe Patchen. I am pleased to say I have seen him, although he did not go very fast this morning, but he is the nicest pacer I ever saw; really, it seems to me as if he was propelled by some invisible power!"

The oldest Ohio foals by Nutwood Wilkes 2:16½, are now two-year-olds. They are a grand looking lot, and quite a few will obtain standard records and be raced in 1912, as no less than fifteen could trot quarters in 40 seconds or better as yearlings, with only limited training.

Tidal Wave, 2:06¼, Mr. Bailey's famous stallion, has been shipped from Pleasanton to Salem, Oregon, where Marion Putnam, a well known horseman of the northern country, will stand him this season. Tidal Wave is a favorite sire in the Oregon district and his owner and his manager will experience little trouble in filling the book.

D. Bonham, of Hanford, Cal., is the proud owner of the first foal by the fast young stallion, Guy Borden. His mare, Helen B., by Robert Basler, foaled on March 23d, a beautiful black filly that is a counterpart of its sire. It is entered in The Breeders' Futurity No. 12, and Dave is sure that she will be "in the money."

In our business columns there are advertised two very handsome mares owned by E. F. Binder, of Riverside. One was sired by Zombro 2:11, and the other by Expedition. They are royally bred, grand looking individuals and are priced remarkably low. Seekers after the very choicest bred and most promising mares should write immediately and make arrangements to buy one or both of these. They will make no mistake if they do.

Mr. R. J. MacKenzie is delighted with his latest purchase, a mare by Zombro 2:11, which he got in Los Angeles. She is not large, but is one of the classiest looking, smoothest gaited trotters ever seen on the Pleasanton track. Havis James wears a smile every time he alights from her sulky after driving her around that course. If nothing happens this one will create quite a sensation before the racing ends this year.

W. S. Harkey of Gridley is cursing his luck ever since twin filly foals were born to his pacing mare Deviletta, by Diablo 2:09¼. The mare is a fine animal and the sire of the fillies is Aerolite 2:07½, a fast pacer of Pleasanton. While the foals are finely bred, horsemen claim that twins never amount to anything, and as Mr. Harkey is an expert stockman he can well realize the impossibility of his foals making any fast time on the track.—Appeal.

It now looks as if Mr. Billings would not get a single foal from the Lou Dillon family this season. A year ago Lou herself was bred to Moko, and her oldest daughter, Lou Billings (3), 2:08¼, to Justice Brooke (3), 2:08½, while her younger one, Gretchen B., was stunted to The Harvester, 2:01, and later to Walnut Hall, 2:08¼—but none of them is believed to be with foal. This is indeed unfortunate.

Dr. David Herspring, of Woodland, writes: My mare, Edna Richmond, foaled a nice colt last week by Zorankin, and I will breed her to my stallion, Don Rosine. There will be some grandly bred mares to go to his court this season. Among those already booked are two by Welcome 2:10, one out of Cricket 2:10, and the other out of a full sister, Jennie S. 2:20, trial 2:08½, by Directum 2:05½; one by Ralph Wilkes 2:06½, three by Diablo 2:09¼, three by Falrose 2:19, and several others.

The application of the directors of the State Agricultural Society for \$4000 out of the \$75,000 fund created by the last Legislature and placed at the disposal of the State Board of Control has been turned down by the Board of Control. The State Fair directors desired this money to bolster up the depleted funds of the society in making improvements at the State Fair grounds, such as beautifying the infield and preparing for the State Fair this fall.

General C. C. Watts has had two mares to foal this season to the cover of his stallion, General Watts (3) 2:06¼. Alla 2:21, by Palo Alto 2:08¼, has a bay filly, own sister of Mahomet Watts (2) 2:17½. Twinkle, p, 2:05½ (dam of Twinkling Dan, p, 2:06¼), by Mercury C., has a chestnut colt, own brother of Meddler Watts, with which Zack Chandler hopes this season to pick up some of the good three-year-old events.

The old saying is "When you fire a swipe always see that there is one just as good around to take his place." Some of the trainers of the big stables keep their men for years and will not hire a man who drinks too much and has bad habits, such as laying out at nights away from his horse and who smokes cigarettes. Many faults can be overlooked if a man is loyal to his trainer. But let him and his trainer get at crosswords and the horse will have to suffer most of the time.

The New Orleans "Picayune" published a column and a half article in praise of our fellow-citizen A. Ottinger, and his ability as a railroad and steamship agent, but no mention was made of the fact that for over twenty years he has been one of California's most enthusiastic horsemen, and that in about three weeks he will be here ready with his horses to brush with anyone at the Stadium. We are pleased to note that success has crowned his efforts on his eastern journey.

One of the best bred and most promising yearlings at the track is the bay filly by Moko out of Zephyr 2:07½, by Zombro 2:11, second dam Gazelle 2:11½, by Gossiper 2:13½, the dam of the pacers Zolock 2:05½ and Gazant 2:10½. The little miss is the property of E. T. Barnette, of Los Angeles, Cal., the owner of one of the best stables of harness horses in the country and which includes Helen Stiles 2:08½, Don Pronto (p) (4) 2:05½, and the much-talked-of three-year-old colt Manrico. Both the latter were bred in Kentucky and given their early lessons by Bowerman.—Kentucky Stock Farm.

Lou Hicks, son of Dr. Hicks, sends the following items: "I am six miles from Stockton. We have Derby Ash here; he is twenty-one years old, but is full of vigor. He looks like Indianapolis, his maternal grandsire. I also stood him eighteen years ago. We have two pacers here by Royal McKinney. One has a matinee record of 2:14. We also have a fine two-year-old pacer by Charley D. 2:06½, and a yearling by Jim Logan 2:05½, from Lily Ash, by Derby Ash, that look very promising. We have a nice two-year pacer also by Derby Ash from a mare by Dexter Prince. Mr. Jeremiah Aker owns the place."

It is said that the R. J. MacKenzie horses will leave Pleasanton about the 23d of April. This big string will be divided, many of them in charge of Geo. Spencer, will go up through the Northwestern Canada Circuit and then to Vancouver, B. C., where they will start on the Pacific Coast Circuit and finish up at Phoenix, Arizona. Havis James, will undoubtedly drive the others down the Grand Circuit, and everyone in California who has met this quiet unassuming gentleman will take a personal interest in his progress and anxiously watch the summaries while wishing him the best kind of luck this year.

That good game mare Stella C. 2:26, by Director 2:17, out of Speculation Maid, by Speculation, has never received the credit due her in the Year Book. Perhaps she is not to blame. The secretaries who send in reports of the races very often overlook the breeding of the starters, especially on the maternal side. Stella C. is the dam of Ama 2:10½ pacing, 2:16½ trotting, Edna R. 2:11½ and Morris A., sire of Chorro Prince 2:10. Morris A. is owned by A. B. Spooner of San Luis Obispo and has a number of splendid descendants; in fact, there never was a more popular sire in that county than he.

"Trotting horse affairs around Stockton are being infused with new life," writes E. D. Digges, owner of McAdrian 2:24½, "and so large has been the demand for the services of my horse I have taken him from Pleasanton and will make the season with him here. Everybody is talking about the Breeders' Meeting and the 'boom' that is bound to come this year in trotting horse circles. Beautiful foals are making their owners as proud as the mares that bear them, and in a little while we expect a Joe Patchen II foal from Trix McAdrian (2) 2:23½, so we are naturally very anxious."

Mr. I. L. Borden will send the following to John Quinn, Sacramento, next Monday: A two-year-old filly by Barney Barnato 2:19, out of Hester McKinney, by McKinney 2:11½ (three crosses of McKinney in this one); Matawan (3) 2:17½, by Athadon, and a four-year-old gelding called Loch Lomond, by Zolock 2:05½, out of a mare owned by the late F. J. Kilpatrick. Loch Lomond was sold at auction two years ago, but we cannot find any record of it. Perhaps some of our readers will kindly furnish particulars of the breeding of this pacer.

According to the new Year Book there are now 71 different Alices with standard trotting records; 59 different Annies; 37 different Babies; 110 different Parsons; 227 different Belles, and so many different Bessies, Billys, Bonnies, Carries, Charlies, Colonels, Generals, Princes, Kings, Ladys, Lords, Toms and Tommies, Daisies and Dandies, Dicks and Dollies, and so on down the line that it would take a corps of expert accountants to cast them all up correctly inside a week. Will the day ever come when these overworked, frayed, frazzled and broken-down names will be given a rest?

Judge E. A. Colburn is going to try his luck again through the Western Circuit; he has been out of the game for a long time, and will ship his string to Pleasanton in a few weeks in care of Ted Bunch. At the head of his stable is Mary Louise; this is a green mare, level headed and likes the going. The judge drove her to a wagon last season in 2:11½ over a half-mile track. She has been miles in 2:08 without an effort over a poor track at that. She should be a big winner this season. In Echo Bells, he has another beautiful mare; she is four years old, has a mark of 2:19½, strong, and she looks every inch a race horse. She would win in a show ring as she has size, is a bright bay, clean limbed and with a fine disposition. He also has a very fine chestnut colt, Judge Esmond, by Judge C., that he bred and raised himself. He is now a two-year-old and is a highly-bred fellow. He has stepped eighths in: 1:7½ with only about four weeks' training; is a natural pacer, nice size, strong and level headed, and is the one that the judge is especially schooling for a record. More Bells is another good prospect for high honors. A slight accident kept her out of training last season, but she is sound now and going nicely. She has been miles right around 2:10.

On Thursday, March 14, at Dromore Farm, St. Clair, Mich., a brown colt was foaled that possesses a speed inheritance unparalleled in some respects, for he is the first foal ever produced from the union of sire and dam, each of which took a two-year-old record below 2:10. The youngster was sired by Justice Brooke (2), 2:09½ (3), 2:08½, and his dam is Native Belle (2), 2:07½ (3), 2:06½, by Moko. The product of this union of world's record two-year-olds is a colt of perfect conformation, and his future will be watched with the deepest interest by the many believers in the theory that development of speed adds to the value of a stallion or mare for breeding purposes.

Recorder F. H. Greely of Yuba county calls attention to the fact that although mandatory provisions are made in the California statutes of 1911 for the registration of all stallions and jacks, none of the Yuba county horsemen have as yet complied with the law. By virtue of such statute it is necessary for the owners of such animals to secure an affidavit from a licensed veterinarian relative to the physical state and other conditions of their stallions and jacks and then make application to the state board of registration for a license, the price of the same being \$2.50. Renewals are made annually for \$1. For failure to comply with the law a fine of \$100 is provided.

In a little paddock, not one hundred yards from the Pleasanton race track, W. T. McBride, of the Rose Hotel, has the great broodmare La Moscovita (dam of Bon Guy 2:11½, Yolande 2:14½, Tina 2:20½, Guylight, trial 2:15½, and Daphne McKinney, dam of Frank N. 2:07½, and Bon McKinney 2:24½) by Guy Wilkes 2:15½. By her side is a pretty bay filly, with star and hind pasterns white, her sire is The Bondsman and it is doubtful if this sire of Colorado E. 2:04½ was ever bred to a better broodmare than the dam of this filly. Mr. McBride is so well pleased with the little Miss that he hred the mare back last week to The Bondsman. It would take a nice stack of twenties to buy this latest aspirant for two minute honors.

A colt that raced over the minor tracks in the West last year and proved himself worthy of a chance of the futurities, is the bay colt Graham Bellini, (2) 2:20½, recently purchased by the Manitoba sportsman, R. J. MacKenzie. Graham Bellini started eight times last year, winning five firsts and three seconds and showed that he could trot in 2:20 or better over a half-mile track. He may not have the necessary "lick" of the stake winning three-year-old, but if he does prove to have it he will be a hard colt to beat. And he comes from a futurity winning family, Bellini having proven a great sire of colt trotters, while the dam of this colt was Gracie Onward, 2:12, and she is a daughter of Gracie V., 2:30, who produced a futurity winner in Gov. Francis, 2:08½.—Western Horseman.

According to the report of the Secretary of Agriculture, the Colorado stud of carriage horses at Ft. Collins now has seventy-one animals, the Vermont stud of Morgans thirty. Several additional zebra-ass hybrids have been produced; those now in their second year are larger than their dams, though not as large as their sires. The Secretary suggests that in order to secure the 2,000 or 2,500 horses now needed by the army every year 100 stallions should be owned by the government, and arrangements should be made for the use of privately owned mares of proper type, the War Department to have an option on the purchase of the foals.

Thos. Ronan, of Pleasanton, takes great pleasure in showing the latest addition to his string of trotters and pacers, a most perfectly formed filly that was foaled about ten days ago. She is a light bay in color and was sired by that fine stallion, Tom Smith 2:13½ (son of McKinney 2:11½ and Daisy S, dam of seven in the list), out of Burned Side by Antrim 5918 (son of Aberdeen 27 and Hyanna, by Hylas 831); second dam by Arronax 19027 (son of William L. 4244 and Stockesie, by Geo. Wilkes 2:22); third dam Birdie (dam of Bodaker 2:13, and Birdalex 2:30½) by Jay Bird 5060; fourth dam, Lady Lyle (dam of 2, 1 sire of 8 and 2 dams of 2 in 2:30) by George Wilkes 2:22; fifth dam, Dame Tansey (dam of 3, including Prima Donna 2:09½, she is the grand-dam of 9, including Peter Donna 2:08, and East View Belle 2:15½, and is the fourth dam of Baroness Virginia, the great three-year-old with a mark of 2:08½) by Daniel Lambert 102. When it comes to "stout" blood lines this newcomer stands pretty near at the head of the class. Her dam was hred to The Bondsman this week.

The closing out sale of the eighty head of horses belonging to the August Uhllein estate last Tuesday was a real surprise to most horsemen in the matter of the high prices realized. Quite a number journeyed to the Wisconsin city, thinking that these horses would sell at such prices as their ordinary consignments to the public auctions, and there were just enough of these bargain hunters, together with those that were willing to pay their full value, to make the bidding brisk. The top price, \$1,550, was paid for Cammie E., the dam of Don Labor, with her Harvester filly by her side. She went to H. J. Schlesinger of Milwaukee and is the highest price paid for a 15-year-old brood mare for some years. Of the eight Harvester colts, four two-year-olds and four yearlings, Sir Harvester, a yearling out of

Rosaro (sister to Marengo King 2:29½) by McKinney, brought the highest price—\$1,100—being knocked down to Ed Geers. Chicagoans got two of the eight bargain prices, L. J. Pentecost getting Lady Harvester, a two-year-old out of the dam of Dandy Increase 2:23½, for \$350, and Joe Markey got Harvest Girl, out of a daughter of Early Reaper 2:09½, for \$200. Both are promising fillies and considerable surprise was manifested when they were knocked down so low. These youngsters will be pretty exclusive property for a while, as The Harvester was bred to only two mares this year and will be training in 1913.

C. X. Larrabee, the big Montana breeder, owner of the far-famed and extensive Brook-Nook Ranch, in the southwestern part of that state, contemplates retiring from the breeding business. Mr. Larrabee is a very earnest admirer of trotters and pacers, which prompted him, many years ago, to give over a large part of that very large estate to the breeding of light harness horses, so that his operations along this line have gradually assumed very large proportions—perhaps larger than those at any other horse-breeding establishment in the country. For many years Mr. Larrabee has been a resident of Portland, Ore., where he has become heavily interested as a property owner, so that he now finds little time to give to Brook-Nook. Besides, he feels that the property should be in the hands of a younger man. He has also had difficulty in securing and keeping the right kind of superintendent and other help.

"Work-out days," at Pleasanton,—Wednesdays and Saturdays,—are becoming noted for the number of visitors, owners, and trotting horse enthusiasts that come from all portions of the Pacific Coast to witness the exhibitions of speed shown by the trotters and pacers which are being trained for the races this fall. Last Saturday there were delegations from Modesto, Portland, Oregon, Stockton, Sacramento, and San Francisco, all had their timers out and were as deeply interested in the efforts of the different horses to pass each other as if there was a purse of \$1,000 hung up for each work-out. There is a splendid aggregation of famous horsemen as well as other local celebrities here handling the ribbons over these horses such as Havis James, Geo. Spencer, Dick Wilson, Chas. De Ryder, Chas. Whitehead, Chas. James, Chas. (Farmer) Bunch (the four Charleys), Fred Chadbourne, Joe Bryant, Fred Woodcock, M. Henry, J. Sutherland, Bert Webster, T. Ronan, Al. Schwartz, E. Dunlap, H. Busing, R. Hazard and L. Josephs.

It looks as though people have commenced to realize that if they want to buy first class trotters, they must come to Lexington. Mr. L. A. Childs, of Spokane, Wash., one of the most successful trotting horsemen of that country, came to this city and after looking over a lot of horses offered for sale, bought the bay gelding, Henry Clayton by Prodigal, from Splan. Good judges pronounce this horse one of the handsomest, soundest, best gaited and fastest green trotters that has left here in a long while. Although this horse had no record better than 2:26½, he had shown his ability to trot in 2:10. Mr. Childs has shipped him to his home and will race him through the North Western Circuit and later in the season take him to California. This is Mr. Childs' first visit to Kentucky and he was highly pleased with the surroundings, and greatly surprised when he looked over the yearlings at the track and Patchen Wilkes Farm to see how fast they could go on the trot and pace. Mr. Childs left an order with Splan to buy a few nice brood mares to breed to General Watts; says he wants to interest himself in the colt racing.—Stock Farm.

THIS WILL BE A WELL-BRED ONE.

Hanora, by Oro Wilkes 2:11, is due to foal to The Bondsman. If she gives birth to a colt Senator B. F. Rush believes he will keep it for a sire. It will represent some splendid trotting horse families. The Bondsman being by Baron Wilkes 2:18, out of that wonderful brood mare Serrento, by Grand Sentinel 2:29½, and the next dam the great broodmare Empress by Abdallah Mambrino, a famous broodmare sire. Then there are strains of Clark Chief and Abdallah 15 blood on a strong thoroughbred foundation. Hanora is by Oro Wilkes 2:11, he by Sable Wilkes 2:18, out of Ellen Mayhew 2:22, a great broodmare by Director 2:17, and his second dam was by Speculation 928; Sable Wilkes 2:18 was by Guy Wilkes 2:15½, out of Sable, another great broodmare by the Moor 8:70; second dam Gretchen, a great broodmare by Mambrino Pilot 29, etc. Then Guy Wilkes 2:15½, was by Geo. Wilkes 2:22, out of Lady Bunker, another great broodmare by Mambrino Patchen 58, Baron Wilkes 2:18, and Guy Wilkes 2:15½, were both by the same sire and out of mares by Mambrino Patchen. Hanora's second dam was Hanna (dam of Gracie R. 2:10½, Suisun 2:20½ and Olga 2:29½), by Le Grande 2868 (he by Almont 33 out of Jessie Pepper, one of our greatest broodmares, by Mambrino Chief 11). The third dam was Hannah Price (dam of Lesa Wilkes 2:09, Charley James 2:22½, Anita 2:25½, Last Chance 2:26½, Adwiter 2:20½, My Budd 2:21½), by Arthurton 365; fourth dam Priceless (2:45½ to wagon), by Mystery. Truly it is a most remarkable pedigree and even if it should happen to be a filly what a broodmare it would be. Hanora's fine four-year-old filly by Zomhro 2:11, was also bred to The Bondsman, but very late in the season last year and it is doubtful if she is in foal.

RIVERSIDE AND SAN BERNARDINO.

Riverside, the city of beautiful homes, orange trees and picturesque drives, and said to be the second richest city per capita in the United States, has as nice a little half-mile track as any in the country, and as a place to work horses it is unexcelled. The climate is perfect and as the track is built on boggy soil it has lots of spring and never gets baked and hard, as do some of the other Southern California tracks.

At present there are not many horses being worked but the few that are all look good.

A. E. Heller, the man who had the misfortune to lose the good pacing stallion Young Hal, 2:10½, at Los Angeles, a few years ago, has seven or eight head, the best of which is Hal McKinney 2:06½, the brown pacing son of Hal B. 2:04¼ out of a mare by McKinney. While this fellow had a little bad luck last year, he certainly looks good this year, and has been a mile in 2:10¼, last half in 1:01½, last quarter in 29½ seconds, over this two-lap track, without the pajamas.

Lady Halfred (3) 2:20¼, a sorrel mare by Young Hal 2:10¼, is a promising thing, and Al Hal (3) 2:23, a brown four-year-old pacer by the same sire, is touted to be as fast as the Hal McKinney horse.

Glynie, a brown mare by Eugeneer, dam full sister to Zomalta 2:08½, is owned by Mr. Binder and promises to make a fast trotter. She has only been worked a short time, but can beat 2:30 right now.

Fritz, a brown colt by Mr. Binder's dead son of Allerton, Worth While, out of a Silkwood mare, is a handsome fellow and will make a good trotter.

Several young things complete this string, but as nothing much has been done with them there is no need of detailed mention.

Mr. Judd, who was so seriously injured in the East a few years ago, is practically doing nothing as he has not entirely recovered. He has, however, a mighty nice yearling of his own by Don Reginald 2:12½, dam by Silver Coin, that is staked throughout the East.

Mr. Fodden, owner of this little plant, has two head by Zolock, Emma Z, a chestnut filly that has been a mile in 2:16 on the trot, and Edna Z., also chestnut, that is very promising.

Mr. Carrigan, proprietor of the Hotel Hollywood, has his good pacer Prince Valentine in town, but occasionally finds time to work him a little at the track.

San Bernardino was in the throes of the annual citrus show when the writer was there, but a great deal of interest is taken in the light harness horse, so much so, indeed, that one big packing concern has a brand of oranges named after the great pacer Dan Patch 1:55, and the slogan, "Can't be Beat!" This concern had a very pretty exhibit done in sand of Dan Patch, hitched to his white bike, Harry Hersey up, pacing on a track of oranges, and attracted a great deal of attention from all who attended.

Mr. Geo. Bonnell, the man who brought out R. Ambush 2:09½, has five or six horses at the track in training, and the good old race horse and sire Zolock 2:05¼, in the stud.

Zolock never looked better in his life and when one stops to think that he is 16 years old and as sound as a dollar, after all his racing, we must give him credit for being a wonderful horse. The writer had a very pleasant chat with Mrs. Davis, his owner, and she is justly proud of the old fellow, never letting a week go by without making a call on the old horse.

Amulet, a three-year-old by R. Ambush, out of Magnet by Gen. Steck, is a promising trotter, as is Ambonnell, a four-year-old pacing gelding by the same sire.

Copper the Ore, a very breedy looking four-year-old brown trotting filly by Direct Heir out of the dam of R. Ambush 2:09¼, has been a mile in 2:18, last half in 1:06½ and can trot much faster.

Geo. Parker has three head, namely, Hy Yu by R. Ambush, a promising trotter; a trotting gelding by Oseto out of a Hillsdale 2:15 dam that has been a mile in 2:20, and a three-year-old trotting filly by the same sire that gives promise of being very fast.

Mr. Bunnell, of San Bernardino, has two green ones that he has just brought to the track, one called Bunnie June by Zolock, and the other Buster, by Neernut.

Billy Best has four head that all look good. Bess, a black mare by Zolock, out of a sister to Delilah's 2:07¼ dam, is a nice pacer and has been a mile in 2:16, last half in 1:05, last quarter in 30¼ seconds.

Darkey, a black gelding by Symbolcer, is a nice pacer, and has been a mile in 2:20, while Bird, a bay mare by Zombro, has been a mile in 2:30 at the trot.

Sunday, a bay three-year-old gelding by Larry Kiuney, out of a Zolock mare, can trot better than a 40-gait.

Jas. Campbell has his good pacer, On Bly by On Stanley, that he is jogging on the road, and Billy Robeck has the good trotter Larry McKinney, full brother to Hazel Kinney 2:09½, by McKinney, at his place in town. He has been regularly jogged and will be taken to the track later on. This is the horse that Fred Ward worked in 2:12 last year, and it looks as though 2:10 or better would be his record if his owner decides to race him.

"Captain" John Miller, the foreman and trainer of the Valencia Stock Farm, was more than kind to the writer and took great pains to show the ranch and horses.

Mrs. Severance, the owner of the Valencia Stock Farm, which comprises some 6000 acres, has surely something to be proud of, as the place is perfectly appointed, not only from a trotting horse standpoint, but as a country home as well. The spacious barns and paddocks in which the horses are kept are roomy and well fenced, and the horses at this place have a life of ease and comfort.

Direct Heir, the premier stallion, is a fine looking horse and wonderfully well preserved for a horse of his years.

The other horses at the ranch are Conqueror 2:09½, his full brother Amado, both by Direct Heir, out of La Belle 2:16. The old mare La Belle is passing the declining years of her life in comfort and plenty, and is given as much care and attention as a baby. Most of the Valencia Stock Farm horses are running out at present and the only one getting any work is a very handsome brown stallion by Zombro, who, under the tutelage of Captain John, is learning to trot fast.

Pegasus, the good colt by Zombro out of La Belle, is in great condition, but has not as yet had any work this spring.

Mr. Joe Kelley, the secretary of the association, has his chestnut stallion Bolock in nice shape and will prepare him for the late meetings in Los Angeles, Phoenix, etc. E. S. TRAIN.

BREEDERS' MEETING AT STOCKTON.

A meeting of the board of directors of the Pacific Coast Trotting Horse Breeders' Association was held Tuesday afternoon, and proposals were received from the various places making bids for the annual race meeting of the association this year. It was decided by the board to hold the meeting in Stockton, as it presented the most attractive offer, especially considering the fact that a race meeting has not been held there for ten years, while the interest in racing has been kept up by the San Joaquin Valley Driving Club. At the same time of the race meeting a street fair, county fair and livestock exhibit will be held and the date selected was September 23d to 28th, inclusive, the races taking place from September 25th to 28th, inclusive. Mr. Frank Liegiger, of the San Joaquin Valley Driving Club, was present at the directors' meeting and stated that the San Joaquin Valley was ripe for a big fair and race meeting and that the matter would be promoted by the Board of Supervisors, Chamber of Commerce, the Merchants' Association and the Driving Club, and excursions to Stockton would be given during the meeting which would be extensively advertised. It was also proposed that the business houses would close one afternoon during the week. The fair grounds and track in Stockton belong to the county, and, in a telegram dated March 25th, the Breeders' Association was notified that at a meeting of the Board of Supervisors held on that day, the Board passed a resolution in open session that the property known as the Stockton race track be put in proper repair and in condition for use in time for the fair and race meeting this year, and that a grandstand be erected so as to provide accommodations for spectators. Work has already commenced on repairing and putting the stalls in order, and ample accommodations will be provided for the horses and completed within a short time.

The Breeders' Association decided to offer the following stakes to close June 1, 1912:

| | |
|--------------------------|---------|
| 2:08 Class Trotting..... | \$1,000 |
| 2:12 Class Trotting..... | 1,000 |
| 2:15 Class Trotting..... | 1,000 |
| 2:20 Class Trotting..... | 1,000 |
| Free-For-All Pacing..... | 1,000 |
| 2:08 Class Pacing..... | 1,000 |
| 2:11 Class Pacing..... | 1,000 |
| 2:16 Class Pacing..... | 1,000 |
| 2:20 Class Pacing..... | 1,000 |

In addition to the above, there will be the Pacific Breeders' Futurity Stakes for two and three-year-old trotters and pacers, amounting to \$7,250. Entrance in these stakes to close June 1st will be three per cent June 1st, one per cent July 1st, one per cent August 1st; and the conditions will be similar to last year, nominators having the privilege of entering the same horse in two races and only being held for one entrance fee unless he starts his horse in both races. Also, they are allowed to enter two horses in one race on the payment of one entrance fee. In addition to the above, it was decided to offer two stakes for members of the San Joaquin Valley Driving Club. The association will hang up big purses to the amount of \$17,050 for the four days' racing, and as the meeting follows the State Fair and is the second meeting on the Grand Circuit in California, not only the best horses in this State but many of the best horses in Canada, Washington, and Oregon will be entered. Stockton can make it "one big week," as the attractions which will be engaged for the Grand Circuit will all be in Stockton, where a big fair and horse show can also be held, so that something will be doing every minute; the street fair, etc., going on in the morning and at night down town, and the races and livestock exhibit at the track in the afternoon. It looks as though the good people of Stockton are going to get together and boost it. The electric street car line by that time will be ready to discharge passengers at the track gates, and excursions will be given on all the roads running into Stockton. A "big week" of this description will not only bring in a harvest of dollars to the merchants in immediate results but will be of incalculable value as an advertisement for that prosperous and growing city.

MANAGEMENT OF THE PREGNANT MARE.

"The mare in foal should be worked lightly or abundantly exercised every day. Exercise is absolutely necessary. She should occupy a roomy box stall.

"Feed the mare sound, whole oats, bran and mixed or timothy hay. Avoid moldy hay or silage, damaged grain, woody, weathered fodder, dusty or rusty straw, or hay containing ergot. Keep pregnant mares out of corn stalk fields. Provide them with plenty of pure, clean water. In working mares avoid perking, severe pulling, wading through deep mud, manure piles or snow drifts. Let the work be light, easy and steady. Keep the bowels active by feeding bran and a little flaxseed meal, carrots, or some sweet silage.

"The mare goes forty-eight weeks, or about 340 days with foal. As foaling time approaches decrease the grain ration and increase laxative foods to keep the bowels acting freely. Constipation is dangerous. When wax forms on the teats, about three days before foaling, stop working the mare and place her in a prepared box stall where she can be watched until the foal is born.

"After foaling leave the mare alone for a time, if she is lying down. If she does not expel her after-birth promptly when she rises from resting inject into her womb 1 per cent solution of lukewarm coal tar disinfectant, or other mild antiseptic. If the afterbirth then does not come away within an hour or two, it should be removed by hand. An expert should be employed for this operation and when it has been performed the womb should again be flushed out with an antiseptic solution. Half an hour after the birth of the foal, or about that time, offer the mare a pailful of lukewarm water and again at intervals of two hours. Mares are thirsty at this time and should be abundantly supplied with water. An hour after foaling the mare may eat a mash of steamed oats, and bran, if she has been accustomed to such feed; otherwise give her ordinary grain ration. In a few days, if the weather is fine, the mare and foal may take some outdoor exercise and in two weeks, or thereabouts, she should have recovered from foaling and be taking her usual feed, grazing grass and getting ready to resume light work harness.

"Two 14x14 foot box stalls should be kept ready for the use of mares on every farm where foals are raised. No mare should be allowed to foal in an ordinary stall, or unprepared box stall. Navel and joint diseases will not be liable to attack foals born in clean places. An absolutely clean foaling place is necessary and should be prepared as follows:

"Remove and burn all loose litter and manure. Cleanse and scrape the floor; then saturate it with a hot 1-50 solution of coal tar disinfectant, or a solution of 4 ounces of sulphate of copper (blue-stone) to one gallon of hot water. Scrub and cleanse the walls with a similar solution of coal disinfectant; or a 1-000 solution of corrosive sublimate. Cleanse the ceiling in the same way; then apply to walls and ceiling fresh made lime whitewash, to each gallon of which has been added one-third of a pound of chloride of lime. Cover the floor with fresh, dry planing mill shavings in preference to any other bedding material. Remove manure as soon as it is dropped.

"When the foal is born and has been cared for and the afterbirth of the mare has come away, remove the mare and foal to the second box stall, prepared as was the first. Then clean out, disinfect and whitewash the stall just used and put in fresh, clean dry shavings in readiness for the reception of the next mare. The mare must always occupy a clean, specially prepared box stall and it should be perfectly ventilated and as sunny as possible.

"When but one box stall is available clean it out, burn the afterbirth and soiled bedding, use a disinfecting solution freely on the floor and put in plenty of fresh, dry clean shavings as soon as possible after the birth of the foal. If the mare foals on grass treat the foal as if it had been born in the stable. Navel infection is less liable to occur on grass, but this is possible and preventive treatment, therefore, is necessary no matter where the foal is dropped.—Dr. A. S. Alexander.

THE GREAT WESTERN CIRCUIT.

The Great Western Circuit, which reaches as far East as Cleveland and as far West as Phoenix, Ariz., is an ally of the Grand Circuit, some of the clubs belonging to both bodies. St. Louis has been admitted to the Great Western Circuit and the program for the fall meet will include 20 classes, with premium money aggregating \$20,000.

The harness meeting will be part of a general plan for a livestock exhibit and carnival in the fall on the grounds of the exposition which will include almost every form of outdoor sport and display.

The Great Western Circuit for 1912 is as follows: The week of July 2, at Marshall, Mich.; July 9, Grand Rapids; July 16, Kalamazoo; July 23, Detroit; July 30, Cleveland; August 6, Decatur, Ill.; August 13, Peoria, Ill.; August 20, Galesburg, Ill.; August 27, Des Moines, Iowa; September 3, Hamline, Minn.; September 10, Milwaukee, Wis.; September 17, to be filled; September 26, St. Louis; October 3, Sedalia, Mo.; October 10, Springfield, Ill.; October 17, Muskogee, Okla.; October 24, Dallas, Texas; November 1, Phoenix, Ariz.

THE PERCHERON HORSE.

(By Prof. E. J. Iddings)

It is appropriate in starting a story of the Percheron to outline, in a few words, the main essentials of the draft type of horse. The first requirement of the draft horse is weight—not moderate weight, but much weight. He must weigh at least 1600 pounds, and 1800 is far more preferable. The 2000 pound horse of quality is much in demand. It is roughly estimated that additional weight from 1600 to 1800 pounds is worth \$25 per hundred pounds; from 1900 to 2000 pounds \$50 per hundred pounds, and from one ton up, \$100 per one hundred pounds, or \$1.00 per pound. This weight is not so essential for farm use, but it is essential and of value in the city trade, where the surplus country and ranch horses must find a market.

Weight enables a horse to stick to the ground, properly balanced and distributed in form of bone and muscle, makes him a powerful and economical form of motor.

Along with this weight must be associated considerable style, the ability to move off freely at both the walk and the trot; considerable size and superior texture of feet and legs, and a compactly made, strongly coupled and muscled and symmetrically developed body. In general, these are the essentials of the high class drafter, and are the standard by which we must judge the Percheron.

It is characteristic of horse development and improvement that environmental and other influences have much to do with form, quality and nerve force. From the broad semi-arid plains of Turkey and Arabia, come the high class Arabian—small, dense in every body fibre, clean limbed, high spirited, speedy and tireless. The lowlands of Northern Europe, with continual damp and often inclement weather conditions on the other hand, have produced the foundation source of modern draft breeds. This original type of horse was huge and powerful of frame, covered with long, coarse hair, coarse and spongy in bone and tissue, and sluggish and stolid of action and disposition. A cross of the two above mentioned types is responsible for the superior draft animal known as the modern Percheron.

The heavy, coarse, aboriginal horse was undoubtedly more or less widely distributed over all of Northeastern Europe. This included Northern Germany, Belgium, Holland and Central and Northern France. When the Saracens were defeated by Charles Martel in France, and the retreat of the invaders became a rout, a large number of eastern stallions of Arabian, Turk and Barb blood fell into the hands of the French. The progeny resulting from crossing these horses on the native coarse mares of Flanders, Normandy and other French districts, was a smaller, denser and finer boned, better acting and more useful animal. Continued infusion of Eastern blood, and judicious and wise selection by French breeders, have been the factors in Percheron development and evolution.

In the early part of the nineteenth century the Percheron had become a medium weight, symmetrical and high quality, general purpose horse. He was able to pull considerable loads, and if need be, take the road as a draft horse and cover fifteen to sixteen miles an hour. This type of horse was found so useful at this stage of the world's development, and gained such wide popularity that their breeding home, La Perche, was rapidly drained of its best horses and its superior breeding stock. The deficiency was supplied by bringing in coarser heavier, colder blooded animals from the neighboring districts, and the Percheron rapidly deteriorated in quality, action, balanced conformation and popularity.

The last seventy years have witnessed a re-establishment of the Percheron in all the things that go to make a useful popular horse. Rigid selection and the infusion of more Arab blood have been the regenerating factors. The modern horse does not possess quite the quality or action of the animal that was so popular in the twenties and thirties of the last century, but it is considerably larger and more nearly meets our present day needs and demands.

The native home and the source of this popular blood is the district of La Perche, containing about 3000 square miles and made up of alternating rolling hills and fertile valleys. Nutritious grasses and high quality grains and hays have been factors of importance, but the patience and skill of the French farmer breeders should be given due importance. With favorable environment, a skillful and faithful student and practitioner of animal breeding can mould animal form and functions largely to suit his needs and demands. These French peasant farmers seem to have an unusual knowledge of the possibilities of handling animal form, and have moulded the Percheron horse so that he meets the demands of our modern market in the way of draft horses and has become the most popular of all our draft breeds.

Ordinarily our first impressions of objects are those of color. So, approaching a characterization of the Percheron horse, we find grays and blacks the prevailing colors, with an occasional bay, brown and roan. When the roan color is found, one is often suspicious of the presence of some Belgian blood. During the last ten years the blacks have been very popular and for what reason no man knows. Black is not, ordinarily, a popular color, and is not associated with the oldest and most staple Percheron type. The gray comes from the infusion of oriental blood, and, ordinarily, should belong to the most pre-potent families of the French breeds. A great many grays have been seen at the

shows of the last two years, indicating that this color is again coming into its own. There are some valid objections to gray as a horse color, but as compared to black, the dark gray gelding is worth ten per cent more to the city buyers. Some of our very best imported and native percherons are now black, but the writer hopes and expects to see the pendulum of popularity turn again strongly to the grays.

Among draft breeds in America the Percheron stands without a very near rival. He is much sought after for heavy hauling in the cities, and of the great six-horse draft show teams of this country, all but one are composed of Percherons. Figures at hand indicate that he outnumbered the nearest competing breed at a ratio of nearly five to one.

Never has the Percheron known such a good year as the year, 1911. Home bred Percherons have come out in greater abundance and a home bred colt was grand champion stallion at the Iowa State Fair. They have, in addition, come over from France in largely increased numbers, in such large numbers, in fact, that the uniform individuality and quality of this year's importations have been criticized and there is danger that the little home breeding district across the Atlantic will be drained by the Argentine, now one of the heavy buyers of Percherons, and by American importers. A deterioration of the Percheron at this time would discourage and work hardship to American breeders, and it is hoped that it can be avoided.

A large number of both stallions and mares have been sold during the past year to go to every part of the United States and to Western Canada, at quite low prices. The record price however was made last year when "Carnot" was sold to W. S. Corsa, of Whitehall, Illinois, for \$10,000.

In past years the Percheron business has been afflicted with disreputable pedigree associations and other methods of crookedness, horses were registered as Percherons which were not entitled to such registration and recognition. In the earlier days of the business pedigrees could be obtained from the fraudulent associations for almost any kind of a horse, providing he looked something like a Percheron. This however is no longer possible, if the farmers and stallion owners and small breeders will ascertain if the animal has a pedigree issued by one of the three standard associations that are recognized by the United States Department of Agriculture. These are "The Percheron Society of America," Union Stock Yards, Chicago, Ill.; "The Percheron Registration Company," Columbus, Ohio, and "The American Breeders' and Importers' Percheron Registry," Plainfield, Ohio. In addition, a recognized association, the National French Draft Horse Association, of Fairfield, Iowa, registers Percherons as well as the Bullonais, the Picardy and other French draft breeds.

The Percheron Society of America, which registers 90 per cent of all Percherons, has recently taken vigorous measures under the leadership of Wayne Dinsmore, to establish the registration of Percheron horses on a sound and honest business basis. Special representatives of the society are stationed at the various ports of entry for Percheron horses and make rigid investigations of all importations in order to remove all chance of sharp practice and irregularity. In addition, a special committee has been appointed whose duty it is to hold up and make investigation of all applications for registrations that are not properly made out and bear any suspicions of inaccuracy in dates and ancestry. Benefits have already resulted, both in establishing accuracy of pedigrees and in increasing public confidence in the Percheron horse and in those who breed and handle him.

The center of the Percheron industry is in the Mississippi valley states. The breed is rapidly gaining popularity in all parts of the west. The western breeders have been handicapped for the reason that importers in the Central states find it convenient to dump a large portion of poor horses, non-breeders and unsound ones, on the West. On account of somewhat limited experience in the draft horse business, Western men have been taking a great number of such horses at comparatively long prices. It is not safe nor profitable to breed to such horses and raise such kinds.

Western horsemen must demand that they be accorded fair and honest treatment by the big Eastern importing firms. Some good horses come to the West, but the percentage is entirely too small. Strict laws for registration and examination for unsoundness, and greater care on the part of farmers and others who buy stallions will do much to improve our horse stock in the next few years.

THE DETROIT MEETING.

Attention is called to the advertisement of the Grand Circuit meeting to be given by the Michigan State Agricultural Society, September 16th to 21st, inclusive. The purses are most liberal, \$10,000 being given for the 2:15 class trot, \$5,000 for the 2:12 class pace and for the 2:10 class trot, the 2:05 class pace and the 2:20 class pace \$2,000 purses are to be given. Entries for these will close April 16th when horses must be named. Read the conditions and the easy methods of making the payments on entries. The track at Detroit is one of the best in America and everything will be done to contribute to the comfort of all visiting horsemen and their horses. Besides these above enumerated events there will be other races added which will make this six days' meeting one of the very best ever held on the Grand Circuit. Remember, entries will close April 16th.

WHAT IS A "JACK?"

On a recent occasion, the unsoundness of a horse being in question, two gentlemen representing the owner of the horse and a dealer having the horse in hand, looked at his hocks. The dealer said, "if it were not for that pair of 'jacks,' I could sell the horse at a good price." Afterward, the two amateurs found that they were not in accord as to the meaning of the word "jack." The question having been submitted to The Rider and Driver, we publish it here with a request to our readers that they give us their views on the subject, i. e., "What is a 'jack'?"

A "jack" is synonymous with bone spavin, and, of course, is the same. When it appears upon one hock the horse shows lameness to a great extent, but when they appear upon both hocks this sort of evens up the lameness, and it is not noticeable, but the hocks are "tied," and therefore stiff, and are often passed off for "coarse hocks," when in reality it is a serious defect and a great unsoundness.

This is a disease of frequent occurrence, especially among fast horses. It consists in a diseased state of the small bones and joints which enter into the formation of the hock. The commencement of spavin is indicated by lameness, some heat in the hock, by a peculiarity in the gait, and by the absence of any other cause of lameness. In the process of time, if the disease proceeds, a small bony tumor appears on the inside of the hock, and after this, sometimes sooner, the lameness in general subsides, and the horse is only stiff. It is now that he is offered for sale. It is known that the lameness is very likely to return; and to increase, probably, after but a little work, and certainly after a great deal.

Among horsemen the existence of spavin is not admitted until there is an external enlargement (jack), evident to the eye or hand; but the process by which the bony tumor is produced has been going on for a long time antecedent to the appearance of the spavin. Previously the only signs of the existence of this process are: the lameness, the heat in the hock, and the peculiarity in the action, which consists, for the most part, in dragging the toe near the ground. Now, the lameness generally goes off after the horse is a little heated by exertion; and the purchaser may be deceived unless he watch the horse very carefully while he is being shown.

After the bony tumor has appeared, lameness may be less evident; but the swelling may be perceived by comparing the inside of each hock with its fellow; when the swelling is on both it can only be known by comparing the unsound hock with a sound one. No one can judge an unsound hock until they know a sound one.

The enlargement is best felt by drawing the hand gently and slowly, first over the one and then the other hock. It is best seen from behind the horse, or from between his forelegs, having him stand equally on both behind. The toe of the shoe is often worn away in spavined horses.

Bone spavin in all cases constitute unsoundness. It is very true that many spavined horses work well, and for years without becoming actually lame; but their hocks are "tied" and they may be stiff, and especially so at starting, but there are a few that have spavins (jacks) of considerable size, and yet have neither lameness nor much stiffness. But it is quite impossible for any man to say how long they will remain thus. We cannot distinguish between those cases that will and those that will not produce lameness.

If a horse has been at full work for some time since the appearance of the spavin, and without lameness, it is probable that he may continue so, but it is by no means certain. G. E. W.

THE KENTUCKY FUTURITY.

The final appearance of display advertisement of this, the dean of all trotting colt stakes and the last call for entries will be found on another page of this issue. Most of our readers have doubtless already fully acquainted themselves with the liberality of its conditions and appreciate the many reasons why it is to the best interest of breeders to enter their every mare in foal in same, but we would urge those breeders who have let other matters crowd this splendid opportunity temporarily out of the way, to look into the question right now by reading the conditions in display ad. very carefully and make up their minds to nominate their mares before it is too late.

The closing date is April 1; the nomination fee is but \$5 per mare. A payment of \$10 Jan. 1, 1912, on weaning foals of same keeps entry good until year of race. In other words, no payment heavy enough to be of any consequence is required before a colt is two years old or over, or at a time when it is possible to actually determine whether or not he possesses speed and class sufficient to be a possible starter justifying further payment.

The Kentucky Trotting Horse Breeders' Association guarantees the value of the Futurity at \$26,000, and also a Gold Cup will go to the winner in the four-year-old division.

Three chances to win money are provided by the two, three and four-year-old divisions for trotters; also a three-year-old pacing division is included as usual.

Besides the above, many other up-to-date and attractive features too numerous to mention here make up the conditions and they will have to be read in full to fully appreciate same. Certainly if a colt is worth the stud fee, feeding, shoeing, handling, etc., he is worth an engagement in a \$26,000 stake possessing the fame and prestige of the Kentucky Futurity, and especially when it can be had at such small cost. Give the question serious and intelligent consideration and then make your entries on or before April 1, with J. W. Williams, Acting Secretary, Lexington, Kentucky.

Drink Jackson's Napa Soda.

DEMONIO 2:11¼.

While Chas. Derby 2:20 is making the season of 1912 at Patchen Wilkes Farm, Lexington, Ky., one of his best bred as well as most famous speed-siring sons is standing at the Suisun Stock Farm, where he has been for years. He is called Demonio 2:11¼, and for his age and opportunities is one of the best sires in California. Demonio has been bred to but thirty outside mares during his stay on this farm, and few of these were standard bred and noted as producers. The only good mares he really has had an opportunity of serving are those which were purchased years ago by Senator B. F. Rush from the San Mateo Stock Farm, yet Demonio has thirteen in the list, including: Mono Wilkes 2:03¼, Denervo 2:06¼, Nordwell 2:08½, Demonio Wilkes 2:09¼, Memonio 2:09¼, Ben Rush 2:10½, Miss Winn 2:12½, Mono Rose 2:13¼, Normona 2:14¼, Suisun 2:20, Friskarina 2:20. Only a few of his daughters have been used in the broodmare ranks, but like the daughters of Diablo 2:09¼, his full brother, they are demonstrating their worth. One of Demonio's daughter is the dam of Del Ray that in a work out as a three-year-old paced a mile in 2:05, the fastest in the world. Another is the dam of Zomblack, one of the stars of the R. J. MacKenzie string, and he will get a trotting record of 2:04 or better this year. Another daughter is the dam of Ulatis 2:24¼, a very promising trotter at Pleasanton. Demonio is out of Bertha, dam of thirteen in the list, leading all other broodmares, and she was by Alcantara 2:23, son of Geo. Wilkes 2:22, and Alma Mater (dam of 8) by Mambrino Patchen 58, etc. Demonio is a handsome bay stallion and in appearance and action is more like a three-year-old than any stallion of his age in this State. He is a sure foal getter and is one of our greatest color controllers, for none of his foals has any white markings. All his progeny are solid bays or chestnuts, they are perfect in disposition and are noted for their gameness. On the big Suisun Stock Farm there is abundance of feed and Mr. J. W. Haile, who has always had charge of Demonio, is one of the most careful of studmasters and never neglects mares sent to this horse or to that other stallion, General John F. Frisbie (brother to Tom Smith 2:13¼, Vallejo Girl 2:10¼, etc.), which he has in his care. There is not an owner of a Demonio colt or filly that is not proud of that ownership and takes delight in speaking of it. See the advertisement in this issue of this stallion.

WHAT DAISY S. HAS PRODUCED.

There are few mares bred in California which have been entitled to greater praise as matrons than Daisy S., bred and owned by Thos. Smith of Vallejo. In the Breeders' Edition mention was made of her descendants: Prof. Heald 2:09½, Vallejo Girl 2:10¼, Tom Smith 2:13¼, Gen. Vallejo 2:20½, Little Mac 2:27½ and Sweet Rosie 2:28¾; also of her sons Gen. J. F. Frisbie and Constructor. Last week an interesting letter was received from the Herbert Stock Farm, Denver, Colorado, in which further information was given of this mare. She was sold to this farm by Mr. Smith after being bred to Nutwood Wilkes 2:16½, and the produce was a full sister to Professor Heald 2:09½. Daisy S. died last year and this filly, known as Nancy Walton, was the last of her produce. Nancy Walton won the first and only race she ever started in last September at Colorado, trotting the last heat in 2:29¼, and this record she will undoubtedly lower this season. This makes Daisy S., by McDonald Chief, out of Fanny Rose, by Ethan Allen Jr., the dam of seven in the 2:30 list. So owners of foals by any of her sons can point with pride to the fact that she is the greatest broodmare that traces to Clark Chief and also to Ethan Allen 2:25½. The proprietor of the Herbert stock farm is to be congratulated upon owning such a good mare as Nancy Walton.

OAKWOOD PARK FARM IS SOLD.

Last week Mr. John F. Boyd, proprietor of this world-renowned stock farm, sold it to R. N. Burgess, of Walnut Creek, for \$350,000. The buyer intends to divide its 5500 acres into smaller tracts and throw it upon the market. Situated as it is in the very best walnut and almond growing section of California there are hundreds of acres which will yield prolific crops of these nuts for the soil and climate are peculiarly adapted for their growth as well as other nut-bearing trees, fruits and vines. The larger portion of this farm, consisting of the lands on the side of Mt. Diablo and its foothills are fit for grazing. There are over forty-five miles of piping on this place, the water supply coming from springs far up on the mountain side whence it is conveyed to an immense reservoir with a capacity for holding millions of gallons of water, thence to the farthest portions of the farm. No doubt there will be scores of families make their homes on this farm and the magnificent barns (the best in California), fields, paddocks and stables which were once occupied by Steinway 2:25¼, his son, Chas. Derby 2:20, and the hundreds of grandly bred trotting mares, colts and fillies which made this place renowned, will be used for other purposes; and thus another of the leading nursery places of California champions will pass away and of which it can be truly said, "Naught but memory remains."

The Year Book for 1911 has reached us and will be reviewed next week.

EXPRESSIVE MAC 2:25¼.

There are few McKinney stallions on the Pacific Coast which have a greater claim upon the breeders of light harness horses than the handsome blood-like trotting horse and sire Expressive Mac. He is a splendid individual and has everything in his favor, size, color, substance, quality, finish, conformation, disposition and a bloodline heritage that enables him to transmit all his qualifications to his progeny. His dam was that wonderful speed marvel, the greatest three-year-old that was ever bred in California, Expressive 2:12½, by Electioneer 125. When placed in the breeding ranks producing besides this stallion Expressive Mac 2:25¼ (sire of that good campaigner, Vera Hal 2:07¼, trial 2:05¼, and Eddie Mack 2:29½), Atlantic Express 2:08½, holder of the world's record for three-year-old stallions in the fourth heat, Esther Bel 2:08¼, champion five-year-old trotting mare of her year, Elsa Bellini 2:25¼, and Eva Bellini, trial 2:10. Two of her sons sired four and one of her daughters produced three in the 2:30 list. Expressive was out of Esther, one of the purest trotting gaited thoroughbreds on the Palo Alto Stock Farm, and she transmitted this in a great measure as well as her gameness to her produce for she has four trotters, two sires of six and six dams of twelve to her credit; truly a remarkable showing. Esther was by Express, he by Endorser, son of Wagner by Sir Charles out of Fanny G. (grandam of Alma Mater, dam of Alcynoe 2:27, etc., and great grandam of Palo Alto 2:08¼, etc.), by Imported Margrave. Endorser's dam was Nantura by Brawler's Eclipse; grandam Queen Mary by Bonnie Scotland. Esther's dam was Coliseum by Colossus (son of Imp. Sovereign and a mare by Imported Glencoe); second dam Capitola by Vandal (sire of grandams of nine in 2:30) he by Imported Glencoe; and Capitola's dam was by Imported Margrave, one of the most valuable sires which can appear in either the pedigree of a light harness horse or a thoroughbred race horse and Expressive traces twice to him.

Expressive Mac is a worthy representative of the Wilkes-Electioneer cross through the greatest descendants of these two sires, and at the low service fee of \$25, Mr. J. H. Nelson, of Selma, his owner, should have no trouble in getting his book filled.

DICK WILSON BUYS MAURICE S. 2:07¼.

Maurice S., one of the fastest pacers on the Pacific Coast and born and raised on the J. E. Strain ranch ten miles north of Marysville, was sold Saturday by the owner, J. E. Strain, to Richard Wilson, a horse trainer of Pleasanton. The price paid for the animal was not given out by either of the parties, but it is believed to be about \$2000.

Maurice S. was sired by King S., also owned by J. E. Strain, and dam by a Lochinvar mare. He was trained on the Marysville track by William Duncan and made his mark of 2:07¼ on the local track last season during the Pacific Coast circuit meet. Before last season's racing Mr. Strain demanded \$3500 for the horse.

Maurice S. has size, style and speed and has every qualification to make him one of the greatest of horses. He was one of the most consistent race horses in California last season. He will be taken to Pleasanton by Mr. Wilson where he will be put down to some good, hard training and will then probably be taken east and raced over the grand circuit.—Marysville Appeal.

RACE MATINEE AT PLEASANTON.

Pleasanton business men and race horse owners and trainers have arranged a matinee to be held some time the early part of next month, probably about April 13. Final announcement of the date will be made within a day or so.

Four cups, one from H. Arendt & Co., one from W. T. McBride of the Rose Hotel, one from W. W. King of the billiard hall and one from the Chamber of Commerce, have been hung up as prizes and Mr. Bailey, owner of the track, promises to carry out the other arrangements necessary to make the afternoon a success.

It is also planned to hold another matinee about a month later. The movement is a good one and will result in the people of the district and many outsiders attending same, the past two or three years few matinees having been arranged.

The Pleasanton training park is being put into first class condition and Mr. Bailey is improving the grounds as fast as is possible.

The matinee was suggested by the Chamber of Commerce and a committee from that body is working the affair up.

N. T. A. BOARD OF REVIEW.

A special meeting of the Board of Review will be held at the Murray Hill Hotel, New York, N. Y., at 10 o'clock A. M., on Tuesday, May 7, 1912, by order of the president.

All communications intended for the consideration of the board at the May meeting must be forwarded to the secretary not later than April 19.

The Board of Review is empowered to act in place of the full board with the same authority and jurisdiction, and at the above meeting will consider business arising in each and all of the districts.

W. H. GOCHER, Secretary.

ENCOURAGING AGRICULTURAL EXHIBITS.

At the Twenty-Sixth Congress of the National Trotting Association, J. C. Pogue, Secretary of the North Carolina State Agricultural Society of Raleigh, N. C., called the attention of the members present to the following bill, which was introduced in Congress January 15, 1911, by the Honorable John A. McGuire:

H. B. No. 18,005.—An act to provide for the encouragement of agriculture, horticulture and industrial exhibits in the various States:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

Section 1. That there shall be, and hereby is appropriated out of the money in the treasury, not otherwise appropriated, the sum of one hundred thousand dollars (\$100,000.00) to be paid, as hereinafter provided, to each State for the purpose of promoting and encouraging the agricultural, horticultural and industrial interests therein by means of the construction and erection of suitable buildings to be used solely for the display of agriculture, horticulture, machinery or industrial exhibits.

Sec. 2. The appropriation herein made shall inure only to the use of those States which now, or hereafter shall, by statute, recognize and make appropriation toward the establishment and support of a State fair or exposition upon land owned by and under control of the State or a State board created by legislative enactment, and no money shall be paid out under this act to any State failing to comply with the above provisions.

Sec. 3. Upon proof satisfactory to the Secretary of the Treasury being furnished by the Governor of any State that said State has complied with the provisions of this act, and is entitled to the use and enjoyment of said appropriation, the same shall then be paid by the Secretary of the Treasury out of the treasury of the United States, to the State treasury of such State, who shall receive and set the same aside as a fund to be expended solely for the purpose provided for in this act.

Sec. 4. The appropriation herein made shall be expended for the purpose designated in this act within two years after the receipt thereof by the State accepting the same, and said building shall be completed within two years. A full and complete report of said building, setting forth the expenditures in detail, shall be made by the Governor of said State upon completion of said building, one copy of which report shall be filed with the Secretary of Agriculture of the United States, and one copy with the Secretary of the Treasury of the United States.

Sec. 5. The government of the United States hereby reserves not to exceed twenty per cent of space within said building so erected for departmental exhibits, providing, not less than thirty days' notice is given prior to the opening of said fair or exposition.

Sec. 6. The appropriation authorized by this act is made subject to the legislative assent of the several States to the purposes of this act.

A motion was also made and carried that the members present be requested to acquaint themselves with the above bill, and urge their representatives in Congress to support its passage.

REDUCINE IS THE HORSEOWNER'S PANACEA.

There may be many articles advertised as liniments, blisters, healing oils, etc., which have been tried by horsemen and found absolutely useless if not harmful, but no one who has ever used Reducine can say this. It has stood the severest tests and accomplished all that has been claimed for it. If it were not it would have long ago been crushed out of existence by the army of knockers who, through professional jealousies or their admiration for some other remedy, would not hesitate to proclaim it the biggest fraud ever imposed upon horsemen. But time has proven and experiments have demonstrated that Reducine is one of the greatest discoveries of the age. Every man who has had occasion to use it acts as a traveling agent for it. Their recommendations, if honestly given, have caused others to buy it and they in turn have gone on spreading the gospel. It is humane method for curing ailments of horses' legs and since it has been used firing irons have fallen into disuse. Reducine is a panacea for all the inflammations which cause horses to limp and become useless. It can be applied by a child and its curative effects are lasting. No stable can afford to be without it, for one \$4.00 can will oftentimes save a veterinarian's bill amounting to hundreds of dollars.

LIGHTFOOT, BY FLAXTAIL.

Editor Breeder and Sportsman:

Lightfoot was the fastest Flaxtail ever foaled. My father always claimed she was the best, but she happened to be one of the unlucky kind. She has none of her produce in the 2:30 list but Pearl, by Blue Bull, has a mark of 2:34¼ and worked out in 2:27. Pride worked a mile as a two-year-old in 2:26, but was taken sick and died before she had an opportunity to enter the list. But Lightfoot had four speed producing daughters by four different sires. I drove Lightfoot in 1871 over a half-mile track a quarter in 30 seconds, to a hundred-pound sulky, although I didn't want to but really I couldn't hold her. Mr. Alfred H. Cohen, of Alameda, had two of Lightfoot's daughters and both produced 2:30 performers.

Yours truly,

LOU HICKS.

The Salinas Driving Club held a meeting at the City Hall last Saturday evening. Present, President Anderson, Secretary Nichols and fourteen others. It was decided to hang up two \$100 purses for the May meeting, and to have no races on Sunday under the auspices of the club. Members may do all the informal driving they please on Sunday, as on other days. On Tuesday President Anderson, Secretary Nichols, Messrs. J. M. Hughes, H. H. Hellman, Mr. Stark and others visited Watsonville to get horsemen there interested.

BINGEN 2:06 1/4 IS SOLD.

Bingen 2:06 1/4, the sire of Uhlán 1:58 3/4, and about 61 other 2:30 trotters and pacers have just been purchased by Daniel M. Look of Greenwich, Conn., who last fall paid James R. Keene \$225,000 for Castleton, a 1000-acre stock farm near Lexington, Ky. To this farm Bingen will be sent early this week, along with the band of brood mares and colts now located at Ardmaer Farm, near Somerville, N. J., the property of William R. Bradley, who is selling out his trotters in order to make room for the new enterprise of fattening and preparing for the Eastern market young mules and draught horses purchased in the West. Including Bingen, the sale included 49 head of horses and the price paid is said to have been about \$100,000. Following is a list of the mares; besides these there were 12 yearlings included:

Blondella (Blonde), by Sir Walter Jr., 2:18 3/4, the dam of the world's champion trotting gelding Uhlán 1:58 3/4.

Wilcaleta, a young daughter of Baron Wilkes 2:18, and Miss Caleta 2:29 1/4 (dam of Lady Caleta 2:15 1/4, and Axworth (2) 2:24 1/2, etc.), by Bingen 2:06 1/4.

Society Baroness 2:18 1/4, by Oakland Baron 2:09 1/4 (Kentucky futurity winner, and sire of Rhythmic 2:06 3/4, Lady Gail Hamilton 2:06 1/4, etc.), dam Society Girl (dam of 4), by Prodigal 2:16; granddam Sciota Girl, p., 2:15 1/4, by Amhassador 2:21 1/4.

Sweet Mateo, by San Mateo (4) 2:13 1/4, dam Euxine (3) dam of Euxenite 2:11 1/4 and 5 others, by Axtell (3) 2:12; granddam Russia 2:28, own sister of Maud S. 2:08 3/4; third dam Miss Russell, "the greatest brood mare of all time."

Dreamwold Devil Girl, by Dare Devil 2:09, dam Dreamwold Brownie, by Ashland Wilkes 2:17 1/4; granddam Annie Brown, great brood mare, by Ashland Chief 751.

Aflame, a daughter of Alert (son of Hambletonian), dam Aglow by Advertiser 2:15 1/4.

Jessie Moko, by Moko, dam Vermillion, dam of Violon 2:29 1/4, by Red Chute 2:24 1/4; granddam Millionaire, dam of Susie J. 2:06 1/2, etc., by Norwood; third dam Susanne (also dam of Medium's Last, who produced Trampfast (2) 2:12 1/4, etc.), by Countersign.

Dreamer's Dawn, by The Dreamer (3) 2:14 1/4, dam Rosy Morn, dam of Beausant, p., 2:06 1/2, Matin Bells, p., 2:06 1/2, Boreal (3) 2:15 1/4, etc., and granddam of Emily Ellen (3) 2:09 1/4, etc., by Alcantara (4) 2:23.

Lady Rossie, by Baron Wilkes 2:18 1/4, dam Marinette, dam of four, by Director 2:17; granddam Pantalette, dam of the good sires Escobar 2:13 1/4, Epaulet 2:19, etc., by Princes.

Allie Watson, by Allerton 2:09 1/4, dam Lina Watson, dam of Watson 2:06 1/4, etc., by Elk Nutwood.

Suzette Baron 2:15 1/4, a good colt trotter, by Baron Wilkes 2:18, dam Suzette 2:14 1/4, dam of four, by Nelson 2:09.

Harvest Girl, own sister of the world's champion trotting stallion The Harvester 2:01, by Walnut Hall 2:08 3/4, dam Notelet, by Moko.

Lillian King 2:21 1/4, by Prodigal 2:16, dam Naomi, dam of three, by Onward 2:25 1/4.

Pleasant Thought 2:21 (sold for \$10,300 as a yearling), by Prodigal, dam Extasy (3) 2:11 1/2, by Baron Wilkes; granddam Ethelwyn 2:33, dam of Ecstacy, p., 2:01 1/4, Ethel's Pride 2:06 3/4, Impetuous (3) 2:13, etc., by Harold.

Cioclara, by Bellini 2:13 1/4, dam the \$10,300 yearling Miss Previous, by Ponca de Leon 2:13.

Sorrento Moko, by Moko, dam Sorrento, dam of Sorrento Todd 2:11, Jayhawk (3) 2:14 1/4, The Bondsman, The Tramp, etc., by Grand Sentinel 2:27 1/4.

Ella Worthy, by Axworthy (3) 2:15 1/2, dam Indale, dam of Dale Axworthy, sire of Burt Axworthy (3) 2:15 1/4, by Allerton 2:09 1/4; granddam Elloree 2:08 1/2, also granddam of Deloree 2:09 1/4, etc., by Axtell (3) 2:12.

Consuela S. 2:07 1/4, winner of the \$15,000 Massachusetts stake, etc., by Directum (4) 2:05 1/4, dam Daisy Nutwood, by Nutwood 2:18 3/4.

Coffee, by Moko, dam Tellmea, by Axtell (3) 2:12; granddam Nemea, dam of four, by Nutwood 2:18 3/4.

Morningale, by Baronmore 2:14 1/4, dam Gale 2:21 1/2, also dam of the promising young sire Ongale, by Don Wilkes 2:24 1/4; granddam Nightingale 2:10 1/2, also dam of Barongale (4) 2:11 1/4, sire of Justice Brooke (3) 2:08 1/2, by Osgood's Patchen; third dam Mabel, dam of Cresceus 2:02 1/4, etc., by Mambrino Howard.

Sweet Marie 2:02, the queen of trotting race mares, and winner of \$45,500 in stakes and purses, by McKinney 2:11 1/4, dam Lady Rivers, by Carr's Mambrino.

Not since John E. Madden, in 1895, purchased the entire stud of W. C. France, embracing Red Wilkes, Allie Wilkes 2:15; Sentinel Wilkes 2:20 1/4; Martha Wilkes 2:08, and other equine celebrities, has so large a deal in trotters been effected at private sale.

A notable feature of the transaction was that Mr. Look bought the horses on the representations of Mr. Bradley and his agent before seeing the animals. The deal was made in less than five minutes in the morning in the office of the Bradley Contracting Company, New York city, and the new owner spent Saturday afternoon looking them over at Ardmaer Farm. He was more than pleased with the condition of stallion, mares and colts, and declared after inspecting them that they were even better than represented.

Bingen, now at the beginning of his nineteenth year, is the sire of about 100 trotters and pacers in the 2:30 list, and of more than a dozen in the select 2:10 list, while his sons, Todd, 2:14 1/4, Bingara and the rest are already the sires of 150 more. His won-

derful success has been accomplished in the North, where no trotting sire since Rysdyk's Hambletonian has left such an impress on the breed. What he will do in Kentucky is a matter of conjecture, but if he is as much more successful there as George Wilkes, Dictator and others have been, he will lead the list of sires in a few years more.

Bingen trotted a public trial in 2:12 1/2 as a two-year-old in Maine, and gained a record of 2:12 1/2 at 3 years old. At 5 he lowered the mark to 2:06 3/4, and 6 to 2:06 1/4. Mr. Bradley bought Bingen about three years ago, paying something like \$40,000 for him. He is a brown stallion, 15.3 hands high, by May King 2:20, son of Electioneer, dam Young Miss, by Young Jim, son of George Wilkes 2:22.

The new owner of Bingen and Castleton is a Kentuckian and a son of the late Samuel J. Look of Louisville, who at one time managed the famous Glenview Stock Farm of J. C. McFerran. The younger Mr. Look in 1884 graduated at Princeton University, where he was president of the football association. Going to New York in the same year, he became a clerk in the old A. T. Stewart store, now John Wanamaker's, at \$25 a month, and while working in this capacity was invited to act as referee in the Harvard-Yale football game. After serving a short time at Stewart's Mr. Look entered the employment of James Talcott, selling agent for many of the big New England woolen mills.

Here he remained as employe and partner until January 1, 1912, when he retired, not yet 50 years old and a millionaire. His interest in the trotting horse has been lifelong, and his admiration of the Bingen family is not without particular reason. With Emily Ellen, a three-year-old filly of his own raising and a daughter of Todd, the son of Bingen, he won the \$15,000 Horseman's Futurity at Detroit and several other rich stakes in 1910. Mr. Look lives at Greenwich, Conn. He intends hereafter to spend much of his time at Castleton breeding and developing young trotters.

DEATH OF ALCRYON, 2:15.

Alcryon 2:15, sire of Alcyfras 2:03 1/4, formerly owned in Boston, died at Sanford, Maine, on March 3.

Alcryon 7478 was first registered as Alcryon 2834. He was a gray horse foaled in 1882. Sired by Alcyone 732, 2:27, dam Lady Blanche (dam of 2, two producing sons and one producing daughter, Blanche Ward, dam of China Maid 2:05 1/4), by Privateer 258; second Jenny Lind, by Abdallah 15; third dam Lady Wisner, by Saltram, pacer, son of Kentucky Whip. He was bred by T. H. McCoy, Louisville, Ky., passed to Vincent C. Cromwell, Lexington, Ky., then to F. L. Noble, Grand Rapids, Mich., then to George G. Robens, then of Grand Rapids, now of Sanford, Maine.

He obtained his record of 2:15 over the Kent County Fair grounds mile track (south end) Grand Rapids, September 18, 1891, defeating the bay mare Ripple 2:17 1/2, in straight heats, time 2:19, 2:15.

In 1889, when but seven years of age, and not considered good or dangerous in his class, owing to his sickness early in the season, his name appeared at the head of the summaries of \$5000 and \$10,000 purses at Buffalo, Poughkeepsie, Hartford and Springfield, winning in one, two, three (with the exception of the first heat) at remarkable speed and great race horse qualities. In these four great races he defeated 31 of the most prominent horses on the turf, including Nelson 2:09, and Jack 2:12, trotting ten heats below 2:19, hitched to high wheels.

No purer-gaited trotter ever turned for the word or ever will, and no brother scribe of my acquaintance was able to keep his eye on his book whenever Alcryon appeared in motion before him, says Ward in "Horse Review." He expected applause, he looked for it and he got it from men, women and children by the thousands wherever known or introduced. Opportunities considered, he certainly is entitled to take his place in the front ranks of noted sires. He is credited with 28 trotters and nine pacers with standard records, three producing sires.

Among his fastest record performers are Alcyfras 2:03 1/4, Alton 2:09 1/4, May Bird 2:08 3/4, M. R. 2:09 1/4, Amos R. 2:09 1/2, Nell Gwynne 2:10 3/4, Alcrane 2:11 1/4, Alamazoo 2:12 1/4, Nanco 2:14 1/4 and 10 others faster than 2:20. His sons have sired Sylviaone 2:09 1/4, and his daughters have produced eight faster than 2:20, including Peggy from Paris 2:12, and W. O. B. 2:13 1/4.

STATE AGRICULTURAL SOCIETY.

At a meeting of the board of directors of the State Agricultural Society held last Wednesday the old board of officers were re-elected: A. L. Scott, president; Ben F. Rush, vice president, and C. Allison Telfer, secretary.

General subjects pertaining to the conduct of the next State fair were discussed and a report from Manager of Exhibits J. A. Filcher was received, in which the assurance was given that twenty-four counties had promised to show at the fair this year and that many more promises to exhibit would be obtained. More counties will have exhibits at the fair this year than ever before in the history of the State, many counties like San Mateo, Santa Clara and Contra Costa are now preparing exhibits of products and manufacturing industries.

Committees for the various departments will not be appointed until Governor Johnson selects a successor to E. Forrest Mitchell, whose term expired last February.

RAISING TROTTERS IN MARYSVILLE.

The breeding of good horses is to be one of the important industries of this county, which has been chosen on account of its advantageous location and its salubrious climate. A specialty is to be made of the breeding, raising and development of light harness horses.

Marysville and the surrounding country has always been an important location for the training and breeding of horses and the name of our city has been placed on the sporting map largely through the many good horses that have come from this community which have shown to particular advantage in contests that tried the mettle of the classic equine. The surrounding country has always attracted the attention of horse lovers and breeders, largely through the record and reputation that it has gained and another evidence is the fact that another large stock farm is to be located at this point. The new industry is virtually a removal of an old industry from the Middle West, which has always been one of the important breeding points of the country to this location on account of the superior advantages that our surroundings enjoy and without doubt this is but a forerunner of what might be one of the important industries of the State. Mr. Frank B. Loomis has recently come from Minnesota and intends to locate his breeding farm in this vicinity. He has trained one of the best horses that has been on the tracks of the country and has always been prominent on the Grand and Great Western circuits. He contemplates embarking in the business on a large scale and will undoubtedly have horses on his farm that will carry the name of our city and show the products of our climate in all parts of the country. There is no reason why this section of the nation should not become as famous as Kentucky was in the days of old in the annals of horse, as we have as good climate and surroundings as any place on the globe. At least we have the recommendation of Mr. Loomis, who has trained such noteworthy performers as the following pacers: Lottie Smart 2:07 1/2, Carbonate 2:08, Nettie Jefferson 2:10 1/4, Shelach 2:12 1/4, Jess C. 2:12 1/4, Stratton 2:10 1/4, Milkceps 2:10 1/4, Allen Oh So 2:12 1/4, Bill Bailey 2:08 3/4, and the following trotters: A. L. Kemplin 2:17 1/4, Metzlar 2:14, Early Reaper 2:09 3/4, Nellie Anason 2:14, Teddie Oh So 2:15 1/4 and Frank Clayton 2:16 1/4; Dudie Eggmont (the dam of Dudie Archdale) 2:13 1/4, Susie Gentry 2:13 1/4.—Marysville Appeal.

THE W. G. DURFEE SALE.

The sale of trotting stock belonging to Wm. G. Durfee was held at Los Angeles last Wednesday. The prices realized were far lower than were expected. Mr. I. L. Borden of this city was in attendance and bought three. Chas. Durfee was also there and bought Zulu Belle. Following were the prices received. The names of all the purchasers we did not receive at the time of going to press:

| | |
|--|--------|
| Del Oeste (4) b. c. by Del Coronado 2:09 1/2—Little Agnes by Gossiper | \$ 800 |
| Zornwolsey (7) b. s. by Zombro 2:11—Queen by Woolsey (W. A. Holcomb) 2:10 1/2 | 355 |
| Zulu Belle (6) bl. m. by Petigru 2:10 1/2—Johanah Treat (Chas. A. Durfee) | 700 |
| Hastings (4) b. s. by Del Coronado 2:09 1/2—Sappho 2:15 1/2 by Robert McGregor 2:17 1/4 | 250 |
| Wilkes Boy Jr. (9), b. s. by Wilkes Boy 2:24 1/4—Carona by Liberty Bell 2:24 | 370 |
| Tom Moko (6) b. s. by Moko—Hazel Nutwood by Nutwood 2:18 3/4 | 1210 |
| Beatrice Zombro (7), b. m. by Zombro 2:11—Atherine 2:16 1/2 by Patron 2:14 1/4 (Chas. A. Durfee) | 215 |
| Consuelo B. (3), br. c. by Del Coronado 2:09 1/2—Atherine 2:16 1/2 by Patron 2:14 1/4 | 125 |
| Fulton G. (2), b. c. by Carlokin 2:07 1/2—Beatrice Zombro by Zombro 2:11 (I. L. Borden) | 280 |
| Regalo (3), b. c. by Nutwood Wilkes 2:16 1/2—Ludena by McKinney 2:11 1/4 | 550 |
| Princess Redac (4), c. f. by Redac 2:07 1/2—Princess Louise 2:19 by Del Coronado 2:09 1/2 | 250 |
| Selma Belle (3), by Peacock (by Iran Alto 2:12 1/2) dam Hanford Belle by Col. K. R. 2:19 1/4 | 130 |
| Mary (3), b. f. by Star Pointer 1:59 1/4—Leonor McKinney 2:08 by McKinney 2:11 1/4 | 160 |
| Gold Lily (2), b. f. by Copa de Oro 1:59—Lilly Mc. 2:24 1/4 by McKinney 2:11 1/4 (I. L. Borden) | 550 |
| Carlos (2) bl. g. by Carlokin 2:07 1/2—My Irene S. by Petigru 2:10 1/2 (I. L. Borden) | 1000 |
| Acclaim (2), bl. f. by Carlokin 2:07 1/2—Lady H. 2:16 by Del Coronado 2:09 1/2 | 250 |
| Blanche (1), br. f. by Directum Penn 2:12 1/4—Caroline C. by Axtell 2:12 | 200 |
| Vassalite (2), ch. s. by Vassar 2:07 1/4—Queen by Woolsey | 100 |

| Bay gelding (1), by Del Coronado 2:09 1/2—Annabelle Loftus by Hambletonian Wilkes | 50 |

The pride of ownership hangs a curtain of ill judgment before the eyes of many a breeder and owner. The lame pauper polishes his crutch, or his fishing rod, with the same sort of pleasure that the horseman rubs and bandages his favorite trotter, or the man with gasoline on the brain tinkers with his auto. It is the pride of ownership. Not a few horsemen are so married to their steeds that they are totally blind to faults of conformation, breeding or disposition, faults they could see in a minute if it were the other fellow's horse. He is a broad-minded man who can go into the show ring, for instance, and take a beating with a good grace, acknowledge the superiority of the animal that outpointed his own. One never hears a man of that caliber wasting time making excuses or mourning over disappointments. He is the good sport. It is right and worthy to boost one's own horse, but when he gets so biased through ownership as to be absolutely blind to the animal's imperfections, then he is in line for disappointment.—Spirit of the West.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

PROGRESS OF THE HUNTING SEASON.

The Secretary of Agriculture has received the following report from the Biological Survey on the condition of game during the past month: Continued cold weather during February has had a serious effect on game in many sections of the country and has affected the shipment of birds to a marked degree. Importations of quail from Mexico which were frequent in the early part of the winter have fallen off and shipments of wildfowl to market have been delayed until milder weather. In Southern California a prominent ducking club in Orange County has secured the co-operation of most of the clubs in the vicinity in refraining from shooting after February 15th. This action, which might well be followed by clubs and sportsmen elsewhere, has had the effect of practically closing the season on wildfowl in one of the most important ducking centers in the State some weeks before the date fixed by law.

The quail disease which was discovered in 1907 has recently reappeared in a shipment of birds from the Southwest and has been reported from Connecticut. This disease is a highly infectious one and apt to spread rapidly among any birds exposed to it. Sportsmen and others interested in introducing quail should report promptly in case any of the birds they purchase die en route.

The hunting season practically closed on March 1st, even in the South. In some States the season nominally remains open a month or two longer, but usually only for migratory birds. In a season like this, when birds are returning north after a hard winter, sportsmen would do well not to take advantage of the privilege of hunting in the spring. March 1st marks the closing of the season for sale of imported game in New York, and for hunting game in the following States: In Alabama for squirrels, quail and doves; in Arkansas for quail; in California and Colorado for shore birds and waterfowl; in Florida and Georgia for quail and wild turkeys; in Louisiana for dove, woodcock, wood duck and black duck; in Mississippi for all game except wild turkeys; in many of the counties of North Carolina for quail, wild turkeys, doves, larks and robins; in Oregon for shore birds, rail, geese and swans; in South Carolina for doves, willets and wood ducks; in Tennessee for upland game birds and meadow larks; and in West Virginia for snipe.

Plans for propagation are now attracting attention. The supply of quail as usual is entirely inadequate to meet the demand, and such birds as are now on the market are usually Mexican birds, ill adapted for northern covers. Pheasants and partridges are being imported to some extent, but the latter bird is not as popular as it was two or three years ago. The Game Commission of Pennsylvania has recently secured some of the large deer from Northern Michigan for liberation. The elk in Jackson Hole have thus far wintered well and comparatively few deaths even among the calves have been reported. Hay in abundance is being fed both by Federal and State authorities. The Department has arranged for the transfer of several small herds of elk to suitable localities in adjoining States with a view to reintroducing elk in several of the Western States where they were formerly abundant. Shipments have already been made to National Forests in South Dakota and Utah, and others will follow shortly to National Reservations in Oregon, Montana and Oklahoma. The plans for 1912 contemplate the transfer of small herds from Jackson Hole to suitable localities in six of the Western States. One new National Bird Reservation, comprising a small island near the mouth of Green Bay, Wisconsin, was established by executive order on February 21st.

In nine of the Eastern States whose legislatures are now in session interest is concentrated on the measures now under consideration for securing greater protection to the game. A bill providing a resident license in South Carolina has failed, as has also a measure providing for the establishment of a State game warden or commissioner in Mississippi. The bill removing the robin from the game list in Virginia and giving it protection throughout the year has passed both houses of the legislature and was approved on February 29th. Game commission bills are attracting considerable attention in Kentucky and Virginia and the codification bill in New York is perhaps the most important game measure under consideration in that State. Bills providing for the New York system of tagging game have been introduced in Massachusetts and New Jersey.

Millions of Salmon Eggs.—The annual report of Fish Commissioner Bowers for 1911 states that during the year 32,950,000 eggs of Chinook salmon and 2,159,000 eggs of silvery salmon were allotted by the U. S. Fisheries Bureau to the California Fish and Game Commission; 25,000 rainbow trout eggs, 75,000 brook trout eggs, and 235,000 black-spotted trout eggs were allotted to the Nevada Fish and Game Commission and nearly 5,500,000 salmon eggs were allotted to the Oregon Fish and Game Commission.

POISONOUS MUSHROOMS.

At the California Anglers' Association club rooms, a few evenings ago, that good sportsman and consistent angler, Herman Cohn, appeared after a day spent fishing for steelhead in Tunitas Glen creek down on the San Mateo ocean shore. Cohn told briefly of his day's outing to a quartette of members playing solo and deposited a large box on a nearby table.

The box contained about eight quarts of delicious button mushrooms gathered during the day. The box was placed at the disposal of those present, divided with promptness and dispatch, taken home and in due course were served at table. The kindly forethought of Cohn was doubly appreciated when the mushrooms were partaken of, for they were very good.

And this leads up to our story. The angling fraternity are indefatigable mushroom hunters. Take the Wingo section in Sonoma county, for instance hundreds of pounds of mushrooms have been brought home by scores of striped bass anglers. The rod devotees generally are experts in picking the edible fungus and avoiding the dangerous growths, for we have yet to hear of disaster through this source. There is a chance, at all times, of making a mistake and in this respect we deem it timely to quote Mr. William J. Stetchell, professor of botany, University of California:

I deem it of great public importance, in memory of the recent tragedy at Sebastopol, to make known to the people the danger that attends the use of mushrooms by persons unable to distinguish between the edible species of mushrooms and the poisonous species of toadstool.

I have received a specimen chosen from the lot that brought several deaths into the Sebastopol family. Unfortunately, the specimen when it reached me was not perfect. One portion on which a scientific judgment would in part be made was damaged. But I am morally certain that the Sebastopol deaths were due to eating the species known as the death cup. That is one of the most deadly of the genus, and one that any person without the requisite knowledge may mistake for a mushroom.

The fact is that there is no way to tell the poisonous from the edible species except to know them. There are so called tests which are not tests at all. It is commonly believed that a silver coin left with the plants in cooking, will remain clear if they be mushrooms, and turn black if they be toadstools. There are in fact varieties of toadstool which will not discolor the coin, or other silver implement; and there are edible mushrooms which will so discolor. It is also reputed that mushrooms may be peeled from the surface. That is equally false; it applies to both mushrooms and toadstools with the same fairness. Persons who have the knowledge may recognize the various species, may identify them by their characteristics; there is no other way. Consequently, people who eat mushrooms always take risks.

The most natural thing to ask is whether anything can be told as to the edible or poisonous properties from the color. We find many toadstools that are decidedly brilliant in color—reds, greens, purples, and yellows; but the majority are perhaps more soberly clad in browns, dull purples, grays and dull whites. We are told that the bright colored ones are usually poisonous, and some even go so far as to say that the converse of this is true, viz: That the dull colored species are edible. But neither of these is of much value as practical rules, for many of the duller colored species are decidedly poisonous, while some of the very brightest ones are safe and delicious eating.

We should always be suspicious of those which are either green or bright red, as well as those of a brilliant white. With very few exceptions, such species are poisonous, but the color varies so markedly in different individuals of the same species that we must be careful about laying stress upon this. For example, the fly agaric, one of the most poisonous species of all, may be either bright red upon the top or light yellow.

We are told in some of the very best books on the subject that the fresh flesh of the edible species has a pleasing, nutty flavor, while the flesh of the poisonous species has an acrid or bitter taste, or perhaps tastes disagreeable in some other way. The truth of this really is that most of the acrid and bitter species are poisonous; yet a few of them are esteemed as edible, while many of the distinctly poisonous species have no noticeably disagreeable taste to bear witness to their dangerous properties.

A botanical rule which is fairly certain is this: Avoid eating those which have a volva, a ring and white gills. The volva is an outer covering inclosing the whole toadstool when young, but rupturing as the cap and stem expand and remaining at the base of the stem as a sort of sack. There is no mistaking this structure in *Amanita phalloides*, but in a muscaria, however, the volva fits tightly to the base of the stem and is not conspicuous. A portion of this volva may be seen at maturity still adhering to the upper surface of the cap in the

form of scales. The ring is situated upon the stem and is simply a portion left behind when the cap, which in the younger stages is adherent to the stem, ruptures and frees itself from it.

It is a quite prevalent idea that if toadstools are eaten by insects or snails they can not be poisonous. This is far from being true. Both insects and mollusks possess digestive and nervous systems very differently from ours in the matter of susceptibility mollusks possess digestive and nervous systems very poisonous toadstools eaten by them. If, however, higher organizations such as cattle, hogs, etc., eat of particular toadstools without injury to themselves, it is fairly safe for man to imitate them.

FISH LADDERS IN KINGS RIVER.

The much talked about new fish ways at the upper and lower Empire weirs in the lower Kings river, seven and ten miles from Lemoore, are completed and a successful working demonstration has been made, reports District Deputy Commissioner Andy Ferguson of Fresno. At the test trial were Assemblyman W. F. Chandler and Deputy Commissioner E. W. Smalley, who supervised the construction and made the demonstration. The fishway was constructed at the expense of the Empire Land Investment Company under direction of the State Fish and Game Commission and making use of a novel and practical idea suggested by Civil Engineer Hammett of Miller & Lux.

"In the construction of these fishways at the two weirs we were confronted by conditions which probably do not exist elsewhere in the state," said Deputy Ferguson, "and for that reason we had to proceed on original lines and devised what is practically a new thing in a fish way. The temporary way which we had last year near the old waste weir permitted the active fishes such as the pike, black bass and perch to ascend the stream and while it was intended also by means of the under surface opening to permit catfish to ascend and many undoubtedly did, yet the water pressure in this under surface opening representing in hydrostatics the pressure of a column of water 8 feet high over the inlet opening in the face of the weir, made it impossible for the more sluggish catfish to make its way against that pressure. The new fishway is a combination underflow and overflow.

"The fish ascending the lower Kings river during the spawning period are mainly from Tulare lake and the quantity that ascends from the lake is almost incredible. The water is black with catfish, some of them weighing as much as 12 pounds each. Last year a hue and cry was raised over the destruction of fish in the pools below the weirs during the run. It is true that the people of four counties came to the weirs in vehicles and autos to fish, the number congregated being as high as 500 at a time and never less than 200 in a day. Fish were caught with hook and line by the thousands and so black and alive with fish were the pools that the unsportsmenlike used snag hooks and hooked them out of the water just by dropping the snag and yanking up a struggling and maimed fish.

"Our deputies who were on the scene to prevent breaking of the law kept on account of the quantity of the fish caught and their report was of a catch of 100 tons in one month. We could not prevent the use of the snag hooks because the State law did not prevent, but we have had as the result of last year's experience ordinances passed in Fresno and Kings counties prohibiting the use of the murderous and cruel snag hook.

"The State authorities have been working for three years to devise a plan by which catfish can pass a weir of the types on the Kings river. They are variable and unlike those on other streams where there are stationary concrete dams with fixed water levels. After the plans and experiments, we think we have hit upon an original device for operation on a stream such as the Kings containing sluggish as well as migratory fish."

The larger of the two new fish ways is 30 feet long, built on the floor of the weir, in the center of the water way as an approach to and a part of the weir. Its width is 14 feet, divided into seven pools which with a lateral partition gives 14 compartments, each 3½ by 7 feet. The larger way is at the old and upper Empire weir and the smaller one of 5 compartments at the new weir.

The dammed-up water at the face of the weir has a depth of eight feet and the fish way, though of the stall and compartment type and arranged primarily as an under flow device can be used as an overflow way, the water in the latter mode of rising dropping from one compartment to that below in a succession of falls of about a foot each, so that the ascending fish has only to make vaults of one foot from stall to stall to pass the dam by means of the fish way ascent.

A departure was made from the original specifications providing only for a stall and series of pools with under-surface openings and with removable drop boards between compartments to regulate the fall in proportion to the number of drop boards taken out or replaced on the face of the weir. The departure was the suggestion of Engineer Hammett in running a lateral partition through all the pools dividing each into two, an opening being made through this lateral partition of the same dimension as that of the opening pool inlet thus divided. This plan figured out diminishing the pressure in the fishway by 50 per cent and was sustained in the working test.

The catfish never could be induced to take any rise however slight in an overflow fish way, but according

to the new device the pressure in the under flow opening has been so greatly diminished that there is now no serious obstacle against their ascending, and, moreover, the new type of fish way commends itself to canal owners because it requires very much less water for successful operation than is necessary in any other type.

In the operation of the new fishway the water is figured to raise the water in each pool one foot less than that of the pool above it and discharge through the final with a gentle flow that would not offer obstacle to any fish however sluggish its nature. The demonstration test raised these successive pool levels to nine inches and the pressure in the under surface opening was no greater than six inches against which even the sluggish catfish can swim if disposed to at all. If it is found that other fish varieties in the Kings are not disposed to take the under surface openings an overflow from pool to pool can be readily arranged.

PEOPLE TO HELP MAKE GAME LAWS.

The following circular, which is self-explanatory, is being mailed to the taxpayers of the State by the State Board of Fish and Game Commissioners:

To the people of the State of California: It has often been said that the fish and game laws of the State of California were passed in the interest of a favored few, to the prejudice of the great mass of the citizens of our state.

Such impression has gone forth, doubtless, by reason of the fact that the people generally have had but little, if any, voice in suggesting or proposing legislation upon the subject, resulting in lack of co-operation by the people with the Commission, without which co-operation neither beneficial laws can be passed, nor material progress be made.

The Commission sincerely desires the active, hearty and earnest co-operation of all the people of this state in the great work which is before it.

This Commission will be for the people, and it wants their expression as to the laws most suitable for their districts. In other words, it wants the people of the great State of California to say to the Commission, "We want this and we want that," and not for the Commission to say, "We will give you this and we will give you that."

This Commission intends to assist in getting just, equitable laws concerning fish and game upon the statute books, laws which will preserve the rights of the people therein and be fair to all. To do this, the Commission will assist the people of the State of California in forming fish and game protective associations. The price of membership will be 25 cents, which will be used to pay the expenses of the delegates of the different counties. Each county will send three delegates or less, whichever they deem best, to where a district meeting will be held. Here the county delegates will decide on the laws most suitable for their district, and at which time they will select a representative who will be instructed to meet with the Fish and Game Commission two months before the Legislature meets and prepare proper laws.

After agreeing with the representatives the Commission will take the proposed laws of the six districts to the Legislature and say, "Gentlemen, these are the laws that the people of the State of California want," and it is to be believed that they will pass them without delay, thereby saving the people of our state many thousands of dollars, and at the same time giving to the people the laws that are sure to please.

If you favor the formation of these associations, please sign the inclosed card and forward the same to Hon. E. D. Roberts, state treasurer, Sacramento, together with 25 cents for your dues for one year. Mr. Roberts has kindly consented to act in this connection, and upon the receipt of your card and dues, will issue you a receipt card of membership and enter your name upon the register for your county. When a sufficient number of names has been received from your county, a meeting of such men will be called at some central point in the county, and at that meeting an association formed, which will in turn take steps for the formation of a district association. The moneys received by Mr. Roberts, less postal expenses and printing of membership cards, will be turned over to the duly elected officers of the club in each county.

This fund, you can readily see, will be used by the people for the sole purpose of legislating for themselves and to demand that they make the laws, a right which justly belongs to them.

The State of Maine, not more than twenty years ago, had little or no game, but by protection she is today receiving a revenue of \$5,000,000 from the people who pursue her fish and game. California is four times larger than the State of Maine and has more varieties of fish and game, and it is believed that the co-operation of the people with this Commission in this work will so increase fish and game that California will become the best field for this sport in the west.

Let this work be carried forward, and with our great highways completed, not only will the state revenues be increased, but the hunters and fishermen from all over the world will visit our mountains and streams, as they do in the State of Maine.

As we have stated before, this Commission will be one for the people, and the only way for it to be guided is by the voice of the people through the fish and game protective associations.

Join now and help to protect one of the greatest assets of your state.

THE STEELHEAD SEASON.

With fair weather continuing until Monday, April 1, the local angling fraternity should enjoy one of the best day's steelhead fishing that has been afforded during the past several seasons. The coast streams are somewhat higher than usual, but are becoming clearer every day. The opening day should allow fine sport with the spinner lure, and if a warmer temperature prevails quite a bit of fly-fishing will be available, particularly in Paper Mill creek. There will be, it is believed, some chances for fly-casting anyway. That is, unless a turn in the weather brings on a downpour.

A week ago the "white house" pool, in the tide-waters of Paper Mill was alive with trout. During the day a number of large trout were seen jumping in the different pools of that stretch of fishing water. The creek was not extraordinarily high, but above the tidal limit there was water enough to cheer the trout prospectors with pleasing anticipations for a lucky day on the 1st.

James Watt, Sam Wells, D. K. Turner and others have had excellent sport in the lower reaches of the stream.

Reports from Pescadero and San Gregorio lagoons were that steelhead were numerous enough to tempt a number of anglers to put their rods together and try those tideswaters. Last Sunday, Monday and Tuesday nice baskets of large and small steelhead were taken in the San Gregorio lagoon, according to advices received from Frank Bell.

Tunitas Glen creek is another San Mateo fishing water that has attracted much attention recently. Frank Maskey, Herman Cohn and others fished the creek during midweek with good results. Dave Harefield, J. B. Lemmer and Ned Bosqui have enjoyed nearly a week's sport in the Salmon creek lagoon, on the ocean shore, west of Bodega. A mess of steelhead sent down to friends had a number of sixteen-inch trout in the lot.

All the foregoing and more that could be written concerning steelhead trout only add fuel to the flames of anticipation smoldering in the breasts of the grand army of Waltonians.

Along the San Mateo shore the following waters invite a trial with rod and line. First we come to Salada beach, where steelhead manage to get inside the lagoon during a rainy season. Farther below, a few miles, is San Pedro creek, a rather unpretentious looking water for the unposted angler, but nevertheless last season plenty of nice trout were taken from the ditch in the vegetable garden to far up in the many pools of the creek nesting in the canyons of the foothills.

San Gregorio and Pescadero have been mentioned; then there are Buteno creek, Bear Hollow lagoon, Gazos, Scott and Waddell creeks farther south; Purissima creek, below the falls, may offer something, although the headwaters of the stream will not be open until May 1st.

Tunitas Glen and Denniston creeks are also on the fishing map. From La Honda the angler can reach La Honda, Alpine and other good streams.

Above Point Reyes station, at Camp Pistoles, Mud or Walker creek has for years past been good for baskets of big steelheads. In fact some fine fish were caught there within the week. Near the point, a mile or so north, is an almost hidden stream, Fish creek. Farther up in the hills the creek develops a series of fish supplied pools.

Ross creek between Kentfield and Larkspur, and farther up, has been well patrolled recently and promises good sport. The fishing near Kentfield in Fairfax creek has been excellent recently.

Sonoma creek near Glen Ellen has been a favorite resort in past years.

Many Alameda county streams can be reached via Livermore or Pleasanton. These creeks have been well stocked for several seasons past. Bayou creek is well thought of. Mocho creek runs by Marshall springs and finally empties into Alameda creek near Niles. La Costa creek, the main tributary of Alameda creek, joins the latter above Sunol and has a pleasing reputation for early season baskets of trout.

Palomas creek, near Hayward, and Redwood creek, which enters into Lake Chabot, have afforded keen sport in past seasons. This latter and numerous branches in Moraga valley can be reached by way of Fruitvale or Dimond. From Farwell, just above Niles, Stony creek is very accessible. This is a short creek and good for only the early days of the season.

Santa Cruz county streams number over thirty, and should be in fine condition. From Felton the following creeks are easy to find: San Lorenzo, Zayante, Bean, Fall, Gold and Lompico. Near Brookdale Clear lake and also the San Lorenzo are available.

Boulder creek is the starting point for a raft of fine early waters, which include San Lorenzo and Bean, Kings, Two Bar, Jamison, Deer, Boulder, Waterman, Slate and Tar creeks. The headwaters of Scott's and Waddell creeks, via the Big Basin road, will not probably be overlooked.

With Santa Cruz as a starting point, the angler can easily get in touch with the San Lorenzo, which runs through the town; Branch fork, Hospital, Wilder, Kirby or Tannery, Majas, Baldwin, Eagle, Laguna and Tidell creeks.

From Capitola, beginning with the Soquel, a dozen inviting creeks are easy to reach and easy to fish.

Striped bass operations have been exceedingly light for the past week. Jake Christianson, a member of the Pacific Striped Bass Club, was high hook

last Sunday in the San Antonio waters with a 17½ pounder. Emil Accret played low casino with a four pounder caught in the same fishing ground. Other resorts are lying fallow for the time being. Several sloughs on the north side of Petaluma creek are promising for future striped bass operations.

PRICE OF SALMON TOO HIGH.

Southern California people who desire to eat salmon must pay from twenty-five to thirty cents a pound for the privilege. Time was when salmon could be had in this state for 25 cents apiece; now the fish costs almost that much a mouthful—if you've got a big mouth.

Thousands of people in the citrus belt, for instance, would like to eat salmon more often, no doubt. Therefore they will take note of the actions of the Federal authorities to preserve the salmon fisheries of the northern part of the state.

The enormous destruction of young salmon in the Sacramento river is one of the subjects considered in the annual report for the fiscal year 1911, which has been submitted by Commissioner Bowers of the Bureau of Fisheries to the Secretary of the Department of Commerce and Labor. This destruction occurs through the medium of irrigation canals and the attacks of predaceous fishers during the migration of the salmon to salt water. One of the canals is eighty-five feet wide at the bottom, and as the fry follow the current in their descent of the river, large numbers are carried into the canal by the flowing water and are left stranded on adjacent lands. It is understood the construction of other dams is contemplated in the near future, and unless the fry are planted below the intake, or some effective method of screening is resorted to, it will be impossible to maintain the present run of salmon in the Sacramento river.

The true solution of the problem, the report states, would be the erection of a hatchery sufficiently large to accommodate all chinook eggs collected at the Baird, Mill creek and Battle creek stations at some desirable point below the intake of the irrigation canals, and where the fry would not be subjected to the attacks of predatory fishers.

The California Fish and Game Commission, realizing the impossibility of maintaining the supply of salmon in the Sacramento river and tributaries in the face of such adverse conditions, is contemplating the establishment of a permanent hatchery nearer tide-water for the development of eggs collected at interior stations. It is a matter of much importance that the bureau make provision to do likewise in the near future.

Investigations concerning the life history and physiology of the Pacific Coast salmon were continued during the year, the most interesting inquiries being those conducted with reference to the growth and migration of certain species. A large amount of material and data that were gathered are being utilized in the study of the development and age as recorded in scale structure, and the results thus far obtained demonstrate conclusively that it is possible to determine very accurately the age of the salmon.

Certain tagging experiments with the steelhead also yielded very interesting results. A large number of these fish were tagged in a small stream flowing into Monterey bay and many of them returned the next year to the same place in the stream from which they were originally captured.

Among other important results of this work is the discovery of a run of Chinook salmon in the San Lorenzo river, Santa Cruz county, California. No run of Chinook salmon had ever before been reported from this stream, and it is evident that this run is the result of plants of Chinook salmon fry made there in 1906 and 1907. These results coincide with similar experiments conducted by the bureau in Tomalpas bay in 1897 and 1898, which resulted in a heavy run of salmon where none had previously occurred.

Important investigations were conducted on Puget sound and Frazer river, and data of much value to the International Fisheries Commission were secured. Among other things disclosed by these investigations is the fact that there are in that region two distinct recognizable forms of Chinook salmon, frequenting different portions of those waters and possessing different commercial values.

The usual corps of agents were engaged in the inspection of the salmon fisheries of Alaska, and their vigilance has enforced very general observance of the law. The sentiment against waste or needless destruction of edible fish, which the bureau has from the beginning endeavored to establish, is apparently growing. It is believed, also, that the time will soon come when the use of fish as a fertilizer, which would otherwise be used as food or bait, will be discontinued.

A report giving statistical and other information regarding the commercial fisheries of Alaska, based on the 1910 inspections, has been published. The statistical canvass of the fisheries shows the number of persons engaged to have been 15,620, an increase of 302 over the previous year. Of these, 6836 were whites, 4147 Indians, 2111 Chinese, 2206 Japanese, 4 Coreans and 16 Filipinos, as compared with 5608 whites, 2823 Indians, 1938 Chinese and 2159 Japanese in 1909, an increase in 1910 of 1226 whites, 1324 Indians, 413 Chinese and 47 Japanese.

FASHION NOTE—"Hoppies will be much worn in the East this season"

Some are for 'em and some are agin 'em. Personally we ain't exactly stuck on 'em but we console ourselves with the fact that no matter whether they wear 'em or not, if they are lame or sore or blemished or have bad feet, they will need

REDUCINE

Read this letter from Mr. DeWitt C. Flanagan, who is one of the best known and most successful owners of show horses in America. Mr. Flanagan is also one of the most skillful amateur reinsmen in this country, ranking, in this respect, with Mr. Frank G. Jones, Mr. Harry K. Devereaux, etc.

CLAUSEN-FLANAGAN BREWERY,
441 West 25th Street.

NEW YORK, MARCH 1, 1912.

The Reducine Co., 4181 Broadway, City:
Gentlemen: It gives me much pleasure to express the great satisfaction I have derived from the use of Reducine.
My stable of show horses is never without this remedy, which has proven itself to be very effective in many instances, especially in the case of my show horse "Kentucky," where results were speedy and satisfactory.
I am always glad to recommend Reducine.
Very truly yours,
DE WITT C. FLANAGAN.

DAYTON, KANSAS, MARCH 3, 1912.
The Reducine Co., New York:
Dear Sirs: I wish to say to you that Reducine is certainly a wonderful remedy, and it will do everything you claim for it. Several of my friends have also used it with great success.
Yours truly,
HENRY RUPFNER.

UNION FIRE COMPANY.

CARLISLE PA. JANUARY 30, 1912.

The Reducine Co., New York City:
Gentlemen: * * * I have used Reducine for the last two years, and would not be without it.
I drive a fine team, and had a horse some time ago that cocked up or buckled over on his back ankles. I used Reducine and had only applied it three times before I was called to a fire, and, of course, I went just the same. Every time we go out it is like a horse race, and I never thought about the lame horse, but he came around all right, and is sound and clean today. I have caused several of my friends to buy Reducine through our druggist, and he always keeps it on hand.
Yours respectfully,
F. W. WETZEL
Driver.

FILTHY HOG TROUGHS.

Filth in the hog trough is inexorable, and it is the cause often of the profits of swine-growing being materially cut down. A filthy trough is a seed bed of disease, and next to hog cholera it is the greatest enemy of the swine industry. There is no excuse for a filthy trough where a sanitary one may be provided. The sanitary kind may be made either of cement or cast iron, and they are not expensive. But even these will not avail or lessen the danger to the hogs from disease if they are not persistently and thoroughly cleansed, but they are so much easier to care for and keep clean that it is simply bad business to bother with the old kind. There is enough filth that gathers in the hog pens that can be rid out. Keep a sharp lookout for these sources of waste and curtailing profits, and your bank account and contented feeling at the end of the year will both be augmented. Thumpy pigs are often started by trough filth. Don't take the risk. Get a sanitary trough of some kind and keep it clean.

Are you one of the unthinking who starts a horse with a blow instead of using your voice?

Warranted to give satisfaction.

GOMBAULT'S CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeney, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc. it is invaluable. Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio.

DISPERSAL SALE.

I must move owing to the sale of my property, consequently must dispose of all my horses, a list of which follows:
Zomsteln, a very handsome four-year-old bay pacing stallion by the great Zombro 2:11; dam by Steinway. He has had very little work, but can pace halves in 1:06 and quarters in 31½ seconds. This fellow is sound, gentle, and is a good-gaited, good-headed horse and will do to race.
Zomie Secretary, a two-year-old black trotting colt by Zombro; dam by Secretary. Is well staked and will do to spend some money on. He has been a mile in 2:45, last half in 1:20, last quarter in 37¼ seconds. This fellow is entered in all the stakes on the Pacific Coast.
A yearling, full sister to Zomie Secretary, is a very handsome baby and is also staked throughout the West.
Zomie Gray, two-year-old gray colt by Zombro; dam by McGrath, has been a quarter in 40 seconds and is also staked.
High Pride, a very handsome stallion by Judge McKena, out of Whisper (dam of Zombro 2:11), is as handsome as his dead brother and acts like as good a trotter.
A yearling, full sister to Lady Garland, three-year-old, trial 2:14½, and five weanlings by The Bondsman, Zombro, etc.
For further particulars, prices, etc., address GEO. T. BECKERS, 3727 So. Figueroa St., Los Angeles.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

WANTED.—A sound kind trotter or pacer with a record of 2:15. State lowest cash price and full particulars. Address "E." this office.

FOR SALE.—Mike C., bay gelding, pacer; sired by Sidney Dillon. Has only raced in amateur races. Good prospect for the circuit. For particulars, write J. RYAN, Sonoma, Cal.

FOR SALE, CHEAP.—One registered stallion, sired by McKinney 2:11 1/4; 8 years old; sound. Also one imported draft registered stallion; weight 1800 pounds; 7 years old. Would consider trade on heavy mare or standard-bred mares, or fillies. Breeding and pictures sent to interested parties. Address D. A. BAKER, Hill P. O., San Diego, Cal.

FOR SALE.—A black stallion; hind pasterns white; stands 17 hands high and weighs 1800 pounds. Sired by Monterey 2:09 1/4; dam Leap Year 2:26 1/4 (dam of Yosemite 2:19, California, trial 2:16 1/4), by Tempest 1881; second dam by Commodore Belmont 4340. Sire and dam registered. This grand-looking horse can show a 2:30 gait, and is a fine, clean-gaited trotter; needs no boots, and I think will learn to trot fast. Will make a sire of very useful horses for either track or road. He is sound and all right. On account of ill health I must sell him. Price reasonable. Address P. J. WILLIAMS, San Lorenzo, Cal.

FOR SALE.—Beautiful Trotting Mare; color brown; coming 5 years; dam by Zombro; full sister to Zomalto; very promising fast trotter; has only been worked the last 3 months and can trot close to 2:20 on mile track. She is also a fine roadster, city broke.

Registered Electioneer-Wilkes mare; bay; coming 7 years; by Expedition; dam by St. Vincent; second dam by Guy Wilkes; third dam by Baron Wilkes; fourth dam by Geo. Wilkes. She was bred by C. W. Williams of Galesburg, Ill. Is a fine driver and has speed. Should make an excellent brood mare.

No fancy prices asked. Write to E. F. BINDER, 1364 West 5th St., Riverside, Cal.

FOR SALE.—A grandly bred pacing six-year-old daughter of Arner 2:17 1/4, out of a mare by Direct 2:05 1/2, etc. A coal black, 15.2 hands, weighs 1050. Can pace three heats inside of 2:10; has no mark. Sound, and handsome as a picture; in perfect shape; wears only 6 ounce shoes all around and a light pair of quarter boots, and that's all. If anyone is interested, a photograph, with full pedigree will be sent.

A brown gelding, 16 hands, by Chas. Derby 2:20; a natural pacer; can go a mile in 2:10; no mark; clean; wears no boots, and is ready for work; a perfect beauty; absolutely safe on the road; afraid of nothing; stylish. Reason I am selling, I lost my husband and have no further use for them.

MRS. LOHMIRE, 1450 46th Avenue, Oakland, Cal.

FOR SALE.—Arawana B. by Sidney Dillon; dam Lily Stanley 2:17 1/4 (dam of 3 in 2:30) by Whippleton, etc. This is one of the most stylish, best-broke and purest-gaited trotters in California. She is in foal to Prince McKinney (2) 2:29 1/4 (trial 2:13).

A two-year-old filly by Prince McKinney (2) 2:29 1/4, out of Arawana B., a pure-gaited pacer with a world of speed; nicely broken.

A two-year-old filly by McKena (son of McKinney 2:11 1/4 and Helena 2:11 1/4 by Electioneer); dam Zorilla (dam of Prince McKinney (2) 2:29 1/4) by Dexter Prince; second dam Lilly Thorn by Electioneer, etc. A fine trotting "prospect"; perfectly broken; level-headed.

Both of these are entered in the Futurities and all payments made. On account of my ill health I must sell these splendid individuals. They can be seen at McKinney Stables, 36th avenue and Fulton street. For price and further particulars, apply to stables. F. GOMMET, Owner.

FOR SALE.—Maud Jay C., the dam of Nearest McKinney 2:13 1/4, and also El Angelo by The Angelus 2:07 1/4 at Banta, and another very promising colt by Star Pointer at Eureka that is a whirlwind pacer. She also has a filly by Bon McKinney that cannot be beaten. Maud Jay C. is a beautiful mare having color, size and conformation. She is a fine roadster and a lady can drive her. She was bred to Tom Smith 2:13 1/4 in 1911, but failed to get with foal. Maud Jay C. is registered standard. She was sired by Nearest 2:22 1/2 out of Fanny Menlo, dam of Claudius (4) 2:13 1/4 by Menlo 2:21 1/4; second dam Nelly Anteeo by Anteeo 2:16 1/4; third dam Fanny Patchen (dam of California Nutwood, a sire) by Geo. M. Patchen Jr. 2:27. As a broodmare she is destined to be one of the greatest if her four foals are any criterion. I will price her very reasonably. For further particulars, address T. W. BARSTOW, Driving Park, San Jose, Cal.

STANDARD MCKINNEY STALLION FOR SADE OR LEASE—Scott McKinney 33749, by McKinney, dam Primrose (great broodmare) by Sidney; second dam Brown Rose by Privateer; third dam Lady Baldwin by The Moor; fourth dam daughter of Ben Lippincott, son of Williamson's Belmont. Scott McKinney is a handsome bay horse; weighs about 1100; good gaited, and all his get are fine individuals and show speed. Price reasonable. Has State license for this year. Address DR. M. F. SCHALTENBRANDT, 4051 20th St., San Francisco.

GOOD ONES FOR SALE.

PAL (2) 2:17 1/4, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (3) 2:20) by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24 1/2 made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no hoppers. By Palite 45062; dam Babe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15 1/4; second dam a producer by Anteeo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOULIA, a standard bred 4-year-old filly by Nushagak, sire of two 2:10 performers, dam by Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15 1/4) by Ansel; third dam Mayflower 2:30 1/4 (dam of Manzanita 2:16 and Wildflower) by St. Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in all of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

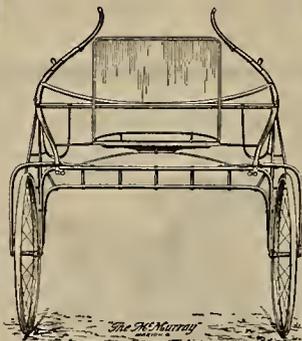

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address E. D. DUDLEY, Dixon, Cal.

SAVE-THE-HORSE

TRADE MARK REG'D.

Is Your Horse an Expense or a Profit?

This is Business Logic From the Word Go.

Results must be measured by actual resistance when the endurance tests and ordeals occur. Can you say that your horse is cured to this extent?

Depend upon it—with Save-the-Horse there will be no relapses or breakdowns when the endurance tests are made.

Save-the-Horse make weak legs strong: it will cure to stay cured. If you have a doubt about the condition of your horse's legs to stand racing use Save-the-Horse and you will not need to worry.

PEOPLE'S NATIONAL BANK.

Gallatin, Tenn.

January 27, 1912.

Troy Chemical Co., Binghamton, N. Y.:

Gentlemen: Having obtained satisfactory results by using Save-the-Horse for curbs and windpuffs, will ask that you forward me a bottle to use on a badly sprained ankle that has been blistered for a number of times without having any effect.

Enclosed find New York exchange for \$5.00 in payment.

I have used Save-the-Horse several times and have always secured a complete cure.

Very truly yours,

W. H. HITCHCOCK.

C. E. CRONHAM, JR.,

157 Chambers Street.

New York, Feb. 19, 1912.

Troy Chemical Co., Binghamton, N. Y.:

Dear Sirs: Being a subscriber of the Trotter and Pacer, I have read your advertisement many times; about one month ago I purchased a bottle of Save-the-Horse to use on a draft horse that hurt his ankle and could not stand on it, or would not put the foot to the ground. In six days he walked good and sound, and I am very well satisfied with the quick results I obtained from its use.

I note in your advertisement that you publish a book on all kinds of lameness. I would be pleased to receive one. Yours truly,

C. E. CRONHAM.

For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it does the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

| No. 5—2:05 Class, Pacing | 2,500 |
| No. 6—2:16 Class, Pacing | 2,000 |

CONDITIONS.

Entries Close Tuesday, April 2nd.

When Horses Must Be Named.

The Detroit Driving Club holds membership in the Grand Circuit, the Great Western Circuit, the National Trotting Association and the American Trotting Association.

Rules of the National Trotting Association will govern except as otherwise specified.

Two or more horses under the same ownership or control or trained in the same stable may start in any race, but rules regarding assistance and interference will be rigidly enforced.

Events Nos. 1, 2, 4 and 6 will be decided by the best 3 in 5 heats, limited to a maximum of five heats, and all starters shall continue in the race to the finish unless distanced or drawn. In case of a tie for first place in the summary at the end of the fifth heat, the horses so tied shall race an extra heat to decide the winner. Events Nos. 3 and 5 will be decided by the best 2 in 3 heats and will continue until a horse has won two heats, and non-heat winners shall be ruled out only when three heats have been raced.

Entrance is 5 per cent of purse and 5 per cent additional from winners of each division of same, but in case two or more horses are entered by the same stable in the same class, full 5 per cent entrance is charged on only one horse. And for each additional horse the entrance is only 1 per cent. But full 5 per cent entrance will be required from each starter.

Entrance is Payable in Easy Installments as follows:

| | April 2. | May 7. | June 4. | July 9. |
|--|----------|--------|---------|---------|
| M. & M. Stake—One nomination | \$75 | \$100 | \$150 | \$175 |
| Each additional nomination | 20 | 25 | 25 | 30 |
| C. of C. Stake—One nomination | 50 | 60 | 65 | 75 |
| Each additional nomination | 10 | 12 | 13 | 15 |
| 2:10 Trot and 2:16 Trot—One nomination | 30 | 35 | 40 | 45 |
| Each additional nomination | 5 | 7 | 8 | 10 |
| 2:05 Pace—One nomination | 25 | 30 | 30 | 40 |
| Each additional nomination | 5 | 6 | 7 | 7 |
| 2:16 Pace—One nomination | 20 | 25 | 25 | 30 |
| Each additional nomination | 5 | 5 | 5 | 5 |

Liability of Nominator Ceases When Written Notice of Withdrawal Is Lodged With the Secretary.

Entrance must be paid on each Horse named and every Horse named is entitled to Start.

Horses not named April 2d cannot start.

When entries close April 2d you know exactly what horses can start. There is no opportunity to buy nominations for fast horses that show later.

Other events will be announced later to complete the racing program for five days, July 22-26, with classes to suit campaigning stables, especially those represented in the stakes. Fast classes will be 2 in 3. Horsemen are invited to furnish lists of horses for which classes are desired.

The State Fair Grounds at Detroit will be open for trainers about the middle of April. First-class stabling, pure water, green grass, shade trees, cinder paths, good jogging roads, and one of the best tracks in the country, afford ideal conditions for the preparation of race horses. Secure stalls early.

GRAND CIRCUIT MEETING

The Michigan State Agricultural Society

DETROIT

Announces the following early closing purses to be raced at the

63D ANNUAL MICHIGAN STATE FAIR

SEPTEMBER 16, 17, 18, 19, 20, 21, 1912.

| | |
|---|----------|
| No. 1—2:15 Class, Trotting, "The Michigan Stake" | \$10,000 |
| No. 2—2:12 Class, Pacing | 5,000 |
| No. 3—2:10 Class, Trotting | 2,000 |
| No. 4—2:05 Class, Pacing | 2,000 |
| No. 5—2:20 Class, Pacing for horses owned in Michigan | 2,000 |

CONDITIONS.

Entries Close Tuesday, April 16.
When Horses Must Be Named.

The Michigan State Agricultural Society holds membership in the Grand Circuit, the Great Western Circuit, the National Trotting Association, and the American Trotting Association.

Rules of the National Trotting Association will govern except as otherwise specified.

Two or more horses under the same ownership or control or trained in the same stable may start in any race.

Events Nos. 1, 2, 3 and 5 will be decided by the best 3 in five heats, limited to a maximum of five heats and all starters shall continue in the race to the finish unless distanced or drawn. In case of a tie for first place in the summary at the end of the fifth heat, the horses so tied shall race an extra heat to decide the winner. Event No. 4 will be decided by the best 2 in 3 heats, and will continue until a horse has won two heats, and non-heat winners shall be ruled out only when three heats have been raced.

Horses entered in the Michigan State that win first money in stakes or purses whose face value exceeds \$35,000 between the date of making the entry and the final payment, September 5, will be ineligible to compete and all entrance paid on such entries will be refunded.

Event No. 5, the 2:20 pace, is open only to horses owned in Michigan from the date entries close until the day of the race, both inclusive.

In case of the sale of an entry to parties outside of Michigan entrance paid or due is forfeited.

Entrance is 5 per cent of purse and 5 per cent additional from winners of each division of same, but in case two or more horses are entered by the same stable in the same class, full 5 per cent entrance is charged on only one horse.

And for each additional horse the entrance is only one per cent.

But full 5 per cent entrance will be required from each starter.

Liability of Nominator ceases when written notice of withdrawal is lodged with the Secretary.

Entrance is Payable in Easy Installments as follows:

| | April 16. | May 21. | June 25. | July 30. | Sept. 3. |
|---|-----------|---------|----------|----------|----------|
| One nomination in Purse No. 1 | \$50 | \$75 | \$100 | \$125 | \$150 |
| Each additional horse | 20 | 20 | 20 | 20 | 20 |
| One nomination in Purse No. 2 | 25 | 40 | 50 | 60 | 75 |
| Each additional horse | 10 | 10 | 10 | 10 | 10 |
| One nomination in Purse 3, 4, 5 | 10 | 15 | 20 | 25 | 30 |
| Each additional horse | 4 | 4 | 4 | 4 | 4 |

Other events will be announced later to complete the racing program with classes to suit campaigning stables, especially those represented in the early closing purses. **Faster classes will be 2 in 3.**

For entry blanks and information address the Secretary of Races.

MICHIGAN STATE AGRICULTURAL SOCIETY,

502 Howles Building, DETROIT, MICHIGAN,

THOMAS E. NEWTON, President.

ALBERT H. MOONE, Secretary of Races.

RACE COMMITTEE: EUGENE FIFIELD, Chairman; ARCHIBALD J. PEEK, FRED POSTAL.

TRIANGLE TRIP

OVER THE

Northwestern Pacific Railroad

One of the most delightful scenic one-day jaunts in America.

150 miles of Mountain and Redwood Forest Scenery, a Boat Ride on San Francisco Bay and by rail along the Russian River.

Leave San Francisco 7:45 A. M. daily except Sunday, and 8:45 A. M. Sunday only, by boat across the Bay of San Francisco, in full view of the Golden Gate to Sausalito (the Sorrento of America). Thence via picturesque San Rafael and thriving Petaluma (home of the chicken industry), through Sonoma Valley to Santa Rosa and Fulton. From Fulton, through magnificent mountain scenery and redwood forests and along Russian River, to Monte Rio. Return is made along the coast, passing Tomales Bay, Point Reyes, San Anselmo, etc., to Sausalito, arriving at San Francisco 7:35 P. M. daily the same evening.

If preferred, trip can be reversed, leaving San Francisco at 8:15 A. M. via the coast to Monte Rio and returning along the river and through the valleys, arriving at San Francisco 7:35 P. M. daily except Sunday and 7:05 P. M. Sunday the same evening.

Round Trip Fare for Triangle Trip, **\$2.80**, except on Fridays or Saturdays, it is **\$2.50** and on Sundays only **\$2.20**.

Tickets on sale at 874 Market Street (Flood Bldg.) and Sausalito Ferry Ticket Office.

Moat Central Track in California.

and pleasure boating on the Marin shore at Tiburon and vicinity. Fishing Tackle to let and Bait always on hand. First-class boats at reasonable prices.

San Francisco Boat House,

CAPT. F. WM. EHRKE, Prop., Tiburon, Cal. Good ferry service from foot of Market St.

Prince McKinney (1) 2:29 1/4

Reg. No. 51803

Winner of 2-y.-o. Trotting Division Pacific Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by McKinney 2:11 1/4, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lilly Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17 1/4, that sired Sidney, grandsire of the world's champion trotter, Lou Dillon 1:58 1/4.

Prince McKinney is a handsome dark bay horse, standing 16 hands and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St. SAN FRANCISCO, CAL.

Good opportunity for San Francisco owners of good mares to breed them to a high-class stallion. FEE \$40 (cash), with return privilege. F. GONMET, Owner. Apply or address F. E. BURTON, McKinney Stables, 36th Avenue, San Francisco.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11 1/4

Bay stallion; 15 1/2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barcana (dam of Bayard Wilkes 2:11 1/4, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03 1/4, Denervo 2:06 1/4, Nordwell 2:08 1/4, Memonia 2:09 1/4, Demonio Wilkes 2:09 1/4, Ben Rush (3) 2:10 1/4, Grace R. 2:10 1/4, Miss Winn 2:12 1/4, Normono 2:14 1/4, and is a full brother to the sires, Diablo 2:09 1/4, sire of 50, Arner 2:17 1/4, sire of 2, and Don Derby 2:04 1/4, sire of 1.

Will make the season of 1912 at SUISUN STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address

RUSH & HAILE, Suisun Stock Farm, Suisun, Cal.

Sired by The Wilkes-Nutwood-Director cross. Dam by Director 2:17
Nutwood Wilkes 2:16 1/4 Sire of Record 2:15
Copa de Oro 1:59 Sire of Reg. No.
Jno. A. McKerron 2:04 1/4 etc. 43488
Sire dam of

CHESNUT TOM

WILBUR LOU 2:19 1/4, Champion Yearling Colt Trotter of the World.

The dam of Wilbur Lou 2:19 1/4 is the only one of the get of Chesnut Tom ever raced.

Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege. For further particulars address I. M. LIPSON, Box 464, Tulare, Cal.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/4.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/4, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:08 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

BREED TO THE BEST BRED TROTTING STALLIONS!

Palo King 2:28 1/2 --- Reg. No. 44910.

Sire of Little Lucille (3) 2:09, the greatest pacer of her age on this Coast.

Sired by Mrengo King 2:29 1/4 (son of McKinney 2:11 1/4 and By By by Nutwood 2:18 1/4); dam Palo Belle 2:24 1/4 by Palo Alto 2:08 1/4; second dam Belle Isle (great brood mare) by Piedmont 2:17 1/4; third dam Ida Belle (great brood mare) by Hambletonian 10; fourth dam Godfrey Star by American Star 14. Palo King is a beautiful bay, stands 16 hands, is a pure-gaited trotter, and all his progeny are intelligent, have style, finish and extreme speed. TERMS \$25 for the season.

Iran Alto 2:12 1/4 --- Reg. No. 24586.

Sired by Palo Alto 2:08 1/4; dam Elaine 2:20 (dam of 4 trotters, 1 sire of 15, 2 dams of 9) by Messenger Durco; second dam Green Mountain Maid (dam of Electioneer and 9 others in 2:30) by Harry Clay 45, etc. Iran Alto was one of our gamest trotters. He has 15 in 2:30, 3 dams of 3 in 2:30. TERMS \$15 for the season.

Alto Express --- Reg. No. 57364

Sired by Iran Alto 2:12 1/4; dam Beautiful Bird by Nutwood Wilkes 2:16 1/4; second dam Expressive (3) 2:12 1/4 (dam of Atlantic Express (3) 2:08 1/4, Esther Belle 2:08 1/4, and the dam of Eva Bellini, timed as a two-year-old in 2:11 1/4, as a three-year-old beat 2:10 in her races) the greatest racing daughter of Electioneer. Alto Express is a perfectly made trotter and will undoubtedly be a sire. TERMS \$20 for the season.

For further particulars, address H. S. HOGOBOOM, Woodland, California.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/2. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07 1/4, the only other one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11 1/4, Yolande 2:14 1/4 and Tina 2:20 1/4) by Guy Wilkes 2:15 1/4; third dam, Moscovita 2:28 1/4 (dam of Mamie R., 3-y.-o., 2:15 1/4, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. **BON MCKINNEY 51480** (3) 2:24 1/2 is a beautiful bay horse and is in every respect a magnificent individual, possessing size, style, quality, intelligence and frictionless trotting action. With little work as a yearling he trotted a quarter in 35 seconds and a half in 1:15. The next spring as a two-year-old, with 2 1/2 months' work, he worked a mile in 2:19 1/4, a half in 1:03 and a quarter in 33 seconds. Having no stake engagements, he was taken out of training after making this wonderful showing for a two-year-old. There is no doubt he could have trotted a mile in 2:12 that year had he been worked until fall. As a three-year-old he was given a record of 2:24 1/2, which is no mark of his speed. Mr. Ted Hayes trained him and says that he considers him the best colt he ever trained and firmly believes that he will not only make a great race horse, but a great sire. As a two-year-old he was bred to ten mares and got nine foals, and everyone who has one of his get is confident that he has the best foal on the Coast. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is a young horse and has already commenced to make his mark in the world, and now is the time to breed to him and take advantage to get something exceptionally good at a reasonable price. Study his pedigree, come and see him, and you will be sure to send your mare.

Season of 1912 at the RACE TRACK, SAN JOSE, CAL.

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59 1/4.

Dam Effie Logan (dam of Sir Albert S. 2:03 1/4; Jim Logan 2:05 1/4, world's champion 3-year-old pacing colt 1903; Dan Logan, mat. 2:15) by Dur fee 11256 (sire of Shecam 2:12 1/2 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08 1/4, etc.); 3rd dam Grace (dam of Dads 1903 on 2:08 1/4, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15 1/2 hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at DAVIS, CAL.

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to The Harvester 2:02

Sired by Ozono, trial (2) 2:17 1/2, sire of Norvalon (4) 2:22 1/4 by Moko 24457 (sire of Pereno 2:05 1/2, Brenda Yorke 2:04 1/4, Native Belle (3) 2:06 1/2, and the dam of The Harvester 2:01. First dam Maggie Yeazer (dam of Walnut Hall 2:08 1/4, sire of The Harvester 2:01, etc.) by Red Wilkes 1749; second dam Docia Payne (great broodmare) by Almont 33.

Black Hall is a very handsome black horse, standing 15 1/2 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS: \$50 for the season; usual return privilege.** California Stallion License. Pure bred.

ATHADON 20990 Rec. (1) 2:27

Sire of The Donna 2:07 1/4, Athasbam 2:09 1/4, Donasbam 2:09 1/4, and 15 others

Sired by Matadona 9392, sire of Athadon (1) 2:27, etc. First dam Athalie (dam of 7) by Harokay 11805; second dam, Mag by Alcalde 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of Kianeysham (2) 2:18 1/2, winner 2-y-o pacing division Breeders' Futurity

Sired by McKinney 2:11 1/4 (sire of 23 in 2:10 list). First dam Palavena (2) 2:19 1/2, also dam of Mendovena 2:19 1/2 and Menlo 2:29 1/4, sire of Blanche R. 2:06 1/2, by Palo Alto, rec. 2:08 1/4, Reg. No. 5354, he by Electioneer 125; second dam Astoria (dam of Palavena (2) 2:19 1/2 by General Benton 1755; third dam by Kentucky Prince, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15 1/2 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS: \$25 for the season; usual return privilege.** California Stallion License No. 126. Pure bred.

These horses will make the Season of 1912 at FRESNO, CAL., at Geo. L. Warlow's ranch. Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **GEO. L. WARLOW, Fresno, Cal.**

NOGI 2:10 1/2—Reg. No. 57383

Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and neverbeaten as a 3 year old.

Sired by Athalo 2:24 1/4. First dam Cora Wickersham (dam of Athasbam 2:09 1/4, Donasbam 2:09 1/4, Nogi 2:10 1/2, Mattawan (3) 2:17 1/2, Kinneysham (2) 2:18 1/2) by Junio; second dam by Whippleton 1883; third dam by Gladiator 336. **Nogi 2:10 1/2** is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of DR. T. A. DANIELSON, Madera, Cal.

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address J. E. VINCENT (Mgr.), Madera, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by Bon Voyage 2:08; dam Loma B. by Stam E. 2:11 1/4; second dam Italia (great broodmare) by Sidney 2:19 1/4; third dam Liza 2:29 by Prompter, sire of dam of Graat 2:02 1/4; Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free.

Will make the season of 1912 at EASTBERRY RANCH, 3 miles east of FRESNO, CAL. **TERMS: \$50 to insure. Address A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

NEAREST MCKINNEY 2:13 1/4, sired by McKinney 2:11 1/4; dam, Maud Jay C. by Nearest 2:22 1/2 and own brother to Joha A. McKerron 2:04 1/2 and half-brother to Louise Carter, dam of Wilbur Lou (1) 2:19 1/2 and sire of Highfly 2:04 1/2, Alone 2:09 1/4, Joe Gans 2:19 1/4, Trueheart 2:19 1/2, Just It 2:19 1/2, and others, by Nutwood Wilkes 2:16 1/4, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/2, etc., and dams of San Francisco 2:07 1/4, Mona Wilkes 2:03 1/4, etc.; 2d dam, Fanny Menlo (dam of Claudius 2:13 1/4) by Menlo 2:21, by Nutwood 2:18 1/4, greatest brood mare sire; 3rd dam, Nellie Antee by Antee 2:16 1/4; 4th dam, Fanny Patchen, by Geo. M. Patchen Jr. 2:27. Nearest McKinney is one of the handsomest McKinneys standing for public service. Color beautiful brown, 16 hands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14 1/4 and in 1911 got a record of 2:13 1/4, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address T. W. BARSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09 1/4, Jay Bird's greatest son; dam Exine 2:13 1/4 (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15 1/4; second dam Exine (dam of 6) by Axtell 2:12; third dam Russia 2:28 (great broodmare) by Harold 413; fourth dam Miss Russell (dam of Maud S. 2:08 1/4 and 6 others), etc. **Best Policy** is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

Season of 1912 at my feed stable, corner of Bridge and Center Streets, VISALIA, CAL.

R. O. NEWMAN, Owner.

Athasham

Race Rec. 2:09 1/4
Reg. No. 45026.

A Game Race

Horse in the Stud

Bay stallion; stands 15 1/2 hands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07 1/4, Athasbam 2:09 1/4, Donasbam 2:09 1/4, Sue 2:12, Listerine 2:13 1/4, Mattawan (3) 2:17 1/2, and 8 others in 2:30); dam the great broodmare Cora Wickersham (also dam of Nogi (3) 2:17 1/2, (4) 2:10 1/2, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasbam 2:09 1/4 and Kinneysham (2) 2:18 1/2), by Junio 2:22 1/2 (sire of dams of Geo. G. 2:05 1/4, etc.). Athasham has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06 1/4 in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at Orchard Farm and Race Track, Fresno, Cal., for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place.

D. L. BACHANT, R. R. 1, Fresno, Cal.

The Jay Bird-Baroa Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by Jay Bird 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam Alma Wilkes (dam of 2) by Baron Wilkes 2:13; second dam Almeta 2:31 by Almont 33; third dam Alma Mater (dam of 8) by Imp. Australian, etc. Alconda Jay sires size, style and good looks.

His colts are fast, natural trotters. Alconda Jay, dark brown stallion, stands 15 1/2 and weighs 1150 pounds. He was bred at Maplehurst Stock Farm, Paris, Ky.; foaled in 1905.

Will make the Season of 1912 at

THE SALINAS FAIR GROUNDS, SALINAS, CAL.

TERMS: \$40 the Season. Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. H. H. HELMAN, Salinas, Cal.

KING S. (Trial) 2:15

Sire of Maurice S. 2:07 1/4

Sire, Silver King 3622; dam Maud by Brigadier; second dam by Owen Dale.

King S. is one of the handsomest stallions on the Pacific Coast. He has size, style, speed, is a sure foal-getter, and has every qualification to make him one of the greatest of sires. His oldest and first colt trained is Maurice S., one of the most consistent race horses in California last season, and five others, now being handled at the Marysville track, show remarkable speed.

King S. will make the Season of 1912 at the J. STRAIN RANCH, 10 miles north of MARYSVILLE, CAL.

FEE: \$50. Usual return privilege. The best of care taken of mares at \$2.50 per month, but no responsibility assumed for accidents or escapes. For further particulars, address **J. E. STRAIN, Marysville, Cal. Box 514.**

McADRIAN 2:24

Reg. No. 45391.

Sire of (Bert Kelly (trial) 2:11 1/4, Trix McAdrian . . . 2:23 1/4, Grace Chalmers (tr) 2:24

Sired by GUY MCKINNEY (sire of Vernon McKinney 2:02, Linden C. 2:22, etc.); dam MAPLE LEAF 2:34 1/4 by Adrian 2:26 1/2 (sire of Roseta A. 2:14 1/4), son of Reliance 2:22 1/2 and Adriana by Skenandoah; McAdrian's grandam was OLLIE RAY 2:39 1/4, dam of Acclamation 2:24 1/4 (sire of Lizzie C. 2:15), Vendome, dam of McKinley 2:29; his great grandam was MARY BLAINE by Signal 3327 (sire of the dam of Prussian Maid 2:19, etc.). Guy McKinney, sire of McAdrian 2:24, was by McKinney 2:11 1/4, out of Flossie D., by Guy Wilkes 2:19 1/4; second dam, Blanche Ward (dam of China Maid 2:05 1/4), by Onward 2:25 1/4; third dam, Blanche Patchen, by Mambrino Patchen 58, etc.

McAdrian is one of the handsomest and strongest made grandsons of McKinney in California. He has no faults; is a pure gaited trotter and a sure foal getter. He will make the season of 1912 at the Pleasanton race track. **TERMS: \$30 for the season. For further particulars, apply to or address**

E. D. DIGGES, Owner, 743 E. Anderson St., Stockton, Cal.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fastest stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911. and 31 others.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18..
Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Baron May 2:07³/₄; sired dams of 4 in 2:10.

SORRENTO
Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Bola 2:19³/₄, Lazy Bld 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

GEORGE WILKES 2:22
Sire of 83, dams of 204.

BELLE PATCHEN 2:30³/₄
In great brood mare list.

GRAND SENTINEL 2:29³/₄
Sire of 23, including Nettle 2:16³/₄, Tosca 2:18³/₄.

EMPRESS
Dam of 2 and granddam of 9.

HAMBLETONIAN 10
Sire of 40.

DOLLY SPANKER
Dam of 1.

MAMBRINO PATCHEN 58.
Sire of 25, dams of 162.

SALLY CHORISTER
By Mamb. Chorister, dam of 2 in 2:20, etc.

SENTINEL 250
Sire of 8 in list.

MAID ON LEXINGTON
By Mamb. Pilot 29.

ABDALLAH MAMBRINO
Sire of 15, dams of 42.

BIG ELLEN
By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|--|---|---|
| Francis J. 2:08 | Legal Patchen ... 2:15 ³ / ₄ | Dorothy C. 2:19 ³ / ₄ |
| Evelyn Patchen... 2:10 ³ / ₄ | Lucile Patchen ... 2:16 | Louise Patchen ... 2:19 ³ / ₄ |
| Scott Patchen ... 2:12 ³ / ₄ | Jerry Patchen ... 2:16 ³ / ₄ | Dr. Warren ... 2:19 ³ / ₄ |
| Dessie Patchen ... 2:13 | Knightstown Belle 2:16 ³ / ₄ | Roscoe Blinning ... 2:20 |
| Frank Patchen ... 2:13 ³ / ₄ | Alec Williams ... 2:18 ³ / ₄ | Mary Patchen ... 2:20 ³ / ₄ |
| Ruby Patchen ... 2:13 ³ / ₄ | Lols Patchen ... 2:19 ³ / ₄ | Black Patchen ... 2:20 ³ / ₄ |
| J. C. Patchen ... 2:14 ³ / ₄ | Auduous the Miller 2:19 ³ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed.

License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16¹/₄, sire of Copa de Oro 1:59, John A. McKerron 2:04³/₄, etc., and 2 dams of San Francisco 2:07³/₄, Mona Wilkes 2:08³/₄, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17³/₄ and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13³/₄, and timed separately in 2:14³/₄, and sire of Nat Higgins (5) 2:20 trotting, Cornelia Scott (3) 2:24³/₄ pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes.

For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13

Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22³/₄, (3) 2:15³/₄, (4) 2:11³/₄, Ella Mac (3) 2:14³/₄, Vallejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed.

Sire, McKinney 2:11³/₄; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09³/₄ to 2:28³/₄) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the

DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege.

The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-hore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

Prince Ansel 29220

2-y.-o. Race Record 2:20½.

By Dexter Prince 11363 (sire of Lisonjero 2:08¾, Eleata 2:08½, James L. 2:09½, Editb 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 10 and 1 dam of 1) by Ansel 2:20 (sire of 14, 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29, 1911, 2:09½; Wesos 2:12¾; Adansel (3) 2:14½; Dorothy Ansel (2) 2:20, 1910; Laura Rodgers (2) 2:18¾; Frances C. (3) 2:24¾; Mat. 2:19; Anjella 2:27¾, tr. 2:16¾; Bonnie Princess 2:25½; Princess Mamie 2:27¾, tr. 2:18¾; Prince Gay, tr. 2:12¾; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevola, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18¾; Oddmark (2), tr. 2:23; Georgie K. (2), tr. 2:30.

PRINCE ANSEL is a handsome bay stallion, stands 15.3 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09½. Adansel, his three-year-old son, lowered his record to 2:14½ and Wesos started three times and won twice, lowering his record to 2:12¾.

Season of 1911 at the **Race Track, WOODLAND, CAL.**

Terms: \$50 to insure, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address **A. B. KENNEY, Manager Woodland Stock Farm, Woodland, Cal.**

COPA DE ORO 1:59

REG. NO. 52785.

Fastest Horse on the Pacific Coast.

15.3½ hands; weighs 1200 lbs. A Faultless Horse. By Nutwood Wilkes 2:16½; dam Atherine 2:16¾ by Patron 2:16¾; second dam Athene by Harold 413; third dam Minerva by Pilot Jr. 12; fourth dam Bacchante Mambrino by Mambrino Chief 11.

FEE: \$75 for the season. (Limited to 50 mares.)

CARLOKIN 2:07 1/2

REG. NO. 36548.

Exhibition Mile 2:05¾; 15.2 hands; 1100 lbs.

By McKinney 2:11¾; dam the great broodmare Carlotta Wilkes (dam of Inferlotta 2:04¾, Mary Dillon 2:06¾, Carlokin 2:08¾, Volita 2:15¾, Lottie Dillon 2:16 (trial 2:10¾), Frank S. Turner 2:23, etc.); second dam Aspasia (dam of 4 standard performers); third dam Miss Buchanan, great broodmare, etc.

FEE: \$75 for the season. (Limited to 50 mares.)

New Exposition Park, Los Angeles, Cal.

Very best care taken of mares at reasonable rates. For further particulars, address

W. G. DURFEE, Box 1, University Station, Los Angeles, Cal.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11¾, out of Helena 2:11¾ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16¾ (sire of Copa de Oro 1:59, John A. McKerron 2:04¾, Happy Dentist 2:05¾, etc.); second dam Novelist 2:27 by Norval 2:14½; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at **MAYFIELD, Santa Clara Co., Cal.**

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address **J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.**

Shoot to Win a

1912 Long Run Trophy.

Our 1912 Long Run Trophy is a beautiful solid gold watch fob. It is a handsome, attractive and distinctive emblem of the attainment of expertness at the traps.

To encourage contestants, the conditions imposed are very reasonable.

Acquire the prestige accorded to every winner. Make your gun club conspicuous by being one of the Trophy Winners for the 1912 season.

Be sure your shells contain one of the "old reliable" brands of

SMOKELESS SHOTGUN POWDER.

Send to-day for our descriptive folder, "The du Pont 1912 Long Run Trophy." Shows you a full sized colored reproduction of Trophy and gives the exact conditions imposed. Remember the trophy is given free and engraved with winner's name, address and score. Address department 99.

Post and Montgomery

Three-Legged Horses

are not curiosities by any means. The country is full of them. The fourth leg is there all right but it is not worth anything because of a curb, splint, spavin or other like bunch. You can cure the horse of any of these ailments and put another sound leg under him by the use of

Quinn's Ointment.

It is time tried and reliable. When a horse is cured with Quinn's Ointment he stays cured. Mr. E. F. Burke of Springfield, Mo., writes as follows: "I have been using Quinn's Ointment for several years and have effected many marvelous cures; it will go deeper and cause less pain than any blister I ever used. I thought it my duty for the benefit of horses to recommend your Ointment. I am never without it." This is the general verdict by all who give Quinn's Ointment a trial. For curbs, splints, spavins, windpuffs, and all bunches it is unequalled. Price \$1 per bottle at all druggists or sent by mail. Send for circulars, testimonials, etc.

\$ 17,050

In Guaranteed Stakes

Pacific Coast Trotting Horse Breeders Association

STOCKTON, CAL., SEPTEMBER 25, 26, 27, 28, 1912

Entries close June 1, 1912.

NOTE—Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races.

Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starter is to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place.

Where a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

PROGRAMME FOR THE MEETING:

| WEDNESDAY. | THURSDAY. | FRIDAY. | SATURDAY. |
|---|--|--|--|
| 1—2-Year-Olds, Trotting Division Futurity Stakes No. 10 (Closed 1909) . . . \$1450 | 4—3-Year-Olds, Pacing Division Futurity Stakes No. 9 (Closed 1908) . . . \$1300 | 8—3-Year-Olds, Trotting Division Futurity Stakes No. 9 (Closed 1908) . . . \$3300 | 12—2-Year-Olds, Pacing Division Futurity Stakes No. 10 (Closed 1909) . . . \$ 950 |
| 2—2:20 Class Pacing . . . 1000 | 5—2:08 Class Pacing . . . 1000 | 9—2:08 Class Trotting . . . 1000 | 13—2:20 Class Trotting . . . 1000 |
| 3—2:15 Class Trotting . . . 1000 | 6—2:11 Class Pacing . . . 1000 | 10—2:16 Class Pacing . . . 1000 | 14—2:12 Class Trotting . . . 1000 |
| | 7—Driving Club Race . . . 400 | 11—Driving Club Race . . . 400 | 15—Free-For-All Pacing . . . 1000 |

Horses to be named with entry. Entrance fee three per cent, due at time entries close, one per cent additional if not declared out on or before July 1, 1912, and one per cent additional if not declared out on or before August 1, 1912. Declarations must be paid in full at time of declaring out. Usual five per cent additional from winners in all races except Futurity Stakes.

All races mile beats, best 3 in 5, except for two-year-olds.

For entry blanks and further information, address the Secretary.

We have on hand a copy of Vol. 8, for 1892.

Colt Distemper

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPOHN'S is safe to use on any colt. It is wonderful how it prevents all distempers, no matter how colts or horses at any age are "exposed." All good druggists and turf goods houses and manufacturers sell SPOHN'S at 50c and \$1.00 a bottle; \$5.00 and \$10.00 per dozen. All druggists and manufacturers.

SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

One Half Bottle Earned Him \$50

READ Mr. McLean's letter. See how one-half bottle of Kendall's Spavin Cure earned him \$50. The other half of the bottle may earn him even more. Many men make a business of buying lame horses and curing them up with Kendall's. Then they sell at a big profit.

Kendall's Spavin Cure

How about your horses? Why not get a bottle of Kendall's Spavin Cure and be ready to cure cases of Curb, Spavin, Splint, Kingbone, Bony Growths or lameness from bruises or other causes? Thousands of other Farmers are doing it—have been doing it for over 35 years. It's the old, safe, remedy you can depend on. Get a bottle at once and see how much it will save or make for you. At druggists \$1 a bottle; 6 for \$5. Ask your druggist for book "Treatise on the Horse," or write to DR. B. J. KENDALL COMPANY, Enosburg Falls, Vermont.

Port Wood, Nova Scotia, Jan. 1, 1911. Gentlemen, Last fall I bought a mare that I jump on account of joint. I tried your Spavin Cure and a half bottle removed it. That half bottle earned me \$50.00. Very truly yours, Laucy McLean.

DISPERSAL SALE.

I must move owing to the sale of my property, consequently must dispose of all my horses, a list of which follows:

Zomstein, a very handsome four-year-old bay pacing stallion by the great Zombro 2:11; dam by Steinway. He has had very little work, but can pace halves in 1:08 and quarters in 31½ seconds. This fellow is sound, gentle, and is a good-gaited, good-headed horse and will do to race.

Zomie Secretary, a two-year-old black trotting colt by Zombro; dam by Secretary, is well staked and will do to spend some money on. He has been a mile in 2:45, last half in 1:20, last quarter in 37¼ seconds. This fellow is entered in all the stakes on the Pacific Coast.

A yearling, full sister to Zomie Secretary, is a very handsome baby and is also staked throughout the West.

Zomie Gray, two-year-old gray colt by Zombro; dam by McGrath, has been a quarter in 40 seconds and is also staked.

High Pride, a very handsome stallion by Judge McKena, out of Whisper (dam of Zombro 2:11), is as handsome as his dead brother and acts like as good a trotter.

A yearling, full sister to Lady Garland, three-year-old, trial 2:14½, and five weanlings by The Bondsman, Zombro, etc.

For further particulars, prices, etc., address GEO. T. BECKERS, 3727 So. Figueroa St., Los Angeles.

SHOULD there ever be a war with Mexico the United States troops cavalry will be used in the invasion, and the problem facing the military authorities to be solved is "Where will there be available horses for this purpose procured?" All this talk about breeding thoroughbreds to get cavalry horses is "buncombe." While occasionally there may be some that might be strong and rugged enough to answer the purpose, the mentality of the animal must not be overlooked. As a general rule, thoroughbreds are very sensitive and intelligent and will not stand the abuse which they undoubtedly will receive at the hands of inexperienced men who have never ridden a horse, although they have enlisted in the cavalry. The best horse for this purpose must have considerable Hambletonian, Morgan or Clay blood in his veins, for they are more tractable than thoroughbreds, are not so nervous, are hardier, tougher and more rugged. The cowboys never use a strictly thoroughbred horse for their dangerous and exciting work if they can help it, and these men are almost "born in the saddle." The know from experience just what makes the best, coolest-headed, stoutest and most sensible horse. A remote cross of thoroughbred blood does not lessen the value of a cow pony, but no one ever undertakes to make a cow pony out of a horse by a strictly thoroughbred stallion or mare.

The United States Government must always keep a large cavalry force, and as various influences are at work in this country which are decreasing the demands for riding horses it is sound military policy

for the government to take steps for providing more demand for that class of horses, otherwise the gravest difficulty will be encountered in obtaining mounts during a war with Mexico or any other country, and those obtained either have to be taken by force or paid for at enormous prices. Unless we keep a sufficient force of cavalry in time of peace to create a fair demand for suitable mounts, breeders will cease to raise that class of horses. It is within the recollection of all of us how England not only exhausted her own available horse markets during the Boer War, but nearly exhausted our supply of suitable mounts; this at a tremendous loss to herself and entailing much loss of valuable time. We will never have such foreign markets available.

Should it be necessary to enter Mexico for the protection of American citizens at this very critical period, as stated above, most of our offensive work must be done by mounted men. If we do not actually enter that country we shall probably require indefinitely, a large mounted patrol along the border.

An increase of our cavalry must be more efficiently and economically made by keeping all units at war strength, and farmers and breeders, therefore, should receive more money for horses that are suitable for this purpose. Every year the number of horses available for use in the cavalry and artillery is decreasing as the big ranges and stock farms are being divided and sold to smaller farmers and breeders. These latter should be well paid if they set aside the best portions of their lands for the pasturing of horses such as the United States Government demands and must have. This is a subject which is causing considerable anxiety among the heads of the various military departments of the United States and it would not be surprising if some active measures be taken at the next session of Congress to offer sums large enough to induce men to go exclusively into the business of breeding and developing horses for the use of the government. Specifications describing the exact kind of horses needed must be issued, and prices placed high enough to warrant breeders in keeping their geldings until they are of a suitable age for this purpose, knowing they will be assured of a market and a fair profit for them by the United States Government. All these things tend to make the trotting horse breeders' vocation assume a brighter and more hopeful tone.

THE time is rapidly approaching for secretaries of race meetings and fair associations to prepare their classification lists for all trotters and pacers which they would like to see contest for the stakes and purses offered by their associations. Time has demonstrated that the most feasible plan to do this is to tabulate all the horses which have earned records during the past three years and have not been "laid on the shelf," and classify them accordingly. The work is tedious, and very often after it is completed to the satisfaction of the officers and directors of the association there are many owners and drivers, who, having horses which they think have reached their speed limit, feel that it is absolutely necessary for them to "kick" and say harsh things about the work done, claiming their horses have not been treated fairly, that the secretary had a grudge against them and all connected with them, and therefore they were getting the worst of it. This expression of indignation has been heard every year since 1850 and will be repeated until the "crack of doom." Where there are only a few races to be decided the majority of eligible entries, always rules. There can be no argument against this. Owners who have horses which are eligible to trot in 2:14 should not feel aggrieved when they see that they will have to enter them in the 2:12 class, for, if their horses are in any kind of form, they should be able to trot at least two seconds faster than they did last year. The same can be said of all other trotters and pacers which owners think the secretaries have discriminated against in making up the classifications.

"History repeats itself," and this is as true today in the light harness horse industry as it ever was in human affairs. The owner who feels that his horse has been slighted by the secretaries may be agreeably surprised to find that this year he can win the largest stakes and purses in faster classes with him. Therefore, he should not complain but go right on working his horse carefully with a view to having him sounder, stronger and better in every way than he was last year. Who knows but he may be the "kingpin of all the fast

trotters he meets." That is a result which may prove true, therefore it is poor policy for him to condemn any race track official for using his best judgment when the performance of his horse hereafter fully justified the secretary in making the classification which has taken him many days of thought to decide.

PLEASANTON, to use a theatrical phrase, will "be in the limelight" next Saturday, when the first racing matinee of the year 1912 will be held on the race-track there. Mr. S. S. Bailey, the owner of the track, has had a number of men putting the place in first-class shape, cutting away the weeds and filling up the hollow places near the course, cleaning the grand stand and making everything ready for the crowds that will come from San Francisco, Oakland, San Jose, Sacramento, Stockton and all intermediate points. The programme of events is published in another column of this issue and as there are no restrictions, all owners who have horses they think capable of winning will be allowed to start it looks as though there will be large fields and close contests. Between heats, no doubt, the champion pacer of 1911, Vernon McKinney 2:02, Joe Patchen II, The Bondsman and a number of other equine celebrities will be exhibited. Hence, a rare treat is in store for all who attend. There is no doubt there will be a good day and track, as well as a well-filled grandstand to usher in the matinee season.

MANY have been led to believe that the project of holding the largest race meeting in the United States at the Stadium, Golden Gate Park, in 1915 has been abandoned. This is not so. A committee is working on the plans, getting estimates for making the race course available, building stalls, fencing, etc., and the Panama-Pacific Exposition Commissioners will have all these estimates and such other data as they may desire some time this month. It is a big undertaking and it is better to use a little caution in the preliminary work, thus assuring its success, than to plunge madly into it and meet with failure.

VANCOUVER, B. C., TO RACE UNDER NATIONAL RULES.

Secretary H. S. Rolston, of the Vancouver Exhibition Association, informs us that their races will be conducted under the rules of the National Trotting Association this year. This action is taken in deference to the suggestion of the Pacific Coast Circuit that the National rules should govern its members, says Horse and Sportsman's Review.

Mr. Rolston says: "We have been a member of the American Trotting Association since our inception, and we had arranged our programme before the action in connection with the hopple question had been dealt with, or before the Grand Pacific Circuit had made their recommendation; in deference to their recommendations, we have applied for membership in the National Trotting Association, and will be governed by its rules as to the hopple question.

"While our personal idea of the hopple question does not coincide with the National, we will fall in line with the other members, so as to have a uniformity of racing on the Coast; and in view of the fact that the Grand Pacific Circuit will adopt this system, we will be very pleased to do likewise."

THE PLEASANTON MATINEE.

Great preparations are being made at Pleasanton for the first matinee of the year to be held next Saturday, April 13th. Following is a list of the events: Free-for-all pace; free-for-all trot; 2:30 pace; 2:30 trot; 3:00 pace, and 3:00 trot.

Anyone is eligible to enter with horses in the class named. At least four handsome cups will be offered for prizes and other trophies will be given.

The matinee has been arranged under the auspices of the Chamber of Commerce. Everyone is invited to arrange to be there on the day set and enjoy the sport. Some of the fastest horses in the country will probably be entered in the two free-for-all races.

It will be the last opportunity visitors will have to see the splendid string of horses belonging to Mr. R. J. MacKenzie and others in charge of Messrs. Havis James and George H. Spencer, as they will be shipped to Libertyville, Ill., on or about the 23d of this month.

Jos. F. Bryant resigned his position as head trainer for Mr. S. S. Bailey's trotting string at Pleasanton, and on Wednesday sailed for Australia. Mr. Bryant enjoys an excellent reputation as a trainer and developer of speed, and for over twenty-two years was one of the foremost trainers in Montana and the Northwest. Should he deem it worth while to engage in his chosen vocation in Australasia his success will be assured for men of his experience and ability are not very plentiful there.

NOTES AND NEWS

Send in your items.

Frank Childs intends to take his string of horses to Spokane, leaving Sacramento April 15th.

Are you going to Pleasanton next Saturday? There will be some good matinee races decided there.

The foal Sonoma Girl 2:04½ will produce this spring, by Barongale 2:11¼, should he worth a small fortune.

Mr. Alex. Gibson, of Vancouver, B. C., has purchased Era 2:10, by Zombro 2:11, dam Nellie K., by Gen. Grant Jr.

Over 1400 entries have been made for the \$20,000 Horseman's Futurity for foals of 1912—an increase over last season of 100.

Vernon McKinney 2:02, has been bred to nine good pacing mares (most of them speed matrons) since his arrival at Pleasanton.

Nutwood Wilkes 2:16½, is the sire of seven performers with records from 2:01 to 2:09½, and the dams of seven with records from 2:03¼ and 2:09¾.

There was a good attendance at the Pleasanton race track last Saturday, but the prevalence of a strong northerly wind prevented any fast workouts.

Expressive 2:12½ (dam of Atlantic Express 2:08¼) and her daughter, Esther Bells 2:08¼, are both in foal to King Bellini (2) 2:27¼, son of Bellini and the famous Nettie King.

John E. Madden has owned the three fastest mares ever owned by one breeder, Hamburg Belle 2:01¼, Soprano 2:03¾, and Nancy Hanks 2:04. The average time of the three is 2:03.

Under the new State registering law, over 1100 stallions of all breeds are standing for service in Pennsylvania up to date. Percherons are the leading breed.

Everybody interested in light harness horses is going to try and attend the Pleasanton matinee next Saturday. Representatives from all the leading amateur driving clubs will be there.

Chas. A. Spencer and his string of trotters and pacers are nicely located at Sweetwater track, San Diego. The stallion, Adansel (3) 2:14¼, had a very severe attack of influenza after his departure from Woodland, but is all right again.

It is estimated that the American Trotting Association will lose 100 members from its position on the hopple question. There is some satisfaction, however, in standing up for the best interests of the sport.

Mr. Chas. A. Harrison was visiting in this city last week. He reports all of J. W. Considine's horses in Walter Maben's charge at Los Angeles to be in excellent condition and doing all that is required of them.

Wm. Higginbottom, of this city, has been appointed auctioneer for the Portland Horse & Cattle Sale Company and will be in the box at the coming sale at the Portland Country Club grounds, April 16th, 17th and 18th.

Rosaro (full sister to Marengo King 2:29¼) only brought \$245 at the Uihlein dispersal sale. Her yearling colt by The Harvester 2:01 brought \$1100 at this sale, however, and is now a member of "Pop" Geers' stable.

Chiquita 2:10, pacer, is one of the best pacers of his inches on the Pacific Coast. He stepped a quarter last Saturday at the Stadium in 31 seconds, the last eighth in 15 seconds. He should get a mark of 2:05 or better.

The bay filly Capitola, foaled 1910, sired by Dan Logan, out of Lula Mc. by Arthur Wilkes, owned by W. J. Miller, of Chico, has been a quarter of a mile in 33 seconds. Pretty fast for the month of March with the little work she has had.

The silver cup which was donated by Dr. Toner to be won at one of the matinees of the San Francisco Driving Club was captured by W. J. Malough's handsome Diabolo gelding Senator H. Credit for this has not been given this horse before.

W. H. Knight, secretary of the American Trotting Association, writes: "Owing to so much controversy about the retention of the Hopple rule by the American Trotting Association, some secretaries, owners and drivers seem to be under the impression that hoppers are harred in all races and on horses of all ages during the year, 1912. This is a mistake. Hoppers are only barred on horses four years old and under. Horses over four years old may continue to race in them as heretofore."

Effe Logan, trial 2:22 (dam of Sir Albert S. 2:03¾, and Jim Logan 2:05¼) dropped a pretty horse colt on March 4th. His sire is Demonio 2:11¼. Mr. Montgomery sent her to the Suisun Stock Farm to be bred back to this horse.

Since the Los Angeles and Breeders' meeting programmes have been published, owners are sending for their colts and fillies that were out on pasture and are distributing them among the trainers, so as to prepare them for the races this fall.

Last Sunday Palo King was bred to a very fine Diabolo mare whose dam was the good game Sidney mare Edna R. 2:11¼, and whose granddam was Stella C. 2:26 (dam Ama A 2:10¼) by Director 2:17. The owner wants a Little Lucille (3) 2:09, it seems.

Starhrino, and the green pacer Billy Wilson, worked a mile on Tuesday in 2:10¼, last half in 1:03¼, last quarter in 31 seconds, on the Pleasanton track. The two "James" drivers handled the ribbons over them, as Mr. Spencer was suddenly called East.

Mr. Wm. McGilvery, of Vancouver, B. C., purchased a very handsome four-year-old filly by Redlac 2:07½, out of a mare by McKinney 2:11¼; second dam (dam of Era) by Gen. Grant Jr. This filly was shipped to her northern home on the 20th.

D. Lynn, of Salinas, reports the arrival of two foals as follows: "My hay mare Woodine by Woodnut 2:16½, had a fine bay colt, March 14th, by G. Albert Mac, 2:30, and my chestnut mare Belle Lynn by Diabolo 2:09¼, also had a fine colt by The Bondsman, March 29th."

Ezra Tilden, son of John Tilden and nephew of Dick Tilden, is training a public stable at Salem, Ore., and among the trotters is General, five-year-old gelding by Package 2:20, a Nebraska-bred son of Pactolus 2:12¾. General has trotted a mile this season in 2:22¾, with the last half in 1:08.

George Ramage, of Los Banos, brought his handsome mare, Grace Lecco by Lecco 2:09¾ out of Clara Oakley (sister to Bert Arondale 2:19¾), to San Jose and bred her to Bon McKinney 2:24½, the grandly bred son of Bon Voyage 2:08 and Daphne McKinney (dam of Frank N. 2:07¼, etc.), by McKinney 2:11¼.

Panhoy worked a mile for Mr. Havis James in 2:09¼ on Wednesday and the Zombro mare this trainer selected in Los Angeles for Mr. MacKenzie, worked a mile in 2:15, last half in 1:05, and the last quarter in 31 seconds, and then seemed to have more speed in reserve. She will do.

While visiting Los Angeles John W. Morris, of Vancouver, B. C., saw a very likely looking bay gelding, two-year-old, that he fancied and bought. This youngster was sired by Walter Barker 2:19¼ (son of Heir-at-Law 2:12) dam Una K. 2:14¼ by McKinney 2:11¼; second dam Nellie K., (dam of Era 2:10, Signet 2:29) by Gen. Grant, Jr.

All the stalls and most of the paddocks on the San Mateo Stock Farm which were at one time owned by Guy Wilkes 2:15¼, Sable Wilkes 2:18, and the aggregation of fine mares owned by the late Wm. Corhitt, are still used for horses, but they are of the polo type. Mr. Frank Carolan has turned this place into a nursery for polo ponies.

John E. Madden has purchased the champion Hackney, Oxnard King by Imp. Acrobat—Rising Emma by D'Oyley's Confidence and will experiment with an occasional hackney cross. Mr. Madden has always been of the opinion that the Bellfounder (hackney) cross in Hambletonian 10 was partly responsible for his wonderful potency.

Jim Logan 2:05¼, the sensational pacer of 1910 and 1911, is entered in the Grand Circuit races, and J. Elmo Montgomery, his owner, will take him East and handle him in all of his races. Jim has not been driven any faster than a mile in 2:30 this year; he is "hard as nails" and much stronger than he was this time last year.

John A. McKerron, the celebrated horse hoot manufacturer, reports business improving in his line. He has been very busy fitting out a number of horses a Pleasanton. When he gets through measuring a horse for boots or harness there is never any trouble about them fitting perfectly. He is an artist in his line.

One of the most attractive exhibits in the museum, Golden Gate Park, is the collection of gold medals awarded to the horses and cattle belonging to the late Frank H. Burke, of this city, at the various State and local fairs during the past twenty-five years. These were presented, together with an elegant portrait of Mr. Burke, by his widow, Mrs. M. A. Burke.

To date eight trotting stallions have taken records below 2:05 on the American turf, but only one of them—John A. McKerron 2:04½—is now doing public service here. The Harvester 2:01, Billy Burk 2:03¾ are all in training, while Creseus 2:02¼, Bob Douglas 2:04½ and General H. 2:04¾ are all owned in Russia, and Admiral Dewey 2:04¾, the last of the eight, has been dead for several years.

Cashier G., by Greco B., dam Banker's Daughter, 2:13½, dropped a filly by Prince Ansel 2:20½. Her owner, Mr. O. H. Whitehouse, of Woodland, will breed her to Palo King 2:28½, this season. She has a fine colt by Dan Logan, which, like the foal that just made its appearance, is well entered in the Futurity stakes.

Lena Andrews, three-year-old, trial 2:26, the good trotting mare by McKinney 2:11¼, dam the famous broodmare Stenwinder, dam of the ex-champion stallion Directum (4) 2:05¼, Directina 2:14¼; Electrina 2:20; Reina Directum, trial 2:11, and granddam of Dr. Lecco (4) 2:11½, and Audran 2:14½, is one of the high-class mares bred this season to Almaden D. 2:19¼, at Salem, Ore.

Major Delmar 1:59¾, ex-king of trotters, was included in the sale of the Ardmaer Farm horses to David M. Look, and will, it is said, be transferred to E. T. Bedford, who will use him as a driving horse at his farm at Greens Farms, Conn. The ex-champion trotting gelding is totally blind, and it is pleasing news that he has fallen into the hands of such a kindly gentleman as is Mr. Bedford.

Mr. Geo. Spencer, one of the trainers connected with Mr. R. J. MacKenzie's stable at Pleasanton, was telegraphed to by relatives in Wisconsin where his wife's mother recently passed away, so he and the bereaved daughter started East immediately. When Mr. H. James arrives at Libertyville, Ill., with the horses Mr. Spencer will join him there. In the meantime, Charley James will assist in handling the horses at Pleasanton.

In reply to a statement that Demonio 2:11¼ should not be credited with the pacer Mona Rose 2:13¾, Mr. Walter Masten writes that she was by Falrose 2:19, who also sired one 2:10 performer Don 2:10, and with Primrose 2:13 a new addition to his list this stallion has three trotters and eight pacers to his credit, one sire of one, and four dams of five trotters and one pacer. Last year his daughters produced McDougall 2:19¼, Iran Rose 2:26, Nightingale 2:27¼ and Baron Rose 2:27¼.

William Smiley, of Burney, Ind., reports that he has some good youngsters, including Burney Patchen, by The Patchen Boy 2:10¾, now at Pleasanton, Cal., a five-year-old that goes without hoots of any kind, and is exceptionally fast; a three-year-old filly, by The Patchen Boy, and a handsome yearling entered in The Western Horseman Stake, by Oratorio. All these colts are out of Lady Agan, dam of Fred S. 2:07½, her first foal, and she will be mated this season with Ess H. Kay 2:09¾.

At Oxnard a new organization has been formed. It is called the Seaside Driving Club. An initial matinee of this club will be held May 1st. The officers of the association are T. H. Gabbert, president; S. R. Canfield, secretary; E. P. Foster, treasurer, and the following directors: Charles Donlon and James Leonard, Oxnard; Capt. Stowe, Fillmore; Sam Henderson, Santa Paula; A. Camarillo, Camarillo; T. S. Clark, Nordhoff; W. A. Hobson, H. W. Delaney, E. P. Foster, T. G. Gabbert, James Blackstock and A. Norman of Ventura.

Homer Rutherford made a flying trip from Salem, Oregon, to San Jose, Cal., to get his five-year-old pacing mare, by Zolock 2:05½, and her two colts. While there he purchased a very fast green trotting mare by Cupid. Homer says she has only had six weeks' training in her life. She worked a mile in 2:29 last Friday, with the last eighth in 16 seconds. According to Homer's statement, she looks like a phenomenal trotter. He expects to race her in all the large stakes on the Coast. His pacing mare by Zolock is a classy looking pacer. She is good gaited, and has a world of speed. Homer has several other youngsters in his stable at Salem.

Horsemen everywhere on the Pacific Coast will read with deep regret that Joseph H. Kelly, of San Bernardino, died two weeks ago. The deceased was identified with the trotting horse industry of Southern California for over a score of years. He owned a large livery stable in San Bernardino and last year took a vacation from his daily duties and brought Bolock 2:16½, by Zolock 2:05¼, out of Bo Ellen, by Happy Prince, up to meet the trotters on the California Circuit. He endeared himself to the drivers by his gameness and fairness every place on the circuit. Of a quiet and retiring disposition, Mr. Kelly was always pleased to have anyone talk "horse" with him and was one of the best posted men in his line in this State.

Training should begin as soon as the colt is foaled. Its first impression of man should be that man is its friend. The colt should be so treated that when the man in charge of its dam goes to the paddock, the foal will come up to him without fear of harm. This training is very important, as this part of the colt's life has a lot to do with how it will be weaned and broken. At this point we want to say we make a great mistake to think any sort of a man will do to work with the colts. Sometimes we say, "Oh, he is a green man, just put him in the colt barn." Now, the actual truth is, there are few, and very few, men fit to work with colts, therefore, we should pick out the very best, sober, quiet, easy going, mild tempered and soft voiced men to put with the colts.

The Park Amateur Driving Club's stable has been leased to J. J. Gethin of the San Francisco Riding Club.

Wm. Kenny, the "hike" man of 531 Valencia street, has a splendid assortment of second-hand carts and a new line of sulkeys and carts, 1912 models.

Attention is called to the Kings County Fair Association's advertisement of its district colt stakes for two and three year olds. Entrance to these will close May 1st.

It is now said that Fantasy 2:06, who was bought at the last Old Glory sale by James R. Magowan, of Mt. Sterling, Ky., for the insignificant sum of \$90, is surely in foal by Alliewood 2:09½.

A. W. Ward, the young man who brought out the two shire stallions and eight shire fillies from England in January for Ansel Easton, of Millbrae, reports them doing exceedingly well. They will be shown at the State Fair at Sacramento this year.

The filing of the will of the late Susan L. Munroe, of Fall River, Mass, last Saturday, reveals the fact that she has left a fortune estimated at \$100,000 to her faithful mare, Daisy, which has served her for twenty years and more. The estate is said to be held for the animal's benefit by a trustee, and the income used for her comfortable maintenance and support.

Catalogues of the Portland Horse and Cattle Company's big auction sale, which is to take place at Portland, Oregon, April 16th to 18th, inclusive, have just been received. There are some grandly bred trotters and pacers named—sons and daughters of the most fashionable of Pacific Coast sires. The list of broodmares is a good one and nearly all to be sold are heavy with foal. The whole consignment surpasses any heretofore disposed of by this enterprising concern.

Alfreda B. (Alfreda Bell) which took a trotting record in 1910 of 2:10¼, and a racing record of 2:14¼ last year at Minot, N. D., has been sent to Rupert Parker of Waterloo, Iowa, by her owner E. A. Reichel of Los Angeles, Cal. She was shipped from Los Angeles on the 18th and will be staked down the line according to her owner's wishes. She started twice last year, her first start at Bowhells, N. D., where she was second three times to Doctor T., in Parker's stable. This was on June 27. The next week at Minot she reversed the tables on Doctor T., winning a five-heat race from him and Donny Bright getting her record in the third heat. These were her only starts as a pacer last year. She is rated as a very high class pacer, and was bred by C. W. Fleming of Elliston, Mont., a former Iowa breeder, and is by the Iowa pacer Bob Fitzsimmons 2:07¾, an own brother to the pacer Alpha W. 2:06¼. A green three-year-old pacer by Allerton 2:09¼, owner by H. L. Richardson, Bowhells, N. D., has also been added to his stable. Parker's stable for the coming year looks extra good.

"A prophet is not without honor save in his own country." How true this old axiom is. We Americans have never fully appreciated what we have had in the development of our trotter. We have turned to foreign breeds and to the thoroughbred while our neighbors in foreign lands have drawn on us to improve their horses. They did not go to England for the thoroughbred, Clyde or Shire for the hackney. They did not go to France and Germany for the French and German coach horses, the Belgian or Norman draft, or to Russia for the Orloff. They came to America—from Russia, Germany, Holland, Austria, Italy, England and the far eastern countries—for the American trotter, and they have all accomplished wonders in building up their horses and are still coming over here for more of the same blood. Many of our breeders and farmers have for years been experimenting with the foreign breeds to the detriment of our own. Our government has already been worrying as to the possibility of getting remounts for our army, a shortage is at hand. Draft blood will not do. Hackney blood will not do. Thoroughbred blood, unless well diluted, will not do. And there is nothing left but the trotter.

C. K. G. Billings will ship his string of champion trotters to Europe starting on April 16 and he will exhibit the horses on the European tracks next summer. The stable will comprise Lou Dillon 1:58½, champion mare; Uhan 2:58¾, champion gelding; The Harvester 2:01, champion stallion; Charley Mitchell 2:04¾, champion race trotter of 1911, and Lewis Forrest 2:06¼, champion green gelding. The horses will go direct to Moscow in charge of Charles Tanner, of Cleveland, who trains for Billings. When Mr. Billings showed Lou Dillon in Russia the great mare aroused the greatest enthusiasm among horsemen and the general public. Uhan became the champion trotter last summer at Cleveland. Mr. Billings will drive the champion to wagon on the European trip, and it is said to be his intention to trot Uhan up to mile faster than any trotter has shown outside of this country. Russia has bred famous trotting horses for many years and the breeders there receive imperial support. The Russian breeders have never succeeded in producing animals of the speed of the American trotters, although many noted ones have been exported to the Czar's domain and crossed on the Orloff and other noted strains.

It is certainly had form to turn down a fashionably-bred young stallion on the grounds that he is an untried sire. Every stallion is an "untried sire" early in his stud career, so all are on an equality in this respect, say "Columbus," in Horse Review. A very casual study of the Year Books will teach one that while Hambletonian was immeasurably greater as a sire of trotters than the other stallions of his generation, many of his sons excelled him as sires of trotting speed. George Wilkes, founder of the greatest branch of the Hambletonian family, was a remarkable horse and one of the greatest of his generation. Like Hambletonian, George Wilkes sired many successful race horse trotters, but sons, grandsons and great-grandsons have sired greater money winners, faster trotters and far more early colt trotters than did the brown son of Hambletonian and Dolly Spanker. This is the logic of breeding, and should appeal to horsemen of the present day with far greater force than at any time in the history of light harness horse breeding, for there are so many brilliant young colt trotters just beginning their careers in the stud. It will not do to pass the young stallion bred in speed producing lines, simply to patronize a stallion that has a few standard performers to his credit.

THE LAST RACE MEETING AT STOCKTON.

Since it has been announced that the Pacific Coast Trotting Horse Breeders' Association would hold its meeting at Stockton this year much interest has been aroused among the people of the San Joaquin Valley, many of whom were not there when the last race meeting was held at Stockton. There are others who were and a brief account of that memorable meeting may prove interesting and serve to recall many incidents which made this meeting a very lively and exciting one. It is a pleasure to note that many of the drivers who piloted their trotters and pacers in these races are still able to handle the ribbons and will again make their appearance in the races there this fall:

On September 26th, 1902, the race meeting under the auspices of the Stockton Driving Club was held at the race track just inside the city limits of Stockton. There was a tremendous crowd there on the opening day, the grandstands being packed and hundreds of carriages, buggies, traps and surreys occupied the space reserved for them in the infield.

The officials who presided were Judges, Dave Young (presiding), J. Simonds and Frank D. Cobb; clerk of the course, Fred Arnold; starter, Dick Havey.

There was a trotting race, 2:14 class, for a purse of \$500 and a pacing race for green pacers, purse \$500, and three running events. In the first race there were three entries: Alta Vela (Hooper), Petigru (Durfee), and Vic Schiller (Van Bokkelen). It proved to be an exciting race from start to finish. Vic Schiller beating Alta Vela a head in 2:12 in the first heat, Petigru third, time 2:12. Alta Vela, the perfect-gaited son of Electioneer, got a record of 2:11¼ in the second heat, and then captured the third in 2:12. Durfee, with Petigru, outdrove Hooper in the next heat, winning by a neck in 2:14 but the game little fourteen-year-old stallion Alta Vela captured the next and deciding heat in 2:14¼.

In the green pacing race there were only three entries left to face the starter, for all who entered were afraid that Alone, Barstow's wonderfully fast pacer would distance them. They were right about her superiority for she won from The Mrs. (Whitehead) and Eagletta (Linson) in straight heats. Time—2:15, 2:13 and 2:15¼.

The track was pronounced perfect and the speed shown was the best evidence that it was "fast."

The second day of the meeting was ushered in with a strong wind (almost a gale), blowing up the stretch. Nevertheless, a large crowd was in attendance. There were two races on the programme for light harness horses and three running events. The first was for the 2:30 class trotters. The entries were: Tom Smith (Van Bokkelen) Belle (Bunch), Swift Bird (Tryon), and Brinev K. (W. Durfee). Tom Smith won the three heats and race in 2:16¼, 2:16¾, and 2:18¾, although he had been sick for almost a year. Prof. E. P. Heald, his proud owner, was showered with congratulations. It was claimed that the time made was at least two seconds slower than it would have been had there not been such a strong gale.

The 2:12 class race had four starters: El Diahlo (Farrar), Topsy (Whitehead) and Dictatress (Vance). Topsy paced to the half in 1:02 in the first heat and came home an easy winner in 2:10 but El Diahlo, an aspirant for first money, was not to be denied, for he won the three following heats in good style. Time—2:12, 2:12½, and 2:13.

The wind was blowing a hurricane on Thursday and the few members of the Driving Club shook their heads as they gazed at the sky and saw the fast flying clouds which betokened "sonally weather and high winds." To their delight, however, people from all the country round began to pass through the gates before noon and when Judge Young and his assistants took their places in the big pagoda-like judges' stand and looked toward the grandstand they noticed every seat occupied, while along by the outside fence of the course spectators were crowded three deep from the seven-eighths pole to almost around the first turn. The programme was a good one. The first was for the 2:40 class trotters: Princess (Vance), Cicero (Richardson), Vi Direct (Frelson and W. Durfee) and Donnybrook (Cory). They finished in the order named. Jas. Iverson, of

Salinas, saw his good mare Princess win the first two heats in 2:22, 2:25, lose the third to Vi Direct by a length, in 2:18, and then capture the last heat and race as Vi Direct broke and was distanced.

The \$1000 pace for the 2:20 class brought out all the skill that "Farmer" Bunch had to win with the gelding Sidmore, owned by the Meek Estate, of Hayward; as it was, I. L. Borden's Diablo pacer N. L. B. (W. Durfee), was not more than a throat latch behind in the last two heats. Time for this race—2:16, 2:16½ and 2:15. The other contestants were Cranky Thorne (Helms and Whitehead, and Alford C. Ward).

Friday was eventful because it was called "Stockton Day." All the stores and business houses closed, consequently the attendance was greater than on any other day of the meeting. There were two races for \$500 purses. In the 2:18 class trot there were the following and they finished in the order named: Cozad (Clark), Forest W. (McDonald), Petigru (W. Durfee), Lady Fair (Bunch) and Verona (Frelson). Time—2:14¼, 2:15¾, and 2:15¼. It was a very easy race for Cozad.

There were only three starters in the 2:25 class pace: Eagletta, Polka Dot and Diahlita, the last named was shut out in the first heat, and Eagletta, ably driven by Will Durfee, won the race in 2:14¼, 2:16½ and 2:15. The running races furnished considerable excitement, a local horse, Billy Young, winning one of them.

The last day of the meeting was signalized by the best racing of the meeting. It was for the 2:15 class pacers, the entries and drivers were Harry J. (Hogboom), Robert I. (W. G. Durfee), Midnight (Bartee), and Yukon (Gordon). Robert I. won the first heat in 2:11¼, Harry J. captured the next heat in 2:09¾, thus entering the 2:10 list. He paced the next two heats in 2:11 and 2:11¼. Mr. Hogboom was surrounded by an admiring throng as he alighted from his sulky.

Miss Logan endeavored to beat the State record of 2:03¾ made at Los Angeles, October 27, 1897, by John R. Gentry, but 2:05 was as fast as she could go. The high wind, no doubt, having much to do in retarding her speed.

The next evening (Sunday) the big pavilion in which the agricultural, horticultural and mechanical exhibits were displayed was consumed by fire. This building was situated between the business and residential portions of the city and, besides it, there were destroyed some six blocks of buildings, at a loss estimated at over half a million. The pavilion was a magnificent wooden structure and contained at the time of the fire the finest exhibits ever assembled at a fair in Stockton and all were destroyed. The building cost \$45,000. It had always been the custom of the Stockton Driving Club to keep the pavilion open for a week after the close of the week's racing programme, and, from the receipts, to make the club even on the fair. The loss to the club, therefore, was very heavy and the individual loss to the members very severe.

Another fire that fall destroyed the grandstand, several rows of box stalls and a large pavilion on the race track grounds. Since then there has never been any concerted effort to replace this grandstand until the San Joaquin Driving Club working in conjunction with other business associations and the Board of Supervisors in Stockton declared their intention to have the P. C. T. H. B. Association hold a meeting there this fall.

DEATH OF FRANK SKINNER.

Frank St. D. Skinner, one of the leading race experts in the United States, died at his home in this city last Monday. He had been ill for several months with a complication of diseases, and despite the very best medical attendance and care, he passed away. Deceased was 52 years of age. In 1892 he took over the form chart privilege that was started by the "Breeder and Sportsman," and with the late Horace Egbert issued this publication semi-monthly for many years. Mr. Skinner has held various offices as handicapper, chart maker, judge, etc., and was one of the best "callers" ever seen on a race course; his duty being to call out the positions of the contestants in each race so they could be marked by the chart maker. His memory of stable colors, horses and jockeys was remarkable. He owned a small but select string of thoroughbreds and raced them very successfully. He had few equals as a gentleman rider and participated in many races in which the horses of C. W. Clark, Thos. Williams, Jr., and Walter Hobart, ran.

It seems but a few years since a little coterie of bright young men used to gather evenings in the editorial room of the "Breeder and Sportsman" at 313 Bush street and talk of the chances of the various horses that were appearing at the old Bay District track. Among those present with Jos. Cairn Simpson as censor were: Charles Trevathan, Ben. Benjamin, Fred. Mulholland, Frank Skinner, Horace Egbert, W. Gilbert, D. Higgins, Ralph Tozer and Fred George. The first seven have joined the silent majority, D. Higgins is in New York City, Ralph Tozer has been quite ill for some time and Fred George is lying at the point of death with tuberculosis. All these were enthusiastic and talented writers and contributed their share toward hoisting the thoroughbred interests of the Pacific Coast, but in twenty years death and sickness have made a broad sweep among them.

CHIQUITA.

Beautiful! Sir, you may say so. Thar isn't her match in the county.

Is thar, old gal—Chiquita, my darling, my beauty? Feel of that neck, sir—that's velvet! Whoa! Steady—ah, will you, you vixen!

Whoa! I say. Jack, trot her out; let the gentleman look at her peaces.

Morgan!—She ain't nothin' else, and I've got the papers to prove it.

Sired by Chippewa Chief, and twelve hundred dollars won't buy her.

Briggs of Tuolumne owned her. Did you know Briggs of Tuolumne?

Busted hisself in White Pine, and blew out his brains down in 'Frisco.

Hedn't no savey—hed Briggs. Thar, Jack! that'll do—quit that foolin'.

Nothin' to what she kin do, when she's got her work cut out before her.

Hosses is hosses, you know, and likewise, too, jockeys is jockeys.

And 'tain't ev'ry man as can ride as knows what a hoss has got in him.

Know the old ford on the Fork that nearly got Flanagan's leaders?

Nasty in daylight, you bet, and a mighty rough ford in low water.

Well, it ain't six weeks ago that me and the Jedge and his nevey

Struck for that ford in the night, in the rain, and the water all round us.

Up to our flanks in the gulch, and Rattlesnake Creek just a bilin'.

Not a plank left in the dam, and nary a bridge on the river.

I had the gray, and the Jedge had his roan, and his nevey, Chiquita;

And after us trundled the rocks jest loosed from the top of the canyon.

Lickity, lickity, switch, we came to the ford; and Chiquita

Buckled right down to her work, and, afore I could yell to her rider,

Took water jest at the ford; and there was the Jedge and me standing,

And twelve hundred dollars of hoss-flesh afloat, and a-drifin' to thunder.

Would ye b'lieve it? that night that hoss, that ar' filly, Chiquita,

Walked herself into her stall, and stood there, all quiet and dripping;

Clean as a beaver or rat, with nary a buckle of harness, Just as she swam the Fork—that hoss, that ar' filly, Chiquita.

That's what I call a hoss! and—What did you say—Oh, the nevey?

Drowned, I reckon—jeastways, he never kem back to deny it.

Ye see, the derned fool had no seat—ye couldn't have made him a rider;

And then, ye know, boys will be boys, and hosses—well, hosses is hosses. —Bret Harte.

CARING FOR A CAMPAIGNER.

It is frequently said, and very truthfully, that to the care-taker of some trotter or pacer belongs the real credit of his performances. This statement does not necessarily detract from the glory of the driver but means that, during the intervals between races and workouts, the horse has been cared for, watched and in many instances "nursed" in such manner as to bring him to these races and workouts, when he comes directly under the driver's skill, in a condition to enable him to perform with credit to himself.

The groom who pokes the grain into his charge's feed box through a hole in the wall, and performs the rest of his duties in the same careless manner, need never expect to be credited with the success of his horse; but on the other hand should not be surprised if it is said of his horse, that was a failure, "had he had a good care-taker he would have been a 2:10 trotter."

The successful trainer and driver is looking for, and it is absolutely necessary that he have, care-takers who have studied their horse, who "know" him, and are reliable sources of information concerning both his form and peculiarities.

It will be the endeavor of the writer, in this article, to enumerate and discuss a few of the important and fundamental phases of the care-taker's duties.

To begin with it is necessary that the man who would become efficient and valuable to his trainer, forget that the rising or setting of the sun is in anyway an indication that his duties are to begin or end. This does not mean that a groom is expected to work twenty-three hours and sixty minutes out of each twenty-four hours, but that he be on the job and working at whatever hour of the day or night the horse may require attention.

Ordinarily his hours of actual work, especially when at the races, are less than in most any other line of employment; therefore when conditions or circumstances make it necessary for him to look after the comfort or welfare of his charge at a time, that a "union man" would call "after hours," he should be ready and willing.

Each horse possesses individual temperament and constitutional peculiarities, not necessarily widely different from others, but at the same time, enough so that, taking into consideration climatic changes, it is absolutely impossible to lay down a set rule for the care of all race horse. This makes it imperative that the successful groom be discerning enough to detect these individual traits and conditions.

One of the most important features with which the groom has to deal is his charge's eating. The horse that habitually leaves a portion of his feed, or will not eat on the cars or on race day, must, if he is going to successfully stand up under his work

and "live" through a race, be coaxed or fooled into eating, for he cannot be forced.

Therefore, when a horse is placed in the hands of a careful groom the first thing that comes under his attention is the horse's appetite. He will place four, five or six quarts of oats, what he considers, according to the horse's size, he is apt to require, in the feed box. Then in the course of twenty or thirty minutes will come back to see if it has all been cleaned up. The manner in which the horse attacks the feed box or listlessly turns away, after having sampled it, is a reliable indication as to his general condition. A good groom will always watch his horse take the first few bites and if at all possible will be around to see if his appetite lasted to the bottom of the box.

In harnessing, hitching and jogging the horse, the care-taker has opportunity to observe any special dislike the horse may have for a certain part or of style of harness. His opportunities as a rule in this direction exceed those of the trainer, and his suggestions to the trainers along this line may prevent the horse developing bad habits, or cure him of those already acquired.

Naturally the care-taker should be the first one to observe that splint which is developing, to discover the corns that are coming in his feet or to see where he has speedy-cut or brushed a knee hoot, and should not leave it for the trainer to discover. In pronounced cases any defect of this sort will soon come under the trainer's observation, but if the groom has learned it first and spoken of it in a respectful manner, he has strengthened himself in his employer's estimation, and benefited his charge.

When workout day or race day arrives he should see to it that the hoots and harness are all in good repair and that there are no blotches of dirt or hair next to the horse that will chafe and cause sores, for no matter how slight these hairless and often skinless places may be they will tend to detract the horse's attention from making speed. Any patch on the harness should be carefully smoothed off to prevent this same trouble.

When the horse first begins to make speed or work miles that require effort he should be watched very carefully between heats. And the first time that he is really heated up and asked to exert himself for three, four, five or more heats, is the time to begin to get a line on how much water he requires between heats. Whether or not he should have more than a mouthful when he first comes in and if he will do best with considerable of a drink or just a swallow prior to going out for another heat. This is also the time to train him to urinate between heats, and by careful and persistent effort this can be brought about and will prove a great benefit to the horse later in the season when he has to be gotten ready, around twelve o'clock and does not get through his race until sundown.

There is a great difference among horses as to how much water they can stand or will require during the cooling out process, and this amount can only be determined by careful observation. To fail to give a horse as much water as could safely be given him is cruelty, and on the other hand too much is apt to result fatally. Your "heeler" should never be asked to administer the water at least until the horse has been walking some time. He will of course use his best judgment but that cannot, or at least should not, be equal to your own.

The weight of clothes used in cooling-out and between heats is also especially important and the success of your next race is apt to be measured by your judgment in this respect.

Some horses will come out of a race hetter for having had a reasonable "sweating" when first started walking. Others will do best if allowed to gradually cool from the time they are started walking. Besides the physical peculiarities of the horse the temperature of the day must be considered and the feel of the of the air that is stirring. The groom that walks his horse just two hours or just two and one-half hours, that is, cools his horse out by the clock instead of observing the condition of the animal, is apt to find him with his tail to the feed box the next morning or even that evening.

Applying his handages is more or less of a mechanical operation that varies mostly in accordance with whether or not the horse has a "dinky" tendon or some similar defect; but the greatest care should always be exercised, lest they be pulled too tight or a lump or knot left to hear, for several hours on the tendons.

Shipping from one racing point to another is, to say the least, a tedious and disagreeable task for the groom and the horse; but because it is tedious does not justify the former in neglecting his animal. Your stallion may be the best behaved horse in the world, still it is generally possible when waiting for the trunks to be loaded or the car to be "spotted," to keep your stallion at a safe distance from other horses. To take a risk of any sort when just a little more care will eliminate all danger is not the act of a judicious man in any line of work, and certainly not in shipping race horses.

No matter how good a shipper the horse may be or how carefully he is attended while en route, a journey of any distance either in a box car or an "Arms Palace" is sure to fatigue the animal to some extent. The groom who is out rustling a bottle of beer or trying to make "ten straight passes" each time the train stops, cannot expect to unload his horse as fresh and fit as the one who devotes his time during these same periods to securing a fresh bucket of water for his horse, or in removing the handages and re-running them. During a night ship horses that are hacked

into a narrow stall, at six o'clock in the evening are apt to be more comfortable if a little extra clothing is dropped on them after the train has started and the chill night air is brushing past at sixty miles an hour.

It would be impossible to touch on all the little attentions and precautions that a groom should keep in mind, and even if one succeeded in so doing there would be a great many exceptions taken to his suggestions.

The key to successfully caring for a race horse is to "be on the job." Don't think it possible to do too much for your money so long as there is a chance to benefit your horse. Take care of your charge according to what experience tells you is best in this particular case, for while all of them need the same general attention; still administering to those little personal and particular needs is what keeps this one horse good; and the ability to discover and recognize these individual needs is what makes the successful groom; the one to whom is apt to be credited a great measure of the horse's success.—Western Horseman.

BLANDINA, THE GRANDAM OF BERTHA.

The question of the relative greatness of the brood mares of today or of those that have gone before, must of necessity depend largely upon the environments. When Woodburn was practically the only place to which a beginner could turn for breeding stock, and Mr. Alexander, of Kentucky, was striving to produce a breeding farm that should have no equal, The Register, under the management of John H. Wallace was registering anything that traced to the English thoroughbred.

With Dan Swigert as manager at Woodburn, claiming that a son of Mamhrino Chief out of a daughter of Gray Eagle was more likely to sire trotting speed than anything in sight Mr. Alexander purchased The Burch mare, by Brown Pilot, probably saddle bred. She is today in the list of great brood mares, having produced the dam of Charles Coffery 2:21½ (the most prepotent sire of speed in the Morgan family in the male line) and Donald 2:27. She was bred to Mamhrino Chief and produced Blandina.

Look through the daughters of Mamhrino Chief, you find Dolly Belle, and others in the list, but Blandina is not there. Mr. Alexander said she was his best daughter, (and I think he was right)—why is she not there? I say because of her environments, and the high appreciation in which she was held by her owner.

A pilgrim at that time, to the famous nursery of trotters Woodburn, in quest of breeding stock was told by the proprietor all you want is a son of Blandina, says L. E. Clement. Swigert went to the northwest, the greatest representative of the Norman family. King Rene became a celebrated show horse and great sire, Rienzi and other sons of Belmont headed various farms of more or less distinction all over the country, and while other daughters of Mamhrino Chief joined the great brood mare list, by producing, as her mother did, two or more fairly good trotters, today, when her history is seemingly all written, she has never made entry into the select circle of great brood mares, therefore when you turn to the year book and select the great brood mares Blandina the favorite of her breeder, and the greatest daughter of Mamhrino Chief never figures in such comparisons.

The editor of the Review says a genuinely great brood mare should hand her greatness down to her daughters. When Bayard was sold to Dr. F. M. Wetherbee of Boston, and before he was removed to Langdon stud farm, at Paper Mill Village, New Hampshire, by permission, Blandina was bred to him and produced Barcana.

When the expert actuary decided to start a farm at Lee, Mass., and secured Alcantara to head the venture, among his first purchases was Barcana. She was bred to Alcantara and produced Bayard Wilkes 2:11½, and bred hack produced Bertha, taken as a yearling to California. Her first foal by Chas. Derby was Diahlo (4) 2:09¾, a world's record for age. She died during 1911. Her oldest son came to Kansas and is in the stud there now. In the first generation she leads all matrons in numbers and in extreme speed, having five in the 2:10 list. The day is not far distant when her sons and daughters, having been given a chance, when, in points, generation after generation, they will outnumber all the rest.

She is not now mentioned among the ten greatest brood mares of all time, but soon, like Ben Adhem, the name of Bertha, will Alcantara, out of Barcana, daughter of Blandina, by "lead all the rest," and honor will be given to her grandmother (the greatest of the daughters of Mambrino Chief).

MATINEE AT SAN BERNARDINO.

A racing matinee will be held at Association Park on May 1, by the San Bernardino Country Driving Club.

At the eighth annual meeting of the club the preliminary arrangements were made for the meet, at which it is hoped to get all the speedy nags of both San Bernardino and Riverside together.

A resolution of condolence was adopted on the death of J. H. Kelly, who was a charter member of the club and closely associated with the turf.

Thomas Holmes was re-elected president and the other officers are William Rourke, vice-president; J. W. Batchelor, treasurer; Alex. W. Wilson, secretary. Directors: Thomas Holmes, J. W. Batchelor, William Rourke, Al McRae, J. T. Wells, G. W. Bonnell, C. H. Thomas, J. M. Showalter, Alex. M. Wilson.

**THE HALF THOROUGHBRED TROTTER,
EXPRESSIVE.**

H. J. Kline, the well known turf writer, says: Expressive (3) 2:12½, one of the most consistent racing fillies the trotting breed has yet produced, has become equally prominent as a brood mare through having produced a pair of 2:08¾ trotters, one of them the stake winner Atlantic Express, a top notch performer last year. The career of the daughter of Electioneer and the thoroughbred mare Esther furnishes much gratification to two schools of breeding advocates, one of which demands, or at least welcomes, the presence of running blood in the trotter, the other of which pins its faith to the dam whose speed has been developed.

It may be possible that the thoroughbred blood in Expressive added not a whit to her ability to trot and to produce trotters. Yet it may have been of material assistance. It is easy to say that it did her no good either as a performer or a producer. But it is not so easy to prove the assertion. That she was a great trotter and became a great producer none will dispute. The real merit of the thoroughbred blood in her would be more clearly defined as a guide to the breeder of trotters if there were more like her or very nearly like her both as performers and producers. It has long been the contention of scientists that one example, no matter how distinct or how pronounced, illustrating any theory, is of no material value.

Expressive was a good-mannered, do or die, racing filly. Whatever of thoroughbred there was in her it never showed in the way of the alleged bad manners once popularly supposed to be the unescapable inheritance of the colt whose sire was trotting bred and whose dam was running bred. In behavior Expressive was the exact opposite of the famous trotting bred matron Manette, who produced Arion 2:07¾.

As to the developed speed of Expressive and its influence on her ability to produce trotters, those who desire to form an opinion, or who have already formed one, can get no argument out of this writer. But there is something in the history of Expressive as a brood mare which seems to clearly indicate that even if the development of her speed did help her as a producer of speed it was either a long time about it or else her early foals were more or less unfortunate. She was six years old when she produced her first foal that appeared in the Year Book, the colt known as Exioneer, who took no record and at the age of fourteen is credited with the lone trotter Virgineer 2:29¾. Exioneer was sired by Boodle, whose blood has not bred on amazingly and which may account for Exioneer's failure to become famous. Three years later Expressive produced, to McKinney, the trotter Expressive Mac 2:25½. The next year, to Monbells, she produced a filly that is now the dam of a 2:16¾ and a 2:20 trotter. Ten years after she made her brilliant campaign, Expressive produced her first 2:10 trotter and four years later she produced another. Evidently nature demanded her due and required a long rest before she began to permit Expressive to transmit that which she certainly inherited.

Viewing the merit of Expressive as a broodmare from still another point one must concede that it is exceptional. She produced record trotters to three different sires, a producing daughter to one of those three and a sire of speed to a fourth. The complete list of her record descendants is as follows:

- 1897—Produced to Boodle the colt Exioneer, sire of Virgineer 2:29¾.
- 1900—Produced to McKinney the trotter Expressive Mac 2:25½, sire of Vera Hal 2:07¾, and Eddie Mack (3) 2:29½.
- 1901—Produced to Monbells the mare Excella, dam of Ella M. R. 2:16¾, and Agnes Carter 2:20.
- 1904—Produced to Monbells the trotter Esther Bells 2:08¾.
- 1906—Produced to Bellini the trotter Elsa Bellini 2:25¾.
- 1908—Produced to Bellini the trotter Atlantic Express (3) 2:08¾.

NUTWOOD 2:18¾.

The Horseman is reprinting some articles which appeared in the various turf journals over twenty years ago, and among them is this one, written by J. W. Knox, a man well-known to many Californians as the owner of Nutwood 2:18¾:

Larabie Point, Vt., Jan. 27, 1887.

My attention having been called to a story of Nutwood going the rounds of sporting journals, I will take the occasion of its denial, to give a few facts in the history of Nutwood which may be of interest to those owning his progeny as well as others.

Nutwood never was put up and sold at auction. When my sale took place Nutwood was seven years old, and had a record of 2:27. Prior to my going to California with him, I reserved and shipped to California Abbottsford, two mares by Volunteer, Addie, the dam of Manon and Woodnut, Emblem, sister to Voltaire, by Tattler, with a few fillies, by Nutwood, one being Manon.

The true history of Nutwood is as follows: During 1869, while at Woodburn, I saw Miss Russell and fancied her to such an extent that I offered Mr. Alexander \$2,500 which was declined, with the remark, "she is reserved for a broodmare." I then contracted for her first produce of a colt by Belmont, knowing that, he was richly bred and a natural trotter, having trialed in 2:41 at four years, as well as being from the best daughter of Pilot Jr., on the place, and in those

days I had owned several of his get, and fancied their natural way of going as well as having good legs and feet, but not a first class head, also hard mouthed.

When the colt was dropped Mr. Broadhead wrote me that Miss Russell had a fine colt, to come down and see him, which I did, the colt then being about four weeks old. I was well pleased with him, being a large and finely developed colt. I paid the contracted price of \$500 for him, it being understood that he was at my risk and expense after weaning. This was the first weanling ever sold up to that date from Woodburn. The following spring I took him to Pittsburg, Pa., paying for one-half year's keeping \$35. I named him Nutwood, placing him on my farm at Enon Valley, Pa. When two years old he was only broken to harness; when three years old I worked him but very little, finding his gait too big for him to handle; when four years old used him on the road at Pittsburg. His handling really commenced when five years old. Even then I had to work him that year to wagon, as he could not balance himself to harness; in September, that season he trotted to wagon in 2:48½, was then turned out till spring, when I bred him to a few mares and handled him along till September, when he trotted in 2:38 and was entered at the Ohio Fair Association at Cleveland, winning the first, second and fifth heats, the last being in 2:31, this being his best record at six years old. In his seventh year was handled, trotting in the Michigan Circuit that spring and getting a record of 2:27 at Detroit. In August he was shipped to California, where he won all through the State, reducing his record to 2:23½. When eight years old he made his first public season at San Jose, Cal., covering about forty mares, was trotted in the fall of that season, reducing his record to 2:23.

In his ninth year he covered eighty-six mares, trotting the fall meetings, reducing his record to 2:18¾, after his excessive season, beating St. Julien one race, and was only beaten a head in 2:17 by St. Julien in another. At ten years his stud season amounted to eighty mares at Stockton, Cal., trotted only two races, but was not in shape, was beaten by Santa Claus. When eleven years old, after making a short season at San Jose, Cal., I shipped him to Chicago. Robert Steel, of Philadelphia, having been in treaty for him before leaving California, was notified of his arrival, but declined to come and look at him. Com. Kittson then began a treaty for him, but failed to purchase. I then shipped him to Louisville, Ky., intending to place him in the stud near Lexington the next season. Here J. C. McFarren first visited him and soon concluded to purchase him at twelve thousand five hundred dollars.

Nutwood during the eleven years I owned and handled him never was unwell a day or missed his usual feed; was a horse of great docility, courage and endurance. I will add here that he was never thoroughly appreciated in California as many had objections to his thoroughbred form, so that very few of the more wealthy breeders would patronize him, and his mares were of a very low order of breeding. I will here predict that he will yet rank equal to any living stallion as a getter of high-rate speed, not 2:30 individuals, but 2:20, as his speed was almost unlimited, having trotted quarters in 31¾, halves in 1:05. Could my circumstances have permitted his having had his ninth year exclusive of stud duties he would have had a much lower record.

MESSENGER DUROC AND ELECTIONEER.

In December, 1876, Governor Leland Stanford of California went to Stony Ford and, after critical inspection of leading members of the stud, paid Charles Backman \$41,200 for thirteen animals, two of which were out of the now famous brood mare, Green Mountain Maid, by Harry Clay, dam Shanghai Mary, a chestnut mare of racing form, but untraced blood. The price put upon Electioneer, by Rysdyk's Hambletonian, out of Green Mountain Maid, was \$12,500, and the price on Elaine, by Messenger Duroc, out of Green Mountain Maid, was \$10,000. The pedigree of Messenger Duroc was attractive to early students of blood lines. His sire was Hambletonian, by Abdallah, by Mambrino, by imp. Messenger, and his dam was Satinet, by Roes' Abdallah Chief (he by Abdallah, son of Mambrino, out of a daughter of Phillip's by Duroc); second dam Catbird, by Whistle Jacket (son of Mambrino, by Messenger, out of a daughter of American Eclipse); third dam Lyon mare, by Bertholf horse, by Messenger, and fourth dam Duroc, by imp. Diomed. At that time J. H. Wallace was tracing all trotting potency to Messenger, and, as Messenger Duroc was a rangy bay horse of 16 hands, with bold action, his services in the stud were in great demand. He was getting early speed, and was earning more every year than the price named for Electioneer. The latter was so much in shadow that it really was a burden to carry him. He was favored with very few mares. And yet Mr. Backman appreciated him; otherwise he would not have asked \$12,500 for him. If Governor Stanford had taken a fancy to Messenger Duroc he could not have bought him. He would at least have had to pay more than the sum of \$41,200, that he paid for thirteen animals. In California the door of opportunity was opened to Electioneer and he made good. I knew Green Mountain Maid before she was bred to Middletown, writes H. Bushey in the "Horseman." She was high-strung, hard to control, and after she had been bred she passed to Stony Ford, where she died. In November, 1888, I went to Stony Ford with William Russell Allen and he paid \$12,500 for

Lancelot, a yearling, by Messenger Duroc, out of Green Mountain Maid, and \$10,000 for Elista, his sister, also the sister of Elaine. As Messenger Duroc had more impressive action than Hambletonian and as he carried more of the wizard-like blood of Messenger, he should in theory have been a better stallion than Hambletonian. Each generation, if the breeder does not err, should be an improvement upon the preceding generation. In one way the horse is immortal.

The stream of life is carried forward by his sons and daughters. He passes from one stage of life to another, and if the man who plans the matings does not become confused, the climb to higher platforms should be as steady as earth's journey in the blaze of the sun. But man does become confused, and the perfect horse is not yet with us. Governor Stanford was a practical horseman, and he never had cause to regret choosing Electioneer in face of the opposition of his brother, Charles Stanford, who was with him at Stony Ford in December, 1876.

The legs of Messenger Duroc were faulty and this weakness he transmitted to some extent. He was born in 1865, and did fairly well when taken into consideration the breeding and training methods of those days. His son, Prospero, was a sensational trotter in the circuit from Cleveland to Springfield, and the year book credits Messenger Duroc with 28 trotters, 1 pacer, 25 sires of 98 trotters, 21 pacers and with 50 dams of 67 trotters, 7 pacers. This, of course, is not equal to the achievement of Electioneer, who found the right kind of environment in California, and whose sons and daughters were early trained by Charles Marvin; but it is not a bad record. The year book credits Electioneer with 153 trotters, 2 pacers; with 104 sires of 1333 trotters, 376 pacers and with 113 dams of 149 trotters, 26 pacers. It was the once undenoted blood of Harry Clay which helped Electioneer to climb the ladder. This oil reduced friction when the mares with which he was mated were strongly charged with running blood. At one time Messenger Duroc was heralded as the sire of the champion four-year-old trotter Elaine 2:20. This achievement put the breeders of Kentucky in an envious frame of mind.

THE TWO MINUTE PACERS.

Among the most talked of pacers for 2:00 honors in 1912 is Vernon McKinney 2:02, owned by R. J. MacKenzie, of Winnipeg, and driven by Havis James, whose stable, by the way, is expected to start for Libertyville, Ill., April 23d. This great pacer gave evidence last year of sensational accomplishments, but went lame and had to be taken out of training. As it was, he set a new world's record for three heats by a pacing stallion, and won three out of his six starts. He is now going perfectly sound and all right, and there is no question of his ability to come inside the 2:00 mark if he trains sound.

Vernon McKinney was sired by Guy McKinney, a son of McKinney 2:15¼, she out of another daughter of Onward 2:25¼, making his sire an intensely inbred Wilkes. Vernon McKinney's dam was a daughter of Mount Vernon, he by Nutwood 2:18¾, and the next dam was a daughter of General McClellan, but back of that the breeding runs into obscurity.

Another pacer that is booked for the select 2:00 circle is Don Densmore 2:03¾, but whether he will do the trick or not is questionable. He started out last year with a record of 2:12¾, meeting defeat in his first race at Winnipeg, but after that he is credited with ten consecutive victories, from Decatur, Ill., to Phoenix, Ariz., defeating at the latter place Branham Baughman, the largest money winning pacer of last year. It is true that some of his races were very easy affairs, but as he has shown his ability to negotiate halves in 1:00 flat, without any apparent effort, it is just possible that he has the other half on tap in the same notch. Like last year, he will be again piloted by Rupert Parker, a very capable trainer, and there are legions in the West who think he can turn the trick. He is owned by Donald Dinnie, Minot, S. D.

Don Densmore was sired by Pactolus 2:12¾, son of Patronage, sire of the former queen of trotters, Alix 2:03¾, and his dam was Miss Densmore 2:12¾, by Hamdallah, and she out of a mare by the old-time trotter Star of the West 2:26¾.

SAN JOAQUIN VALLEY DRIVING CLUB.

Following is a list of officers of this thriving organization which is "working up" so much enthusiasm in Stockton for the Breeders' meeting. They are what are now known as "live wires," and make things hum:

- A. B. Sherwood, president, president Flint, Bigelow Co.
- F. H. Johnson, 1st vice-president, Deputy County Clerk.
- A. W. Cowell, 2d vice-president, contractor.
- M. Friedberger, treasurer, jeweler.
- Frank Lieginger, secretary, proprietor Goodell Transfer Co.
- J. N. Jones, farmer and breeder.
- P. J. Chalmers, proprietor Chalmers Stock Yard, and farmer.
- F. A. Murray, horseshoer.
- Ernest Kemp, foreman for Mantley Bros.
- Jerry Aker, farmer and breeder.
- T. F. Donovan, proprietor Blake Transfer Co.

Drink Jackson's Napa Soda.

CAUSES OF BARREN MARES.

A paper was read before the Nebraska Horse Breeders' Association by Dr. G. L. Carlson referring to barrenness of mares and its causes, which in part is as follows:

It is well for us to remember that if it is foals we want, and especially if it is foals of the most pronounced vitality, those which will mature into horses capable of performing our heavy work, and with such powers of resistance that disease will not attack them, we must have stallions and mares that are physically and sexually vigorous and normal. Even if we have such mares and stallions, it is only by good care and the best of handling that will enable us to keep them in the best breeding condition. But this done, and educating the owners of both mares and stallions to the need of wholesome food, pure water, the strictest cleanliness, kindness in the handling of all our horses, and the use of stallions of the best conformation, not only sound, but of a conformation that will remain sound when put to severe tests, and the breeding of draft horses will prove more lucrative than any of which we know.

Age has more to do with foal production than most people are willing to admit. Two-year-old fillies, if well matured and developed, breed as readily as mares of any age. Mares three and four years of age are not sure breeders, and the number of foals produced by mares of such ages is very small. This is because of the trouble with their teeth, which induces an inflamed condition of the mucus membranes. The larger number of foals are produced by mares that are between seven and eleven years of age. Few foals are out of mares fourteen or more years of age, and these few are out of mares that have been producing every year. If we keep an old mare producing, she is likely to remain a breeder for many years, but if she is allowed to remain open for a year it will be difficult to start her breeding again, yet many farmers imagine that a mare should breed until she dies of old age.

The manner of handling mares and the the manner in which they are taken to the stallion has much to do with the number of foals produced. Draft-bred farm mares led in by the halter produce 69 per cent of foals; those driven double to farm wagon, 64; those driven to buggy, 58, while the same kind of mares ridden in to be served produce 41 per cent only. Mares that are hurried to the stallion and driven rapidly home again, seldom become pregnant as a result of service under these conditions. When a man starts home after having his mare bred, as if he had but a few minutes in which to reach his home, I expect to see that mare returned for service in twenty-one days. All excitement and hurrying should be avoided if it is foals that are wanted.

Some mares are barren because of some malposition of the cervix. The cervix or neck of the uterus sometimes turns back upon itself, or to one side, thereby making it impossible for spermatozoa to enter the uterus. This condition can be corrected by gentle manipulation of the parts and by using the capsule instead of the horse in making the service. At other times we find the cervix constructed and closed so tightly that no fluid can enter the uterus. This condition can also be relieved by gentle manipulation until the finger can be introduced into the uterus.

Mares are often barren because of tumors. These are either fibroid or cancerous. Fibroid tumors do not necessarily make mares barren, unless the tumor is so large as to fill the cavity, but if cancer is present anywhere in the genital tract a mare will not breed. One tumorous condition which it is impossible to diagnose is that of tumors in the fallopian tube. In dissecting barren mares we quite frequently find small tumors in one or both of the fallopian tubes, completely closing the tube. If such tumors are present in both tubes, the mare is barren and nothing can be done to relieve this condition. This closing of the tubes makes it impossible for the egg and spermatozoa to come in contact with each other, thus making fertilization of the egg impossible. The probable cause of these tumors is the stopping of an egg in the narrow portion of the tube, and the inability of that organ either to pass it on into the horn of the uterus or to dispose of it by the process of absorption.

Another condition which we often find present, and which is responsible for a barren condition, is that of abscess formation in the uterus. It is mares in their third and fourth year that are most likely to be troubled with this condition. This is because of the fact that dentition induces an inflamed condition of the mucus membranes. It is influenza, more than all other conditions combined, which is responsible for these uterine abscesses. Influenza generally locates itself about the glands or mucus membranes of the head. While it is not essential that this disease should locate itself about the head, yet it will be well to remember that it never locates itself anywhere but on a mucus membrane, and as these young mares such as I have mentioned are usually found with more or less uterine congestion, the abscess is just as likely to locate itself in the uterus as about the head. Mares in this condition cannot be impregnated, and unless the uterus is kept open and well irrigated so as to free it of all pus the mare is likely to die because of pus absorption.

Ovarian troubles are responsible for much barrenness in mares. The trouble we most frequently meet with is an abscess or cystic condition. This condition always leaves a mare barren. After the rupture of a Graafian follicle and the discharge of an egg, the follicle fills with blood and heals, the blood and remaining liquor folliculi forming a dense yellow body known as corpus luteum. Occasionally the ovaries are in such a condition as a result of a cold or other

cause that they fail to absorb this corpus luteum and an abscess forms, ending in the cystic condition of which I speak. We find old mares in this condition more often than we do young mares, but it matters not about the age, for mares in this condition are necessarily barren.

In many mares we find the cervix or neck of the uterus in a very lax and open condition, and these mares are always impregnated with difficulty. Complaints reach me from every part of the United States and Canada about the trouble these men have with mares having large, open wombs. Such mares are generally found in a state of low vitality, and with the mucus membranes in an inflamed condition. That such mares are impregnated with the greatest difficulty is well known to every stallion owner. If we make an examination of the uterus of such mares, that organ will be found in an inflamed condition, and it is this diseased condition that causes all the trouble.

Leucorrhoea is a cause of much trouble to mare owners, and it is becoming more troublesome every year. The beginning of leucorrhoea is a catarrhal condition of the subject. A little later we find the mare discharging a slimy, viscid substance from the vulva, and, try as much as we may, she obstinately refuses to breed. If permitted to run its course, this disease will become chronic in a year or so, when the chances of restoring her to a breeding condition are very much against us; but if taken in time most of these mares can be made to breed.

OUR PORTLAND LETTER.

Editor Breeder and Sportsman:

With ideal weather, large crowds visited the Country Club Track Sunday, both morning and afternoon. Most of the visitors caught the racing fever as the horses worked out in the morning. The track is in fine shape for jogging, and work will begin this week on the track to put it in first-class shape. There are many good looking prospects for this year's racing season and also a large number of fine racing stock, which will be sold at the sale which is to be held here the 16th of this month. This sale, veteran horsemen declare, will have a much better class of horses and also be larger than any sale that has been held in the Northwest in the past.

The Riverside Driving Club anticipates a record-breaking season this year. The club will open its season with a matinee Decoration Day, May 30th. The second Sunday following Decoration Day will open the club's Sunday racing season. This will be followed with races every other Sunday. Races will be also held on Friday afternoon, June 13th, during the Rose Carnival.

A trip through the stables revealed many fine looking colts, many of them green but with proper training some should develop into fast trotters and pacers.

"Honest" John Sawyer has a large stable, filled with horses being prepared for the sale, and others being worked for the racing season. Zondell, who took a mark of 2:18½ last year, looks in the pink of condition. A three-year-old Hal B. pacer, called Hallido, looks very promising.

A two-year-old trotter sired by Frank T. Nichols, dam by McKinney, while green, is a fine looking colt; he has not been tried yet, however.

Tom Kello, a very promising green trotter by McClosky Wainwright, owned by C. W. Dilg, of this city, worked a couple of slow heats very nicely; besides these, Mr. Sawyer has the Wessinger string which go into the sale. Among these are the well-known horses Oregon Patch, Cruzados, Dick Hal, Cora Patch and several fine broodmares.

C. W. Flanders' stable is filled to capacity with fine looking stock, most of it is also being put in shape for the sale.

Frank Gambling is training five head, Ida Hal, a three-year-old pacer, owned by Oscar Johnson, is entered in the three-year-old Oregon Futurity and looks like she will be a very fast pacer.

Minnie Hal a twenty-two-months-old pacer by Hal B., is entered in the Oregon Futurity.

The only trotter in Trainer Gambling's stable is Jay McKinney, by Alconda Jay, dam by McKinney, he has everything in his favor to make a fast one.

A four-year-old Hal B. filly, owned by Mr. Salisbury, of Oregon City, Ore., looks like a fast pacer.

Charles Jeffries has moved to his old quarters in the center field. Zonetta, owned by Dr. A. G. Smith, is, without doubt, one of the very best green trotters on the track. Her manners are perfect and many look for her to go in the 2:12 class. Mr. Jeffries states that he has never handled a better mannered trotter than Zonetta. She seems to be one of the most popular mares on the track and many will watch her work this year with interest.

There are several good looking green trotters in Mr. Jeffries' stable, one being a three-year-old Hal B., out of a mare by Al McKinney, and also an untried Zombro trotter which looks very promising. The latter is owned by J. J. Kaddyler.

Nutwood Pointer by Star Pointer, owned by Cooley Bros., is a good looking pacer.

Mr. Dave Anderson has placed Chico, full brother to Bolliver, in Jeffries' charge, and he is going nicely. Callie Fagan, also owned by Mr. Anderson, is a fine looking trotter.

A four-year-old Hal B. pacer and a five-year-old pacer, can both step a 2:20 gait, and are also in Jeffries' stables.

A good racing season is looked for this year here, mostly owing to the large crowds which come out to the track to watch the workouts.

J. D. OLSEN.

NAIL WOUNDS IN THE HOOF.

A veterinarian tells in the National Stockman and Farmer how to treat this annoying and frequently met injury, as follows:

Whenever a horse steps on a nail or other substance which punctures the sole of the foot at sufficient depth to cause the blood to flow, there is only one safe course to pursue, and that is to make a good free opening for the escape of all blood. This means to cut a circular hole with a sharp knife fully as large as a ten-cent piece around the sole made by the nail. When neglected the nature of the sole is such that it will close and shut in blood that should find egress from the wound, as well as germs which may be on the nail, piece of bone or whatever was stepped on.

When the blood remains in the wound, putrefaction soon follows and purulent matter burrows under the frog or sole, the connecting tissues are destroyed and the animal suffers excruciating pain and not infrequently lockjaw (tetanus) follows. As a rule, most horseowners are afraid to cut away any sole of the foot, fearing that they will expose sensitive parts and it will be weeks before new horn will grow, consequently when they cut away horn, they rarely if ever half do the work. They cut away a hole large enough on the surface, but don't extend it to the depth necessary to allow the pent-up blood to escape. The fear of over-cutting prevents their cutting sufficiently, and their fear of the hole not soon filling with healthy horn is groundless.

When the nail has been removed follow the puncture through the sole or frog to the soft tissues, then fill the cavity with a solution made of equal parts of gum camphor and carbolic acid and pack with cotton. This treatment should be repeated daily until recovery is complete. Where this treatment is promptly and properly carried out nail wounds in the foot of the horse rarely result in abscess and suppuration. Where abscess of the foot has occurred, remove all loose horn and dress with the solution given. The cotton should be held in place by a bandage around the foot.

Not one case in ten where a proper opening has been made soon after the injury will there ever be suppuration, the wound simply drying up and healing by first intention, as surgeons say. The fact of the wound now discharging in your animal's foot shows clearly to me that you did not properly cut away the sole, for if the nail only penetrated a half-inch no serious injury could have been made to the sensitive sole or frog. Blood remained which should have been abstracted.

STANDARD BRED STALLIONS LICENSED.

Following is a list of stallions that were licensed by the California Stallion Registration Board from March 19th to 30th, inclusive:

Pilot—D. E. Cable, Chico.
Strathway, Jr.—Claude N. Clark, Holtville.
Direct Filis—Park Stables, San Jose.
Highland D.—David L. Holt, San Jose.
Dave McKinney—U. F. Elledge, Ritchie.
Pat—John D. Maynard, Santa Clara.
Uganda—C. D. King, Hanford.
Crescendo B.—E. E. Sherwood, McFarland.
Major's By Guy—C. D. King, Hanford.
Darkest Way—Jas. C. Wallace, San Diego, Cal.
Kenneth C.—Jas. C. Wallace, San Diego.
Chief Direct—J. B. Collett and E. A. Murphy, Bishop.
Nearest 2d—Weltmer Bros., Kingsburg.
Albamba Prince—Chas. W. Winter, Alhambra.
Togo—T. C. Renfro, Kelseyville.
Smokey Moates—Jas. Galino, Turlock.
Educator—M. Henry, French Camp.
Diavolo—J. E. Blanchard, San Jose.
Highland Pointer—M. Henry, French Camp.
Carlokin—W. G. Durfee, Los Angeles.
Copa de Oro—Mrs. W. G. Durfee, Los Angeles.
Prince Hannibal—W. P. Lear, Fresno.
Dictator Wilkes—A. A. Rutland, Nelson.
Bon Arthur—C. M. Powell, Chico.
McComb—J. N. Conkey, El Centro.
Mountaineer—Joe Senter, Hanford.

WESTERN CANADA FAIR CIRCUIT.

This circuit offers \$120,000 in stakes and purses, and opens the season's racing in the West. The circuit is grandly arranged in every respect; its dates are of particular advantage to campaigning horsemen of the Northwest, because they immediately precede the North Pacific and the Pacific Coast Circuits, and also the Inter-Mountain Circuit, in Montana and Utah.

Calgary, Alberta, opens the circuit June 28, with a five days' meeting; Moose Jaw, July 8, three days; Winnipeg, July 10 to 20, seven days; Brandon, July 20 to 26, four days; Regina, July 29 to August 3, five days; Saskatoon, August 6 to 9, four days; Edmonton, August 12 to 17, five days; Lethbridge, August 19 to 24, three days' racing. The entire program for this circuit will be announced later in our advertising columns. Stake entries for Calgary, Moose Jaw, Winnipeg and Edmonton close May 1st; Brandon, May 15th; Regina and Saskatoon, June 1st.

Notwithstanding that the French Government maintains 300 stallions for the purpose of breeding horses for the army, and that each year there are about 120,000 foals, the get of these 3000 stallions, it has been found impossible to obtain anything like a sufficient number for the army, which would need 150,000 for mobilization. It is claimed that the farmers cannot breed profitably at the price allowed by the government for such horses, and have gone into the milk business. Accordingly the President of the French republic has just appointed a committee to examine into the matter for the purpose of suggesting remedies. Prices in France for suitable horses are fixed by the government at 20 per cent less than in Austria and Germany.

From left to right: El Denirro (Villa); Lovelock (Mead); Redeem (Crippen); Vallejo Boy (Davy), and Toddles (Zahner).

AT THE SAN JOSE DRIVING TRACK.

Impressions of a Ride Through the Valley to This Beautiful Race Course.

The ride from San Francisco to San Jose at this time of the year is one of the most enjoyable imaginable. There are no winds, the sky is not overcast, the sun's rays are warm and Dame Nature seems to don her prettiest emerald raiment every place where she can place a hit of green. The first thing which impresses the visitor after passing through the tunnels and around the road bordering San Francisco Bay is the number of suburban homes which have sprung up like mushrooms since the great disaster of 1906. Prior to that time one could see some humble and unpretentious dwellings dotting these fields, there might have been a few eucalyptus or cypress trees in front of them where a tumble down rail fence, or a straggling hedge was all that distinguished these places from each other. But a great change has been wrought. For miles, all the way to San Mateo and even beyond that, beautiful hungalows, two-story cottages, neat pretentious dwellings, well-kept yards and gardens, fine roads and a general homelike appearance is noticeable all along the line. The electric lines have helped to "open up" this section of the peninsula, and in a few years all towns within a radius of twenty miles of the metropolis will be incorporated into one city. There will be many more railways tapping new sections and with the increased facilities which these lines furnish to all having business in San Francisco, there will be a large accession to the number of homeseekers and builders there.

Passing Burlingame the cars stopped just long enough for one to look at the big paddocks which were separated from the late Wm. Corbitt's residence by a high hedge fence. In these paddocks roamed the broodmares that made this, the "San Mateo Stock Farm," famous. I have seen Sable, Annie G., Anita, Blanche, Atalanta (sister to Beautiful Bells), Directress, Ellen Mayhew, Eva, Fidelia, Flora Belle, Hanna, Hannah Price, Huntress, Kate Arthurton, Laura Drew, Lindale, Macola, Madaline, Mamie Comet, Mamie Kohl, Margaret, May Sproule, Molly Drew, Oak Grove Queen, Rosalee, Rosedale, Rosetta, Ruby (sister to Stamboul 2:07¼), Sister 2:19¼, Sweetness 2:21¼ (dam of Sidney 2:19¼), Vixen, Venturess, Woodford Queen, and many others there that have also become noted as producers of 2:30 speed. The old three-quarter-mile track whereon Freedom, the first colt to get a mark of 2:29¼, was trained, and where so many others were handled by the late John A. Goldsmith, is still in use. The stallion barns, in which Guy Wilkes 2:15¼, Sable Wilkes 2:18, and his son, Oro Wilkes 2:11, stood, are now occupied by stallions used for the breeding of polo ponies. Nearly all this big farm has been divided and sold, and that which cost Mr. Corbitt \$40,000 over thirty-five years ago, is worth almost a million, for a large part of the land occupied by the residences of the millionaires of Burlingame were included in his purchase.

Further along amid the rolling hills which border San Francisco bay, Redwood City is passed, then Fair Oaks; both of these places were once noted for their stock farms. Then to Palo Alto, where Electioneer and his family made it the Mecca toward which horsemen from all parts of the world turned. The fields and paddocks that were once the pastures and playgrounds of the world's champions are as deserted as the barns, stables and other buildings on this farm. The place where Gov. Stanford had Mr. Muybridge, assisted by Frank Covey, make the first moving pictures, is overgrown with grass and weeds; but the little graveyard wherein some of the celebrities that made this farm the center of attraction for many years are buried, is carefully kept, the graves being covered with flowering ivy, geraniums, and flowers that do not wither, winter or summer, in this sequestered spot. The long rows of stalls facing this plot are all empty and their half-doors, out of which one could notice in the long ago some of the most intelligent equine heads ever seen on a farm, are closed and bolted. The master who loved and cherished the greatest breed of horses on earth, "the American trotter," lies sleeping beside his wife and boy in a magnificent granite mausoleum not two hundred yards away from where his equine favorites are laid away.

The train passed by where Elmo 2:27 once occupied a fine large barn. This barn was razed years ago and for hocks near its site is built the city

of Palo Alto, one of the finest and most prosperous cities on the Southern Uacific Railroad.

Further along the train passed the Moorhead Stock Farm, where Hambletonian Wilkes once held court. From this point we view the well tilled seed gardens (the largest in the world) and small alfalfa fields, separating the finest orchards in California, which at this season of the year are all in bloom. As far as the eye can see prune orchards extend to the north, east, south and west, and from their profusion of beautiful blossoms large crops of fruit will be a certainty.

It is but a few steps from the train to the trolley car at San Jose which conveys one to the San Jose Driving track, which replaced the one that was for many years known as Agricultural Park, and was the scene of some of the greatest racing events ever held in California. This old track was sold a few years ago to a syndicate of real estate men and divided into building lots. Very few traces of the course is left, streets and avenues being laid out on these grounds, and rows of beautiful residences, surrounded by gardens in which the rarest flowers flourish, have worked a marvelous change.

The new Driving Park is located about three miles from the city hall on the Gilroy and Monterey road. It is reached by this line of trolley cars and for location, climate and soil is not surpassed by any other race track in California.

Mr. Ray Mead, a prominent and enthusiastic horseman, leased a tract of land here, had it surveyed and a regulation mile track made. Until last month the infield was used as a pasturage. Then Mr. Mead determined to plant alfalfa in it, and hiring teams he set to work leveling and putting it in order for planting. The crop is just beginning to show. As one turns off the main road through a new entrance Mr. Mead has built and along the roadway which has double rows of walnut trees on each side (that will some day afford a pleasant shade from the warm rays of the sun) the green verdure which is just covering the brown earth in the infield is pretty to look upon and with a few showers of rain this will be one of the most attractive parts of these grounds.

There are not many horses in the stalls yet; it is a little early in the season, but many horse owners have engaged stalls and will soon send their most likely candidates for 2:30 and 2:25 honors here to be trained.

Matt Zahner has three very promising pacers in his string. One is a chestnut five-year-old mare called Toddles, sired by Morris A., out of a mare by Harold Cossack, and on Saturday she paced a quarter very handily in 32 seconds.

The other is a six-year-old by the same sire out of Miss Rachel, by Acrobat; he is called Fred Branch, and is a remarkably strong horse and very promising.

In the next stall is a trotting mare, also by Morris A., out of a mare by Paloma Prince. She is called Salome A.

Mr. Zahner has another by a son of Boodle which he is handling. These will all appear on the Pacific Coast Circuit this season.

C. C. Crippen, has Guy Carlton 2:30, a gelding called Redeem, and a chestnut mare by Kinney Lou. These keep him pretty busy; besides these, he is driving a few of Mr. Chas. Durfee's horses while the latter is visiting Los Angeles. Mr. Crippen drove one of them while I was there, a fine strong made gelding called Melrose, by Stam B. 2:11¼, that belongs to Mr. Perry, one of the most popular horsemen in San Francisco. Melrose will figure in many races this year if he continues to improve as he has since Mr. Durfee got him.

Patsy Davey has his horses looking fine and will be ready when the bell taps with at least five good ones. He was driving that beautiful mare Yolande 2:14¼, and, were it not that he has Vallejo Boy 2:15, by Tom Smith 2:13¼, to start this year he would undoubtedly be guiding Yolande in all the 2:15 or better classes.

He has Hazel Smith by Tom Smith 2:13¼, and Mabel Claire by Constructor (brother to Tom Smith 2:13¼), and both are as good "prospects" as there are in California and are well staked.

He also has Vallejo Girl 2:10¼, and will have her in shape for the fast classes.

Besides these, he is teaching a number of youngsters how to behave in harness, and in this Mr. Davey has few equals and no superiors on this Coast.

His pet, Tom Smith 2:13¼, is as "fine as silk," and never looked nor felt better than he does today. He is getting quite a book full of mares, and, from what his progeny are showing, the owners of these will never have cause for regretting their desire for a Tom Smith foal.

Joe Twohig also has a splendid lot of horses to handle. He has a Nutwood Wilkes colt out of School Girl 2:21, by Prodigal 2:16, that is exceedingly promising. Besides him he has several others that he is gradually getting in shape for the races this year. In one of his stalls he has that royally-bred stallion Bon McKinney 2:24½, and as the breeding season has hardly commenced he thinks he will have plenty for him to do. Last week he bred the royally-bred mares Grace Lecco by Lecco 2:09¼ and School Girl 2:21. There are several of his foals around San Jose and the owners are so well pleased with them that they have booked their dams again. Mr. Twohig is a very painstaking horseman and has a mare called Fanny Easter by Arner, out of Fanny Vasto that will be among the fastest pacers of year. He will also have his horses ready when the races are called.

Ray Mead has his handsome brown mare Lovelock 2:19¼, a very promising smooth-going pacer, by Zolock 2:05¼, out of Carrie B. 2:18, by Alex Button; grandam Carrie Malone (sister to Chas. Derby 2:20, etc.), looking fine and ready for anything that may be demanded of her.

In an adjoining stall is a chestnut filly he calls California Lou, a two-year-old daughter of Kinney Lou out of Carrie B. 2:18. She is remarkably handsome and stylish and very large for her age, has a perfect set of limbs and feet and will, without doubt, be another gem in the constellation to the credit of her famous dam.

Carrie B. 2:18, heavy in foal to Tom Smith 2:13¼, is a grand type of a broodmare, looks the part to perfection. Large and roomy, with a beautiful head and neck, mild eyes, fine shoulders and well set limbs; the few gray hairs interspersed in her coat show her lineage to Steinway 2:25¼. In fact, she resembles this "side of the house" very strongly. Mr. Mead has great hopes of the new-comer and says he will breed her back to the son of McKinney 2:11¼ and Daisy S. (the dam of seven in 2:30), this year.

Jack Villar has a good "prospect" in the six-year-old pure-gaited trotting gelding Silver Patch, a son of the late Johnny Gordon's stallion Silver Arrow (a son of Silver Bow 2:16, out of the dam of Ethel Downs 2:10). The dam of Silver Patch was Lucy B. (dam of Wild Girl 2:22¼) by General Washington. Silver Patch is remarkably well muscled and evenly made and one of the purest-gaited trotters imaginable. Inside of thirty days this horse will trot quarters in 32 seconds or 1 will be much mistaken, as he loves to trot and trot fast, and his smooth, frictionless gait is the kind that makes speed. He belongs to J. Smith of San Jose.

In the next stall Mr. Villar has a full brother to Airlie Demonio; he is called El Dinero, but his owner says, as that name is claimed, he will hereafter call him El Oro. He is a three-year-old pacer by Demonio 2:11¼, out of Potrero Girl by Prince Airlie.

Lady Dell (trial 2:14½) is a good looking brown trotter sired by Del Coronado 2:09½, out of a mare by Owyhee 2:11. She belongs to Jos. Ayres, of Sargents. Lady Dell will also be a factor in the races this year. She is pure-gaited and "game as a pebble."

In the next stall stands Arabella, by Alta Vela 2:11¼, out of Anna Belle. She is a seven-year-old trotter and belongs to Ralph Hersey, of San Jose. She has no record, but has been miles in 2:14½.

Harry D. Brown has his Alta Vela mare Camellia looking better and trotting faster than ever. This is one of the most promising "green" mares in California, level-headed, pure-gaited, not too large, and, like many others of our most promising trotters and pacers, traces to Bertha, by Alcantara. Camellia's dam being by her greatest speed-siring son Diablo 2:09¼. She was bred by the late Judge W. E. Greene, of Oakland.

Chas. Durfee had not arrived at the track with his latest Los Angeles purchases. His Sidney Dillon mares are just being handled. As Mr. Durfee always heeds the still small voice of caution: "take your time," it is doubtful if we shall see him behind these at the races this year. He can afford to wait on them. His horse, Dr. Lecco, has been "on the shelf" but he still believes he will be able to step down and show the boys he has a world of speed yet.

The track is being kept in perfect order and no complaints are being heard about it. In a few weeks the "matinee fellers" will be on hand getting their horses ready; and then there will also be a regular race meeting held there September 9th to 14th, of which further particulars will be known later.

The registered McKinney stallion advertised in this issue by D. A. Baker, of San Diego, is a grand individual and is offered at a low figure. McKinney's sons are all "breeding on" and this one is no exception. Write to his owner for pedigree and description. This gentleman also advertises a registered draft stallion that should be secured by some one engaged in breeding the finest kind of draft stock. He will also be priced low.

There is some talk of having a three days' race meeting at Woodland, July 4th, 5th and 6th.

Drink Jackson's Napa Soda.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

RANDOM NOTES.

[By J. B. Thompson]

If one cares to indulge in controversy he should write publicly of the merits of the pointer over the setter, or reverse the subject, and favor the long haired dog. Should he have been sufficiently unwise, to give preference to one breed, it will follow that his judgment has been limited by the dogs which he alone has come in contact with. Either breed has its good qualities, and deficiencies among individuals prove nothing. Whatever your fancy trends to, follow it; and if you are an admirer of the long haired dog stick to him and you will not miss excellence far. So with the pointer. But whichever dogs you have, and I presume you have the intentions of a breeder—to breed the best, believe firmly in the merits of your breed, and you will gain by it. You will never be a successful setter breeder if you are to be turned from your admiration of your own animals by the conspicuousness of a certain pointer, and declare immediately that pointers are the best strain. You can never become successful in perpetuating a family of pointers, if the first classy setter you see in the field turns your head toward the other breeders' camp; and at once forces you in to the declaration, that setters alone are the real thing. There is no best about either breed, individuals among either breed can exhibit demerits which we can correct by greater effort in selecting out subjects for mating. You can take a dyed-in-the-wool setter fancier and force him to become affiliated with pointers, and in time he will become a fault-finder with the pointers; whatever little discrepancies in conduct are prominent with the pointers, he can always recall what a setter would have done under the circumstances. I have seen this so often, that my advice is strong toward stocking to the first love; for we are only human and any error of the new fancy is magnified times over. Both breeds have their good traits, and if we are only a beginner we will make no mistake in selecting either breed; great examples occur with both tribes, and excellence is by no means confined to one breed.

The setter is today the most widely used of our gun dogs, and they have held sway in public esteem since their first advent to this country, which no other breed has been able to usurp. His beauty of coat, and other characteristics gave him a standing which he will always retain.

The pointer has gradually crept into favor, formerly only tolerated, carped at and maligned, by his great display of hunting talents, keenness of nose and love for work, he has gained in prestige year after year, and gained it by honest effective bird work. Whenever a sportsman in his comparison of breeds, disparages the pointer, it is solely due to prejudice; the other breed has nothing on him except possibly a trifle in speed. And every setter that can simply outrun a pointer, invariably finds the latter his equal in endurance and bird work; it all lies in securing the right dog to meet your shooting conditions.

We admit at the early stages of the field trial game the English setter had things his own way, but today, even with the preponderance of setter entries it is questionable whether in that select coterie, the pointer has not met him equally at every turning of the game. We reflect on the early prejudice against the pointers, to see it gradually vanish before the advances of Jingo, Rip Rap, Von Gull, Alpine Lad, Fishel's Frank, the great Alford's John, Sir Royal Spot, Hard Cash and others. They met the wide swiftly going setters at their own game and held their own, equalizing the advantages the other breed considered as solely their own. Twenty years back had we claimed equal honors for the pointer in his contests with the setter we would have been ridiculed. It is very strange that the pointer was so long in gaining a place that the setters held in the trial world, for there was nothing to separate them but public likes and speed. There was a certain flashing brilliancy about the setter—and they still have it, which has accentuated their qualities, and many a judge of dogs in days gone by has voiced his opinion that a pointer equal in every way with a setter, would never win over the setter with a field trial judge deciding; to emphasize this assertion it was pointed out as significant that the style of a setter going would make up for any deficiency on his part. I think that the decisions at times warranted this opinion to a limited extent, and it took some of the judges a long time to reconcile themselves to the fact that meritorious, snappy bird work could be accomplished without the fussy dash that is the heritage of the setter of the classy order.

For many years the pointer men advanced their breed with more mating precautions than the setter fanciers. The rage for the really classy dog, that was more of a speed race than anything else was fostered by the setter breeders and breeding for that purpose above everything else began to be felt in the progeny of that tribe. At first line breeding was resorted to, then to intensify the going instinct the risks of inbreeding were overlooked, and the plunge in that direction was made. The dog advanced some

in speed, though his bird instinct suffered, and for a while he became nothing else but the field trial setter, and field trial setter type became fixed.

The lovers of the short haired dog faithful to the wily fellows entered them in competition with the field trial setter, now and then one winning and with it blossomed the hopes of eventually equalizing the game. But it took real hard work to convince the trial followers that the pointers had everything the setters dared to claim; and so much so that I believe the work of the field trial pointer on birds, his wonderful nose and the excellence on birds, has done more to educate the public away from its insane clamor for speed above everything else, and turn their eyes toward the admiration of classy bird work instead.

As I have said above, all things taken in consideration neither breed has any advantages, which the other can not offset. Few are inclined to become factors in the field trial world, or even care to start their dogs; they keep their dogs for shooting purposes only, and the dog which is adapted to their shooting conditions is the only one they will own, if it is in their power to secure it. Both breeds have great endurance, the pointer apparently is fitted by nature for warm weather, and the early warm days of fall frequently place the setter at a disadvantage, though this can be modified by clipping his coat, but when this practice is followed he is subjected to in consequence, an amount of punishment that the owner as a rule has failed to consider. Blackberry and other spinous undomesticated growths will turn him, for his armor has fallen, and his coat is even more sensitive than that of the pointer, so little is gained by it. However, we find individual setters that can stand lots of heat; they are out of the ordinary, and as a class can by no means go the route during the heated periods that the pointer can; especially when scarcity of water comes as additional discomfort. Under these adverse conditions he suffers tortures that the humane sportsman will not ask him to undergo.

While the subject of the hot weather dog confronts us, I look back to a pointer that I always imagined could stand more heat than any dog I ever saw. Unlike in build what we would expect the hot weather dog to be, he was large, coarse and very fleshy, and the scorching dry sultry days of early work failed to reduce his weight, on the contrary he accumulated flesh. Work that should have decreased his weight, failed on account of the increase in his appetite, and Fad always had the air of the coarse overfed dog. He was fast, and could perform great feats on the warmest days with little signs of panting, and go wonderful distances without water. Other dogs working in company toiled laboriously, through the enervating effects of the heat. Fad on the contrary, nonchalantly worked ahead as if everything was just as it should be. It was not a case of abnegation of his wants, but rather that he had certain camel like propensities, that made him invaluable during a warm dry spell. He went hour after hour, without signs of flagging from want of water, but the moment he reached water he gorged himself until his sides looked like they were inflated; when his tank was filled, which usually took several minutes to accomplish, he resumed his work, though for an hour or more his distended sides gave him an incongruous aspect, similar to almost anything but a well bred pointer. Except for this remarkable trait I had little use for him, he had such a good opinion of himself that it developed into a case of genuine sulks when I was forced to differ with him.

All pointers are not good hot weather dogs, I have run across some that could not stand as much heat as the average setter, and invariably developed an advanced state of "whirligigs" if they worked much without water, especially if an ardent sun beamed down on them; their condition was only eased by a rest in the shade or copious draughts of water given. The dog that succumbs to "whirligigs" is a pitiful spectacle, and about the only thing to do on its presentation is to get the patient to water, or to the cooling influence of shade until regaining his normal condition. The dog that is the victim of "whirligigs" is really unfortunate, as it attacks the victim suddenly, the signs of collapse are pronounced, the dog apparently loses the use of his limbs, as with a stroke of paralysis, and in many cases the animal staggers and reels as if he were seized with a fit. Some do not fall as in a fit, but retain consciousness and stagger indefinitely, the limbs appearing to have entirely lost their muscular activity. It is frequently confused with fits, nevertheless it seldom fails to respond to cooling influences and rest. It generally attacks the young dog, or the old dog that has not become inured to hot weather conditions.

The faculty in a bird dog of being able to work under hot dry weather conditions, is one that is worthy of appreciation, for many days of early fall might come with almost midsummer characteristics and if we have a shooting dog that can not work satisfactorily in this kind of weather, we are put to the very annoying procedure of hunting birds ourselves, and letting the animal follow at heel. All dogs can acquire ability to stand heat if conditioned

for it, but the dog is not to be conditioned for that kind of work in a day. It can only be gained by conditioning in summer, by slow stages; for if we overwork them at the start, we can never secure our desired end.

While the pointer appears to have a long lead under the early season conditions, the setter enthusiast points with pride to his dog as the ideal animal for cold climates or cold weather. The coats of these dogs afford protection against cold; some of the present day setters whose coats are of fine silky texture, show no more powers of endurance against the cold than the pointer, and in soft snows are often obliged to give up the game or sacrifice the highly admired feather. Balls of snow form with persistency on the long feather, and at every stride gain in proportions until at times such a load is accumulated that further progress is made with difficulty. The same state is often noticeable in the muddy snipe fields, or the thawing fields of partially frozen clay, where the mud clings with tenacious obstinacy and is unduly effective in hampering the dog's actions. Where ordinarily wet slashes confront, the setter seems to be the ideal dog for mixed shooting; it is affirmed that his readiness to take to water gives him a great advantage over his smooth coated competitor. The pointer breeder comes back with decisive force and answers that in ordinary weather his dogs stand wet better than the setter, he further asserts that as his is the thinner coated dog, his coat dries out more rapidly and after effects from a cold plunge are seldom visible. I do not think it pertinent that either breed should lay much stress on these points, for the majority of them are by no means inclined to take to water. The setter of twenty years ago had a great love for water, but it is not so prominent now, though they can nearly all be trained to retrieve from water. However, it is only now and then we see a setter or pointer that takes to retrieving from water naturally. One of the best duck dogs I ever came in contact with in the south was a Pape black pointer, a very large animal that retrieved perfectly from the lakes no matter at what point the thermometer registered.

It is useless to lay claim for either breed as natural "water dogs," for they are now bred entirely away from this inclination as a standard of excellence, and their merits are only to be recognized as upland game dogs. The pointers are not particularly bothered by the ubiquitous cockle hurr of the South, though I owned one female, the only one I have ever seen that positively refused to work in hurr patches. Many setters have a strong dislike for the tormenting cockle hurr, and will refuse to hunt among them; some almost go in to hysterics in their agonies to rid themselves of the tenacious annoyances. Numbers of setters entirely ignore their presence and refuse to recognize them as an obstacle to hunting worthy of consideration. Some of them with heavy coarse coats will go through hurr patches the entire day, hurrs clinging all over their bodies, but never hesitating even for an instant to pull them off.

I find some setters that are peculiarly susceptible to the irritation of hurrs, and slipping their coat is resorted to; but now and then one has such a sensitive "hide," that this does not do much good except to obviate the ensuing chaffing sores.

No matter how we attempt to divide the characteristics of the two breeds, and try to form favorable arguments for one side, there is always something in the other family that balances the advantages. When it comes to scenting, I am inclined to the belief that the pointer has the lead, on account of his marvellous powers of distinction between body and foot scent; and while I become enthusiastic over this attribute my mind immediately reverts to particular setters that were just as adept in this way as the pointer. We can make no mistakes with either breed, and though the pointer has arrived more slowly toward the field trial game, he has accomplished his progress well, by putting his ability to handle birds intelligently, above the spectacular. It is only with time, breeding for field trial results will force him, and he is already progressing that way, into the questionable course of intense inbreeding, that the setter people have pursued.

Bluejay Extermination—Hunters in Los Angeles county are organizing for the purpose of undertaking a systematic campaign against bluejays. It is claimed that the bluejay preys upon the nests of the quail, destroying thousands of eggs, and finally exterminating the quail. In Placer county sportsmen have for several years been holding annual bluejay shoots, with the result that in that county now quail are plentiful. County Game Warden James Vale is engaged in organizing a county game association, to act with other similar associations in other counties, to secure game laws more in keeping with the needs of the individual counties. Quite a few hunters have contributed the fee required for membership.

Brookdale Hatchery—Superintendent Frank Shehley of the Brookdale fish hatchery urged recently the county board of supervisors of Santa Cruz, in favor of supplying the Brookdale hatchery with water from Amos creek instead of from Clear creek as proposed by Judge J. H. Logan, the founder of the hatchery. Mr. Shehley said that the Amos creek water was cleaner and colder and altogether desirable for hatchery purposes.

Drink Jackson's Napa Soda.

PROTECTION WANTED FOR MIGRATORY BIRDS.

Through the activity of the American Game Protective and Propagation Association there are now pending in Congress three bills, two in the House and one in the Senate, with the objects in view of securing Federal protection to migratory game birds. Hearings have been held before the Committee on Agriculture on the House bills and before the Committee on Forest Reservation and Protection of Game in the Senate, of which Senator George C. Perkins, of California, is a member.

Representatives of many States and sportsmen's organizations were present at the committee meetings, the unanimous sentiment being in favor of the passage of laws for the saving from extinction of game and migratory birds from the shotgun during the mating and breeding seasons.

Before the Federal Government can assume control in this matter it will have to get the consent of each State, ceding this right, otherwise it would be an invasion of a State's constitutional right and bring about endless friction and litigation. The plan of campaign provides for a systematic effort to secure State co-operation in this respect.

Congressmen Weeks and Anthony, who introduced the House bills, and Senator McLean sponsor for the Senate bill, have conferred together and are co-operating to the end that the three bills shall conform. The birds listed in the protective bills are: Wild geese, wild swans, brant, wild ducks, wild pelican, wild crane, snipe, plover, woodcock, rail, wild pigeons and all other migratory birds which, in their northern and southern migrations pass through or do not remain permanently the entire year within the borders of any State or Territory.

These birds are to be deemed within the custody and protection of the Federal Government and are to be taken or destroyed only in accordance with the Federal statutes.

The Department of Agriculture is to have authority to fix open and closed hunting or shooting seasons—this with due regard to zones of temperature, breeding habits and seasons, lines of migratory flight, etc.

From January 10th to August 15th, inclusive, of each year is the period fixed for the close season in the Senate and one House bill. A provision is contained in each bill which avoids conflict with the laws of any State which already has upon its statute books laws providing for the adequate protection of wild fowl during their springtime migration from the south to the north.

Two bills mention a fine of not less than \$100 nor more than \$1000 for conviction of violation of the proposed law, and a second conviction would subject the violator to imprisonment for not less than thirty days nor more than six months. The third bill empowers the Department of Agriculture to prepare suitable regulations to give effect to the section prescribing and fixing closed seasons.

For the first time in the history of American game legislation the sportsmen at large will be afforded the chance to raise their voices in protest against the unfair laws on migratory birds generally prevailing. It is requested that every sportsman interested should write to Senator George P. McLean, chairman of the Senate Committee and Representative John Lamb, chairman of the House Committee, urging the passage of these measures. Letters to the Congressional representatives of the sportsman's district or to any member of the committees, whose names follow, will also be of much value.

Senate Committee—George P. McLean, of Connecticut, chairman; George C. Perkins of California, Henry E. Burnham of New Hampshire, Henry Cabot Lodge of Massachusetts, Miles Poindexter of Washington, Benjamin R. Tillman of South Carolina, Lee S. Overman of North Carolina, Robert L. Taylor of Tennessee, Gilbert M. Hitchcock of Nebraska.

House Committee—John Lamb of Virginia, chairman; Ashbury F. Lever of South Carolina, Jack Beall of Texas, Augustus O. Stanley of Kentucky, Gordon Lee of Georgia, Ezekiel S. Chandler Jr. of Mississippi, J. Thomas Hefflin of Alabama, James T. McDermott of Illinois, Robert C. Wickliffe of Louisiana, John A. Macquire of Nebraska, Thomas L. Ruhey of Missouri, John J. Whitacre of Ohio, Charles A. Talcott of New York, Joseph Taggart of Kansas, Gilbert N. Haugan of Iowa, James C. McLaughlin of Michigan, Willis C. Hawley of Oregon, Joseph Howell of Utah, Louis B. Hanna of Utah, Frank Plumley of Vermont, James S. Simmons of New York.

While the question of Federal protection of migrants has been agitated for years and has been advocated by practically all of the men prominent in conservation work, it has remained for the American Game Protective and Propagation Association to push the matter to a point where definite action may be expected.

The importance of State and county protective societies is being constantly put before the people of every State by the association. Where these organizations exist the members always exert a strong influence to the passage and the enforcement of proper game laws.

Reports soon to be published of the hearings held March 6th on the Weeks and McLean bills for federal protection of migratory game birds, show that forty-three States came out in support of this legislation.

The American Game Protective and Propagation Association, which secured the hearings, announces that thirty-six States were put on record through their Game Commissions as favoring Federal protection—this includes all but three of the States which have Game Commissions. Seven other States

endorsed the movement through their State associations of semi-official representatives. This leaves only five States unheard from.

The Weeks Bill is before the House Committee on Agriculture and the McLean Bill is before the Senate Committee on Forest Reservations and the Protection of Game. Advices received by the Association from Washington indicate that they will both be reported favorably. There was strong evidence presented at the hearings that the whole country is aroused against present conditions, and that it is awakening to the need for Federal protection of migrants which seldom remain long within the confines of one State.

POWDER PLANT BLOWS UP.

The second annual banquet of the West Coast Division of the Du Pont de Nemours Powder Company took place at a downtown restaurant Saturday evening. Covers were laid for seventy-five. Among this number were representatives of the company from Salt Lake and other western points, the Northwest and Arizona.

W. A. Simonton presided as toastmaster. The speakers were: H. G. Haskell, director of high explosive operating department; R. F. Penniman, W. J. Webster, Frank Turner, E. D. Armstrong, C. A. Patterson, F. W. Wallace, George Ritter, Warren H. McBride. The hall and table decorations were emblematic of scenes and incidents pleasing to sportsmen, and also depicting various utilities connected with high and other explosives.

During the evening it was announced that C. A. Patterson, formerly in charge of the Hercules plant, will be succeeded April 1 by E. D. Armstrong. Patterson will take charge of the Rapano (N. J.) establishment, the ranking works of the company.

A pleasant evening enjoyed by a gathering of jolly good fellows was supplemented by the following appetizing menu:

Camille Cocktail
Toke Points, Sauce Figaro Bisque of Ecrevisses
Brook Trout Stuffed en Papillote
Sauterne
Larded Sweet Breads Perigueux
Lamb Chops, Maison d'or Bearnaise Sauce
Chateau Moulis
Roast Stuffed Squab
Hot Asparagus, Hollandaise Sauce
Hearts of Lettuce Salad
Fancy Moulds of Ice Cream
Assorted Fruit, Cakes, Cheese
Demi Tasse

Among those present were: Frank Turner, W. J. Webster, H. H. Eastman, F. A. McMahon, George R. Ritter, A. H. Crane, F. A. Flagler, W. H. Agnew, William J. Hufnrich, W. A. Simonton, H. D. Gaskill, Z. Cushing, Carter Richards, George B. Clark, Oroville D. Adams, J. Robert Stubble, W. B. Cottrell, J. A. Thomas, J. R. Kelly, F. W. Achuff, W. N. Nelsen, J. R. Henderson, F. W. Wallace, A. G. Marlin, A. W. Stibech, J. W. Madden, E. B. Doremus, E. D. Armstrong, George A. Beane, M. M. Bowman, C. F. Conroy, E. M. Downer, Dr. M. L. Fernandez, F. E. Gallagher, J. J. Grant, William L. Hansen, L. E. Hart, C. E. Ingalls, A. V. Jackson, S. Johnston, Charles Lehmkuhl, S. E. Loucks, S. S. MacKinlay, Warren H. McBryde, J. W. McCoy, H. McCullough, W. J. McLean, J. S. Marx, F. G. Mayer, Stanley B. Moore, C. A. Patterson, George Pfeiffer, H. B. Poinsett, E. Richardson, R. Robison, C. R. Schneider, John S. Shaw, Luke H. Sperry, Fred A. Sill, J. A. Varni, Frank Viera, A. J. Wilson, A. M. Ashenfelter and others.

Few Antelope Left.—There still is a small band of antelopes in the Antelope valley, near Neenach, according to H. I. Pritchard, of the California Fish and Game Commission. This band numbers about twenty head and most of them are survivors of attacks of the coyotes.

"When California was first being settled and Los Angeles a pueblo," said Pritchard, "there were thousands of antelope in the valley. But indiscriminate slaughter, no matter how many animals there are, soon will kill them off. It was the same way with the buffalo and the antelope. After they practically had been exterminated the State passed a law prohibiting the shooting of them.

"The band was just about as large after the law was passed as now. But few young ones have been added to it, as the coyotes and occasionally the mountain lions get them. The people who have seen the herd say that it is composed almost entirely of old antelope.

"There are residents of Los Angeles who can remember the time when hunters from this city went to Antelope valley and brought back a wagonload of game.

Dynamite Fishing Casualty.—The details of an accident which occurred at Willetts on Tuesday, were revealed when George Vochoirs, 26 years old, was taken to the Central Emergency hospital. Vochoirs, an employe of a lumber firm in the north, was fishing with the aid of dynamite.

He got too close to the explosive and was blown into the air, both arms being torn from his body and both eyes burned out. He was brought to this city and taken the German hospital, but was transferred to the Emergency afterwards. At noon he was sent to the City and County hospital for immediate operation and treatment. Vochoirs is a German and was unfamiliar with the deadly nature of the explosive he was using.

ECHOES FROM THE NORTHWEST.

[By August Wolf]

Establishment of a game farm in eastern Washington, the appointment by the governor of a game warden and fish commissioner for the district, the creation of a fish hatcheries fund and the rigid enforcement of the laws, which shall provide imprisonment and cash fines for all violations, are some of the recommendations to be embodied in a petition to the next Legislature of Washington by the Spokane Rod and Gun Club.

Al. F. Wieseman, secretary of the organization, says: "Our judges have been too easy with violators of the game and fish laws. We need more rigid statutes in which imprisonment and fines are not left optional with the judges. If men with rod or gun knew the punishment for failure to observe the laws meant a term behind the bars I believe our game and fish would increase in a short time. The chief trouble is that our representatives in the legislature have been trading the game bill for some measure not half as important."

Mr. Wieseman's plan is to have the governor appoint a game warden and fish commissioner at a salary of from \$150 to \$200 a month; the board of commissioners to appoint a game warden, acting also as fish commissioner, in each county at a salary of from \$125 to \$150 a month, under the direction of the state official; he to have power to discharge them and the county commissioners at once to appoint another warden. The county wardens are to report every day to the county commissioners. The state fish commission shall have charge and control of the eastern Washington hatcheries.

The Wieseman plan provides license fees in eastern Washington as follows:

For resident, \$1 for fishing and hunting; for non-resident, \$25 for caribou and small game; for non-resident, \$10 for deer; for non-resident, \$25 for goat and sheep-moose; for non-resident, \$25 for caribou and elk.

The license to be purchased from the county in which resident lives. This license to be good for the State of Washington, the license money to go to the county in which the license is bought. Game and fish to be purchased with the license money after deducting the game warden's salary.

The alien hunter must declare his intention of becoming a citizen of the United States before a license is issued to him.

Every farmer must put up signs if hunting or fishing is not permitted on his property. If hunters or fishermen destroy such sign, the farmer shall have power to make arrest and the guilty party shall pay the farmer not less than \$15 and not more than \$25.

The special fishing code provides that game fish, seven inches or more in length, are to be taken only with hook and line, same to be held in hand. No more than 20 pounds of game fish to be taken in one day, or 5 pounds in one week. Dynamiting or spearing not allowed.

Fish from private hatcheries may be sold, but a license fee will be charged for each private hatchery; they to report to county warden. The markets buying fish should also pay license and make reports regularly. The license money from private hatcheries and markets to go to the eastern Washington State game provision fund.

Nets allowed only for carp, but the county warden shall be present when nets are drawn or he to appoint a special owner of nets to pay \$3.50 or \$5 a day to special warden.

Dam owners must provide fishways. It shall be unlawful to dump sawdust and other waste in streams.

It shall be unlawful to kill any song bird, trap or ensnare any song or game bird, or destroy nests or eggs of game or song birds.

It shall be unlawful to sell at any time of the year any game birds and game animals or any part thereof, or game fish. This section shall not apply to fish from private lakes or propagated birds.

The open season recommended follows:

Game fish, April 1 to December 1.

Prairie chicken, grouse and partridge, September 1 to November 1; quail, October 1 to November 1; ducks and geese, from September 1 to January 1.

Game animals, October 1 or 15 to December 1 or 15.

Bounties on predatory animals: Cougar, \$25; gray wolves, \$10; wild cats, \$7.50; lynx, \$7.50; coyotes, \$2.50. The skins shall become the property of the county and the county to sell them. Any one having skins of coyotes and wolves in possession must be property owner in the county and must show tax receipt as means of identification. Their hired help, of course, allowed to trap, catch or kill wolves and coyotes, but owner of ranch must collect the bounty and make an oath that coyotes were killed on his land. It shall be unlawful to bring any of the foregoing named animals or skins into the State from some other State or county.

A Skunk Industry.—While residents of the Park addition in Oroville, have been perplexed at the continual and offensive evidence of disagreeable odors carried in on the breezes, Ritchie Anderson and Clarence Nelson, two freshmen at the high school, have been laughing at their discomfort. The boys are trapping skunks and are bringing the carcasses into the old Hewit mining claim, where they are skinned. The boys report that they are receiving as high as \$3.50 per pelt for the hides.

AT THE TRAPS.

The Owl Rod and Gun Club's sixth annual blue rock tournament at Modesto, March 30 and 31, was attended on Saturday, by 25 shooters, the Sunday gathering counted up 53 guns. Weather conditions were ideal and good scores were numerous.

Seven events, high guns was the card for the first day. The winners were: Frank Merrill 10 and Bell 9 in the first event at 10 targets. Willet and Holling also scored straight. Event 2, Sears 14 and Dale 13, Willet again scored straight. Event 3, Wood 25 straight, D. C. Davison 23. Event 4, G. Enos 22, H. Garrison 21. Bell, however with 24 was high man. F. Merrill and Sears broke 23 each. Shooters were eligible to win but one prize each day. Even 5, Hoelle 22, Riley 21. F. Merrill was high gun in this race with 25, Haight with 24 followed, six scores of 23 were also shot, four by prior winners. Event 6, Haas put Stockton at the winning post again with a 20, Roberts and Smith gave Los Banos a second mark with 19. Ward and Davison's 24's were high scores. Three other prior winners broke 23. Event 7, W. D. Toomes 22, H. Garrison 20 and J. Fessler 17. Frank Merrill 140 out of 150 and Billy Sears 137 were high amateur averages the first day. Fred Willet 140 and Emil Holling 135 led the "pros."

Sunday's program called for ten events. W. Garrison and Davison broke 10 straight and won the opening match. Reed and Willet also cracked out straight. Event 2, H. Garrison and E. R. Dixon won with straight 15's. Reed followed with a second straight. Event 3, Ayers and Sears 25 straight, J. Dale 24 were the winners. Haight and Holling also scored straight of 25. Event 4, Haas 25, Smith 25 and Roberts 24 won. Reed broke 25 also. Haight and Willet each slipped one bird. Event 5, Frank Merrill, "Bud" Wood and Bell each broke clean strings of 25. Event 6, Hoelle, Pop Merrill and Schadlick each won with 22 out of 25. Willet scored the only straight in this event.

In the three man team shoot, Event No. 7, the Modesto team composed of D. C. Woods 24, D. C. Davison 23 and J. Dale 22, scored a total of 69 out of 75, which was tied by another Modesto team—J. Giovannetti 23, J. W. Ayers 22, Scoon 24. On the shoot off the former team scored 24 birds each, a total of 72 against 22, 21 and 23 respectively, 66 out of 75.

The other team scores were: "Pop" Merrill 21, Frank Merrill 24, Charley Haas 23—68 for Stockton. Newman team, E. R. Dixon 23, F. Stevenson 23, C. C. Huber 22—68. Los Banos team, W. P. Sears 25, G. Smith 22, M. Roberts 19—66. San Francisco team, E. Hoelle 23, T. D. Riley 22, Theobald 16—61, Modesto teams, W. Garrison 24, F. Bell 22, W. Garrison 20—66; W. D. Toomes 21, W. J. Fredericks 19, M. B. Foster 20—66; Hudelson 22, Plaskett 23, J. W. Davison 19—64; H. Stevenson 20, M. W. Newsome 19, W. J. Higgins 20—63; T. S. Hemminger 23, J. S. Enos 23, J. Turner 15—61.

Event 8 was at 12 doubles and 1 target. J. Plaskett 20, J. Fessler 20, J. Giovanetti 13 and F. Stone 15 were the schedule winning scores. Holling broke 20, Dale and F. Merrill smashed 21.

Event 9, individual championship, was won by F. Bell with 25 straight, eight 24's and Hoelle's 25 string made the race a hot one. Holling was in the straight list once more.

The five man team race, Event 10, professionals vs. amateurs was won by the "pros" 238 out of 250 against 231. The ten participants are listed in the score table, Event No. 10. The teams were made up of the five high averages for professionals and amateurs.

The score sheets forwarded to us show that Frank Merrill's 140 and 189 were high averages for the first and second day, 329 out of 350 high amateur score for the tournament. Sears with 137 and 185, 322 second; Bell 130 and 185, 315 third. Fred Willet's 140 and 190, 330 out of 350, E. Holling's 135 and 189—324, and Dick Reed's 133 and 190—323, were the three high professional averages.

Bell, Sears, F. Merrill and Dixon tied with two straights each for the L. C. Smith gun prize but up for the shooter scoring the most straights.

"Howdydew" Rice had charge of the office and D. C. Wood was field captain, between them both the shoot was conducted successfully and the Modesto boys all kept up their deserved reputation for hospitality and good sportsmanship.

*Professionals. Event No. 7, 12 doubles and 1 target.

Secretary Stanton A. Bruner writes: The regular Sunday shoot of the Los Angeles Gun Club was held March 31st, 1912, twenty-seven shooters taking part in same. The weather was very fine for good scores and some very commendable strings were made. J. F. Mallory, however, was the only one who broke a straight twenty-five.

The Feagen's silver and bronze trophy was won by Mr. L. Leighton with a score of 22 out of 25.

The winners in the classified prize events were as follows: J. F. Mallory took the first in Class A with 25 straight. Charles Van Valkenberg hung up a 24 for first in Class B. Class C honors fell to W. M. Wilshire with 22 and the D class was cleaned up by J. M. Trens with 19 breaks.

The Los Angeles Gun Club is rapidly completing the arrangements for the tournament of May 10, 11 and 12. At this shoot \$3,500.00 cash will be added and a good purse will be hung up for the high scores for the full three days. The tournament immediately follows the big Shriner convention held here the week beginning May 5. All Eastern and Western shooters anticipating a trip to this convention will do well to be on the outlook for full particulars of this shoot, which will appear in Breeder and Sportsman at an early date.

The scores for last Sunday's events were:

Table listing names of shooters and their scores for various events. Includes names like Bull Schless, Miller, S. C., Fugg, Leighton, Hagerman, Chas. Van Valkenberg, Bruner, Wilshire, Persinger, Peterson, Mallory, Clemons, Clemens, Miller, R. H., Mrs. Dr. Thomas, Robertson, Engelcke, Force, Lane, Dr. Thomas, Mills, Groat, Bohring, Bungay, Burnbardt.

The Meridian Corners Gun Club shooters are more favorably disposed towards blue rocks than live bird shooting. The last live bird shoot of this club shows the following scores:

Table listing names of shooters and their scores for live bird shooting. Includes names like Freeman, Allen, Sutherland, McKagney, Nichols, Sutherland, Freeman, Hogg, Allen, Nichols, McKagney, Nichols.

The Newman Gun Club announces the dates for the annual blue rock shoot as April 27 and 28. Cash and merchandise prizes will be hung up. The programs will be issued next week.

San Bernardino is the place and May 15 and 16 are the dates for the Urbita Gun Club shoot. Added moneys will be \$500 and Fred C. Drew writes: "We will guarantee that the boys will have a good time."

Last Sunday at the Urbita traps the following scores were shot—

Table listing names of shooters and their scores for the Urbita traps. Includes names like Drew, Draper, Calthcart, Monaghan, Weber, Allison, McRae, Willis, Jr., Brison.

Contra Costa Gun Club blue rock season opens at Pinole Sunday, April 14. Three matches comprise the club schedule. Event 1, 15 targets, three classes, 16 yards rise. Event 2, Selby trophy, 15 targets, distance handicap, 16 to 21 yards. Event 3, Peters and Du Pont trophies, 15 targets, bird handicap, Du Pont system.

The officers of the club are: Sam D. Beasley, president, W. A. Simonton, vice-president; J. M. McCoy, secretary-treasurer; R. R. Robison, field captain; John Silvas, member executive committee.

Hugh E. Poston left this city last Tuesday for New York to be gone for about a month. Mr. Poston, who has for several years represented the Peters Cartridge Company on the Coast will hereafter be identified with the Rem.-U.M.C. Company. Mr. Poston since he has been on the Coast has made a host of friends.

Clarence J. Ashlin, a popular member of the California Wing and Golden Gate Gun Clubs, departed from this city Wednesday on the steamer Tahiti bound for Sydney, Australia. "Ash" was given a grand sendoff by a score of powder burners who wished him a pleasant voyage and a quick return to San Francisco.

The Washington State Tournament under the auspices of the Spokane Rod and Gun Club will take place at Spokane April 23 and 24.

The California Wing Club live pigeon shoot for April will take place tomorrow at the Stege grounds.

PRONOUNCED CASES OF RABIES.

The so-called rabies scare in Southern California about three years ago was not given credence for any foundation in fact. The impression was a mistaken one, developments led to uncontrovertable evidence that there were cases of rabies in the south. Rumors for several months past that "mad dogs" had made an appearance in and near this city was not at first taken seriously. Such a condition was unprecedented, we were and had always been immune from the infection.

Bacteriological and medical researches and examinations in several cases prove without a doubt that the dreaded canine disease is here with us.

At the inquest into the death of Frank Anderes, who died at the German Hospital on March 9, the Coroner's jury, after finding that he had died from hydrophobia, made this statement in its verdict:

"This being the first victim of hydrophobia in this city, there are extenuating circumstances in the absence of proper treatment by the doctors of the German Hospital. That deceased was ridiculed when he reported the case, there is no doubt, but that the doctor did it to allay his fears has been shown by the evidence. That there is rabies here has been proven by the testimony of Dr. Brodrick, Health Officer, and Dr. Kellog, director of the laboratories for the Board of Health, and we wish at this time to commend them for the very effective measures adopted to check and stamp out this disease."

The verdict concluded with a recommendation that the dog muzzling law be strictly enforced.

Anderes was bitten by a pet terrier while feeding it some five weeks previous to his death. A few days after he was bitten he went to the German Hospital where, according to his mother, he was informed that he was in no danger. He returned later and stayed at the hospital till he died.

The dog which had bitten him was killed and its body examined. Evidence of rabies was found. Considerable interest was manifested in the inquest because of the numerous recent cases of dog bites and the agitation against permitting dogs to roam the streets unmuzzled. Both the Board of Health officers mentioned in the verdict were present at the inquest as well as doctors from the several laboratories where rabies tests have been made.

Since the muzzle ordinance for dogs was passed most of the city's dogs of value have been kept indoors, according to Secretary Matthew McCurrie of the Society for the Prevention of Cruelty to Animals, which conducts the public pound.

For several days pound deputies have attached linen tags bearing a copy of the law to the collars of all licensed dogs found at large without muzzles, but since Monday they have been taken up.

All owners of licensed dogs have been notified, and so far most have redeemed their pets. One thousand three hundred and sixty-nine dogs were handled by the pound in March—a record number. Twenty-seven were sold, 258 redeemed and 1,011 destroyed.

Gombault's Caustic Balsam

The Worlds Greatest and Surest

Veterinary Remedy

HAS IMITATORS BUT NO COMPETITORS

SAFE, SPEEDY AND POSITIVE.

Supersedes All Cautery or Firing, Invaluable as a CURE for

Here's Why

They're All Trying to Measure Up to Save-the-Horse

Read What Our Book and Treatment Does for This Man in Four Days

WESTBORO, MASS., Feb. 7, 1912.—I am using my first bottle of Save-the-Horse. Last Friday my horse strained his shoulder, speeding on ice; it was a task to get him home; and to-day he jogged as usual and insisted on playing. From a dead lame horse to a sound jogging one inside four days seems almost unbelievable, yet it certainly is a fact. Where one can have the benefit of your book not one moment of valuable time need be lost. I shall retain the contract, yet am well satisfied.
Very truly yours,
EVERETT L. SMITH.

BLANCHE MCKINNEY-HUNTER COMBINATION
Featuring
ROMAN HIPPODROME RACES
AND HIGH SCHOOL HORSES
A Popular and Up-to-date Free Attraction for Fairs
Permanent Address: Haddam, Kan., Feb. 29.

Troy Chemical Company, Binghamton, N. Y.:

Dear Sirs:—Please send me your Save-the-Horse book and hook on the Use and Abuse of Bandages, mentioned in your ad. We have used your remedy Save-the-Horse and will say we have found it to be one of the best remedies for the horse that we have ever ran onto. One of our runners bowed a tendon last fall so had that by the time we got him back to the stable he could barely put his foot to the ground, and all of the horsemen that saw him said it would be impossible to use him again that season, and some went so far as to say he would never be able to race any more unless he was freed. We used your Save-the-Horse, and within 23 days from the day he was hurt, we raced him three-quarters of a mile at Greenfield, Ia., in 1:15 1/2, winning. We raced him two more times afterward. The horse's name is Major Daniels, and he is now as sound as ever, and you can bank on always finding Save-the-Horse in our stables.
Yours respectfully,
L. M. HUNTER, Manager.

THE LIVERPOOL and LONDON and GLOBE INSURANCE COMPANY,
McCook, Neb., Feb. 3, 1912.

Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—Please send me your latest hook on lameness. I used Save-the-Horse on a badly curbed stallion, and today he is absolutely sound and has a certificate to that effect from the state veterinarian.
Yours very truly,
A. G. BUMP.

MATTHEWS, WEEKS & CO., Wholesale Grocers.
Rocky Mount, N. C. Feb. 13, 1912.

Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—What can you do for heaves? Your Spavin Remedy is the best medicine made; it has no equal. Send me your latest hook.
Yours truly,
W. G. WEEKS.

Send me \$1 worth of Worm Medicine. I used one bottle of your Spavin Remedy four years ago. It cured my mare as sound as a dollar. She had been lame for two years and I had tried many different remedies and never found anything equal to yours.
Yours respectfully,
J. M. STROCH, R. F. D. 1, New Cumberland, Pa.

But first write describing your case, and we will send our—BOOK—Sample Contract, Letters from Business Men The World Over, on Every Kind of CASE and Advice—ALL FREE (to Horse Owners and Managers—Only). PUT YOUR HORSE TO WORK and CURE HIM NOW. Write! AND STOP THE LOSS.

THE FARM

SKIM-MILK FOR THE POULTRY.

Very few people understand the value of skim-milk as a food for poultry. They relish it, and it is very good for them, either sweet or sour, or buttermilk, if it is not too old.

Milk takes the place of meat-scrap to a certain extent. In fact, the feeding of meat can be cut down one-fourth when the fowls have all the skim-milk they can drink, and the results obtained will be the same.

Milk is fine to feed laying hens, and will materially increase the egg-yield. In a test conducted at the West Virginia Experiment Station a few years ago, it was found that the hens laid practically an extra egg for every quart of milk fed to them.

It is one of the best of foods for the growing chicks, keeping their digestion in good order, and hastening their growth, as it contains the elements necessary for their development.

Where milk is fed regularly and a teaspoonful each of ginger and soda added to each gallon every third or fourth day, there will be no cholera or other hovel troubles. Stir the mixture until thoroughly dissolved, before feeding. This is very easily prepared, and will keep their digestive organs toned and sweetened.

When fattening fowls, skim-milk should be used to mix the mash. They like it better, and in this way are induced to eat just as much more; as the milk, while serving to wet the mash, is also a hearty food.

The food for young ducks should be mixed with milk, and curds made from sour milk are indispensable for young turkeys.

Remember that milk will not take the place of water, as it so soon turns to solid food in the crop. Keep water before the chickens the same as ever, no matter how much milk they may have.

On every farm there is more or less milk for feeding and it will pay to see that the chickens get their share of it.

CROP BOUND.

If you find a hen troubled with crop bound, treat her with great care. If the trouble comes from a lack of digestive juices, or from impaction by a foreign substance becoming lodged in the crop the treatment should be much the same till the crop is emptied. First pour into the crop all the sweet oil you can get the bird to retain. Then if the crop contents seem hard and unyielding begin at the top and gently work the mass till you squeeze a portion of it out at the mouth. In a short time you may relieve the bird of much of the impacted food. Then gradually pour down its throat some warm water to break up the remainder of the mass. If there was some obstruction such as a wad of straw or hay it will work away from the opening. If the trouble seems to be due to the absence of natural juices in the crop, feed the bird on soft food sparingly for a day or two and give some charcoal. When the bird seems to be doing all right put it back on the regular grain feed. Sometimes a hen in her greed will swallow a hall of twine, a hit of rag, or other substance that will not leave the crop or allow other food to pass. This soon sets up an inflammation and your bird is ruined. If such is the case you can usually tell it when the crop is empty. It may be worked out by way of the mouth by working carefully; but remember that the fowl will be more or less tender after the experience, so feed her sparingly and on easily digested food for a day or two. We once saw a hall of yarn unwound from the crop of a goose, the free end happening to hang out of the beak. There were yards and yards of the yarn. The goose trotted off yelling as lustily after the operation as though she had accomplished some great feat to be heralded abroad.

Ewes should be two years old before being bred.

WOOL SMOKE.

One of the most effective remedies we have ever tried is wool smoke. It can be used in many cases and he found an instant cure where veterinarians' salves and liniments have failed to show any effects. It has often proved an unerring remedy in many instances when human beings were the patients. When a nail or a splinter is run into the foot there is no other cure half so quick or half so sure and yet so easy as wool smoke. The treatment is very simple. Simply place some coals of fire in a dinner pot or similar vessel and throw in a few scraps of some old woolen garments. Surround the limb in the smoke and the heat. This will bring instant ease as soon as the sweat starts. Keep up the smoking for at least half an hour. The effects are surprising. All soreness and poison are drawn out.

One fall we had a yearling colt that had the worst case of distemper that I have ever seen. The neck and jaws broke in thirty-two places. Nothing seemed to do him any good. He constantly grew worse and we had given him up. We decided to try smoking him. This we did two or three times a day for a week or more. Each treatment seemed to help him, but it was a hard case and took time. But there was no question as to what was the cure.

Last March a cow whose calf was only ten days old got into a cold rain. The next morning the udder was swollen as hard as they ever get although the cow was in good condition before. Salves, liniments, nothing did any good. You may have had similar experiences, so I will not go into detail. We blanketed the cow and gave three good treatments a day. In a week all traces of the trouble had disappeared. We had expected a spoiled udder, but the cow entirely recovered.

This is a cure that is easily tried in any case of swellings and has no equal in many cases.

Are you one of the unthinking who starts a horse with a hlow instead of using your voice?

We can warm water more cheaply in some other way than through the cow.

No farmer ever went wrong following the pathway of a good cow.

Good heifers prepare in advance for their animals.

Flies!
Flies!
Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of **Tanglefoot Fly Paper**. There is fully one-third more compound per sheet on **Tanglefoot** than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for **Tanglefoot**.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans.

Will protect your trees from all climbing insects.

The great problem is to make plants and animals produce more food per acre and retain the bulk of fertility of the farm.

Dairy farming is one of the few absolutely permanent systems of agriculture.

GOOD ONES FOR SALE.

PAL (2) 2:17½, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (3) 2:20) by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24½ made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no hopples. By Palite 45062; dam Eabe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; a good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15½; second dam a producer by Anteeo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOULIA, a standard bred 4-year-old filly by Nushagak, sire of two 2:10 performers, dam by Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15¾) by Ansel; third dam Mayflower 2:30½ (dam of Manzanita 2:16 and Wildflower) by St Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in all of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

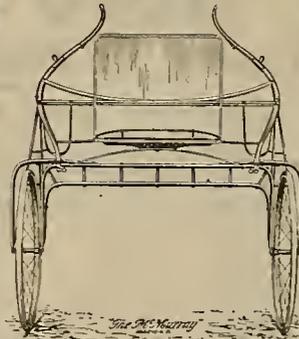

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address **E. D. DUDLEY**, Dixon, Cal.

KEEP YOUR RAZOR SHARP

Don't blame the razor if it dulls quickly. Maybe it's your fault. Rub a few drops of 3-in-One oil on your razor stop. When leather is pliable stop as usual. Any razor will cut easier, better and stay sharp longer. After using, draw blade between thumb and finger moistened with 3-in-One. This prevents rust, keeps edge smooth and keen, always sharp and ready for immediate use. Don't scrape your face. Use 3-in-One on your razor and shave right. Write for liberal free sample and special scientific circular. Try it yourself. 3-IN-ONE OIL COMPANY, 102 New St., New York.

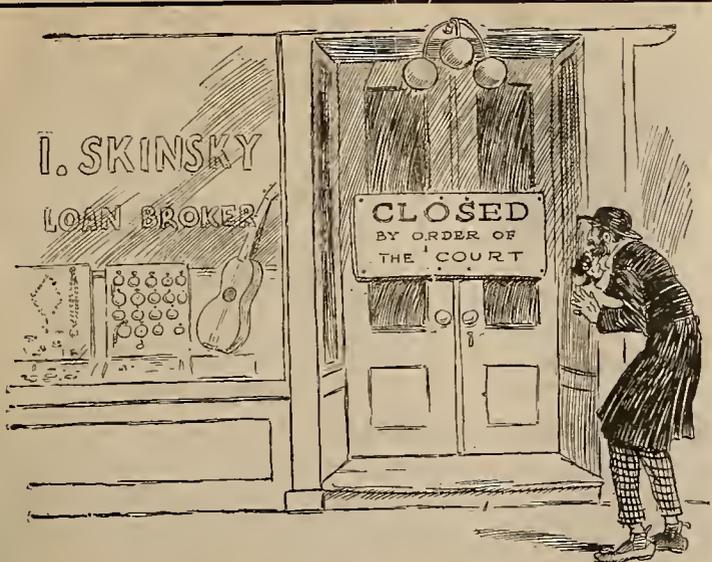

You Can't Cut Out A BOG SPAVIN, PUFF or THOROUGHPIN, but

ABSORBINE

will clean them off permanently, and you work the horse same time. Does not blister or remove the hair. \$2.00 per bottle, delivered. Book \$1 free.

ABSORBINE, J.R., Unimpaired for mankind, reduces Varicose Veins, Ruptured Muscles or Ligaments, Enlarged Before After Glands, Goutres, Wens, Crysts, Allays pain quickly. Price \$1.00 and \$2.00 a bottle at druggists or delivered. Will tell you more if you write. Manufactured only by **W.F. YOUNG, P.D.F.**, 54 Temple St., Springfield, Mass.

SOMETHING WRONG WITH HIS "HOCK JOINT"

Every Allment, Blemish, Injury or Disease of the hock can be cured with

REDUCINE

EXCEPT REAL, GENUINE, TRUE

Bone Spavin

No case of genuine bone spavin has ever been cured by any method of treatment since Mrs. Adam picked the prohibited persimmon. Countless thousands of horses with bone spavin have been fired and tortured with burning blisters from the dark ages down to the present day, and never a single case has been cured. Numerous preparations have been marketed under the claim that they would cure bone spavin, but no man, who knows what a true bone spavin is, ever saw a cure made. Fortunately, bone spavin is not as common a disease as many people suppose. Most cases of so-called bone spavins are lumps or enlargements located where bone spavins come and the horse may or may not be lame. These cases may be cured, and, as Reducine is the most powerful preparation ever devised, much more powerful than any blister ever made, though entirely painless and absolutely harmless, Reducine will do this class of hock ailments more good than any other preparation or method of treatment. Firing never did anything more in these cases, or any other for that matter, than to torture the horse and disfigure him for life. No case of bone spavin, or so-called bone spavin, was ever cured or ever received the least benefit from firing since the morning stars relearned their first anthem. We have received letters since the morning stars relearned us of cures of bone spavin with Reducine. We know, in these cases, that there was no disease of the periosteum in the joints, or disease of the bones of the joint, one or both of which conditions are always present in true bone spavin. In our free booklet, we give an illustrated test which never fails in determining whether or not a horse is afflicted with true bone spavin. This test was originated by us, and has been used by us for many years. This test has been copied, which shows that it is well thought of by others. Send for one of these booklets if you think your horse has bone spavin. If the horse passes this test, Reducine will cure him. If he does not pass this test, don't waste your money for Reducine to treat him or pay it out for any other method of treatment, because you will get no satisfactory results.

S. W. COLE,

Manufacturer of Lumber and General House Building Material, Stairwork and Interior Finish a Specialty.

CENTER ROAD STATION, PA., JANUARY 26, 1912.

The Reducine Co., New York:

Gentlemen: The can of Reducine that I got of you last spring I used on my horse. He had a big spavin, and I thought I would have to kill him, as I could hardly get him to water.

Now he is not a bit lame. After I had put on the fifth application, he went so much better that everyone spoke about it and wanted to know what I had done for him.

One of my neighbors has a good young horse with a bog spavin and is afraid to pay for a can.

I am sending herewith \$4.00 for a can for his use, and if it doesn't cure his horse, it won't cost him anything. If it does, he is to pay me the \$4.00. It is wonderful how it cured my horse.

Yours respectfully,

S. W. COLE.

POWELL'S EXPRESS CO.,

GENERAL EXPRESS AND FORWARDING AGENTS,

Telephone Call, 3721 Sprlag. Office: 538 Canal Street.

NEW YORK, MARCH 15, 1912.

Reducine Co., 90 West Broadway, New York:

As you are aware, we have used several cans, always with good results. We can cite one case that is perhaps a little out of the ordinary. We have a mule that developed a bone spavin and became so lame that we could not work her. As we had then been using Reducine on a son of Stamboul, 2:07 1/4, with satisfactory results, although we knew you did not recommend Reducine for bone spavins, thought we would take a chance and told the stable man to use it on the mule, which was done, and she is now working practically sound. Yours resp., POWELL'S EXPRESS CO.

Cash with order in all cases. Please send N. Y. draft, Express order or P. O. order.

Price \$4 per Can.

If you wish to prepay the express charges to any point in the United States, send us \$4.25.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE—Bay saddle horse, large, stylish; weighs about 1100; sound and gentle; nicely gaited. Address, F. C. LUSK, Chico, Cal.

FOR SALE, CHEAP—One registered stallion, sired by McKinney 2:11 1/4; 8 years old; sound. Also one imported draft registered stallion; weight 1800 pounds; 7 years old. Would consider trade on heavy mare or standard-bred mares, or fillies. Breeding and pictures sent to interested parties. Address D. A. BAKER, Hill P. O., San Diego, Cal.

STANDARD MCKINNEY STALLION FOR SADE OR LEASE—Scott McKinney 33749, by McKinney, dam Primrose (great broodmare) by Sidney; second dam Brown Rose by Privateer; third dam Lady Baldwin by The Moor; fourth dam daughter of Ben Lippincott, son of Williamson's Belmont. Scott McKinney is a handsome bay horse; weighs about 1100; good gaited, and all his get are fine individuals and show speed. Price reasonable. Has State license for this year. Address DR. M. F. SCHALTBENBRANDT, 4051 20th St., San Francisco.

FOR SALE—A black stallion; hind pasterns white; stands 17 hands high and weighs 1500 pounds. Sired by Monterey 2:09 1/4; dam Leap Year 2:26 1/4 (dam of Yosemite 2:19, California trial 2:16 1/4), by Tempest 1881; second dam by Commodore Belmont 4340. Sire and dam registered. This grand-looking horse can show a 2:30 gait, and is a fine, clean-gaited trotter; needs no boots, and I think will learn to trot fast. Will make a sire of very useful horses for either track or road. He is sound and all right. On account of ill health I must sell him. Price reasonable. Address P. J. WILLIAMS, San Lorenzo, Cal.

FOR SALE. — Beautiful Trotting Mare; color brown; coming 5 years; dam by Zombro; full sister to Zomalto; very promising fast trotter; has only been worked the last 3 months and can trot close to 2:20 on mile track. She is also a fine roadster; city broke. Registered Electioneer-Wilkes mare; bay; coming 7 years; by Expedition; dam by St. Vincent; second dam by Guy Wilkes; third dam by Baron Wilkes; fourth dam by Geo. Wilkes. She was bred by C. W. Williams of Galesburg, Ill. Is a fine driver and has speed. Should make an excellent brood mare.

No fancy prices asked. Write to E. F. BINDER, 1364 West 5th St., Riverside, Cal.

FOR SALE—Arawana B. by Sidney Dillon; dam Lily Stanley 2:17 1/2 (dam of 3 in 2:30) by Whippleton, etc. This is one of the most stylish, best-broke and purest-gaited trotters in California. She is in foal to Prince McKinney (2) 2:29 1/4 (trial 2:13).

A two-year-old filly by Prince McKinney (2) 2:29 1/4, out of Arawana B. a pure-gaited pacer with a world of speed; nicely broken.

A two-year-old filly by McKena (son of McKinney 2:11 1/4 and Helena 2:11 1/4 by Electioneer); dam Zorilla (dam of Prince McKinney (2) 2:29 1/4) by Dexter Prince; second dam Lilly Thorn by Electioneer, etc. A fine trotting "prospect"; perfectly broken; level-headed.

Both of these are entered in the Futurities and all payments made. On account of my ill health I must sell these splendid individuals. They can be seen at McKinney Stables, 36th avenue and Fulton street. For price and further particulars, apply to stables. F. GONMET, Owaer.

FOR SALE—Maud Jay C., the dam of Nearest McKinney 2:13 1/4, and also El Angelo by The Angelus 2:07 1/4, at Banta, and another very promising colt by Star Pointer at Eureka that is a whirlwind pacer. She also has a filly by Bon McKinney that cannot be beaten. Maud Jay C. is a beautiful mare having color, size and conformation. She is a fine roadster and a lady can drive her. She was bred to Tom Smith 2:13 1/4 in 1911, but failed to get with foal. Maud Jay C. is registered standard. She was sired by Nearest 2:22 1/4, out of Fanny Menlo, dam of Clausus (4) 2:13 1/2 by Anty (4) 2:12 1/4; second dam Nelly Anteo by Anteo 2:16 1/4; third dam Fanny Patchen (dam of California Nutwood, a sire) by Geo. M. Patchen Jr. 2:27. As a broodmare she is destined to be one of the greatest if her four foals are any criterion. I will price her very reasonably. For further particulars, address T. W. BARTON, Driving Park, San Jose, Cal.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$2 each per month. The finest climate in California and the track over which world's champions have been made. Address S. H. BURNS, Proprietor, Santa Rosa, Cal.

GRAND CIRCUIT MEETING

The Michigan State Agricultural Society

DETROIT

Announces the following early closing purses to be raced at the

63D ANNUAL MICHIGAN STATE FAIR

SEPTEMBER 16, 17, 18, 19, 20, 21, 1912.

| | |
|---|----------|
| No. 1—2:15 Class, Trotting, "The Michigan Stake" | \$10,000 |
| No. 2—2:12 Class, Pacing | 5,000 |
| No. 3—2:10 Class, Trotting | 2,000 |
| No. 4—2:05 Class, Pacing | 2,000 |
| No. 5—2:20 Class, Pacing for horses owned in Michigan | 2,000 |

CONDITIONS.

Entries Close Tuesday, April 16,
When Horses Must Be Named.

The Michigan State Agricultural Society holds membership in the Grand Circuit, the Great Western Circuit, the National Trotting Association, and the American Trotting Association.

Rules of the National Trotting Association will govern except as otherwise specified.

Two or more horses under the same ownership or control or trained in the same stable may start in any race.

Events Nos. 1, 2, 3 and 5 will be decided by the best 3 in five heats, limited to a maximum of five heats and all starters shall continue in the race to the finish unless distanced or drawn. In case of a tie for first place in the summary at the end of the fifth heat, the horses so tied shall race an extra heat to decide the winner. Event No. 4 will be decided by the best 2 in 3 heats, and will continue until a horse has won two heats, and non-heat winners shall be ruled out when three heats have been raced.

Horses entered in the Michigan Stake that win first money in stakes or purses whose face value exceeds \$35,000 between the date of making the entry and the final payment, September 5, will be ineligible to compete and all entrance paid on such entries will be refunded.

Event No. 5, the 2:20 pace, is open only to horses owned in Michigan from the date entries close until the day of the race, both inclusive.

In case of the sale of an entry to parties outside of Michigan entrance paid or due is forfeited.

Entrance is 5 per cent of purse and 5 per cent additional from winners of each division of same, but in case two or more horses are entered by the same stable in the same class, full 5 per cent entrance is charged on only one horse.

And for each additional horse the entrance is only one per cent.

But full 5 per cent entrance will be required from each starter.

Liability of Nominator ceases when written notice of withdrawal is lodged with the Secretary.

Entrance Is Payable in Easy Installments as follows:

| | April 16. | May 21. | June 25. | July 30. | Sept. 3. |

C. L. NEWPORT, Pres. W. H. BRAILSFORD, Secretary, Hanford, Cal.

PUBLIC TRAINING STABLE.

Al. Russell, Los Angeles, Cal.

I have decided to make my home in Los Angeles, Cal., and will conduct a Public Training Stable. I would be pleased to meet or correspond with parties having horses to train or race. My stable is located on Menlo avenue, between 38th and 39th streets, one-half block from the New Exposition Track. This year I will race my horses through the Canadian and Pacific Circuits, starting about June 1st. AL. RUSSELL 910 W. 39th St., Los Angeles, Cal.

WM. F. EGAN, M.R.C.V.S.

Veterinary Surgeon.

1155 Golden Gate Ave

Branch Hospital, corner Webster and Chestnut Streets.

San Francisco, Cal.

Most Central Track in California.

San Jose Driving Park

SAN JOSE, CAL.

1 hour and 20 minutes from San Francisco.
20 minutes from business center of San Jose by street car.

The Most Perfect One-Mile Training and Racing Track in the West.

Large, tight-board paddocks, with running water in each, at the disposal of patrons.

All stalls 12 x 14 feet, with 12-foot shed running full length. Boarding house on the grounds.

Plenty of green feed the year round. Stalls \$2 per month. Shipping station, Hillsdale, Cal. Free track and feed rooms. Address all communications to

RAY MEAD, San Jose, Cal.

Feeding should always be done judiciously. To compel a cow to eat a large amount of slow digestible food is time wasted and money lost.

Prince McKinney (2) 2:29 1/4

Reg. No. 51803

Winner of 2-y.-o. Trotting Division Pacific Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by McKinney 2:11 1/4, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lily Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17 1/4, that sired Sidney, grand sire of the world's champion trotter, Lou Dillon 1:58 1/2.

Prince McKinney is a handsome dark bay horse, standing 16 hands and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St. SAN FRANCISCO, CAL.

Good opportunity for San Francisco owners of good mares to breed them to a high-class stallion. FEE \$40 (cash), with return privilege.

F. GOMMET, Owner. Apply or address F. E. BURTON, McKinney Stables, 36th Avenue, San Francisco.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11 1/4.

Bay stallion; 15.2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barona (dam of Bayard Wilkes 2:11 1/4, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03 1/4, Denervo 2:06 1/2, Nordwell 2:08 1/2, Memonia 2:09 1/2, Demonio Wilkes 2:09 1/2, Ben Rush (3) 2:10 1/2, Grace R. 2:10 1/2, Miss Winn 2:12 1/4, Normono 2:14 1/4, and is a full brother to the sires, Diablo 2:09 1/4, sire of 50, Arner 2:17 1/4, sire of 2, and Don Derby 2:04 1/2, sire of 1.

Will make the season of 1912 at SUISUN STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address

RUSH & HAILE, Suisun Stock Farm, Suisun, Cal.

| | | |
|--|---|--|
| Sired by Nutwood Wilkes 2:16 1/4 Copa de Oro 1:59 Jno. A. McKerron 2:04 1/2 etc. | The Wilkes-Nutwood-Director cross. The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/2.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/2, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:08 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Bred to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on the McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

BREED TO THE BEST BRED TROTTING STALLIONS!

Palo King 2:28 1/2 --- Reg. No. 44910.

Sire of Little Lucille (3) 2:09, the greatest pacer of her age on this Coast.

Sired by Marengo King 2:29 1/4 (son of McKinney 2:11 1/4 and By By by Nutwood 2:18 1/4); dam Palo Belle 2:24 1/2 by Palo Alto 2:08 1/4; second dam Belle Isle (great brood mare) by Piedmont 2:17 1/4; third dam Ida Belle (great brood mare) by Hambletonian 10; fourth dam Godfrey Star by American Star 14. Palo King is a beautiful bay, stands 16 hands, is a pure-gaited trotter, and all his progeny are intelligent, have style, finish and extreme speed. TERMS \$25 for the season.

Iran Alto 2:12 1/4 --- Reg. No. 24586.

Sired by Palo Alto 2:08 1/4; dam Elaine 2:20 (dam of 4 trotters, 1 sire of 15, 2 dams of 9) by Messenger Duroc; second dam Green Mountain Maid (dam of Electioneer and 9 others in 2:30) by Harry Clay 45, etc. Iran Alto was one of our gamest trotters. He has 15 in 2:30, 3 dams of 3 in 2:30. TERMS \$15 for the season.

Alto Express --- Reg. No. 57364

Sired by Iran Alto 2:12 1/4; dam Beautiful Bird by Nutwood Wilkes 2:16 1/4; second dam Expressive (3) 2:12 1/4 (dam of Atlantic Express (3) 2:08 1/4, Esther Belle 2:08 1/4, and the dam of Eva Bellini, timed as a two-year-old in 2:11 1/4, as a three-year-old beat 2:10 in her races) the greatest racing daughter of Electioneer. Alto Express is a perfectly made trotter and will undoubtedly be a sire. TERMS \$20 for the season.

For further particulars, address H. S. HOGOBOOM, Woodland, California.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/4. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By **BON VOYAGE 2:08**

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07 1/4, the only other one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscova (dam of Bon Guy, 3-y.-o., 2:11 1/4, Yolande 2:14 1/4 and Tina 2:20 1/4) by Guy Wilkes 2:15 1/4; third dam, Moscova 2:28 1/4 (dam of Mamie R., 3-y.-o., 2:15 1/4, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. **BON MCKINNEY 51480** (3) 2:24 1/4 is a beautiful bay horse and is in every respect a magnificent individual, possessing size, style, quality, intelligence and frictionless trotting action. With little work as a yearling he trotted a quarter in 35 seconds and a half in 1:15. The next spring as a two-year-old, with 2 1/2 months' work, he worked a mile in 2:19 1/4, a half in 1:08 and a quarter in 33 seconds. Having no stake engagements, he was taken out of training after making this wonderful showing for a two-year-old. There is no doubt he could have trotted a mile in 2:12 that year had he been worked until fall. As a three-year-old he was given a record of 2:24 1/4, which is no mark of his speed. Mr. Ted Hayes trained him and says that he considers him the best colt he ever trained and firmly believes that he will not only make a great race horse, but a great sire. As a two-year-old he was bred to ten mares and got nine foals, and every one who has one of his get is confident that he has the best foal on the Coast. **BON MCKINNEY** combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is a young horse and has already commenced to make his mark in the world, and now is the time to breed to him and take advantage to get something exceptionally good at a reasonable price. Study his pedigree, come and see him, and you will be sure to send your mare.

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59 1/4.

Dam Effie Logan (dam of Sir Albert S. 2:03 3/4; Jim Logan 2:05 1/4, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 11256 (sire of Shecam 2:12 1/4 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08 1/4, etc.); 3rd dam Grace (dam of Daedalion 2:08 1/4, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15 1/2 hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to **The Harvester 2:02**

Sired by **Ozono**, trial (2) 2:17 1/4, sire of Norvalon (4) 2:22 1/4, by Moko 2:457 (sire of Feren 2:05 1/4, Brenda York 2:04 1/4, Native Belle (3) 2:06 1/2, and the dam of The Harvester 2:01. First dam Maggie Yezer (dam of Walnut Hill 2:08 1/4, sire of The Harvester 2:01, etc.) by Red Wilkes 1749; second dam Docia Payne (great broodmare) by Almont 33.

Black Hall is a very handsome black horse, standing 15.3 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS: \$50 for the season; usual return privilege.** California Stallion License. Pure bred.

ATHADON 20990 Rec. (1) 2:27

Sire of **The Donna 2:07 1/4**, **Athasbam 2:09 1/4**, **Donasbam 2:09 1/4**, and 15 others

Sired by **Matadon 9392**, sire of Athadon (1) 2:27, etc. First dam Athalle (dam of 7) by Harkaway 11808; second dam, Mag by Alcalde 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of **Kinneysbam (2) 2:18 1/4**, winner 2-y-o pacing division Breeders' Futurity

Sired by **McKinney 2:11 1/4** (sire of 23 in 2:10 list).

First dam **Palavena (2) 2:19 1/2**, also dam of **Mendovena 2:19 1/4** and **Menlo 2:29 1/4**, sire of **Blanche R. 2:06 1/4**, by Palo Alto, rec. 2:08 1/4, Reg. No. 6354, he by Electioneer 125; second dam **Astoria** (dam of **Palavena (2) 2:19 1/2** by General Benton 1766; third dam by Kentucky Prince, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 16.3 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS: \$25 for the season; usual return privilege.** California Stallion License No. 126. Pure bred.

These horses will make the **Season of 1912 at FRESNO, CAL.**, at **Geo. L. Warlow's ranch.** Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **GEO. L. WARLOW, Fresno, Cal.**

NOGI 2:10 1/2---Reg. No. 57383

Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and neverbeaten as a 3 year old.

Sired by **Athalo 2:24 1/4**. First dam **Cora Wickersham** (dam of **Athasbam 2:09 1/4**, **Donasbam 2:09 1/4**, **Nogi 2:10 1/2**, **Mattawan (3) 2:17 1/2**, **Kinneysbam (2) 2:18 1/4**) by Junio; second dam by **Whipston 1383**; third dam by **Gladiator 3336**.

Nogi 2:10 1/2 is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madero, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.**

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by **Bon Voyage 2:08**; dam **Loma B.** by **Stam B. 2:11 1/4**; second dam **Italia** (great broodmare) by **Sidney 2:19 1/4**; third dam **Dot 2:29** by **Pomper**, sire of dam of **Gratt 2:02 1/4**. **Nobage's** first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.60 per month, and all mares from a distance will be first month free. Will make the season of 1912 at **EASTERY RANCH, 3 miles east of FRESNO, CAL.** **TERMS: \$50 to insure.** Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

Trix McAdrian . 2:23 1/4
Grace Obalmers (trial) 2:24

Sired by **GUY MCKINNEY** (sire of **Vernon McKinney 2:02**, **Linden G. 2:22**, etc.); dam **MAPLE LEAF 2:34 1/4** by **Adrian 2:26 1/4** (sire of **Roseta A. 2:14 1/4**), son of **Reliance 2:22 1/4** and **Adriana** by **Skenadoah**; **McAdrian's** grandam was **OLLIE RAY 2:39 1/4**, dam of **Acclamation 2:24 1/4** (sire of **Lizzie C. 2:16**), **Vendome**, dam of **McKinley 2:29**; his great grandam was **MARY BLAINE** by **Signal 3327** (sire of the dam of **Prussian Maid 2:19**, etc.). **Guy McKinney**, sire of **McAdrian 2:24**, was by **McKinney 2:11 1/4**, out of **Flossie D.**, by **Guy Wilkes 2:16 1/4**; second dam, **Blanche Ward** (dam of **China Maid 2:06 1/4**), by **Onward 2:25 1/4**; third dam, **Blanche Patchen**, by **Mambrino Patchen 58**, etc.

McAdrian is one of the handsomest and strongest made grandsons of **McKinney** in California. He has no faults; is a pure gaited trotter and a sure foal-getter. He will make the season of 1912 at the **Pleasanton** race track. **TERMS: \$30 for the season.** For further particulars, apply to or address **E. D. DIGGES, Owner, 743 E. Anderson St., Stockton, Cal.**

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04 3/4 champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07 1/2, second fastest stallion of 1910.

Grace Bond (3) 2:09 1/4, winner both of Kentucky Futurities.

Creighton 2:08 1/4, record made in 1911.

Half brother to Jay Hawker 2:14 3/4, sire of Country Jay 2:05 1/4, Susie Jay 2:06 1/4, etc.

Half brother to The Tramp, sire of Bervaldo 2:08 1/4, Trampfast (2) 2:12 1/4.

Half brother to Sorrento Todd (4) 2:14 3/4, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18.. Sire of 12 in 2:10, including Bumps 2:03 1/4, Rubenstein 2:05, Baron May 2:07 1/4; sired dams of 4 in 2:10.

SORRENTO..... Dam of Jay Hawker 2:14 3/4, Sorrento Todd (4) 2:14 3/4, Belle Sentinel 2:15, Eola 2:19 1/4, Lazy Bird 2:26 1/4, Teddy Sentinel, 2:29 1/4, The Tramp (sire), etc.

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

GEORGE WILKES 2:22 Sire of 83, dams of 204.

BELLE PATCHEN 2:30 3/4 In great brood mare list.

GRAND SENTINEL 2:29 1/4 Sire of 23, including Nettle 2:16 1/4, Tosca 2:18 1/4.

EMPRESS..... Dam of 2 and granddam of 9.

HAMBLETONIAN 10 Sire of 40.

DOLLY SPANKER Dam of 1.

MAMBRINO PATCHEN 58 Sire of 25, dams of 162.

SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.

SENTINEL 280 Sire of 8 in list.

MAID OF LEXINGTON By Mamb. Filio 29.

ABDALLAH MAMBRINO Sire of 15, dams of 42.

BIG ELLEN By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033

Three-Year-Old Record 2:10 3/4 In a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

- | | | |
|---------------------------|----------------------------|---------------------------|
| Francis J.2:08 | Legal Patchen ...2:15 1/4 | Dorothy C.2:19 1/4 |
| Evelyn Patchen...2:10 1/4 | Lucile Patchen ...2:16 | Louise Patchen...2:19 1/4 |
| Scott Patchen ...2:12 1/4 | Jerry Patchen ...2:16 1/4 | Dr. Warren2:19 1/4 |
| Dessie Patchen ...2:13 | Knightstown Belle2:16 1/4 | Roscoe Binning ..2:20 |
| Frank Patchen ...2:13 1/4 | Alec Williams ...2:18 1/4 | Mary Patchen ...2:20 1/4 |
| Ruby Patchen ...2:13 1/4 | Lois Patchen ...2:19 1/4 | Black Patchen ...2:20 1/4 |
| J. C. Patchen ...2:14 1/4 | Auduous the Miller2:19 1/4 | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 1/4 (trotted to high wheels), Anglin Wilkes 2:16 1/4 over half-mile track, trial 2:09 3/4, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed.

License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16 1/2, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/4, etc., and dams of San Francisco 2:07 1/4, Mona Wilkes 2:03 1/4, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17 1/4 and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13 1/4, and timed separately in 2:14 1/4, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24 1/4 pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes.

For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13 1/4

Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22 1/4, (3) 2:15 1/4, (4) 2:11 1/4, Ella Mae (3) 2:14 1/4, Vallejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed.

Sire, McKinney 2:11 1/4; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09 1/4 to 2:28 1/4) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the

DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege.

The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

Prince Ansel 29220

2-y.-o. Race Record 2:20½.

By Dexter Prince 11363 (sire of Lisonjero 2:08¾, Eleata 2:08½, James L. 2:09½, Edith 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 10 and 1 dam of 1) by Ansel 2:20 (sire of 14, 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29, 1911, 2:09½; Wesos 2:12¾; Adansel (3) 2:14½; Dorothy Ansel (2) 2:20, 1910; Laura Rodgers (2) 2:18¾; Frances C. (3) 2:24¾; Mat. 2:19; Anjella 2:27¾, tr. 2:16¾; Bonnie Princess 2:25½; Princess Mamie 2:27¾, tr. 2:18¾; Prince Gay, tr. 2:12¾; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevola, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18½; Oddmark (2), tr. 2:23; Georgie K. (2), tr. 2:30.

PRINCE ANSEL is a handsome bay stallion, stands 15.3 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09½. Adansel, his three-year-old son, lowered his record to 2:14½ and Wesos started three times and won twice, lowering his record to 2:12¾.

Season of 1911 at the **Race Track, WOODLAND, CAL.**

Terms: \$50 to insure, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address **A. B. KENNEY,** Manager Woodland Stock Farm, Woodland, Cal.

COPA DE ORO 1:59

REG. NO. 52785.

Fastest Horse on the Pacific Coast.

15.3½ hands; weighs 1200 lbs. A Faultless Horse. By Nutwood Wilkes 2:16½; dam Atherine 2:16¾, by Patron 2:16¾; second dam Athene by Harold 413; third dam Minerva by Pilot Jr. 12; fourth dam Bacchante Mambriño by Mambriño Chief 11.

FEE: \$75 for the season. (Limited to 50 mares.)

CARLOKIN 2:07 1/2

REG. NO. 36548.

Exhibition Mile 2:05¾; 15½ hands; 1100 lbs.

By McKinney 2:11¼; dam the great broodmare Carlotta Wilkes (dam of Inferlotta 2:04¾, Mary Dillon 2:06¾, Carlokín 2:08¾, Volitta 2:15¾, Lottie Dillon 2:16 (trial 2:10¾), Frank S. Turner 2:28, etc.); second dam Aspasia (dam of 4 standard performers); third dam Miss Buchanan, great broodmare, etc.

FEE: \$75 for the season. (Limited to 50 mares.)

Box 1, University Station, Los Angeles, Cal.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11¼, out of Helena 2:11¼ (dam of 5 in 2:30) by Electioneer 125.

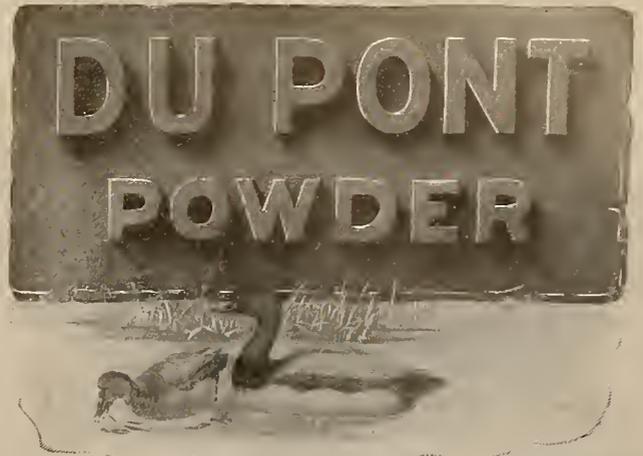

First dam Ida Apetz by Nutwood Wilkes 2:16½ (sire of Copa de Oro 1:59, John A. McKerron 2:04½, Happy Dentist 2:05¾, etc.); second dam Novelist 2:27 by Norval 2:14½; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old he broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 38 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at **MAYFIELD, Santa Clara Co., Cal.**

SEASON FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasture and the best of care taken of mares. For further particulars, address **J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.**

RESULT OF OVER A CENTURY'S EXPERIENCE.

Perfection in powder-making is only achieved by exercising the most scrupulous care in the selection and preparation of raw materials, employing skilled workmen exclusively, and using only the most improved modern mechanical equipment.

This is the **DU PONT** method and accounts for the unequalled reputation among sportsmen enjoyed by the **DU PONT** brands of

SMOKELESS SHOTGUN POWDERS

Two of these brands that are in high favor among shooters are

(Bulk)

(Bulk)

A perfect shotgun powder with light recoil. Unlike other powders of light recoil, Schulze gives high velocity and remarkable patterns.

Hard grain—Smokeless—uniform. Requires no special wadding to make it do its best. Loaded just as easily as Black Powder. "The Old Time Favorite."

These powders positively will not pit the gun barrels.

Unequaled for Field and Trap-Shooting.

See that your shells are loaded with either **SCHULZE** or **E. C.** Send to-day for Schulze and E. C. pamphlet No. 99. It contains information of interest to all shooters.

Now Ready --- The Year Book

Vol. 27. For 1911.

Contains over 1100 pages, with same complete tables as heretofore.

PRICE \$5 f. o. b. CHICAGO

If desired sent prepaid remit 35 cents additional. Please make all remittances by draft on New York or Chicago, or money order.

American Trotting Register Association

137 South Ashland Boulevard, - - - CHICAGO, ILL.

We have on hand a copy of Vol. 8, for 1892.

Shipping Fever

Influenza, pink eye, epizootic, distemper and all nose and throat diseases cured, and all others, no matter how "exposed," kept from having any of these diseases with **SPOHN'S LIQUID DISTEMPER CURE**. Three to six doses often cure a case. One 50-cent bottle guaranteed to do so. Best thing for brood mares. Acts on the blood. 50c and \$1 a bottle. \$6 and \$11 a dozen bottles. Druggists and harness shops. Distributors—ALL WHOLESALE DRUGGISTS.

SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

KINGS COUNTY FAIR ASSOCIATION.

District Colt Stake for Two and Three-Year-Old Trot

—AND—

Two and Three-Year-Old Pace

TO BE RACED FROM THE

7th to the 12th of Oct. 1912, at HANFORD, CAL.

CONDITIONS.

Rules of the National Trotting Association to govern except as otherwise provided. Six to enter and four to start. Money divided 50, 25, 15 and 10 per cent. Two-year-old best two out of three. Three-year-old best three out of five.

All nominations close on May 1st. Entrance and payments to be as follows: May 1st, \$5; June 1st, \$5; July 1st, \$5; August 1st, \$10; \$25 on October 1st, when horse is to be named.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in.

All entrance money with \$100 additional in each stake guaranteed by the Kings County Fair Association.

District comprises Fresno, Tulare, Kern and Kings Counties.

FOR the past four weeks doubts as to the yield of
all agricultural and horticultural products in Cali-
fornia have been expressed. The long spell of dry
weather was beginning to affect everybody in the
cities and towns, as well as those residing in the
country. Horse breeders and live stock growers be-
gan to figure on their losses this year, unless rainy
weather set in. The people had all joined the
"glooms," but on Tuesday the rains fell and most of
these "glooms" deserted their ranks and joined the
"joys."

From all parts of California the news comes
flashing over the wires, "We are having an abun-
dant rainfall!" The crystal drops seem to reflect
the pleasure everybody feels. Hillside which a few
weeks ago were clothed with verdure were changing
to a pale yellow, and lands which had been sowed
with grain began to harden, seeming to squeeze all
the life out of the growing grain. A few more weeks
of that "dry spell" and nearly all that was sown
would have perished; but this glorious rain came
just when it was needed and, as a result, the fields
and meadows, orchards and vineyards on the foot-
hills and in the valleys are looking green again and
with a few warm days of sunshine our prosperity will
be assured.

California is blessed above all other States in the
Union this season and the recapitulation of its great
returns at the end of 1912 will cause a feeling of
unrest and dissatisfaction to spread among those who
had so much to contend with throughout the whole
of the Eastern, Middle and Western States. Many
of these people will then sell what little they possess

and once more take Horace Greeley's advice and
"Go West!" There is room for millions of the right
kind of people here to stem the strong current of
aliens who are coming by the thousands from Asia
and are beginning to dictate to our farmers, orchard-
ists, vineyardists and manufacturers what they shall
do. It is a serious question when one comes to con-
sider how many of our leading agricultural indus-
tries are dominated by Japanese, Chinese and Hin-
dus and their assumption of all the rights and privi-
leges upon which the Caucasian race has for cen-
turies prided itself.

Something must be done in this regard and while
we are all booming the Panama-Pacific International
Exposition steps should be taken in conjunction
with this to more extensively advertise and exploit
California as a whole from Shasta to San Diego and
from the Sierras to the Pacific Ocean, and tell all
thrifty, hard-working Christian people throughout
the country east of the Sierra Nevada's what a glori-
ous land we live in and what a future there is for
it and all who come to share with us the manifold
benefits to be found here in every calling.

ON TUESDAY, April 16th, the Portland Horse and
Cattle Sale Company is to hold its twelfth annual
sale of choice trotting and draft stock, and the cata-
logues just received contain names and descriptions
of some splendidly-bred individuals which should
find a ready sale at good prices. There are stallions,
broodmares, geldings, colts and fillies by such well-
known sires as the following named, out of mares
equally as well bred: Zolock 2:05 1/4, The King Red
2:20 1/4, Kinney Lou 2:07 1/4, The Patchen Boy 2:10 1/4,
R. Ambush 2:09 1/4, Vinmont 2:21 1/4, Spokane 2:15 1/4,
Capt. McKinney, The Commonwealth 2:13 1/2, Ever-
gets, Satin Royal 2:15 1/2, Hal B. 2:04 1/2, Ken West
2:15 1/4, Bonnie McK. 2:29 1/2, Tangent 2:18 1/2, Search-
light 2:03 1/4, Zombro 2:11, Directwell 2:24 1/4, Alfonso
2:29 1/4, Diablo 2:09 1/4, Carlokin 2:07 1/4, Joe Patchen
2:01 1/4, McKinney 2:11 1/4, Altamont 2:26 1/4, Dictator
2:17, Alcone 2:31 1/4, Lynwood W. 2:20 1/2, Greco B.,
Sonoma Boy, Waldstein 2:22 1/2, Guy Dillon 2:23 1/2,
Bonaday 2:27 1/2, Iran Alto 2:12 1/2, Welcome 2:10 1/2,
and Margrave 2:15 1/2. This is, without doubt, the
finest collection offered at auction for years. It will
be followed by sales of choice young Shires, Bel-
gians, Percherons and Clydes,—the pick of the land.
It will pay some of our readers to attend this sale,
which will commence at 1 p. m. sharp, Tuesday, and
end on Thursday evening. Wm. Higginbottom is
the auctioneer.

FROM all tracks on the Pacific Coast news comes
that there are more good horses in training than
ever before, and with those that will appear on the
Western Canadian Fair Circuit to swell the list of
those making entries on the Pacific Coast Circuit.
The prospect for a continuous series of successful
race meetings look exceedingly bright. Secretaries
should be awakening to this fact and strive to get the
directors of their respective associations to convene
at once and begin advertising their meetings.
The classification of races and amounts to be given,
the conditions of entry and division of purses and
dates when entries are to close are all important and
should not be postponed until the last minute. In
the Eastern States this work has been attended to
while the snow was on the ground and horse owners
and trainers there have thereby been encouraged in
their work. It is time the associations on this Coast
should "wake up" and follow in the footsteps of these
progressive associations in their march to success.

ONE of the most successful fair managers as well
as secretaries of a racing association visited this city
last week in connection with the arrangement of a
series of festivals in the north which will be pro-
grammed during the 1915 fair. This gentleman is
J. W. Pace, who for many years was one of the man-
agers of the Montana racing circuit. He has charge
of that greatest of all Western attractions, "The
Golden Potlach," at Seattle, Washington. Mr. Pace,
in explaining the series of meetings taking place in
the north every year and which will be on a grander
scale in 1915, says it is called the "Joy Trail Through
the Great Northwest!" and commences with the
"Rose Festival," June 10th to 15th, inclusive, at
Portland, Or; then the "Montemaro Feste," June
30th to July 4th, inclusive, at Tacoma; "The Golden
Potlach," July 15th to 20th, at Seattle; "The Mount
Baker Marathon," July 23d to 25th, inclusive; this is
a spectacular race of international mountain climbers

from Bellingham to the summit of Mount Baker. The
final meeting is called the "Midsummer Exposition,"
which is held at Vancouver, B. C., August 10th to
17th, inclusive, and it is during this that the Pacific
Coast Circuit begins. It starts under the most favor-
able auspices all the way "down the line" to Phoenix,
Arizona, and Mr. Pace believes there will be more
good horses seen on it than at any time since light
barnes horses were started on the Pacific Coast.

ENTRIES for early closing events in the big two
weeks' meeting at Columbus, Ohio, one of the prin-
cipal cities on the Grand Circuit, will close with Sec-
retary H. D. Shepard on Tuesday, April 23d. There
will be a total of \$39,000 distributed among the
horsemen in these events ranging from \$10,000 to
\$2,000, and a liberal entry list is expected. As a
number of horses now in California are entered in
some of the races to be given on the Grand Circuit,
it is of the greatest importance to their owners that
they should also be named at Columbus, Ohio. See
our business columns for the liberal conditions of
fared and other conditions.

THE Western Canadian Fair Circuit, at which
\$120,000 will be given in stakes and purses, will com-
mence at Calgary, June 29th, and end at Lethbridge,
Alta, August 24th, taking in Moosejaw, Saskatche-
wan, Winnipeg, Manitoba; Brandon, Manitoba; Regina,
Saskatchewan; Saskatoon, Saskatchewan, and Ed-
monton, Alta. There will be trotting, pacing and
running races each day and greater preparations are
being made for this circuit than ever before. The
purses range from \$3000 to \$500. Free stabling, straw
and water are at every place. Some of the entries
will close May 1st.

ATTENTION is called to the announcement that
\$10 is due on yearlings (foals of 1911), Wednesday,
May 1, 1912, in the Pacific Breeders' Futurity Stakes
No. 11. Value \$7250.

DEATH OF W. J. SNYDER.

Walter J. Snyder, whose tragic death was reported
from New York last Sunday, was one of the younger
school of turf journalists, and inherited his fond-
ness for the harness races and the show ring trotter
from his father, William H. Snyder. The latter was
a successful trainer in the metropolis when Fleet-
wood Park was in the heyday of its glory and later
on gave his attention to the runners, being associated
with John E. Madden at his farm near Lexing-
ton, Ky.

The elder Snyder is now in France, where he is
under engagement with the Hitchcock Brothers, of
New York, and is looking after the former Futurity
winner, Yankee, and a select band of broodmares that
were shipped across the Atlantic last September.
His son Walter started out early in life on his own
account, and has had an adventurous career that
came to an untimely end when he was found dead
in the bathroom of his apartment stabbed through
the heart with a pair of scissors. A woman said
to be his wife and hailing from Morristown, N. J.,
was with young Snyder, and has been held without
bail for homicide, though she declared his death was
accidental.

About ten years ago the victim of this tragedy
came more prominently into turf journalism as the
trotting editor of the New York Morning "Tele-
graph." He was soon after engaged by "The Horse-
man," of Chicago, and in 1904 went to Detroit as
secretary of the Grand Circuit meeting, then con-
trolled by D. J. Campau. After two seasons in the
Michigan metropolis, he returned East, and in 1908,
when the Connecticut Fair at Hartford was formed,
had charge of this successor to the old Charter Oak
Park Association. This new enterprise had its
greatest success the next year when "The Harvester"
and "Bob Douglass" met in the race for the classical
Charter Oak Park, first won in 1883 by California's
"iron horse," Director. Some 60,000 people came to
see this battle of the giants, which went to The Har-
vester, but Walter Snyder's mercurial temperament
caused him to leave Hartford abruptly immediately
after the fair was over. He came to California that
winter, but after a short stay on this Coast, went
back to New York, and in the fall of 1910 took
charge of "Sports of the Times," a connection that
he maintained up to the time of his death.

Charles A. McCully, former turf writer, and at one
time secretary of the Grand Circuit trotting meet-
ings given over the Brighton Beach track, is now in
San Francisco, with his old friend J. W. Voglesong,
also a former turf scribe, who is engaged in the
manufacturing of a fireproof building material which
should have a big sale. Both these gentlemen are
known to nearly all the leading trotting horsemen in
America, and no doubt we shall see them at our
various race meetings.

The Board of Review of the National Trotting
Association will hold a special meeting at the Murray
Hill Hotel, New York, May 7.

NOTES AND NEWS

MATINEE POSTPONED.

Owing to the rain and the heavy condition of the track the race meeting at Pleasanton, which was to have taken place today, has been postponed until next Saturday.

Up in Calgary, in Alberta, they begin racing horses on May 24, the Queen's birthday.

The stallion knocker blooms very early in the season, regardless of weather conditions.

King Brook 2:07½, the Montana trotter, is being prepared for a campaign on the Grand Circuit.

Payments were made on 101 entries in the fifth payment of the Breeders' Futurity No. 10. A very good showing.

The recent rains have made everybody rejoice. California's big crops of cereals and fruits for 1912 are now assured.

Edward Hines, of Watertown, N. Y., has gone to Calgary, Alberta, Canada, where he will open a public training stable.

Todd 2:14¾, that died in 1908, was the sire of 67 standard performers, of which 60 were trotters and nine have records from 2:04¾ to 2:10.

Wm. Fleming, a prominent Canadian reinsman, is assisting Havis James in giving the final preparations to Mr. R. J. MacKenzie's string at Pleasanton.

Nanah 2:12¾, the McKinney-mare that so much was expected of last season, but who hardly made good, has been retired to the stud, having gone wrong.

There will be a big matinee race meeting at the Marysville race track to-morrow. A number of horses belonging to the Sacramento Driving Club will participate.

There never was a winter and spring like this in California where there have been no epidemics among horses, and the weather has been just right for training.

Wm. Kenney, the "hike" man is to start on a tour throughout the State of California next week, visiting every city and town in the interests of the trotting horse breeders.

Charley Dean is now taking care of more trotters and pacers at his Palatine farm and track than ever before. He has over 100 head. Among them are several belonging to R. J. MacKenzie, of Winnipeg, Manitoba.

Belle Ashland (5), by Ashland Wilkes 2:17¾, dam Belleflower 2:12¾, by Electioneer 125, the property of George W. Unger, Boyertown, Pa., will be raced by Crit Davis this year and is expected to heat 2:10.

The New York Legislature adjourned on Friday of last week without bringing up the bill framed and introduced to relieve race track owners and directors of liability in case of bets being made on horse races over tracks owned or controlled by them.

Just imagine the "talk fest" Jim Thompson and John Splan had each day at Lexington. Two more loquacious gentlemen or more genial companions could not be found in a day's travel in America. Wonder what they failed to talk about?

The new half-mile track at the Clarke County Fair Grounds, Vancouver, Wash., was completed last week, and work will be commenced at once on new stabling that will be required to accommodate the race horses that will compete during the fair to be held September 9th to 14th.

The early closing events on the Grand Circuit will aggregate upwards of \$300,000, which with the amount to be distributed by the big futurities will make a total of about \$400,000 that is already in sight for the horsemen to race for.

Under the rule adopted by the Michigan State Fair Association a horse winning purses or stakes of a face value of \$35,000 before September 5th is ineligible to the \$10,000 Michigan Stake, for 2:15 trotters.

Peter the Great 2:07¼ outclasses Bingen 2:06¾ as a sire of Futurity winners, with Grace 2:03½, Sadie Mac 2:06¾, Czarevna 2:07¼, and Peter Thompson 2:07½. Those by Bingen are Kentucky Todd 2:08¾, Bob Douglass 2:04¾, and Emily Ellen 2:09¾.

Mr. H. J. Schlessinger, of Milwaukee, Wis., who bought Cammie E. (dam of Don Labor 2:05¾) at the Uihle sale, has shipped her and her suckling foal by The Harvester 2:01 to Libertyville, where she will be bred to Biene Holt on his arrival from the South.

The bay gelding Creighton 2:07, by The Bondsman, died at the Readville track the latter part of last week. A post mortem examination showed the cause was kidney complaint. Creighton was in Dan King's stable and was expected to be a good money earner the coming season.

The first matinee meeting of the Park Amateur Driving Club will be held at the Stadium, Golden Gate Park, Saturday, April 27th. The large stable owned by this thriving organization is being put in perfect order for the horses that will soon be occupying the box stalls therein.

The enthusiasm displayed at the matinee races of the Sacramento Driving Club last Sunday shows that the interest in these events is increasing, and all the participants did their best to help Starter Wright make it a day not to be forgotten by those who love even starts and close finishes.

M. C. Keefer, of Woodland, Cal., reports that Advosta 2:20¾ (dam of Adansel (3) 2:14½) foaled a full brother to this great trotter, April 5th. It is a dark brown in color (Adansel is a chestnut) with hind feet white and stands forty-two inches high. Here's hoping it will be as fast, if not faster than the "pride of Woodland!"

Farmer Bunch drove the pacing yearling colt Jim Rea III a mile in 2:30, last quarter in 35 seconds at Pleasanton last Saturday. He has just had this handsome chestnut son of Nearest McKinney 2:13¾, two months and ten days. He also drove his pacing-bred trotter Star Searcher, by Star Pointer 1:59¾, out of a mare by Searchlight 2:03¾, a mile in 2:35. He is only two years old.

Last Tuesday, Mr. F. Gomet, of this city, sold his handsome four-year-old pacing filly Sweet Princess, by Prince McKinney (2) 2:29¼, out of Arrawana B., by Sidney Dillon; second dam Lily Stanley 2:17¾, to H. L. Shelly for \$600. This filly has paced quarters in thirty seconds and is one of the best at this price ever sold in this city. Mr. Shelly has had her over a week on trial and is delighted with her.

The breeder should never neglect to observe the rehorn foal closely for a time to see that it secures nourishment that the howels are normal in action and that the navel is clean and in good condition. This has been mentioned often but one has only to make inquiry of a number of breeders to learn that it is a very important detail and should not be neglected.

During the past week H. K. Devereux, of Cleveland, O., purchased the large chestnut trotting gelding Four Stockings by Kinney Lou 2:07¾ and out of Electress Wilkes 2:28½ (dam of Lady Mowry 2:09¾) by Nutwood Wilkes 2:16½. Four Stockings should prove a very useful trotter, having a trial of 2:10¼ to his credit, and during the meeting at North Randall with his former owner, the late Frank Kilpatrick driving, trotted a mile handily in 2:12¾.

Owners of mares that are to be bred this year should look at more than the pedigree of a stallion before deciding to patronize him. Insist that good breeding and ability to race be accompanied by a sound, handsome conformation, good disposition, and if expecting to cater to other than the speed market, sufficient size to answer the purpose. A well bred weed is about as valueless a horse as a man can raise, while a first-class horse with a good pedigree is always sure of a good purchaser at a paying price.

It is an indisputable fact that the colts that bring the highest prices in the market are the strongly bred trotting colts that can go out and show speed. It is equally indisputable that a very small per cent of farmers, or for that matter any other class of people, have the knowledge and ability to breed, train and market that product successfully. So that the proposition that is up to the farmer who wants to raise horses is to select that line of breeding adapted to his conditions and consistent with his ability to manage successfully.

Great credit is due Jas. T. Thompson for his forethought and enterprise in having the owners of the splendid broodmares he selected send them with him to breed to the best stallions in Kentucky. This horseman had selected certain sires for them before he left California, but on seeing these horses and noting their conformation, decided to make a change, selecting only the horses which he considered would make up for any deficiencies in conformation, constitution, etc., the mares might have, and the results of his decisions are anxiously awaited by all who are interested.

The New Zealand Trotting Association has for some time past declined to sanction the registration of names which are duplicates of those borne by celebrities of the trotting world, and this course of action will commend itself to all who take an interest in the sport. The duplication of names is apt to be confusing in some cases, while, though imitation may be a very sincere form of flattery, it is hardly in accordance with the fitness of things to find the name of some famous American champion being bestowed on a second or third-rater in New Zealand. At last week's meeting the association, following the policy previously adopted, declined to sanction the use of the name Native Belle.—Referee (Christchurch), New Zealand.

Johnny Donahue (Whispering Johnny) is working five colts by Best Policy at Visalia. They are very good-headed and very promising and all will go to the races, so says Johnny.

Of the new sires of 1911, those gaining their first standard performers during that year, 34 were bred in California, 23 in Iowa, 22 in Kansas, 12 in Nebraska, 9 each in Minnesota and Missouri, 5 in Colorado, 4 each in Montana and Texas, 3 in South Dakota, 2 in Wyoming, and 1 each in Louisiana, Oklahoma, Oregon, and Washington.

Charley Winter's horse Alarich, at Los Angeles, has only been handled by Will Durfee six weeks and the speed he is showing is remarkable. He is six years old and wears five-ounce shoes in front and four-ounce shoes behind.

Wm. Sinnock, of Santa Ana, advertises his highly-bred brown stallion, Don Direct, and his two-year-old filly Athelo, for sale, in this issue. Two better bred, standard and registered individuals or finer looking "prospects" cannot be seen anywhere and Mr. Sinnock will sell them at a bargain.

C. A. Harrison, of Seattle, writes as follows: "I have just received a letter from Ontario stating that my horse, Hal Scott 2:19¾, is out of a mare called Maud Hunter 2:13; second dam by Geneva 2:11; third dam by Amber 2:25, by Clear Grit. Although Hal Scott may not be one of the '400,' yet he is bred better than if he was by Misdemeanor out of Misfit by Disturbance."

Lou Hicks writes as follows from Stockton: "Mr. J. Aker, of this place, has lost his Jim Logan yearling; found him dead in the pasture. I do not know how fast this little fellow could pace, as he was not broken, but this I do know, there wasn't a yearling on the ranch that could run fast enough to make him leave his feet. He was a great prospect, and Mr. Aker would rather have lost any horse on his ranch than this one; but these misfortunes will happen."

There are two Shire stallions, Imp. Rampton President 27692, and Anwick Arthur 29025 standing for public service at the Black Hawk Ranch, Burlingame, which for individuality, soundness and breeding, are not surpassed by any others in California. A. W. Ward, the superintendent of this place, traveled all over Great Britain in order to get the very best, and horsemen who have seen these declare they are about the choicest that were ever brought to America. The Shire breed has forged to the front very rapidly in America during the past decade and every one who has a colt or filly of this breed is satisfied with it and would not have any other. The services for these fine young stallions are remarkably low, and their hooks should be filled in a very short time.

Jos. Sresovich Jr., of Los Angeles, recently sold his green trotting mare Etta McKenna (trial 2:12) by Judge McKenna, to Joseph Nickerson, a member of the Los Angeles Driving Club, and received in the deal the latter's pacing mare Lady Cupid by Cupid 2:18, dam Lady Ashcat by Aptos Wilkes (he by Guy Wilkes 2:15¾, out of the dam of Hulda 2:08¾); second dam Young Ashcat by Speculation 928 (son of Hambletonian 10 and Martha Washington, dam of Hambletonian 725); third dam Ashcat (dam of Ajax 2:29 and Hambletonian Jr.) by Hambletonian 10; fourth dam Black Maria by Black Hawk 24. Lady Cupid was bred at the Aptos Stock Farm.

One of the mares taken East by James T. Thompson was called Demiana, and was bred by S. Christenson, of this city. After her arrival in Lexington she dropped a foal by The Bondsman, the first by that sire dropped this year in the Blue Grass region and it is believed the only one that will be in 1912. This mare Demiana is royally bred; she was sired by Bon Voyage 2:08, dam Simmone by Simmons 2:28; second dam Mi Lady (great broodmare), by Baron Wilkes 2:18; third dam Lady Gay by Mambrino Patchen 58; fourth dam by Capt. Gay, son of Bethune; fifth dam by Gano, son of American Eclipse. Mr. Thompson, before leaving Kentucky, arranged to breed her to Bingen 2:06¾, and the resultant foal ought to be one of the best in the country. There will be a rare blending of Electioneer, Geo. Wilkes, Mambrino Patchen, and thoroughbred blood in its veins.

The Pleasanton track record for a mile workout this year was broken Saturday and a new mark, 2:07¾, was set up by Will Guthrie, a pacer, driven by his owner, Murdock Henry. The first half was paced in 1:04¾, the second half in 1:03, the final quarter was stepped in 31 seconds. Will Guthrie is a handsome black stallion sired by Educator (son of Director 2:17), dam Hulda Cropsey by Guide 2:16 by Director 2:17, hence he is an inbred Director. Mr. Henry, his breeder, owner and trainer, is also the owner of Educator, his sire, and although he has developed a number of fast horses, it is believed this is the fastest and best. As Will Guthrie has no record and has age, he should be a money-winner all down the line on the Pacific Coast circuit this year. Competent judges who saw him Saturday claim that if this horse can go this fast alone he will come pretty near beating 2:05 in company. It is the fastest workout mile made in the United States this year.

The new Hampshire trainer, Walter Cox, will see if he can get Sterling McKinney 2:06 1/4, to again resume the race horse actions he was characterized by a few years ago for a short period. There is no question but that this son of McKinney was a very fast trotter at the time he was sold for a big price and turned over to Ed Geers. Mr. Geers, however, failed to "nick" with him and the horse went from bad to worse while in his care. Then he was turned over to first one trainer and then another, only to be given up by each in turn as incorrigible. Mr. Cox has taken him in hand, and it is safe to say that if he fails to get the horse to forget his bad habits as the others have done that no other prominent trainer will care to try and bring the son of McKinney back to the form that for a short time caused him to be looked upon as one of the great trotters of the period. Here's hoping that Cox does the trick.—Horse World.

STICK TO FACTS.

The way the average editor of a daily newspaper can distort facts about the horse business is ridiculous. In last Saturday's issue of the Oakland Tribune the following appeared in the editorial columns:

"With the passing of the thoroughbred racer from California it might be of interest to recall that twenty years ago one of the fanciest prices ever paid for a racehorse was received by the late Senator Stanford for his two-year-old, Arion. A Boston man paid \$150,000 for the colt. Previous to that deal, an Iowa man, C. W. Williams, sold his Axtell in Kentucky for \$100,000. Axtell was a brother to Allerton, who also brought a similar price. The last two horses were trotters, Axtell having at one time held the world's record. Allerton died a couple of years ago and Williams, who lost and made several fortunes after he disposed of the horse, erected a monument to his memory in a small Iowa town."

In the first place Arion was a trotting bred colt and not a thoroughbred racer. He was sold for \$125,000, not \$150,000. Axtell was sold for \$105,000, and was not a brother to Allerton. Allerton was never sold for any such money.

A MONEY-WINNING FAMILY.

\$332,517 Won by the Progeny of McKinney.

One of the great differences between running and trotting methods lies in the varying standards of merit which obtain in the two spheres. Among the thoroughbreds recognition hinges almost exclusively upon money-winning capacity. It matters little what a horse's speed and intrinsic qualities may be, if he does not appear in the list of noted stake and money winners his reputation is never great and has no chance of permanency. On the other hand, many trotters of exalted reputation won comparatively little money and very few races, their rank being based upon their pure speed and other attributes as disclosed by the time test. Upon the running turf "fast time," while not a truly negligible quantity, oftentimes, from the harness horseman's point of view, receives surprisingly little consideration—indeed, in England, the premier thoroughbred racing country in the world, it is considered not a true test of a horse, and warnings against its illuiveness are a staple article of training wisdom and turf journalism.

Owing to the constantly increasing commonness of so-called "extreme speed" upon the harness turf in these days, "fast time" cannot be said to command the degree of deference which it formerly did, and the tendency is toward the money-winning estimate. Statistics verifying it are, however, as yet seldom procurable, owing to the fact that from the inception of organized harness racing "time" has been the ruling criterion, while the magnitude of the industry, the immense number of meetings held annually, and the difficulty of obtaining correct returns from them, all supervene. In consequence, as the official Year Book is compiled exclusively on the "standard time" basis, any question of "record" can be immediately settled. But any question of money-winning cannot be without laborious independent investigation. If, for instance, the question should be asked, What living sire is credited with the largest number of standard-record trotters? the answer would be easy, for the Year Book would provide it. But if the inquirer should desire to know what standing the same sire had as a sire of money-winners, he would have to undertake an independent compilation involving extensive research, and, unless he had exceptional facilities for its conduct, and was also skilled in its practice, he could not determine for a long time, even if he then could, says the Horse Review.

As every well-posted trotting horseman is aware, the leading living sire of standard trotters is McKinney 2:11 1/4, the imperial premier of Empire City Farms, and reference to the new Year Book readily reveals the exact number to his credit, namely, 123. But supposing the inquirer should desire some information regarding the status of McKinney as a sire of money-winners. Could he ascertain it in the same way? He could not. The only way in which he could is by the method previously described. However, as the "Review" possesses unrivaled facilities for statistical work, it has undertaken to provide the answer to this question, and herewith presents the complete list of the money-winning members of the McKinney family. This table, which has been specially prepared by the "Review's" statistician, Mr. G. H. Perigo, is the result of the most exhaustive searching of the official records ever made in a like pursuit, having involved the tabulating of the racing careers

of every one of the get of McKinney that has taken a standard record, a task that has necessitated analysis of the summaries of over 1500 different races, extending over a period of eighteen years. The result is as follows:

| Performers | 1st | 2d | 3rd | 4th | Unp | Money won |
|---|-----|--------|---------|---------|-----|--------------|
| Sweet Maria 2:02 | 31 | 7 | 0 | 2 | 2 | \$45,500.00 |

| Totals | 457 | 338 | 242 1/2 | 166 1/2 | 346 | \$332,517.25 |

This table has been compiled from the official Year Book and includes nothing else. It is devoted exclusively to money-winnings in contested races, all exhibitions being cast out. In some cases the exact divisions of the purses raced for have not been ascertainable, but in each the amount credited has been placed at a conservative figure, and it is therefore probable that there have been no overestimates made. To put it in plain figures:

One hundred and seven of the get of McKinney have, since 1894, the year his first performers appeared, started in 1,550 races in which standard time has been made. They have won 457 of them, been second in 338, third in 242 1/2, fourth in 166 1/2 and unplaced in 346. Their total money-winnings have been \$332,517.25. That is to say, they have averaged over \$3,000 each; 9 of them have won over \$10,000 each; 21 of them have won over \$5,000 each; 59 have won over \$1,000 each; and 73 have won over \$500 each.

If any man has doubted the substantial foundation upon which the pre-eminent fame of McKinney rests, this table should forever settle it. We have no hesitation in saying that no other living sire can even approach such a showing. Among all those that are dead it is an open question if any can excel it. Imperial, indeed, is McKinney!

THE SACRAMENTO MATINEE.

Two surprises occurred Sunday at Agricultural Park in the opening harness matinee of the Sacramento Driving Club. Happy Jack, a three-year-old owned by Charles F. Silva, and Rapallo, owned by P. W. Hodges, both appearing for the first time in a matinee event, showed considerable class, and won their respective events in real championship style.

Happy Jack, a mere colt, showed unusual ability, and will undoubtedly develop into a matinee horse to be watched in the future. Rapallo's performance was even more noteworthy. The animal appeared for the first time in an event, and while he did not show any particular class in the warming-ups, on the stretch he suddenly developed into a marvel of speed, and easily drew away from the field, taking first place in the Class A mixed, with ease.

P. W. Hodges, owner of Rapallo, knows his horse, and has entered it in two \$10,000 events of the Grand Circuit this year. This animal is a half-brother of the famous Grand Circuit horse, San Francisco, which performed so remarkably in the East. Rapallo was raised and trained in Sacramento, and gives promise of developing in a harness horse of great ability.

There were four events on the club's opening card, and all were productive of good racing. Fourteen horses participated in the matinee, and, although no remarkable records were made, at the same time the time was not bad considering that it is the first of the season. The best time was 2:15, and was made by The Jewess in the free-for-all. About 500 people were present.

The track, of course, was not in the best of condition, and neither were the horses. The season is yet too young for perfection in all branches of the game, but, judging from the showing made Sunday, the season of 1912 will be an eventful one for harness racing in Northern California.

Next Sunday about ten local horses will go to Marysville to participate in the opening matinee of the Yuba and Sutter Driving clubs. W. Duncan, of the Marysville club, was present at the track and extended an invitation to the entire Sacramento membership to attend the matinee. Charles Silva will take Happy Jack, Blanche T. and White Hose; Levison will enter The Jewess; Gaffett will enter Harold B.; J. F. Heenan will send Delilah, The Harvest Queen will be entered by S. H. Cowell and Princess Flora B. will participate in a pace.

The Rocklin Driving Club has decided upon April 12th as the date for the opening of the season in that community. Alex Levison, of Rocklin, invited the Sacramento club to participate.

Several representatives of the Stockton club were present and spoke about a matinee the slough city is planning for the early summer. The Sacramento club is planning to attend in a body because of the fact that Stockton always attends matinees at Sacramento.

May B., owned by G. C. Powell, of Sacramento, and Booze, owned by Jack Lauffer, also of Sacramento, were scratched. Starter Frank Wright neglected to state whether it was the name of the latter horse that caused its inability to perform. Eleanor Sears was also entered, but unlike its namesake did not do much, and finished in the Class A mixed event.

Summary of events:

| First race—Class A trot. | Time—2:34 1/2, 2:35. |
|--|----------------------|
| Katie B. (G. W. Shane, Sacramento) | 1 1 |
| Flores (J. D. Cornell, Sacramento) | 2 2 |
| Time—2:23 1/2, 2:35. | |
| Second race—Class A, mixed: | |
| Rapallo (P. W. Hodges, Sacramento) | 1 1 |
| Blanch T. (C. F. Silva, Sacramento) | 2 3 |
| Eleanor Sears (S. H. Cowell, Santa Cruz) | 4 2 |
| Colusa (J. Marty, Sacramento) | 3 4 |
| Time—2:20 3/4, 2:15 1/2. | |
| Third race—Free-for-all pace. | |

AT THE STATE FAIR GROUNDS, SACRAMENTO.

What Trotters and Pacers Are in Training There for This Year's Campaigning.

The time is rapidly drawing nigh when horsemen are to begin giving their trotters and pacers faster work. For weeks and months these "four-footed speed marvels" have been carefully fed, jogged and walked over the roads or on the racetracks going through a muscle hardening and developing process. Nearly all the surplus fat these horses had when taken from the pasture fields has been gradually worked off. Every day has been a work day for men and horses, but, henceforth, the real tests of speed and endurance will begin. There will be two workout days for some and three workout days for others, according to their condition. These busy days are anxious ones for owners and trainers, and the results of each quarter and eighth mile brush are carefully noted as well as the way the horses recovered from their extra labors. At Los Angeles, Fresno, Stockton, Pleasanton, Santa Rosa, San Jose, and Sacramento, including all the tracks in smaller towns, the real work is beginning. At Pleasanton, perhaps, the work is farther advanced than any of the other places, but at Sacramento the way the trotters and pacers are showing is most encouraging. The track is a good one, still it needs more water and care to be as good as the tracks at Pleasanton, San Jose or Santa Rosa. The soil is dry and sandy and rapidly absorbs whatever water is sprinkled on its surface. Another watering cart and an extra team to thoroughly harrow and smooth the course would make it equal to the above-named tracks and he safer and faster for the horses; besides this, it will effect what is most needed—a perfect track when the race meeting is called. The infield has been plowed, seeded, and harrowed, and all that is needed to make it look like a "sea of green" are a few good showers. The buildings in which exhibits are to be held are all cleaned and whitewashed, the roads are in excellent repair, the lawns are green and well kept, and everything about the place shows that someone is taking an interest in it. The track is as carefully tended to as one man can do it, and no fault can be found with him or his work, but a little additional help would be most acceptable at this time when the horses are to be speeded to their limit. This should be one of the fastest racetracks in California, and with a little more care it will be.

The trainers and their assistants are busy from early morn until almost sundown. And as there is to be a matinee tomorrow, I find an extra number of horses being cared for.

Frank Childs, that capable young reinsman who piloted Blanche R. 2:06½ so carefully last season, is making preparations to take his horse Sirius Pointer (2) 2:18, and Mr. G. Hennagin's pacer, Teddy to Spokane. He leaves next Friday. This gelding Teddy was sired by Stanford B., out of Lizzie by Alex. Button.

Elmo Montgomery is also turning his thoughts away, for he has entered his grand looking pacing stallion, Jim Logan 2:05½, to Detroit and race him right "down the line," as the Grand Circuit is called. This horse is looking stronger and better than he did at this time last season, and Elmo has not driven him a mile faster than 2:23 this season. This he did last Saturday, and at its finish Jim would not "blow out" a candle. He is "full of pace," and everyone in California hopes that this son of Chas. Derby will be victorious from start to finish. Of one thing we are certain, he will be inside the money in every race he starts if the finish. Of one thing all are certain, he will be leaving here about the 20th of May.

In another stall is a two-year-old by Zolock 2:05½, out of Effie Logan, trial 2:22 (dam of Jim Logan 2:05½, etc.), called Lock Logan. He is one of the stoutest-made, best-formed colts of his age on this course. He is a free-legged pacer and heavily engaged in all the stakes, but Elmo said: "As I am going East, I will not be able to drive him this year and may not race him for two years. From what he has shown me, I am convinced that Jim Logan at his age was never so fast nor as good as he is. He wears no straps, and I have every reason to believe it will pay me to wait for him. I don't believe there is a grandson of McKinney his equal in looks, strength or speed." This opinion seems to be the universal one at the track here.

Mr. Montgomery is handling Dione II, a very handsome trotting mare belonging to S. Harry Cowell, the president of the Henry Cowell Lime and Cement Company, the leading one in this line on the Pacific Coast. This mare is five years old and was sired by Cupid 2:18, out of Dione 2:07½ (dam of Bernice R. 2:11¼), by Eros 5326, son of Electioneer. In appearance and way of going she resembles her game little dam more than she does Bernice R.; that she will get as low a record, if not lower than the latter, is conceded by all who have seen her work. She has only been in training a very short time, however.

In an adjoining stall is a pacer from Woodland called Hennagin. He is a five-year-old, owned by Geo. Hennagin, and is by Marvin Wilkes 2:12½, (now in Brisbane, Australia), out of a mare by a son of Waldstein 2:22½; second dam Laura Z. 2:18½, by Alex. Button (4) 2:26¼.

Walter Tryon, one of the rising generation of trainers who served a long apprenticeship with his father "Vet," has eight head here, and they are also in the pink of condition. One is a pacing mare

called Eleanor Sears by Searchlight 2:03¼, belonging to Mr. S. H. Cowell, and a very promising trotter also belonging to this gentleman; this one is a six-year-old and was sired by Silver Arrow, out of a mare by Elector. She is called Harvest Queen, after one of the most famous mares ever brought to California. Mr. Cowell will drive these in the matinees to be given this year by the Sacramento Driving Club.

In another stall is a five-year-old trotting stallion by Palo King 2:28½, out of a mare by Knight 2:22½; second dam Imperious, by Director 2:17; third dam Belle, by Algona. He looks as if he will win brackets this season.

A yearling colt was next led out of the adjoining stall by Moko Hall 2:29¼, out of Arabee, by Azmoor 2:20¼; second dam by Knight 2:22½; third dam Imperious, etc. This youngster is a credit to his breeding and a natural born trotter.

A three-year-old filly trotter by Falrose 2:19, out of a mare by Bay Bird (one of the best bred Geo. Wilkes stallions ever brought here) is also one of Walter's string. She is very promising and belongs to the Landis Brothers, Orangevale.

Directly opposite, in a box stall, stands one of the finest looking yearling colts in Sacramento. He is almost as well developed as a two-year-old and shows that his owner, Mr. Samuel Gault, of Sacramento, believes in feeding and caring for his horses from the day they are foaled. This one has a long name which he will carry to victory if all predictions as to his extreme speed are verified: "Nearest Alto McKinney." He was sired by Nearest McKinney 2:13¼ (one of the very choicest bred descendants of McKinney and Nutwood Wilkes), out of Iran Belle, by Iran Alto 2:12¼; second dam Bell Bird 2:26¼ (dam of Dexter B. 2:24¼, Belmont 2:21 and Wild Bell 2:08¼), by Electioneer 125; third dam Beautiful Bells 2:29½ (dam of 11 trotters, 9 sires of 378 and 7 dams of 12 in 2:30), by The Moor 870. As a representative of that golden blend, the Wilkes-Electioneer cross, this youngster has few equals in breeding, individuality and speed. His dam, Iran Belle, belongs to Mr. Alex. Morrison, of the Western Hotel, and she is due to foal to The Bondsman.

The big, handsome horse Lijero 2:15½ has an eleven months' old colt here out of a mare by Azmoor 2:20½; second dam by Knight 2:22½; third dam a thoroughbred that belongs to Heilbron Brothers. He is a good one, and, like the other three yearlings being handled by Mr. Tryon, is entered in all the Pacific Coast stakes.

Rose R. is the name of the next filly led out for inspection. She is also by Frank Wright's stallion Lijero 2:15½, out of a mare by Azmoor 2:20½, but the next dam was by Silver Bow 2:16, one of the handsomest, gamest and best bred sons of Roht. McGregor 2:1½.

Wm. Sloan is a late addition to the list of prominent trainers here. He hails from Oregon and has a few real good ones, among them being a five-year-old trotter called Prince Alto, by Iran Alto 2:12½, out of Rita R., by Diawood 2:11, and in the next stall a full brother, a year younger, called Ben Alto. They are both sturdy looking trotters and will be heard from this season. They belong to Mr. J. Harlan, of Sacramento.

Queenie is the name of the next one looked at. She is by that remarkably good sire, Almaden 2:19¼, which Chas. Durfee sold for a song and whose sons and daughters are showing phenomenal speed. Almaden will, without doubt, be one of the greatest progenitors of trotting speed sired by Direct 2:05½. The dam of Queenie was sired by Waldstein 2:22½.

A hay pacing stallion by I Direct 2:12½, out of Maud by Sidmoor 2:17¼, has a nice way of going.

I. L. Hodap, of Isleton, has sent Mr. Sloan a very nice mare by Demonio 2:11¼, out of a mare by Robert W. She is a three-year-old pacer.

John Quinn, one of the best known reinsmen on the coast, has the largest string of horses here, and everyone comprising it is in splendid condition and doing all that is necessary. They are beginning to get a little fast work now and this keeps him and his able corps of assistants very busy.

The first one inspected was Moko Hall 2:29¼ (trial 2:11¼), Frank Ruhstaller's grand looking roally bred son of Walnut Hall 2:08¼ (sire of The Harvester 2:01) and a mare by Moko, the Futurity sire; second dam by Simmons 2:18, etc. Moko Hall, as an individual, pleases the eye and leaves nothing to be said to his detriment; in color, conformation, soundness, intelligence and what is termed in racing circles, "class," he fills every requirement, and this year, if all goes well with him, he will be in many a hard fought contest where he will not come off second best. His progeny resemble him in a most striking manner, and next year, when placed in the breeding ranks, his hook will be filled early, for stallions of his stamp, endowed by nature with good looks and pure trotting action, are certain to transmit these important attributes to their progeny.

Expedito 2:13¼ was in an adjoining stall. She will be a 2:08 or better trotter this season, or many of the shrewdest horsemen in Sacramento who have timed her will be bitterly disappointed.

Wild Bell 2:08¼ is going sound again, and Mr. Ruhstaller, who owns this trio, hopes to see him face the starter this year. Wild Bell is one of the greatest of his illustrious trotting family.

Mr. I. L. Borden, that indefatigable and untiring worker, is just as much an enthusiast over trotters as he was twenty years ago, and I believe he owns more really good ones than any other man in California today, excepting of course Mr. R. J. Mackenzie,

who has a string at Pleasanton. The first one of Mr. Borden's led out is a three-year-old trotter called Alhaloma, by Almaden 2:19¼, out of Loma B., by Stam B. 2:11¼, strong and powerful, and with the most perfect trotting action. I look for this one to get a low mark this season.

Matawan (3) 2:17½ is a very powerful made horse, short-backed, close-coupled, heavy quartered, strong shouldered, set on the very best of feet and legs, he has outgrown that "coltish" appearance he had when he got his record at the Salinas meeting last August when he won the \$3000 Breeders' Futurity, defeating a field of seven and getting a record in the fourth and fastest heat of the race. What a stock horse he will make when his days of racing end! He is full made, nas size, weight, color, disposition, soundness and speed and will lower his record easily this year, Mr. Quinn says.

Bessie Barnato is a sweet-gaited, gentle two-year-old trotter by that "little trotting dandy," Barney Barnato 2:19, and Loch Lomond is a pacer that also belongs with the above to Mr. Borden. Loch Lomond is a well-bred one and quite a "prospect." He was sired by Zolock 2:05¼, dam Daisy McKinney (sister to Welcome Mac 2:07¼) by McKinney 2:11¼; second dam March 5th (dam of 1 in 2:07¼), by Hawthorne; third dam March 4th (dam of 3 in 2:30 and grandam of 2), by Hambletonian 725; fourth dam Feny (dam of Elect Moore 2:27), by Bonner (son of Hambletonian 725; fifth dam Sophia, by Williamson's Belmont).

Mr. Quinn has a six-year-old Demonio stallion here which belongs to a young man in Suusun trat on appearance would win a blue ribbon in any company. He is a beautiful chestnut in color, sired by Demonio 2:11¼ out of Hanora, by Oro Wilkes 2:11. He has everything to recommend him in bloodlines, and Mr. Quinn says he is a very promising pacer.

In the next stall is a six-year-old pacing gelding called Silver; he is by Nutwood Wilkes 2:16½, out of a mare by Woodnut 2:16½; second dam by Steinway 2:25¼.

Major B. is the name of a powerful made brown stallion with white tracings along his hack. He is a trotter and one that for his weight and great muscular development will surprise many this season. He is owned by Jack Smith, of Courtland, who has only had him a short time. Major B. was sired by that very handsome big trotting stallion, Jack W. 2:12¾, (by Waldstein 2:22½, out of a mare by the thoroughbred Rifleman) which came from Eureka, Humboldt County, in 1897 and won three out of four races he started in, defeating the best horses of that year. Major B. was out of a mare by Leland F. (son of Wayland W. 2:12½), second dam Desdemonia, by The Grand Moor. He shows that he comes from families noted for their perfect conformation, determination and pure trotting action. What Leland W.'s dam is we would be pleased to learn; he was taken into Del Norte County and perhaps some of our readers can give us this information.

Hymettus 2:07¼ is looking well and doing fine. He will be ready when the bell rings to do battle with all in his class.

There's a nice chestnut pacing filly here belonging to Jas. W. Marshall of Dixon. She was sired by Zolock 2:05¼, out of Trix, one of the greatest brood mares in California, and will be another 2:05 performer to her credit.

Ben Walker has his horses in good shape and is gradually getting them ready. He has Blanche T. 2:18, by Stickle (son of Silver Bow 2:16 and Grace, by Buccaneer). She is looking finer than ever and will carry her proud trainer to victory many times this season.

Teddy Bear 2:05 has been bred to several fine mares and of course he has not been "keyed up" for hard racing yet, but he is sound and always has his speed with him.

The best one in Ben's string is Chas. F., by Del Coronado 2:09½, out of a full sister to Eleata 2:08½ (being by Dexter Prince, out of Elden 2:23¼ by Nephew; second dam Eleanor by Electioneer). Chas. F., is named after C. F. Silva, who owns him and a number of others in this lot, is a six-year-old trotter, and how fast he has shown Ben will never be told; but the way Ben winks when he speaks of him leads one to believe he has seen something he has every reason to believe has not been surpassed by any other horse on this track.

In the next stall is Happy Jack, a full brother but a pacer and he looks as if 2:20 will be easy sailing for him whenever he is called upon to move up a little.

Godollar, a full brother to Hymettus 2:07¼, belonging to Mr. L. H. Todhunter, is also an excellent prospect.

White Hose, by Zolock 2:05¼, out of Polka Dot 2:14¼, by Mendocino, is one that Ben says "will do."

He has a two-year-old trotter by Teddy Bear 2:05, out of this mare Polka Dot 2:14¼, which he calls Black Bear, that he is very proud of, and so is Mr. Silva, the owner.

The last horse looked at is the Statesman, by James Madison 2:17¼, a typical son of his sire and one that his owner, Ben Walker, is very sanguine will get a low record this year.

Wm. Ivey has Lijero 2:15½, belonging to F. E. Wright, looking better than I have ever seen him. This horse needs no praise for he is so well known and admired for his many qualities that it is deemed unnecessary in an article of this kind. He is transmitting all his good qualities to his progeny, and everyone who owns a Lijero considers he has the best foal in the land.

The gelding Chester is doing well and will be a money-winner this season.

He also has a three-year-old gelding by Lijero and two yearlings by this horse; the latter are well entered and will be seen in the stakes next year. Mr. Ivey is a very careful, painstaking reinsman and will have his horses trained to the second when the races are called.

P. W. Hodges has Montbaine, the son of Moko, in hand, and by the way the handsome yearling by this horse out of a pacing mare by Lockhart, trots proves that he will sire trotters of the highest class. There are two yearlings here by Montbaine and, judging by the way they are moving, Mr. Hodges has just cause to be proud of his selection of Monthaine as a sire. His trotter, Rapallo, as stated in these columns a few months ago, is a far better trotter for his age than San Francisco 2:07 $\frac{1}{4}$, his half brother, was. Rapallo is by Grecco B. by McKinney, and is one of the most frictionless-gaited trotters on the track. He is a small, round, compactly-built fellow, travels with a low head and is "strictly business" when at work. He will do in any company.

Mr. Hodges has a fine young mare by San Francisco 2:07 $\frac{1}{4}$, out of Alin, by Anteeo 2:16 $\frac{1}{2}$; second dam the dam of Lou Dillon 1:58 $\frac{1}{2}$. This mare is called Sanita; she has a colt at foot by Montbaine and has been bred hack again.

He also has Lady Volee by Nearest, out of Malverna (sister to Greco B.) She has a foal at foot by Montbaine.

But the greatest trotter is by Montbaine, out of Alice Evelyn R. by Lockheart, which belongs to W. S. Smith of Sacramento. The dam of this filly and another Lockheart mare are over at Woodland with foals at foot by Prince Ansel (2) 2:20 $\frac{1}{2}$. They are to be brought over and the bred again to Montbaine.

Chris. Jorgensen, the well-known horseman who used to handle the baby trotters and pacers for Dr. Hicks about twenty-five years ago, has achieved quite a reputation for handling unbroken horses. A few weeks ago he purchased a big bay gelding by Almaden 2:19 $\frac{1}{4}$, out of a mare by Kentucky (son of Whipple's Hambletonian, out of the Moss Mare by Kentucky Hunter); second dam by Langford, thoroughbred. This horse is called Dane Swift. He is one of the most promising, smoothest going and speediest trotters for his opportunities in Sacramento county. He has a no record, but has trotted in 2 14. Mr. Jorgensen is going to take plenty of time to get this one perfectly trained and have him ready to show that he is as fast as everybody at this race-track says he is destined to be.

CAPSULE IMPREGNATION OF MARES.

Since a number of our readers are seeking information about the method of impregnating mares with capsules, the operation is here discussed in full for the benefit of all who are interested in this simple, safe, practical way of increasing the number of foals from a stallion and of getting many hitherto barren mares in foal. Stallion owners should save this for reference.

Before the operation is performed the mouth of the womb should be opened to make sure of an easy entrance. Hohlle the mare. Smear vaseline on the hand and arm; then introduce the hand into the vagina and advance it forward to the mouth of the womb which is in the center of a prominent projection into the forward end of the vagina. One must be careful not to mistake the mouth of the urinary duct or urethra, which is on the floor of the vagina near the outer opening, for the larger and more interior mouth of the womb. Sometimes the mouth of the womb is quite tightly closed and considerable patience and pressure are necessary to open it. It need not be opened more than enough to admit two fingers.

If a number of mares are to be impregnated from one service, get them all ready before the stallion is allowed to serve one of them. If a mare has leucorrhoea, or harbors the germs of contagious abortion or is sick from any cause, there is little likelihood of successful impregnation even by artificial means. As a precaution against spreading any possible infection from a mare of doubtful condition, the hand and arm should be thoroughly washed after being inserted in her vagina for any purpose, but a disinfectant should not be used on the hands or instruments used for impregnation unless they are very thoroughly rinsed afterwards, for there is danger by that means of destroying the sperm cells and thus defeating the object of the work. Instruments must be cleansed in boiling water.

The capsule may be used either to advance the semen to the womb from the vagina where it has been deposited by the stallion or to transfer it to the womb of another mare. Capsules used for this purpose are the large size gelatin capsules sold by drug stores. The two-dram capsule is a hand size to use. These are about 1 $\frac{1}{4}$ inch in length and not too large for the finger completely to cover them to confine the contents. Capsules are made to hold as much as an ounce, but there seems to be nothing gained by using these very large ones and they are cumbersome to manipulate. Every drop of semen is abundantly supplied with sperm cells and only one of these is finally needed to fertilize the ovum that gives rise to the fetus.

There is no difficulty in getting semen into the capsule. It is done by holding the capsule firmly between the thumb and fingers while it is inserted mouth forward into the vagina of a mare that has just been served. The capsule is scooped along the

floor of the vagina through the semen deposited there, using the forefinger to push the semen into the capsule, and when it is full the opening of the capsule is closed by slipping the forefinger over it. Then if it is desired to place the semen into the womb of the mare the capsule is simply carried forward to the mouth of the womb and pushed into it. It is not necessary to withdraw the gelatin capsule as it will dissolve and do no damage. If the semen is to be carried to another mare it is withdrawn when filled and transferred as quickly as possible by way of the vagina into the womb of the other mare. In this way a number of mares may be supplied with the seminal fluid from one service.

If a mare at some distance is to be impregnated so that more than a few moments are required to carry the semen from one mare to the other some special provision must be made for keeping the fluid warm; otherwise the warmth of the hand snugly enclosing the capsule will suffice for warmth and the exclusion of light, both of which are essential. Successful impregnations have been claimed from semen carried some miles in a rubber bag carried next the skin under the arm to maintain it at body temperature. For securing a large quantity for this purpose a syringe or impregnator for extracting the semen from the vagina is very convenient and some prefer to use it altogether for impregnating mares. The syringe is filled with the seminal fluid, drawn into it from the floor of the vagina, and then the nozzle is carefully guided by the hand into the mouth of the womb where the contents are deposited.

The capsule method has been given abundant trial and has proved to be a success, making it possible greatly to increase the number of mares a stallion can accommodate. Special instruments for introducing the fluid into the womb are also efficient. The capsule is inexpensive and quite free from danger of injuring the delicate internal parts of the mare, but it does not carry so large an amount of fecundating material as a specially constructed instrument. In either case, great care should be taken to avoid spreading infection from a mare which is suffering from any disorder of the genital organs. The mare served by the stallion should be a perfectly healthy one.—Breeders' Gazette.

MR. GEERS ON TRAINING YEARLINGS.

In speaking of The Harvester, after his recent sale to Mr. Billings, the veteran trainer Ed. Geers, who took the stallion king as a colt, developed and drove him to his record of 2:01, had the following to say, expressive of his views on the training of yearlings and two-year-olds, and as this is a subject on which much has been said recently, what he said makes interesting reading. Here it is:

"I do not believe it is wise to work yearlings for speed at any distance, nor even to develop their hest clip for a short brush—that is not the extreme speed that comes only after brush work. I am willing to go even farther than that and say that if one has what looks like the making of a high-class trotter as a colt it is better not only to restrict its education as a yearling to short brushes at much less than top speed, but to refrain from trying to fit it for racing as a two-year-old. As matters how stand, if a trainer wants to get a colt ready to race as a two-year-old in the important stakes for that age he knows he must have—if he is to get any part of the money—a trotter that in the fall of its two-year-old form is capable of a mile in 2:12 or better, and the chances are the winner of the race will heat 2:12. To fit a colt for a race of heats at that speed the training must be so systematic and thorough that every physical resource of the colt is taxed to the utmost.

"In spite of all the care a man may take, a large percentage of the two-year-olds trained that way will develop a weakness and even the ones that stand up often have so much taken out of them in the way of vitality, that when their work as three-year-olds begins, they come to pieces and the trainer finds the damage was done the year before, although he did not know it.

"If I had what looked like a great colt trotter, I would not race it or even train it seriously as a two-year-old. I would of course hrush it enough to discover that the extreme speed was there, and I would teach it manners all the time—that is a great point with any sort of racehorse—but with that preparation I would feel, when the colt was a three-year-old, it was ready for a thorough training and could stand it without the least harm."

No one can say that Mr. Geers is not competent to express an opinion on this subject and those who have delved into the statistics relative to yearlings and two-year-olds that have been severely trained are of the belief that his opinions are fully backed up by facts.

BARGAINS TO BE HAD.

A new list of Sulkies and Carts has recently been published by The McMurray Sulky Co. of Marion, Ohio.

This list describes in detail quite a number of different styles of Sulkies and Carts. Everyone has been repainted, trimmed all over with new leathers, and equipped with new bolted-on tires.

Tires are guaranteed for one year, and McMurray Sulkies and Carts, even though bargains, are guaranteed for life. Prices are ridiculously low, on account of moving stock to warehouse.

If any man has use for a Sulky or a Cart, let him get this list. We will find just what will suit him. Address all correspondence to The McMurray Sulky Company, Marion, Ohio.

Catarrhal Fever is a most aggravating disease. Spohn's Compound, for sale by all druggists, is the true remedy for this trouble among your horses.

LOS ANGELES RACE MATINEE.

If the Los Angeles Driving Club had ordered the day in advance it could not have been more ideal to hold a driving matinee than last Saturday, April 6th. As a result the horses, in their class, made better time than has been made so far this season. There was nothing lacking in the way of followers of the harness racing game, and they showed their appreciation by giving the drivers of the winners rounds of applause.

The third race, the 2:25 class trotting, was the real feature of the day. It was an all-professional race. The drivers showed that they knew the game such as to bring the people in the grand stand to their feet.

In both heats of this race all four of the horses entered came down the home stretch almost neck and neck, but each time Alarich, the game little bay gelding driven by W. G. Durfee, nosed them out as they went under the wire. Durfee certainly showed himself a master at the art of finishing. Each time he let his rivals lead almost all the way down the stretch and then brought his horse in winner, in 2:17, which is away out of the class.

The first race was scratched, and the second was a match race between Bob and Joe, owned and driven respectively by C. A. Holcomb and Dr. William Dodge. "Doc" came out with the honors to his credit. However, it took three heats for this question to be decided, Holcomb winning the second. The second heat became a running race. Bob and Joe both misbehaved very badly and persisted in breaking about every fifty yards. In the third heat, however, "Doc" drove his horse the entire distance without a break.

The fourth, the 2:25 class race, was won "in a walk" by Altitude, a big bay gelding, owned and driven by J. E. Shaw. Catalina Goat was scratched.

In the fifth, 2:15 class pacing, Del Oeste was scratched, leaving Lady Cupid and Zomwoolsey to fight it out. Zomwoolsey won the first heat in 2:14. In the second Lady Cupid pushed him harder and he had to go it in 2:13 to win. The summary:

| | |
|--|-------|
| First race, 3:30 trotting—Scratched. | |
| Second race, 2:30 class, trotting: | |
| Joe, owner and driver, Dr. Wm. Dodge..... | 1 2 1 |
| Bob, owner and driver, C. A. Holcomb..... | 2 1 2 |
| Time—2:26, 2:27, 2:27. | |
| Third race, 2:25 class trotting: | |
| Alarich, Charles Winter owner, W. G. Durfee, driver..... | 1 1 |
| Luccona, John O'Keefe owner, Charles Nickerson driver..... | 2 3 |
| Bon Volonte, W. A. Clark Jr. owner, Ted Hayes driver..... | 4 2 |
| Time—2:17, 2:17. | |
| Fourth race, 2:25 class pacing: | |
| Altitude, J. E. Shaw, owner and driver..... | 1 1 |
| Mabel H., A. J. Field, owner and driver..... | 2 3 |
| David St. Clair, J. S. Nickerson, owner and driver..... | 4 2 |

Officers—L. J. Christopher President; Clarence Berry, vice-president; E. Diffebach, treasurer, and E. J. Delorey, secretary.

Directors—J. W. Nickerson, C. C. Colyear, C. A. Canfield, C. G. Willis, R. B. Moorehead, Dr. Wm. Dodge and W. A. Clark, Jr.

Speed Committee—Dr. Wm. Dodge, J. W. Nickerson.

AN ANTI-FAT CURE.

In the course of an article relative to "Uncle Jock" Bowen, a veteran trainer and driver, E. E. Cogswell, in a recent issue of the Trotter and Pacer, pens an amusing story, which is as follows:

None could ever say that "Uncle Jock" was not a brave man, in fact, it is doubtful if he ever knew what fear meant, but one hot noon in June at Mystic Park, he met with an experience that surely startled him some. A youthful green hoy from the country had been employed by one of the trainers to assist in the stable. He had great plans of some day working up to the position of a knight of the sulky. Some of the grooms saw the idea of having fun, and informed him that he was too heavy to drive, but if he would go into training he would likely get down to weight. To do this he would have to spend some time in one of the manure pits for a thorough steaming out.

This day the horses had all been worked early on account of the heat so that the jokers induced the hoy to take his first course of sprouts. Opposite to "Uncle Jock's" stable was the largest and hottest heap of manure. In the very center of this, where the steam was rising like smoke and the thermometer would register 130 degrees, was placed the student after he had undressed. Then the manure was again thrown about him till all that could be seen was from his chin to the top of his head. The sweat was running down the hoy's face in streams when "Uncle Jock" happened to pass by. Somehow he glanced that way, stopped with a start at the sight of a human head with eyes staring into his own.

"Was it a case of murder," he thought, "and the head had been thrown up there?"

To examine further "Uncle Jock" walked around the heap, and those eyes followed him. Then he knew that it was alive, so stopped and said:

"What in hell are you doing in there?"

"I'm in training to make a jockey," came the reply.

"Yer are, are yer? Well, you will have to get some brains first, I'm thinking, and if you don't get out of this pretty soon the grave diggers will get a job," and the veteran made his own grooms get to work and dig him out.

Drink Jackson's Napa Soda.

PACIFIC BREEDERS' FUTURITY STAKE NO. 10.

Following is a list of 101 two-year-olds on which payments were made on April 1st. This is the stake the two-year-old divisions of which will take place this year:

D. L. Babant's b. f. Fresno Maid by Athabash, dam Corinne Neilson by Clarence Wilkes; b. f. Orchard Girl by Athabash, dam Maud Sears by Wayland W. L. E. Barber's b. c. Burke by Lord Isle, dam Madge by Silver Bow Jr.

Mrs. S. V. Barstow's br. c. Mc McKinney by Nearest McKinney, dam Aunt Joe by Iran Alto; b. f. Lady Alto by Nearest McKinney, dam Mrs. Weller by McKinney.

Geo. T. Beckers' bl. c. Zomie's Secretary by Zombo, dam Lady Secretary by Secretary; gr. c. Zomie Gray by Zombo, dam Trott McGrath, by Master McGrath.

I. L. Borden's b. c. Fulton G. by Carlok, dam Beatrice Zombo by Zombo; b. f. Barney Barnato, dam Hester McKinney by McKinney; bl. c. Carlos by Carlok, dam My Line S. by Pettigru; br. f. Gold Lily by Copa de Oro, dam Lillie Mc by McKinney.

Alex. Brown's b. c. by Palite, dam Princess Mamie by Prince Ansel; bl. f. by Alconda Jay, dam Bouquet by Nushagak.

Henry Busing's b. c. West Pointer by Star Pointer, dam Sweet Hallie by American Hal.

C. A. Canfield's foal by Walter Barker, dam Mamie Elizabeth by Red Regent; foal by Walter Barker, dam Chlo by Conifer.

P. J. Chalmers' b. f. Olive McAdrian by McAdrian, dam Dolly C. by Booth.

J. M. Clark's b. f. Romalita by Diorose, dam Lena by Falrose; b. c. Joe McCarlie by R. Ambush, dam Diabette by Diabio; bl. c. Tom Green by Diabio, dam Almeta by Artbur W.

W. A. Clark Jr.'s b. c. Zombowage by Nobege, dam Zombowette by Zombo.

J. W. Considine's b. f. Lottie Ansel by Prince Ansel, dam Lottie by San Diego; b. f. Laura Ansel by Prince Ansel, dam Laress by Mendocino.

S. H. Cowell's foal by Kinney Lou, dam Dione by Eros; foal by Henry Nutwood, dam Charmion by Nutwood Wilkes.

L. B. Daniels' c. The Voyager by On Voyage, dam Nocha by Nushagak.

R. L. Draper's s. c. Orange Boy by Copa de Oro, dam Lady Hackett by Jerome.

E. D. Dudley's f. Hazel Bee by Palite, dam Bee Sterling by Sterling; br. f. Truthkin by Carlok, dam Trub by Searchlight.

W. G. Durfee's b. c. by Del Coronado, dam Atherine by Patron; bl. f. Acclaim by Carlok, dam Lady H. by Del Coronado; b. c. by Del Coronado, dam Roberta Madison by James Madison; b. f. by Carlok, dam Mowitza by Soudan.

W. B. Edward's b. f. Lucile B. by Meridian Mack, dam Queene by Summer Set Prince.

H. H. Elliott's br. c. Waylight by Wayland W., dam Pitiless by Searchlight.

B. Evans' tm. c. Southern Spy by Vassar, dam Flor Alta by Altitude Jr.

Horace H. Feindel's bl. c. Johano by Carlok, dam Johana Treat by Thos. Rysdyk.

L. W. Folson's b. c. Zee Todd by Baronteer Todd, dam Grace T. by Zombo.

J. A. Garver's br. Direct Policy by Best Policy, dam Brownie Direct by Robert Direct; s. c. Pert Direct by Best Policy, dam Visalia Girl by Robert Direct.

F. Gomett's br. f. Lady Gomett by McKena, dam Zorilla by Dexter Pence; b. f. Baby Gomett by Prince McKinney, dam Arawana B. by Sidney Dillon.

J. F. Heenan's bl. f. Dora Tine by De Oro, dam Miss Valentine by Bayswater Wilkes.

H. H. Helman's br. f. by Alconda Jay, dam Electress Wilkes by Nutwood Wilkes.

Hemet Stock Farms ch. f. Miss Gaily by Geo. W. McKinney, dam Lady Zombo by Zombo; b. f. Eradiate by Geo. W. McKinney, dam Mamie Redmond Hemet Stock Farms ch. f. Miss Gaily by Geo. W. McKinney, dam Louise R. by Sterling McKinney; b. c. Fiesta King by Geo. W. McKinney, dam Fiesta by Bob Mason.

John Hogan's bl. f. Bel De Lopez by Kinney De Lopez, dam Babe by Count Lionel.

H. S. Hogboom's ch. c. Expression by Alto Express, dam Miss Raschen by Diabio.

Lulu M. Irvine's b. f. Ah La Moscovita by Alconda Jay, dam La Moscovita by Guy Wilkes.

R. S. Irvine's b. f. Beretta Dee by Charley D., dam Beretta by Searchlight.

E. P. Iverson's b. f. Ellen Lou by Kinney Lou, dam Queen Karen by Nutwood Wilkes.

J. B. Iverson's ch. f. Eugenia I. by Eugene, dam Anita I. by Dictatus.

Chas. Johnson's b. c. Charley Star by Star Pointer, dam Skate by Silver Bow.

J. N. Jones' b. f. Zorene by Charley D., dam Lady Irene by Diabio.

M. C. Keefer's b. f. Arista Ansel by Prince Ansel, dam Arista by Nushagak; tm. c. Don Vassar by Vassar, dam Dawn by Athaner.

A. S. Kellogg's br. f. Verda Ray by Athasham, dam Lillith by Secretary.

Wm. Leech's b. c. Hi Pointer by Star Pointer, dam Hiawatha by Baron Bretto.

D. Lynn's ch. c. U. Lynn by G. Albert Mac, dam Bell by Diabio.

J. W. Marshall's ch. f. Zoetrix by Zolock, dam Trix by Nutwood Wilkes.

Capt. C. P. McCann's br. f. Ethel Toddington by Toddington, dam Ecstic by Oratorio.

Ray Mead's ch. f. Califa by Kinney Lou, dam Carrie B. by Alex. Button.

W. J. Miller's b. f. Capitola by Dan Logan, dam Lula Mc by Arthur Wilkes.

J. E. Montgomery's b. c. Lock Logan by Zolock, dam Effie Logan by Durfee.

J. H. Nelson's br. c. Dexter Lou by Kinney Lou, dam Alma Dexter by Dexter Prince.

W. Parsons' ch. f. Berta Lou by Kinney Lou, dam Alberta by Altoona.

Dana Perkins' b. f. Danae by Stam B., dam Zaya by Bay Bird.

Jas. W. Rea's s. c. James W. Jr. by Nearest McKinney, dam Much Better by Chas. Derby; b. f. B. Rea by Nearest McKinney, dam Eva B. by McKinney.

C. G. Rice's b. f. My Polley by Best Policy, dam Jessie Edwards by George Hope.

Chas. A. Riggs' b. f. May Marian by Carlok, dam The Blonde by Strathway.

L. R. Rogers' b. c. Ben Bolt by Athasham, dam Sweet Alice by Cupid.

A. L. Scott's b. c. Bon Prix by Bon Voyage, dam Cora by Ira.

W. A. Shippee's bl. c. by Nobege, dam Zombell by Zombo.

S. S. Silvey's b. f. Vivien S. by Palite, dam Ramona by Demonio.

Thos. Smith's br. f. by Demonio, dam Maud Washington by Geo. Washington.

C. A. Spencer's br. c. Star Ansel by Prince Ansel, dam Nornale by Nushagak.

Jas. Stewart's b. f. Lady Lock by Zolock, dam Easter D. by Diabio.

S. S. Stiles' b. c. Jim Hardy by Alconda Jay, dam Silver How by Silver Bow.

THE FRESNO FAIR.

The board of directors of the Fresno Fair Association, at their regular monthly session, elected C. I. Pullman secretary to succeed C. G. Eberhart, who resigned about two weeks ago. The new secretary took up his duties at once and will be actively engaged up to and including the fair next October.

Pullman has probably had as much, if not more, to do with fairs than any other man in the San Joaquin Valley, and the directors of the fair association feel that they have chosen a man who will do much toward making the Fresno fair one of the big attractions of the San Joaquin Valley. He was one of the originators of the Springfield county fair at Springfield, Ill., and later was one of the originators of the Illinois State Fair, which has since become one of the largest fairs of its kind in the United States.

Dr. J. H. Waggoner of Selma was elected a director to succeed Mrs. L. D. Scott, who felt that she would not be able to undertake the work. He will begin at once to get the people interested there to make exhibits at the fair. As he is a prominent live stock man, he has been selected to take charge of the live stock branch of the fair and also to gather live stock exhibits from Selma.

E. P. Todd, secretary of the Selma Merchants' Association, has sent out letters to farmers residing in and near Selma, urging them to prepare to make exhibits at the fair in Fresno.

Mrs. Armstrong, a member of the board of directors of the fair association from Fowler, has also sent out letters to people around Fowler to get them interested in the Fresno fair so that they will prepare exhibits.

The fair directors are planning to go to Kerman within the next two or three weeks and will also go to Clovis. They were to have gone to Kerman some time ago, but were prevented by rain. Later on visits will be made to Madera, Merced and other places outside of Fresno county. It is probable that the directors will go to Merced at the time of their street fair in May to arouse interest in the fair here.—Fresno Republican.

DEATH OF FRED GEORGE.

On Thursday, April 11th, Fred George, the well-known turf writer, passed away. He had been a sufferer from tuberculosis and cirrhosis of the liver for the past four months and his death was not unexpected. Deceased was born in England fifty-two years ago, where his college education fitted him for the study of law. He passed his examination with honors and after practicing law in London for a few years he took a trip to Australia, where he remained until 1891. He then came to California, and being an enthusiastic patron of the racing game and a very pleasing writer on topics relating to the turf, he was employed on several of the morning newspapers in this city. He left here in 1896 for New York, where he resumed the practice of law. In 1901 he started for France and remained eight years, and on his way to California visited his home in England. After his arrival in San Francisco his health began to fail until finally death relieved him of his suffering. Deceased had a kindly disposition and made many friends among all classes. Last year he was employed on the Breeder and Sportsman and became well known to many of its readers. The news of his demise will be read with sorrow, and to his bereaved widow the sympathies of all are extended.

AN EXODUS OF HORSE BREEDERS.

The Empire State, known for nearly three-quarters of a century as the home of the American trotting-bred horse, is not only losing that distinction rapidly, but is being abandoned by breeders who have made the State famous and who have invested millions of dollars in the enterprise.

The crusade against horse racing sport has forced, during the short space of two years, the complete cessation of breeding horses in some counties and driving the breeders either entirely out of the business or compelling them to move their stock to other States where they find the needed encouragement.

The closing of more than one hundred trotting tracks of the State where racing flourished and the horses raised at home were tried has made the enterprise a losing venture, while, on the other hand, wide-open racing and patronage of the sport, without jail sentences threatening its backers, offer unlimited inducement to move to other States.

Many horse-breeding farms, where operations were carried on upon a small but select scale, have already gone out of business, and some of the best have followed suit or greatly curtailed their operation.

Others, like Hillandale at Mamaroneck and the Empire Stud at Cuba, N. Y., have already divided their breeding stock between the home farms and Kentucky, with strong chances of finally locating all their operations in the Blue Grass country. What the ultimate effect of the present movement will be is not hard to foretell, especially under the present conditions which show an unparalleled demand for horses and equally great scarcity all over the State.

Horse-breeding—a short time since one of the greatest farm industries of the State—is destined to become a dead issue.

How completely the Hambletonian family of trotters now overshadows all others is strikingly illustrated by the statistics of harness racing for 1911. Of the 1935 horses that entered the 2:30 list last year, 1712 or 88 per cent are descendants of Hambletonian in the direct male line.

AT EXPOSITION PARK, LOS ANGELES.

Following is a list of horses in training at this celebrated track:

Property of W. A. Clark Jr.: Ted Hayes, trainer—Bon Voyage (t) 2:08; Zombowage, green trotter; Bon Volonte (t) 2:19½; Jean Val Jean (p) 2:10; Voyageur (t) 2:23½.

Walter Maben: Donasham (t) 2:09¾; Chiquita (p) 2:08½; True Kinney (t) 2:19; Fiesta Maid, green trotter; Rubell, green trotter; Charley A. C. (p) 2:21½; Bondlette, green trotter; F. S. Whitney 2:29½; Ellein, green trotter, and Victor Mc., green trotter.

J. L. Nickerson's David St. Clair (p) 2:15½ and Stella M., green pacer, trial 2:14.

Chas. Winters' Alhamra (t) 2:27½ and Alarich, green trotter, trial 2:19.

J. W. McClain's Hall Mc., green pacer, trial 2:11, and Lady McQueen, pacer, trial 2:07.

R. B. Moorehead's Baby Boy, green trotter, trial 2:21.

John O'Keefe's Luccona, green trotter, trial 2:17.

Fred E. Ward's Zombonut (t) 2:08½, Nordwell (p) 2:08½, Dr. Wayo (t) 2:24, Joe McGregor (p) 2:21½, El Bell Maden 3 (t) 2:30, and Jay Direct, a green trotter.

Joe Williams' Arnis, green trotter, a black horse, green pacer.

W. N. Tiffany's Carsto (2), green trotter; Clinchfast (2), green trotter.

Sam Watkins' Zola, green trotter, trial 2:26; Lady Alice, green trotter, trial 2:12½, and Dr. Hall, green pacer, trial 2:19.

L. J. Christopher's Alecer, green pacer, trial 2:10, and Princess Redlac, green trotter.

Al Russell's Auto Zombo, green pacer, trial 2:09¾; Miss Jerusha (p) 2:08½, and Big Squaw (p) 2:08½.

L. E. McLellan's Ma Julia, green pacer, trial 2:17.

Dr. Wm. Dodge's Joe, green trotter, trial 2:19.

J. M. Stewart has seven or eight he will race.

L. H. TODD HUNTER'S PURCHASE.

When James T. Thompson started for Kentucky in that big freight car with his eight broodmares, Mr. L. H. Toddhunter, of Sacramento, had not decided to have him buy anything in the trotting horse line for him. After Mr. Thompson arrived at his destination and had unloaded all his horses, none of them showing any signs of the hard seventeen days' ride they had in midwinter weather, he received a letter from Mr. Toddhunter advising him to buy the very best yearling colt by Peter the Great that money could buy and to use his judgment in the selection. "Don't let the price stop you!" was the postscript. Mr. Thompson, in an interview at Sacramento the day after his arrival, said: "When I received this order at my headquarters where I was stopping with that 'prince of good fellows' and 'king of hosts,' John Splan, I said: 'Mr. Splan, let us go out to the Patchen Wilkes Farm and look over all the youngsters by Peter the Great.' We made two trips. Each time we had the men turn the yearlings out loose in a big runway about 1000 feet long and 60 feet wide, and then we decided what I wanted. He agreed with me on the choice and said 'there can be no other, taking this method of selecting a prospect.' I have just seen Mr. Toddhunter and completed the financial part and in a few days will mail you the full breeding as all the papers will be forwarded me. I have only this to say, however, this colt is out of a speed-producing mare and his second and third dams are also famous for their produce. I believe he will be one of the greatest colts from a breeder's standpoint ever shipped from Kentucky to California, and, as a trotter, well, I know, unless something happens him he will suit any man, whether he is a horseman or not. I wish he were here so you could see him; I know you would become as enthusiastic over him as Mr. Splan and I did each time we saw him trot."

Every reader who is contemplating breeding one or more mares this season should note carefully the stallions advertised in this issue. Always remember that the get of an advertised stallion have an additional value.

March 28th was the fiftieth anniversary of the death of Mambrino Chief, in Kentucky. He was foaled in 1844, dying in 1862, aged 18 years.

THE YEAR BOOK FOR 1911.

The Kentucky Stock Farm has the following just criticism to make of the last issue of the Year Book. While not wishing to add anything to it, there is one important matter that has been overlooked and that is the insertion of a chapter of corrected pedigrees not only of standard performers but also of the produce of the mares. Such an addition would be of incalculable value and highly appreciated by everyone interested in the light harness horse industry:

The twenty-seventh volume of the Year Book is at hand and the most that can be said of it is that it is like its predecessors. The Year Book of trotting and pacing in 1911 contains full summaries of the trotting and pacing performances of the year in which any heat was trotted in 2:30 or better or paced in 2:25 or better, carefully compiled from the official reports of the National Trotting Association, the American Trotting Association and other authentic sources; also best records of slower performances. This is the statement made by the publishers who add that it also contains a comprehensive series of tables embracing all standard performances.

The Year Book publishes the trotting and the pacing standard and defines non-standard animals. Its summaries of all performances are in the main accurate and the fact that the various meetings scheduled are given with a view of following the season from beginning to end is of great convenience to those who must use the volume frequently. Where the Year Book is inadequate is in the compilation of sires under the great table and of dams under the table of dams. It is necessary in referring to various stallions to use preceding volumes, and while it would doubtless be impossible in any one volume to give all the performers by one horse, it certainly would be feasible to furnish the produce of every mare having two or more in the 2:30 list. Anyone wishing to learn what has been accomplished by Alcantara for instance, will find that in volume twenty-seven he is referred to volumes eight, eighteen and then in succession to volumes from eighteen to twenty-five. Under the list of the sons of this horse are given their names and the number of their trotters and pacers in the 2:30 list and the same method is pursued with the producing daughters.

While it is important that the Year Book should give a summary of every race trotted or paced over tracks holding membership in the National and American Associations as well as all other important events, it is much more essential that statistics regarding stallions and mares should be dealt with comprehensively. It would seem as if too much space was devoted to unimportant matters such as the offspring of mares that have accomplished nothing more than producing a 2:30 trotter and a 2:25 pacer and of stallions whose lists includes only one of each. It is of comparatively little import that the name of a stallion, his number, a reference to some other volume and the fact that he sired one pacer, should appear, if by so doing there is not left room in any volume to give the complete record of the performance of some truly great horse.

Owing to the tremendous growth of the 2:30 list it is not to be expected that every sire should be dealt with in full and it would seem to be better to curtail space allotted to unimportant stallions and to give additional information regarding the leading sires. There should be for the convenience of statisticians and others who have use for such a volume as the Year Book a list of the performers of every great sire, together with the names of his sons and grandsons who have achieved something, as well as those of his daughters. If one wishes to learn the names of the performers from daughters of Bingen he must refer to the three or four volumes preceding number twenty-seven, which is a simple enough matter if one has abundant time but it is nevertheless inconvenient and should not be necessary. Any volume containing all the information that is demanded must necessarily be cumbersome, and for this reason the publishers of the Year Book are excusable, yet if the present plan is adhered to, in a very few years the only benefit that can be gained from a new volume will be found in the reference to the numbers of those preceding it.

The Trotting Register and that part of the Year Book devoted to the descendants of mares and stallions really go together and the summaries of race reports belong to themselves. If the American Trotting Register Association could take over part of the Year Book's statistics it might be of great convenience to those who constantly use both volumes. As the Register is not being published promptly each year this plan would work a hardship on all who now use the Year Book, yet there would seem to be no good reason for this delay. Just why there has been no Index Digest published since 1892 has never been explained and it behooves the American Trotting Register Association to take this matter up. Under present conditions any one wishing to find a horse in the Register must look through every volume that has been published since 1892 and as this is a difficult task and to some people an impossible one it may account for the ignorance that is frequently displayed regarding the breeding of some horses.

Sidney Kinney, of Westville, N. J., is the owner of a handsome colt by Zomhro 2:11, out of Twenty-third, dam of Sterling McKinney 2:06½, that is a natural-horn trotter and can show a 2:30 clip right now.

ADVERTISING STALLIONS JUDICIOUSLY.

The fact that a certain horse has a full book should not influence his owner not to advertise. There are many reasons why a horse popular enough to be in such demand should be kept constantly before the public. A horse out of public view is quickly forgotten and this is especially true of stallions which have been well advertised but whose owners come to the conclusion that further advertising is an unnecessary expense. When such is the case the brood mare owners are apt to reach the conclusion that either the horse has been sold or that he is dead. Another reason the stallion owner will find it not so easy to fill the book, and this difficulty will increase as the seasons roll around. The average breeder wishes to patronize a popular stallion and the unadvertised horse cannot be a popular one, as he quickly passes from the mind of the public. The young stallion, even though his owner intends to make but a very limited season before racing him, should be kept before the public so as to pave the way to patronage, profitable patronage, once he is permanently in the stud. The field has to be sown before the reapers can get to work. The stallion owner owes something to his patrons, and better than a reduction in the stud fee is advertising that will cause the colts by his horse to be in demand at profitable prices. In other words, the colts by an advertised sire always sell better than those by a sire with which the public is not acquainted. It is the persistent man who always has his horse before the public and is always in a position to take advantage of any boom that may come along, and booms come at most unexpected times. The colt that flashes out and wins a futurity is apt to be counted as a fluke, a freak, if the owner of his sire has not had the foresight to have kept the public acquainted with the good qualities of his horse. Advertising pays, but let it be judicious, persistent advertising and not freakish or sensational advertising.—Western Horseman.

BACKWARD TRAINING SEASON.

Winter's continuous series of farewell engagements is having the effect of retarding training operations in all parts of the country, and it now looks as if the trotters and pacers would come to hand much later than usual for the coming campaign. In California alone are they ordinarily advanced in their preparations for this season of the year, the reports from the two chief training grounds there, at Pleasanton and Los Angeles, having spoken of miles better than 2:10 by green pacers several weeks ago.

All through the South the winter has been exceptionally severe, and its greatest training point, Billings Park, Memphis, Tenn., has suffered more in this respect than ever before since it was built, eleven years ago. In consequence the many big stables that have wintered there are seconds behind their same stages of preparedness in 1911 at this time. This means that when good settled weather does come they will be correspondingly hurried in order to be "ready when the bell rings."

Possibly, however, what the trainers are complaining about may prove a blessing in disguise, for it is usually the case that more than a few horses wintered in the South are over-prepared and go stale before they turn "for the money," all on account of the temptation which early good training weather presents for too fast miles when they are in no sense necessary.

DEATH OF BEN RUSH 2:10½.

On Thursday last this game little pacing stallion, owned by Elmo Montgomery, while cooling out after a workout at Sacramento, was suddenly stricken ill, and, after suffering a few hours, passed away, despite all that veterinary skill could do for him. He had not been well for some time and Mr. Montgomery believes there was some growth like a tumor which was the immediate cause for his death. Ben Rush was a dark bay horse, standing a little over 15 hands and weighed 1050 pounds. He got his record of 2:10½ as a three-year-old in the Breeders' Futurity pace in which he won second money. Mr. Montgomery drove him a half in 1:01¼ in Woodland, last year, and was getting him ready for the races this fall. He had plenty of speed at all times and wore only a pair of light hoots. He had a splendid disposition, was always willing to do his best and showed an intelligence far beyond the scope of most horses. He was sired by Demonio 2:11¼; out of Minerva (also dam of Dinervo 2:06½, and Solano Boy 2:07) by Guy Wilkes 2:15¼; second dam Rosalee (dam of Mary B. 2:22½, Jean Wilkes 2:24¼, and Roselle R. 2:26½), by Sultan 2:24; third dam Gulnare, by The Moor 870; fourth dam Lulu Jackson (thoroughbred), by Jack Malone (son of Lexington); fifth dam Leda, by Epsilon, etc. His death is a serious loss to Mr. Montgomery.

LIFE POLICY.

Mr. R. O. Newman has a four-year-old colt of this name that is one of the finest looking individuals foaled in Visalia county. He is coal black in color, stands 16 hands and weighs 1190 pounds. He is royally-bred, tracing to the most fashionable trotting sires and dams in the United States and is a remarkably pure trotter. He was worked a little as a two-year-old and trotted a half in 1:10 eighths in 16 seconds. Mr. Newman advertises him in this issue. This horse should be well patronized, as his progeny will undoubtedly have the advantage of having for a sire one of the best bred and handsomest young trotting horses in California.

ANSWERS TO CORRESPONDENTS.

Please give the registered number held by Bonnie Steuway 2:06½, and his breeding.

Ans.—Bonnie Steuway 2:06½ has not been registered, although he is eligible. His sire being Steuway 2:25½, and his dam was Bon Bon 2:26 (dam of Bonnie Direct 2:05¼), by Simmons 2:18; second dam Bonnie Wilkes 2:29½, by George Wilkes 2:22, etc. He is one of the finest looking, gamest and best bred stallions in California.

J. D.—Will you please answer the following: What is the sire and dam of The Moor 870? Ans.—By Clay Pilot 93, dam Belle of Wabash, by Young Bassinger, grandam by Imp. William IV. Sire and dam of Sable? Ans.—Sable was by The Moor 870, out of Gretchen, by Mambrino Pilot 29; second dam Kitty Kirkman, by Canada Chief. Sire and dam of Bayswater, thoroughbred? Ans.—Bayswater was by Lexington, out of Bay Leaf, by Imp. Yorkshire; second dam Maria Black, by Filho da Puta; third dam by Smolensko, etc. How is Bessie Sedgewick bred? Ans.—Sired by Joe Daniels, dam Minnie Smith, by Starlight (son of Owen Dale); second dam Fanny Howard, by Illinois Medoc; third dam by Imported Riddlesworth. How is Leinster bred? Ans.—Leinster was sired by Imported Australian, out of Luileme, by Lexington; second dam Rosette, by Imported Yorkshire; third dam Picayune, by Medoc, etc. What is the sire and dam of Almont Lightning? Almont Lightning 1023 was sired by Almont 33, dam Molly Bowman, by Mambrino Pilot 29; second dam by Mambrino Chief 11.

C. W. Price, Larkspur—We cannot find any record of Baby Madison.

L. W. Russell, Stockton—There was a horse called Jim Crow that sired the grandam of Honesty 2:25½. It was claimed in the L. W. Shippee Catalogue he was a "thoroughbred."

J.—How is San Juan 2:22½ bred? L. Leadbetter, of Napa, writes in reply to this: San Juan 2:22½ was sired by Nutwood Wilkes 2:16½, dam Alice McKinney, by McKinney 2:11¼; second dam Judy Fee, by Pilot Prince 20439.

W. H. Parker, of Stockton, writes in answer to our query regarding the breeding of Dr. D. E. Herspring's mare Jennie S.: She was bred by Clark Archer, of Linden. Her sire was Directum, dam by Nephew, second dam by Gen. Dana. Jennie S. was the dam of Steve 2:18¼, by Steve Whipple.

Who owns Angie Malone?

Ans.—Geo. W. Warren, of Astoria, Oregon, owns this daughter of Alex. Malone, dam Angie Wilkes, by Guy Wilkes 2:15¼; second dam Maude 2:19, by Bertrand.

Was Oakland Maid sired by Masterlode 593?

Ans.—No. She was sired by Speculation, dam Lady Vernon 2:29½.

Can any of our readers give us the breeding of Hay Dad that was in Pleasanton a few years ago? He is at present at Long Beach, Cal.

There was a mare called Lady Muriel once owned by Captain Hackett, of Danville. Can anyone give us her pedigree?

How is Lilly Arthur bred, and in what volume is she registered?

Ans.—Lilly Arthur was foaled in 1892, sired by Arthur Wilkes 2:1424, dam Lillian, by Romulus 271, etc. Bred by L. H. McIntosh, Chico. Registered in Vol. 18, page 648.

Is Lady Arner, her daughter, by Arner 31300, registered also?

Ans.—Yes, in the same volume, page 622.

What is the breeding of Mignonette, by Antelope 16323? What is Kentucky Baron's number?

Ans.—She is out of Minnie Princess, by Nutwood 2:18¼, grandam Belle, s. t. b., by Paul's Abdallah. She was bred by F. L. Duncan, of Chico, and had a record of 2:34. Kentucky Baron's number is 32047. He was by Baron Wilkes 2:18, out of Kate Carey, by Kentucky Prince, etc. He had a record of 2:27½.

Can you give me the breeding of a mare called Electric that was raced by Dr. Weldon in Sacramento many years ago?

Ans.—We cannot. Write to Dr. E. J. Weldon, Sacramento.

Has Roscoe Moak 22260 any trotters or pacers in the standard list?

Ans.—No.

How is Raymond H., foaled in 1908—a thoroughbred—bred? Ans.—Sired by Wernberg (by Imp. Moscow, he by The Drake, out of Lady of The Manor by Voltigeur, Wernberg's dam was Holmdel), dam Floriana Belle by Libertine; second dam Floriana by Imp. Cheviot; third dam Atalanta II, by Grinstead; fourth dam Blossom by Virgil, etc.

We are sorry to learn that Mr. Geers has been confined to his bed, at his home in Memphis, Tenn., for a week past, with a quite severe illness, which, his physician states, is due to gall-stones. We trust, and so will everyone, that the G. O. M. will soon be up and about again, as usual. Previous to this sick spell he had been seemingly in splendid physical condition.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

RANDOM NOTES.

[By J. B. Thompson.]

Every well broken dog is required to back his brace mate when on point, with some dogs, or rather the majority, this is a natural instinct that becomes the more reliable with the number of days devoted to work on game in the field. It is a polite acknowledgment of the other dog's point, and a deferential recognition of the discovery of game by the companion. Some intensely natural backers become really despicable, and teaching them to chase is about the only way to overcome it when it reaches this stage of annoyance. It generally exhibits itself by backing another dog at unnecessary distances, sometimes 200 yards off, or stopping in to point whenever his brace mate stops, whether on point, to pull a burr from its flag, or indulge in the delectable scratching away of an overly greedy flea; but no matter what the other dog stops for he recognizes it only as a point, and at once becomes immobile as a statue. In contrast to this extreme we have the jealous fellow, who is so surfeited with the green-eyed monster that the strain of giving precedence to the other dog's find is too much for his excited nerves, he jumps in to the point and flushes the other's birds. Both need separate methods of handling, the latter severe reprimanding with the force collar, as well as the other inducements that will lead him into displaying more self dependence.

We have some that become so greatly enamored with the performance of backing, that they willingly leave the entire work of finding birds to the other dog, and reconcile themselves to the questionable measure of deciding that backing is all that is expected of them. They are perfectly contented to indulge in it as long as opportunities are forthcoming. This is the effect of placing too much dependence on backing and forcing the young dog to back the older dog before he has learned to get out and hustle for himself. Truly, this kind of a dog commits no great error, but as long as he is contented to permit the other dog to do all of the finding, he is not of much value to the sportsman. To eradicate this fault he should be hunted continually alone, until his instincts develop into an ambition to excel by hunting game himself, without waiting for the mate to do the work.

The English sportsmen lay undue stress on backing, the reading of the reports of their trials will impress the average American as if backing were considered as proficient work, if not more so than the necessary act of finding birds. "The backing was beautiful," is a peculiarly pet expression of our British cousin, who gives it almost equal prominence with finding, and appears to reward it in like manner. The report of one of the late trials on the other side of the water furnished the material for consideration. One brace of dogs was put down, and in all of the running of their heat I could not see where the report once indicated that this pair had found game, where, how, etc. Nevertheless, the reporter alluded with greatest significance to the fact that both animals "backed beautifully."

On another occasion a dog pointed falsely, or rather dropped to a flush, its brace mate coming up backed in the usual manner and received commendation for his behavior. The dog that flushed was condemned, yet the dog that backed the other's flush was the recipient of praise. To us it is a rather far-fetched way of awarding, are we not led to believe? But as our friends in Great Britain take their sport so seriously, an inclination to change their standards of judging is not to be expected from the field trial followers in that country.

A question frequently hurled at us is, should the dog be required to back at sight, or at scent? We can answer at both and miss it, but the old experienced dog, that has bird hunting in him, will soon solve the problem himself, and back at both. As time develops his acuteness he will only back at sight as long as he realizes his companion is on game, though as soon as he is aware that the companion has frozen into a false point, he will fail to respond, and continue to hunt in his own way, sublimely indifferent to the useless attitude of his less gifted comrade.

No set rules of training will eradicate useless backing where it seems inborn to intenseness, for it is then really an over timid acknowledgment of the other dog's superior capabilities; frequently exaggerated by overcautioning a youngster into recognizing another's superiority; until the dog has been permitted to solve for himself the problem of taking the initiative in hunting, his inclination will be strong to acquire glory through the work of his field mate.

At what distance a dog should back, can be replied to better by knowing the predilections of the individual sportsman. Many consider it a rare good exhibition for the dog to back at sight, no matter in what place in the field he is when the other makes point. It is obvious that this is not necessary, and frequently dangerous through presenting himself in the course of the flushed birds, when he is either liable to be sprinkled with a charge of bird shot or cause his observing master to lose his chance for a shot at the game.

On one occasion I was present when the owner failed to see a sight backing dog, and peppered him rather thoughtfully with a load of shot. The running mate had made a find, and was pointing staunchly in the open; the victim, a sight backing dog, had been skirting a ditch heavily bordered with tall ragweed, the owner whistled for him, but he failed to respond. Thinking he might have worked out of sight, he flushed the birds and fired, as they pitched, flying low, into the ragweed bordering the ditch. A yelping, expressing pain, directed his attention to the dog. The animal had been backing unseen in the cover of the ditch. He was a gory looking sight when we reached him, blood oozing from his head and neck. Luckily, no great injury was done to him, but it might have culminated into a canine tragedy if he had been a trifle closer.

Personally I like a dog to come up close to the pointing dog during his backing act, then if he is the more intelligent in recognizing a false point and its uselessness, he can promptly go ahead about his business. In this position of backing he is in sight of his master, and frequently, if he is competent, aids materially in curing another dog of the bad habit of false pointing. I have always relished seeing a dog back another closely, no matter how great a distance he may be from the finder, to see him recognize it, advance in a galloping rush, as if he were going to break into the other's point, and on near approach freeze into staunchness a few feet back of the other. How often has an old-timer displayed his versatility on game, when he has come up to recognize the youngster's point, stop only for an instant, give a glance of indignation at the painfully interested youngster's point, and romp ahead in search of birds. The youngster remained inert, but with all our confidence in his nose we find the false point was made and the wise old-timer was aware of it a long time before we were; though we thrashed the cover in every direction trying to force into flight an imaginary bird.

While the sportsmen across the water give undue prominence to backing, we admit its necessity, demand it, but do not deem it as a very strong subject matter in making our awards. It is only a dutiful recognition of another's find, and is no proof whatever that the backer was any assistance in locating the game, nor that he could have handled the opportunity as the mate did. The art of finding game is almost a divine one, but the act of backing can be easily inculcated without the pupil possessing any of the natural gifts a bird dog must have to shine prominently.

The one is accomplished by persistent effort, and the other exactly but a slight superficial knowledge of the game. When a bird dog is to gain honor by backing the greatness of the bird finding instinct will take a back seat to the trainer's art. It will never be considered a point of superiority unless we run our field trials under other rules, which neither the shooting dog lover nor the field trial man will ever draw up. We have no intention of underestimating the value of a dog's backing, but rather to offer the suggestion that it should not be held in the same esteem as the actual finding of the game. This latter brings many preferable faculties in play, which being so well known to dog fanciers, the mention of them here would be superfluous.

THE LATE O. J. ALBEE.

We note with regret the passing away, last Sunday, of a good sportsman and sterling fancier, O. J. Albee, of Oak Grove, near Lawrence station, Santa Clara county. He had been ill for several weeks and was 77 years of age when the summons came. He is survived by a widow, a most estimable lady and well known in dogdom circles.

Mr. Albee had a wide circle of friends and was well known as a poultryman and dog fancier, having exhibited at many shows up and down the Coast. At Oak Grove he kept a big kennel of collies, of which he was especially fond. He was a pioneer resident and is thought to have been one of the oldest residents in the Santa Clara valley. He was a native of England. Coming to America when he was about 19 years of age, he settled first at Detroit, Mich., whence he came to California 40 years ago and bought a ranch at what is now Lawrence station. The property was known as the "Dry Ranch" and it had the name of being unproductive. It consisted of 80 acres. The first year of Mr. Albee's possession was a dry year and he lost everything he had planted. He stuck to farming, however, with varying success and later planted the ranch in trees. Several years ago he sold half of the ranch for \$30,000, and the remaining 40 acres is estimated at a like valuation.

Yakima Valley Fish and Game Protective Association has been organized at North Yakima, Wash., with fifty members and these officers: President, C. D. Hessey; vice president, Frank Bryant; secretary-treasurer, R. T. Hull. Mr. Bryant, who is County Game Warden, State Senator Frank Allen, Floyd Hatfield, J. B. Braden, H. L. Hull and Ned Whitby spoke of the necessity of preventing fish slaughter.

SPANIELS FOR SHOOTING.

Touching on the training of spaniels for shooting purposes, Mr. R. Clapham, a well-known English authority, says: The chief rule to remember in teaching a dog to retrieve is to make him understand one thing at a time, making sure that he learns his first lesson thoroughly before advancing him to the next. In the old days a dog worked mechanically and in fear, after a course of so called "berking," whereas the carefully trained dog today works because he likes it, doing his work cheerfully because he is not afraid.

Retrieving may be taught to puppies when quite young, and the following method will be found to work satisfactorily. You can teach the puppy out of doors or in an empty room equally well. Sit down and pet the puppy; use a soft ball or a pad of some kind, and, as if in play, throw the latter some distance away, and order the whelp to "fetch it." Very soon the puppy will chase the ball and bring it to you repeatedly, but will be averse to letting go of it with his mouth.

Do not on any account attempt to pull it away from him, but pry his jaws loose by inserting the thumb and pressing his lips against the teeth, at the same time saying "Dead" or "Dead bird!" After this first lesson is learned, and the dog retrieves properly, a dead bird or the wing of one may be substituted for the ball. When he retrieves correctly his lessons may commence at the water side.

Choosing a shallow place, throw in the ball or other object just far enough so that the puppy must wet his feet to reach it; and by degrees this distance may be lengthened, until he will begin to like the water and will retrieve from any distance. Fondle and pet him when he works well, and occasionally give him a piece of meat or other tit-bit as a reward for work done extra well. If you have reason to punish him for wrong-doing, do it when in the act, if possible, so that he knows why you administer it. If you cannot reach him until a long interval has elapsed, it is better not to punish him, for if he has forgotten the nature of the offense he will not, of course, understand why he is receiving chastisement.

Never, on any account, give in to the dog; always make him do what he is told, for he must understand that it is his duty to obey, and not follow his own inclinations. Under this natural system of tuition a dog will invariably do what you expect him to, for his lessons are gradually but firmly instilled into his mind. A spaniel should be taught to drop at command, spot and wing, especially if he is to be used as a duck retriever. A few lessons will teach him this. When the pupil is being put through his lessons let no one but the bandler be present, and be sure there are no other dogs anywhere at the time to distract attention.

OUTING OF SANTA CRUZ SPORTSMEN.

The members of the Ben Lomond Gun Club will go down in the sporting history of Santa Cruz county as the most successful and thoroughly hospitable hosts yet heard of in that part of the State. All of which will be gladly testified to by any one of the 250 or 300 persons who assembled on the gun club's preserves Sunday, March 31, and were entertained and fed by the Ben Lomondites in grand style.

The regular meeting of the Santa Cruz County Fish, Game and Forest Protective Association was held at Ben Lomond and the members of the Boulder Creek Gun Club were also in attendance at the big event. The meeting of the game protectionists was not a very long or a very spirited affair, for the good reason that every one was hungry for something to eat and for the trap shoot which followed the spread.

Secretary Blodgett, of the county association, described the meal at Ben Lomond in a few words to Joe Rice:

"Never anything before like it in this county," said Blodgett. "We had bullshead, Spanish beans, coffee and plenty of everything else, and then some—and everything was cooked great."

The sportsmen lined up before the gun club's new set of traps on the shooting grounds and banged away at the flying clay pigeons for several hours. And, by the way, experts who were present Sunday pronounced the new trap equipment and the shooting arrangements of the club as ideal in every particular. J. L. Haynes proved to be the best marksman of the Santa Cruz delegation, breaking 23 birds out of 25.

To Charles Hartman and W. F. Silvey, the latter being secretary of the Ben Lomond Gun Club, much credit must be given for the very delightful day enjoyed by the crowd at Ben Lomond yesterday. Hartman was the chef of the jungle feed and was the recipient of many kind remarks as well as the more real appreciation of being able to gaze on empty dishes at the conclusion of the feast. Silvey was his usual tactful self, making every one feel at home and managing things generally.

One hundred thousand, of a half million eastern brook trout to be planted in the Spokane river this spring, were liberated near Natorium Park on April 1. Small mouth bass, silver bass, crappies and blue gills are to be planted in the lakes of Spokane county.

Drink Jackson's Napa Soda.

SACRAMENTO FLY-CASTING CLUB.

Enthusiastic followers of the sport of fishing in Sacramento are considering the organization of a fly-casting club in preparation for the coming of the 1915 Exposition, when there will be international fly-casting contests held in San Francisco. Sacramento experts and there are a few there who are experts—want to get in on the game in ample time to brush up and get the proper amount of "reach" and "wrist" into the casting arms.

State Fish and Game Commissioner Frank Newbert, who is president of the Commission, Flood Flint, who has a prominent member of the San Francisco Club among the fly-casters for several years; George Neale, Sacramento Fish and Game Warden; George N. Randle, city engineer, and others are interested and a meeting will be held next week for the purpose of organizing.

Newbert, Flint and Randle have been casting about for a suitable place to hold fly-casting matches and Southside Park Lake has been selected. It is an ideal spot, with a smooth water surface, easily of access and surrounded by expansive lawns which can be divided off into courts for land casting.

It is expected that before the international contests are held at San Francisco, several State elimination contests will be held, and Sacramento casters expect to get in on these. It is probable that Sacramento will be the scene of one or more State championship contests after the club gets started in good shape.

ANGLING NOTES.

Fifteen hundred miles, if not more, of most pleasing trout-fishing waters is the heaven of angling possibilities extended to thousands of Waltonians this season from the first of the month on. Not only that, but the fishing conditions have been most favorable. The main streams and creeks have just about enough water to enable comfortable wading up or down stream, as the angler chooses.

The game of fishing from the bank may be all right when the banks are favorable, but ordinarily the trip is an arduous one, the climbing and twisting, dodging around or avoiding brush and trees, and the thousand and one gymnastic tricks attendant on a fly-whipping jaunt along the stream, may be liked by some strenuous fishermen, or gingerly accepted when unavoidable; but your true angler is never content unless he feels the cooling current of the stream coming within an inch or two of the top of his waders or hip boots.

Some of the orthodox rod wielders feel rather disappointed if they do not get more or less wet or an actual ducking—these incidents, of course, ensuing while playing a big trout; otherwise things are said that don't sound nice.

The Truckee river is now better provided with fish ladders in California than ever before. The coming season in the mountain streams, starting May 1st, will find the Truckee ready for the fly-caster on the opening day, a condition not apparent for several seasons past. This grand trout stream is low and clear at present, and in as good fishing condition as the most ardent angler would wish.

Fly fishing in Coast streams, two weeks before the steelhead season opened on April 1st, was an unusual condition for the disciples of rod and reel. Such have been the favorable condition of the sport for the past four weeks. Warm weather brought out insect life over the creeks and rivers and the trout have been partaking of bug food.

In the tidewater lagoons before the opening day, many fish were caught with the fly. On most of the streams, since the 1st, the fly has also been an effective lure.

Alameda creek, in Santa Clara county, is known as Smith's creek, and the latter section has long had a good reputation with the angling fraternity. Dr. B. F. Alden of this city was one of the first of a party from Smith Creek Hotel to count a limit basket. A large number of other anglers also had excellent sport. Most of the other fishing creeks in the Santa Clara valley have furnished fine sport. The Santa Ysabel is not on the list. This stream is too low for good results. Coyote creek has turned out a number of baskets of ten to twelve inch trout. The Los Gatos, from Wrights station down, is at present fishable.

Alameda creek and its branches, in the vicinity of Sunol, is well spoken of. Plenty of water and enough fish ladders to give the trout a chance to get up stream have put that section on the angling map.

Among the piscatorial prizes taken in Pescadero creek and the tide water lagoon, were a large steelhead trout scaling eight pounds and a salmon grilse of three and a half pounds weight, these two fine fish flanked by trout catches of nine to twelve inch fish. Some anglers had limit catches in two hours fishing.

San Francisco anglers at Pescadero were: D. J. McCoy, S. A. McCoy, Dr. J. Green, Dr. G. McDaniel, Dr. E. L. Howard, Ralph Lacon, Chris. Morehouse, M. Dunbar, George Hatch of Oakland, D. E. Reid of Rochester, N. Y., C. E. Towne of Santa Cruz, W. B. Benoist of San Mateo, Wilbur Fry, Arthur McCormick and Vic Dotts.

Jack Boshoff of Pescadero, states that the fishing has been the best in many seasons and promises to keep up the reputation of this old time favorite stream for some time.

All of the many anglers who were on the banks of Purissima creek the opening days, Monday and Tuesday following, caught trout, about a dozen limits

being on the list. According to Pete McRae the best fishing was due on Wednesday, so many anglers for the previous two days were along the stream that trout were stepped on, the crop of cripples next day were plentiful and easy to capture.

Ed Schultz, P. F. McRae, M. Walsh, Fred Franks, Phil Gonzales, Baron von Breidenstein, Fred Doak, Frank Monahan, Friend O'Reilly, Miss Clark, Herman Butz, Ed Snyder, Dr. F. Rudolph, George Rudolph Jr., Hal Craigie, Fred Campbell and others were among the first footers on the creek. June Batten and wife and Ralph La Coste filled in a three days' visit during the past week.

The main San Gregorio creek has also put in a strong bid for the angler's favor. The upper tributaries, La Honda, Alpine, Harrington and other creeks, all good early streams, providing there is enough water, are not particularly inducing this season.

Howard Vernon, Joe C. Meyer, E. Conlon, Frank Marcus, Mr. and Mrs. R. Wilson, Mr. and Mrs. Emil Arset, Will Eaton and others had fair opening day luck.

The Tunitas Glen creek first anglers report good sport during the week. Ben Cohen, Harry Skirm, Joe Dober, Charles Reynaud, Ed Herring, Stanley Gerard and others were on the creek.

Waddell creek, farther south, is reported to be in fine condition, and fair sized fish plentiful enough to warrant a well-equipped, deft angler in trying that water. J. Bernstein of Santa Cruz is credited with a limit basket of nice sized fish, taken the first day in less than an hour.

Al M. Cunning devoted the opening days to the Klamath river, near the Hot Springs, a trip the veteran angler has not missed for many years. The river is in good fishable shape, and the many fine creeks near by are now ready for the fly fisherman. Furthermore, the weather has been far milder than generally prevails so early in the season.

The Paper Mill creek, in Marin county, was fished Monday, April 1 from Lagunitas down to Garcia. Many fishermen went up to different points on the stream the day before so that an early start on the creek could be made on the opening morning. Del Cooper, Dr. L. T. Craz, and Harry Thompson fished from Taylorville down. Each reeled the limit. Every day since, numerous fishermen have tried the creek, generally with good results. Thursday, of last week, however, was an off day, a north-west wind putting a crimp on the men wading down stream in quest of trout.

W. J. Street began operating early one morning on Nicasio creek. He found low water conditions and few fish in that confluence of the Paper Mill. Making a shift to Lagunitas creek, the pleasing change of enough water and numerous fish was appreciated. The blue upright and Williams cowdung flies were soon changed to another cast made up of a brown hackle and black gnat. The trout rose to these flies but were too coy or uneasy to be hooked.

The afternoon was devoted to a trip down stream as far as Garcia. A royal coachman and a professor for a dropper proved a very effective combination of flies. From Camp Taylor down, at different pools and reaches, enough nice-sized trout were taken to count the limit basket. Olema creek is reported to be very low this year.

The creeks reached via Cazadero or Duncan's Mills have been great favorites with anglers in past years. Near Duncan's, Austin creek is usually worthy of a trial. Louis Gotthelf and Manuel Cross tried this water on the opening day, but soon gave up; the fish were few and small. Taking a buggy trip to Russian gulch, nine miles away, their judgment was rewarded with much sport and two baskets of ten to twelve inch trout.

Jack Lemmer and Dave Harefield have had excellent fishing in the Salmon Creek lagoon. A party composed of Lemmer, Ned Bosqui, Duke Orndorf, Harry Samuels, C. J. Thornton and Col. James Sellers, landed fifteen fine steelhead from the tidewater lagoon last Sunday. These fish were nearly all fresh run and scaled from twelve to three pounds.

A petition with over 600 signatures was recently filed with the Sonoma County Board of Supervisors, requesting the board to declare Salmon creek, in the western part of the county, a public fishing water in accordance with the new law providing for such action. The stream is open to anybody several miles above this lagoon. It is but nine miles long and the upper reaches are not overly good fishing ground, however.

Sonoma county streams were well prospected April 1. Many limit catches were reported before afternoon. For several weeks the fishing resorts of the county will be well patronized by fishermen, and a few deputy fish and game commissioners will mingle with the crowd just to see that fishing baskets are not put to an overlive capacity.

Game Warden Walter Welch of Santa Cruz county writes that nearly everybody who has fished the main streams of the county since the opening day has caught plenty of trout. The usual answer to the general query, "What luck?" has been: "I caught the limit."

"The fish that have been caught are of a very fair size, and I am of the opinion that the fishing in the lower reaches of the main streams will be good for at least the next two weeks and perhaps longer."

San Lorenzo river from Boulder Creek down to Santa Cruz city has been well fished since April 1. The trout are plentiful in the main creeks, and the water is in fine condition for fly-fishing, although hundreds of trout have been caught with spawn and angleworm baits; nor has the spinner been ignored

as a lure. The trout this season are above the average size, and now and then a big fellow is hooked in a pool. Mr. and Mrs. Kirkham Bliss fished from Brookdale to Boulder Creek, each taking the limit, including one huge trout that measured thirty-three inches in length. Frank Messenger and E. Edwards also caught limits in this stream, and for that matter, hundreds of other anglers were also on the limit list during the week.

Soquel creek, from Capitola up, has been a satisfactory stream for the trout angler this week. Joe Meyer, W. Ellery, William Loomis, Joe Meyer, S. Stevens and "Steamboat Bill" represent the California Anglers' Association in the creek today. During the past week Ed Mocker, A. J. Le Duc, Sam Harris, C. W. Rose, I. E. Ray and others connected with limit baskets taken in this creek.

GCCSIP FOR SPORTSMEN.

Hunting Preserve Sold.—An important deal in real estate was consummated recently by G. P. Beere and J. C. Phipps, representing the H. A. McClelland Real Estate Company, of Sacramento, when they sold the property of E. A. Noyes at West Butte to San Francisco and Sacramento capitalists for a sum in the neighborhood of \$160,000. The place consists of 3700 acres of overflowed land along Butte Slough, which is conceded to be one of the best hunting preserves in the State, also 800 acres of farming land, 700 acres of hill pasture, a fine club house, dwelling houses and other buildings.

For several weeks these capitalists have been investigating the proposition, being much taken with the hunting preserve and one day put up a deposit to close the deal. They expect to organize a hunting club, build cottages, etc., for their families and spend a portion of the hunting season there, improving the place in various ways. They will cultivate the farming land.

The Noyes hunting preserves have been famous throughout the Sacramento valley for the abundance of game there and were formerly owned by C. W. Noyes, a wealthy capitalist of Chicago. E. A. Noyes afterwards bought the place operating same with the farming land, which came to him from his father's estate. He has been using the preserves of late year for market hunting.

Quail Plentiful.—Game Warden J. H. Hill was in the Bear Valley section near Hollister last week in the interests of the State Fish and Game Commission. He was detailed to trap a number of quail to be used for breeding purposes at the State Farm near Haywards. Mr. Hill met with no success, as the quail refused to feed on the grain which had been placed in their runs and consequently could not be lured into the traps set for their capture.

The birds displayed no fear of the warden and permitted him to come in close range. The quail are now feeding on the natural grass and the seeds indigenous to that section and paid no attention to the bait offered them.

Quail are very plentiful in that neighborhood, particularly in and around the home of H. G. Bacon. A large flock make their headquarters in his farm yard and mingle fearlessly with the tame fowls.

Deer Tame and Increasing.—A band of sixteen deer was seen recently on the ranch of H. G. Bacon, in Bear valley, within a few yards of Mr. Bacon's dwelling. The deer seemed as tame as domestic cattle on the range and paid little or no attention when members of the family appeared on their grazing grounds. The deer are doing considerable damage to the cereal crops and in many places have almost completely devoured the growing grain.

For many years deer have been quite numerous in this locality, but on account of the numerous California lions that infested that section, the deer disappeared for quite a while. Several lions have been killed there lately and since the big cats have been thinned out the deer have returned to their old haunts. With the nucleus now in the vicinity, the passage of a few years should find them as numerous as in the days of old. However, the Hollister Advance states: We would advise hunters to keep away from this place as the deer are carefully guarded and any infraction of the law will meet with summary justice.

Miners in the Salmon river country in central Idaho, report that as a result of the deep snow in the mountains big game has been at the mercy of cougar and coyotes, saying that the first mentioned killed more deer during the first ninety days of 1912 than all the hunters in that vicinity last year. It is a habit with the cougar to bury the deer after killing it, and await a time when it is needed. The heavy snow has made it impossible for cougars to find the deer buried, and as a result much more game has been sacrificed to stay the pangs of hunger.

The Rod and Gun Club of Colville, Wash., was organized recently with these executive officers: President, Dr. W. F. Diffenbacher; vice president, Dr. L. B. Harvey; secretary, L. G. Keller; treasurer, C. L. Baker; captain, Dr. L. H. Kerr; assistant captain, W. B. Dingle. The club will co-operate with the commissioners of Stevens county in securing stock for its streams in the county, and consignments of trout will be placed in the Haller creek and Mill creek as soon as they come from the hatchery. The club plans to own grounds for trap shooting.

AT THE TRAPS.

Nearly 100 trap shooting clubs are in commission in this State for this season's blue rock shooting.

In and around San Francisco the average has been, since the season opened, about 75 guns out for the Saturday afternoon and Sunday shoots.

The Golden Gate traps are open for practice every Saturday afternoon, saving the second Saturday in the month, when the Traffickers are dated to burn powder.

Two Sundays, the second and third, are filled for two regular club shoots. These grounds are well appointed and easily reached.

The Exposition City Gun Club regular club shoot comes off the fourth Sunday of each month. Other Sundays, and particularly Saturday afternoons, squads of shooters indulge in practice shooting. Last Saturday a large delegation of The Family Club were at the Presidio traps. The Family traps near Redwood City have been overhauled and put in working order by Billy Murdock, weekly shoots at The Family farm will now be in order.

Easton Gun Club shoots come off one Sunday and one Saturday afternoon each month at the San Mateo shooting grounds.

So taking it all in all the blue rock sport never started under better auspices or encouragement in this State for more than 10 years past.

The Newman Rod and Gun Club announces a two day tournament to come off April 27 and 28.

Saturday's card calls for 10 events, all 20 targets, except the ninth, a three-man team shoot at 25 birds. Event 1 is a merchandise shoot, two prizes. Events 2 to 8 inclusive, each have \$10 added money, percentage or class system, four moneys. The team race, \$10 added, two moneys, 60 and 40 per cent. Event \$10, \$20 added class system, four moneys.

Sunday's schedule has 11 events, the first merchandise, second to ninth \$10 added money; tenth, \$20 added money. Event 9 is at 25 targets. Event 11, five-man-team race, high "pros." vs. high amateurs, 50 targets per man. Charley Huber and E. R. Dixon are the committee in charge.

California Wing Shooting Club members, who shot in the club pigeon matches at Stege last Sunday, experienced variable weather during the powder burning. The morning was fair and clear, the afternoon was overclouded and windy.

C. C. Nauman, shooting from the 33 yard mark in the morning medal shoot, stopped every bird trapped. Six men who grassed but eleven birds out of the dozen were in the pool division of the club purse. E. R. Cuthbert had the bad luck to lose one bird over the 50 yard boundary fence.

In the afternoon purse shoot E. L. Schultz, 30 yards, and J. T. Connelly, 26 yards, each scored straights and divided first and second money. Nauman, 31 yards, was the only eleven man in the match. C. A. Haight and T. D. Riley each lost two birds "dead out."

Following the regular club events, the usual six-bird pool shoots, 30 yards rise, filled out the afternoon. The scores were:

Forenoon medal race, 12 pigeons, \$50 added, three moneys, high guns, distance handicap—

Table with 3 columns: Name, Yards, Score. Includes C. C. Nauman, T. D. Riley, E. L. Schultz, T. Prior, Gregg, H. Stelling, E. R. Cuthbert, E. Turner, F. W. Munday, M. R. Sherwood, P. J. Walsh, C. A. Haight, Captain Du Bray, J. T. Connelly, George Thomas, Berthel, W. A. Simonton.

Afternoon purse race, 12 pigeons, \$50 added, three moneys, high guns, distance handicaps—

Table with 3 columns: Name, Yards, Score. Includes E. L. Schultz, J. T. Connelly, C. C. Nauman, T. D. Riley, C. A. Haight, W. A. Simonton, F. W. Munday, T. Prior, M. R. Sherwood, Gregg, P. J. Walsh, F. Turner, G. Thomas, Captain Du Bray, E. R. Cuthbert, H. Stelling, Berthel.

Pool shoot, 6 birds—Haight 6, Turner 5, Simonton (birds only) 5, Munday 6, Prior 6, Nauman 5, Cuthbert (birds only) 5, Walsh 4, Sherwood 6, Gregg 5, Stelling 6, Connelly (birds only) 5, Du Bray (birds only) 5.

Pool shoot, 6 birds—Haight 4, Turner 6, Simonton (birds only) 3, Munday 5, Prior 6, Walsh 6, Stelling 2 (withdrew), Sherwood 1 (withdrew), Connelly (birds only) 5, Cuthbert (birds only) 4, Du Bray (birds only) 5, Gregg (birds only) 5, Nauman 6.

Pool shoot, 6 birds—Sherwood 6, Munday 1 (withdrew), Stelling 1 (withdrew), Turner 4; birds only, Cuthbert 6, Connelly 6, Simonton 5.

Crow's Landing has a blue rock shooting club. The opening shoot tomorrow will be featured by a three-man term match, Los Banos and Newman shooters will give the Crows a race.

The Traffic Gun Club was organized Monday with a charter list of twenty-five members. The officers elected were: W. A. Simonton, president; C. H. Lancaster, vice president; W. F. Schmidt, secretary-treasurer; B. K. Smith, field captain; E. J. Naylor, C. H. Lancaster, G. W. Colby, directors.

The increasing popularity of the sport of blue rock trapshooting has found many supporters who desire the opportunity to shoot on Saturday afternoons instead of at the usual club shoots on Sundays.

The opportunity available for the use of the Golden Gate Gun Club grounds in Alameda on the second Saturday of each month led to the organization of the Traffic Gun Club, most of the members being identified with various passenger and freight transportation companies.

The club's initial shoot will take place next Saturday at 2 p. m. Four events at ten, fifteen, ten and fifteen birds will be the regular club program. Three trophies have been offered—the Peters, Du Pont and Selby—for high guns in the different events. A high average trophy will also be awarded to the winner of the high average for the season of seven monthly shoots.

Among the members are: J. R. Hayden, P. L. Poole, William F. Schmidt, Walter Webster, W. A. Simonton, W. J. Webster, J. R. Henderson, F. H. Simonton, Harry E. Jarman, C. P. Kiel, Raymond C. Kiehl, M. G. Drinkwater, E. P. Rawling, A. C. Stubbe, Frank Turner, Leo R. Dickey, C. H. Lancaster, W. B. Townsend, E. J. Naylor, G. W. Colby, B. K. Smith, J. C. Rice and others.

The scores of the Urbita Gun Club for the Easter Sunday shoot are given below.

The club will install another Ideal-Leggett trap and will thus be in shape to take care of a crowd of shooters at the tournament May 15 and 16.

Charley Monaghan came through with a good string, 92 out of 100.

Table with 2 columns: Name, Score. Includes Willis Sr., Draper, Cathcart, Rodden, Monaghan, Allison, West, Kavanaugh, Willis Jr.

The results at the Ben Lomond Gun Club shoot at Ben Lomond Sunday afternoon, when the club was host to many sportsmen at the clay pigeon traps were as follows:

Twenty-five targets—George Van Dusen, 15, 15, 12, 21; H. Turcot, 10, 12, 9; W. J. Caesar, 23, 20; H. Fanew, 20, 18, 19; F. D. Putzer, 14, 14, 18; E. C. Cortelyou 14, 12, 14; G. Gaffney, 17, 11; W. J. Hayes, 0, 4, 5, 6; C. Maddock, 19, 19; F. Quistorf, 12, 21, 19, 20; S. Waltrip, 10, 15; N. Maddock, 20, H. Rueff, 12; J. L. Haynes, 20, 19, 23, 19, 23; O. S. Blodgett, 20, 18, 10, 20; W. H. Lamb J., 10, 6; E. F. Verozza, 17, 19, 21; C. Parodis, 19, 20; F. A. Dickinson, 19, 18; R. Rubell, 20, 19; A. Van Dusen, 12, 12; T. Maddock, 13; G. Rubottom, 8, 12; M. A. Perkins, 18; J. Kober, 13; N. Sinnott, 9; H. Rubottom, 14; J. E. O'Connor, 10, 15; B. Peterson, 19; H. Carpenter, 9; H. R. Sault, 3; W. Silvey, 14.

Ten targets—Humphrey, 5; H. Hessey, 2; J. Kober, 7; J. Triplett, 4; A. Van Dusen, 7; Perkins, 8; Rubell, 4; Blodgett, 6; A. M. Covell, 6; J. E. O'Connor, 4.

Peter Leo Murphy, the well known Petaluma butcher, known in trapshooting circles as "One Barrel Pete," fell from a motor-cycle he was riding near Bodega, Sunday, March 31, and is critically ill with concussion of the brain. For many hours after the accident, he was unconscious. He is being given every attention by doctors and nurses. Mr. Murphy is a former resident of Santa Rosa. He had an awful fall from the machine, his head being dashed against a rock.

Bakersfield is to have a blue rock gun club, according to plans now on foot. W. A. Robertson, representing the Du Pont Powder Company, was there last week and conferred with John Oswald, R. M. Hamilton, A. F. Stoner and other local sportsmen who are heartily in favor of the organization.

Petitions for prospective members have been left at local stores and already fifteen or twenty have signed up. The club will be formally launched in a few days. As a shooting place, it is probable some ground in the vicinity of the ice plant will be leased. There is talk of getting land from Billy Willis who has property in that vicinity.

John Oswald, who was a leading member of the former blue rock club, is an enthusiastic booster for the present one. He says the city is amply able to support a large one. The shoots would be at stated periods and would be made the occasions for a day's outing, with the added feature of picnicking. Besides it is Robertson's statement that Bakersfield should join with Fresno, Los Angeles, Oakland, San Francisco, Stockton and other cities in forming a State association. The movement for a club will undoubtedly gain strength from day to day and the formation of the club is an event of the immediate future.

Although but a few days old, the Fresno Blue Rock Club already has a membership of 56. A committee from the new club secured permission from the county to use the field near the hospital on the Recreation Park car line as the shooting grounds for the organization. It is planned to hold blue rock shoots every Sunday in the near future. It is believed the membership will reach the 100 mark before June 1.

Work was started this week on the erection of a club house on the new shooting grounds, about thirty feet from the car line to Recreation Park and Sunnyside. The club house will be modern in every detail and large enough to accommodate at least 100 members. Traps have been purchased and will be installed this week. Next Sunday the first shoot is to be held and on the twenty-first the scatter gun artists of San Francisco, Bakersfield, Newman, Los Banos and Madera will be invited to come and shoot with the Raisin City shooters.

Secretary Bruner writes us: The Easter Sunday shoot of the Los Angeles Gun Club was very well attended, there being twenty-six shooters on the grounds and a total of 2400 targets were thrown. J. F. Mallory was easily the sensation of the day with a straight run of 68 targets and a total of 99 out of his 100. R. M. Arnold was close behind him, however, with 96 breaks for the 100 shot at.

E. H. Bobring decided that he was a better double shot than he was a single target smasher. He broke 39 out of 22 double rises.

The honors in the Peagans' trophy shoot, event 2, were divided by R. M. Arnold and Wm. Pugh, with 24 out of 25.

In the prize shoots, Class A was won by S. W. Trout, J. F. Mallory and J. R. Converse, these three members breaking straight scores of 25. Class B was also won with a 25 straight by C. D. Hagerman. Class C was won by George Middleton with 23. Class D fell to C. E. Groat with 18. The scores in four 25 target races were:

Table with 2 columns: Name, Score. Includes Pugh, Smith, Arnold, Taber, Knight, Middleton, Schless, Van Valk'n'b'g, Hagerman, Bruner, Growell, Miller, Converse, and Events 1-4.

Scores of the Vacaville Gun Club shoot in the Du Pont trophy event, 25 targets, bird handicap allowance, on Sunday, April 7, were the following:

R. Chandler shot the high handicap score, 30, F. Reams and H. A. Bassford made 28. Chandler also made the best score, 22 out of 25, outside of the handicap allowance.

Table with 2 columns: Name, Score. Includes Dr. J. D. Wirt, Chas. Gopin, E. H. Ream, L. De Bruin, R. T. Gates, H. A. Bassford, H. Schielke, F. Reams, Chasss Pierson, Earl Lawrence, W. B. Parker, W. Z. McBride, A. Erickson, R. C. Gray, L. Townsen, T. McLaughlin, R. Rippe, F. Costello, R. Chandler, V. Radcliffe.

The Bay View Gun Club, of Alameda, will hold the regular club shoot tomorrow at the Golden Gate Gun Club trap grounds, off Webster street, Alameda.

ANGLERS' OUTING—ANGLERS' BANQUET.

The California Anglers' Association announces the fifth annual field day for Sunday, April 21st at the famous "white house" pool, near Point Reyes station.

A splendid list of prizes is offered for anglers of both sexes. The anglers' special train will leave this city at 7:45 a. m., followed by the regular 8:15 a. m. train to the point.

The San Francisco Fly-Casting Club's club dinner came off at Tai's on Thursday evening. The prize winners for 1911 were announced, and awards made to winners of prizes at the mid-winter tournament. The contest dates at Stow Lake were announced also—all of which and other details will be given at length in our next issue.

Selby Wins at Modesto.

The Owl Rod & Gun Club of Modesto held a two day tournament on March 30 and 31, 1912. As usual Selby Loads were the winners and the honors were divided as follows: High amateur, Mr. Frank Merrill 329 x 350; third amateur, Mr. Henry Garrison, 312 x 350. At practice Mr. Garrison broke 99 out of 100, and Mr. Chas. Haas ran 82 straight, finishing with 96 out of 100. The fact that these amateurs shot Selby Loads proves Selby's claim to superiority on the firing line. Besides these amateur victories Fred Willet was professional and general high average with 330 x 350 or 94 3-10 per cent, and Dick Reed was third high professional with 323 x 330. These scores were also made with Selby Loads which is additional proof of their velocity, penetration and penetration.

Mr. Ike Fisher of Seattle, shooting Selby Loads, recently made 95 1/4 per cent on 400 targets as follows: At Tacoma 98, at Seattle 95 and 96, and at Puyallup 92; total 381.

Drink Jackson's Napa Soda.

THE FARM

HOW TO SELECT A GOOD GRADE COW.

The five points to be observed in the selection of good milking cows from grade or native cows are the prominent ones that will appear in all of the milking forms of the cattle race without regard to breed. We can give these points under numerical heads.

First: Observe with care and note as a first point, that the cow we are now passing upon has a large and ample sized body. Let this body extend from a point just back of the shoulder straight down to the lower part, also let it be included between the line that we mentioned and a line that we call imaginary that will extend from the hook or hip bone straight down to the lower part of the body again. It is an excellent thing if the depth of the body is as strong or stronger at this last point as at any other point that we will call its depth. Sometimes this bodily capacity is composed to a certain extent in the length of the body. In either case we want a large, ample and capacious body. This large body is needed and must appear, for the ample supply of milk must come from much food received and digested within the area that we have noted. This food content is here taken up of a good supply of blood we have a good start in estimating that we will udder where the milk is made.

Second: Look with care behind the fore shoulder and observe if the hock bone is prominent and if that part of the body which is called the crops is scantily covered with flesh; this does not mean that the animal shall be in poor condition; it only means that the animal is not inclined to use this hood to make flesh out of it. Beef cattle are full at this part of the body. We are selecting for milk. We want the ample supply of blood to go to the udder when the milk is made.

Third: Next go to the udder and see if it be reasonably large. Do not depend upon the eye to estimate this size. Many very good udders are contained largely within the body and their size is not apparent. You will see the fore part of the udder be it large or small. Take hold of the skin between the hind quarters. Up to the point where the skin ceases to be as loose as upon the other part of the body we can judge that the udder extends.

One can get a fair idea of the udder attachment to the body by drawing an imaginary line from the point last mentioned to the front udder that we have seen; this will give one a distinct and positive line of attachment of the udder to the body. If that line is long, then we have nature's provision to receive that ample supply of blood that this good body will produce.

Fourth: Now put the hand on what is known as the milk vein which extends from the udder along the lower part of the body to both sides; at the end of this vein will be found a hole through the body wall. This hole should be large enough to take the end of an average index finger; by pressing against the wall of the body for the space of about two inches in a varying direction a second hole may be found that will be about the size of a lead pencil. Look for the return of the veins which take the blood to a very great extent from the udder. Here we have an absolute fact which indicates that the blood makes its circuit through the udder, or gland, where the milk is made. We can safely reason that from this abundance of blood we shall have an abundance of milk.

Fifth: Last of all look and see if the eye of the animal is large and full. This largeness of the eye indicates a strong nerve system. Digestion and milk secretion is the work of the nerve system. The nerve system is the power that drives this animal milk machine.

These five points may be called five degrees in cattle judging. We add a sixth. Use the scales and the Bahcock test, and the cow has been brought to a sure cattle judgment. Any cow that will verify the six points

will prove to be a good milker, unless she has been ruined by bad handling or had feeding.

SURE DEATH TO SQUIRRELS.

W. H. Wolf, a farmer residing in San Joaquin county near the Calaveras line, has given District Attorney Foltz a recipe for squirrel poisoning which he claims has been developed by him after years of experience and brings astonishing results. He uses barley instead of wheat, because, he says, while neither hinds, cottontails nor rabbits will eat barley, if barley and wheat are placed side by side, squirrels will eat every grain of the barley before touching the wheat. He uses the crystal strychnine because it is stronger than powdered strychnine. The recipe is as follows:

Thoroughly pulverize one - half ounce of crystal strychnine. To one ounce of holling water add two table-spoonfuls of cornstarch, mix cornstarch with cold water before adding to holling water; when added to hot water, pour in strychnine, stir until thoroughly dissolved, pour in eight pounds of barley and thoroughly stir. Take three cups of common white sugar, heat with a little water to make a thick syrup, pour syrup over the mixture of barley and let it stand all night uncovered. Put the poisoned barley out in the morning and gather up the dead squirrels in the evening.

Mr. Wolf said that if this poisoned barley is put two feet from a squirrel hole the squirrels will eat it and die on the spot. Squirrels are very fond of the sweetened barley, and Mr. Wolf says he has picked up as many as sixty-five dead squirrels in one day.

The fig is one of the great fruits of California. No orchard can be raised with so small expense as the fig orchard. The importation of Smyrna figs into the United States is increasing annually; this fact demonstrates that there is a large market awaiting the development of this industry in California.

Who could imagine 25 years ago the important place which the fig, the

She also has a filly by Bon McKinney that cannot be beaten. Maud Jay C. is a beautiful mare having color, size and conformation. She is a fine roadster and a lady can drive her. She was bred to Tom Smith 2:13¾ in 1911, but failed to get with foal. Maud Jay C. is registered standard. She was sired by Nearest 2:22½ out of Panny Menlo, dam of Claudius (4) 2:13¾ by Menlo 2:21½; second dam Nelly Anteeo by Anteeo 2:16½; third dam Fanny Patchen (dam of California Nutwood, a sire) by Geo. M. Patchen Jr. 2:27. As a broodmare she is destined to be one of the greatest if her four foals are any criterion. I will price her very reasonably. For further particulars, address T. W. BARKSTOW, Driving Park, San Jose, Cal.

DISPERSAL SALE.

I must move owing to the sale of my property, consequently must dispose of all my horses, a list of which follows:

Zomsteln, a very handsome four-year-old bay pacing stallion by the great Zomro 2:11; dam by Steinway. He has had very little work, but can pace halves in 1:06 and quarters in 31½ seconds. This fellow is sound, gentle, and is a good-gaited, good-headed horse and will do to race.

Zomie Secretary, a two-year-old black trotting colt by Zomro; dam by Secretary, is well staked and will do to spend some money on. He has been a mile in 2:45, last half in 1:20, last quarter in 37¾ seconds. This fellow is entered in all the stakes on the Pacific Coast.

A yearling, full sister to Zomie Secretary, is a very handsome baby and is also staked throughout the West.

Zomie Gray, two-year-old gray colt by Zomro; dam by McGrath, has been a quarter in 40 seconds and is also staked.

High Pride, a very handsome stallion by Judge McKena, out of Whisper (dam of Zomro 2:11), is as handsome as his dead brother and acts like as good a trotter.

A yearling, full sister to Lady Garland, three-year-old, trial 2:14½, and five weanlings by The Bondsman, Zomro, etc.

For further particulars, prices, etc., address GEO. T. BECKERS, 3727 So. Figueroa St., Los Angeles.

PUBLIC TRAINING STABLE.

Al. Russell, Los Angeles, Cal.

I have decided to make my home in Los Angeles, Cal., and will conduct a Public Training Stable. I would be pleased to meet or correspond with parties having horses to train or race. My stable is located on Menlo avenue, between 38th and 39th streets, one-half block from the New Exposition Track. This year I will race my horses through the Canadian and Pacific Circuits, starting about June 1st. AL. RUSSELL 910 W. 39th St., Los Angeles, Cal.

GOOD ONES FOR SALE.

PAL (2) 2:17½, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (3) 2:20) by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24½ made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no hoppers. By Palite 45062; dam Babe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; a good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15½; second dam a producer by Anteeo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOULIA, a standard bred 4-year-old filly by Nushagak, sire of two 2:10 performers, dam by Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15¾) by Ansel; third dam Mayflower 2:30½ (dam of Manzanita 2:16 and Wildflower) by St Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in all of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address E. D. DUDLEY, Dixon, Cal.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/4.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/2, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

Take the Breeder and Sportsman.

SAVE-THE-HORSE

TRADE MARK REG'D.

Is Your Horse an Expense or a Profit?

This is Business Logic From the Word Go.

Results must be measured by actual resistance when the endurance tests and ordeals occur. Can you say that your horse is cured to this extent?

Depend upon it—with Save-the-Horse there will be no relapses or breakdowns when the endurance tests are made.

Save-the-Horse make weak legs strong; it will cure to stay cured. If you have a doubt about the condition of your horse's legs to stand racing use Save-the-Horse and you will not need to worry.

PEOPLE'S NATIONAL BANK.

Gallatin, Tenn.

January 27, 1912.

Troy Chemical Co., Binghamton, N. Y.:

Gentlemen: Having obtained satisfactory results by using Save-the-Horse for curbs and windpuffs, will ask that you forward me a bottle to use on a badly sprained ankle that has been blistered for a number of times without having any effect. Enclosed find New York exchange for \$5.00 in payment.

I have used Save-the-Horse several times and have always secured a complete cure.

Very truly yours,

W. H. HITCHCOCK.

C. E. CRONHAM, JR.,

157 Chambers Street,

New York, Feb. 19, 1912.

Troy Chemical Co., Binghamton, N. Y.:

Dear Sirs: Being a subscriber of the Trotter and Pacer, I have read your advertisement many times; about one month ago I purchased a bottle of Save-the-Horse to use on a draft horse that hurt his ankle and could not stand on it, or would not put the foot to the ground. In six days he walked good and sound, and I am very well satisfied with the quick results I obtained from its use.

I note in your advertisement that you publish a book on all kinds of lameness. I would be pleased to receive one. Yours truly,

C. E. CRONHAM.

For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it undoes the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

BOOKS FOR STALLION OWNERS

1. Hoover's Stallion Service Record.

The most complete book for recording stallion services ever placed before breeders. Not a pocket edition. No more disputing of sires. No more mixing of dams where this book is used. There is space for entering 100 mares, giving their full breeding, description, dates of service, dates of foaling, etc., with index, complete, size 10x7½. Each book is handsomely and substantially bound.....\$2.00

2. The Standard Stallion Service Book.

The neatest Service Book published, containing space for entering 100 mares, giving space for full description, pedigree, date of services and refusals, date of foaling, etc., with index complete, neatly bound in leatherine, suitable for pocket use.....\$1.00

3. Breeder's Note and Certificate Book and Stallion Service Book Combined.

This book contains 75 blank certificates to be given to owners of mares, certifying that said mare has been bred to a certain stallion. Also 75 notes suitable for owner of mare giving to owner of stallion on account of stallion service fee. This book is well bound, and makes a book like No. 2, after certificates and notes have been removed.....\$1.00

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11¼, out of Helena 2:11¼ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16¼ (sire of Copa de Oro 1:59, John A. McKerron 2:04¼, Happy Dentist 2:05¾, etc.); second dam Novelist 2:27 by Norval 2:14¼; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address

J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07½, the only other one of her get ever trained) by McKinney 2:11¼; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11½, Yolande 2:14½ and Tina 2:20¼) by Guy Wilkes 2:15¼; third dam, Moscovita 2:28½ (dam of Mamie R., 3-y.-o., 2:15½, and Oro Belmont 2:15½) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59¾.

Dam Effie Logan (dam of Sir Albert S. 2:03½; Jim Logan 2:05¼, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Duffee 1:25½ (sire of Shecam 2:12½ and 2 others, and of Capt. Hicks sire Edwin S. 2:08 etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08½, etc.); 3rd dam Grace (dam of Daedalion 2:08½, etc.) by Buccaner, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15½ hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood that Produces Champions!

BLACK HALL 48645

Brother in blood to **The Harvester 2:02**

Sired by **Ozono**, trial (2) 2:17½, sire of **Norvalon** (4) 2:22¼) by **Moko** 24457 (sire of **Fereno** 2:05½, **Brenda** York 2:04¼, **Native Belle** (3) 2:06½, and the dam of **The Harvester** 2:01. First dam **Maggie Yeager** (dam of **Walnut Hall** 2:08¼, sire of **The Harvester** 2:01, etc.) by **Red Wilkes** 1749; second dam **Docia Payne** (great broodmare) by **Almont** 33.

Black Hall is a very handsome black horse, standing 15½ hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. TERMS: \$50 for the season; usual return privilege. California Stallion License. Pure bred.

ATHADON 20990

Rec. (1) 2:27

Sire of **The Donna** 2:07¾, **Athasham** 2:09¼, **Donasham** 2:09¼, and 15 others

Sired by **Matadon** 9392, sire of **Athadon** (1) 2:27, etc. First dam **Athalle** (dam of 7) by **Harkaway** 11808; second dam, **Mag** by **Alcalde** 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of **Kinneysham** (2) 2:18½, winner 2y-o pacing division Breeders' Futurity

Sired by **McKinney** 2:11¼ (sire of 23 in 2:10 list).

First dam **Palavena** (2) 2:19¼, also dam of **Mendovena** 2:19¼ and **Menlo** 2:29¼, sire of **Blanche R.** 2:06½, by **Palo Alto**, rec. 2:08¾, Reg. No. 5354, he by **Electioneer** 125; second dam **Astoria** (dam of **Palavena** (2) 2:19¼ by **General Benton** 1755; third dam by **Kentucky Prince**, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15½ hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. TERMS: \$25 for the season; usual return privilege. California Stallion License No. 126. Pure bred.

These horses will make the Season of 1912 at **FRESNO, CAL.**, at **Geo. L. Warlow's ranch**. Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **GEO. L. WARLOW, Fresno, Cal.**

NOGI 2:10½

Reg. No. 57383 Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and neverbeaten as a 3 year old.

Sired by **Athalo** 2:24¾. First dam **Cora Wickersham** (dam of **Athasham** 2:09¼, **Donasham** 2:09¾, **Nogi** 2:10½, **Mattawan** (3) 2:17½, **Kinneysham** (2) 2:18½) by **Junio**; second dam by **Whippleton** 1883; third dam by **Gladiator** 8336.

Nogi 2:10½ is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madera, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.**

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By **Allerton** 2:09¼, **Jay Bird's** greatest son; dam **Exline** 2:18¼ (dam of **Riverside** (3) 2:30 and **Rinola** (3) 2:30) by **Expedition** 2:15¾; second dam **Euxine** (dam of 6) by **Axtell** 2:12; third dam **Russia** 2:28 (great broodmare) by **Harold** 413; fourth dam **Miss Russell** (dam of **Maud S.** 2:08¼ and 8 others), etc., etc. **Best Policy** is a handsome bay, has size, style and quality in every respect. Is a pure-galting trotter. No better bred one in California. His progeny will be seen in races this year.

FEE: \$50 for the Season. Usual return privilege.

LIFE POLICY

4 years old; handsome bay stallion, with black points; stands 16 hands; weighs 1190 pounds. Sired by **Best Policy** 42378; first dam by **Boodie** 2:12¾; second dam by **Silver Bow** 2:16; third dam by **Antevio** 2:18; fourth dam by **Nutwood** 2:18¾; fifth dam by **Williamson's Belmont**. This horse was worked a short time as a two-year-old and trotted a half in 1:10, eighths in 16 seconds.

FEE: \$25 for the Season. Usual return privilege. Money due July 1st.

Season of 1912 at my feed stable, corner of **Bridge and Center Streets, VISALIA, CAL.**

After the season is over these two horses will be taken to the races this year. Good pasturage at \$2.50 per month, and the best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **R. O. NEWMAN, Box 575, Visalia, Cal.**

M. Patchen Jr.** 2:27. **Nearest McKinney** is one of the handsomest McKinneys standing for public service. Color beautiful brown, 16 hands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14¼ and in 1911 got a record of 2:13¼, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address **T. W. BARSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.**

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by **Mr. Ted Hayes** at the State Fair.

NOBAGE 48390 is by **Bon Voyage** 2:08; dam **Loma B.** by **Stam B.** 2:11¼; second dam **Italia** (great broodmare) by **Sidney** 2:19¼; third dam **Dot** 2:29 by **Prompter**, sire of dam of **Gratt** 2:02½. **Nobage's** first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Will make the season of 1912 at **EASTERBY RANCH**, 3 miles east of **FRESNO, CAL.** TERMS: \$50 to insure. Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

Athasham

Race Rec. 2:09½, Reg. No. 45026.

A Game Race Horse In the Stud

Bay stallion; stands 15½ hands; weighs 1150. Sired by **Athadon** (1) 2:27 (sire of **The Donna** 2:07¾, **Athasham** 2:09¼, **Donasham** 2:09¾, **Sue** 2:12, **Listerine** 2:13¼, **Mattawan** (3) 2:17½, and 8 others in 2:30); dam the great broodmare **Cora Wickersham** (also dam of **Nogi** (3) 2:17½, (4) 2:10¼, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and **Donasham** 2:09¾ and **Kinneysham** (2) 2:18¾), by **Junio** 2:22½ (sire of dams of **Geo. G.** 2:05¼, etc.). **Athasham** has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06¼ in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at **Orchard Farm and Race Track, Fresno, Cal.**, for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place. **D. L. BACHANT, R. R. 1, Fresno, Cal.**

The Jay Bird-Baron Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by **Jay Bird** 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam **Alma Wilkes** (dam of 2) by **Baron Wilkes** 2:18; second dam **Almeta** 2:31 by **Almont** 33; third dam **Alma Mader** (dam of 8) by **Imp. Australian**, etc. **Alconda Jay** sires size, style and good looks.

His colts are fast, natural trotters. **Alconda Jay**, dark brown stallion, stands 15½ and weighs 1150 pounds. He was bred at **Maplehurst Stock Farm, Paris, Ky.**; foaled in 1905.

Will make the Season of 1912 at

THE SALINAS FAIR GROUNDS, SALINAS, CAL.

TERMS: \$40 the Season. Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. **H. H. HELMAN, Salinas, Cal.**

KING S. (Trial) 2:15

Sire of Maurice S. 2:07¼

Sire, **Silver King** 3622; dam **Maud** by **Brigadier**; second dam by **Owen Dale**.

King S. is one of the handsomest stallions on the Pacific Coast. He has size, style, speed, is a sure foal-getter and has every qualification to make him one of the greatest of sires. His oldest and first colt trained is **Maurice S.**, one of the most consistent race horses in California last season, and five others, now being handled at the **Marysville** track, show remarkable speed.

King S. will make the Season of 1912 at the **J. STRAIN RANCH**, 10 miles north of **MARYSVILLE, CAL.**

FEE: \$50. Usual return privilege. The best of care taken of mares at \$2.50 per month, but no responsibility assumed for accidents or escapes. For further particulars, address **J. E. STRAIN, Marysville, Cal. Box 514.**

McADRIAN 2:24

Reg. No. 45391.

Sire of (Bert Kelly (trial) 2:11½, Trux McAdrian 2:23¾, Grace Chalmers (trial) 2:24)

Sired by **GUY MCKINNEY** (sire of **Vernon McKinney** 2:02, **Linden** 2:22, etc.); dam **MAPLE LEAF** 2:34¾ by **Adrian** 2:26½ (sire of **Roseta A.** 2:14¾), son of **Reliance** 2:22½ and **Adriana** by **Skenadoah**; **McAdrian's** grandam was **OLLIE RAY** 2:39¾, dam of **Acclamation** 2:24¾ (sire of **Lizzie C.** 2:15), **Vendome**, dam of **McKinley** 2:29; his great grandam was **MARY BLAINE** by **Signal** 3:27 (sire of the dam of **Prussian Maid** 2:19, etc.). **Guy McKinney**, sire of **McAdrian** 2:24, was by **McKinley** 2:11¼, out of **Flossie D.**, by **Guy Wilkes** 2:15¼; second dam, **Blanche Ward** (dam of **China Maid** 2:05¼), by **Onward** 2:25½; third dam, **Blanche Patchen**, by **Mambrino Patchen** 58, etc.

McAdrian is one of the handsomest and strongest made grandsons of **McKinney** in California. He has no faults; is a pure galting trotter and a sure foal getter. He will make the season of 1912 at the **Pleasanton** race track. Terms, \$30 for the season. For further particulars, apply to or address **E. D. DIGGES, Owner, 743 E. Anderson St., Stockton, Cal.**

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641
SIRE OF
Colorado E. (3) 2:04 3/4, champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.
The Plunger (4) 2:07 1/2, second fastest stallion of 1910.
Grace Bond (3) 2:09 1/4, winner both divisions of Kentucky Futurity.
Creighton 2:08 1/4, record made in 1911.
and 31 others.
Half brother to Jay Hawker 2:14 1/4, sire of Country Jay 2:05 1/4, Susie Jay 2:06 1/4, etc.
Half brother to The Tramp, sire of Bervaldo 2:08 1/4, Trampfast (2) 2:12 1/4.
Half brother to Sorrento Todd (4) 2:14 1/4, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18.. Sire of 12 in 2:10, including Bumps 2:03 1/4, Rubenstein 2:05, Bar-on May 2:07 1/4; sired dams of 4 in 2:10.
SORRENTO .. Dam of Jay Hawker 2:14 1/4, Sorrento Todd (4) 2:14 1/4, Belle Sen-tinel 2:15, Pola 2:19 1/4, Lazy Bird 2:26 3/4, Ted-dy Sentinel, 2:29 3/4, The Tramp (sire), etc.
4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10 1/4 in a Winning Race. Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:
Francis J. 2:08 Legal Patchen ... 2:15 1/4 Dorothy C. 2:19 1/4
Evelyn Patchen... 2:10 1/4 Lucile Patchen ... 2:16 Louise Patchen ... 2:19 1/4
Scott Patchen ... 2:12 1/4 Jerry Patchen ... 2:16 1/4 Dr. Warren ... 2:19 1/4
Dessle Patchen ... 2:13 Knightstown Belle 2:16 1/4 Roscoe Blinning ... 2:20
Frank Patchen ... 2:13 1/4 Alec Williams ... 2:18 1/4 Mary Patchen ... 2:20 1/4
Ruby Patchen ... 2:13 1/4 Lols Patchen ... 2:19 1/4 Black Patchen ... 2:20 1/4
J. C. Patchen ... 2:14 1/4 Auduous the Miller 2:19 1/4 and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 1/4 (trotted to high wheels), Anglin Wilkes 2:16 1/4 over half-mile track, trial 2:09 1/4, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913. Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal. A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed. License Certificate 181—"Pure Bred." Sire, Nutwood Wilkes 2:16 1/2, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/4, etc., and 2 dams of San Francisco 2:07 3/4, Mona Wilkes 2:08 3/4, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17 1/4 and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13 1/4, and timed separately in 2:14 1/2, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24 1/4 pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes. For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13

Sire of Futurity Stake Winners. Reg. No. 47700. TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22 1/4, (3) 2:15 1/4, (4) 2:11 1/4, Ella Mac (3) 2:14 1/4, Vallejo Boy 2:15, Eddie C. 2:30. Every one of his colts that has been trained has shown standard speed.

Sire, McKinney 2:11 1/4; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09 1/2 to 2:28 1/2) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege. The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

W. F. WHITTIER, Pres.

BUDD DOBLE, Vice-Pres. and Manager.

THE STANDARD TROTTING STALLION. Stands about 16 hands, handsome, sound, without blemish, stylish, fine individual in every respect. Sired by Demonio 2:11 1/4 (sire of Mono Wilkes 2:03 1/4, Denervo 2:06 1/2, Nordwell 2:03 1/4, Memonio 2:00 1/2, Demonio Wilkes 2:09 3/4, Ben Rush (3) 2:10 1/2, etc., etc.), dam Potrero Girl by Prince Airlie 28045; second dam Moscova 2:28 1/4, (dam of Mamie R. (3) 2:15 1/4, Oro Belmont 2:15 1/4, La Moscovita, dam of Frank N. 2:07 1/4, Bon Guy (3) 2:11 1/4, etc.), by Belmont 64; next dam Mosa (dam of 5 in the list), by Woodford Mambrino 345; next dam Hermosa (great brood mare), by Edwin Forrest. Will make the season of 1912 at CITY STABLES, WOODLAND, CAL.

FEE, \$30 TO INSURE. Usual return privilege. Good pasturage \$2.50 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address CHARLES JOHNSON, Woodland, Cal. Phone 40.

CHESTNUT TOM

Sired by Nutwood Wilkes 2:16 1/4, Sire of Copa de Oro 1:59, Jno. A. McKerron 2:04 1/4, etc. The Wilkes-Nutwood-Director cross. Dam by Director 2:17 2nd dam by Nutwood 2:18 1/4; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont. Record 2:15 Reg. No. 43488. Sire dam of WILBUR LOU 2:19 1/2, Champion Yearling Colt Trotter of the World. The dam of Wilbur Lou 2:19 1/2 is the only one of the get of Chestnut Tom ever raced. Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege For further particulars address I. M. LIPSON, Box 464, Tulare, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

FEE \$40 (cash), with return privilege. Apply or address **F. E. BURTON, McKlaeey Stables, 36th Avenue, San Francisco.**

BALLISTITE

A PERFECT "DENSE" SMOKELESS POWDER

--- FOR ---

Field and Trap Shooters.

Ballistite is a perfect "dense" smokeless powder for Shotguns. It has a moderate recoil which commends it to all shooters.

Shoots clean,—no unburned grains to "blow back." Age does not affect its shooting qualities, which are further enhanced by its waterproof characteristics.

In addition to these essentials of a sporting power, is the guarantee of quality which is assured to every purchaser of Ballistite Smokeless Powder.

110 years as powder makers enables us to combine practical experience and materials in a manner to insure the production being exactly as required and of uniform quality.

Ask your dealer for shells loaded with Ballistite.

Send for Ballistite Booklet No. 99, showing proper loads for various game.

WHILE horsemen throughout Northwestern Canada and the Pacific Coast are anticipating the best season's racing ever given in their territory, the officials of the leading associations which comprise what is known as the Grand Circuit are jubilant over the fact that never since the light harness industry got a foothold in the community has there been such large entry lists. In cities where the gravest doubts were expressed a few months ago as to the success of the meetings, every early closing event closed with a splendid list, and, encouraged by this, greater interest is being taken in the forthcoming race meetings than ever. From the subordinate circuits to the Grand Circuit which have also been advertising these "sheet anchors of hope"—early closing events—the glad news has been flashed across the continent: "every event filled!"

It proves that there are more good horses in train-ink everywhere. At the great training centers of Lexington, Ky., Libertyville, Ill., Memphis, Tenn., Columbus, Ohio, Goshen, N. Y., Detroit, Mich., Syracuse, N. Y., Pittsburgh, Pa., Philadelphia, Pa., Richmond, Va., Readville, Mass., and Hartford, Conn., nearly every box stall is filled, and as the winter and spring months of 1912 have been the coldest and most disagreeable known to the "oldest inhabitant," trainers are taking advantage of the warm spell now prevailing in certain parts of the East by preparing their horses for the coming campaign. In their haste, and with their time so limited, many a good "green prospect," however, will ripen and fall through this speed-forcing process long before the bell rings in the judges' stand.

In Washington, Oregon, California and Arizona, the weather this winter for training horses could not be improved, and trainers have, as a rule, not attempted to "break any watches" in February, but have been content to carefully drive their horses and get them in readiness for the hard work ahead of them, either in the East or on the Pacific Coast Circuit.

There has been a total absence also of epidemics among our trotters and pacers, and, as more attention has been paid to keeping racetracks soft and velvet-like, there are less complaints of lame horses than formerly. Trainers have also learned the lesson that it pays to balance their horses properly and protect their limbs, joints and coronets with perfect-fitting boots. It has taken many years to convince them that there is more money in get-

ting their horses going square, true and safely, than there is in having them showing great flights of speed in a race and remaining months thereafter in the veterinarian's hands. The outlook, therefore, for large entry lists and good racing is very encouraging and our associations are determined this year to make the racing on this coast of such a character that it will be free from all suspicion; that every participant therein will feel that every heat is a race, knowing that the public will not tolerate crooked work, or dilatory tactics on the part of the drivers. Associations which have arranged their programmes should advertise them at once. In no other way can they enlist the attention and solicit the co-operation of owners and trainers on this coast who are anxious to name their horses, but so far have looked in vain (except in a few instances) for the published programmes.

THE sinking of the steamship Titanic has cast a gloom over the world. There never was such an appalling disaster in the history of maritime operations. Its effects will be felt around the globe, and for all time it will be remembered. About 2000 human beings passed out of existence at once. The richest and the poorest, side by side, met the same fate. From a humanitarian point of view the humble stoker was as great a loss to his family as the multi-millionaire, and for generations his death will be recalled. As one has said, "All the world's riches added to all the most conspicuous talents can give a man but one life to lose, and when he lays that down, be he a merchant prince, a gifted artist or a steward's helper, he has laid down all he has."

When the final details are received they will doubtless tell of the heroism of the crew and officers who, preferring themselves to go down to death, remained aboard to comfort the terror stricken passengers and assist as rapidly as possible all the women and children into the life-boats and rafts. The type of men who remained on board as their beloved ones were gradually moving away from the domed ship, shows that the days of true and loyal manhood have not passed away and in the time of a crisis like this men are willing to sacrifice themselves to save others. The scene aboard that great ship in those last few hours of agony is not picturable in language. No one lived to tell the story; none to record the farewells nor speak of the confusion of voices giving vent to the awful fear of impending death; none to speak of the officers who against terrible odds tried to preserve some semblance of order among the passengers and some degree of discipline among the excited crew.

If out of the loss of the Titanic something is learned of the science of ship-building that will render an ocean voyage less menacing; if the lack of life-saving appliances which all sea-going passengers have known for years to have existed everywhere will, through this catastrophe, be made public and governmental interference be invoked to force the steamship companies throughout the world to provide better and safer accommodations for passengers in time of disaster (thus making it less dangerous for those who cross the ocean), at least that much will be gained even at so great and appalling a cost.

THE Los Angeles Futurity Stake No. 1, for ten thousand dollars (\$10,000) guaranteed, is advertised in this issue, and with it is also published the list of valuable stakes and purses to be given at this great meeting this fall. This guaranteed stake for foals of 1912 only calls for \$2 to nominate each foal. It is the most valuable stake ever offered on the Pacific Coast and should have the largest entry list. There is not an owner of a trotting or pacing bred foal on this Coast or anywhere else who can afford to let this opportunity pass. Entries for it will close with Secretary Delorey, May 15th. There will be \$6,000 for trotting foals, \$3,000 for pacing foals, \$600 to nominators of dams of winners and \$400 to owners of stallions. Besides these, there are special cash prizes to be given.

The liberality of the Los Angeles association in offering such a rich stake cannot be too highly praised. Their splendid example will no doubt be followed by other associations, so that in a few years the trotting horse industry of the Pacific Coast will be on a larger scale than it was during the time so many of its leading stock farms were devoted exclusively to the breeding and development of choice trotting stock. The best and the surest way to see

such a result is for every one who owns a foal of 1912 to have it named in these rich futurities. It is expected that this will have the largest list of any ever advertised, for it is worthy of it and the association giving it should receive every encouragement.

WEDNESDAY, May 1st, will be an important day, one that horseowners and breeders cannot afford to overlook, for payments are due on those two very important stakes known as the Pacific Breeders' Futurity Stakes, Numbers 11 and 12; each is worth \$7250. In Stake No. 12, only \$5.00 is due on weanlings, foals of 1912, entries for which closed December 14, 1911. The other is for \$10 and is the fourth payment on foals of 1911, and nothing more is expected until next January when the colts are two years old. The conditions stipulated in all these valuable stakes are identical, and no richer or better ones are offered on the Pacific Coast. These conditions are fully set forth in our business columns and there is not an owner who has made first payments in them who can afford to let these pass unnoticed. Remember the date, Wednesday, May 1st, and try and have your entries in on time.

THE Kings County Fair Association advertises its colt stakes in this issue, and as nominations will close May 1st, every owner of a good two or three-year-old trotter or pacer in the district should see that this date and the first payment of \$5.00 is not overlooked. Races are to be decided on the Hanford race track, the finest of its size in California; and as this fair will follow the one at Fresno, it is of vital importance to every owner to have his colts and fillies in readiness to start there. The conditions are advertised elsewhere in this issue. This district comprises Fresno, Tulare, Kern and Kings counties—the "big four."

ATTENTION is called to the programme of ten purses advertised by the King County Fair Association in this issue. There are \$11000 to be given for trotters and pacers at the meeting to be held under the auspices of this organization at "The Meadows," Seattle. Entries are to close May 15th. For entry blanks address Albert M. Robinson, P. O. Box 366, Seattle, Washington.

MATINEE racing will begin in this city next Saturday at the Stadium, Golden Gate Park. The Park Amateur Driving Club will hold its first meeting there and from the preparations being made for it some surprises in the way of good racing are in store for those who attend.

PLEASANTON race track will be the point of interest today, for the first big matinee of the year in this portion of California will take place there and hundreds have signified their intention of being on hand when the races are called. Admission is free.

THE CANFIELD-CLARK STAKES.

Following is a complete list of entries upon which third payments have been made, in the Canfield-Clark Stake No. 3, with the names of their owners and sires:

The State Agricultural Society has purchased eight acres adjoining the State Fair Grounds at Sacramento, and will move back all the box stalls which face the racetrack between the first eighth and the quarter pole. This land was badly needed, and with the erection of suitable stalls in buildings similar to those which are near the dairy barn, a certain finish will be given the place and the horses will have more room to walk around and exercise.

NOTES AND NEWS

Bon McKinney 2:24 $\frac{1}{4}$ and Tom Smith 2:13 $\frac{1}{4}$ are doing well at San Jose.

There are over fifty trotters and pacers being worked on the Stockton track.

Send in your items. We want correspondents everywhere on the Pacific Coast.

There will be six races decided and four exhibition miles given today at Pleasanton.

Have you seen the advertisement of the Los Angeles \$10,000 Futurity in this issue? It is worthy of your attention.

C. The Limit 2:04 $\frac{1}{4}$, pacing, is jogging sound, and Gus Macey hopes to enter the charmed circle with him this year.

Minor Heir and George Gano will be sent after the double team record, now held by Hedgewood Boy and Lady Maud C.

Schuyler Walton and Charles Clark are very busy at the Fresno track. They have some very promising material to work with.

It is expected that when the barns at the Lexington track are all full—as they surely will be—at least 500 trotters and pacers will be in training there.

A. J. Keating, who was a visitor in California last January, has been engaged as presiding judge at Grand Rapids, Detroit, Pittsburg, Salem, N. H., Monroe and Mineola, N. Y.

The highest price at the Indianapolis sale (\$1,500) was paid by J. L. Dodge, Orangeburg, N. Y., for the bay horse Castle Donne (7), by Jay McGregor, out of Eckla, by Richford Baron.

Frank Overacker of Warm Springs has sent his mare Fanny Easter, by Arner 2:17 $\frac{1}{4}$, out of Fanny Vasto, by Vasto, to San Jose to be bred to Tom Smith 2:13 $\frac{1}{4}$.

Since Ken Walker has been made business manager of that sterling publication, "The Stock Farm," Lexington, it shows a vast improvement in every department.

J. David West, the well-known harness dealer, is the agent for Sells goods, and he has on hand everything that horse owners need. He also carries a full line of all leading horse remedies.

P. W. Hodges, of Sacramento, has named his horse Rapallo, by Greco, B., out of Oniska, by Nutwood Wilkes 2:16 $\frac{1}{2}$ in the fifth annual \$10,000 American Trotting Derby at Readville.

Everybody that loves a good horse wants to go to the Pleasanton matinee today. It promises to be one that will not soon be forgotten. J. C. McCarthy, the well-known starter will officiate.

The latest news regarding the shipping of R. J. MacKenzie's horses is to the effect that they will not be sent from Pleasanton until the 10th of May or perhaps a week later, as the Eastern tracks are not in the best of condition.

When H. H. James arrives at Libertyville, Ill., he will find that "Red" Gerrity will be there also. He has Beirne Holt and a string of good material belonging to H. J. Schlessinger, of Milwaukee, Wis.

R. J. MacKenzie has named Zomblack, Maymack and Bert Kelly in the Charter Oak stakes at Charter Oak Park. There never were so many entries received at all the leading meetings on the Grand Circuit before.

Mr. R. J. MacKenzie and a friend named Parkford, from Ontario, Cal., visited Pleasanton last Saturday and, notwithstanding the track was a bit heavy, many very creditable exhibitions of speed were shown.

Our New Zealand correspondent, Mr. Fred Thomas, is the compiler of the New Zealand Trotting Horse Register, an almost indispensable publication for the use of horsemen. The third volume has just been issued.

It's a strange phase of the auctioneering business that a yearling colt by The Harvester 2:01 would bring \$1100 at the Uihlein sale and its dam, Rosario, by McKinney 2:11 $\frac{1}{4}$, out of By By by Nutwood, only brought \$245.

A number of carpenters are busy fixing the stalls and buildings at the Stockton race track. Everybody is anticipating a splendid week's enjoyment when the breeders hold their meeting there in September. The newspapers in the mill city are also booming this meeting.

Jacob M. Winder, of Bristol, Pa., on April 4th, was notified that Clara Direct, dam of Maggie Winder 2:06 $\frac{1}{4}$, had foaled a black colt by The Harvester 2:01. She will be bred to San Francisco 2:07 $\frac{1}{2}$, by McKinney 2:11 $\frac{1}{4}$.

In the 2:05 pace purse \$2,500 to be decided at Detroit we notice the names of Jim Logan 2:05 $\frac{1}{4}$, C. The Limit 2:04 $\frac{1}{4}$, Nutmoor 2:06 $\frac{1}{4}$ by Nutwood Wilkes 2:16 $\frac{1}{2}$ and Zombrewer 2:04 $\frac{1}{4}$ by Zombro 2:11. There are eighteen entries in all.

The buildings at the State Fair Grounds erected for the purpose of containing agricultural and mechanical exhibits have all been painted white, and this change from the cement and mortar covered walls will be appreciated by visitors hereafter.

Jos. Twohig has a green Kinney Lou five-year-old trotter that, when taken right from the road, trotted a quarter in 35 seconds at San Jose last Monday. He also has a three-year-old pacer by a son of Welcome 2:10 $\frac{1}{2}$ that he believes is the fastest for his age he ever saw.

The oldest Ohio foals by Nutwood Wilkes 2:16 $\frac{1}{2}$ are now two-year-olds, and are all good-sized, handsome individuals, quite a number of which will be raced and given standard records as two-year-olds; as no less than fifteen could step quarters in 40 seconds or better as yearlings in 1911.

R. J. Irwine, of Stockton, had two additions to his stock farm lately. One was a colt by Zorankin 2:29 $\frac{3}{4}$, out The Bloom, by Nushagac. The dam is to be bred to The Bondsman. The other is by Best Policy, out of Elizabeth Direct, by Robert Direct. Both are fine, lusty looking youngsters.

Dan Hoffman is driving No Account and James II as a team, and a more stylish one is not to be seen in the Golden Gate Park. No Account was sired by Tom Smith 2:13 $\frac{1}{4}$ and James II is by Cbas. Derby 2:20. They are blood bays, sixteen bands high, and are perfect trotters.

The New York legislature passed a bill before adjourning appropriating \$300,000 for improving the state fair grounds at Syracuse, \$200,000 of the amount going toward changing the track and moving the grand stand. The work will be started soon after the fair ends, on September 14th.

R. J. MacKenzie has twelve horses in charge of Chas. E. Deane, Palatine, Ill., and when Geo. Spencer, Havis James and Billy Fleming get at Libertyville, Ill., with the twenty-four head now at Pleasanton, there will be a "gathering of the clans" and these drivers will take their allotments for the Grand Circuit, the Canadian Circuit and Pacific Coast Circuit.

M. Henry, of French Camp, has bred two mares to Vernon McKinney 2:02 this season. One is called Flying Fish (7) by Educator, out of Tbera by Albion; second dam by California Ten Broeck, and the other was True, by Bonnie Direct 2:05 $\frac{1}{4}$, dam Hulda Cropsey (dam of Will Guthrie, trial 2:07 $\frac{1}{4}$) by Guide 2:16, by Director 2:17—an inbred Director.

Owing to the heavy rains which made the track at Marysville heavy and the hearts of the farmers light, the matinee which was scheduled to take place there last Sunday was indefinitely postponed. The cause was justifiable and no complaints have been heard. That rain was need, and needed badly!

Three world's records were broken by automobiles on the San Jose race track last Sunday, and on Monday the track was used by the horsemen who declared it was not "spoiled" by the heavy wheels of the flying autos. It was in excellent shape, without a hollow spot in it, which speaks highly for its surface.

Bingen's service fee is \$250, and so keen were a good many breeders to make bookings to him at that figure that they didn't wait for the mails, but wired their desires to Castleton in order to get in his list. Bingen had not been offered to the general public for two or three years, having been reserved for private use.

Golden Poppy is the name claimed by M. Henry for a handsome two-year-old pacer by Selah McKinney (son of McKinney 2:11 $\frac{1}{4}$ and Anna by Director 2:17, grandam Lady Lick by Jim Lick), dam Hulda Cropsey by Guide 2:16; second day Alice R (dam of three) by Naubuc. Golden Poppy is a pacer, and a mighty good one.

Johnny Murphy, at Memphis, Tenn., will have Eva Bellini (trial 2:08 $\frac{1}{2}$) by Bellini, dam Expressive 2:12 $\frac{1}{2}$, and therefore a full sister to Atlantic Express 2:12 $\frac{1}{2}$; Evan Bellini (3), another brother, and John Bellini (2), another, so he will not only have an Expressive trio but a very emphatic one when the races are called this year.

Sidney Goldman, of Phoenix, Ariz., visited Los Angeles last week and purchased a very promising green pacer by Sky Pointer Jr., out of a mare by L. W. Russell. This pacer has been miles in 2:15 with very little work. Mr. Goldman also paid \$2,000 to J. Williams for a green trotter by Limonero 2:15 $\frac{1}{4}$, out of a mare by Zombro 2:11. He has trotted miles in 2:12 $\frac{1}{2}$ and has no record.

Everyone who visit Pleasanton will be pleased to hear that Mr. John Ronan, who was quite ill for about ten days, is convalescent and able to drive his favorite colts and fillies. Mr. Ronan is 'dead game and never know what failure or defeat means. He is an ardent lover of trotting horses, and for a man over four score years of age is a revelation as a reinsman to the younger generation of drivers on this historic track.

Charles A. Durfee is training his latest purchases, Zulu Belle 2:16 $\frac{1}{4}$ and Beatrice Zombro, at the San Jose racetrack. The latter has been used as a broodmare, but this year failed to prove in foal, so she will be one of the leading members of this famous trainer's stable. Zulu Belle is to be a pacer this year, and she has shown enough to convince Mr. Durfee she will be in the front rank among the "green" starters when every heat is decided.

Nearly every publication devoted to the light harness horse is publishing articles on the deficiencies and mistakes in the Year Book. The publishers of this book deserve all this censure and more, too. For the past fifteen years much of its information is a "joke," so far as authenticity is concerned, while its errors of omission are many and the majority can be avoided.

Mr. Ed. Stuart visited J. W. Marshall's place at Dixon, last Monday, and purchased the five-year-old black stallion Zoblack 2:24 $\frac{1}{2}$, by Zolock 2:05 $\frac{1}{4}$, dam Madeline Marsball (dam of Zomblack 2:26, trial 2:08 $\frac{3}{4}$), by Demonio 2:11 $\frac{1}{4}$; second dam Mamie Comet 2:23 $\frac{1}{4}$ (dam of 2), by Nutwood 2:18 $\frac{3}{4}$; third dam Black Betty, by Sportsman, etc. Consideration, \$1,000. Mr. Stuart shipped Zoblack to Ogden, Utah, on Thursday.

The H. and I. Pierce estate has sold its ranch near the Santa Rosa race track, at present leased to Frank S. Turner, to Lawyer Perkins, of San Francisco. The place contains sixty-one acres and is a fine one. Mr. Turner has sixty days in which to leave the farm and has leased another place, as he says he does not intend to leave Santa Rosa. Mr. Perkins will take possession when Turner vacates.—Democrat.

The Salinas Driving Club held a meeting at Salinas Saturday evening, and adopted a speed programme for the opening meeting to be held under its auspices May 1, at the Salinas race track. The programme will include five events—trotting and pacing, two for purses of \$100 and three for prizes. Officials for the meet were chosen as follows: Judges—John Storm, Thomas Ryan and Robert Garside; timers—John Garside, W. H. Williams and S. J. Brisbane; marshals—Conrad Storm and William Paulsen.

Though the efforts of the Santa Cruz Driving Association, a new racetrack, complete in every detail not only for trotting and running races, but for training purposes as well, has been completed and accepted. The track is located on the Capitola electric line, three miles from Santa Cruz, and is extremely fast. Race meets can be conducted both during the summer and winter months. Particular attention has been paid to stable accommodations and already ten fine horses are quartered there for early spring training.

The reason Eva Direct, that trotted a mile in Goshen in 2:19, did not get this record is that one of the judges acted as time keeper. Eva Direct is out of Daisy Nutwood by Nutwood 2:18 $\frac{3}{4}$, and her sire was Direct 2:05 $\frac{1}{2}$. It is a great pity that a little more knowledge of the rules governing races was not to be found in that grandstand. This places Mr. Look's Directum mare Consuelo S. 2:07 $\frac{1}{4}$ in the non-standard class. She is the dam of Direct Bingen, a promising colt owned by C. W. Leonard, of Boston, Mass.

Wm. Brown, a well-known trainer, has the following in hand at the track at Newman: El Angelo (no record), brown stallion, by The Angelus 2:10 $\frac{1}{4}$, Chancellor 2:15, a bay gelding, pacer; Harry McKinney 8:29 $\frac{1}{4}$, Sissy and Mary W. 2:20 $\frac{1}{2}$, pacing, all belonging to D. W. Wallis, of Los Banos. He also has R. S. Kernahan's Derby Lass 2:13 $\frac{1}{2}$, Little Babe, a good three-year-old, belonging to Dr. Young of Oakdale, the chestnut pacing mare Princess Ethel 2:12 $\frac{1}{2}$, owned by George Smith, of Los Banos, and his own pacing horse by Silver Bow 2:16 that experts claim will be a 2:10 performer this season.

Salinas is to have another "Big Week" celebration. It was decided Wednesday evening at a mass meeting of representative citizens and business men. The sentiment in favor of the celebration was unanimous. A number who reside outside of the city pledged the support and co-operation of their communities. The festival will probably be held the first week in August. It will include carnival and Mardi Gras features of last year, harness and running races under the auspices of the Salinas Driving Club, cowboy rallies and "Wild West" exhibitions. Organization was partially effected by the appointment of a committee of seven, including the chairman, and by the election of John J. Hebron as chairman and F. A. Abbott as secretary. The following were appointed on the committee with power to appoint members of the subcommittees: Harry E. Abbott, Frank J. Griffin, J. N. Anderson, D. A. Madeira, J. J. Conner and F. H. Lang.

We are pleased to state that since our last issue Bonnie Steinway has been registered and his name and number (55830) will appear when Volume XX is published.

E. S. Train is trying to awaken an interest among the people of Santa Cruz in behalf of a county fair to be held at the new driving park at Opal next August.

There will be a matinee race meeting held at the Marysville track next Sunday, April 28th. Horses from Sacramento, Chico and Oroville will join with the local horses in the events to be decided. A big time is promised.

Just before going to press this department is advised in a wire from Mr. E. E. Smoot, owner of Searchlight Stock Farm, Petersburg, Ill., that the great race mare The Broncho 2:00 1/4 pacer has been shipped to Petersburg, Ill., to be bred to the farm's premier stallion Searchlight. A telegram from Charley Dean to Mr. Smoot states that the mare has already been shipped. There are only two faster pacing mares by the records than The Broncho, and these are Dariel 2:00 1/4 pacer and Lady Maud C. 2:00 pacer, so the selection of Searchlight, by the owner of The Broncho, as the mate for the little mare, adds quite a distinction to the stallion and Searchlight Farm.

In a letter just received from Harry E. Woods, the well known Norborne, Mo., breeder and professional starting judge, he states that he has finally closed a deal, which has been long pending, whereby he secures the sire Lynwood W. 32853, sire of Sonoma Girl 2:04 1/4 and ten other standard trotters (no pacers), one producing daughter and one producing son. This son of Guy Wilkes should certainly prove of much benefit to the breeding interests in Missouri, where, in the hands of Mr. Woods, he will no doubt be given a good chance in the stud, for there are ample good mares in the northern and western part of the state where Norborne is located (forty miles east of Kansas City).

The Vancouver Association has recently issued the handsomest booklet we have seen. It contains its prize list in which \$60,000 are offered in premiums and prizes. There is also included its racing programme and the amount of money set aside for trotters and pacers amounts to \$20,500. But the general racing public does not know what classes or purses are designated and perhaps it would be as well for the managers to advertise this meeting at once. By looking through the columns of this issue it will be seen that the Eastern associations are advertising their programmes, consequently a number of our best horses are being hooked for these meetings. "Procrastination is the thief of time." This is never so perfectly exemplified as in the advertising of racing programmes. Horse owners will always make their entries in those places which advertise early, and all the race meetings in the north which precede the Pacific Coast Circuit should be advertised immediately so as to hold the majority of our horses here.

BUYING AND HANDLING BRONCOS.

Sacramento, April 16.—Adjutant General Forbes has requested permission of the State Board of Agriculture to use the stalls at Agricultural Park, used by a wild west show last year, for stabling the mounts to be used by Troop B, N. G. C., to learn bronco busting and other elements of cavalry training.

General Forbes says he has "spotted" a good lot of horses from Modoc County, which would fill the cavalry needs, and:

"We expect to have twenty horses at the State Fair grounds, if the State Board of Agriculture will grant out request at its next meeting. We tried out one of them at Marysville on Saturday. The horse threw its rider about twenty feet on the first jump."

Grass Valley, April 16.—L. B. Johnson, ranch foreman for Adjutant General Forbes, received word from that official today to purchase every available mustang in the country, broken or unbroken, regardless of breeding or color.

The broncos are to be used in the cavalry school at Sacramento and must be sound and weigh over 900 pounds.

It is believed that the probability of trouble with Mexico occasioned the call for horses.

THE GREATEST STATE FAIR!

California will spend \$20,000 in advertising and securing attractions for its next annual State Fair, which will be held in September, and the city of Sacramento will be asked to raise \$20,000 more to contribute toward advertisements and amusements. This was the decision of the board of directors of the State Agricultural Society at its meeting Thursday in the offices of the secretary, C. A. Telfer, at the State Fair grounds.

The meeting was attended and addressed by representatives of the Sacramento Chamber of Commerce, Sacramento Retail Merchants' Association and the Sacramento Valley Home Products League. The representatives of the various civic societies pledged the Agricultural Board that Sacramento would co-operate with the fair directors and make this year's exposition greater than any in the past.

THE 2:05 PACE AT DETROIT.

When it is remembered that twenty years ago there were only two pacers that had beaten 2:05, the entry list for the 2:05 class for Detroit will give some idea of the advancement along the lines of speed in that time, there being no less than eighteen named in this event, as follows:

- Branham Baughman 2:05 1/4, br. h. by Gambetta Wilkes. Walter R. Cox.
- C. The Limit 2:04 1/4, b. h. by Searchlight A. George H. Estabrook.
- Dora J. 2:11 1/4, ch. m. by Charles the Great. J. L. Atwood. Waco, Texas.
- Early Thacker 2:09 1/4, b. g. by Early Reaper. E. F. Geers.
- Ella Ambulator 2:04 1/2, b. m. by Ambulator. Walter R. Cox.
- Ginger 2:05 1/4, br. h. by Angus M. or Piute. H. W. Brown. Winfield, Kan.
- Heir-at-Law 1st 2:05 1/4, bl. h. by Heir-at-Law. E. D. Biebel, Erie, Pa.
- Jim Logan 2:05 1/4, b. h. by Charles Derby. J. E. Montgomery, Davis, Cal.
- Kirby Star 2:07 1/4, b. m. by John Kirby. Dick McMahon.
- Knight Onwardo 2:11 1/4, b. h. by Twelfth Knight. J. E. Gray.
- Lady Isle 2:06 1/4, b. m. by Island Wilkes Jr. Thomas W. Murphy.
- Major Brino 2:04 1/4, bl. g. by Wildbrino. William Hodson, Boston, Mass.
- Maggie Winder, 3, 2:06 1/4, b. m. by Oratorio. Thomas W. Murphy.
- Nutmoor 2:06 1/4, h. h. by Nutwood Wilkes. Frank Callahan, Tiffin, Ohio.
- Peter the Second 2:04 1/4, br. h. by Mr. Pinkerton. E. J. O'Meloy, Dundee, Mich.
- Ruth D. 2:06 1/4, b. m. by Anderson Wilkes. Thomas W. Murphy.
- Santa Ana Patch 2:06 1/4, bl. m. by Joe Patchen. Walter R. Cox.
- Zombrower 2:04 1/4, br. m. by Zombro. A. F. Williams, Corning, N. Y.

While some of these have slow records, yet no trainer would think of entering unless he figured that he had 2:05 or better speed on tap, and there are among the lot some that have shown their ability to go pretty close to the 2:00 mark.

FORTY-ONE IN THE AMERICAN DERBY.

A sensationally large list of entries has been received for the early-closing stakes for Readville's Grand Circuit meeting. The entries, as announced by A. J. Welch of the Readville track, number 196, which is almost three times as many as were received for this stake a year ago.

The \$10,000 American Trotting Derby, to be raced under new conditions, received 41 entries, while in the stakes for 2 and 3-year-old trotters, respectively, first payments have been made upon over forty youngsters in each. Twenty-six are named in the 2:10 class pace and 17 in the free-for-all. The \$5000 Massachusetts and the 2:18 class trot are nomination events. Horses named in the principal events are:

- American Derby, \$10,000—Billy Burke, Sir Thomas Linton, King Bee, Don Frazier, Gay Audubon, Annie Kohl, Major Strong, Scientia, Leonora Morrill, Arthur Wright, Woodford Todd, Ben Zolack, Arona McKinnev, Esther W., Mabel King Joe Bowers, Castle Dome, Belvasia, P. T. C., Jack London, Marigold, Dictator Todd, Queen Worthy, Marlon K., Chatty Direct, Jack Promise, Miss Archdale, Bierre Holt, Dudle Archdale, The Pilot, Ruth McGregor, Emily Ellen, Grace, Kenyon W., Cheery, The Wanderer, Soralta, Gold Dollar, Country Jay, King Brook, Rapallo.

Free-for-all pace, \$2000—Aileen Wilson, Branham Braugham, Peter II, Zulu Hal, King Cole, Sir R., Hal B. Jr., The Fel, Independence Boy, Major Mallow, Don Densmore, Jim Logan, Nellie Temple, Vernon McKinnev, Merry Widow.

2:10 trot, purse \$2000—Mattie March, Ethel Direct, Directum Recent, Knight Onwardo, Cochade, Stotbrino Lad, Wild-Cliff King, Mansfield, Add F., Tom King, Nellie Temple, Fanny Stanton, Chimes Hal, The Pointer, Helen B., Sadie Hal, Beth Clark, Grand Opera, Francona, Columbia Fire, Akar, Early Thacker, Denver Jay, Lew Perkins, Joe Patchen II, Bradmont, Starbird.

2:12 trot, purse \$5000 (nominators)—A. S. Padnev, Pastime Stables, Walter R. Cox, Arthur H. Parker, Charles Sanders, Thomas W. Murphy, W. L. Snow, E. F. Geers, Beau Ideal Farm, C. W. Leselle, George H. Estabrook (?), W. I. Higgins, Holly Rood Farm, R. J. Mackenzie (2).

LETTER FROM HANFORD.

Editor Breeder and Sportsman:

There is nothing new in the way of training at the Fair Ground's race track since my last letter. The horsemen of this district, which comprises Fresno Kings, Tulare and Kern counties have been imploring the directors to give two or three-year-old colt stakes for both trotters and pacers. Now that the Kings County Fair directors have offered the liberal colt stakes as requested, it behooves the owners of colts to come forward and make liberal entries, thereby encouraging the directors to continue giving colt races in the future. Every owner of a trotting or pacing stallion should see to it that at least a few entries were made on the progeny of that stallion. This big blow, hot-air, and swagzer about what a stallion and his colts can do and keep them in the stable or pasture all the time is not the real thing, and it will fail to bring in the golden shekels in the form of breeding fees if the light harness stallions are not entered since the fair directors have been clamored for during the past several years. We hope that every stallion owner whose horse is the sire of colts old enough to enter in these stakes will properly attend to this opportunity to increase the earnings and fame of his favorite horse.

For full information as to the stakes and terms of entry consult the advertising columns of the "Breeder and Sportsman." Yours sincerely,
HANFORD.

THE "COLOR BUG" EXPLAINS.

At an Illinois stock farm recently one of the men led out a two-year-old trotter of which great things are expected, writes Henry Ten Eyck White. It was a very snappy going, live wire sort of nag, light chestnut in color.

"That one," said the trainer, "is by Mainsheet 2:05, trotting, and out of More Worthy 2:20 1/4."

Whereupon a prosperous looking citizen in the little group of spectators emitted a j-ful whoop and exclaimed: "That proves my theory again! I tell you, boys, there's nothing to it!"

"Now, that colt's a chestnut," he continued. "Its sire, Mainsheet, is coal black. The Director General, sire of Mainsheet, is black as night, Director, sire of the Director General, was black as your hat and Dictator, sire of Director, was the blackest horse you ever saw. But this one is a chestnut!"

Then it dawned on the balance of the company that the prosperous looking man was what is known in horse circles as "a color bug," and he immediately was treated accordingly by being allowed to do all the talking, it being a well known fact that the quickest way to peace in the presence of a "bug" is to let him get the conversation about his hobby out of his system.

"There is a wonderful example," said the bug, "of the absolute dominance of an exceedingly powerful color strain, and in this instance the victory has been gained against what probably is the most potent color strain in the world except that to which in this case (here he pointed at the colt, which snorted contemptuously) it yielded."

"Come on down the homestretch," interrupted a grouchy party who was waiting impatiently for a leaped colt of his own to be brought out. "Show us the finish, so we can move on to the next place, where the belfry bats get busy."

"You have seen," continued the bug, "that for four generations in the direct male line no color but black is in evidence, and that each one of those black stallions was a good sire. Now, why is this colt with that row of black stallions on the male side of his family tree a chestnut? Lemme tell you—it's because in the case of the dam of this colt that four-time black strain got mixed with the most powerful strain of chestnut blood ever heard of, and it went over the ropes and out into the audience the first round, and it never will come to, not if the referee puts in his life counting.

"Here's a real batty one," whispered one member of the group to a friend. "I'm going to get all set to list to him. The boys that see pink elephants eating ice cream that is brought to them by canary birds riding zebras striped lengthwise are not in it with this brand."

"The dam of this colt," continued the theory slave, "is a chestnut mare with a pacing record of 2:20 1/4, and she had a sister, Alta Axworthy, trotter with a record of 2:10 1/2, that was the same color. The dam of these two noted fillies was S. Alta Thomas, as I have said a chestnut. She was sired by Nutpine, pacing record 2:15 1/4, and he was a chestnut. His sire was Nutwood, probably the most famous horse of that color among harness horses. Nutwood was the fountain head of the nags. Nutwood was the fountain head of the chestnut stream, but he was sired by the bay horse Belmont, and his dam was the gray mare Miss Russell, she by the gray horse Pilot, Jr.

"Now the Pilot, Jr., mares are the best in the world in the matter of producing trotting speed of high order, and Miss Russell admittedly is the best of her family, as her blood is found in the pedigrees of 2:10 or better trotters for seven consecutive generations. When Miss Russell was mated with high-class trotting sires that were bay in color, her best foals were chestnuts. Maud S., a trotting champion, by the bay horse Harold and from Miss Russell, was a chestnut. Nutwood, by the bay horse Belmont, and from Miss Russell, was a chestnut, and they probably are the most distinguished pair in the world from one mare.

"So you see where the dam of this thing we were looking at got her chestnut color, and why it was of the sticking sort. But in order to make the proposition air tight it so befell that she had a chestnut horse for her sire—Axworthy. And as he is the best stallion, it follows that he transmits his color more often than would a stallion of ordinary impressiveness. Just where Axworthy got his chestnut color all his forbears being bays or browns, it is hard to say, but—"

"Choke it off and light a fresh cigar," said the stock farm proprietor, "while I bring out a brown colt, with a blaze face, four white legs and a watch eye that was bred to order and measurement, all his blood lines having been carefully sifted and strained beforehand in order that a perfect individual might be secured. His owner is a deep dipper into the cauldron where the pedigrees are brewed, and if he ever sees this colt he's going to run around in circles and spit blood."

The freakish colored one was led forth. Taking a squint at him, the man with the heredity bug broke loose again.

"There is a fine instance of atavism," he remarked in sonorous tones—"one of the best I ever saw. Now, Darwin and Galton are agreed that—"

"Cheese on the blood talk," said the colt's groom. "This here racer's dam was near scared to death by a Holstein bull about three months before he was foaled. That fact'll get you more than all the books that ever was wrote. He's marked, that's what alls him."

R. J. MACKENZIE'S HORSES AT PLEASANTON.

While the horse men in the East have been contending against many disadvantages this winter, owing to climatic conditions, Mr. R. J. MacKenzie, of Winnipeg, Manitoba, after the disastrous year he had on the Grand Circuit last year, has cause to be congratulated on his good judgment in sending his horses directly to Pleasanton. Although the climate is not praised as strongly as it is at Phoenix, Ariz., where the claim is made that the "sun always shines every day at Phoenix," nevertheless, with the exception of a few weeks, there has been little cause for complaint, and horses have not been kept off the track very long. The trainers in charge of these horses, Messrs. Havis H. James and George H. Spencer, have been very painstaking and careful, and have used the best of judgment in not trying to "break the watch" every work-out day. Steady, continuous work has been the motto to work off all surplus fat and harden the tissues of the horses in their charge. The greatest care has been taken to get them balanced and rigged right, and all those that were pronounced "cripples" have been restored to soundness, while those that had been attacked with distemper, stomach troubles, etc., last year have also recovered; and unless some unforeseen accidents or epidemics occur, they will render good accounts of themselves wherever they are started.

Mr. MacKenzie is one of the gamest of men. Last season, when his \$25,000 purchase, Penisa Maid, died, after Joe Patchen II, the Merry Widow, Bert Kelley, Vernon McKinney 2:02, and, in fact, nearly all the stars in this constellation of speed were laid up, he neither murmured nor complained, but, facing these disappointments, said: "Well, that is liable to happen in any line, but it does not discourage me. I will try again next year and hope the horses will keep well after we start from California."

Since their arrival in Pleasanton none of the trotters and pacers has been speeded near its limit. "There's no money dangling from the wire before the latter part of July, and what's the use of making low records gazing for it?" was a remark made by one of the careful attendants of Mr. MacKenzie's horses; and, by the way, that is another item not to be overlooked. The men who care for the horses in this string are the best that can be procured, and a more careful, polite and competent crew was never seen at this track. They have been for years caring for the very best horses in the land and take as deep an interest in the welfare of the horses they rub and feed as their kind employers do. Such men are scarce, and the way they work from early morn until sundown shows that they are anxious that, so far as they are concerned, no fault shall be found.

Messrs. James and Spencer have had all these horses carefully fitted with boots and harness made by John A. MacKerron, the leading manufacturer in his line in the world, and when they leave for their destination in Libertyville, Ill., next month there will be nothing wanting. Carloads of the finest of Livermore hay and grain will accompany them; and as these trainers and their assistants have had years of experience in shipping horses, there is no doubt these will safely make the long journey scheduled as their itinerary, some through the Grand Circuit, others through the Northwestern Canadian Circuit and several through the Pacific Coast Circuit. Wm. Fleming, a noted reinsman, will have charge of one branch of this stable. Following is a list of the horses here; there are twelve others belonging to Mr. MacKenzie which are being handled by Chas. E. Dean at Palatine, Ill.; the majority of these will join these and form part of the three strings which are to separate until next November, when they will winter again at Pleasanton.

Trotters.

St. Thomas 2:17½, bay gelding, by Woodford Wilkes 2528. He got his record at Winnipeg, Manitoba, last July.

The Earnest (2) 2:21¼, bay colt, by The Exponent, dam Mardella (dam of Regal Parole 2:14) by Del Mar. He made his record at Springfield, Ill., last August.

J. C. Simpson 2:17¾, bay gelding, by San Mateo, dam Babbie, by Cadet; grandam Katrina, by Manchester 4649. At Hamline, Minn., September 6, 1910, he got his record.

Greenbaum 2:22¼, brown gelding, by Red Medium 30516, dam Kaffa 2:19¼, by Allerton. He got his record last July at Winnipeg, Manitoba.

Zomblack 2:26, black colt, by Zombro 2:11, out of Madeline Marshall (dam of Zoblack 2:24½), by Demonio 2:11¼. He earned his record at San Jose August 11, 1910. Zomblack was one of the best prospects in the stable, but was taken sick last fall. Since coming to Pleasanton he had a slight attack of distemper in February, but is rounding to very rapidly.

Bert Kelley (no record) by McAdrian 2:24, dam Dolly by Mountain Boy 484; grandam by Joe Daniels' thoroughbred. He was another that was stricken in the East. Bert was bred in Stockton, and has shown miles in 2:11¼.

Bessie L., (no record), bay mare, by Zombro 2:11, dam by Bob Mason, one of the gamest of Echo's sons. This is the mare Mr. MacKenzie recently purchased from Mr. Chick in Los Angeles.

El Zombro (no record), black stallion, by Zombro 2:11, dam The Bouquet, by Nusbagak; grandam Woodover, by Prince Ansel (2) 2:20½.

Maymack (Darial) (no record), bay mare, by Arthur Wilkes 2:28, dam by Whips 2:27. This is the

mare known as "Dot" and was purchased for \$6000 at Chico last December.

Billy Scott (no record), bay gelding, by Red Medium, dam by Alcyoneer.

Alvivilola (no record), hay gelding, by Libretto.

Judge Blaine (no record), hy Trampsfast, out of Emma Conductor, by Conductor.

Hedgewood Boy filly (2) (no record).

Pacers.

Vernon McKinney 2:02, hay stallion, by Guy McKinney, dam Maud Vernon, by Mt. Vernon 2:15¼. This remarkably fast stallion showed signs of becoming quite lame, so Mr. MacKenzie canceled all his engagements last fall. Since his arrival in California he has been jogged regularly and does not show any lameness now.

Joe Patchen II 2:17¼, bay stallion, by Joe Patchen 2:01¼, dam Bessie Bonehill 2:05¾, by Empire Wilkes 798, was accidentally injured so all his engagements on the Grand Circuit had to be canceled last season. Mr. MacKenzie has had this horse nicely worked, and it is a certainty he will race this year. If all goes well with him, he will be a hard horse to beat in his class. As an individual, either in repose or action, he is admired by all who have seen him.

Merry Widow 2:03¾, bay mare, by Red Pac 34291, dam Bonnie, by Sam Wilkes. This beautiful little mare was stricken with the same illness which affected Bert Kelley in the East last year, and were it not for the treatment and care they received, neither would have survived. She is doing nicely now.

Peter Preston 2:08½ is a gray stallion by Peter the Great, dam Tosa 2:19¼, by Enfield; grandam Susie G., by Scipio. He got his record last September at Milwaukee, and this year will undoubtedly lower it.

Starbrino 2:10¼, by Wildbrino, dam Mad River Belle 2:17¾, by King of Belair. This bay gelding earned his record at Winnipeg last July.

March McEwen 2:08¼, the peculiarly white spotted chestnut gelding, son of Fred S. McEwen, out of Cleo, by Rattler Brooks, is also sound as a new-milled dollar and will be moving along with the best in his class. He is seven years old and "likes the game."

Panboy is the oldest horse in the string. He has a mark of 2:17½, made at Winnipeg, July 19, 1910. He was sired by Pangold 7527, out of a mare by Hennepin Boy 2565, and a better headed, more intelligent and sweeter driving horse with his speed cannot be found in California. He is an ideal horse in every respect.

Billy Smith 2:15½ by Directly, dam by Ashland Wilkes.

Harry Direct by Direct 2:05¼.

One Better (2) 2:24½, by Nearest McKinney 2:13¼, out of Much Better 2:07¼, by Chas Derby 2:20, did not do much last year, Mr. James taking him along for educational purposes. This season he is doing well and will be started in all classes for which he is eligible. He made his record at San Jose in June, 1910.

Harry Direct, Starbrino 2:10¼ and Peter Preston 2:05½, belong to Mr. A. C. MacKenzie of Winnipeg.

The fastest mile made by any members of this string was 2:09, paced by Starbrino and Merry Widow. Miles from 2:12 to 2:19 have been the order of the day and when these horses are taken East where the thermometer registers 90 degrees in the shade they will be ready to race for a king's ransom, and will carry with them the best wishes of every horseman on the Pacific Coast.

NAVEL ILLNESS OF THE NEW BORN FOAL.

[By R. R. Dykstra, Surgeon, Vet. Dept. K. S. A. C.]

Causes.—The cause of this disease is the entrance of a germ through the navel string while the latter is open immediately after birth. Infection may take place at the time that the colt passes through the genital canal, or as soon as the broken navel string touches the ground.

Symptoms.—The colt appears listless, the eyes are dull, appetite is but slightly impaired at first, but later on disappears entirely. There is an elevation of temperature, and in addition, the one outstanding symptom consists first of all, of a slight lameness in one of the limbs. This is followed by a swelling in one or more joints, which finally breaks open and discharges a light colored pus. The symptoms gradually increase in severity, the colt may die suddenly or sometimes lasting as long as six to eight weeks.

Prevention.—Receive the colt on clean bedding, or a clean cloth. It is a noteworthy fact, that colts born in the open are not so frequently affected. If several cases have occurred on the farm, it is advisable to provide a new foaling place.

It was formerly advised in order to prevent this disease that the navel string be tied with a piece of sterile twine to prevent infection. Knowing, however, that infection frequently takes place while the colt is still in the genital passageway, this method simply ties up the germ in the navel string. The newer and better method of preventing the disease consists in absolute cleanliness of the surroundings, then immediately after the birth of the foal, the fluids and gelatinous material which is contained in the navel string should be squeezed out as completely as possible, then apply tincture of iodine to the cord and the area immediately surrounding. After this apply a dry powder every hour for a period of three or four hours, or until the cord is thoroughly dried up. As to drying powder, I would

recommend equal parts of powdered gum camphor, starch and alum. By adopting this measure, a vast majority of cases of navel ill can be prevented.

Treatment.—In cast infection has occurred with all the resulting symptoms, it is advisable to consult a reputable veterinarian. Treatment in this case is entirely technical and cannot be carried out by the layman.

RAILROAD RATES FOR HORSEMEN.

That well-known friend of the horse interests of the Pacific Coast, C. A. Harrison, sent the following communication to our contemporary, Pacific Horse and Sportsman's Review, and in it he states so many plain truths that we take the liberty of republishing it:

"I have been reading an article in the Stallion Number of the Chicago Horseman, by Ed. Pyle, regarding his efforts to secure an equitable rate on race horses, and as yourself and all men interested in this western country are fully aware that transportation rates on race horses are exorbitant, I will respectfully request your journal to start in the framing up of a way to put the matter squarely before the Interstate Commerce Commission, and as a starter we should begin to make an organization and to tax each man interested, say \$2 per man, this fund to pay expenses, and also that we get such men as G. A. Westgate, C. P. McCann, Frank E. Alley, the Messrs. Porter Bros., and some first-class lawyer to put the matter before the commission.

"We are obliged to pay more freight on a stallion than on a mare or gelding. We get no special rates to and from state and county fairs; we always pay exorbitant rates. We are given no encouragement by the railroad companies, and you may go to any show ring at any fair and you will probably see five hundred persons looking at the show ring performer, but just as soon as the first race is called the stand is crowded, the fences are lined with people, and it is the race horse owner who should get encouragement from transportation companies.

From my personal observations all the race horse man gets is the "bunk." You arrive in town and every man you try to do business with seems to want your all. The expressman who hauls you out asks you double for the same service he gives any other business, the yard crew "hit you up" for tips, and the feed man gives you a rap, and while I am at it I will say for the benefit of race and fair associations that it is their duty and business to see to it that horsemen are given proper service by decent expressmen and by decent feed men, and that every advantage is given horsemen, just the same as showmen do for incoming performers, as the horsemen's job is no snap and few if any get anything out of the game.

"The fair and race associations are really the race horseman's partners, and it is surely up to every association to do all in its power to assist all horsemen, good or bad, to get along, and it would be quite an innovation were fair managers to make it a point to show some courtesy to the losers—to the men who pay entrance money, pay freight and all other bills, and race a whole afternoon and get nothing. Seems to me the least any association could do would be to walk out and say, 'Mr. Owner, I am obliged to you for your effort and hope you do better next time. Are you able to get to the next town?' I never saw this done, but if I had a race track I would do it. It's nice to be a winner. Everyone seems to love you, but I don't notice any bouquets or assistance for the loser, and horsemen are human and have hearts.

"The game needs fixing and it is up to associations and promoters to help fix it and begin now. If I can be of service before the Interstate Commerce Commission and railroad people I am ready and willing. Please try with your great paper. Try anyway, even if we lose."

STANDARD BRED STALLIONS LICENSED.

Following is a list of stallions that were licensed by the California Stallion Registration Board from April 1st to 13th, inclusive:

Sonoma King—T. W. Cheney, Turlock.
Bohida Jr.—Alex. Stewart, Escondido.
Clyde—W. F. Brooke, Red Bluff.
McNear—Mrs. A. R. Ferguson, Seelye.
Sphinx Baron—O. P. Arnold, Milville.
Bud Wilkes—Stewart Carter, Dobbins.
Bill—D. H. Hickman, Orovi.
McNear—R. E. Webdell, Yuba City.
Dinuba E.—Chas. Rice.
Almont Clay—A. M. Boggs, Highland Springs.
Athadeen—W. A. Hendricks, Kerman.
Slim—P. C. Andresen, Lincoln.
Kent Mig—C. A. Keefer, Chico.
Hobson—Geo. W. Maguire, Colusa.
Life Policy—W. W. Collins, Visalia.
Joe Sarto—Wm. Souza, Gas Point.
Arner—H. Olsen, Alameda.
Brownie—L. E. Middleton, Wheatland.
Chestnut Tom—Geo. T. Algeo, Oakland.
John R. Conway—Geo. O. Meese, Martinez.
Louronon—Thos. E. Bodkin, San Francisco.
Benton Jr.—Manuel J. Caldera, Tres Pinos.
Examinero—J. W. Fowler, San Martin.

The annual April stallion show at Lexington last week, it is claimed, was the best ever held. There was a total of thirty-six trotting stallions shown, of which fourteen had records of 2:10 or better, and several of the others have shown their ability to trot that fast or faster. The horse that attracted the greatest attention possibly was Bingen 2:06¼, the superb stallion recently acquired by David M. Look and now in the stud at Castleton.

ROYAL GEORGE 9.

Several trotting families which thirty-five years ago included in their ranks high-class race-winning trotters of that day have become practically extinct. They have ceased to perpetuate race winning speed in the male line. Among these extinct families is that founded by the Canadian stallion Royal George 9, whose sire was Warrior, also known as Black Warrior, and whose dam came from the vicinity of Middlebury, Vt., and was believed to have been by Harris' Hambletonian 2, a son of the thoroughbred Bishop's Hambletonian.

Mr. J. H. Wallace, who evidently got his information from someone who did not know the facts, registered Warrior under the name of Black Warrior and gave his sire as Tippoo, a son of a Narraganset pacer. The dam of Black Warrior as given by Mr. Wallace was black and owned and ridden by an officer of an English regiment known as The First Royal, says S. W. Parlin, in American Horse Breeder.

Some twenty or twenty-five years ago the writer investigated the breeding of the sire of Royal George 9. Among the letters that were received concerning Warrior or Black Warrior, as he was sometimes called, was one from Mr. Amos Barnes, who owned the horse for several years. Mr. Barnes stated that he bought Warrior from a Mr. Cushman, and that Mr. Cushman bought the horse from a townsman who bred and raised him. This man who bred the horse stated that the sire of Warrior was a thoroughbred horse, owned by an officer in the English army who brought him from England to Canada, and that this thoroughbred was from a noted family of horses known as Warrior.

Mr. Barnes stated that the officer sold the sire of Warrior to some party on Long Island, and also states that the dam of Warrior was a fine brown animal of the Tippoo breed. There were several stallions registered in the English Stud Book as Warrior. One was a brown horse foaled in 1803, sired by Sir Peter, a son of Highflyer. The latter was by Herod, the most successful sire of race winners in England in his day. Highflyer was greatly noted for speed and, like the renowned O'Kelly's Eclipse, was never beaten in a race. The dam of this Warrior by Sir Peter was by Matchem, a son of Cade, by renowned Godolphin Arabian.

A letter dated November 20, 1887, from F. A. Ashbaugh, Esq., of Hamilton, Canada, contains the following interesting facts concerning Royal George 9 and his descendants: "Royal George must have had a great deal of hot blood in his veins for he was famous as a quarter-mile runner, and was the champion of Canada for three miles mixed, viz., one mile walk, one mile trot and one mile run. He must have been from good running stock as he was the sire of Palermo, winner of the Queen's Plate, then the most coveted prize in Canada for the gallopers."

Royal George 9 was probably the only standard trotting sire that ever got a plate winner. He was the sire of the successful race winning trotter Lady Byron 2:28. Five of the sons of Royal George 9 are credited as sires of trotters that made records of 2:30 or better. The most successful of these five sons was Toronto Chief 85. The dam of Toronto Chief 85 was by a horse called Blackwood, whose sire was Cour de Lion, an excellent horse that was imported to Canada from the southern part of France, breeding unknown. The second dam of Toronto Chief 85 was by Prospect, a thoroughbred whose sire was Monmouth Eclipse, a son of the renowned American Eclipse. The dam of Prospect was by imported Expedition, the horse to which American Boy, the sire of Williamson's Belmont was closely inbred. This gave the dam of Toronto Chief 85 a thoroughbred cross close up.

The most successful trotter got by Toronto Chief 85, and the most noted trotting descendant of Royal George 9 in the paternal line, was the noted stallion Thomas Jefferson 2:23, that was as much distinguished for his beauty, courage and endurance as for his speed. His dam was Gypsy Queen, a noted long-distance trotter, record 2:44 to wagon. Mr. J. H. Wallace stated in his Monthly for October, 1880, that Mr. Wm. B. Smith, the breeder and owner of Thomas Jefferson, informed him that a Mr. Barker, an auctioneer and piano dealer bought Gypsy Queen when she was four years old at Rochester, N. Y., for \$250 and sold her not long afterwards in Chicago for \$400.

The man from whom Mr. Barker bought the dam of Thomas Jefferson had what he represented to be a Black Hawk Morgan stallion that he was standing for service, and claimed that he was the sire of the young mare now known as Gypsy Queen, the dam of Thomas Jefferson 2:23.

On the above representation Mr. Wallace registered Thomas Jefferson 2:23 as "dam by a son of Vermont Black Hawk 5." He had previously registered her in volume one of his register as said to be by Wagner; dam by imported Glencee. The gameness and endurance exhibited by Gypsy Queen in her ten-mile race against the noted long-distance trotter, Captain McGowan, is suggestive of a near thoroughbred inheritance.

There were no better gaited trotters in their day than were the descendants of Vermont Black Hawk 5; but, as a rule they were more noted for speed and elasticity of action than for endurance and ability to pull weight when moving at a high rate of speed. Some of them, however, won races of three-mile heats in champion record time. Black Maria, by Gill's Vermont 104, a grandson of Vermont Black Hawk 5 was one of that sort. She won a race of three-mile heats; time 7:35, 7.46%, at Mamilton,

Ohio, October 6, 1866. The best previous three-mile record in harness was 7:39 made by Stonewall Jackson in 1864.

This race is credited to Black Maria in a table published on page 331, volume 1, of Wallace's American Trotting Register, and also in Chester's Complete Trotting and Pacing Records, page 76, but for some reason Mr. Wallace omitted the name of Black Maria in his table of fastest three-mile records in races in harness in the last part of the Year Book. The dam of Black Maria was the Salter Mare, by Cannon's Whip, a running bred son of the thoroughbred Black-horn's Whip and her second dam was by Darnahy's Diomed, a grandson of imported Diomed. Jewel, the dam of Gambetta Wilkes 2:19 1/4 was a full sister of Black Maria.

Thomas Jefferson 2:23, the most noted descendant of Royal George 9, was raced quite successfully for ten seasons. He was started in all in sixty-four races and won first money in thirty-one of them. Among the noted trotters that he beat in races were Smuggler 2:15 1/4, Mambrino Gift 2:20, Gen. Grant 2:21 and George Wilkes 2:22. He won a six-heat race for a \$10,000 purse at Buffalo, N. Y., August 5, 1874. Smuggler 2:15 1/4 won the first and second heats in 2:22 1/4, 2:20 3/4; Mambrino Gift took the third in 2:22 1/4, but Thomas Jefferson won the next three in 2:23 1/4, 2:26 1/4, 2:28 1/4. He also won a \$10,000 stallion race at Mystic Park, Medford, September 14, 1875. He made his record 2:23 at Prospect Park, N. Y., June 2, 1875, in the third heat of a straight heat race that he won from Sensation 2:24 1/4; time 2:26 1/4, 2:24, 2:23. He equaled that time in a four-heat race that he won at Mystic Park, September 20, 1875, where he lost the first heat to Comee 2:19 1/4 in 2:24 1/2, but won the next three in 2:23, 2:24 1/2, 2:24.

Thomas Jefferson 2:23 was as fully developed as any trotting stallion of his day. He won in all thirty-one races—which is three more than the total number won by George Wilkes 2:22. He was fairly successful as a sire, but did not impart to his sons the ability to transmit speed qualities to their progeny with uniformity, probably because their dams lacked speed inheritance. He got in all nineteen standard performers, eighteen of which were trotters. The three fastest trotters got by Thomas Jefferson 2:23 were Farmer Boy 2:19 1/2, John S. Clark 2:19 1/4 and Lizzie M. 2:20 1/4. He is credited with two sons that sired in all three trotters with standard records. His daughters were more successful than were his sons in transmitting speed qualities. Ten of them produced seventeen standard performers. The fastest trotter produced by any of his daughters was Mahlon 2:13 1/4, whose dam was Blanche Jefferson and she also produced Arthur Cleveland 2:23 1/2, a full brother of Mahlon 2:13 1/4. The dam of Blanche Jefferson was the famous pacer Pocahontas 2:17 1/2 pacer.

[A full brother to this stallion, Thomas Jefferson, was called Naubuc. He was foaled at Hartford, Conn., April 19, 1864, and was coal black in color, stood 15.3 hands and weighed 1,060. He was imported by Dr. Barlow J. Smith, a brother to Wm. B. Smith, of Trenton, N. J. Naubuc arrived in San Francisco on the steamship Colorado, Christmas eve, 1868. He made several seasons at the Naubuc farm, near San Lorenzo, Alameda County, and was then taken to Napa, where he made several seasons. Naubuc sired the dam of Directly 2:03 1/4 (sire of 23) and The Ice man 2:10. Naubuc also sired Alice R., dam of Redwood 2:27, Eva W. 2:25 1/2, Ozarine 2:26, one sire of eight and three dams of two in 2:30 list, and Hulda Cropsey, dam of the phenomenal green pacer, Will Guthrie, that paced a trial 2:07 1/4 last Saturday.—Ed.]

FRESNO FAIR NOTES.

Three directors of the Fresno Fair Association attended a big banquet given by the Merchants' Association of Selma last night and told of the work that is being done toward the Fresno fair this year. A great deal of interest was shown, as well as an abundance of enthusiasm, and those who went there feel that Selma will be well represented with exhibits next October. Committees have already been appointed there to interest fruit and stock raisers around Selma to prepare for the fair and make exhibits and already a number are planting with a view to secure excellent fruit and agricultural exhibits to display in Fresno.

The directors will meet in other towns of the county before the fair, and it is expected that much benefit will be derived. Meetings will also be arranged with other towns in the valley.

Those present in Selma last night were J. E. Dickinson, C. I. Pulliam and Al McNeil.

KENTUCKY DERBY TO RUN.

Louisville, Ky., April 15.—All speculation concerning the future of the classic Kentucky Derby was silenced by the announcement of Manager M. J. Winn, of the Louisville Racing Association, yesterday, that this year the event, as in previous years, is a \$6000 guaranteed stake, \$5000 of which goes to the winner. He also added that \$500 will be added to the Derby in 1913. With the entrance money added to the stake, the Derby hereafter will be worth no less than \$10,000. Horsemen had expressed concern over the event on account of the State Racing Commission's ruling, doing away with guaranteed stakes.

In future fall meetings the four-mile endurance stakes will be a feature. The association will give \$5000 additional money to this stake.

ANSWERS TO CORRESPONDENTS.

J. E. B. Sacramento—Will you please publish the breeding of Lear's Sir William that appears in the pedigree of Young Jim 2009 (sire of the dam of Bingen 2:06 1/4), Jim Irving 2:23, etc.?

Lear's Sir William was by Sir Charles (son of Sir Archy) out of a mare by Imported Contract, by Catton, sire of Imported Trustee, and the dam of Imported Hooton. Both these sires appear in the pedigree of many of our greatest trotters.

J. L. W.—How was Algerine bred?

Answer—Algerine 2:45 was by Capt. Fisher out of Maria Mink by Black Warrior.

W. R. Morse—Will you please publish the breeding of Berthune by Sidi Hamet, the inbred Sir Archy stallion?

Answer—Berthune was out of Susette (sister to Betsy Harrison, dam of Denmark, the great foundation sire of the saddle horse breed of this name), by Aratus (sire of the third dam of Alma Mater, dam of Alcyone 2:27), by Director; second dam Jenny Cockracy by Old Potomac; third dam by imported Saltram; fourth dam by Symmes Wildair; fifth dam by Driver; sixth dam by imported Fallowler; seventh dam by Vampire.

C. L., Redwood City—Sometime ago my attention was called to an item in the first catalogue issued by Wm. Corhitt, of the San Mateo Stock Farm, in which it states that Lady Hibbard was out of Dolly Hibbard. In later issues this name was changed to Lady Hibbard. Do you know anything of her breeding?

Answer—In 1888 a turf writer from Michigan published a long article on the stallion Marshall Chief in Duntton's Spirit of the Times. In it he states that Daniel B. Hibbard, of Jackson, Mich., owned Marshall Chief (the Goodrich horse). He was by Hero (the Kilhorn horse), a son of Vermont Black Hawk, and Marshall Chief's dam was by Harris' Hambletonian, a son of Bishop's Hambletonian. He mentions the mare Dolly Hibbard by this horse as having a record of 2:33. She was a sister to Dan Hibbard, trial 2:27, and was sent to California. Dolly Hibbard or Lady Hibbard was bred to Hambletonian 725 and produced Lou Whipple 2:26 3/4. Then she was bred to that other stallion on the Steve Whipple farm, San Mateo—Speculation 928—and produced Lady Earnest, dam of Ellen Mayhew 2:22, dam of Oro Wilkes 2:11 and Lord Harford 2:23 1/4. Primus, a horse brought to Stockton in 1866 was also by Marshall Chief and became the sire of Ewing 2:21 1/4, Magdallah 2:23 1/2 and Tump Winston 2:24 1/2.

K. E. Kearns, Napa—How was Napa Rattler bred?

Answer—By Biggart's Rattler out of Poll by imported Consternation; second dam Betsy Baker, by Mambrino. Biggart's Rattler was by Sir Henry (son of the Garret Horse, by Imp. Leonidas) out of a mare by The Hyde Horse, so of Long's Magnum Bonum, second dam of Messenger Blood.

Can you tell me how Hamilton Chief was bred?

Answer—Hamilton Chief was by Royal Chief Jr., dam full sister to the dam of Toronto Chief 85. She was by Coeur de Lion, known as the Blackwood horse.

D. J. Brown, Stockton—How was Antelope 2:23 1/2 bred?

Answer—Antelope 2:23 1/2 was foaled in 1880, sired by Nutwood 2:18 1/4, dam Fanny by Jerseyman (sire of Geo. M. Patchen Jr. 2:27), grandam Clara, a mare sired by an Australian horse, said to be thoroughbred, that was owned by D. Murphy, Santa Clara.

H. H. H., Pleasanton—Can you give the extended pedigree of Mt. Vernon, sire of the dam of Vernon McKinney?

Answer—All that is known was furnished by the late D. J. McLeod, of Stockton, in an article he wrote in 1889. He said: "We had this breed of horses for over forty years. Mt. Vernon 2:15 1/4 was by Nutwood 2:18 1/4, out of Daisy (dam of 20 foals) by Chieftain, and the second dam was by a noted horse here in the San Joaquin called Corn Planter, a son of Copperbottom; the third dam was by a black horse ridden from Kentucky to California by a Mr. Hope, who claimed he was a Black Hawk, and from the accounts I heard of this horse, his beauty, gameness and splendid trotting action, I believe there must have been some truth in his statements. There never was a gamer family than those known around Stockton as tracing to Daisy."

K. P.—Can you change the name of a horse that never started in a race for a stake, or a race for money, and never entered for the above? This horse started in the matinees under the name of Peter B. Could he be entered in a race for money as Peter B.? Answer—Until he has started in a public race—that is, a race for a purse or wager—you can call him anything you wish. After he has started in a public race, however, it will cost \$50 to change his name.

In reply to your inquiry regarding Haydad, I bred and owned him. He was sired by Echo Chief, dam by Aaron (a son of Apex 2:26, out of a mare by Romulus, grandam by John Nelson); grandam was by Sea Breeze, a son of Piedmont 2:17 1/4. If this is the horse, he is a dark brown in color, small star, one white foot behind, and will be thirteen years old May 29th.—T. M. Haitsook, Selma, Cal.

S. Christenson's June Pointer is taking to his work most kindly this season under Charley De Ryder's care, and will be a foe to be reckoned with on the Pacific Coast Circuit by all the pacers he will be raced against.

HORSE RACING IN ALBERTA.

As a trainer of trotters and pacers and light harness horses in general, I am asked my opinion as to their future in Alberta and the great Northwest. Now, to get at the future of all things one has to go back a few years to get, as a horseman would term it, "a line on things." We will start with my coming to Alberta in June, 1906, with the horses that were owned and raced here at that time, and sketch over them hastily up to the present, and step in to the great future, writes Geo. Haag, in the "Morning Albertan."

I arrived in Calgary June 19, 1906. On the following day I was asked to attend a matinee to be held over the old mile race track at Victoria Park. And here is what I saw: A large brown mare that had more or less daylight under her and boxed her knees quite a few times while rounding the turns; a little black pacing pony branded with a large "T" on his hip, and a rough going trotting mare with her tail tied down to keep her from taking the lines out of her driver's hands.

Those three horses were the whole bill of fare in Calgary. At this time Edmonton boasted of practically the same class and about the same in number; Medicine Hat also had a racer or two; High River and Lethbridge had one or two, and I might mention one or two other towns that had what was termed a racehorse. Now, of all these horses not one of them could step a mile better than 2:20 over a half mile track.

Mentioning what horses I can call to mind at short notice, we will see the great strides made in the past five years. Here are a few of them: General H. 2:04½, champion trotter of Canada, and one of the greatest race horses of his day; Leland Onward 2:04½, one of the greatest of pacing stallions; Capt. Brino 2:07½, Tom Keene 2:04½, The Indian 2:09½, Alberta 2:09½, Lady S. 2:14½, Nellie G. 2:09½, Red Ball 2:14½, Tom Longboat 2:15, Simons 2:15½, Bess M. 2:15½, Capt. Derby 2:06½, and so on I could name perhaps 100 horses in the province of Alberta, along with records in standard pacing and trotting time. A great many of them securing these records here were also bred in our province, besides hundreds of well-bred young horses that have been bred and brought into the country for future development, so you can see from this we have made rapid strides in the harness horse.

As to tracks and exhibition grounds, Calgary, Edmonton and Lethbridge had tracks and a few buildings for exhibition purposes; today, I might say, that nearly every town and hamlet from the Montana boundary to Edmonton has a race track; also on the main line from the Crow's Nest and main line of the C. P. R., and many of the inland towns without railroads also have tracks, where racing is held in a small way.

The exhibition grounds at Edmonton compare with any in the United States or Canada, also the grounds and buildings at Calgary. These plants are fitted with up-to-date racing stables, city water, electric light, cinder tracks, etc., so from the little single boarded outside shed we are stabled in barns as good as our great horses that race down the Grand and Great Western Circuits, of which we read so much about. Our purses have grown from \$100 to \$500 sizes to the \$1,000 to \$3,000 class, with an occasional \$5,000 purse. Our records have gone by in a like manner. The exhibition record of 2:14½, held by Chestnut, reads now 2:05½, held by Bland S. Our race records which used to be around 2:17½, now read like this: Alberta finished 1-2-1-1, Blanche 1-2-2-1-2; time, 2:12½, 2:09½, 2:10, 2:12½ and 2:10. This, I believe, is the fastest race ever paced over a half-mile track by green pacers in any country.

What the future holds for the sport-loving people in Alberta can be seen by taking a look at the trainers' stables in many of our towns. You can go there now and see colts and fillies by the world's greatest sires, and out of mares equally as famous as producing matrons. The trainers' stables are filled to overflowing at Calgary, Edmonton, High River and many other towns of the province.

So much for the horses, exhibition plants, etc.; we have still another great problem to solve, and that is: Who is going to govern the horsemen of this great Northern country? At present we are ruled by parent bodies, the National and American Trotting associations of America, with offices at Hartford, Conn., and Chicago, Ill. Through these associations more harm has been done to our great sport, I think, than any other cause, gambling included. We need through the North country a new association, governed by horsemen, not by men who never see a horse race or breed a race horse, that are there simply to grab, grab from horsemen and horse owners to horde up money gotten by what they term in a rightful way, but in reality simply taken out of the horseman's pocket and stowed away. Who will get it? What will become of their really unlawful gains? Our combined efforts are now needed and needed to work, work for and form a new association, ruled by horse people and horse-loving people. We do not want their rules; that is, all of them. We want men on the ground, men who can see and do things; not men to grab and sit in offices, that never see a race, to make our rules to race by.

The time has come when the horsemen of the North are strong enough to make their own rules, a "revised edition," and the sooner we get to it, the better. Our government racing laws are the best in the world; we should protect them, work with them, and with all the people back of us, what

a bright future is in store for the sport-loving people!

What I speak of as going on in Alberta, so has it developed in Manitoba, Saskatchewan and British Columbia, and perhaps in Manitoba to an even greater extent. As to a horse-raising country, there may be some as good; none better. We raise the most nutritious grains and hay in the world.

We do not need to go to California, Tennessee or Georgia to train, for Alberta's winter climate is as good as any in the world. Compare it now with the South country; while they are wading their horses through snow and mud, we in Alberta all through December and from January 15th have worked our young horses over dust-covered tracks as good as you will find in the South in May. Not only may I say it of this winter, but of four of the five I have trained here. There are more good days in a year to work or train a horse in Alberta than in any state in the United States.

Is not the future bright, providing it is protected? As the old saying is: "If you don't believe it, come and see."

OUR LOS ANGELES LETTER.

Editor Breeder and Sportsman:

On April 4th, Mr. W. A. Clark Jr. bought of Mr. Putnam, of Salt Lake, the bay mare Jessie Tilden, by Roy Wilkes, dam Bo Peep, by Mark Field. Mr. Clark's object in buying her was because she was safely in foal to Bon McKinney and he wanted to have the colt to represent him in the coming stakes. About four days after the purchase was made Jessie Tilden was taken sick and had to have her foal taken from her. It was a beautiful bay filly, fully developed, but only lived about twenty-four hours. Mr. Clark felt the loss keenly, as he was anxious to get hold of a few good foals by Bon McKinney.

On the 11th of April Belle Pointer, by Sky Pointer, dam Princess Wilkes, by Ned Wilkes, foaled a good, strong, healthy colt by Bon McKinney. This foal will be entered in every stake on the Pacific Coast.

Mr. W. A. Clark Jr.'s ten-months-old colt Bon Courage, by Bon McKinney, out of Helen Keyes, has been a quarter in 45 seconds and will make a very fast colt.

Bon Voyage has all his speed and recently stepped an eighth to a cart in 15 seconds. If this horse trains well this season and meets with no bad luck a record of 2:06 is not beyond his reach.

All the trainers here are quite busy trying out their "prospects," but so far no sensational miles have been stepped, although there are good "prospects" here that will show up later on.

Fred Ward has a very fast three-year-old by Wayland W., out of Cecille M. He recently stepped a half in 1:04½. Unfortunately, this colt is not staked and will probably not be raced until a four or five-year-old.

I do not think the northern associations are coming into the circuit as they should. If we are to have a successful circuit on the Coast there should be no petty jealousy and everybody should do what they can toward boosting it along. Messrs. C. A. Canfield, W. A. Clark Jr., I. L. Borden and a few other prominent horsemen have done a lot both financially and otherwise toward bettering the condition of harness racing on this Coast without any hope of financial gain, their only object being to help the game along, and it seems to me every association and horseman should appreciate this and give the Pacific Coast Circuit their support.

In this issue there will probably appear the advertisement for the Los Angeles meeting and also for the \$10,000 Futurity for foals of 1912.

I have no sympathy for any horseman who breeds a good mare to a good horse and then fails to stake the colt. He is simply standing in his own light, so if this \$10,000 Futurity is not a success the breeders have themselves to blame. Let us hope they make good with entries and by so doing encourage the giving of other large stakes.

TED HAYES.

C. K. G. BILLINGS SAILS FOR EUROPE.

Uhlán 1:58½ and The Harvester 2:01, respectively the fastest trotter and fastest trotting stallion in the world, started from New York, April 16th, on board the steamship Blucher, of the Hamburg-American line.

C. K. G. Billings, who recently paid \$60,000 for the champion stallion, also shipped seven other horses to Europe. Among them are the following: Charlie Mitchell 2:04½, the best free-for-all trotter of 1911; Lewis Forrest 2:06½, Charley Mac 2:07½, Turley 2:07½, Lou Billings 2:08½, and a gray Arab stallion that Mr. Billings rides in Central Park.

The horses will first go to Hamburg, Germany, where they are to be rested a week or two, and perhaps exhibited before making the long trip to the interior of Russia, their ultimate destination. The principal summer trotting track in the land of the Czar is at Moscow, and there Uhlán, The Harvester and the rest are to give their important exhibitions of speed. They should arrive in Moscow about the middle of May. With good luck they will be ready to step fast by the Fourth of July, and a month later they may be on their way back to America, arriving here in time and in trim to do some record-breaking on Grand Circuit tracks before the season ends at Lexington in October.

Mr. Billings, who has done many big things in the interest of the trotting horse, is taking his champions over at the invitation of breeders and turfmen in Russia, who are eager to see Uhlán and The Harvester. He will bear all the expenses of the trip,

accepting nothing from the Imperial Trotting Club in return for the exhibitions, which doubtless will draw many thousands of dollars at the gates. The importance of the expedition to American breeding interests cannot well be over-estimated. Russian horsemen have been on the point of barring all Yankee trotters in their races as a matter of protection to their own Orloff breed, but it is believed that two such fine specimens as The Harvester and Uhlán will make them hesitate a long time before they exclude the Americans.

The Harvester has been called the highest type of trotter that ever held the stallion record. In size, contour, quality and style he is one of the most perfect horses the breed has produced, and in action he moves as straight and true as an arrow, requiring no unsightly artificial appliances to bring out his best speed. With a list of all the fast horses of the past and the present before him, a horseman would have difficulty in picking out the stallion so well calculated as The Harvester is to make new friends for the breed abroad.

Uhlán is likewise a grand specimen of the American trotting horse. Though a gelding, he has more character and presence than many stallions, and his flight of speed is greater than that of any pacer of the day. It is understood that Mr. Billings will at some time this season hook Uhlán and Charlie Mitchell to pole for a try at the double-team record, and Russian horsemen will doubtless see the two speedy geldings in double harness at Moscow. Followers of trotting in this country are predicting a pole record close to 2:00 when Mr. Billings turns them loose on one of the fast Grand Circuit tracks.

WILL GUTHRIE (TRIAL) 2:07½.

There are few horses which have created a greater sensation at Pleasanton for the limited time than the coal black stallion Will Guthrie, by Educator, by Director 2:17, out of Hulda Cropsey, by Guide 2:16, son of Director 2:17; second dam Alice R. (dam of Eva W. 2:25½, Redwood 2:27, Cyrene 2:27½, and the dam of Castanada 2:09½), by Nautuc (sire of the dam of Directly 2:03½) full brother to the great campaigner Thomas Jefferson 2:23. Educator (sire of Will Guthrie) is out of a mare by Vermont Messenger, he by Hambletonian 10; second dam a fast trotting mare brought from Vermont and claimed to be a Morgan.

Will Guthrie is eight years old, stands 15:1½ hands and weighs 1000 lbs. He needs no straps and is a natural pacer. He is absolutely sound, not a pimple on him, and has the finest of feet and legs and an iron constitution. One must admit, from his breeding, he must be dead game. In action he is smooth and frictionless, does not touch a hair and wears only six-ounce shoes all around. He paced a half-mile in 1:02½, last quarter in 29½ seconds, last eighth in 14 seconds, the mile being made in 2:15½. That was on Tuesday, April 2d. On the Friday following, he started alone and paced to the half in 1:04½, the last half in 1:03, and the last quarter in 31 seconds; mile in 2:07½, the fastest mile paced this early in the year in the United States. The track was conceded to be from two to three seconds slow. With the little work he has had he looks good enough to go down the line and win every race he is entered in. This stallion has age and at the end of the hardest drive shows he has the best of wind. He is level-headed and loves to pace, is perfectly tractable and as Mr. Henry, his owner and trainer, says he has thirty-five more to handle he will sell this horse at a price far below what he will earn this year. Here is a chance for some one to get a money-winner at every meeting, and one that will last for years at the game, for he has everything in his favor and is a natural race horse if there ever was one.

GREAT BARGAINS OFFERED.

Mr. Frank S. Turner, of Santa Rosa, is "up against it again." He had been in charge of the famous race track at that place for many years, then the proprietors sold it. He had to move to another farm about ten months ago and before his lease expired the proprietors sold it for a big figure, so now he is compelled to move again, and, as he has been quite ill for the past two years, and totally unable to handle the few colts and fillies he saved for racing purposes, has decided to sell them at prices just about one-fourth of what he asked for them some time ago. His advertisement of these appears in our business columns. It does not give all the praise to these they deserve, however, and anyone who has an idea of getting the very choicest bred stallions, colts and fillies at bargain prices, cannot do better in California than to visit his place, see these he offers, and it is almost a certainty a sale will be effected. There are some of the progeny of California Dillon and Major Dillon in Sonoma County, and the owners are so delighted with them, they will regret that these horses are to be taken away. The yearling colt listed is a "dandy," the fillies are even better than Mr. Turner says they are, and as he must move inside of sixty days, those who want the very choicest must not wait too long, for they will be sold quickly. In California, or in any place in the United States, it is doubtful if such royally bred youngsters were ever offered at such bargain counter prices. It is an opportunity of a lifetime to get the very best.

There were 39 entries from California in the Kentucky Trotting Horse Futurity for foals of 1912.

Drink Jackson's Napa Soda.

KENTUCKY FUTURITY FOR FOALS OF 1912.

President Ed. A. Tipton, of the Kentucky Trotting Horse Breeders' Association makes the announcement that the \$26,000 Kentucky Futurity for foals of 1912, which closed April 1st, received the nomination of 1,250 mares, the pick of the breeding world. The Association is well pleased with the result and desires to thank the patrons of the Futurity for their generous support. The largest list of nominations is this year again contributed by W. E. D. Stokes' Patchen Wilkes Farm, of Lexington, Ky., which enters a total of 111 mares, mostly in foal to its premier Peter the Great. The Walnut Hall Stock Farm of L. V. Harkness, Donerail, Ky., again holds second place with 89 mares, in foal to the equine aristocratic trio of stallions, Moko, Walnut Hall and San Francisco. The Allen Farm, Pittsfield, Mass., of Wm. Russell Allen, and the Empire City Farms, Cuba, N. Y., of William Simpson, are tied for third place with 39 mares each, the majority of the former being bred to the grand young stallion Bingara, and the latter to the peerless McKinney and the ever popular Axworthy. This year Edw. and Jos. Madden, Hamburg Place, Lexington, Ky., have made their debut among the larger nominators and hold fourth place, being represented by 26 mares, principally in foal to the richly bred Siliko and Vice Commodore. Also Mr. David M. Look has entered this list and claims fifth place, having nominated 22 of the blue-blooded mares recently purchased from the Ardmaer Farm of Wm. H. Bradley, nearly all of which are in foal to Bingen, one of the most remarkable sires of the past decade being not only a consistent sire of speed himself, but many of whose sons have proven successful sires of early speed. Below is given a tabulated list of all nominators of more than five mares. An examination of same will show that 54 nominators have entered 746 mares, or more than one-half of the entire list. Altogether, the entries are made by 380 nominators, from which it will be observed that the number of small breeders represented in the Futurity by one or two mares is unusually numerous this year.

Kentucky still maintains a big lead over all other states in furnishing the largest quota of entries, setting the figures this year at 452. New York is second with 157, while Massachusetts comes third with 108 nominations. A tabulated list is given below, showing that the entries come from 36 states and Canada. The most notable feature is the increase in the total nominations received from California breeders who name 39 this year, probably the largest list from that state since the palmy days of Palo Alto Farm.

AT THE GRAND RAPIDS MEETING.

In the 2:12 class Furniture and Manufacturers' Purse, trotting, value \$10,000, Mr. R. J. MacKenzie has entered Bessie L. by Zombro, Bert Kelly by McAdrian, Maymack, by Arthur Wilkes, and Zomblack by Zombro. The only other California entry is that made by P. W. Hodges, on his colt Rapallo by Greco B. First payment \$100. This meeting takes place July 8th to 12th inclusive. In the Grand Rapids Railway Purse 2:20 class trot, value \$2000, Mr. MacKenzie duplicates his entries. In the 2:05 class pace Giftline Purse, value \$2000, Jim Logan 2:05 1/4, named by J. Elmo Montgomery, and Don Pronto 2:05 1/2, named by W. G. Durfee & Co., are the only California entries. In the Aleryon Purse, 2:07 class, trot, value \$2000, Helen Stiles 2:08 1/4 appears as one of the entries, W. G. Durfee & Co. sending her name in. In the Northrop Purse, 2:17 class pacing, value \$2000, Billy Smith 2:15 1/4, Bradmont 2:24 1/2 and Joe Patcben II, 2:17 1/4, are named by R. J. MacKenzie.

FINDS KENDALL'S O. K.

Meyers Falls, Wash., Jan. 20, 1912.
Dr. B. J. Kendall Co.:
Dear Sirs: I have used your Spavin Cure, and find it all O. K. You will find a two-cent stamp enclosed for a copy of your TREATISE ON THE HORSE.
Yours truly,
FRED COOK.

PLEASANTON MATINEE PROGRAMME.

A good programme of matinee races has been arranged to take place at Pleasanton Training Park, Pleasanton, to-day, April 20th, commencing at 1 o'clock sharp. The races will be held under the auspices of the Pleasanton Chamber of Commerce, with J. C. McCarthy as the starter. Admission is free. All races two out of three. Delegations of horsemen and their friends from all the Bay Counties, as well as those in Sacramento, have signified their intention of being present. The programme:

Exhibition mile—Merry Widow. R. J. MacKenzie owner; Peter Preston, R. J. MacKenzie owner.
2:25 pace, purse \$150—Santa Rita Girl, C. L. de Ryder; Carmine McCan, Captain McCan.
Free-for-all trot for cup—Silver Hunter, T. D. Sexton; Borena D., H. Dunlap; El Vivolla, H. H. James; Orlena, C. L. de Ryder; Bodecker, Thomas Ronan; Cresto, Charles James.
2:20 pace for cup—Dicto, Charles James; Nutwell, C. L. de Ryder; The Mighty, William Meese; Searching, Lee Wells; Dawn o' Light, W. T. McBride.
2:15 pace for cup—Gilbert B., Louis Joseph; Della, A., C. L. de Ryder; T. D. W., Farmer Bunch; Welcome Boy, Al Schwartz.
2:25 trot for cup—Strathdon, Farmer Bunch; Brutus, S. Christenson; Delect, C. Whitehead; Hazel Patchen, C. L. de Ryder; Harold K., J. V. Galindo.
2:30 trot, purse \$150—Rosemary, Ava; Seville Charles de Ryder.
Exhibition mile—Billy Smith, Star Brino, R. J. MacKenzie.

TROTTING STAKES FOR DETROIT.

Grand Circuit entries in the six stakes at the Blue Ribbon meeting in Detroit, July 22 to 27, exceed in number those of any previous year, with several of the Far Western stables yet to report. To date the M. and M. stake has 31 entries, the Chamber of Commerce 30, the 2:10 trot 25, the 2:16 trot 33, the 2:16 pace 23, and the 2:05 pace 18. Following are the horses named in the two classics:

Merchants and Manufacturers' Stake, \$10,000, 2:24 Trot—Alerworthy, Anita McKinney, Arona McKinney, Bergen, Bjerne Holt, Billy Buff, Dave Halle, Dictator Todd, Dorah Medium, Ella Todd, Eva Bellini, Eva Cord, Lady Greengoods, Loopwood, Lord Guyton, Marie McKerron, Mary G., Marion R., Meteor, Miss Burbrook, Nellie E., Onward Todd, Praisette, Peter Boy, Pbil Bars, Queen Worthy, Soralta, Sunday morning, Trussora, The Wanderer, and Alcestro.
Chamber of Commerce Stake, \$5000, 2:13 Pace—Add F., Aker, Beaut McKinney, Bradmont, Chimes Hal, Danish Girl, Denver Jay, Direct Mack, Empire Direct, Fanny D., Grand Opera, Greenbrino Jr., Henry H., Hoi Chimes, Jessie Direct, Lassie Lee, Online Patch, Pat Logan, Pearl Patch, Princess Patch, Sadie Hal, Sproy Norwig, Statbrino Lad, Susie Bell, The Assessor, The Pointer, Tom King, Tony Borden, Woodcliffe, Klinc and Wydrad.

Spohn's Distemper Compound is the largest selling horse medicine in the world. The merits of this remedy have produced this result. All druggists sell it.

\$10,000 Guaranteed.

\$10,000 Guaranteed.

The Los Angeles Futurity Stake No. 1

FOR FOALS OF 1912

To Trot and Pace at Two and Three Years Old.

ONLY \$2 TO NOMINATE MARES. Entries close May 15, '12

TO BE GIVEN BY THE

Los Angeles Harness Horse Association

\$6,000 for Trotting Foals.

\$3,000 for Pacing Foals.

\$600 to Nominators of Dams of Winners.

\$400 to Owners of Stallions

MONEY DIVIDED AS FOLLOWS:

\$4000 for Three-Year-Old Trotters.
200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Trot.
\$2000 for Two-Year-Old Trotters.
100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Trot.
100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2000 for Three-Year-Old Pacers.
200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Pace.
\$1000 for Two-Year-Old Pacers.
100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.
100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace when mare was bred.

Four Special Cash Prizes for Stallion Owners.

Given to Owners of Stallions standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize, \$80.

2nd Prize, \$60.

3rd Prize, \$40.

4th Prize, \$20.

The Above Prizes Will Be Paid on June 15, 1912.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare on May 15, 1912, when name, color and description of mare and stallion bred to must be given; \$5 September 1, 1912 (with this payment color and sex of foal must be given); \$10 January 1, 1913; \$10 May 1, 1913; \$15 January 1, 1914; \$15 January 1, 1915.

STARTING PAYMENTS.—\$25 to start in the two-year-old pacing division; \$50 to start in the two-year-old trotting division; \$35 to start in the three-year-old pacing division; \$75 to start in the three-year-old trotting division. All starting payments to be made ten days before the date of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a trotter or pacer.

Colts that start at two years old are not barred from starting again in the three-year-old divisions.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The race for three-year-olds will consist of three heats one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for all amounts paid in. Failure to make any payments forfeits all previous payments. This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in this entry, rules of National Trotting Association to govern.

For entry blanks and further particulars, address

ECHOES FROM THE NORTHWEST.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

RANDOM NOTES.

[By J. B. Thompson.]

It is very noticeable that the fanciers of the present day hunting dog pay little attention to having their dogs act as retrievers in the field.

In America, where the individual sportsman recognizes two breeds only as worthy of work on upland game birds, i. e., the pointer and the setter, he has either demanded the art of retrieving to be done by these dogs, or, if wanting in them, he could overlook the deficiency in their education if they hunted for and pointed the dead bird.

The field trials have had a strong bearing on the sportsman, in forcing him to neglect teaching his working dogs in the field retrieving.

It has been my opinion that many families for generations were instructed in this art; from generation to generation it was followed to an extent that it became a family trait, and in consequence natural retrievers were very common, so much so that many of these families that have been bred intensely on field trial lines have been as persistent in stamping their offspring with this faculty as the field trials have been in ignoring it.

Some consider it a pertinent question whether retrieving is desired in a bird dog or not, but at any rate I have rarely seen an owner complain if this gift is possessed by his pet, either acquired or learnt while in the trainer's hands.

In days gone by we admired the natural retrievers very much. If a dog did not retrieve we imagined it was like taking the horse, that was not thirsty, to water, we could not make him do it.

I am disposed to favor the forced retriever in preference to the natural retriever, for he does it only at command; it is more mechanical, and the dog is less likely to jump from control while performing the act.

The present day dog through the potent influence of consecutive field trial breeding, as a class, became such high strung characters that when by nature they were retrievers, it was a difficult matter without skillful handling to keep them steady to shot.

I can very well recall the performance of what was called the double champion trial winner a few years ago. I had met on the road to the trial grounds an Easterner, who had become imbued with the idea that for his fall vacation he would follow the doggies throughout the entire Southern trial circuit.

saw him no more, I think that this breach of the rules of training ended further pursuit for pleasure along with the field trialing.

I am inclined to think that he imagined that a champion should possess every perfection, and if deficient in any, it should not have been imperfect training. But he found to his sorrow that the real field trial dog is seldom an ordinary well broken dog; and the demand for a perfectly broken dog in every sense of the word has yet to be conspicuous in the big trial circuit.

While the people who believe in class alone as the highest standard of field excellence are willing to omit retrieving from the dogs' gifts, it is not out of place to consider the majority of men that hunt birds, exact it as an additional value to the dog, and would no more think of not having their favorite pointer or setter retrieve than they would of becoming a "Round Oak" hunter and do without their faithful companion during the shooting season.

We cannot help but feeling that under most shooting environments the retriever is a very valuable asset. In the wet, hoggy slashes, or the cutting briar patches, where the birds are certain to pitch, the handy retriever becomes so useful that we cannot think of doing without him.

SAN FRANCISCO FLY-CASTING CLUB.

The Stow lake fly-casting platforms were in commission, for the first time this season, last Saturday afternoon and Sunday forenoon, when members of the San Francisco Fly-Casting Club took part in the initial club fly-casting contests for 1912.

An innovation in lure or bait casting has been made this year—the event now is contested with 1/4 and 1/2 ounce lures, instead of the ounce weight, as was in vogue during prior seasons.

In the long distance bait casting event some clever casting appears. F. J. Cooper put the ounce rubber frog out for an average of 139 1/2 feet in five casts. James Watt was nosed out by six inches. Seven out of eleven men put the frog out over 100 feet.

In the accuracy event the scores are remarkable in the fact that but one rod's credits falls below 96 per cent. Horace Orear's score of 93.52 at that is a very good one. This event is conducted by whipping the harmless red fly a hooped targets in the water from thirty to forty yards distant.

In the delicacy event the same comparison and praise may be made. This event requires deftness and skill in placing the leader and fly and making the retrieve without splashing.

Saturday Contest No. 1. Class series, Stow Lake, April 13, 1912. Wind, variable. Weather, fair. Judges, F. A. Webster, T. C. Kierulff, E. A. Mocker. Clerk, E. O. Ritter.

Table with 6 columns (1-6) and 7 rows of names and scores for Saturday Contest No. 1.

Sunday Contest No. 1. Class series, Stow Lake, April 14, 1912. Wind, variable. Weather, fair. Judges, H. B. Sperry, F. J. Cooper, T. C. Kierulff. Clerk, E. O. Ritter.

Table with 6 columns (1-6) and 12 rows of names and scores for Sunday Contest No. 1.

NOTE: Event 1—Long distance fly-casting, feet. Event 2—Accuracy fly-casting, percentage. Event 3—Delicacy fly-casting; a, accuracy percentage; b, delicacy percentage; c, net percentage. Event 4—Lure casting, 1/4 ounce lure, percentage. Event 5—Lure casting, 1/2 ounce lure, percentage. Event 6—Lure casting, long distance, feet.

[By August Wolf.]

Tom Hopper of Spokane, who has had more exciting hunting experiences than any dozen trappers and fur hunters in the Northwest, drew \$15 bounty on three lynx pelts at the office of the auditor of Spokane county recently, afterward selling the hides for \$90, making a total of \$105 for a day's work in the mountains near Spokane.

Captain Mapes, stationed at Fort George Wright in Spokane, where eight companies of the Twenty-third regiment, infantry, are quartered; F. Conrad Robertson, a sportsman who received his early training in the Kentucky hills, and Al F. Wieseman, secretary of the Spokane Rod and Gun Club, are organizing a bear chase for dogs to take place in May.

Peter A. Carlson, an aged trapper living in an isolated cabin in the mountains south of Wallace, Idaho, who was rescued from death by starvation and exposure on March 16 by "Jim" Nilson, owner of a line of traps, will soon be able to resume his work.

Dow Alexander, formerly of Texas, where he earned his spurs as a hunter, now living on Mica Peak in Washington, killed an animal, a few days ago, which Robert W. Butler, auditor of Spokane county, decided to be a cross between a timber wolf and a coyote, though Alexander says it is a near-wolf.

Fifteen elk, said by W. L. Finley, State Game Warden of Oregon, to be the specimens yet taken out of the Jackson Hole country, were sent from St. Anthony to the Wallowa forest, in Oregon, recently, where they have a pasture of 2500 acres.

Walla Walla branch of the Washington State fish hatchery was opened April 1 with A. L. Cauvel in charge. The first consignment of eggs, 25,000, will be received from the government and the second consignment of 250,000 is coming from a state hatchery in western Washington.

V. E. Munz, a veteran fur buyer who has trapped wild animals thirty-eight years, says the coyotes in the Kittitas valley of central Washington are decreasing in numbers rapidly. He bases his prediction that 1916 will see the last of the pests from the fact that the price of fur is advancing rapidly, having increased nearly 50 per cent this season, and that the rapid settlement of the valley is driving the animals into the mountains.

Ninety-seven elk from Gardiner, Mont., have been sent to Hamilton, Mont., and Startup, Wash. Thirty-seven were sent to the Marcus Daly deer and elk park and sixty were placed on the Washington range. The consignment to Montana originally contained forty-two elk, but five calves were trampled to death in transit. The animals sent to Washington made the trip without mishap.

TROUT CULTIVATION IN NEW ZEALAND.

The first cultivators of trout were the Chinese, whose food consists largely of fish found in fresh water. The Romans during the decadence of the empire also practiced fish culture but it is really to the monks of the Middle Ages, who had an eye to appetizing food during the feast of Lent (when they were forbidden flesh), that we owe the beginning of an industry now much improved upon in Germany, England and France. Nevertheless, in no country has it been carried to so high a degree as in New Zealand, where trout may be obtained weighing from fifteen to twenty pounds apiece. In order to grow trout successfully, healthy spawn is essential, running water, protection against natural enemies, convenient food and after a certain time provision against the contingency that some of the trout may eat the others.

Before the eggs are hatched, usually in numbers of hundreds of thousands, they are collected in a series of incubator boxes through which runs a stream of water pure and reasonably cold. Great care must be taken that rats or other animals that devour eggs be not allowed to enter. The process of development covers a period of from five to seven weeks. The first change is to be observed in the elongation of the egg, and then two dark spots, which are the future eyes, appear. Another red mark begins to show where the heart will be. This changing form begins to move. If at this time the little egg is taken hold of the heat of the hand will soon loosen the shell. But it is best not to precipitate events. Scarcely have the fish left the eggs when they begin to resemble somewhat the spawn of frogs. They carry in the abdomen a transparent sac in which is contained food enough for several weeks. After a few weeks this sac disappears and the fish begin to move slowly, looking for food.

The incubators must always be scrupulously clean; they should be entirely gone over every two days at least, and the time the little fishes lose their abdominal sacs it is a good thing to sweeten the running water. Even with the greatest care possible, out of thousands of eggs it has been found possible to raise only two or three dozen trout; and the dead must be at once removed from the incubator. Of course, if equally convenient in all cases, a pond is about fifty times more serviceable than an incubator, but the water in the pond must be in some way renewed, preferably by zinc pipes. Best of all is a brook of sufficient depth, but so arranged as to keep the fish in constant view either by an iron partition or a board which will prevent the fish from slipping under.

If the place where the fish are being kept is near the sea so much the better, because then it is an easy matter to obtain the little mollusks and other small animals of an aquatic nature for the necessary food.

The trout growing industry is not a mere pastime, but a very lucrative business if well managed. Large business is done with city markets and with those deputed by the authorities to repopulate rivers with fish. In the latter case, if the fish have been kept hitherto in ponds, temporary change to tanks may be desirable. Then the water to which they have been accustomed should be gradually diluted with water from the river so as to prepare them for the destined change.

AT THE TRAPS.

The Traffic Gun Club, composed principally of members of the Traffic Club, held the first regular blue rock shoot in Alameda Saturday afternoon, April 13th. These club shoots will take place the second Saturday of each month until October next.

Many of the club members are novices at the sport of inanimate target shooting. Several of the new shooters failed to hit a single blue rock in different events. A number of the local cracks were on the ground and their coaching was followed by improvement in the shooting of novice participants.

In 25 target practice shoots good scores were shot by J. G. Heath, Fred Willet, J. B. Lee, Ed Schultz, Pete McRae, W. A. Simonton and others. Lee and George D. Morris made the only straight scores in the ten bird club events. Scores shot were:

| Events | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|------------------|----|----|----|----|----|----|----|----|----|----|
| Birds | 10 | 15 | 10 | 15 | 25 | 25 | 25 | 25 | 25 | 25 |
| B. K. Smith | 4 | 6 | 8 | 10 | 10 | 10 | 10 | 10 | 10 | 10 |
| W. J. Webster | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 |
| W. A. Simonton | 8 | 12 | 9 | 22 | 18 | 23 | | | | |
| W. Webster | 4 | 12 | 4 | 17 | | | | | | |
| G. W. Colby | 2 | 9 | 6 | 4 | | | | | | |
| M. G. Drinkwater | 10 | 14 | | | | | | | | |
| J. G. Heath | 10 | 13 | | | | | | | | |
| J. B. Lee | 3 | 3 | 6 | 11 | 18 | | | | | |
| F. Simonton | 8 | 9 | 10 | | | | | | | |
| G. D. Morris | 8 | 12 | 8 | 14 | 22 | 22 | | | | |
| C. Lancaster | 2 | 8 | 4 | 12 | 10 | | | | | |
| C. J. Rice | 7 | 14 | | | | | | | | |
| F. W. Willet | 4 | 13 | | | | | | | | |
| F. Webster | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 | 1 |
| J. R. Henderson | 14 | 8 | | | | | | | | |
| H. B. Vallejo | 1 | 7 | 6 | | | | | | | |
| W. F. Schmidt | 2 | 3 | 11 | | | | | | | |
| C. P. Kiel | 13 | 6 | 8 | 22 | 22 | | | | | |
| C. D. Swales | 6 | 6 | 8 | | | | | | | |
| H. B. Townsend | 6 | 8 | 4 | 23 | 20 | 23 | | | | |
| E. L. Schultz | 6 | 8 | 4 | 23 | 20 | 23 | | | | |
| P. McRae | 6 | 8 | 4 | 23 | 20 | 23 | | | | |
| M. Ulrichs | 6 | 8 | 4 | 23 | 20 | 23 | | | | |
| H. P. Jacobsen | 6 | 8 | 4 | 23 | 20 | 23 | | | | |

The regular club shoot, for April, of the Golden Gate Gun Club will take place tomorrow at the Alameda trap grounds.

A feature of the shoot will be the exhibition shooting of Mr. Rush Razee, the Remington-U.M.C. expert with rifle, shotgun and revolver.

Saturday afternoon blue rock shooting is growing in favor every week. Exposition City Gun Club and Family Club members were at the Presidio trap shooting range Saturday afternoon, April 13. The principal scores in four 25-bird matches were:

| | | | | |
|-----------------|----|----|----|----|
| Birds | 25 | 25 | 25 | 25 |
| T. D. Riley | 21 | 20 | 19 | 20 |
| H. Brickell | 14 | 14 | 18 | 13 |
| W. Dimond | 16 | 16 | 16 | 17 |
| L. Sloss | 10 | 19 | 18 | 10 |
| H. O. Harrison | 15 | 21 | 15 | 16 |
| H. D. Hawkes | 9 | 15 | 16 | 12 |
| J. S. Dunnigan | 13 | 19 | 18 | 10 |
| J. Brickell | 11 | 17 | 13 | 14 |
| E. Hoelle | 22 | 18 | 24 | 21 |
| D. M. Hanlon | 11 | 17 | 16 | 19 |
| W. M. Abbott | 19 | 14 | 17 | 13 |
| N. W. Sexton | 18 | 19 | 17 | 21 |
| T. Handmann | 15 | 18 | 19 | 14 |
| Hodgdon | 13 | 18 | 15 | 13 |
| E. C. Ford | 15 | 18 | 15 | 13 |
| W. H. Smith | 16 | 19 | 17 | 13 |
| W. D. Mansfield | 20 | 19 | 18 | 17 |
| C. Westerfeld | 14 | 17 | 17 | 13 |
| George Uhl | 21 | 21 | 21 | 21 |

Alameda and San Francisco trigger pullers, April 14, held down the blue rock traps at the shooting grounds in Alameda. The Bay View Gun Club's monthly shoot was on tap until late in the afternoon.

Four 15-bird matches were shot. Event 1, club match, resulted in a tie between Morss and Swales. Morss followed with another 14 in the next event and won out.

The Peters trophy shoot, event 2, was won by J. P. Riley, who broke every bird.

The Selby prize, event 3, was a tie shoot between J. H. Jones and P. A. Fox. Jones broke 12 in the next race, Fox 11 out of 15.

The Du Pont trophy, event 4, was captured by Armorer Billy Price, who missed but one bird out of his string of 15.

The "grub shoot" was a team match between Captain Swales' and Captain Morss' teams. The winner's total was 115, designated by stars in the table below. The losing team were but four birds behind and paid for the luncheon served.

The final match, a miss-and-out affair, was won by Swales, who kept peppering away at the targets until he broke ten, by which time every other competitor had fallen out of the race. The scores for the day were:

| Events | 1 | 2 | 3 | 4 |
|-----------------|----|----|----|----|
| Birds | 15 | 15 | 15 | 15 |
| W. A. Lancaster | 10 | 13 | 13 | 13 |
| J. Vosburg | 10 | 8 | 6 | 6 |
| P. A. Fox | 11 | 13 | 13 | 11 |
| G. Killam | 11 | 12 | 6 | 10 |
| H. P. Jacobsen | 12 | 11 | 7 | 10 |
| E. C. Ford | 13 | 12 | 12 | 12 |
| J. P. Riley | 13 | 15 | 11 | 11 |
| F. Welch | 5 | 9 | 9 | 9 |
| H. Wobber | 9 | 14 | 7 | 6 |
| G. D. Morss | 14 | 14 | 12 | 12 |
| G. Millet | 11 | 8 | 10 | 11 |
| F. Adams | 12 | 10 | 12 | 10 |
| W. A. Simonton | 10 | 9 | 8 | 9 |
| H. C. Peet | 13 | 13 | 12 | 14 |
| W. H. Price | 14 | 10 | 11 | 14 |
| H. D. Swales | 12 | 11 | 10 | 10 |
| F. Howlett | 11 | 13 | 12 | 8 |
| L. Vosburg | 11 | 10 | 13 | 12 |
| J. H. Jones | 11 | 10 | 13 | 12 |
| A. L. Hoply | 7 | 7 | 7 | 7 |
| J. Millet | 6 | 5 | 3 | 4 |

Contra Costa Gun Club regular shoot for April came off last Sunday.

J. B. Lee was high gun for the day, breaking 38 out of 45. W. A. Simonton was second with a score of 36.

All events were shot under distance handicaps. The handicaps and scores were as follows:

| | | | | | |
|-------------|----|----|----|----|----|
| Sanders | 19 | 12 | 7 | 12 | 31 |
| McLean | 18 | 9 | 10 | 8 | 27 |
| Silvas | 16 | 11 | 10 | 6 | 23 |
| Van Proover | 16 | 6 | 7 | 2 | 16 |
| Lewis | 16 | 6 | 8 | 5 | 19 |
| Lee | 20 | 12 | 13 | 13 | 38 |
| Jones | 16 | 0 | 3 | 2 | 5 |
| McBoyd | 16 | 5 | 4 | 6 | 15 |
| Lehmkuhl | 16 | 5 | 8 | 7 | 23 |
| Moore | 16 | 10 | 10 | 10 | 30 |
| Brandt | 16 | 7 | 2 | 4 | 13 |
| Simonton | 19 | 13 | 10 | 13 | 36 |
| Dyer | 19 | 9 | 6 | 1 | 22 |
| Jackson | 16 | 9 | 4 | 8 | 19 |
| McCoy | 19 | 11 | 11 | 8 | 30 |
| Planz | 16 | 6 | 10 | 10 | 26 |
| Beasley | 17 | 10 | 8 | 8 | 26 |
| Beane | 19 | 9 | 11 | 12 | 32 |
| Koppen | 17 | 10 | 9 | 9 | 28 |
| Rice | 16 | 7 | 8 | 4 | 19 |
| Solomon | 16 | 4 | 4 | 4 | 12 |
| Ellerherst | 17 | 10 | 12 | 10 | 33 |
| Shaw | 17 | 12 | 8 | 9 | 28 |
| Robson | 16 | 6 | 8 | 2 | 23 |
| Shaw | 17 | 12 | 8 | 10 | 30 |
| Fernandez | 16 | 9 | 10 | 23 | |
| Varni | 18 | 10 | 5 | 7 | 22 |
| Wm. Hansen | 20 | 13 | 10 | 12 | 35 |
| Loucks | 16 | 8 | 9 | 8 | 25 |
| Skow | 16 | 3 | 7 | 9 | 10 |

Secretary Stanton A. Bruner is a live wire when it comes to publicity for his gun club. We commend his example to the secretaries of at least 100 gun clubs on the Pacific Coast.

The following circular from the Angel City is worthy the attention of trap shots; any shooter who can get 75 per cent or better should sit up and take notice. Shooters that cannot line 'em out to that extent, but who can attend the shoot, will not make a mistake by getting on the firing line at that.

The Los Angeles Gun Club will hold a three day tournament May 10, 11 and 12 that will bring the target cracks of Los Angeles to the front in the trap-shooting world.

A little more than a year ago, the present Los Angeles Gun Club was organized, not as a rejuvenation of the old Los Angeles club, but as an entirely new club, with nothing in common with the prior club excepting the name. Several months ago, the May tournament was quietly talked up among the club

members, but was not thought seriously of by anyone outside of a few energetic club workers, who made up their minds that this shoot was not to be a myth, but a real live shoot with trimmings that would open the eyes of the trap shooting public. The time has now arrived when the club is in a position to announce its first annual trap shooting tournament with \$3500 in added cash prizes.

The fact that this extremely large amount of cash is to be given away is not the only feature of note in connection with this trap shooting event. The most interesting and most unique feature of all, is the fact that this money is open to all contestants, professionals excepted, upon paying an entrance fee amounting to the price of targets only. The targets are to be trapped at the rate of three cents per target. One hundred dollars is to be hung up as a prize in each event, ten of which will make the program for each day's shoot. This will mean one thousand dollars each day. In addition to the three thousand dollars given in this manner, the club has provided a purse of five hundred dollars, to be divided by the twenty high average guns for the three days' shoot. This side money will give the shooters something to urge them on to high averages and will tend to create quite a rivalry between the contestants. This purse of five hundred dollars, as well as the regular program events, will be divided under the equitable system. This method of division was adopted as it is believed to be the surest way of dividing the added cash among the greatest number of shooters.

However, in making the above program, the visiting shooter was not forgotten by any means. A side pool of two dollars is provided to take care of those who will come from some distance, rightly expecting to have at least a part of their expenses returned by winnings during the tournament. It is certain that any shooter attending this tournament will get his fill of shooting for cash purses, as the club has the assurance of its local members and the trap shots in Southern California that they will be on deck for the full program and side pools during the entire three days. The pool moneys will be divided 40, 30, 20 and 10 per cent.

Does this program appeal to you? It certainly has made some hit with the California shooters.

It is well to call to the reader's attention that the Shriner convention takes place during the week beginning May 4, and this tournament will immediately follow. This will give the visiting shooters the advantage of the reduced rates to the Shrine convention, which will hold good over the tournament. If you are an Eastern shooter, or a shooter located anywhere on this green earth, and you intend taking in the Shriner convention, just slip your gun in your case and take part in the biggest bluerock shooting tournament during the year of 1912, and the most unique in the history of the game.

Four traps have been installed and arrangements have been made to handle two hundred shooters; if more come, none will be turned away. All standard loads can be purchased on the grounds.

This is the time to see the land of Sunny Southern California and take in the Shriner convention in addition to attending this tournament. Two weeks of parades, pageants, automobile road race, aviation, sightseeing and bluerocks. The time of your life to come and see how Los Angeles does things. A hearty welcome awaits you.

Three straight scores were shot last Sunday by members of the Fresno Blue Rock Club in the first shoot held there since 1904. Forty shooters, in squads of five, stood behind the traps and shot at the clay pigeons. The membership of the new club is now eighty and half of these fired 1,600 shots Sunday at the club grounds near the county hospital. Those who made clean scores were Victor Fuller, W. A. Robertson and Fred Stone. Here are some of the best scores in 20-bird events:

W. A. Robertson, 16, 17, 19, 16, 18, 19, 20, 16, 18, 16; J. S. Bradley, 12, 18, 19, 17, 19, 15, 18, 17, 16; W. H. Worswick, 15, 18, 19, 15, 15; William Eilert, 16, 16, 19, 16, 16, 17, 18, 19; Fred Berry, 13, 14, 16, 16, 19, 17, 16; Fred Holdscraw, 18, 15, 18, 12; Victor Fuller, 19, 13, 19, 18, 19, 20, 15, 17; Crawford, 15, 18, 16; Fred J. Stone, 15, 18, 20, 17, 16, 18, 18, 17, 16; W. J. O'Neil, 16, 18, 18.

The next shoot will be held tomorrow. All the for the convenience and accommodation of the members. On April 27 and 28 a team will be picked to be sent to Newman to participate in a big two days' shoot on the West Side grounds.

The Trap Shooters' Association of Seattle pulled off one of its very popular competitions March 31. There were five squads in attendance. Dustin Reid, Jr., one of the younger members, was high gun with the excellent score of 98 out of 100, which was splendid shooting, considering the general conditions. E. E. Ellis, an old-timer, coming in second with 96.

A number of visitors from outside towns were present and took part in the sport, among whom were Frank C. Riehl, Tacoma; Pete Hollohan, Portland; George Garrison, Olympia; Ike Fisher, Spokane; L. Reid Sr.; John Cowan, Salt Lake, and Pack Cooper, Tacoma.

The scores made were at 100 targets and were as follows:

Reid Jr., 98; Ellis, 96; Fdeming, 95; Reid Sr., 95; F. Riehl, 94; I. K. Fisher, 93; Pete Hollohan, 93; Jack Cooper, 91; Oppie, 90; Garrison, 86; Ruppe, 85; Smith, 85; Landwehr, 84; J. Bacher, 83; Canuch, 83; J. Cowan, 82; Maltbie, 82; Valleen, 81; Hall, 79;

Cochran, 77; M. H. Williams, 77; Jacobs, 76; Stadfeldt, 74; Hambright, 70; Wolf, 59.

Mr. Geo. L. Lyon, of Durham, N. C., has at last been able to set a date for his match with Lester S. German, of Aberdeen, Md., for the E. C. cup, emblematic of the championship of the world at inanimate targets. That date is May 4 next, and the place is the grounds of the Du Pont Gun Club in this city, states a Wilmington, Delaware, exchange.

It will be remembered that Mr. Lyon won the cup and title that goes with it at Atlantic City, N. J., September 23, 1911, the last day of the memorable Westy Hogan tournament. The race was shot under severe weather conditions, an erratic but strong wind making the targets hard to locate. The conditions were the same as for the challenge matches, viz.: 10 targets, unknown angles; 50 targets, expert rules, one man up, and 25 pairs. There were fifteen contestants, and Messrs. Lyon and German, when the smoke cleared away at the end of the contest, were found to be a tie with the following scores:

| Unknown Angles. | Expert Rules. | Pairs. | Total. |
|---------------------------|---------------|--------|--------|
| G. L. Lyon 88 | 35 | 46 | 179 |
| L. S. German 88 | 39 | 42 | 179 |

This tie necessitated a shoot-off, which was at 25 unknown angles, 25 expert rules and 10 pairs. The result was:

| Unknown Angles. | Expert Rules. | Pairs. | Total. |
|---------------------------|---------------|--------|--------|
| G. L. Lyon 25 | 19 | 19 | 63 |
| L. S. German 25 | 21 | 16 | 62 |

After the match was over Mr. German at once challenged Mr. Lyon, and it was originally decided that the match would be shot on the grounds of the Du Pont Gun Club early in December of last year. A postponement, however, was unavoidable, Mr. Lyon meeting with the sad loss of his father, who died suddenly in Baltimore two days before the date set for the match.

Bad weather then made it impossible to bring off the match for some time, and it was finally decided that it should be shot on the date above mentioned, Saturday, May 4.

This match will be the eighteenth that has been shot for the historic E. C. cup, four open contests and thirteen challenge contests having been decided since the cup was first put up for competition in 1896. The previous winners have been: W. R. Crosby, of O'Fallon, six times; Fred Gilbert, of Spiert Lake, Iowa, five times; R. O. Heikes, of Dayton, Ohio, four times, and J. A. R. Elliott, of Brooklyn, N. Y., and G. L. Lyon, of Durham, N. C., once each.

So many shooters from points far distant from Wilmington, Del., have expressed their intention of visiting the Du Pont Gun Club's grounds on May 4 to witness the match that the club has decided to hold an all-day shoot with a regular program of events, the match, of course, to be the main feature on the day's menu. No program has as yet been agreed upon, but in all probability it will be a 100-target race (five events of 20 targets each), with an optional sweep on each twenty targets and a trophy for each ten entries in the 100-target race—40 entries, four trophies; 50 entries, five trophies, and so on. Due notice will be given in these columns as soon as all particulars in regard to the day's program have been decided.

Five thousand dollars added money in September, Grand Prix of America, is the announcement of Manager F. C. Skinner, is the inducement to bring a large crowd of shooters to Denver, Colo.

Oakland Park Country Club blue rock scores for a recent Sunday shoot at 100 targets were:

Thomas, 96; Mortz, 94; Murray, 94; Tobin, 91; McDuffee, 90; Fletcher, 90; Skinner, 89; McAllister, 89; Johnson, 88; Kevan, 87; Davis, 87; Wesley, 85.

The Ring Point Gun Club held the opening shoot and barbecue of the 1912 season at the club grounds at Ring Point, near California City, Marin county, Sunday, April 14. The club has been completely reorganized and it is confidently expected that the 1912 season will be a banner season.

The following officers have been elected for the year: President, W. Scharetz; vice-president, Ed Barry; secretary-treasurer, Frank J. Weiss; general manager, W. Dwyer; shooting committee, R. Snyder (chairman), O. Scharetz, Thomas Connor, E. Barry and R. Scharetz.

The Du Pont trophy shoot at 25 targets was won by O. Scharetz who broke 18 and was high gun. The other scores were: W. Dwyer 14, G. Scharetz 9, T. Connors 16, L. Scharetz 11, F. Weiss 16, P. Hansen 12, W. Scharetz 15, R. Snider 11, A. D. Lloyd 9, R. Scharetz 7, R. H. Miller 4, P. Craigre 17, J. Zippel 9, B. Barrien 13

Secretary-treasurer Elmer E. Shaner of the Interstate Association, writes: The yearly averages for amateurs will be computed as follows:

First—The original contest will be based on 1200 or more single targets shot from the 16 yard mark at registered tournaments held prior to October 1, 1912, and apply to all amateurs who have made an average of not less than 88 per cent, at said number of targets.

Second—All amateurs who qualify in the original contest must further contest at 800 single targets shot from the 16 yard mark at the Post Season tournament.

Third—All amateurs who contest at the Post Season tournament will start on an equal footing in the yearly averages, regardless of the percentages made by them in the original qualifying contest.

The yearly averages for professionals will be computed as follows:

Not less than 2000 single targets must be shot from the 16 yard mark, and this only at the Southern Handicap, Grand American Handicap, Eastern Handicap, Western Handicap, Pacific Coast Handicap and Post Season tournaments given by The Interstate Association.

The Post Season tournament will be given on October 15, 16, 17 and 18, 1912. All amateurs who have, on October 1, made an average of not less than 88 per cent on 1200 or more single targets shot from the 16 yard mark at registered tournaments held in 1912, will be eligible to take part in the Post Season tournament.

THE LATE W. J. GOLCHER.

"Will" Golcher as he was familiarly known to a host of friends and sportsmen at every point on the Pacific Coast, passed away in this city April 14, after a long illness. He had been in poor health for quite a period and recently spent several months in San Diego in the hope of regaining his health.

Returning to this city four weeks ago his condition was so grave that he was placed in Trinity Hospital and underwent a capital operation. This last resort was futile and ended in the inevitable.

Will Golcher was a resident of this city since 1877. From that time until his decease he was identified with the sporting goods business. Clabrough Brothers, Claybrough, Golcher & Co., and after the disaster six years ago the firm was reorganized and the business conducted under the name of Golcher Brothers.

The deceased was a man of most pleasing personality, one whom it was a pleasure to know, and an honor to claim as a friend. He was a member of the California Wing Club, Golden Gate Gun Club, the Elks, Knights of Honor and a Knight Templar. He was a friend of all sportsmen and a patron of various field and outing sports.

He is survived by his mother, a widow and two sons, his brother Harry Golcher and a grandchild.

The funeral services took place last Monday, simple and impressive, as was befitting the last sad offices for a gentleman who believed in and practiced doing things without ostentation and display. Besides the near relatives there were present a large delegation of sportsmen from every walk of life. Four of the pallbearers were Phil B. Bekeart, Harry Hosmer, Ned Bosqui and Geo. Uhl, others officiating in that respect represented the Masonic and other orders.

ANGLERS' OUTING.

Tomorrow, Sunday, April 21, the California Anglers' Association will hold its fifth annual field day at the "white house" pool at Point Reyes. The success of the outings for the past few years has led the association to plan an even more elaborate entertainment this year. Handsome trophies will be given the winners in the various classes and a barbecue lunch will be served from 1 to 3 o'clock in the afternoon. This year there will be no entrance fee charged.

The field day committee, composed of Dr. L. T. Cranz, H. B. Gosliner, J. J. Gorman, A. B. Christensen and Charles F. Breidenstein, has completed all arrangements for the day's fun. The decision of the judges in regard to the awarding of all prizes and on all complaints will be final.

Dr. L. T. Cranz, chairman of the committee, is suffering with an attack of grip and is away in the Santa Cruz mountains and will probably miss this outing.

The conditions under which the fishing competition will be carried out are:

The fishing grounds shall be on the Paper Mill creek and its tributaries, including tidewater. The prizes are for fish caught on Sunday, April 21, only, in compliance with the State law. Fishing must be done with rod and reel and all anglers are on honor for the day's catch.

Judges for the prizes will be selected by the field day committee from participants on the ground at 2:30 p. m. All catches must be reported and registered at the "white house" pool not later than 3 o'clock.

No angler will be permitted to win more than one prize. Choice of prizes in any class given to the high hook. No catch is to exceed the legal limit in number.

The Northwestern Pacific has put on a special train at 7:45 to allow the anglers a longer day on the stream. There is also a regular train at 8:15, which leaves Point Reyes on return trips at 4:25 and 5:25 in the evening.

Striped bass anglers are on the waiting list. San Antone and Wingo fishing resorts have offered nothing recently of very satisfactory import. A grab or two of big fish has rewarded anglers fishing in Corte Madera slough recently, nothing material has yet been reported, however.

Net hauls of big fish have recently been made at McNear's Point. During the week local fish markets have displayed a plenty of big bass, fifty to sixty pounds a number of the fish weighed.

The clam casters are alive to the signs of the times and argue that the big fellows will show up at the resorts in due course.

Drink Jackson's Napa Soda.

ANGLING NOTES.

Trout anglers for nearly two weeks past have enjoyed good sport on many nearby trout streams. The north winds at the end of a week ago, however, made futile the wiles of the fly-caster. For tomorrow, barring the continuance of the northerly breezes, conditions for enjoying sport and recreation on the trout streams are most encouraging. The rainfall recently helped conditions for the upper and smaller streams. The waters should now be well cleared. In the main creeks the freshet probably sent down enough insect and other food to make advisable the taking along of the old stand-by baits, the angle-worm and tyee roe, nor might the spinner probably be out of place.

The popularity of Paper Mill creek, in Marin county, from the Lagunitas down to tidewaters, was demonstrated by the number of rodsters whipping ever bend and stretch of the picturesque stream. The average catches recently were not illustrative of prize beauties in the trout line, such is the perversity of the fish at different times.

One section, however, from North Bend down to Point Reyes, a brushy bit of water requiring the assistance of waders and a careful journey down the middle of the creek, was favorable Sunday to the extent of two baskets of pretty trout.

Olema creek has been in shape for some rather fair fishing since the season opened, notwithstanding an early report of very low water. Charles Urfer can give the details incident to taking one limit basket of nice sized trout.

At Duncan's Mills a number of anglers have had a look-in recently at a run of big steelhead just in from the ocean.

In that vicinity a number of good streams are at the disposal of the trout fishermen. When they are in good shape the sport is entrancing, when otherwise it is a long trip and love's labor lost.

Russian gulch, about two and a half miles below Duncan's Mills, opposite the ferry, seems to have the call just now, for Howard Vernon had no difficulty in catching a limit of good sized trout a recent Saturday, and was in fair shape for a repeat Sunday until a heavy rainfall suspended fly-casting operations. Mr. and Mrs. Marshall have had a three day limit spell on that creek and other anglers also have returned with good baskets, all eight to ten inch fish. Willow creek, up that way, is also well regarded by reason of recent good catches.

The summer schedule for the Ocean Shore Railroad will go into effect April 23. It is reported that an early Sunday morning train, leaving this city at 6:55 o'clock will go through to Tunitas Glen. This arrangement will be most acceptable to local anglers. A returning train will leave that point at 5:55 p. m. Sundays. This will enable anglers to enjoy a full day at different fishing creeks along the San Mateo shore.

For two weeks past many local anglers have visited the numerous San Mateo resorts. General reports indicate that good fishing conditions have prevailed.

Along the Purissima banks a number of fair baskets of trout were taken, a heavy downpour of rain one Sunday afternoon, however, sent the rodsters to cover.

Further down the San Gregorio has also given good piscatorial dividends.

The two weeks ago rains helped, to a certain extent, the fishing in Alpine, La Honda and Harrington creeks, confluents of the San Gregoria. Arthur Blade is particularly enthusiastic over an early week trip to the Harrington.

Pescadero creek and lagoon seem to have had the call. The main creek and lagoon being in most productive condition. Side trips to the Gazos and Buteno were not so satisfactory in basket results.

At Lobitos creek the rodsters last Sunday were among others: Dr. Koenigstein and Harry Skirm, when satisfactory fishing was enjoyed.

The Waddell creek anglers were Dr. W. O. Ogle and J. M. Fishbeck for limit baskets, including one nine pound steelhead.

The foregoing notes being a fair indication of what may be expected from the streams along the San Mateo shore.

Santa Cruz streams are keeping up the pleasing results found during the opening days of the season. Near Ben Lomond last Saturday and Sunday, Dr. Tarleton and a friend found no difficulty in catching two nice baskets of trout.

Anglers who have recently visited the upper reaches of Soquel creek have found a fair abundance of trout. Fly-fishing in all of the Santa Cruz streams is now reported to be in full swing. The favorite Coast stream patterns—brown and gray hackles, black gnat, professor and royal coachman, seem to be productive lures.

An Alameda county creek, the San Lorenzo, is dammed just a bit above where the Southern Pacific track crosses the stream. At this place were caught six large steelhead in the pool just below the dam.

Valpe creek, about five miles long, joins Alameda creek near the boundary line with Santa Clara county. Anglers who have dropped a fly in that creek for the past two weeks have been getting limits of six and eight inch fish.

Bayou creek drops into the Alameda near Livermore. This stream is some thirty miles in length and has the pleasing reputation of offering fine fishing.

BRAIN WORK IN DAIRYING.

There can be no true dairy progress for the dairyman until he has recognized fully and squarely the importance of brain work. He needs, in the first place, abundant knowledge of all the forces he is dealing with; second, he needs to have that knowledge arranged in practical shape so he can get at it and use it immediately when needed.

Then he needs energy and skill to carry out that knowledge. He needs more knowledge of the principles of soil, plant and animal life that he is dealing with each day, and better knowledge of sound business methods; therefore, it is imperative for the present day dairyman to secure the best dairy literature obtainable if he wishes to be a successful and respected citizen.

Using the cholera serum on pigs visibly sick with fever is one fruitful source of failure. It is difficult to convince some hog-breeders that pigs must be treated before they become

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$2 each per month. The finest climate in California and the track over which world's champions have been made. Address **S. H. BULLS, Proprietor, Santa Rosa, Cal.**

PUBLIC TRAINING STABLE.

Al. Russell, Los Angeles, Cal.

I have decided to make my home in Los Angeles, Cal., and will conduct a Public Training Stable. I would be pleased to meet or correspond with parties having horses to train or race. My stable is located on Menlo avenue, between 38th and 39th streets, one-half block from the New Exposition Track. This year I will race my horses through the Canadian and Pacific Circuits, starting about June 1st. **AL. RUSSELL, 910 W. 39th St., Los Angeles, Cal.**

sick, as the remedy is strictly a preventative, and has no virtue as a curative agent.

Warranted to give satisfaction.

FOR SALE.—Don Direct; high class seal brown stallion; 16 hands; weighs 1150; trotter; sure foal getter; never trained; stepped mile in 2:45, last half in 1:20, right off the road. Sire Robert Direct; dam Coridan by Athadon; second dam Cora Wickersham (dam of Athasham 2:09 1/2); Dosham 2:09 3/4, Mattawan (3) 2:17 1/2, Nogi 2:10 1/4, Kinneyham (2) 2:18. **Two-year-old filly Athelo**, by Don Direct; dam Santa 2:25 1/4 by Ellerslie Wilkes. Both standard and registered. Sell at a bargain. **WM. SINNOCK**, Santa Ana, Cal.

STANDARD MCKINNEY STALLION FOR SALE OR LEASE.—Scott McKinney 33749, by McKinney dam Primrose (great broodmare) by Sidney; second dam Brown Rose by Privateer; third dam Lady Baldwin by The Moor; fourth dam daughter of Ben Lippincott, son of Williamson's Belmont. Scott McKinney is a handsome bay horse; weighs about 1100; good gaited, and all his get are fine individuals and show speed. Price reasonable. Has State license for this year. Address **DR. M. F. SCHALTENBRANDT**, 4051 20th St., San Francisco.

BARGAINS FOR SALE.

ON ACCOUNT OF REMOVAL I MUST SELL THE FOLLOWING GRANDLY BRED TROTTERS AND PACERS WITHIN THE NEXT SIXTY DAYS:

DR. WM. S. JENNINGS, ch. g., 16 hands, 8 years old; a pacer; no record; with less than 90 days' work paced a mile in 2:11, a half in 1:01 1/4, last quarter in 30 seconds, and last eighth in 15 seconds. Absolutely sound and is free-legged. Sired by F. S. Turner; dam Caritone by Antone (son of Dexter Prince), dam Biscari (dam of 9) by Dictator 2:17; second dam Bicara (dam of 7) by Harold, etc. One of the fastest and best "prospects" in California.

CALIFORNIA DILLON, ch. s.; pacer; record 2:18 as a three-year-old; trial 2:12 1/2, half in 1:02 1/4, quarter in 30 1/2 seconds. Sired by the great Sidney Dillon, dam Caritone by Antone; second dam Biscari (dam of 9) by Director 2:17, etc. Free-legged, sound, kind, stylish, royally bred, a sure foal-getter, and one of his colts, James W. Stewart, paced in 2:22 as a two-year-old in Salt Lake City last year.

MAJOR DILLON, ch. s.; 7 years old; 16 hands; weighs 1200 pounds. Has no record; been a mile in 2:16, half in 1:06 and a quarter in 32 seconds. Sired by Sidney Dillon; dam Maud Fowler 2:21 1/4 (dam of Sonoma Girl 2:04 1/4, etc.) by Anteo 2:16 1/4. One of the choicest bred, soundest, purest-gaited (no hoppers) and most natural race-horses in California. He is a sure foal-getter and all of his progeny are large, stylish and fast.

YEARLING STALLION, bay, by Guy Dillon 2:23 1/2 (by Sidney Dillon, out of By Guy) dam of Caritone by McKinney 2:15 1/4, out of Caritone C. by McKinney 2:11 1/4; second dam Adioo (dam of 2) by Guy Wilkes 2:15 1/4; third dam By (dam of 2, 3 sires of 10 and 2 dams of 5) by Nutwood; fourth dam Rapidan (dam of 3, 2 sires of 54 and 5 dams of 7) by Dictator; fifth dam Madam Headley (dam of 1, 1 sire of 4 and 2 dams of 5) by Edwin Forrest 851, the thoroughbred. This is a fine, large, handsome, heavy-boned, trotting colt. His breeding can hardly be improved. He will undoubtedly be a very fast trotter and who will have his equal as a sire when his days of racing end? Price \$200.

THREE FULL SISTERS, all trotters, two blacks and a brown; aged respectively 2, 3 and 4 years. Sired by Guy Dillon 2:23 1/2, out of Caritone by Antone, etc. These are halter broken, handsome, sound and straight, and bred in the purple. Prices: 2-year-old, \$175; 3-year-old, \$200; 4-year-old, \$225.

THREE-YEAR-OLD by California Dillon, out of Caratina by McKinney 2:11 1/4; second dam By (great broodmare) sister to Lockheart 2:08 1/2 by Nutwood 2:18 1/2, etc. This is a pure-gaited trotter; one of the handsomest, best bred and best formed ones of her age in California. Price \$250.

A HALF-SISTER TO RUTH DILLON 2:06 1/4. A four-year-old trotter by Guy Dillon 2:23 1/2, out of Russle Russell by L. W. Russell (a sire); second dam, Oakley Russell great broodmare) by Happy Russell 4494, etc. This is a very fine-looking bay filly; a natural trotter; knows no other gait, and without doubt will be as fast as her half-sister. One of the classiest and most stylish trotters one could wish to see. Her bloodlines are of the very best. She is like the balance listed herein—absolutely sound. Price \$250.

For further particulars, address

FRANK S. TURNER, Santa Rosa, Cal.

GOOD ONES FOR SALE.

PAL (2) 2:17 1/2, standard bred trotter, 5 years old. Sired by Palite 45062, dam Lorna D. by Bayswater Wilkes; second dam Bee Sterling (dam of 4 trotters with records better than 2:15 and Nat Higgins, trotting (3) 2:20) by Sterling; third dam Flash (dam of 6 in the list) by Egmont. Pal will be a good purchase for anyone looking for a young stallion of good breeding, good individuality and all qualities of a race horse.

NAT HIGGINS, 4 years old, record 2:20 trotting made as a three-year-old. Sired by Palite 45062; dam Bee Sterling, breeding same as above.

SORREL MARE, 4 years old, with a time record of 2:24 1/2 made pacing as a three-year-old. With 90 days' work showed an eighth in 16 seconds. Goes light, no hoppers. By Palite 45062; dam Babe by Dawnlight; second dam Bee Sterling, as above. A full sister to this filly stepped a mile last year in 2:14 at San Jose. This mare is handsome, kind, and gentle and will step a mile in 2:10.

TWO-YEAR-OLD sired by Palite; a good-gaited trotter; entered in the Futurity Stakes and can step fast. Dam Paprika, who stepped a mile in 2:16 as a three-year-old, by Oro Belmont 2:15 1/2; second dam a producer by Anteo; third dam by Alexander; fourth dam by Williamson's Belmont. A good prospect in the Futurity Stakes.

THREE-YEAR-OLD CHESTNUT GELDING, full brother to the above; trotted a mile in his yearling form in 2:43 and is trotting fast now. Entered in the Futurity Stakes. Another good prospect.

FOUR-YEAR-OLD FULL BROTHER to the above. This colt stepped a mile as a two-year-old in 2:31 with a short season's work.

LOULA, a standard bred 4-year-old filly by Nushagak, sire of two 2:10 performers, dam by Nutwood Wilkes, dam of 3 in the list; second dam Woodflower (dam of Prince Ansel 2:20 at 2 years old and Seylex 2:15 1/2) by Ansel; third dam Mayflower 2:30 1/2 (dam of Manzanita 2:16 and Wildflower) by St. Clair. This mare is soon to foal to McFadyen.

TWO-YEAR-OLD BROWN FILLY by Carlok; dam Truth (trial 2:12 at 4 years) by Searchlight; second dam Bee Sterling, etc. This filly is entered in one of the stakes and is trotting nicely now with the short workouts she has had. She is very handsome and will make a valuable mare.

Besides the above, I have some nice yearlings, all entered in the stakes. Will be pleased to show the above to prospective purchasers. Call on or address **E. D. DUDLEY**, Dixon, Cal.

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7486 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

Here's Why

They're All Trying to Measure Up to Save-the-Horse

Read What Our Book and Treatment Does for This Man in Four Days

WESTBORO, MASS., Feb. 7, 1912.—I am using my first bottle of Save-the-Horse. Last Friday my horse strained his shoulder speeding on ice; it was a task to get him home; and to-day he jogged as usual and insisted on playing. From a dead lame horse to a sound jogging one inside four days seems almost unbelievable, yet it certainly is a fact. Where one can have the benefit of your book not one moment of valuable time need be lost. I shall retain the contract, yet am well satisfied. Very truly yours,
EVERETT L. SMITH.

BLANCHE MCKINNEY-HUNTER COMBINATION

ROMAN HIPPODRÔME RACES
AND HIGH SCHOOL HORSES
A Popular and Up-to-date Free Attraction for Fairs
Permanent Address: Haddam, Conn., Feb. 20.

Troy Chemical Company, Binghamton, N. Y.

Dear Sirs:—Please send me your Save-the-Horse book and book on the Use and Abuse of Bandages, mentioned in your ad. We have used your remedy Save-the-Horse and will say we have found it to be one of the best remedies for the horse that we have ever ran onto. One of our runners bowed a tendon last fall so bad that by the time we got him back to the stable he could barely put his foot to the ground, and all of the horsemen that saw him said it would be impossible to use him again that season, and some went so far as to say he would never be able to race any more unless he was fired. We used your Save-the-Horse, and within 23 days from the day he was hurt we raced him three-quarters of a mile at Greenfield, Ia., in 1:15½, winning. We raced him two more times afterward. The horse's name is Major Daniels, and he is now as sound as ever, and you can bank on always finding Save-the-Horse in our stables.
Yours respectfully,
L. M. HUNTER, Manager.

THE LIVERPOOL and LONDON and GLOBE INSURANCE COMPANY.
McCook, Neb., Feb. 3, 1912.

Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—Please send me your latest book on lameness. I used Save-the-Horse on a badly curbed stallion, and today he is absolutely sound and has a certificate to that effect from the state veterinarian.
Yours very truly,
A. G. BUMP.

MATTHEWS, WEEKS & CO., Wholesale Grocers.
Rocky Mount, N. C., Feb. 13, 1912.

Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—What can you do for heaves? Your Spavin Remedy is the best medicine made; it has no equal. Send me your latest book.
Yours truly,
W. G. WEEKS.

Send me \$1 worth of Worm Medicine. I used one bottle of your Spavin Remedy four years ago. It cured my mare as sound as a dollar. She had been lame for two years and I had tried many different remedies and never found anything equal to yours.
Yours respectfully,
J. M. STROCH, R. F. D. 1, New Cumberland, Pa.

But first write describing your case, and we will send our—BOOK—Sample Contract, Letters From Business Men the World Over, on Every Kind of CASE and Advice—ALL FREE (to Horse Owners and Managers—Only). PUT YOUR HORSE TO WORK and CURE HIM NOW. Write! AND STOP THE LOSS.

The McKinney Trotting Stallion
Expressive Mac 41523

Record 2:25½

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07¼ (trial 2:05¼), Eddie Mack (3) 2:29½.

By MCKINNEY 2:11¼; dam Expressive (3) 2:12½ (dam of Atlantic Express 2:08½, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03¼, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare la foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of **Tanglefoot Fly Paper**. There is fully one-third more compound per sheet on **Tanglefoot** than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for **Tanglefoot**.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans.
Will protect your trees from all climbing insects.

The majority of berds of scrubs, owned by men who are not in close touch with educational work that is under way in the industry, are notoriously unprofitable.

To fill cracks in walls, mix plaster of paris with vinegar, instead of water; it will not set for about 15 minutes, and it can be nicely smoothed over before it bardens.

\$10 DUE ON YEARLINGS

Wednesday, May 1, 1912.

NOTHING MORE TO PAY BEFORE 1913.

Pacific Breeders Futurity Stakes No. 11---\$7,250

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By **McKern** 39460, son of **McKinney** 2:11 1/4, out of **Helena** 2:11 1/4 (dam of 5 in 2:30) by **Electioneer** 125.

First dam **Ida Apetz** by **Nutwood Wilkes** 2:16 1/4 (sire of **Copa de Oro** 1:59, **John A. McKerron** 2:04 1/2, **Happy Dentist** 2:05 3/4, etc.); second dam **Novellist** 2:27 by **Norval** 2:14 1/4; third dam **Elsie** (dam of 5 in 2:30 list) by **Messenger Duroc**.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the **McKinney-Guy Wilkes** and **Electioneer** blood.

Season of 1912 at **MAYFIELD**, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address

J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

NEAREST MCKINNEY 2:13 1/2, sired by **MCKINNEY 2:11 1/2**; dam, Mand Jay C. by Nearest 2:22 1/2 and own brother to John A. McKerron 2:04 1/2 and half-brother to Louise Carter; dam of Wilbur Lou (1) 2:19 1/2 and sire of Highly 2:04 1/2, Alone 2:09 1/2, Joe Gans 2:19 1/2, Trueheart 2:19 1/2, Just It 2:19 1/2, and others, by Nutwood Wilkes 2:15 1/2, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/2, etc., and dams of San Francisco 2:07 1/2, Mona Wilkes 2:03 1/2, etc.; 2d dam, Fanny Menlo (dam of Claudius 2:13 1/2) by Menlo 2:21, by Nutwood 2:18 1/2, greatest brood mare sire; 3rd dam, Nellie Antee by Antee 2:15 1/2; 4th dam, Fanny Patchen, by Geo. M. Patchen Jr. 2:27. Nearest McKinney is one of the bandomest McKinneys standing for public service. Color beautiful brown, 15 bands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14 1/2 and in 1911 got a record of 2:13 1/2, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

FEE, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address **T. W. BARTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.**

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by Bon Voyage 2:08; dam Loma E. by Stam B. 2:11 1/2; second dam Italia (great broodmare) by Sidney 2:19 1/2; third dam Dot 2:29 by Prompter, sire of dam of Gratt 2:02 1/2. Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free. Will make the season of 1912 at **EASTERBY RANCH, 3 miles east of FRESNO, CAL.** **TERMS: \$50 to insure.** Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

Athasham Race Rec. 2:09 1/2. Reg. No. 45026. A Game Race Horse in the Stud

Bay stallion; stands 15.3 bands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07 1/2, Athasham 2:09 1/2, Donasham 2:09 1/2, Sue 2:12, Listerine 2:13 1/2, Mattawan (3) 2:17 1/2, and 8 others in 2:30); dam the great broodmare Cora Wickersham (also dam of Nogi (3) 2:17 1/2, (4) 2:10 1/2, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasham 2:09 1/2, and Kinneysham (2) 2:18 1/2, by Junio 2:22 1/2 (sire of dams of Geo. G. 2:05 1/2, etc.). Athasham has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06 1/2 in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at Orchard Farm and Race Track, Fresno, Cal., for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place. **D. L. BACHANT, R. R. 1, Fresno, Cal.**

The Jay Bird-Baron Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by Jay Bird 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam Alma Wilkes (dam of 2) by Baron Wilkes 2:18; second dam Almata 2:31 by Almont 33; third dam Alma Mater (dam of 8) by Imp. Australian, etc. Alconda Jay sires size, style and good looks. His colts are fast, natural trotters.

Alconda Jay, dark brown stallion, stands 15.3 and weighs 1150 pounds. He was bred at Maplehurst Stock Farm, Paris, Ky.; foaled in 1905.

Will make the Season of 1912 at **THE SALINAS FAIR GROUNDS, SALINAS, CAL.** **TERMS: \$40 the Season.** Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. **H. H. HELMAN, Salinas, Cal.**

KING S. (Trial) 2:15

Sire of Maurice S. 2:07 1/2

Sire, Silver King 3622; dam Maud by Brigadier; second dam by Owen Dale.

King S. is one of the handsomest stallions on the Pacific Coast. He has size, speed, is a sure foal-getter, and has every qualification to make him one of the greatest of sires. His oldest and first colt trained is Maurice S., one of the most consistent race horses in California last season, and five others, now being handled at the Marysville track, show remarkable speed.

King S. will make the Season of 1912 at the **J. STRAIN RANCH, 10 miles north of MARYSVILLE, CAL.**

FEE: \$50. Usual return privilege. The best of care taken of mares at \$2.50 per month, but no responsibility assumed for accidents or escapes. For further particulars, address **J. E. STRAIN, Marysville, Cal. Box 514.**

McADRIAN 2:24

Reg. No. 45391. Sire of

| |
|-------------------------------|
| (Bert Kelly (trial) 2:11 1/2) |
| (Trix McAdrian 2:23 1/2) |
| (Grace Chalmers (tr) 2:24) |

Sired by GUY MCKINNEY (sire of Vernon McKinney 2:02, Linden G. 2:22, etc.); dam MAPLE LEAF 2:34 1/2 by Adrian 2:26 1/2 (sire of Roseta A. 2:14 1/2, son of Reliance 2:22 1/2 and Adriana by Signal 2:24 1/2); McAdrian's granddam was OLLIE RAY 2:39 1/2, dam of Acclamation 2:24 1/2 (sire of Lizzie C. 2:15), Vendome, dam of McKinley 2:29; his great granddam was MARY BLAINE by Signal 3:27 (sire of the dam of Prussian Maid 2:19, etc.). Guy McKinney, sire of McAdrian 2:24, was by McKinney 2:11 1/2, out of Flossie D., by Guy Wilkes 2:15 1/2; second dam, Blanche Ward (dam of China Maid 2:05 1/2), by Onward 2:25 1/2; third dam, Blanche Patchen, by Mambrino Patchen 58, etc.

McAdrian is one of the bandomest and strongest made grandsons of McKinney in California. He has no faults; is a pure gaited trotter and a sure foal-getter. He will make the season of 1912 at the Pleasanton race track. **TERMS: \$30 for the season.** For further particulars, apply to or address **E. D. DIGGES, Owner, 743 E. Anderson St., Stockton, Cal.**

LOGAN POINTER 52167

One of the best brood sons of the pacing king Star Pointer 1:59 1/2.

Dam Effie Logan (dam of Sir Albert S. 2:03 1/2; Jim Logan 2:05 1/2, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Durfee 11256 (sire of Shecam 2:12 1/2 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ekippe (sister to Creole 2:15, sire of Javein 2:08 1/2, etc.); 3rd dam Grace (dam of Daedalion 2:08 1/2, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15 1/2 bands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to The Harvester 2:02

Sired by Ozono, trial (2) 2:17 1/2, sire of Norvalon (4) 2:22 1/2 by Moko 24457 (sire of Pereno 2:05 1/2, Brenda Yorke 2:04 1/2, Native Belle (3) 2:05 1/2, and the dam of The Harvester 2:01. First dam Maggie Yeazer (dam of Walnut Hall 2:08 1/2, sire of The Harvester 2:01, etc.) by Red Wilkes 1749; second dam Doela Payne (great broodmare) by Almont 33.

Black Hall is a very handsome black horse, standing 15.3 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS: \$50 for the season; usual return privilege.** California Stallion License. Pure bred.

ATHADON 20990 Rec. (1) 2:27

Sire of The Donna 2:07 1/2, Athasham 2:09 1/2, Donasham 2:09 1/2, and 15 others

Sired by Mntndon 9392, sire of Athadon (1) 2:27, etc. First dam Athalie (dam of 7) by Harkaway 11803; second dam, Mag by Alcalde 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 15 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sire of Kinneysdam (2) 2:18 1/2, winner 2-y-o pacing division Breeders' Futurity

Sired by McKinney 2:11 1/2 (sire of 23 in 2:10 list). First dam Palavena (2) 2:19 1/2, also dam of Mendovena 2:19 1/2 and Menlo 2:29 1/2, sire of Blanche R. 2:05 1/2, by Palo Alto, rec. 2:08 1/2, Reg. No. 5354, he by Electioneer 125; second dam Astoria (dam of Palavena (2) 2:19 1/2 by General Benton 1755; third dam by Kentucky Prince, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15.3 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS: \$25 for the season; usual return privilege.** California Stallion License No. 125. Pure bred.

These horses will make the Season of 1912 at **FRESNO, CAL.,** at Geo. L. Warlow's ranch. Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **GEO. L. WARLOW, Fresno, Cal.**

NOGI 2:10 1/2 ---Reg. No. 57383

Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and never beaten as a 3 year old.

Sired by Athasham 2:24 1/2. First dam Cora Wickersham (dam of Athasham 2:09 1/2, Donasham 2:09 1/2, Nogi 2:10 1/2, Mattawan (3) 2:17 1/2, Kinneysham (2) 2:18 1/2) by Junio; second dam by Whippleton 1833; third dam by Gladiator 3336.

Nogi 2:10 1/2 is a very handsome bay stallion with black points; 7 years old; stands 15 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at home of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madera, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.**

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09 1/2, Jay Bird's greatest son; dam Exine 2:18 1/2 (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15 1/2; second dam Euxine (dam of 5) by Axtell 2:12; third dam Russia 2:28 (great broodmare) by Har. old 413; fourth dam Miss Russell (dam of Maud S. 2:08 1/2 and 5 others), etc. Best Policy is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

After the season is over these two horses will be taken to the races this year. Good pasturage at \$2.50 per month, and the best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **R. O. NEWMAN, Box 575, Visalia, Cal.**

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04 3/4, champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07 1/2, second fastest stallion of 1910.

Grace Bond (3) 2:09 1/4, winner both Kentucky Futurity.

Creighton 2:08 1/4, record made in 1911.

Half brother to Jay Hawker 2:14 3/4, sire of Country Jay 2:05 3/4, Susie Jay 2:06 3/4, etc.

Half brother to The Tramp, sire of Bervaldo 2:08 3/4, Trampfast (2) 2:12 3/4.

Half brother to Sorrento Todd (4) 2:14 3/4, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18... Sire of 12 in 2:10, including Bumps 2:03 3/4, Ruhenstein 2:05, Baron May 2:07 3/4; sired dams of 4 in 2:10.

SORRENTO... Dam of Jay Hawker 2:14 3/4, Sorrento Todd (4) 2:14 3/4, Belle Sentinel 2:15, Bola 2:19 3/4, Lazy Bird 2:23 3/4, Teddy Sentinel, 2:29 3/4, The Tramp (sire), etc.

4th dam Virgie—by Abdallah 15. 5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10 3/4 in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

- Francis J. 2:08 Legal Patchen .. 2:15 3/4 Dorothy C. 2:19 3/4
Evelyn Patchen... 2:10 3/4 Lucie Patchen .. 2:16 Louise Patchen .. 2:19 3/4
Scott Patchen .. 2:12 3/4 Jerry Patchen .. 2:16 3/4 Dr. Warren 2:19 3/4
Dessie Patchen .. 2:13 Knightstown Belle 2:16 3/4 Roscoe Binning .. 2:20
Frank Patchen .. 2:13 3/4 Alec Williams .. 2:18 3/4 Mary Patchen ... 2:20 3/4
Ruh Patchen .. 2:13 3/4 Lois Patchen 2:19 3/4 Black Patchen .. 2:20 3/4
J. C. Patchen ... 2:14 3/4 Auduous the Miller 2:19 3/4 and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 3/4 (trotted to high wheels), Anglin Wilkes 2:16 3/4 over half-mile track, trial 2:09 3/4, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Both of the Above Horases Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed.

License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16 1/2, sire of Copa de Oro 1:59, John A. McKerron 2:04 3/4, etc., and 2 dams of San Francisco 2:07 3/4, Mona Wilkes 2:03 3/4, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17 3/4 and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13 3/4, and timed separately in 2:14 3/4, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24 pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes.

For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13

Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22 3/4, (3) 2:15 3/4, (4) 2:11 3/4, Ella Mac (3) 2:14 3/4, Vallejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed.

Sire, McKinney 2:11 3/4; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09 3/4 to 2:28 3/4) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the

DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege.

The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

THE HARD-HITTING, FAR-REACHING LOADS

Duck shooting is a great test of the shooting qualities of a shotgun shell. Many of the shots are at long range, and, as all shooters know, ducks generally fly mighty fast. The most successful wild fowl shooters use and endorse Winchester Factory Loaded Shells, "Leader" and "Repeater." Experience and trial have convinced them that they are the killing loads. Careful and correct loading make them so. Try them out yourself.

TOM SMITH 2:13 1/2 P. F. Davey, San Jose

TWENTY years ago there was not a city of importance on the Pacific Coast that did not have its race track and fair grounds, and California annually contributed from its treasury money to encourage animal husbandry and the upliftment and development of the wonderful agricultural resources and mechanical arts and sciences of this State. Adverse legislation and the abolishment of appropriations for their support in 1903 by the late Governor James Budd caused the abandonment of every one of these places and checked the hopes and aspirations of tens of thousands of people who were engaged in agricultural and mechanical pursuits and the breeding and importation of fine horses, cattle, sheep and hogs. While the leading States in the East and Middle West were striving to encourage their farmers and manufacturers that Governor vetoed the bill passed by the Legislature and put the stamp of discouragement on the best projects of the people of this fair land. Not one dollar of these appropriations had ever been used for horse racing. This was only the "side issue" which attracted the crowds just as it does today throughout the United States.

But a change is being wrought, and the right kind of enthusiastic people are making their appearance. In Los Angeles the efforts of Messrs. W. A. Clark Jr., C. A. Canfield, Clarence Berry, L. J. Christopher, W. A. Durfee and a few others have accomplished wonders in renewing public interest in fairs and race meetings during the past two years; at Fresno, Geo. L. Warlow, D. Bachant, J. Dickinson, A. S. Kellogg and others have shown what they can do; at Hanford, another little band has made the fair and race meeting there a huge success, and at Salinas the "One Big Week" of 1911 proved that every citizen in Monterey and adjoining counties were alive to the benefits to be derived from an annual fair and race meeting. In Sacramento, Marysville and Woodland the same good results have been obtained. Santa Rosa will be another place and Chico another that have progressive men working for the cause, but it remained for one enthusiastic business man to come from far-away Winnipeg, Manitoba, to give the people living in and near San Francisco Bay an opportunity to have the best fair and race meeting held for over twenty years in this vicinity, and that man is Mr. R. J. MacKenzie.

He purchased the famous race track and grounds at Pleasanton last Monday, and the people in Alameda County are now desirous of holding a county fair and race meeting and Mr. MacKenzie is going

to help them and will make those acres of rich alluvial soil outside of the race track proper one of the prettiest places imaginable for holding such a celebration. Upon receipt of the news that he will do this, meetings have been called everywhere to rally to his support; and everybody seems to have awakened to the great responsibility he has assumed. All are anxious and willing to assist him in making this fair one of the greatest and best ever held. Committees will also be formed to take up the matter of having a highway made through the beautiful Niles Canyon, the main artery connecting Livermore Valley and the rich lands bordering San Francisco Bay. The road to Pleasanton via Dublin will be pushed to completion immediately, and men are to take hold of this project with a determination to see that it is done, and done quickly.

Mr. MacKenzie has decided to make San Francisco his home and the race track at Pleasanton his park and playground. He is recognized as one of the leading trotting horse enthusiasts in America. He has some of the finest horses in Canada and in the Middle West; these he will bring to Pleasanton and with them will come other owners who have choice horses to train, and the track accommodations there will be tested to their limit.

There are many interested in trotting horses in California who have never faltered in their devotion to them during the long spell of idleness since the fairs were abandoned, but have retained their membership in the Pacific Coast Trotting Horse Breeders' Association, the oldest and most prosperous organization of its kind in America, and they are also ready to aid in every way possible the growth of the industry. We refer to such men as I. L. Borden, S. Christenson, P. H. Smith, Ray Mead, W. A. Shippee, J. B. Iverson, Chas. F. Silva, Frank Ruhstaller, W. F. Whittier, M. Henry, J. F. Dunne, R. O. Newman, S. H. Cowell, R. S. Irvine, G. L. Baker, Frank Wright, Ben Rush, Alex. Brown, M. C. Keefer, H. S. Hogoboom, Capt. Wm. Matson, Col. J. C. Kirkpatrick, A. J. Molera, E. D. Dudley, Capt. McCan, J. E. Strain, and dozens of others who see the future of the light harness horse more promising than ever; and Mr. MacKenzie will be gratified in knowing that the right hand of fellowship has been extended to him and he is due for a good, warm California welcome wherever he may be, for he is worthy of it, for has he not proven his gameness in the face of discouragements which would have driven hundreds of others out of the business, and all true sportsmen in the United States have many times expressed their admiration for him? We again voice the sentiments of everybody interested in the welfare of the people of the whole Pacific Coast when we say we most cordially welcome Mr. R. J. MacKenzie!

FIVE DOLLARS is due and payable on weanlings, trotters and pacers, foals of 1912. This is the second payment in the Pacific Breeders' Futurity Stake No. 12, value \$7250. There will not be another payment of \$5 due until October 1, 1912. It is almost unnecessary to call the attention of owners and breeders to the many, fine advantages a colt has if he is entered in this rich stake. By it he has a future money-winning prospect if his speed is developed; if not he may change ownership and the fact that he is entered in the stake adds much to his value. If he does not change ownership and is trained he has several splendid opportunities to win money and glory, and any owner feels proud in declaring that his colt or filly is entered in such a stake. But this is the very last notice, and owners cannot be offered to overlook it. To make it more impressive let them remember that Wednesday, "May Day" cannot be celebrated better than by sending in the second payment (\$5.00) for each nomination already made in the Pacific Breeders' Futurity No. 12.

LOS ANGELES will be one of the best racing points on the Pacific Coast Circuit this season, and the Los Angeles Harness Horse Association has issued a programme of races for its four days' meeting that furnishes pleasant reading for horseowners and trainers. On Wednesday, October 6th \$4000 will be paid out; on Thursday, \$4700, on Friday, \$5450 and on Saturday \$6750. In addition, there will be a cup race each day for amateur drivers. Entries for these races will close Wednesday, May 15th. Read the advertisement in our business columns and send at once to Shirley Christy, Phoenix, Arizona, or E. J. Delorey, 305 1/2 South Spring street, Los Angeles, for entry blanks.

"NOTHING is done by halves in Los Angeles," is a trite saying which is proven by the announcement of the \$10,000 Futurity stake for foals of 1912 to be given by the Los Angeles Harness Horse Association in 1914 and 1915 for trotters and pacers. This is the most valuable Futurity stake ever offered on the Pacific Coast and the terms of payment and conditions are so liberal that every owner of a trotting bred colt and filly should make an entry in this event. Nothing enhances their value more than the fact they are placed on an equality with other aspirants for stakes such as these, and it is the consensus of opinion among breeders everywhere that in no other way can they place a value upon their colts and fillies than the opportunities these youngsters have in this way for winning thousands of dollars at a very insignificant expenditure. It is an honor to say that "My colt is eligible to start in that Los Angeles stake, or that Breeders' Futurity, and he is engaged in other stakes which aggregate \$50,000!" If the colt or filly is not entered in such events and the question is asked: "Is he entered in any Futurity stakes?" the answer is a negative one, both buyer and seller instantly recognize the fact that they are considering a colt or filly that may have a world of speed, but his money-earning capacity has been taken from him and therefore a very low valuation must be made. It is of vital importance, therefore, for every owner of a trotting or pacing foal to send \$2 May 15th to Secretary Delorey of Los Angeles and have that foal entered in the Los Angeles Futurity Stake No. 1. Blanks will be furnished from this office.

THE SUM of \$120,000 is offered in stakes and purses on the Western Canada Circuit this year. The programme of events appears in this issue and deserves the earnest consideration of every owner and trainer on the Pacific Coast. There are many horses in training now which will be ready to race at Calgary for the valuable stakes and purses offered there and then can be taken down the line until the opening of the Pacific Coast Circuit which commences August 12th, if they do not care to continue racing to Lethbridge, taking in Moosejaw, Winnipeg, Brandon, Regina, Saskatoon and Edmonton on the way. Visiting horsemen are most cordially welcomed by these associations, and all who have been over this circuit declare they will return this year. Study the programmes carefully and make arrangements to go. It is a most pleasurable journey and one never to be forgotten. The purses are large and conditions most liberal. See page 9 of this issue.

EVERY purchaser of a standard and registered stallion or mare should insist upon receiving with the bill of sale a certificate of transfer to be filed with the American Trotting Register Association of Chicago. This will save much trouble in future registrations, as the register association requires that the transfer of ownership be recorded before registering the produce, and will not accept a certificate of breeding of the mare to the stallion from the new owner until the transfer of ownership is on record.

NEXT Wednesday, May 1st, a payment of \$10 is due on all foals of 1911, now yearlings, in the Pacific Breeders' Futurity Stakes No. 11, value \$7,250. It is of the greatest importance to owners who have made entries in this valuable stake. Its advantages are so apparent to them that it is almost needless to refer to them again. However, do not overlook this payment.

OUR frontispiece this week is from an old engraving of the Stockton race track, made in 1889, and was kindly furnished by Lou Hicks, son of the late Dr. M. W. Hicks, who brought so many descendants of the Flaxtails to California and was one of the closest students of the trotting horse breeding problem in the United States.

SEATTLE is to the front with its race meeting at "The Meadows" this year with the early closing purses, ranging in value from \$2500 to \$200. Entries to these will close Wednesday, May 15th. Those contemplating going north should not overlook this meeting. Send for entry blanks to Albert M. Robinson, P. O. Box 366, Seattle, Washington.

Wm. Higginbottom received \$355 for Chiquito 2:10 and \$375 for Siesta 2:22 1/2 at the Portland sale.

NOTES AND NEWS

Do not overlook next Wednesday, the first of May, as several payments are due then.

Chas. Durfee is delighted with the way his mare Zulu Belle is pacing at San Jose.

Upward of 1500 mares have been nominated in this year's \$26,000 Kentucky Futurity.

Remember next Wednesday is the first of May and entries are due on a number of Futurity stakes on that day.

The Russian champion Krepesch 2:08½, recently changed hands for 175,000 roubles, which is equivalent to \$87,500.

The meeting at Pleasanton last Saturday was a great success and it was said there will be another race meeting next month.

The famous broodmare Sorrento, dam of The Bondsman has been leased by J. R. Magowan of Mt. Sterling, Ky., to breed to Mainleaf (3) 2:08¼.

There is nothing in that story of the sale of Brook Nook Ranch in Montana. Mr. Larrabee still owns it and Henry Miller looks after it. There will be trotters bred there for some time to come.

Entries in the big \$10,000 Los Angeles Futurity will close May 15th. Every good trotting or pacing foal on the Pacific Coast should be named in this rich stake.

Clayton Fallis, Portland, has bought the handsome pacing mare, Lady Zombro, from C. Minsinger. She is nicely bred, being by Zombro 2:11, dam by Manheur 12896; second dam by Mazeppa 15261; third dam thoroughbred.

President Taft, on April 3d, issued an order designed to break up the monopoly of cattle and sheep kings on springs and small streams in the Great Salt desert in western Utah. The order makes oases and streams public watering places.

Chas. A. Smith, of Phoenix, Arizona, owner of Directly 2:03¾, says this remarkably fast and game horse is in splendid condition and many choice mares will be booked to him. Among those already bred to him are Maggie Barkley 2:11¼, Nettie Oh So 2:14¼ and Lillian W. (dam of three) by Harry Hontas 6497.

Everybody seems delighted to hear that Mr. R. J. MacKenzie has purchased the Pleasanton racetrack. Mr. Bailey, the former owner, has made many friends there, and it is hoped he will remain with his string of trotters and pacers at this course.

Chas. De Ryder's bay mare Alva J., by Zombro 2:11 out of a mare by Secretary, won one heat of her race with Rosemary last Saturday at Pleasanton getting a trotting record of 2:28. She is in foal to The Bondsman. Score another for Zombro.

William Robinson, of Philadelphia, who drove Ed Bryan to his three-mile world's record to wagon, has purchased the fast pacing prospect Bud Owyho (2), by Owyho 2:07¾, dam Minnie S., by Kentucky Prince.

Lady Irene 2:14½ is a pacing mare by Diablo 2:09¼, dam Geraldine 2:15½, by Mount Vernon 2:15¼, that should be credited to this sire. She got her record at Sacramento in 1908, pacing the two heats in 2:15½ and 2:14½. The Year Book gives Irene a mark of 2:14½ trotting, which is incorrect.

A meeting of all interested in the proposed county fair and race meeting at the Pleasanton racetrack in July has been called for next Thursday night (May 2nd) at the Rose Hotel, Pleasanton. The committee in charge is sending out notices and a large attendance is expected.

One of the mares driven to the Pleasanton racetrack was the twenty-seven-year-old trotter Mabel (dam of Directly 2:03¾ and The Iceman 2:10) by Naubuc 504. She has ten foals and every one was noted for speed and gameness. Mr. I. D. Cunningham, of Haywards, is her breeder and owner.

El Vivollo, the four-year-old gelding owned by R. J. MacKenzie that won the first heat in the free-for-all at Pleasanton in 2:15¼, was sired The Libretto, out of Mantua Maker by Red Wilkes, and although this was no record, nevertheless it shows he has speed.

A total of 179 horses named in six early-closing events for the Detroit Grand Circuit harness meeting indicates a record-breaking interest in the sport the coming season. For the M. and M. \$10,000 purse for 2:25 trotters there are thirty-six nominations, practically all so-called "green" horses, which have been carefully trained but not extensively raced.

There are many queer names for horses, such as No Account and Smith's Rheumatic Cure, but Lou Crellin has named his fast gelding by C. The Limit 2:04¼, out of Rosie Woodburn, O. U. C., and by the speed this one is showing it looks as if he was trying to get from under this handicap. He is only two years old and has gone a mile in 2:16.

Tbos. Ronan was kept busy last Saturday showing the latest addition to his string of trotters, a roan foal by Tom Smith 2:13¼, out of the inbred Jay Bird mare, Lily Dale, by Birdman, out of Birdie (dam of Birdman) by Jay Bird. This is a grandly formed youngster and a natural trotter. There's plenty of Wilkes blood in him.

The way Bodaker 2:13 trotted last Saturday made everybody who saw him strive to win his race wish he was sound, for he is undoubtedly one of the gamest horses ever seen in California. When in action he forgets all about his inhrmities and ailments and does not limp until the harness is stripped from him. Good, game, roan trotter, everybody admires him, anyway.

"Budd Doble never looked better nor felt better than he does at present," was the remark a recent visitor to the Hemet Stock Farm made. "He has the prettiest place imaginable and he keeps it in apple pie order. The colts and fillies he is handling over that half-mile oval are exceedingly promising and will be surprising some of those horsemen who believe their young trotters and pacers have their races already won."

W. I. Higgins, Deer Lodge, Mont., if present plans do not miscarry, will race three full brothers and sisters down the grand circuit this year. They are King Brook 2:07¼, Brook King, a three-year-old, and Alma Brook, a two-year-old. All are by The King Red 2:20½ out of Adelfa, by Alfonso. They were bred by C. X. Larrabee at his Brook Nook Rancho. All are trotters and they are staked in Grand Circuit.

Robert Wilson, the young man who trained and raced Doc McKinney last year, is training C. A. Harrison's horses at Seattle. The trotters, Zomell 2:14¼ by Zombro 2:11 is going sound for him; he is also training Hal Scott 2:19¼ by Hal B. 2:04½, dam Maud Hunter by Capt Hunter 2:13½, and a bay pacer by Joe Patchen 2:01¼.

Dick Wilson will have five good trotters and pacers to race this season on the Pacific Coast Circuit. All his horses are doing well. The two-year-old chestnut pacer by Hedgewood Boy 2:01, out of Lady Patchen, by The Patchen Big (3) 2:10¾, is the "best" he has ever handled, and that is claiming a great deal; but Dick generally knows what he is talking about. Ruby Light 2:11½ has developed into quite a big mare. She will be a good one in her class this season. There is not a pimple nor a blemish on her.

H. E. Armstrong, former owner of the Pleasanton racetrack, wears a broad smile whenever foals are mentioned, for he has one that would make any body happy. It is a very toppy, stylish, well-formed colt by Joe Patchen II 2:17¼, out of Jessie M. by Del Norte 2:08; second dam by Rockwood; third dam by Oneco 2:29¾; fourth dam Belle Price (great broodmare) by Doble 1106. He says: "It would take quite a sum of money to buy him." There are only a few foals by this grand looking horse in California and none is better bred than this one.

A common rubber bulb syringe suitable for family use, and that can be bought for a little money at any drug store, may save the life of a valuable young colt that is suffering from a severe case of constipation, or inability to discharge the meconium from the intestines. One or two injections of blood warm water per rectum will usually relieve the most stubborn cases, and the remedy is as safe as it is simple. Giving laxative medicine to a young foal is a risky experiment, as it is liable to produce diarrhoea.

With the party, composed of Mr. Billings and Mr. and Mrs. Charles Tanner, is John L. Hervey, editor-in-chief of the "Horse Review," who will act as historian of the tour. It will be a rare treat for him, and his observations of European racing affairs, made at first hand, will be read with interest by "Review" readers. He will contribute letters from time to time from the points visited and tell in his own gifted style all about America's champion trotters, which Mr. Billings is to give exhibitions with in Europe.

C. A. Harrison, of Seattle, purchased a beautiful filly at the recent Portland sale for Mr. J. W. Considine. She is called The Empress and was sired by Carlok 2:07½, out of Curruca by Alfonso 2:29¾; second dam, Jenny Jay by Commodore Belmont; third dam, Jenny Wilkes 2:12½, by Woodford Wilkes; fourth dam, China Wilkes (dam of L. L. D. 2:08¼, One-one 2:11, Jenny Wilkes 2:12½, Knight 2:22½ and two others and dam of Niquee 2:13¼) by Adrian Wilkes 6560; fifth dam Mambrino Queen by Mambrino Patchen 58, etc. Mr. Harrison gave her to Mr. Dowling, the trainer of all of Mr. Alley's horses.

John Meyer, Waukesha, Wis., has booked Felicity, by Bellini 2:13¼, and a young mare by Lord Gentry, p. 2:13¼ to Nutwood Wilkes 2:16½. He also owns a sensational yearling by the same sire out of Frosty Belle, by Belmont 2:14¼. Among other mares booked to Nutwood Wilkes and Gold Bingen (4) 2:21¼ during the past week, are Rosa Hall, by Walnut Hall 2:08¼, dam by Moko, Lady Tan, by Tanforan, Alice Blucher, by Silverthorne 2:15, Frosty Belle, by Belwort 2:14¼, Miss Bessie Lewis, by Hinder Wilkes, and Marie Dillard, by Hal Dillard (p.) 2:04¾.

The nineteenth annual celebration of the Butchers of San Francisco and Oakland will take place at Emeryville race track and Shell Mound Park, Wednesday, June 12, 1912. It promises to be the best ever held. There will be races for trotters and pacers for purses ranging from \$250 to \$75 and vaquero races, steer races, etc. There will also be a fat stock show as a new feature this year. Further particulars of this event will be published hereafter.

The closing music ride of the Riding and Driving Club in their magnificent building, 701 Seventh avenue, will take place Wednesday evening, May 1st, commencing at 8 o'clock sharp. Jas. J. Gethin, the manager, deserves great praise for the able manner he has conducted this series of enjoyable events, and as each one has surpassed all others, this ride next Wednesday night promises to be one never to be forgotten. There will be: 1—A display of all the saddle horses recently imported from Kentucky. 2—A Fancy Dress music ride. 3—Jumping. 4—Jeu de Bar. 5—Egg and spoon race. 6—Overall race. Prizes will be awarded to the best dressed lady and gentleman riders. It will be the society event of the season.

The largest and most enthusiastic meeting ever held by the Park Amateur Driving Club filled one of the parlors of the Palace Hotel last Monday night. Some measures of great importance were presented and adopted. The financial status of the club was presented and reports were read by the secretary. By unanimous consent the monthly dues were placed at \$3. It was also decided to postpone the opening of the matinee racing season until Saturday, May 11th, as there was a scarcity of horses at present in the big stable belonging to this thriving organization.

It is believed that the last foal sired by Zombro 2:11 made its debut into the world of speed at Pleasanton April 18th (the anniversary of the great disaster). It is a beautiful chestnut filly, no white, out of Katharine 2:19 (sister to El Diablo 2:11¼) by Diablo 2:09¼; second dam Elwood 2:17¼ (dam of 3) by A. W. Richmond; third dam Crichton's First (dam of Arrow 2:13¼, Elwood 2:17¼ and the dams of eight in 2:30); by Crichton, son of Imported Glencoe. Katharine is to be bred to Vernon McKinney 2:02. She is the dam of Blanka S., the fastest two-year-old at Pleasanton. These belong to Mr. P. H. Smith of Los Angeles.

The first trotter to enter the 2:30 list and the first pacer to enter the lost this year owned by P. H. Smith, a prominent business man of Los Angeles, and an enthusiastic admirer of trotting stock. His mare Rosemary, by Raymon 2:27½, out of Black Bess, by Guide 2:16¼, won a race at Pleasanton last Saturday fastest mile 2:23, and his mare Santa Rita Girl, by Zolock 2:05¼, out of Marguerite K. (t) 2:16¼, by Don Pedro (son of Naubuc 504) and second dam by Don Pedro (an inbred Naubuc) won her race, fastest mile in 2:23. Both these mares were taken from pasture February 15th and have been bred to The Bondsman.

Arona McKinney (2) 2:27¼, entered by Walter Cox in the M. & M., is a five-year-old brown mare that trialed in 2:07¾, first half in 1:02¾, at Cleveland last year. Cox bought her at the December, 1910, Chicago sale from her breeder, Wm. Simpson, Empire City Farms, Cuba, N. Y., paying \$4700. She had trialed that summer in her three-year-old form in 2:10½, half in 1:03½, but was not raced. She was sired by McKinney 2:11¼, dam Barona (dam of one), by Baron Wilkes 2:18, second dam Lou (dam of Axtell 2:12), by Mambrino Boy 2:26½, third dam Bird Mitchell, by Mambrino Royal, son of Mambrino Pilot 29.

Alex. Brown, owner of the Woodland Stock Farm, Woodland, Cal., met with a serious loss last Wednesday. The track manager, A. B. Kenny, discovered the handsome broodmare, The Boquet (trial 4, 2:17¾) by Nushagak, dam Woodflower (dam of Prince Ansel (2) 2:20¼, etc.), by Ansel 2:20; grandam Maryflower, by St. Clair, dead in the pasture field. Mr. Brown valued her at \$5000. He recently sold one of her colts, El Zombro, by Zombro, for \$1500, and she was in foal to The Bondsman. The cause of her death is unknown.

The Sacramento Stock Farm, at Biggs, has sent for the two stallions that were at the Pleasanton track. One is Dillcara by Sidney Dillon, out of Guycara 2:18¾ (dam of Walter Dillon 2:10½) by Guy Wilkes 2:15¼; second dam Biscara (dam of 10) by Director 2:17; third dam Bicara (dam of 6) by Harold; fourth dam Belle (dam of Belmont 64, McCurdy's Hambletonian 2:26½, etc.) by Mambrino Chief 11; fifth dam Belle Loupe by Brown's Bell-

founder. The other stallion is Flosnut by Nutwood Wilkes 2:16½, out of Flossie by Cornelius (son of Nutwood 2:18½ and Jennie G. 2:26½, by Echo); second dam Sister to Ruth Ryan (thoroughbred) by Lodi; third dam Eva Bulwer by Bulwer, by Grey Eagle; fourth dam Emma Taylor, by Imp. Glencoe; fifth dam Lancess (fourth dam of Alcyone 2:27, sire of McKinney 2:11½, etc.) by Lance, son of American Eclipse. The yearlings by Dillcara left at Pleasanton cannot be surpassed for uniformity of conformation, good shoulders, strong loins, the best of legs and feet and gentle dispositions. Everyone is bred on lines which should be productive of speed and stamina. When these colts are worked there will be many favorable comments upon their claims for recognition. There are two-year-olds among them that are as well as any at this track.

Last Friday a majority of the executive committee of "One Big Week" at Salinas, met at the Chamber of Commerce. Not all the members had their sub-committees made up and an adjournment was taken until next Friday evening. The committee decided to change the date from the first week in August to the last week in July, to accommodate the schools, which will re-open August 5th, and Troop C., which will be called to San Francisco early in August to take part in maneuvers. Those present were J. J. Hebborn, F. A. Abbott, D. McKinnon, W. Jeffrey, C. Tynan, Iver Cornett, J. J. Conner, R. H. Abbott, who takes D. A. Madeira's place, F. J. Griffin, C. Hebert and others.

Last Saturday Mr. W. M. Parker, of Stockton, presented Mr. Havis James with a shoe worn by Flora Temple in 1859. It was given to Mr. Parker's father, S. S. Parker, in Waterville, Me., by James D. McMann, who drove this great mare to her record of 2:19¼ (the first one to get inside the 2:20 list) at Kalamazoo, Mich., August 15th, 1859. Mr. James is also the owner of a shoe worn by Lady Moscow 2:30 in 1850. Lady Moscow was one of the most remarkable trotters of her day. She raced for ten years, from 1846 to 1856, and got her record over the Union course, May 21, 1849. This shoe was worn by this mare when she defeated Lady Suffolk in Philadelphia, a two-mile heat race, in 5:15, 5:08 and 5:08½. Both shoes are exceedingly well made.

The Yuba and Sutter Driving Club, the horsemen's organization of Marysville, which was granted a lease on Knight's park two years by the city, was again granted the privilege of using the park (which is better known as the race track) for an additional term of two years by the Mayor and members of the City Council at the meeting of the city officials last Thursday night. The terms of the renewal are precisely the same as the former lease which provides for a yearly rental of \$20 and binds the driving club to keep the grounds and the equipment at its disposal in repairs. The use of a sprinkling cart is also granted the club by the conditions of the lease. The renewal was made at the request of the driving club's treasurer, J. W. Steward, who was present at the former meeting of the council and requested that the concession be granted.

Judge Coburn, of Denver, Colo., has changed his plans for this season's campaign for his trotters and pacers. Instead of bringing them to the Pacific Coast he has decided to send them through the Grand Circuit in charge of Ted Bunch. One of the mares he has is called Mary Louise. She is entered in \$75,000 worth of stakes and purses and will, unless some accident happens, be among the biggest winners of the year. Ted purchased Lillian Axworthy for Judge Coburn last summer for \$6,000, and has worked her in 2:09¼; she is also well staked. He sold a pacer to Joe Maguire and paid \$3,000 for a four-year-old trotting mare. This one trotted a mile in 2:12 last fall, but will not be raced this year. She will be taken along for educational purposes. Mr. Bunch looks for her to trot in 2:08 before next winter. Morehells is also doing nicely. The first start will be at Grand Rapids, July 8th.

Arlie Frost will ship his horses from Phoenix to Libertyville on May 1st. Creme de Menthe 2:25¼, has been a mile around 2:15, and appears to be a real trotter from what his trainer has to say. Edward Patchen, by the Awful Dan, now a three-year-old, has been a mile in 2:23, and has wiggled a lot of fast eighths and quarters, and one of the former in 15 seconds the other day. Dixie Lou, p. 2:13¼, marked by Arlie at Oregon, Ill., last year, has been taking a winter's work without the hoppers or boots, and has paced a mile thus far, in 2:22½, with the last quarter in 30 seconds. She is good, is the story that goes with her now. Vernon Clark, a two-year-old trotter by Milo McKinney, an own brother to Sweet Marie 2:02, is the fourth and last member of Frost's stable. He has been working good enough to take along, and must have shown something to warrant the long trip.

Mr. J. J. Campbell, of Vancouver, B. C., recently purchased the handsome Silver Bow mare, Silpan, from Mr. S. S. Bailey, of Pleasanton, and has booked her to the Bondsman. Silver Bow mares are proper to The Bondsman. Silver Stiles 2:08¼, Hymettus 2:07¼, the big fine trotter Silver Hunter (matinee record 2:16¼) and several others are out of Silver Bow mares, but Silpan is out of one of the best bred mares ever brought to California. Her

dam was Kitty Fox, by Pancoast 2:21¼; second dam Bessie Bowne, by Dictator 113; third dam Lady Lightfoot, by Mambrino Time 1686; fourth dam by Paddy Burns, etc. Mr. Campbell also owns Silpan's daughter, Kate Kopje by Cresceus 2:02¼. Her yearling colt Bon Cress by Bon Voyage 2:08, which Fred Chadbourne is handling, is a natural trotter. He is also driving Vera Campbell, a filly by Alconda Jay, out of Silver Fur by Silver Bow 2:16; second dam Ariel by Bourbon Russell, that is about the best Alconda Jay at Pleasanton. Mr. Campbell will soon have quite a string of good ones to race.

Recently it was stated that no more popular pair of sires than Trampfast (2) 2:12¼, and The Exponent 2:11¾, were in the stud between the Ohio River and the Pacific Ocean. The truth of this asseveration has notably been evidenced by the action of Frank S. Turner, of Santa Rosa Stock Farm, Santa Rosa, Cal. (breeder of Lou Dillon 1:58½), in sending three great daughters of McKinney 2:11¼, Centerguy and Caroma C. out of By Guy by Guy Wilkes, and Caratina, out of famous By By, by Nutwood, to Maple Lawn Farm, Delavan, Ill. These mares were shipped on the 3d of April and arrived at Delavan on the 13th. This shipment serves to make more prominent the high estimation in which this great pair of Illinois sires are held by the critical breeder. Mr. Turner pays them and the State of Illinois a high compliment in sending these great mares from the Golden Coast to their court. He has announced his intention of leaving the mares at Maple Lawn Farm for a term of three or more years.—Western Horseman.

Occasionally it happens that a foal must be raised on cow's milk. For this purpose one may combine a dessertspoonful of granulated sugar with three or four tablespoonfuls of water and a similar quantity of limewater, adding enough new cow's milk to make a pint. The milk should not be rich in butter fat. The mixture should be fed warm in small quantities and often, beginning with about half a teaspoonful every hour. Week by week the amount at a feeding may be increased and the intervals lengthened. During the third month a change may gradually be made to sweet separator skim milk, but before this the foal will be nibbling at grain and hay or grass. The growth of any colt may be promoted by feeding cow's milk after weaning, but this is not essential.

ANSWERS TO CORRESPONDENTS.

Chas. Scott, St. Helena, Napa county.—Can you tell me if a horse named Lander got a fast record in 1905. His breeding is given as s.t.b. by Salvator.
 Ans.—There was a bay gelding called Lander that paced in 2:24¼ at Salt Lake City, Utah, October 3, 1905. His breeding is given at s.t.b. by Salvator.
 F. A. Ramsey.—Where did Hambletonian 10 die?
 Ans.—He died at Chester, New York, March 27, 1876.
 Where did Milton Gear 2:12½ get his record?
 Ans.—At Visalia, Cal., July 29, 1909.
 H. G. Angevine.—Can you give me the pedigree of Blue Bells?
 Ans.—Which one do you mean? There are three trotters by that name. Can you give us further particulars? What sex, where from, and color.
 Can any of our readers tell us anything about the breeding or history of a horse called Cereo by Sable Wilkes?

THE HANFORD RACE MEETING.

Hanford, April 18.—At a meeting of the directors of the Kings County Fair Association held this afternoon, the speed programme for the race meet to be given in connection with the agricultural fair in October was announced. It provides for four days' racing with three harness events each day assuring at least eight heats and in addition it calls for running events daily. The amount of the purses total \$5700. The largest purses will be hung on Thursday, October 10, when \$1000 will go to the winners of the 2:16 trot and 2:14 pace.

Two \$500 purses will be hung up on each of the other days and several smaller amounts. The programme will be announced by the secretary of the Pacific Coast Circuit and entries will be received at once. The directors make the usual reservation that if the races do not fill satisfactorily they may be withdrawn. At least four horses must start in each race to constitute a race.

STATE FAIR PROGRAMME.

Following is a list of the guaranteed stakes for harness horses to be given at the State Fair, 1912:

| | |
|--|----------|
| 1—2:20 trot | \$1500 |
| 2—2:15 trot | 2500 |
| 3—2:12 trot | 5000 |
| 4—2:08 trot | 1000 |
| 5—2:20 trot for amateurs | 1000 |
| 6—2:20 trot for amateurs | Cup |
| 7—2:20 pace | 1500 |
| 8—2:15 pace | 2500 |
| 9—2:11 pace | 5000 |
| 10—Free-for-all pace | 1000 |
| 11—2:15 pace for amateurs | 1000 |
| 12—2:15 pace for amateurs | Cup |
| 13—2-year-old trot, State Fair Futurity No. 2 (closed) | |
| 14—2-year-old pace, State Fair Futurity No. 2 (closed) | |
| 15—3-year-old trot, State Fair Futurity No. 1 (closed) | |
| 16—3-year-old pace, State Fair Futurity No. 1 (closed) | |
| 17—Occident State for 3-year-olds | (closed) |
| 18—Stanford Stake for 3-year-olds | (closed) |

Drink Jackson's Napa Soda.

R. J. MACKENZIE BUYS PLEASANTON TRACK.

On March 1, 1912, Mr. S. S. Bailey, formerly of Salem, Oregon, purchased this famous track from Mr. H. E. Armstrong, for \$65,000, and laid out plans for making many improvements on the 107 acres comprising it. He set men to work cleaning away the heavy willows and bushes in one portion, and after preparing the soil, planted a crop of potatoes. He leveled many of the uneven places on the grounds and manufactured track harrows and levelers for the track, and was figuring on the amount of water pipe he would need and what it would cost to lay over a mile of it from the big water tanks to the track and along its outer circumference. He had several carpenters engaged in making new and commodious offices under the grand stand when the announcement was made that Mr. R. J. MacKenzie, of Winnipeg, Manitoba, had made him an offer for everything, just as it stands, and he had accepted.

Mr. MacKenzie, by this business stroke, has shown that he is to be more closely identified with the trotting horse industry of California than ever. He has, without doubt, the best and most valuable string of trotters ever trained on this course and is purchasing more horses all the time. His superintendent, Mr. Havis H. James has all the trotters and pacers looking and acting well, and, as Mr. MacKenzie is one of the best amateur drivers in the country and takes great pleasure in driving all the horses he owns—he makes no exceptions—it can be inferred he has in view many days of pleasure at this track.

Regarding the track, Mr. MacKenzie will now have his civil engineer draw up plans for its improvement. In an interview he stated: "There are so many things to be done that really I would like to give the subject a little more consideration. It seems that I can see where changes on that place can be made every time I go there, so I will merely outline a few; the plans I will show you next week after I have consulted with the engineer and go over the property with him. In the first place, I will continue the graveling from the main street to the entrance of the track and intend to demolish those rows of old stalls back of the grand stand and erect others on the farthest portion of the land from the entrance, over on a line with the far turn. These buildings will not be made like the big one now occupied by Mr. De Ryder's horses, but will consist of parallel rows of stalls all facing the south, in the rear of these will be high fenced paddocks fifty feet square. Where the old stalls are at present there will be a fine open field with its trees untouched, and it is my intention to plant more of them. In front of the stalls there will be the usual twelve-foot wide sheds. Water pipes will be laid throughout the grounds and around the track, where I will have several hydrants so that the two large watering carts can be filled minutes and the water evenly distributed on the course. The homestretch is to be widened and a neat fence will surround the infield. The entrance to the grandstand is also to be changed and the building enlarged. There will be an eating house for the men, a few new blacksmith shops, a fireproof building for the storage of hay, and some circular paddocks for the stallions. Electric lights will be placed at convenient distances, and the whole place made as attractive as possible. It will take some time to do this, but Chas. De Ryder will see that it is done properly. As I have some horses in Manitoba and others in Illinois it is my intention to ship them here when the races end and have them cared for here where I can see them."

With the announcement of this purchase by Mr. MacKenzie the idea of holding a county fair and race meeting there was immediately advocated, and when it is ascertained what is needed a pavilion will be erected and every preparation made to make this celebration the most attractive in California. For this purpose a joint convention of duly authorized delegates from the various cities and townships will be called and measures adopted to carry this project through. The people of Pleasanton, Sunol, Livermore, Dublin, San Leandro, San Lorenzo, Niles, Haywards, Alameda, Oakland, Berkeley and all adjoining places in this rich country—rich in all resources—will combine to make this a success.

For many years there has been a demand for a good road or highway from Haywards to Pleasanton, via Dublin. That road is nearing completion and will shorten the distance materially. The road now in use by autoists and teamsters between Oakland and Pleasanton is through the Suuol Pass, many miles farther south, nearer San Jose. It is in very fair shape, but there are several places where it should be widened and the grade reduced. But there is another natural pass, one of the most beautiful and picturesque in Central California; it is through Niles Canyon. In early days it was the only pass used by farmers and travelers between the lands bordering the bay and the Livermore Valley and the great San Joaquin Valley. The road followed the Alameda and Calaveras Creeks, but the railroad "absorbed" it and in a few years its neglected remnants were washed away. There is a movement on foot to restore that highway to its natural beauty and grandeur. There is plenty of material, clay and gravel there, and, as the grade is a very slight one, it could be built at small expenditure considering the great advantages it would be to everyone living in this portion of California. Steps should be taken at once with this end in view, and in a few years the many beautiful home sites in the rich and fertile Livermore Valley will be occupied by the most desirable class of citizens, many of whom know nothing of its advantages.

THE PLEASANTON MATINEE.

It was apparent that all roads led to Pleasanton last Saturday, judging from the number of automobiles, carriages, surreys and buggies which passed through the gateway of the far famed Pleasanton racetrack. It seemed as if every one who was or is interested in the trotter and pacer felt that his or her presence was needed on this occasion. It being the first real matinee of the season where valuable trophies were to be awarded the winners. Mr. S. S. Bailey, the genial proprietor of the track, ably assisted by the Chamber of Commerce of Pleasanton, deemed it worthy of being advertised and having everything ready for the visitors who came from San Francisco, Oakland, San Jose, Fresno, Stockton, Oakdale, Sacramento, Livermore, Danville, Haywards, and all adjacent towns.

The weather was not what might be termed "Pleasanton weather," a north wind, clouded sky, and a chilly atmosphere served to put a check upon extremely fast time being made by the horses, although Starter J. L. McCarthy kept "sandwiching" the heats and sent his fields away in quick order, faultlessly. Before racing started, however, the visitors inspected the various stables and gazed with admiration upon the sleek-looking, carefully groomed horses which are in training for this year's racing. The most famous stallions were led out, royally-bred broodmares with their foals, and the most promising Futurity candidates were shown. Promptly at one o'clock the big bell in the judges' stand rang and the carefully cleaned grandstand began to fill with the people who came, many of them hundreds of miles, to enjoy the sport.

The judges were D. Bachant of Fresno, Ray Mead of San Jose, and Daniel E. Hoffman of San Francisco. The clerk of the course was Jose Neal, who for many years was the late Monroe Salisbury's secretary and superintendent of the Pleasanton Stock Farm. The timers were: James E. Sutherland, of Pleasanton, H. E. Armstrong, of Pleasanton, and Z. T. Stabl, of Lewiston, Idaho.

The first race called was the free-for-all trot for the Chamber of Commerce Cup. The entries were Bodaker, Silver Hunter, El Vivolla and Hazel Patchen. In the first heat El Vivolla took the lead with Hazel Patchen, Bodaker a close third, Silver Hunter on the outside. It was a pretty race. At the head of the stretch Bodaker, ably handled by Chas. James, trotted up to El Vivolla's flanks, but was unable to pass the son of Libretto, who won by half a length in 2:15½. Hazel Patchen and Silver Hunter were not two lengths behind.

In the next heat Silver Hunter's driver (Sexton) was compelled to pull up to get out of a pocket and take the outside or overland route. Coming to the head of the stretch he passed all those in front and took the pole. It was a close and exciting race all the way to the wire. Despite Havis James' marvelous exhibition of reinsmanship, fairly lifting El Vivolla at every stride, Silver Hunter won by a head in 2:16¼, with Bodaker not a length behind.

When the next heat was called Bodaker was excused on account of lameness. His exhibition of speed and gameness, considering his swollen hock, was remarkable. Silver Hunter won the next and deciding heat in 2:20¼, but he had to keep trotting every inch, for El Vivolla was at his sulky wheel all the way. The cup was awarded to Mr. T. D. Sexton who proved he had a good horse in this big bay trotter and knew how to handle him with judgment and skill.

The 2:15 pace for a cup donated by W. T. McBride, proprietor of the Rose Hotel, Pleasanton, brought out three likely looking pacers—Vela A., T. D. W. and Welcome Boy. The last-named won in straight heats in 2:15 and 2:14. Despite Charles De Ryder's best efforts the fast little pacer Vela A. made several "Texas Tommeys" on the back stretch and would not settle. This was her first appearance, however. Al Schwartz, the trainer and driver of Welcome Boy was the recipient of the cup. The gelding Silver Hunter, which won the preceding event, is also a member of his stable.

The next event was the 2:30 trot, purse \$150. There were only two entries, Rosemary and Alva P. In the first heat the latter won by a length in 2:28, thus entering the 2:30 list. In the second heat Rosemary passed her at the first eighth and came in a winner in 2:25.

Both mares were apparently tired when they came for the word, as they had only been up from pasture about sixty days. Rosemary won this heat and purse in 2:30¼. She is in foal to The Bondsman and has a yearling by El Volante on this track that is one of the most promising of his age in California.

The 2:20 pace for a cup donated by W. King had six entrants: Nutwell, Dicto, The Mighty Searching, Dawn o' Light and Gilbert B. The Mighty took the lead to the half mile pole and then broke and those behind passed him by in one, two, three order, then he caught and ran to the front to the wire, his driver not seeming to try to get him down to pacing, so the judges set him back to last position. Dawn o' Light proved to be the steadiest and had the most speed, winning by half a length from Nutwell in 2:18½, Gilbert B. third, a length behind.

The second heat was almost an exact repetition of the preceding one, but in the stretch Dicto, coming from fourth position, moved up, and was only beaten one length by Dawn o' Light in 2:21¼. Gilbert B. was third and Nutwell fourth, The Mighty fifth. Mr. McBride modestly accepted the beautiful cup which Starter McCarthy handed him.

The 2:25 pace for a purse of \$150 between Santa Rita Girl and Carmine McCan resulted in a victory for the former in 2:23 and 2:27½.

Between the heats of this race there was a parade of a few of the most famous horses at this historic track, Starter McCarthy making the announcements:

Capt. McCan's trio: The Bondsman, The Patchen Boy (3) 2:10¾, and Ouragan, the champion Belgian. M. Henry's Will Guttrie, holder of this track's record for 2:07¾. A two-year-old brother to Bert Kelly belonging to G. L. Baker, of Oakdale.

R. J. MacKenzie's Vernon McKinney 2:02, Peter Preston 2:08¼, Merry Widow 2:03¾, Bert Kelly, the fast green trotter, Joe Patchen II 2:17¼.

Then there were three trotting yearlings driven to sulkies, two by El Volante 2:13¼, and one by Zomhro 2:11; these belong to Mr. P. H. Smith, of Los Angeles and are as perfect gaited, stylish little youngsters as are entered in any of the big stakes on this Coast.

The last race of the day was for the 2:25 class trotters for a cup donated by H. Arendt & Co. There were five starters. Brutus, Strathdon, Dellalect, Harold K. and Paddy. In the first heat Brutus, driven by S. Christenson and Strathdon by Col. J. C. Kirkpatrick, moved along like a team, and to the wire, it was one of the best contested events of the afternoon's fine racing. The finish was so close between these good trotters that it was sometime before the judges could decide. Finally, they awarded the heat to Brutus. Dellalect was only a length behind them and a length in front of Paddy, who was half a length in front of Harold K. Time, 2:21½. In the next heat Strathdon made several breaks, but when he "caught" he closed up on Brutus, the leader. On rounding into the stretch the latter still retaining the pole, was not quite a sulky length out, where the footing was good. Galindo, with Harold K., moved up and essayed the task of getting by, but there was no room for his sulky so it was impossible for him to get through; naturally, he had to almost ride over the grass as Christenson drove his horse under the wire a winner by a length in 2:23. Strathdon was only a head behind Harold K.

Owing to the prevalence of the high wind Mr. R. J. MacKenzie did not deem it advisable to attempt to give any exhibition miles with his horses. Had it been a warm day there is no doubt those in attendance would have witnessed some fast miles trotted and paced by the "stars" belonging to this gentleman. Following is a summary of the races:

Pleasanton, April 20, 1912.—Free-for-all trot; Chamber of Commerce Cup:

| | | | |
|--|---|---|----|
| Silver Hunter, b. g. by Zombro-by Silver Bow (T. D. Sexton)..... | 4 | 1 | 1 |

THE BLACKHAW TREATMENT FOR MARES.

The Blackhaw treatment for mares inclined to abort has been frequently described in our veterinary columns. By its use mares which have repeatedly slipped their foals have been brought successfully through the entire natural period of pregnancy. The treatment should be begun just before the time of pregnancy at which the accident has usually occurred, or immediately upon recurrence of the first preliminary symptoms of restlessness.

The treatment consists in giving the mare half an ounce of fluid extract of blackhaw and 20 drops of pure carbolic acid in water every other night. At the slightest sign of impending abortion place the mare in a secluded stall and give this mixture daily, and add half an ounce of fluid extract of Canabis indica if the mare is restless, shows pain or strains. When the latter symptoms are seen the blackhaw may be given twice a day until the symptoms subside.—Breeders' Gazette.

Belwin, the two-year-old, formerly known as Belwin McKiune (1) 2:21¼, worked a quarter for Andrews at Lexington last week in :36¼. McGowan, formerly John E. Madden (1) 2:27, worked out in :38.

OUR STOCKTON LETTER.

Stockton, Cal., April 17, 1912.

Editor Breeder and Sportsman:

Enclosed please find a list of the horses in training at the Stockton track. The stalls are being put in good condition and the track is being worked every day. Mr. J. N. Jones has been appointed by the supervisors to care for it.

Mr. Jones' mare Lady Irene 2:14½, by Diablo, dam Geraldine 2:15½, by Mt. Vernon, dropped a fine filly by One Better (2) 2:24¼ and has been bred to McAdrian.

My mare Ida May by Major P. (son of Dexter Prince), dam by Priam, foaled a black filly April 2, by McAdrian, and has been bred back to him. This filly was 43 inches tall when foaled and is very well formed, with an excellent back and is nicely coupled.

P. J. Chalmers' mare Trix McAdrian (2) pacer, 2:24, own sister to Bert Kelly, in MacKenzie's stable, foaled a bay colt April 7th, by Joe Patchen II, and was shipped to Pleasanton to be bred to Vernon McKinney 2:02.

Mr. A. W. Cowell's mare Bonnie W. 2:22¼, by Delphi, is to be bred to Vernon McKinnon 2:02.

L. W. Russell's mare Lady Princess (matinee record 2:17), by Evemont and dam by Dexter Prince, foaled a bay colt April 7th, by McAdrian and will be bred back to the same horse.

Charles Heffernan's black mare Floretta by Director, dam by Hambletonian 725, foaled a bay colt April 12th by McAdrian.

P. J. Chalmers has the following: Grace Chalmers, pacer, four-year-old bay mare, by McAdrian, dam by Campaign; Olive McAdrian, pacer (2) by McAdrian, dam by Booth; Harold C., a yearling brother to Olive McAdrian, a trotter; McGinty, yearling trotter, by McAdrian, dam by Lottery Ticket; Mose, a black three-year-old trotting gelding by Guy McKinney, and Zorine, a chestnut four-year-old pacer by Zolock 2:05¼, dam by Pettigru 2:10¼.

E. D. Digges' bay stallion McAdrian 2:24, by McMcKinney, dam by Adrian.

J. N. Jones has four pacers: Leta J., a four-year-old bay mare by Royal McKinney, dam Geraldine 2:15½ by Mount Vernon 2:15½; Dick Direct, a chestnut gelding by Direct Jr., dam Lady Irene 2:14½ by Diablo 2:09¼, grandam Geraldine 2:15½ by Mount Vernon 2:15½; Zorina, a two-year-old by Charlie D. 2:06¼, dam Lady Irene 2:14½, and Cleland J., a yearling colt by Vernon McKinney 2:02, out of Lady Irene 2:14½.

Dan Lieginger has two, Prince Mack, a bay trotting gelding by McKinney 2:11¼, out of a mare by Pilot Prince, and Ben Walker, a chestnut pacing gelding by Guy McMcKinney, out of a mare by Acclamation.

C. F. Nance has six trotters, viz.: Stam Boy, bay stallion, by Guy McKinney, dam by Elect; El Dorado, a bay colt, by Mechanic, out of a mare by Monochrome; Bourbon, a bay stallion, four years old, by Monochrome, dam Mission Belle; E. Z. M., bay stallion, by Stam Boy, dam by Dexter Prince; Derby, a chestnut stallion by Chas. Derby 2:20, dam by Dexter Prince, and a son of his, a three-year-old out of the Newman Mare.

Jerry Aker's string consists of Lord A., a black trotting gelding by Royal McKinney, dam Lilly Ash, by Derby Ash; Blanche A., a bay mare, full sister, a pacer; Charlie A., a two-year-old bay gelding by Charlie D. 2:06¼, dam Lilly Ash, by Derby Ash; Derby Dexter, a pacing two-year-old colt by Derby Ash, out of a mare by Dexter Prince; Pearl, a two-year-old trotting filly by Derby Ash, dam by Dictator Wilkes.

Wm. Hendrickson has four horses here, just shipped from Sacramento.

John Rowan has Mechanic, a very fine son of McKinney 2:11¼, dam Mission Belle, and some colts by Monochrome.

Wm. Parker is expecting to have a string of horses here on May 1st.

Mike Madden is training F. D. Cobb's two-year-old pacing filly by Bon Voyage 2:08, dam A Novel, by Altivo 2:18.

A. T. Jackson has a good colt by the Iceman 2:10, out of a mare by Cereo, he by Sable Wilkes 2:18 out

FRANK LIEGINGER.

STAKES AND PURSES.

Some horsemen appear to think that all early closing events in which the entrance is paid in installments are stake races. This, however, is not in accordance with a stake as defined by one of the rules of the National Trotting Association, which is as follows:

"Section 2. A stake is a race open to all complying with its published conditions, for which the prize is the total amount of money contributed by the nominators, all of which belongs to the winner or winners.

"Section 3. A guaranteed stake is the same as a stake with a guarantee by the party opening it, that the sum shall not be less than the amount named."

According to the above definition of a stake track managers who advertise their early closing events as stakes are liable to be called upon to pay to the winners of the several events, all the money received in entrance fees. It will be well for track managers to give this matter some thought, and shape their announcement so as to avoid any possibility of a misunderstanding.

Drink Jackson's Napa Soda.

THE PORTLAND SALE.

Under the management of the Portland Horse and Cattle Sale Company, a three days' combination sale of trotting bred, draft and general purpose horses opened at the Portland track April 16th and continued April 17th with another day yet to go. The sale was held out of doors as usual and while the weather was threatening and at times light showers fell, no inconvenience was experienced, says Pacific Horse and Sportsman's Review.

The sale is an annual fixture at Portland, this being the tenth renewal. About 100 head of trotting bred horses were catalogued, a much smaller number than in former years. Three well-known breeders of the Northwest were represented by small consignments. These were Frank E. Alley, Bonaday Stock Farm, Roseburg, Ore.; N. K. West, La Grande, Ore., and W. L. Whitmore, Pomeroy, Wash. There was also quite a collection of draft and general purpose horses.

Taken as a whole the offering of light harness horses was of an inferior quality although there were a number of good individuals in the lot. The sale had been well advertised both to buyers and sellers, the management leaving no stone unturned to create interest in the event. It proved, however, that there are very few good horses on the market and the demand for cheap horses is extremely limited. There was not enough high class material in the catalog to attract the better class of buyers, consequently the sale was far from being the success it should have been.

One of the real bargains of the sale was the handsome, fast and well-bred green trotting stallion Jean Jacques by The King Red 2:20½, out of Julietta 2:21¼, second dam the great broodmare Cropper by Pilot Duroc. He went to C. A. Harrison and John W. Considine, Seattle at \$350. As a four-year-old in 1910 Will Durfee trained him to a mile in 2:14, quarter in 31 seconds. He is one of the stoutest made trotters in the world, looks like a bull dog race horse and could burn up the track when he was shown at the sale. He was owned by the late Sam Elmore of Astoria. It was due to Mr. Elmore's death in 1910 that the horse was thrown out of training.

Mr. Considine also bought one of the best looking and grandest bred fillies in the West. This was the yearling by Carlokin 2:07½, dam by Alfonso 2:29¾, second dam by Commodore Belmont 4:30, third dam Jenny Wilkes 2:12½, own sister to L. L. D. 2:08¾, by Woodford Wilkes, fourth dam China Wilkes by Adrian Wilkes, fifth dam Mambriño Queen by Mambriño Patchen, sixth dam by Edwin Forrest, seventh day by Grey Eagle. This Miss brought \$135 and I saw the time when she would have brought \$1000 at Madison Square Garden.

C. W. Todd's two trotters, Paul W. 2:14½ and Clambake 2:18½ went at \$300 and \$230 respectively. The stout little pacing gelding Harold Welcome 2:11¼ looked to be very cheap at \$295. He looks good for his class over the half-mile tracks.

Cantatrice, owned by C. W. Flanders, Portland, reached \$460, and the green trotting Guy Light by Searchlight 2:03¼ in the same stable went at a bid of \$260. The green pacing mare Lena Lou by Kinney Lou 2:07¾, owned by C. N. McCray, Golden-dale, Wash., brought \$475.

Wm. Higginbottom was the auctioneer. He was in good form and got every dollar in sight.

TUESDAY, APRIL 16.

A. OTTINGER SEES THE CHAMPIONS.

New York, April 15, 1912.

Editor Breeder and Sportsman:

While I was sitting in Mr. C. Stillman's office at 165 Broadway last Saturday afternoon, the telephone rang up for Mr. Ed. Tipton, inquiring whether I was in the city. Of course, I responded to the phone and made an engagement to meet him at the office. In a very short while Mr. Tipton came in and informed me that Doc. Tanner was with Mr. Billings' horses at Hoboken and that he was going to ship them to St. Petersburg on Tuesday, the 16th. I immediately got busy and requested him to call Doc Tanner up by phone and see whether we could not see the horses. Tanner responded, inviting us to come over at once. Mr. Stillman, myself and Mr. Bassinger went over there, and I must say it was certainly a treat. I have seen a good many harness horses but I never saw such a specimen as Ulian. He is black as a crow and his conformation could not be beat; with The Harvester and Charlie Mitchell, no doubt these are the three fastest horses in the world. Their legs were just like billiard cues and as cool as ice. Doc Tanner deserves a great deal of praise for having these horses in the condition they are in. This gentleman resembles Charlie De Ryder a great deal and is about the same build; in fact, I told Tanner you could hardly tell them apart, but Tanner claimed he is better looking and if I only had De Ryder there I would have made them settle the question. Mr. Tanner also claimed if it was not for Mr. Tipton we never could have seen these horses, because they were tired after making the trip from Memphis, Tenn. Doc. Tanner calls Mr. Tipton "Tip," but I assure you he never got tipped from Tipton. Mr. Billings will give exhibition miles in St. Petersburg and Moscow and with the speed of these horses it certainly will do wonders and give a great boost to the horse business in the United States. No doubt you will get an account of what they are doing in Russia in the future, but if you don't Mr. Billings has promised to keep me posted and will get it through me.

Yours, A. OTTINGER.

DISTRICT FAIR FOR ALAMEDA COUNTY.

Pleasanton, April 20.—Plans for an annual district fair to be given by Pleasanton, Murray, Washington and Eden townships, are under consideration by the business men and ranchers of this district and the details have already assumed proportions which promise an early fulfillment. A meeting of those directly interested in the scheme was held yesterday in this city, when lines of action were mapped out.

The proposal in its present shape is to organize a \$10,000 corporation, the stock of which is to be taken by the citizens of the four townships with the idea of arousing the greatest local interest. A board of directors, consisting of representative men from each township, will be chosen to conduct the affairs of the company. With each section directly interested, it is presumed that sufficient stock can be sold at once to erect buildings suitable for the exhibition of live stock, farm products, poultry and other commodities grown or produced in the district comprising the territory lying east of Oakland.

The fair is to be held in the fall of each year at

the race track grounds at Pleasanton. In connection with the exhibits the large number of fast horses always stationed here for training purposes will provide a feature ever essential for attractions of this kind.

Those who are taking the initiative in the project are E. E. Hall, H. P. Mohr, of Pleasanton, R. R. Fasset and C. H. Wente, of Livermore, Manuel Brown of Warm Springs and others prominent in the four townships. Canvassing of the district for the obtaining of stock subscriptions will be commenced at once.

NEW ONES AT VANCOUVER, B. C.

Mr. Chas. Parker arrived in Vancouver, B. C., April 13th with seven head of horses from Los Angeles, Cal. Five of them are for Vancouver parties and two are owned by Mr. Parker.

Era 2:10 by Zombro 2:11 is among the bunch and is the fastest record trotter ever imported into British Columbia. She is owned by Mr. Alex. Gibson, a very popular Vancouver horseman, who devotes the most of his spare time to the admiration of light harness horses.

Modesta, a five-year-old mare by Walter Barker (son of Heir-at-Law 2:05¼, dam by Mambriño King and out of old Sue 2:12¼ trotting, by Athadon (sire of The Donna 2:07¾ and Athasham 2:09¼), goes to Mr. J. B. Tiffin, proprietor of the Littolewt Stock Farm, Littolewt, B. C.

Alta, four-year-old by Redlac 2:07½; first dam Sonata 2:16 trotter, by McKinney 2:11¼; second dam the dam of Era 2:10 by Gen. Grant Jr.

Acclaim, a two-year-old by Carlokin 2:07½; first dam by Del Coronado 2:09½; second dam by Gosper 2:14¾; third dam by Hesperian; fourth dam by Del Sur 2:24¼; fifth dam by Overland, are for Mr. Wm. McGilvery.

Mr. Morris, former owner of Nelly Morris 2:26½ has in the lot a nice two-year-old gelding by Walter Barker out of Una K. 2:14¼, t, by McKinney.

The two owned by Mr. Parker are Mary B., brown mare by Del Coronado 2:09½ out of a mare by Gen. Beverly; Bon Litta 2:25½ by Bon Voyage 2:08, dam by Sidney 2:19¾. Mary B. is probably the best green trotting prospect ever seen in the Northwest as she has been a mile in 2:10½ over the Los Angeles new track this spring. Charley was offered \$5,000 for her before leaving Los Angeles by a Mr. Tiffney of Winnipeg, a wealthy hotel man.

THE MARYSVILLE MATINEE.

To-morrow (Sunday) the Sutter and Yuba Driving Club will hold its first matinee of the season at Knight Park, Marysville. F. E. Emlay of that city writes as follows regarding it: "I am sending you herewith the program of events to be decided, and from the line-up some good contests will result, as the Sacramento horses are right on edge and we have a few here that can go some, and with the superb condition of our track, a few matinee records are liable to be established that will be very stimulating to the sport and will also prove that the track is absolutely safe and a sure speed-producer. The club met this evening and arranged this card and hope to get it thoroughly advertised and expect an overflow attendance. There are several new ones getting in the game here and most of the thirty horses in training here are owned in the immediate vicinity."

CLASS A PACE.

The Jewess, owned by Alex. Levison, Rocklin. Delilah, owned by J. H. Heenan, Sacramento. Harold B., owned by W. H. Gaffer, Sacramento. Eleanor Sears, owned by W. L. Vance, Marysville. White Hose, owned by Chas. F. Silva, Sacramento. Geo. Woodard, owned by W. R. Merrill, Colusa. Jr. Dan Patch, owned by J. F. Elwell, Marysville.

CLASS A PACE.

Rapallo, owned by P. W. Hodges, Sacramento. Blanch T., owned by Chas. F. Silva, Sacramento. Tonopah, owned by W. L. Vance, Marysville. Mabel, owned by Geo. H. Magruder, Yuba City.

TWO-YEAR-OLD PACE.

Frances S., owned by J. E. Strain, Marysville. Sir John S. Jr., owned by M. Gomez, Marysville. Sutter Girl, owned by Geo. H. Magruder, Yuba City.

CLASS B, MIXED.

Sir E., owned by Buell & Blazer, Marysville. Colusa, owned by Geo. D. Herndon, Sacramento. Harvest Queen, owned by S. H. Cowell, Sacramento. Princess Flora B., owned by E. O. Burge, Sacramento. Lucia S., owned by J. E. Strain, Marysville. Rex, owned by Arthur Powell, Marysville.

FARMERS' RACE—OWNERS TO DRIVE.

Thos. L. Smith, Sutter County. Ben Manford, Sutter County. Oliver Keys, Sutter County. Fred Ohleyr, Sutter County. Wm. Harris, Sutter County.

CLASS C, MIXED.

Sorrel mare, owned by C. L. Honcut, Honcut. Bonnie Yuba, owned by W. L. Vance, Marysville. Peggie, owned by Herman Berg, Marysville.

Two "Gyps," known as C. P. Culpepper and A. F. Gormley, after being arrested for victimizing a number of people by selling them unsound horses, put up \$5,000 cash bail and skipped out of the country. These dealers are nothing more nor less than horse-thieves and should be treated as such. Both Culpepper and Gormley had bad records in the East, and they knew their chances for a long prison term were good, so that is why they forfeited their bail. Their pictures will now be scattered broadcast and every officer in the land will be on the lookout for them. There are several more in this nefarious business in this city and Oakland who are being watched.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

Southern Handicap Tournament.—Programs have been issued for the Interstate Association's seventh Southern Handicap tournament, to be held May 14, 15 and 16, at Columbus, Ga., under the auspices of the Columbus Gun Club. There will be \$1000 or more added money, these programs may be secured by writing to William Beach, secretary Columbus Gun Club, Columbus, Ga., or Elmer E. Shaner, secretary-treasurer Interstate Association, 219 Coltart avenue, Pittsburg, Pa.

Of the thriving city of Columbus, and the special attractions, the following information is given in the program:

"Columbus has for many years been known as the 'Lowell of the South,' and the great cotton mills in the city now operates over a quarter of a million spindles in the manufacture of the staple. Its industries, however, are not confined to the manufacture of cotton, but includes about ten large fertilizer plants, some of the largest iron works in the South and many other important manufacturing enterprises.

"Situated, as it is, at the head of navigation of the Chattahoochee River, it enjoys uninterrupted stamhoop communication with the Gulf of Mexico, over a route full of scenic beauty. North of and within the limits of the city are the falls of the Chattahoochee, and these provide the power which operates, through electric development, nearly all of the factories of the city, besides furnishing the power necessary to operate the street car service, domestic and city lighting, etc.

"Seven lines of railroads radiate from the city of Columbus, thus furnishing ample facilities for freight and passenger traffic and insuring low rates of freight on the commodities used locally.

"In the city proper and within two miles of the center of the city, there are over forty thousand souls, all reached by the first class electric car lines. There are many points of interest in and around the city, and these, with the many large manufacturing plants, will afford the sightseers a pleasant time in their inspection.

"Columbus combines with its great industries and commercial activities, an innate love of clean, healthful sports. It had the pleasure of holding the fifth Southern Handicap in 1910, and enjoyed the distinction of having the largest entry list in that event of any of the Southern Handicaps yet held. Its record of that year bids fair to be considerably eclipsed in the present year.

"The Columbus Gun Club, under whose auspices the 1912 Southern Handicap will be held, is one of the oldest and liveliest of the Southern gun clubs. Its membership is composed of the best business and professional men of the city, and the members are enthusiasts in the trap shooting world and numbers of them participate in similar events in different parts of the country.

"The grounds of the Columbus Gun Club are situated at the foot of the main street of the city and are reached by the cars from the center of the same in four or five minutes. They are equipped with every convenience, and with the knowledge acquired during the 1910 Handicap, the coming event promises to be as near perfection as a great tournament can be. Street cars pass all of the leading hotels at short intervals, offering rapid transfer to the grounds of the club.

"The Columbus Gun Club extends to its friends and to sportsmen generally a most cordial invitation to attend the Southern Handicap of 1912, at Columbus, on the 14, 15 and 16 of May, and promises a pleasant time while in the city."

The program calls for ten 15 single and one 25 double target event (200 targets) the first and second days. Five 20 target events (100 birds) and the Southern Handicap, 16 to 23 yards, 100 targets for the third day.

Golden Gate Gun Club.—Forty-five shooters participated in the Golden Gate Gun Club's monthly club shoot at Alameda April 21. Notwithstanding the powder burners were heavily handicapped by a strong northwest wind, good scores were prevalent.

Lon Hawxburst, the clever rifle shot, was high gun in the opening event, No. 1, breaking 19 out of 20 birds. H. D. Swales, C. H. Lancaster and E. Hoelle were high club shooters, with 18 each. This match was at 16 yards rise.

The second shoot was an extra event at 25 targets, 16 yards distance. R. C. Reed and Hawxburst smashed every bird thrown from the traps. E. Hoelle was second with 24 breaks.

The third event, a "grub shoot" at 10 birds, 16 yards rise, brought Toney Prior, Clarence Lancaster, Al Cook, Courtney Ford, H. P. Jacobsen and Hawxburst to the front with a straight run of 10 breaks each.

W. A. Simonton, shooting from the 16 yard mark, broke 19 out of 20 in the Peters-Selby dual trophy shoot and was again high gun in this event. The shooters were handicapped in this match from 16 to 25 yards distance.

Rush Razez, an Eastern expert, gave a clever ex-

hibition of trick shooting with a shotgun during the afternoon.

Over 4000 blue rocks were trapped in a series of 25 singles and 12 pairs, doulbes, practice shoots after the club schedule was shot. The scores in the regular program follow:

| Events | 1 | 2 | 3 | H'd. | 4 |
|-----------------|----|----|----|------|----|
| Birds | 20 | 25 | 10 | Yds. | 20 |
| W. A. Simonton | 12 | 23 | 8 | 16 | 19 |
| J. G. Heath | 11 | 22 | 8 | 20 | 14 |
| Miss Meyers | 8 | 19 | 8 | 16 | 13 |
| J. C. Walker | 12 | 19 | 5 | 21 | 17 |
| Grisby | 16 | 23 | 8 | 16 | 18 |
| H. D. Swales | 16 | 23 | 8 | 21 | 17 |
| F. Adams | 13 | 17 | 7 | 17 | 17 |
| George Thomas | 12 | 23 | 5 | 20 | 17 |
| H. P. Vallejo | 16 | 23 | 9 | 16 | 16 |
| J. T. Connelly | 17 | 25 | 9 | 21 | 15 |
| Toney Prior | 17 | 20 | 10 | 21 | 18 |
| A. J. Webb | 14 | 21 | 6 | 21 | 17 |
| E. Hoelle | 18 | 24 | 9 | 20 | 17 |
| C. H. Lancaster | 18 | 22 | 10 | 21 | 15 |
| A. J. Cook | 16 | 20 | 10 | 20 | 14 |
| T. D. Riley | 16 | 19 | 8 | 18 | 18 |
| W. Lancaster | 17 | 20 | 8 | 18 | 18 |
| B. Blanchard | 12 | 18 | 7 | 18 | 14 |
| E. C. Ford | 18 | 20 | 10 | 16 | 17 |
| Bridgford | 13 | 16 | 4 | 16 | 12 |
| Wickersham | 12 | 15 | 9 | 16 | 11 |
| G. Killam | 13 | 17 | 11 | 16 | 10 |
| P. Swansen | 11 | 19 | 11 | 16 | 11 |
| W. H. Price | 17 | 19 | 9 | 20 | 15 |
| H. P. Jacobsen | 16 | 23 | 10 | 18 | 14 |
| Lon Hawxburst | 19 | 25 | 10 | 20 | 14 |
| J. Potter | 12 | 17 | 7 | 16 | 14 |
| Brooks | 12 | 17 | 7 | 16 | 14 |
| W. E. Murdoch | 16 | 17 | 11 | 18 | 16 |
| Pete Ashcroft | 9 | 11 | 5 | 18 | 14 |
| W. G. Colby | 13 | 3 | 16 | 7 | 14 |
| J. C. Rice | 5 | 16 | 16 | 9 | 16 |
| Carl Westerfeld | 16 | 16 | 12 | 16 | 12 |
| J. Loba | 16 | 16 | 15 | 16 | 15 |
| J. Fesler | 16 | 16 | 18 | 16 | 18 |
| Rush Razez | 22 | 9 | 20 | 16 | 16 |
| J. W. Dorsey | 22 | 8 | 16 | 16 | 16 |
| H. Jones | 19 | 7 | 16 | 16 | 16 |
| Brown | 21 | 7 | 16 | 16 | 16 |
| W. W. Terrill | 17 | 4 | 16 | 16 | 18 |
| McGill | 17 | 4 | 16 | 16 | 15 |
| G. D. Morss | 9 | 20 | 15 | 16 | 15 |

Exposition City Gun Club.—Saturday afternoon shooters at the Exposition City Gun Club grounds, near the Marine Hospital, last week, mustered fifteen guns on the firing line. Four 25 blue rock practice shoots was the schedule.

A gusty northwest wind accounted for many goose eggs in different scores. E. Hoelle's 74 out of 100 targets was the best performance of the afternoon. A number of those participating are good wing shots. But despite that bluerock shooting is quite another matter with a shotgun, and requires some little practice to put a shooter in the 85 per cent and over class. The scores were:

| Birds | 25 | 25 | 25 | T |
|-----------------|----|----|----|----|
| H. D. Hawkes | 14 | 10 | 13 | 49 |
| D. M. Hanlon | 19 | 16 | 17 | 70 |
| H. F. Bassett | 11 | 13 | 14 | 38 |
| W. W. Adams | 18 | 9 | 11 | 27 |
| H. D. McCoy | 11 | 10 | 16 | 49 |
| J. W. Dorsey | 18 | 16 | 18 | 70 |
| H. Brickell | 18 | 12 | 18 | 63 |
| W. H. Smith | 10 | 12 | 10 | 41 |
| E. C. Ford | 16 | 14 | 16 | 60 |
| E. H. Dunn | 19 | 14 | 19 | 72 |
| E. Hoelle | 17 | 17 | 19 | 74 |
| C. Westerfeld | 11 | 16 | 12 | 56 |
| W. M. Abbott | 11 | 12 | 11 | 40 |
| W. D. Mansfield | 11 | 16 | 17 | 56 |
| L. C. Stewart | 13 | 14 | 12 | 54 |

The club's regular monthly shoot will be held tomorrow.

Easton Gun Club.—Fred Willet made the clever run of 65 straight, 16 yards distance, last Sunday forenoon at the Easton Gun Club traps at Easton, San Mateo county, during the regular club blue rock shoot. In two 25 bird events he scored every bird shot at. In shooting at double rises, 12 pairs, Willet broke 21 out of 24.

The scores were: Willet, 23, 19, 24, 25, 25; Lee, 20, 20, 24, 19, 24; Emil Holling, 23, 21, 24, 23; Hoag, 17, 17, 17, 16, 13; Cuthbert, 15, 21, 20, 23, 18, 21; Zackman, 19, 16, 13; McDonald, 9; Broderick, 23.

Double rises, 12 pairs: Willet 21, Lee 19, Cuthbert 14, Hoag 13.

Many Trap Shooters in Line.—Seventy-two marksmen was the quota of shotgun sportsmen who burned powder in clay pigeon trap shooting sport during last Sunday and the previous afternoon. This showing, comparatively the same for the past four weeks, places San Francisco in the van in the trap shooting schedule this year for the whole country.

New York, Philadelphia, Chicago and other large cities of the East have a strong following for this clean sport. Saturday afternoon gatherings at many of the wealthy Eastern club grounds are given much detailed space in the Eastern dailies, notwithstanding our local gunners outnumber their Eastern brethren. And coupled with this is the added condition that the enthusiasm here is growing and new recruits are weekly joining the ranks of the clay pigeon shooters.

Possibly one inducing feature of the smokeless powder impetus is that this city boasts a coterie of expert trap shots probably unequalled by the crack squads of any other city in the country. A most pleasing feature of the sport is the spirit of camar-

aderie existing among the members of the shotgun brigade.

Among the new shooters, friendly coaching has already made noticeable improvement with a number of novice scores.

Denver, Colo.—The Overland Park Country Club, of Denver, Colo., holds its regular shoot every Sunday, writes Secretary F. C. Skinner.

Following are the scores made on Sunday of last week:

| | Shot at. | Brk. | | Shot at. | Brk. |
|-----------|----------|------|-----------|----------|------|
| Sam Clark | 200 | 188 | Keefe | 100 | 93 |
| Plank | 150 | 133 | Tobin | 100 | 80 |
| Moritz | 140 | 127 | Skinner | 100 | 72 |
| McCreary | 150 | 150 | Fisher | 100 | 69 |
| Murray | 100 | 95 | Harold | 75 | 54 |
| Bowman | 100 | 94 | Kenworthy | 25 | 18 |

Salt Lake Gun Club.—C. H. Reiley, Jr., was high gun at the Salt Lake Gun Club shoot, April 15. Morgan was second. Shihley, Riter and Miller were tied for third. Complete scores at 50 birds follow:

| | | | |
|-------------------|----|-------------------|----|
| C. H. Reiley, Jr. | 45 | Lee Dinwoody | 38 |
| E. J. Morgan | 45 | Geo. Ames | 38 |
| Wm. Sibley | 44 | Bert Bain | 36 |
| L. E. Riter | 44 | W. F. Gallagher | 36 |
| E. J. Miller | 44 | Wallace Bransford | 36 |
| Wm. Vincent | 43 | Wm. Fowler | 34 |
| A. W. Cowan | 41 | W. Young | 33 |
| J. A. Carmichael | 40 | A. F. Smith | 32 |
| J. N. Sharp | 39 | Bert Brown | 27 |
| Dave Hood | 38 | | |

The tournament well be held on May 27, 28, 29 and 30.

Sacramento Gun Club.—Over seventy-five prominent trap shooters have signed a list which was circulated for the purpose of forming a Sacramento trap shooting club. Trap shooting used to be a great sport among the sportsmen there. The forming of the new club is again stimulating the old desire to get out on the trap ground.

Monte Newhart, G. Ighner and B. H. Worthen are taking the names of the new members and are the prime movers in the forming of the club. A new automatic trap is now on its way from the East.

The site where the trap shooting will be done has not been chosen. A number of good places are being kept in view and a good site will soon be chosen.

Pacific Indians Tournament.—Mr. Frank C. Riehl, herald of the Pacific Indians, has mailed a very attractive program for the coming tournament of the club, to be held June 25-28, at Eugene, Oregon. The tournament will be held under the rules of the Interstate Association and there will be a liberal amount of added money, aggregating about \$2000, including the \$300 contributed as part of the Squier money-hack special fund. All trap shooters will be heartily welcomed and enjoy something unique in this branch of sport.

Wawa (The Call).

Kwinnum Kil Kokumel pee Mimaloose Kulo-kula Illihe:

(Tis to meet and greet and slay some and sundry birds of clay.)

Favored with the fairest moon, twenty-fifth to eighth of June.

We are summoned to convene in the city of Eugene, Since our friends would have it so, and because we wish to go.

Every brave from far and near is commanded to appear;

Kloochman fair and Qualim, too, shall attend each war canoe.

And the Paleface we would know, who so bends the hunter's bow.

Him and all his kith and kin we invite to enter in. Mark we here the Sachem's call, bidding welcome unto all.

Much there is in pleasant vein to beguile and entertain;

And the program? Even so, never better; see below:

Newman Tournament.—Indications point to a large attendance at the Newman tournament today and tomorrow. There will be at least a dozen shooters from this city, flanked by a good representation from Stockton, Sacramento, Modesto, Madera, Fresno and other points. Visiting sportsmen may rest well assured of one fact. Newman hospitality has a State wide and excellent reputation.

Los Angeles Gun Club.—The big tournament of club next month will according to Secretary S. A. Bruner draw a record attendance for an Angel City shoot.

The rapidly approaching tournament of the Los Angeles Gun Club is bringing out the shooters from all over Southern California. The club has a good attendance almost every day during the week and thirty-nine shooters toed the firing line at the regular weekly shoot on April 21. The high gun for the day was J. R. Converse, who broke 99 out of 100, which is certainly some shooting.

The firm of Harris & Frank donated a \$25 suit of clothes to the club to be contested for in a 50-hird handicap event. This caused quite a little excitement and some very creditable scores were made. When the smoke cleared away it was found that Hagerman, Converse, Monahan, Mitchell and S. A. Bruner were tied with 50 birds each. In the shoot-off Converse won the clothes by breaking 25 from the scratch. Converse then showed that he was a true sport by re-donating the suit to be contested for in a 25 bird event. When this was shot out, Monahan was the winner by smashing 24 out of 25 with three birds added.

The regular program events were as follows: Feagan's Trophy, won by Converse with 24 out of 25. The Class A prize event went to Arnold and Mallory with 23 out of 25. Class B fell to Lane with a

25 straight. Class C. was divided between Llewellyn and Peterson with 23 out 25, and Class D went to Trems with 22 out of 25. The scores appear below:

| | | | | |
|--------------------|----|----|----|----|
| Birds | 25 | 25 | 25 | 25 |
| Miller, S. C. | 20 | 20 | 21 | 16 |
| Blumberg | 20 | 22 | 20 | 19 |
| Hagerman | 23 | 24 | 24 | 23 |
| Van Valkenberg | 23 | 23 | 20 | 21 |
| Smith | 21 | 24 | 23 | 20 |
| Fugh | 24 | 24 | 24 | 24 |
| Mallory | 23 | 25 | 21 | 20 |
| Lane | 23 | 23 | 22 | 22 |
| Lankersheim | 14 | 14 | 22 | 10 |
| Mitchell | 23 | 23 | 20 | 22 |
| Converse | 24 | 25 | 25 | 25 |
| Arnold | 22 | 19 | 23 | 22 |
| Brew | 25 | 22 | 25 | 22 |
| Monohan | 18 | 18 | 22 | 24 |

| Bohring | 21 | 22 | 22 | 22 |
| Mrs. Bohring | 11 | 15 | 11 | 11 |
| DuBray | 15 | 15 | 15 | 15 |
| Kimble | 12 | 18 | 8 | 15 |
| Hedderly | 13 | 10 | 16 | 16 |
| Robinson | 22 | 8 | 13 | 13 |

Washington State Tournament.—Under the auspices of the Spokane Rod and Gun Club the Washington State tournament came off successfully April 23 and 24 with a large gathering of shooters in attendance.

E. J. Chingren with 279 out of 300 was high amateur, Pete O'Brien with 275 next and R. H. Steinke 270, third.

Lee R. Barkley, 286 out of 300, was high professional, Tom Barclay 277 second, Fred Berger 272, third.

On all targets Lee Barkley was high with 358 out of 375. Pete O'Brien was high amateur with 346.

F. M. Troch won the State championship match with a 25 straight.

Pete O'Brien won the L. C. Smith cup with a score of 20 out of 25.

Dr. S. A. Fulton cracked out a straight 25 and won the Spokesman-Review trophy.

Pete O'Brien's score of 98 ut of 100 was shot at Walla Walla the week previous.

ANGLERS' OUTING.

The California Anglers' Association outing April 21, near Point Reyes, on the Paper Mill creek, was attended by 1000 people, which required the services of a special train of twelve cars, besides the facilities of the 8:15 a. m. regular train.

Near the White House fishing resort a sunshiny, clear day made the outing most enjoyable. Along the exposed stretches of the creek and surrounding country a brisk north wind was blowing, this did not aid the stream fishermen.

Numerous limit baskets were exhibited in the afternoon. The best general basket, caught any old way, was taken in Olema creek by Charles Arp. W. Arp received the second prize. While none of these two lots showed trout that averaged over a half pound the display was pleasing. Other winners in that contest were S. Tomisello, W. J. Black, A. E. Bennett, Will Swart, L. Lamb, A. B. Smith and Mo Uri, who received prizes in the order named.

The biggest trout shown was put in by Jim Andrews, a handsome fish about 1½ pounds in weight, taken in the White House pool early in the morning.

The fly fishing winners were: Milton J. Frankenburg, Harry Thomson, Joe C. Meyer, Dr. W. H. Hall, Charles Andrews, John Cattermole, T. Marish, R. E. Lacoste and A. M. Sutro. In these competitions the judges favored a catch of fish that were in pleasing and good condition when neatly arrayed on a mat of fresh green ferns. With fish and feathered game it is the true sportsman's delight to keep his prizes in as natural shape as possible.

Mrs. L. Stapleton of this city won first prize in the ladies' division. This catch of trout was the prettiest placed on the judging table during the day; not over two dozen trout, but of even average and looking as if they had just been taken out of the water. Miss A. Barbieri, Miss S. Andrews, Mrs. D. Bennett, Mrs. K. Mockel and Mrs. J. J. Gorman also won prizes in the order given.

Youthful fishermen were also given prizes. They were: W. J. Barbieri, S. Herman, A. Gardner and Otto Weissich.

The judges were: Hugh Draper, George Howe and J. X. DeWitt.

A large double marquese was a center of attraction during the day. In one section a delightful instrumental concert was given by Mrs. Jack Sammi, J. Sammi Jr., Professor R. J. Carpenter and Mrs. Carpenter.

Chief Justice Frank A. Duryea held court in the north end of the tent. Sheriff Sam Loose and Old Sleuth Joe Springer made many arrests. Jabez Swan prosecuted the culprits and Floyd Spence defended everybody that was brought in. Few de-

fendants were acquitted. Thirty of these couoned their guilt by joining the association and were released on probation.

Frank Dolliver was apprehended in "the willows" early in the morning for poaching. Judge Duryea suspended sentence on the agreement that Dolliver would get rid of his moustache, which the Point Reyes barber took off in short order.

Charley Breidenstein, Harry Gosliner, Tom Irving, George Howe and Heiney Davids dispensed a fine harbecued lunch, flanked by gallons of coffee and huge cans of fresh country milk.

FISH LINES.

Dry fly fishing is rapidly gaining in favor with the devotees of trout fishing. The orthodox dry fly rules are not conducive to big catches, but the claim is made that for the true angler, the skilled use of the dainty lures is the acme of sport on a trout stream.

At all events the beautiful creations of the fly tyer's art are appealing in the highest degree to any one who has the slightest inclination for tempting trout with a fly lure.

The dry fly is made so that it floats on the surface of the water in the most natural manner. The hooks are eyed, being tied with a jam knot to the snell or leader. The gut leaders for dry flies are specially selected. With the dry fly fisherman goes several contrivances—paraffine atomizers, magnetized pincers for picking the minute lure from the box and holding it securely until properly fastened to the leader.

Then again your dry fly man does not boldly wade a stream, not he. He watches until he sees a trout rise and then cautiously proceeds to the nearest point of vantage and makes a cast. Failing to strike on the first attempt, he waits a while, then another cast. Failing proper cover to reach a place on the bank for a cast, it is easily imagined as to the course of gymnastics necessary to get in casting distance without frightening the fish.

For over a week past the Paper Mill creek, from Lagunitas down to the tidewaters near Point Reyes, has been whipped by numerous anglers. Luck has been varied, expert rosters have caught fish of desirable size, others, again, have returned with a dozen or two of fingerlings.

Last Tuesday several anglers caught 130 trout in Lagunitas creek. This catch rather verifies the favorable reports concerning that creek since the opening days.

The headwaters of the Garcia, via Cazadero, on the Ogles ranch, will be the rendezvous for Arthur McCray, W. A. Morris, W. W. Rednall, Feathers Knobitsch and M. Hatch during a camping and fishing trip. That region will be the scene of many camps of jolly anglers this season.

Sonoma creek should be worth a visit. A three pound steelhead was caught recently in the creek near Wingo station. This stream was well stocked last year. From Glen Ellen down, plenty of small sized fish are reported to be in the creek.

The regular quarterly meeting of the California Anglers' Association was held last week and largely attended. The club will soon move to more commodious quarters.

The membership roll is increasing, and it is anticipated that within a few weeks the new members will number over 100.

Deputy Commissioner Bert Smith and Dr. L. T. Cranz arrested two foreigners last week at Purissima for violating the trout limit law. The men had in their possession 367 trout. They pleaded guilty before a Halfmoon Bay Justice of the Peace and each paid a \$50 fine.

RANDOM NOTES.

[By J. B. Thompson]

Speaking of retrievers, reminds me of an old pointer I hunted with for ten years or more. The old fellow never retrieved a bird in his life, up to the time of the occurrence I will relate; or had he shown the least disposition that he thought it worthy of his skill to hunt dead or singles. He was kept, on purpose, as a covey dog, and a covey dog's work was all that was required of him. We had retrievers that worked with him, but for coveys he was one of the most intelligent locators I had met with in many a day.

Our custom was to put the big liver and white fellow in a hundred acre field, then sit on the fence, or on a stump, and await development; if the old rascal didn't turn up in fifteen minutes we began hunting for him, and he invariably had his covey. For no covey ever layed long enough to induce him to flush, or once in a field could get away from his keen scent. He had no particular system, he might start out straight from us, but we were as likely to find him on point a half mile back of us, as anywhere; for he had no sense of the ethics of direction. But in all of the ten years of hunting behind Don, he never retrieved a single bird. We did not know much about force retrieving then, nor did we care, for as long as the old deaf dog could make coveys whenever he wished—which was very often—he had a select bed in the kitchen woodbox awaiting him. Another dislike the big fellow had was for water, he was known to go half a mile to find a foot log to cross a brook not four inches deep. His antipathy for water was so pronounced, that he would have considered it as great a sacrilege to wet his dainty feet, as some sects would find in eating the

meat of a hog. As years rolled along these peculiarities became the more pronounced, though a certain day jealousy of a gang of young pups, caused him for an instant to forget the eccentricities accumulated in a life time.

One afternoon we were down at the stock pond cutting into the teal that were piling in to the adjacent slashes. Four or five pups and old Don followed, allured by the crack of the guns. One duck fell some distance out from shore, the youngsters ran to the edge of the water whining in expectancy, but apparently afraid of risking a plunge in the water. Don looked on for a moment; a pup splashed as if he were going to take the risk; simultaneously with the pup's action, the old dog plunged from the dam, swam to the fluttering blue wing, seized it in his mouth, brought it to shore, depositing it at my feet. He seemed to realize the disgrace he was under by breaking away from traditions connected with him. Gave a low moan of misery and ran to the house with his tail between his legs. We found him later curled snugly in the woodbox, but all of our pleadings could not cause him to leave it until he was thoroughly dry. That was the first and the last bird that he ever retrieved, and we are inclined to think that it was a case of instinctive; he had become so disgusted at the dilatory tactics of the youngsters that he was animated with an unresisting force to show them how the task should have been performed.

While I am thinking of Don, I can't help recurring to some of his peculiarities. One of which I am almost ashamed to confess, was that he was an inveterate thief. Aside from home, no house was sacred from his predatory raids. When hunting we were obliged to steer him continually away from farmhouses, we were always on pins and needles as we passed a farmhouse anywhere near meal time, not being able to figure ahead his conduct. He would walk by nonchantly with lowered head and if the door was open give a rapid dash for the interior, seize any article of food he saw handy, and hasten his retreat; sometimes it was a half of a pan of biscuits, or a loaf of bread. But on one occasion he overestimated his acuteness and his rapacity proved his downfall. We were attracted toward the screams we heard emanating from a nearby farmhouse, running to learn the cause we found it to be a neighboring farmer's wife, we also found Don attempting to get away with a large side of bacon. The old lady pulling one end with one hand, and Don working as assiduously as she on the other; between screams she used the other hand in the noble act of belaboring Don with the hard end of the broom over his head, in her frantic efforts to secure the coveted meat. When we arrived we found the old lady on the losing side of the impromptu tug of war; her indignation was something fearsome to behold. Finally the only way we could stimulate her in to reasonable settlement, was by substantially proving to her, how during the battle the price of pork had soared upward. Don never passed that house again without a sidelong glance of regret at the prize he had failed to win.

Though this dear old campaigner has lead me unwittingly into a digression, on only a few of his eccentricities, it is well to say that the novice who handles his own dogs, will not find it difficult to teach the youngster retrieving; but with the older one he will find different methods to be adopted; here is where force retrieving comes in good stead, as it can be taught at any age. But if he shoots over two dogs, classy fellows, it would be less trouble in their future handling if he permitted only one to do the dead bird work; especially the one whose range is the most limited, so that jealousy to retrieve first will not bring on the habit of "breaking to shot" so readily. The wider going one, if not induced to hunt and fetch the dead is not as liable to acquire raking for scent methods, as he would if continually held up to hunt for cripples and dead.

Remarkable deeds of retrievers are related, even the old French writers tell some "big ones," that appear very entertaining under the chicque French garb, but succumb to coarseness through translation. We never hear the old timer recount the greatness of his dogs, but he invariably tells of his dog pointing a bird while carrying a dead one in his mouth, he looks upon it as the acme of perfection in retrieving, and a remarkable display of scenting powers. The writer has seen many dogs enact such a picture on game, but it would be hard to convince him that the animal had overly developed scenting organs to do it. I shall of necessity relate my own views of the matter at hand, as they have been the only ones I have been in touch with such an occurrence. Every time I have seen the supposed remarkable feat performed—it has occurred as frequently among dogs of very ordinary caliber as among those with intensely accurate noses—and as in a majority of cases it was done in the woods, while on scattered birds, I saw the dogs point with a dead bird in their mouth as often by sight, as by scent. I have always adhered to the opinion that in timber shooting, where the birds have only fallen leaves to bide in, some of the cracks under these scattered bird conditions are aided as much by sight as by scent in locating the single. But it takes long affiliation with dogs afield to distinguish the quality of the point, and that is why sight pointing is seldom given other than a cursory acknowledgment. At any rate we trust that it will be a long time before retrieving will be considered among shooting dogs as unimportant; but rather a distinction drawn in the selection of the individual for the work.

There is a great demand for retrieving pointers and setters from countries where snipe shooting is good. They come very handy there if they are staunch and can find many of the longbill fellows wounded, bidden in the little tussocks of marsh grass, where the human eye is unable to distinguish them as their coloring blends so well with the surrounding dead herbage.

Many places dogs are a valuable help in hunting snipe, where they lie closely, but in some snipe grounds where snipe come in countless numbers, a dog is more of a nuisance than anything else. At the time of the fight in spring, where the fields have been so heavily pastured through the winter, the birds have no place to hide, nor will they permit the dog to draw to point steadily. Though a retriever at heel is of some help. In countries where they have the cover of the bent rushes and the coarse swamp grass, dogs are welcome and rare sport is assured with the longbilled gentlemen.

Snipe have caused me puzzling moments of contemplation. Occasionally a slow dog of very ordinary nose handles them with great ease from the first time he draws on them. Another dog comes along with an exceptional nose, and refuses point blank, after having numerous opportunities, to freeze on them. I hear some one say they are such "cold scented" birds, as he calls them, that it takes a fine nose to smell them. This hardly explains it.

Yesterday the upland pastures were filled with jacksnipe, it was but slight trouble to secure the limit, within an hour. The surrounding country was pastured cleanly, and the new spring grasses scarcely two inches high; though the fields were noisy with the rasping "scaip" as the erratic flyers flushed in alarm on all sides. I took with me a son of Masterpiece, that belongs to a friend. He had never seen a snipe before; the little black and white is rather a fast youngster, wide ranger and exceptionally accurate in locating quail.

The first snipe he scented he pointed and it flushed wild and eight or ten more that he attempted to hold did likewise, so he began to draw on them at least twenty feet or more from the birds, and was remarkably successful in holding them at that long distance to point. In the afternoon I returned to the snipe grounds with a son of California Bell, Bell Boy's Duke, owned by the same individual. He is fully the equal of the Masterpiece pup every way, nose, range, etc., and greatly his superior in experience, but Duke could not get a single snipe to lay to his point. Now I was naturally anxious to solve the difference in the work of the two dogs, so I brought them together and found this slight difference, there was no cover and Duke tried every way to point by scent; on the contrary the short haired fellow changed his tactics as the birds were so conspicuous on the green meadow; he pointed them all at a distance by sight alone, after the first failure or so to get them by scent. Had he just tried sight pointing under the usual marsh conditions of tule flag, rushes and other cover it is very probable the little pointer would have gone without a single point, if he had placed dependence entirely on sight. We can not help but give him credit for rapidly grasping the situation, even if his olfactory organs had no place in the accomplishment.

We find quite a number of sportsmen disgusted with their high class dog that they have had trained by a professional; this occurs when he takes the dog to the country with the firm intention of making his friend's scrub look foolish. He goes out the first day and the scrub turns the tables on him, so he feels very dissatisfied with the dog, and feels like parting with him for a song. He argues it simply can't be, because he's out of condition, owing to his recent arrival from the handler, and he displayed no symptoms while hunting. It was just because the other dog found more birds, when he had planned otherwise. His dog was staunch, ranged nicely and retrieved cleanly and showed nose; but there was the intangible something lacking that made the other dog gain the points. What was the reason? It would be very difficult for him to ascertain.

Had he thought more deeply, he would have found that the rural dog had a perfect knowledge of the country there, of the game birds, and where they ranged, and what seemed remarkable powers in locating birds was probably due to his perfect acquaintance with his environments and the locations where the birds frequented, which he had gained by daily contact with it.

Give the well bred fellows the same freedom in that locality and the same opportunities to learn conditions described in the foregoing lines, and admitting that he has the hunt in him, he will outfind the scrub and do it with a superior quality of performance.

There is not a professional handler, that visits a country place but is not regaled with tales of the capabilities of a certain dog's performance, a local dog, and what he can do. The professional seldom replies to the bidden inuendo that his dogs are only soft pets, and refrains from offering to compete with his strings, but we never see any of these owners of great local dogs compete when a trial is held in their immediate vicinity. No doubt many of these dogs are qualified to do good work, and frequently they are very classy fellows, who have acquired their individual greatness through their own energies realized by self hunting. The owner seldom is willing to think of this as having any particular bearing on his education, but gives himself peculiar credit for the dog's remarkable familiarity with the habits of birds. Not infrequently these dogs have had no train-

ing whatever; about the only attempt their owners have made is to take them hunting, if they pointed naturally the first time on game, they had, as they called it, "The Makings" of a good dog; if they did not, they were held in no esteem. That is the way they judge the future of a dog, and their hard work in training the animal consists of turning loose a load of No. 8 shot at his headquarters, if he disobeys a command that he does not understand, or momentarily indulges in the luxury of a rabbit chase. Of course they do not admit this to be the method they have pursued, but we have rubbed our hands along the hindquarters of many dogs whose owners would have held their hands up in horror at the mere mention of anyone tapping a dog with shot, and found suspicious little round pellets firmly imbedded under the skin, that felt very much like shot pellets. The circumstantial evidence was very strong against them, but they were not quite so outspoken as the old time trainer when questioned by a patron, as to whether he used a whip in handling his string, without hesitating he promptly replied: "Whip nothing"; then murmured to himself, "It's too tight, I use a club."

The great difference between the methods of the professionals in handling their dogs while training; provided they are both in good game localities, might be contained in the word sentiment.

The amateur takes himself and his dog too seriously; he seems to think every shortcoming as a personal affront to him by the pup, and anticipates that the work should go on without friction between them, just as he plans or has learned from the numerous works he has read on the subject of training. He fails because he anticipates nothing but the meritorious qualities to unfold, and when they don't, becomes incensed; and fails to discover the right moment when the judicious use of the force collar or whip should be applied.

The professional handler is phlegmatic, and while he must be optimistic to be successful, he foresees the glaring errors that must come to light before the youngster rounds to the handlers' control; and in a measure while the pup is young allows the youthful aspirant for field honors far greater liberties than the amateur temperament could endure.

An amateur can not appreciate it as a good joke, when he invites a number of admiring friends to see the pup he has trained exhibit his work, and the pup has really done some excellent work; suddenly change his performance due to over excitement, and attempts to chase the covey over in to the adjoining county. If the dog were young, the professional would have seen the joke on himself and grown merry over the occurrence. But not the amateur; instead, he would blush in confusion and await to reprimand the pup after the departure of the visitors when the poor little one had entirely forgotten this bad behavior.

THE LAW ON DOG BITES.

After you have paid a quick visit to the Pasteur institute and have recovered physically, you will turn your attention most likely to the question of your ability to recover damages from the owner of the dog that bit you. Who is liable for the damage you have sustained?

The law on this subject is very clear, although the principles involved are sometimes misapplied even by judges. Primarily, the owner of an animal is liable for whatever damage it does if he has been guilty of the slightest negligence in maintaining it.

This rule is modified, however, in the case of ordinary domestic animals, such as horses, dogs, cats, cows, etc. In the case of such animals the owner is liable only if (1) the animal was of a vicious disposition, and (2) he had knowledge of the evil propensities.

The first thing to do is to ascertain whether the dog was really of a vicious disposition. Inquiries of the neighbors will usually elicit this information. Then you must prove that the owner knew of the animal's evil character.

The requirement that a person injured by a dog must prove that the owner knew the dog was vicious has led to the oft-repeated fallacy that "every dog is entitled to one bite." As a matter of fact, however, if your dog is vicious and you know it, you are just as liable for the first injury he inflicts as for subsequent injuries. The error with regard to this point has developed from the fact that in order to prove the owner's knowledge of his animal's vicious propensities it is usually possible to prove that the animal has misbehaved itself before, from which the inference has been unwarrantedly drawn that unless you can prove that the dog has bitten some one before, you can't recover damages—in other words, "the dog is entitled to his first bite."

But the owner's knowledge of his dog's dangerous temper may be shown in many other ways. Thus, it would be quite permissible to show that you yourself had warned the owner of his dog's viciousness, or you might be able to prove that the owner had warned his own family not to go near the animal. The fact that a dog is usually kept muzzled or chained is admissible evidence on the point, and so, too, the fact that the dog was in the habit of running out and snapping at passers-by.

Where, by teasing an animal, you bring the injury upon yourself, you cannot recover damages even though you can show that the dog was of a vicious disposition and that the owner knew it, nor is the owner liable for injuries which his dog inflicts upon a trespasser.

But if you enter a man's domain in a proper man-

ner upon a legitimate errand you are not considered a trespasser, even though you had no express permission or invitation to be there, and if you are injured by a vicious dog under such circumstances and can prove that the owner was aware of its propensities, you may recover damages for your injuries.

Where a man owns a dog which he knows to be vicious, it is his duty to keep the dog under such restraint that injury cannot come to those who legitimately enter his premises. Merely putting a "Beware of the Dog" sign above the animal's kennel will not relieve him from liability unless the person injured disregarded the sign and thus brought the injury upon himself.

Nor is it any defense for the owner of a vicious dog to show that he kept the animal chained up if the chain be long enough to enable the dog to reach passers-by. In other words, the owner of a vicious dog must take such precautions as to make it impossible to injure others, or he will have to answer for the consequences.

The safest course for the owner to follow when an animal shows vicious tendencies is to get rid of it at once instead of trying to keep it under restraint.

ANOTHER NATIONAL SHOW.

The Chico Kennel Club was recently organized in Chico and has a large and enthusiastic membership.

The club's initial show will come off next week, May 3, 4 and 5, under the rules of the National Dog Breeders' Association. Gil Halliwell and Sid Cavill will judge, the latter taking the terrier breeds.

The list of special prizes is a large and liberal one. Besides the N. D. B. A., "Garden City cup," "Members' cup," "Larkspur cup," "Breeders' cup," "C. E. Mills' cup," many club medals and about 75 other specials are offered.

Fifty or more dogs will be sent up from this city. The Chico entry promises to be a good one, enough to make the show a three pointer we are advised.

DEL MONTE SHOW.

The Del Monte Kennel Club will hold its annual summer show at the Hotel Del Monte on May 3 and 4. The judge who will pass on all breeds is George Steadman Thomas of Hamilton, Mass., well known to Coast fanciers.

Trophies have been offered for competition at this show by Mr. and Mrs. Anton Korbel, W. W. Stettheimer, the Ladies' Kennel Association, the Pacific Coast Dog Association, Mrs. D. T. Murphy, C. W. Conlisk, Dr. Creely, Judge Carroll Cook, A. J. Molera, D. P. Creswell, Irving Ackerman, Miss Jennie Crocker, Miss Alice Hager, W. Culligan, Miss Edith Chesbrough, the Diablo Kennels, Miss Irene Sabin, Miss Alice Wilkins, Mrs. C. Frederick Kobl, Mrs. C. J. Lindgren, Mrs. C. H. Biggs, Mrs. Leon Roos, Mrs. Thoms Blight and others.

The officers of the club are: Anton Korbel, president; A. J. Molera, vice-president; H. B. Warner, secretary. Bench show committee—A. J. Molera, chairman; Miss Jennie A. Crocker, Miss Irene Sabin, Miss Alice Wilkins, Timothy Hopkins, H. R. Warner, Anton Korbel.

Entries closed April 25. Premium lists and entry blanks can be had at 1260 Market street.

Peters Points.

At La Grange, Tex., March 10, Mr. H. J. Borden won high general average, scoring 89 ex 100 with Peters factory loaded shells.

At Seattle, Wash., March 10, Mr. L. H. Reid was second expert, breaking 83 ex 100, and his 14-year-old son, Deskin, was second amateur with the excellent score of 90 ex 100. Both used Peters factory loads. On the same grounds March 30 Mr. Reid was second with 94 ex 100 and Deskin Reid was second among the amateurs, breaking 89.

At Puyallup, Wash., Mr. L. H. Reid was high expert and at the same time won the general average with the good score of 95 ex 100, using Peters loads. Previous to this shoot, at McAleer, Wash., on February 22, Mr. Reid was second expert with the score of 97 ex 100.

The shoot at La Conner, Wash., on February 13 was quite a clean-up for users of Peters factory loaded shells. The three high amateurs, Mr. C. E. Esary first with 89, Mr. V. H. Frances second with 86, and Mr. J. C. Juna third with 80 out of 100 targets. Mr. L. H. Reid was first expert with 98 out of 100.

Winchester On Top.

At the sixth annual tournament of the Owl Rod and Gun Club, held at Modesto, Cal., on March 30 and 31, Mr. Fred Willet was high professional for the day, with a score of 140 x 150. Mr. Willet used a Winchester gun and Winchester Leader shells. Mr. Willet was also high on all targets shot at during the two days, breaking 330 x 350.

The Winchester pump gun squad made the score of 119 x 125, and three of the five men used Winchester Leader shells.

In the five man team shoot on March 31st Mr. Fred Willet shooting Leader shells and a Winchester gun was high with 49 x 50. Mr. Jim Lee, shooting Winchester gun and Winchester Leader shells was second with 48 x 50.

On the last 100 targets shot at, Fred Willet and Jim Lee each broke 96 x 100, both using Winchester guns and Leader shells.

Mr. H. Garrison broke 99 x 100 with a Winchester pump gun.

Members of any recognized driving association may participate.

each heat, 50, 25, 15 and 10 per cent, and class No. 4, mile heats, 2 in 3. A distanced horse in these races shall be entitled to money already won. Right reserved to declare off any race that does not fill satisfactorily, or to change order of program, to call two starters a walkover, who may contest for the entrance money paid in, payable 70 per cent to the first horse and 30 per cent to the second horse.
Owners may enter two or more horses from one stable for the same race by the payment of 1 per cent additional for that privilege, due when entry is made, but only one horse of the two can be started, except when proper transfer is made, according to rule and full entry fee on each entry.
In case class in which horse is entered does not fill, entry will be transferred to another class to which horse is eligible, subject to the approval of the owner.
Horses entered prior to September 1st can be declared out on that date, by written notice to the Secretary and an actual payment of 2 1/2 per cent.
Any race not finished on the last day of the meeting may be declared ended and the money divided according to the summary. Entries close May 15th, 1912, except in class Nos. 7, 10, 11 and 13, the entries in which purses will close September 1st, 1912.

HOWE, Secretary, Phoenix, Arizona...

CHAMPION COW IN CALIFORNIA.

A few years ago A. W. Morris & Sons embarked in the business of breeding blooded Holstein-Friesian cattle and at that time they determined that in the course of events they would own the finest stock farm of that particular breed in the United States. They have worked consistently ever since and as a very considerable factor toward that end they now hold in their herd the champion milch cow of the world.

This prize cow is Riverside Sadie De Kol Burke, No. 70708 and holds the world's record for both seven and thirty days, producing as follows:

| | |
|-----------------------|-------------|
| Milk, one day | 134.7 lbs. |
| Milk, 7 days | 920.8 lbs. |
| Milk, 30 days | 3735.6 lbs. |
| Butter, one day | 4.75 lbs. |
| Butter, 7 days | 32.08 lbs. |
| Butter, 30 days | 130.03 lbs. |

This cow already held the milk and butter record for California by producing last year, on official test, 25981.8 lbs. of milk and 980.16 pounds of butter in 365 days. Eight months after calving she produced in seven days 20.47 pounds of butter which at that time was the fifth largest record ever made.

Riverside Sadie De Kol Burke is one of the best-bred cows of the breed, being sired by De Kol Burke, one of the only four bulls in the world having four daughters with

seven-day butter records above 21 pounds. De Kol Burke is also the

Warranted to give satisfaction.

GOMBAULT'S CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeney, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a **HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc.**, it is invaluable. Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address: THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio.

|------------------------------|------|
| 10—THREE-YEAR-OLD TROT | 500 |
| 11—2:20 TROT | 1500 |
| 12—2:12 TROT | 800 |

CONDITIONS.

- Rules of the National Trotting Association to govern.
- First:** Entrance fee five per cent and an additional five per cent of the amount of the purse will be deducted from money winners.
- Second:** In stakes Nos. 5 and 8, twenty per cent of the amount of the purse will be divided at the end of each heat and forty per cent at the end of the race according to the summa ry.
- Third:** A distanced horse in these two races shall be entitled to money already won. Five per cent of the amount of the money raced for in each heat will be deducted from money winners.
- Fourth:** Owners may enter two or more horses from one stable in the same race by the payment of one per cent additional for that privilege, due when entry is made, but only one horse of the two to be started except proper transfer is made according to rule and entry fee paid on each entry.
- Fifth:** All money divided fifty, twenty-five, fifteen and ten per cent, less the five per cent entrance fee.
- Sixth:** In case the stakes in which a horse is entered does not fill, entry will be transferred to any other stake in which the horse is eligible, subject to the approval of the owner.
- Seventh:** The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2/3 per cent to the first and 33 1/3 per cent to the second horse, less five per cent entrance fee. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.
- Eighth:** The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.
- Ninth:** The Association reserves the right to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.
- Tenth:** Entries not declared out by 5 o'clock P. M. on the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.
- Eleventh:** Racing colors must be named by 5 o'clock P. M. on the day preceding the race and must be worn upon the track in all races. Colors will be registered in the order in which they are received and when not named or when said colors conflict, drivers will be required to wear colors designated by the Association.
- Twelfth:** The Association reserves the right to start any heat after the fourth score regardless of the position of the horses.
- Thirteenth:** All stakes are guarantee for the amount offered and are for the amount offered only.
- Fourteenth:** All entries will close June 1st, except classes Nos. 4 and 7, which will close August 15, 1912.

near Fillmore,

Phona Park 1253. SAN FRANCISCO, CAL.

only bull in the world to have four daughters with over 124 pounds of butter in 30 days.

This cow has been pronounced by competent judges an ideal dairy type, and one of the best specimens of the Holstein breed that they have ever seen. She carries a system of milk veins that is probably not equaled by any living cow.

Another record has recently been made by a cow in this herd which is the second largest ever made. After milking eight months, Aralia De Kol has produced, on official test, in seven days 956.1 pounds of milk and 20 pounds of butter fat, equivalent to 25 pounds of butter, 80 per cent fat. At the time this record was made the cow was 11 years and 10 months old, which is past the producing age of most cows. This cow also won the butter contest at the State Fair last fall, all breeds competing.

These tests were made under the supervision of the University of California and when the supervisor of the test made his report to The Holstein-Friesian Association of America, they immediately ordered a verification test. A second man was sent from the University of California and the cows were under constant watch night and day for 48 hours, and during this re-test showed a gain. To further verify the test, Prof. Phillips from the University Farm was in charge of the re-test for 24 hours.

The Morris' are justly proud of the showing made by the prize member of their herd. Inquiries have come to them from all points of the country relative to the official test which has been made and the fame of the farm will reach to every section of the world where stock breeding and raising bears any considerable importance.—Woodland Mail.

For a number of years scientists have been seeking methods by which cattle may be immunized against tuberculosis. Most of the efforts at vaccination have depended upon the injection of weakened germs of tuberculosis into healthy cattle. It was

hoped that these attenuated bacilli would produce in the animal so inoculated substances which would protect it from subsequent infection by virulent bacilli. Although some degree of success has been attained by these methods there is no uniformity evident in the results. Blood from cattle apparently immune to tuberculosis has also been injected into healthy cattle, but it has failed to produce any definite resistance to the disease. After reviewing the work of European investigators and conducting a series of tests in its own laboratories, the Department of Agriculture concludes that though results have been obtained which are very encouraging to the investigator, prompting him to continued efforts, no system of bovo-vaccination has yet reached a stage that justifies its use in common practice.

**TRIANGLE TRIP
OVER THE**

Northwestern Pacific Railroad

One of the most delightful scenic one-day jaunts in America.

150 miles of Mountain and Redwood Forest Scenery, a Boat Ride on San Francisco Bay and by rail along the Russian River.

Leave San Francisco 7:45 A. M. daily except Sunday, and 8:45 A. M. Sunday only, by boat across the Bay of San Francisco, in full view of the Golden Gate to Sausalito (the Sorrento of America). Thence via picturesque San Rafael and thriving Petaluma (home of the chicken industry), through Sonoma Valley to Santa Rosa and Fulton. From Fulton, through magnificent mountain scenery and redwood forests and along Russian River, to Monte Rio. Return is made along the coast, passing Tomales Bay, Point Reyes, San Anselmo, etc., to Sausalito, arriving at San Francisco 7:35 P. M. daily the same evening.

If preferred, trip can be reversed, leaving San Francisco at 8:15 A. M. via the coast to Monte Rio and returning along the river and through the valleys, arriving at San Francisco 7:35 P. M. daily except Sunday and 7:05 P. M. Sunday the same evening.

Round Trip Fare for Triangle Trip, **\$2.80**, except on Fridays or Saturdays, it is **\$2.50** and on Sundays only **\$2.20**.

Tickets on sale at 874 Market Street (Flood Bldg.) and Sausalito Ferry Ticket Office.

If a pig be grown right and fed right, there is no time in the life of it when he will make any more pork than between eight weeks and three months, in proportion to feed consumed.

BARGAINS FOR SALE.

ON ACCOUNT OF REMOVAL I MUST SELL THE FOLLOWING GRANDLY BRED TROTTERS AND PACERS WITHIN THE NEXT SIXTY DAYS:

DR. WM. S. JENNINGS, ch. g., 16 hands, 8 years old; a pacer; no record; with less than 90 days' work paced a mile in 2:11, a half in 1:01 1/2, last quarter in 30 seconds, and last eighth in 14 seconds, and last sound and is free-legged. Sired by F. S. Turner; dam Caritone by Antone (son of Dexter Prince), dam Biscari (dam of 9) by Dictator 2:17; second dam Bicara (dam of 7) by Harold, etc. One of the fastest and best "prospects" in California.

CALIFORNIA DILLON, ch. s.; pacer; record 2:18 as a three-year-old; trial 2:12 1/2, half in 1:02 1/4, quarter in 30 1/2 seconds. Sired by the great Sidney Dillon, dam Caritone by Antone; second dam Biscari (dam of 9) by Dictator 2:17, etc. Free-legged, sound, kind, stylish, royally bred, a sure foal-getter, and one of his colts, James W. Stewart, paced in 2:22 as a two-year-old in Salt Lake City last year.

MAJOR DILLON, ch. s.; 7 years old; 16 hands; weighs 1200 pounds. Has no record; been a mile in 2:16, half in 1:06 and a quarter in 32 seconds. Sired by Sidney Dillon; dam Maud Fowler 2:21 1/4 (dam of Sonoma Girl 2:04 1/4, etc.) by Antone 2:16 1/2. One of the choicest bred, soundest, purest-gaited (no hoppers) and most natural racehorses in California. He is a sure foal-getter and all of his progeny are large, stylish and fast.

YEARLING STALLION, bay, by Guy Dillon 2:23 1/2 (by Sidney Dillon, out of By Guy, dam of 3) by Guy Wilkes 2:15 1/4, out of Carimo C., by McKinney 2:11 1/4; second dam Adioo (dam of 2) by Guy Wilkes 2:15 1/4; third dam By (dam of 2, 3 sires of 10 and 2 dams of 5) by Nutwood; fourth dam Rapidan (dam of 3, 2 sires of 54 and 5 dams of 7) by Dictator; fifth dam Madam Headley (dam of 1, 1 sire of 4 and 2 dams of 5) by Edwin Forrest 5:51, the rest thoroughbred. This is a large, handsome, heavy-boned, trotting colt. His breeding can hardly be improved. He will undoubtedly be a very fast trotter; and who will have his equal as a sire when his days of racing end? Price \$200.

THREE FULL SISTERS, all trotters, two blacks and a brown; aged respectively 2, 3 and 4 years. Sired by Guy Dillon 2:23 1/4, out of Caritone by Antone, etc. These are halter broken, handsome, sound and straight, and bred in the purple. Prices: 2-year-old, \$175; 3-year-old, \$200; 4-year-old, \$225.

THREE-YEAR-OLD by California Dillon, out of Caratina by McKinney 2:11 1/4; second dam By (great broodmare) sister to Lockheart 2:08 1/2 by Nutwood 2:18 1/2, etc. This is a pure-gaited trotter, one of the handsomest, best bred and best formed fillies of her age in California. Price \$250.

A HALF-SISTER TO RUTH DILLON 2:06 1/4. A four-year-old trotter by Guy Dillon 2:23 1/4, out of Russle Russell by L. W. Russell (a sire); second dam Oakley Russell (great broodmare) by Happy Russell 4494, etc. This is a very fine-looking bay filly, a natural trotter; knows no other gait, and without doubt will be as fast as her half-sister. One of the classiest and most stylish lookers one could wish to see. Her bloodlines are of the very best. She is like the balance listed herein—absolutely sound. Price \$250.

For further particulars, address **FRANK S. TURNER**, R. F. D. 1a, Santa Rosa, Cal.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5474; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

G. LINDAUER, Owner, Union Livery and Sales Stable, 122-124 Clara Street, San Francisco.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Given to Owners of Stallions standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize, \$80.

2nd Prize, \$60.

3rd Prize, \$40.

4th Prize, \$20.

The Above Prizes Will Be Paid on June 15, 1912.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare on May 15, 1912, when name, color and description of mare and stallion bred to must be given; \$5 September 1, 1912 (with this payment color and sex of foal must be given); \$10 January 1, 1913; \$10 May 1, 1913; \$15 January 1, 1914; \$15 January 1, 1915.

STARTING PAYMENTS.—\$25 to start in the two-year-old pacing division; \$50 to start in the two-year-old trotting division; \$35 to start in the three-year-old pacing division; \$75 to start in the three-year-old trotting division. All starting payments to be made ten days before the date of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a trotter or pacer.

Colts that start at two years old are not barred from starting again in the three-year-old divisions.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The race for three-year-olds will consist of three heats one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments.

This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in this entry, rules of National Trotting Association to govern.

For entry blanks and further particulars, address

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25¼

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07¼ (trial 2:05¼), Eddie Mack (3) 2:29¼.

By **McKINNEY 2:11¼**; dam Expressive (3) 2:12¼ (dam of Atlantic Express 2:08½, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03¼, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

Montbaine

Reg. No. 48667

SON OF

MOKO 2457 (futuraire sire) and Krem Marie (dam of 4 in 2:30) by Kremlin 2:07¼; second dam Maymont by Blackmont; third dam Maywood by Blackwood, etc.

Montbaine is a rich, mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

SAVE-THE-HORSE

TRADE MARK REG'D.

These letters sound remarkable, but they are not. For over 16 years Save-the-Horse has been doing just such splendid and incredible work.

Woodstown, New Jersey, 4, 4, '12.

Troy Chemical Co., Binghamton, N. Y.:
I thank you for the advice you gave me and I want to say your Save-the-Horse has done more for me than anything I ever spent \$5.00 for. Last December I bought from you one bottle of Save-the-Horse to use for Bowed Tendons. After using for five days the horse has been doing her own work ever since, or driving fourteen miles three times every week.
This same horse stepped in a hole two weeks ago and sprained her shoulder. I bought another bottle and used it on her shoulder and she never missed her work. A man came in to see me. He knows all that you did for me. I let him use mine three days and he went and bought a bottle right away. He could see in that time what it was doing for him.
Please send me two boxes of ointment, \$1.00 size, for which I enclose check. Advise me about mud fever. Respectfully,
SAMUEL P. VAN PELT.

INCREASES VALUE OF TEAM FROM \$140 TO \$400.

Manhasset, Nassau Co., N. Y., March 12, 1912.
Dear Sirs: In view of all the cures I have made I have so much faith in its powers that I don't think you ever need sign a guarantee. It has cured every case I have ever used it on. I cured a polo pony that had been hit with a mallet and threw out a ring bone; was terribly lame; went sound in two weeks. A roan hunter with bowed tendon went sound and removed the enlargement. I use it for everything and use it all the time. I have a big work team of farm horses 5 or 7 years that cost \$140. They were both very lame when I bought them, which is less than two months ago. To-day they are sound and would bring at auction \$400 or \$500. Save-the-Horse did it. Enclosed please find check, for which please send me two bottles of Save-the-Horse.
Yours truly,
BURTON C. MITCHELL

WHETHER ON SPAVIN, PUFF OR TENDON, results are the same, and every bottle sold with an iron-clad contract to cure or refund money. This contract has \$60,000 paid-up capital back of it to secure and make its promise good. Send for copy.

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere.
\$5.00 with binding contract to refund money or cure any case of BONE AND BOG SPAVIN, THOROUGHPIN, RINGBONE (except low), CURB, SPLINT, CAPPED HOCK, WINDPUFF, SHOE BOIL, INJURED TENDONS AND ALL LAMENESS. No scar or loss of hair. Horse works as usual.

Will make the Season at

Black Hawk Ranch, Burlingame,

San Mateo Co., Cal.

Apply to or address

A. W. WARD, Supt., Burlingame, Cal.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11 1/4

Bay stallion; 15.2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10); by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barcana (dam of Bayard Wilkes 2:11 1/4, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03 1/4, Denervo 2:06 1/4, Nordwell 2:08 1/4, Memonia 2:09 1/4, Demonio Wilkes 2:09 1/4, Ben Rush (3) 2:10 1/4, Grace R. 2:10 1/4, Miss Winn 2:12 1/4, Normono 2:14 1/4, and is a full brother to the sires, Diablo 2:09 1/4, sire of 50, Arner 2:17 1/4, sire of 2, and Don Derby 2:04 1/4, sire of 1.

Will make the season of 1912 at SUISUN STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address

RUSH & HAILE, Suisun Stock Farm, Salsun, Cal.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKean 39460, son of McKinney 2:11 1/4, out of Helena 2:11 1/4 (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16 1/4 (sire of Copa de Oro 1:59, John A. McKerron 2:04 1/4, Happy Dentist 2:05 1/4, etc.); second dam Novellist 2:27 by Norval 2:14 1/4; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old he broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address
J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24½. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By **BON VOYAGE 2:08**

(fastest mile ever trotted in a race by a stallion in California): dam, Daphne McKinney (also dam of Frank N. 2:07½, the only other one of her get ever trained) by McKinney 2:11½; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11½, Yolande 2:14½ and Tina 2:20¼) by Guy Wilkes 2:15½; third dam, Moscova 2:28½ (dam of Mamie R., 3-y.-o., 2:15½, and Oro Belmont 2:15½) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. T. WOHIG, Manager, Race Track, San Jose, Cal.**

NEAREST MCKINNEY 2:13¼, sired by **MCKINNEY 2:11¼**; dam, **Mund Jay C.** by Nearest 2:22½ and own brother to John A. McKerron 2:04½ and half-brother to Louise Carter, dam of Wilbur Lou (1) 2:19½ and sire of Highly 2:04½, Alone 2:09½, Joe Gans 2:19½, Truebeart 2:19½, Just It 2:19½, and others, by Nutwood Wilkes 2:16½, sire of Copa de Oro 1:59, John A. McKerron 2:04½, etc., and dams of San Francisco 2:07½, Mona Wilkes 2:03½, etc.; 2d dam, Fanny Menlo (dam of Claudius 2:13¼) by Menlo 2:21, by Nutwood 2:13½, greatest brood mare sire; 3rd dam, Nellie Anteco by Anteco 2:16½; 4th dam, Fanny Patchen, by Geo. M. Patchen Jr. 2:27. Nearest McKinney is one of the handsomest McKinnays standing for public service. Color beautiful brown, 16 bands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14¼ and in 1911 got a record of 2:13¼, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address **T. W. BARSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.**

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 sired by Bon Voyage 2:08; dam Loma B. by Stam B. 2:11¼; second dam Italia (great broodmare) by Sidney 2:19½; third dam Dot 2:29 by Prompter, sire of dam of Gratt 2:02½. Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free.

Will make the season of 1912 at **EASTERBY RANCH, 3 miles east of FRESNO, CAL.** **TERMS:** \$50 to insure. Address **A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.**

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59¾

Dam Effie Logan (dam of Sir Albert S. 2:03¾; Jim Logan 2:05¼, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 1:256 (sire of Shecam 2:12½ and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javein 2:08¼, etc.); 3rd dam Grace (dam of Daedalion 2:08¼, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15¾ bands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at **DAVIS, CAL.**

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address **J. E. MONTGOMERY, Owner, CAREY MONTGOMERY, Davis, Cal.**

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to **The Harvester 2:02**

Sired by Ozono, trial (2) 2:17½, sire of Norvalon (4) 2:22¼, by Moko 2:457 (sire of Fereno 2:05½, Brenda Yorke 2:04½, Native Belle (3) 2:06½, and the dam of The Harvester 2:01. First dam Maggie Yeazer (dam of Walnut Hall 2:08¼, sire of The Harvester 2:01, etc.) by Red Wilkes 1749; second dam Docia Payne (great broodmare) by Almont 33.

Black Hall is a very handsome black horse, standing 15.3 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. **TERMS:** \$50 for the season; usual return privilege. California Stallion License. Pure bred.

ATHADON 20990

Rec. (1) 2:27

Sired by Mntadon 9302, sire of Athadon (1) 2:27, etc. First dam Athalie (dam of 7) by Harkaway 11808; second dam, Mag by Alcalde 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 128. Pure bred.

STANFORD MCKINNEY 45173

Sired by McKinney 2:11¼ (sire of 23 in 2:10 list). First dam Palavena (2) 2:19½, also dam of Mendovena 2:19½ and Menlo 2:29¼, sire of Blanche R. 2:06¾, by Palo Alto, rec. 2:08¾, Reg. No. 5354, he by Electioneer 125; second dam Astoria (dam of Palavena (2) 2:19½ by General Burton 1755; third dam by Kentucky Prince, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15.3 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. **TERMS:** \$25 for the season; usual return privilege. California Stallion License No. 126. Pure bred.

These horses will make the Season of 1912 at **FRESNO, CAL.**, at **Geo. L. Warlow's ranch.** Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address **GEO. L. WARLOW, Fresno, Cal.**

NOGI 2:10½---Reg. No. 57383

Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and neverbeaten as a 3 year old. Sired by Athabio 2:24¾. First dam Cora Wickersham (dam of Athasham 2:09¼, Donasham 2:09¼, Nogi 2:10½, Mattawan (3) 2:17½, Kinneysam (2) 2:18½) by Junio; second dam by Whippleton 1833; third dam by Gladiator 8335.

Nogi 2:10½ is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of **DR. T. A. DANIELSON, Madera, Cal.**

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address **J. E. VINCENT (Mgr.), Madera, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.**

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09¼, Jay Bird's greatest son; dam Exline 2:18¼ (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15¾; second dam Eusine (dam of 8) by Artell 2:12; third dam Russia 2:28 (great broodmare) by Harold 413; fourth dam Miss Russell (dam of Maud S. 2:08¼ and 6 others), etc. **Best Policy** is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

FEE: \$50 for the Season. Usual return privilege.

Horse in the Stud

Bay stallion; stands 15.3 hands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07¾, Athasham 2:09¼, Donasham 2:09¾, Sue 2:12, Listerie 2:13½, Mattawan (3) 2:17½, and 8 others in 2:30); dam the great broodmare Cora Wickersham (also dam of Nogi (3) 2:17½, (4) 2:10½, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasham 2:09¾ and Kinneysam (2) 2:18¾), by Junio 2:22¼ (sire of dams of Geo. G. 2:05½, etc.). **Athasham** has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06¼ in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at **Orchard Farm and Race Track, Fresno, Cal.**, for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place. **D. L. BACHANT, R. R. 1, Fresno, Cal.**

The Jay Bird-Baron Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by Jny Bird 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam Alma Wilkes (dam of 2) by Baron Wilkes 2:18; second dam Almeta 2:31 by Almont 33; third dam Alma Mater (dam of 3) by Imp. Australian, etc. **Alconda Jay** sire size, style and good looks. His colts are fast, natural trotters.

Alconda Jay, dark brown stallion, stands 15.3 and weighs 1150 pounds. He was bred at Maplehurst Stock Farm, Paris, Ky.; foaled in 1905.

Will make the Season of 1912 at

THE SALINAS FAIR GROUNDS, SALINAS, CAL.

TERMS: \$40 the Season. Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. **H. H. HELMAN, Salinas, Cal.**

KING S. (Trial) 2:15

Sire of Maurice S. 2:07¼

Sire, **Silver King 3622**; dam Maud by Brigadier; second dam by Owen Dale.

King S. is one of the handsomest stallions on the Pacific Coast. He has size, style, speed, is a sure foal-getter, and has every qualification to make him one of the greatest of sires. His oldest and first colt trained is Maurice S., one of the most consistent race horses in California last season, and five others, now being handled at the Marysville track, show remarkable speed.

King S. will make the Season of 1912 at the **J. STRAIN RANCH, 10 miles north of MARYSVILLE, CAL.**

FEE: \$50. Usual return privilege. The best of care taken of mares at \$2.50 per month, but no responsibility assumed for accidents or escapes. For further particulars, address **J. E. STRAIN, Marysville, Cal. Box 514.**

McADRIAN 2:24

Reg. No. 45391.

Sire of (Bert Kelly (trial) 2:11¼, Trix McAdrian 2:23¾, Grace Calmiers (tr) 2:24)

Sired by **GUY MCKINNEY** (sire of Vernon McKinney 2:02, Linden 2:22, etc.); dam **MAPLE LEAF 2:34¾** by Adrian 2:26½ (sire of Roseta A. 2:14¼), son of Reliance 2:22½ and Adriana by Skenandoah; McAdrian's grandam was **OLLIE RAY 2:39¾**, dam of Acclamation 2:24¼ (sire of Lizzie C. 2:15), Vendome, dam of McKinley 2:29; his great grandam was **MARY BLAINE** by Signal 3327 (sire of the dam of Prussian Maid 2:19, etc.). **Guy McKinney**, sire of McAdrian 2:24, was by McKinley 2:11¼, out of Flossie D., by Guy Wilkes 2:15¼; second dam, Blanche Ward (dam of Chlna Maid 2:05¼), by Onward 2:25½; third dam, Blanche Patchen, by Mambrino Patchen 58, etc.

McAdrian is one of the handsomest and strongest made grandsons of McKinney in California. He has no faults; is a pure gaited trotter and a sure foal getter. He will make the season of 1912 at the Pleasanton race track. **TERMS:** \$30 for the season. For further particulars, apply to or address **E. D. DIGGES, Owner, 743 E. Anderson St., Stockton, Cal.**

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04 3/4, champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07 1/2, second fastest 4-year-old stallion of 1910.

Grace Bond (3) 2:09 1/4, winner both Kentucky Futurity.

Creighton 2:08 1/4, record made in 1911.

Half brother to Jay Hawker 2:14 1/4, sire of Country Jay 2:05 1/4, Susie Jay 2:06 1/4, etc.

Half brother to The Tramp, sire of Bervaldo 2:08 1/4, Trampfast (2) 2:12 1/4.

Half brother to Sorrento Todd (4) 2:14 1/4, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

- BARON WILKES 2:18... Sire of 12 in 2:10, including Bumps 2:03 3/4, Rubenstein 2:05, Bar on May 2:07 1/4; sired dams of 4 in 2:10.
SORRENTO... Dam of Jay Hawker 2:14 1/4, Sorrento Todd (4) 2:14 1/4, Belle Sentinel 2:15, Eola 2:19 1/4, Lazy Bird 2:26 1/4, Teddy Sentinel, 2:29 1/4, The Tramp (sire), etc.
4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033 Three-Year-Old Record 2:10 3/4 in a Winning Race. Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed. The Patchen Boy 39033 is sire of the following:

- Francis J. 2:08
Evelyn Patchen... 2:10 1/4
Scott Patchen ... 2:12 1/4
Dessie Patchen ... 2:13
Frank Patchen ... 2:13 1/4
Ruby Patchen ... 2:13 1/4
J. C. Patchen ... 2:14 1/4
Legal Patchen ... 2:15 1/4
Lucille Patchen ... 2:16
Jerry Patchen ... 2:16 1/4
Knightstown Belle 2:16 1/4
Alec Williams ... 2:18 1/4
Lois Patchen ... 2:19 1/4
Auduous the Miller 2:19 1/4
Dorothy C. 2:19 1/4
Louise Patchen ... 2:19 1/4
Dr. Warren ... 2:19 1/4
Roscoe Binning ... 2:20
Mary Patchen ... 2:20 1/4
Black Patchen ... 2:20 1/4
and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 1/4 (trotted to high wheels), Anglin Wilkes 2:16 1/4 over half-mile track, trial 2:09 1/4, by Metropolitan 1872, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.) THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062 A Sire of Early Speed. License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16 1/2, sire of Copa de Oro 1:59, John A. McKerron 2:04 1/2, etc., end 2; dams of San Francisco 2:07 1/4, Mona Wilkes 2:03 1/4, etc.
Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17 1/4 and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13 1/4, and timed separately in 2:14 1/2, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24 1/4 pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mares proves not in foal. Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes. For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13 Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22 1/2, (3) 2:15 1/4, (4) 2:11 1/4, Ella Mac (3) 2:14 1/4, Vallejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed. Sire, McKinney 2:11 1/4; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09 1/2 to 2:28 1/2) by McDonald Chief 3583; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the DRIVING PARK, SAN JOSE, CAL. Fee \$50. Usual return privilege. The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train. For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bore in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

BALLISTITE

A PERFECT "DENSE" SMOKELESS POWDER

--- FOR ---

Field and Trap Shooters.

Ballistite is a perfect "dense" smokeless powder for Shotguns. It has a moderate recoil which commends it to all shooters.

Shoots clean,—no unburned grains to "blow back." Age does not affect its shooting qualities, which are further enhanced by its waterproof characteristics.

In addition to these essentials of a sporting power, is the guarantee of quality which is assured to every purchaser of Ballistite Smokeless Powder.

110 years as powder makers enables us to combine practical experience and materials in a manner to insure the production being exactly as required and of uniform quality.

Ask your dealer for shells loaded with Ballistite.

Send for Ballistite Booklet No. 99, showing proper loads for various game.

**AUTOLOADING
SHOTGUN**

Five shots all under absolute control—three to get the cripples. The action is simple, powerful and sure. The trigger pull is smooth and easy. The hammer is light and quick. Part of the recoil ordinarily absorbed by the shooter's shoulder is utilized to operate the mechanism. Not one single ounce of muzzle energy is lost. Handles the heaviest loads with ease and safety. Solid breech, hammerless, safe.

\$ 17,050

In Guaranteed Stakes

23rd Annual Race Meeting

—OF THE—

\$ 17,050

In Guaranteed Stakes

Pacific Coast Trotting Horse Breeders Association

STOCKTON, CAL., SEPTEMBER 25, 26, 27, 28, 1912

Entries close June 1, 1912.

NOTE—Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races. Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starter is to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. Where a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

PROGRAMME FOR THE MEETING:

| WEDNESDAY. | THURSDAY. | FRIDAY. | SATURDAY. |
|--|---|---|---|
| 1—2-Year-Olds, Trotting Division Futurity Stakes No. 10 (Closed 1909) . . . \$1450 | 4—3-Year-Olds, Pacing Division Futurity Stakes No. 9 (Closed 1908) . . . \$1300 | 8—3-Year-Olds, Trotting Division Futurity Stakes No. 9 (Closed 1908) . . . \$3300 | 12—2-Year-Olds, Pacing Division Futurity Stakes No. 10 (Closed 1909) . . . \$ 950 |
| 2—2:20 Class Pacing . . . 1000 | 5—2:08 Class Pacing . . . 1000 | 9—2:08 Class Trotting . . . 1000 | 13—2:20 Class Trotting . . . 1000 |
| 3—2:15 Class Trotting . . . 1000 | 6—2:11 Class Pacing . . . 1000 | 10—2:16 Class Pacing . . . 1000 | 14—2:12 Class Trotting . . . 1000 |
| | 7—Driving Club Race . . . 400 | 11—Driving Club Race . . . 400 | 15—Free-For-All Pacing . . . 1000 |

Horses to be named with entry. Entrance fee three per cent, due at time entries close, one per cent additional if not declared out on or before July 1, 1912, and one per cent additional if not declared out on or before August 1, 1912. Declarations must be paid in full at time of declaring out. Usual five per cent additional from winners in all races except Futurity Stakes. All races mile heats, best 3 in 5, except for two-year-olds.

For entry blanks and further information, address the Secretary.

MEMBER NATIONAL TROTTING ASSOCIATION.

E. P. HEALD,
President.

F. W. KELLEY, Secretary,

Montbaine

Reg. No. 48667

SON OF

MOKO 24457 (futures sire) and **Krem Marie** (dam of 4 in 2:30) by **Kremlin** 2:07 3/4; second dam **Maymont** by **Blackmont**; third dam **Maywood** by **Blackwood**, etc.

Montbaine is a rich mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

4416 Stanford Ave., Sacramento, CAL.

Sired by **Nutwood Wilkes** 2:16 1/4 The Wilkes-Nutwood-Director cross. Dam by **Director** 2:17
Sire of **Copa de Oro** 1:59 Sire dam of **Record** 2:15
Jno. A. McKerron 2:04 1/2 etc. **43488** 2nd dam by Nutwood 2:18 3/4; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont.

CHESNUT TOM

WILBUR LOU 2:19 1/2, Champion Yearling Colt Trotter of the World. The dam of Wilbur Lou 2:19 1/2 is the only one of the get of Chestnut Tom ever raced. Will stand at **Tulare Fair Grounds, Tulare, Cal.** FEE: \$25 the Season. Usual return privilege. For further particulars address **I. M. LIPSON**, Box 461, Tulare, Cal.

BREEDER AND SPORTSMAN

Turf and Sporting Authority of the Pacific Coast.

RUMORS of war with Mexico cannot be stilled and were it not that the people of the United States are at present so deeply concerned in the trend of political affairs there is no doubt that greater activity in the War Department would be ordered and a strenuous campaign started. Rumblings of discontent, prompted by jealousy and the incoming of so many Americans have been heard for the past three years throughout Mexico. The inhabitants seem to have no feeling against the rich English and German syndicates which are engaged in mining and stock raising. It is the American they hate and despise. Whether it is a fanning of the flame which was almost extinguished in the Mexican War, when the Americans crushed their strongholds, or not, is a question that time alone can decide. It is true there have been certain representatives of a low element of humanity that drifted into Mexico from America, and are still making their dangerous presence felt; and the Mexicans, having seen only these renegades, take it for granted that all Americans are like them. Naturally they fear and despise them and cannot hide their hatred. Those who come direct from England and Germany are representative men, scientific and thoroughly educated. They bring wealth to pay for valuable concessions, and their integrity is never questioned. They represent countries which are noted for protecting their subjects should they be mistreated in foreign lands and rally to their support.

On account of the proximity of America, however, there are so many opportunities for stealing and smuggling contraband articles across the border that hordes of the most daring ex-convicts are engaged in this work. To properly protect and police the people living on the border line between these countries would take an immense army, consequently the presence of even a few soldiers on the frontier harasses the lower elements of both countries, and they will surely precipitate war, sooner or later. Both sides are anxious for it, but the Presidents and Cabinets of these countries are trying to prevent it.

Should war be declared there will be need for an immense number of horses for the cavalry and artillery. The nature of the land is such that infantry forced to long marches over these torrid plains and across those mesquite and cactus-covered deserts would have a greater mortality than they would from the bullets fired in actual warfare.

Naval supplies are useless in a war of this kind, for the few towns on the coast are so far way from the vital agricultural areas that it would be a

waste of ammunition to storm them. Hence, the result of a war between the United States and Mexico will depend largely upon the efficiency of our cavalry and artillery.

The question then arises: Where are all the horses and mules needed to come from? For many years Uncle Sam has had a corps of young West Point graduates who have shown by their specifications regarding the kind of horses needed in the service, they are totally ignorant of the fact that good horses have been increasing in value every year since the Spanish war, and have not reached their limit yet. These officers, being merely servants of the government, have an idea that farmers and breeders should supply them with horses at far lower prices than any other class of buyers. The restrictions placed upon government horses such as gait, size, weight, color, and soundness, are such as to command the very highest prices in any open market. The officers know these facts to be true, but try to hoodwink the government into the idea of getting thoroughbred sires and mares and breeding cavalry horses from them. They know the results will be equine failures, but, whenever one of the multi-millionaires who, in their greed, killed the racing game in the East, presented thoroughbred stallions to certain farmers in some sections of the United States, forthwith these officers rushed into print about what is to be accomplished by using such magnificent sires. We have yet to hear of a breeder who has patronized one of these stallions that has received as much for the produce as he would if he had bred his mare to a "cross roads stud-hoss." One thing is certain, soldiers don't want those half breeds. At least none is being purchased for them.

If war is declared there will be but one place where our government can procure horses and that is from farmers and breeders. There are no ranges left where thousands of wild horses roamed, and bands of mustangs cannot be collected every week from the interior. Men must be sent to those places where horses (irrespective of breeding, if they fill all requirements) can be purchased at fair prices and the breeders will then receive something near their value. There will be no lack of horses and mules if the government pays the price and the war will not last long, because the Mexicans are disheartened and disorganized and really are to be more pitied than censured.

ANY association that offers a \$10,000 Guaranteed Futurity Stake similar to the one advertised by the Los Angeles Harness Horse Association, should receive the encouragement and support of every owner of a foal who is informed of its existence. The association is trying to awaken an interest in breeding and developing colts and fillies on this Coast, and to prove that their intentions are of the best, they begin their labors by offering as the very best inducement this large amount of money under the caption "The Los Angeles Futurity Stake No. 1, for foals of 1912, to trot or pace at two and three years old." They have placed the low sum of \$2 to nominate the mares that are due to foal this year or have foaled, and the entries are to close one week from next Wednesday, May 15th. The advertisement in this issue contains the terms and conditions under which all subsequent payments are to be made, the division of the stake money and the premiums offered to nominators of dams of winners and owners of stallions. Besides these, there are four special cash prizes to be paid June 15th to stallion owners presenting the highest list of mares bred to their stallions which are named in this Futurity Stake. The races are to be decided in 1914 and 1915 over the beautiful track at Exposition Park, Los Angeles, and as the meetings there are generally held about October all the young sters which are to start will be thoroughly rested after finishing their engagements in other stakes during the early part of the season. It is of the most vital importance to every owner to have a large entry list for this stake, the largest ever offered on the Pacific Coast for two and three-year-olds. Don't overlook it! Tell your neighbors and friends about it.

SEPTEMBER will be a lively month for the Stocktonians. The Native Sons of the Golden West will hold their annual convention there on the 9th, 10th and 11th, and the Pacific Coast Trotting Horse Breeders' Association will begin its race meeting

there on the 25th. "Stockton will be in the limelight" this year and more visitors to this progressive city will be welcomed by its liberal and hospitable citizens than ever before, and all will be pleased—bosts and guests.

THE King County Fair and Race Meeting of 1912, which is to be held at that beautiful track at "The Meadows," Seattle, advertises ten valuable events in this issue. Entries to these will close Wednesday, May 15th, and every owner and trainer who contemplates taking his trotters and pacers north should attend to this, the most important of all preliminaries—sending entries in on time. Remember they will close Wednesday, May 15th, and make arrangements accordingly.

BURBANK.

In breeding trotting horses it is and always has been the aim of the owner of a good mare to breed her to a stallion that has size, style, substance and speed, and the owner of the mare Diamond (which had a trial of 2:14), by Delwin 2:25, acting upon this basis sent her to Seymour Wilkes 2:08 1/2 and the foal whose picture appears as a frontispiece in this issue was the result. He was named Burbank after the greatest botanical wizard in the world. Seymour Wilkes was the fastest son of Guy Wilkes 2:15 1/4 and was also one of the handsomest. He had a beautiful head, crested neck, sloping shoulders, rounded barrel, heavy quarters and limbs like steel. He was out of Early Bird by Playmail (brother to Barney 2:25 1/2) by Mike 3403, by Vermont. Early Bird's dam Lucy was by Odd Fellow, out of a mare by Williamson's Belmont. He represents the Wilkes, Morgan and thoroughbred cross and that was why he had all the qualities of speed, beauty and gameness to be found in such a combination of bloodlines.

Delwin 2:25 was by Del Sur 2:24, out of Imogene, dam of Guide 2:16 1/4 by Norwood 522 (son of Hambletonian 10 and Lady Fallis by American Star 14) second dam by American Star; third dam by Henry Clay 8.

Burbank will be prepared for racing this fall and as he is endowed with remarkable speed undoubtedly will get a low record. In reference to his individuality the half-tone of him conveys merely an idea; he is a seal brown in color, stands 15-2 hands and weighs 1100 pounds. His disposition is perfect, and that he will sire fine large colts of the highest type is a certainty. He will make the season of 1912 at the California Stables, 2065 Allston Way, Berkeley. For further particulars write his owners, Messrs. Seale & Curran at the above address.

MATINEE RACING AT MARYSVILLE.

Close finishes and good time considering the unfavorable weather conditions marked the first harness race season held here today under the auspices of the Yuba and Sutter Driving Club. Sacramento horses won firsts in two races; Marysville took the honors in one race, and The Jewess won the Class A pace and represented Rocklin among the winners. The Jewess paced the two fastest miles of the day, winning in straight heats in 2:13 1/4 and 2:11 1/2.

P. W. Hodges' Rapallo, which showed such good form in the Sacramento meet, a few weeks ago, was again in form, taking the Class A trot in straight heats. W. H. Gaffet's Harold B. was the other Sacramento horse to take a first place.

There was a large delegation on hand from Sacramento, Colusa, Folsom, Stockton and Rocklin were also represented.

The officials were: Starter, F. E. Wright, Sacramento; Judges, M. J. Murray, Sacramento, Peter Donnelly, Folsom, W. J. Ivey, Sacramento; Timers, W. T. Harkey, Marysville, Frank Lieginger, Stockton, Frank Atkins, Marysville; Marshal, Master Jack Stewart.

Summary:

| | |
|---|-------|
| Two-year-olds: | |
| Sir John S. Jr., (M. Gomez)..... | 3 1 1 |
| Francis S. (J. E. Strain)..... | 1 2 2 |
| Sutter Girl (Geo. Magruder)..... | 2 3 d |

| Muggins (R. C. Silva, Sacramento)..... | 3 3 |
| Time—2:17 1/2, 2:15 1/2. | |
| Mixed Race: | |
| Rip (A. C. Powell, Marysville)..... | 1 2 1 |
| Sir E. (Buell & Blazer, Marysville)..... | 2 1 2 |
| Harvest Queen (S. H. Cowell, Sacramento)..... | 3 3 3 |
| Time—2:23 1/2, 2:26, 2:24 1/2. | |

It is said that the Arab horseman finds a world of pride in the extremely lengthy pedigree of his favorite horses, but it is doubtful if any of the sons of the desert have any edge over the Hopper Faru in that respect. Their latest catalog lists the mare, Katola Belle, a daughter of Allerton 2:09 1/4 and Gul Bahur, by Guy Wilkes 2:15 1/4, and her pedigree is carried back to the twenty-third dam.

NOTES AND NEWS

The MacKenzie horses will leave California on or about May 15th.

The Charter Oak purse this year has 36 entries, against 31 in 1911.

Send in your items! We want correspondents in all parts of the Pacific Coast.

A matinee race meeting was held at the Salinas race track Wednesday (May Day).

Vallejo Girl 2:10 $\frac{1}{4}$ has been bred to Bon McKinney 2:24 $\frac{1}{2}$ and is believed to be with foal.

Airlie Demonio, Chas. Johnson's stallion, has been bred to forty mares this season at Woodland.

Seventeen of the thirty-six trotters entered in the M. and M. at Detroit, have worked in 2:10 or better.

J. Elmo Montgomery, with his stallion Jim Logan 2:05 $\frac{1}{4}$ left Sacramento for Detroit last Thursday.

The full list of entries to the different stakes which closed Wednesday, May 1st, will be published next week.

Patsy Davey has commenced training that good game trotting mare Yolanda 2:14 $\frac{1}{4}$, and she shows she has all her old-time speed.

The recent rains have insured a bountiful harvest of cereals and fruits in California. Pasture is excellent and hay will be plentiful.

The pacer, Don Densmore 2:03 $\frac{1}{4}$, by Pactolus, is credited with 15 starts in 1911, winning 14 races and once finishing third. He captured nearly \$9000.

Henry Jones is educating the two-year-old black filly Jayem, by Zombro 2:11, out of Clara Direct, dam of Maggie Winder 2:06 $\frac{1}{4}$, by Direct.

Lou Dillon, it is said, will be bred to Atlantic Express 2:08 $\frac{1}{4}$. The produce of this union should have plenty of nerve force.

Cleopatra 2:11, one of Mr. I. L. Borden's good pacers, will be sent to John Quinn, Sacramento, next week, to get in readiness for the races this fall.

Spark O'Light, by Searchlight 2:03 $\frac{1}{4}$, dam by C. F. Clay 2:18, is expected to enter the 2:05 list this year. He is in Harry Horriner's string.

At the Chicago sale, May 6-11, 31 head of yearlings and two-year-olds, including 14 colts, the get of Peter the Great, will be sold by the Patchen Wilkes Farm.

Matt Zahner drove Toodles, a pacer by Morris A., a quarter last Saturday over the San Jose race track in 30 $\frac{1}{2}$ seconds. This five-year-old is owned by Messrs. Gingg Bros., of San Luis Obispo.

The University School Farm at Davis will hold its fourth annual basket picnic next Saturday, May 11th. There will be stock judging, a stock parade, music, dancing, etc. Everybody is invited.

The Indiana-owned trotter Billy Buff, who has shown trials in 2:10 and quarters in 30 seconds, is by Buffington, son of Sable Wilkes. He will be Lon McDonald's best het in the M. and M.

The progeny of The Patchen Boy (3) 2:10 $\frac{1}{4}$ won \$18,067.50; Zombro 2:11, \$16,669.75; Bingen 2:06 $\frac{1}{4}$, \$16,613, and Peter the Great 2:07 $\frac{1}{4}$, \$50,306.50, during the season of 1911.

There is no barn No. 13 at Lexington, Ky., track. This number was dropped long ago in everything at the local trotting ground. The track management is not particularly superstitious about the "hoodoo," but many of the patrons are.

The changing of the Kentucky futurity from a three in five to a two in three race apparently didn't cost any nominations. Over 1500 are said to have made first payment upon the colts that are to race in 1915.

H. Boyle, of Mill Valley, has sent his little bay made Ida M., to Pleasanton to be bred to El Zombro (son of Zombro 2:11 and Bouquet by Nushagak). Mr. Boyle won several races with this mare at the Stadium last year.

Bon McKinney 2:24 $\frac{1}{2}$, the grandly-bred son of Bon Voyage 2:08 and Daphne McKinney (also dam of Frank N. 2:07 $\frac{1}{4}$) by McKinney 2:11 $\frac{1}{4}$, has gained over 100 pounds in weight since he arrived at San Jose, and is developing into a fine large horse. He has been bred to several very choice mares and is one of the "surest" foal getters in the country. Jos. Twohig, his manager, jogs him every day and next year he says this horse will get a mark lower than the good one, 2:08, held by his sire, Bon Voyage.

Joe Twohig has had the pacer Welcome Jr. sent him to San Jose. Welcome Jr. is by Welcome 2:10 $\frac{1}{2}$, out of a mare by Adrian 2:24 $\frac{1}{2}$, and belongs to T. McCarty, of Watsonville. This makes ten head that Mr. Twohig is caring for.

Since Chas. De Ryder has taken charge of the race track and grounds at Pleasanton he has given up caring for about fifteen "outside" horses. He finds his time pretty well occupied looking after his stallions and keeping the track in order.

The track at the San Jose Driving Park is in splendid condition and Ray Mead, the proprietor, is working hard to keep it like velvet. A number of horsemen are thinking seriously of sending their horses there.

Everybody interested in light harness horses will be more deeply interested in the future of Mr. R. J. MacKenzie's trotters and pacers than ever, now that he has identified himself with California's best interests by purchasing the Pleasanton Race Track.

Chas. Spencer's horses at Sweetwater Track, San Diego, have become used to the climate and are doing well. It has taken Mr. Spencer some time to get the course to suit him and every work out day there is quite an attendance of interested spectators.

Three was an enthusiastic crowd in attendance at the matinee races at Marysville last Sunday and everything passed off as smoothly as if it were a meeting on the Grand Circuit. The track there is a good one and all the horses in training on it are doing finely.

The disposition of a horse is in a large measure bred in him. He may have behind him long generations of heredity that has had meanness in it, and it will crop out, but a good deal of the disposition of the horse is a matter of development by the people who handle and educate him.

There is a full sister to Alto Express 57364 at San Jose. She is a three-year-old big fine looking bay, sired by Iran Alto 2:12 $\frac{1}{2}$, out of Beautiful Bird by Nutwood Wilkes 2:16 $\frac{1}{2}$; second dam Expressive (3) 2:12 $\frac{1}{2}$, the greatest race winning daughter of her age sired by Electioneer.

It is claimed that on account of the increased work which will fall upon Chas. De Ryder as manager of the Pleasanton race track, whereon so many changes are to be made this year, he will be unable to take a string of horses through the Pacific Coast Circuit this season as he intended.

Ray Mead is sinking a big well at the San Jose race track so that he will be able to fill two watering carts on the track at the same time. Then the new engine and centrifugal pumps will be used to pump water for the irrigation of the fine crop of alfalfa in the infield of the race track.

From the last service made by McKinney 2:11 $\frac{1}{4}$ in California six mares proved with foal (artificial impregnation being used). Of these, Nearest McKinney 2:13 $\frac{1}{4}$, and Mrs. Waller were two of the most prominent, the former as a sire, and the latter dam of two that will get low records this year.

There is every prospect of three great days of horse racing in Woodland on July 4th, 5th and 6th. A circuit has been formed which will include many important racing centers in California. Secretary Hunter of the Driving club recently said that the matter was about closed and the Woodland racetrack will be a theatre of life and activity in July.

F. Faro, of Oakland, has sent his three-year-old pacing stallion to Sutherland & Chadbourne at Pleasanton to be trained. This black horse was by Roy Q., out of Mabel (dam of Directly 2:03 $\frac{1}{4}$), by Naubuc 504. Roy Q. was sired by Welcome 2:10 $\frac{1}{2}$, out of Codia by Kodiak (full brother to Gus Wilkes 2:22); second dam by Cardinell; third dam by Peacock (Whipples).

Mr. I. L. Borden's roan mare Directola by Direct 2:05 $\frac{1}{2}$ out of Steinola (dam of 2) by Steinway 2:25 $\frac{1}{4}$; second dam Phaccola by Silver Threads; third dam Minnehaha (dam of Beautiful Bells 2:29 $\frac{1}{2}$) by Bald Chief, foaled a handsome bay filly by Aerolite 2:07 $\frac{1}{2}$ last Monday. It ought to be a "side wheeler" of the highest class.

In answer to an inquiry regarding Blue Bells we find there was a mouse-colored pacer of that name which paced in races with Anacoda some years ago. She was sired by San Diego 2:36, out of Etta (dam of Cora C. 2:22 $\frac{1}{2}$ and Like Like 2:25) by Naubuc 504; grandam Maggie by Ethan Allen Jr. 2:03, sire of the dam of George Washington 2:20, etc.

After an absence of several months, during which time he has been a sufferer from rheumatism, Horace Feindel of Los Angeles and San Diego, has returned to Pleasanton and the training park where he will train a couple of promising ones brought back with him from the south. When he left last fall he fully expected to have returned ere this but the illness mentioned kept him from doing so. He says he is glad to get back into "horsey" atmosphere.—Pleasanton Times.

T. W. Barstow moved his horses to the San Jose Driving Park last Saturday and will begin getting them ready for the races this fall. He has the three-year-old Belle Ammen, out of Aunt Joe by Iran Alto 2:12 $\frac{1}{2}$ grandam Rose Kinney 2:29 (dam of Almaden 2:19 $\frac{1}{4}$) by McKinney 2:11 $\frac{1}{4}$, and The Demon 2:29 $\frac{1}{4}$, her full brother, both being by Nearest McKinney 2:13 $\frac{1}{4}$.

Fred Chadbourne becomes very enthusiastic when speaking about a two-year-old trotter he has by Palite out of Bee Sterling, that belongs to E. D. Dudley of Dixon. He says she is faster, purer-gaited, carries less weight, and in every way is far superior to what Pal 2:17 $\frac{1}{4}$ was when he was her age. Every-time he works her she improves, and, like the balance of her family, has the best of feet and legs and the sweetest disposition imaginable.

One of the handsomest and purest gaited yearlings in Santa Clara county has for her sire Bon McKinney (3) 2:24 $\frac{1}{2}$ and her dam is Maud Jay C. (dam of Nearest McKinney 2:13 $\frac{1}{4}$) by Nearest 2:22 $\frac{1}{2}$ (brother to John A. McKerron 2:04 $\frac{1}{2}$) by Nutwood Wilkes 2:16 $\frac{1}{2}$, etc. Mr. T. W. Barstow, her breeder, is so well pleased with her that he has booked her dam to Bon McKinney again. This youngster has a perfect license to be called "brod in the purple."

San Joaquin county residents will hold an annual picnic at Lockeford May 8, one of the features of which will be, horse races under the auspices of the San Joaquin Valley Driving Club. Some of the best horses in Lodi will be entered. Among them are Alta Genoa Jr., Beauty Dick, T. D. W., Daisy, Ben Walker, Prince Mac, Auger Baron, Bob Ingersoll. Frank Leiginger has been engaged as starter.

John W. Considine, the theatrical man of Seattle is delighted with the two Prince Anseli he purchased a few weeks ago of Alex. Brown of Woodland. One of them, Lottie Ansel, in Walter Maben's care is exceeding all expectations and the other that Chas. Spencer has at the Sweetwater track is trotting very fast.

Willard Zibbell, the young horseman who was so terribly maimed by the railroad cars at Fresno several years ago, is now conducting a large garage and automobile agency in Fresno. He has an attachment affixed to the steering gear of one of his cars, and, placing his wooden hand therein, is able to steer an auto any place. He made the trip from Fresno to San Francisco one day last week in eight hours.

Estrado, the yearling colt by Colorado E. (4) 2:04 $\frac{1}{4}$, owned and bred by George H. Estabrook, of Denver, bids fair to become a sensational trotter. Last week, driven by Ramey Macey, Estrado trotted an eighth in 19 seconds. It is said that he is beautifully gaited and does not want to break. Estrado is the first foal of the world's champion three-year-old. Well, he has a license to be a great colt, sire and dam being both colt trotters.

James Butler of New York will again be represented on the harness tracks this year with a small but select string of harness horses. Among them is the chestnut pacing stalling Directum I 2:16 $\frac{1}{4}$, by Directum Kelly 2:08 $\frac{1}{4}$, out of Izetta R. 2:13 $\frac{1}{4}$, by Pactolus 2:12 $\frac{1}{4}$. He was good enough to win five races and finish an impressive second in 2:12 $\frac{1}{4}$, on half-mile tracks in his first campaign last year.

Mr. R. J. MacKenzie was approached by a well-known liquor dealer regarding the privilege of selling wines and liquors at the Pleasanton track; the latter was firmly, but very politely told, that such a concession would not be granted as long as he (Mr. MacKenzie) owned the track. During a big race meeting some arrangements will be made, but at other times no liquors will be sold on the grounds.

F. H. Metz, the retired harness manufacturer of Sacramento, owns two large fruit farms, but he does not derive as much real pleasure from them as he does in watching his fourteen-hand yearling trotter by Bon Voyage 2:08, out of Queen Abdallah, by Grant's Abdallah. This mare has a fine colt at foot by a son of Zombro 2:11 and will now be bred to Tom Smith 2:13 $\frac{1}{4}$, the sire of Futurity stake winners.

No one can read over the list of entries which have been made to the early-closing events to be raced in the Grand Circuit this year without becoming convinced that we are on the verge of the greatest racing season that has yet characterized the harness turf. In view of the large number of horses which these lists show will be campaigned in the Grand Circuit this year, it seems reasonable to suppose the character of the racing will be higher than ever and that the percentage of record-breaking performances will be proportionately larger.

Dr. Calmers of Oakland visited Davis last week to see Logan Pointer and he was so well pleased with this grandly formed son of Star Pointer 1:59 $\frac{1}{4}$ and Effie Logan (dam of Sir Albert S. 2:03 $\frac{1}{4}$, Jim Logan 2:05 $\frac{1}{4}$, etc.) by Durfee, that he immediately booked his mares Carmen and Honor H. to him. Carmeu was sired by Newsboy and is the dam of Vera Hal 2:07 $\frac{1}{4}$ and Roan Hal 2:18 $\frac{1}{4}$. She has a beautiful filly at foot by Dave Ryan 2:13. Honor H. is by Direct 2:05 $\frac{1}{2}$, out of Brownie by Priam.

The man who invests in a high-class stallion does himself as well as the horse an injustice if he does not properly present the merits of the stallion to the public.

Nearly fifty horses are in training on the Sweet-water track, San Diego. Messrs. Keefer & Spencer have over twenty, R. M. Sebastian six, Mr. Carpenter seven and, Mr. Wallace four, and all are doing finely.

The two-year-old colt Belwin that, as a yearling under the name of Belwin McKinney, got a record of 2:21½, was recently sold for \$15,000 to H. J. Schlesinger, of Milwaukee, by John E. Madden, of Lexington, who paid \$7500 for him last year.

There will be another matinee at Pleasanton next Saturday, May 11th. It will be the last one in which Mr. MacKenzie's horses can appear, as they will be shipped to Libertyville, Ill., the following Wednesday. It promises to be a well-attended gathering of trotting horse enthusiasts and their friends.

One of the best trotters at Woodland is a four-year-old filly by Tom Smith 2:13¼ out of the Bouquet by Nushagak. With hardly any work to a breaking cart she trotted quarters in 42 seconds and everybody at the track who has seen her declares she is one of the best ever bred by Mr. Alex. Brown, and he has bred some good ones.

Fred Chase & Co., the well-known auctioneers, will hold a combination sale of trotting stock at their sales pavilion in this city June 3d. Chas. Johnson, of Woodland, has consigned twelve head and several other breeders will send in their lists. The market is good now and horses are in demand.

A. B. Rodman, of Woodland, has a very handsome yearling trotting filly by Palite out of Constantia (sister to El Milagro 2:09¼) by McKinney 2:11¼; second dam Adeline Patti (dam of Margaret Worth 2:15); by Effingham (son of Speculation); third dam Kate by Gen. McClellan 143.

Berenice (full sister to Owyho 2:07¾), being by Owyhee 2:11, out of Bertha, the greatest of all broodmares, has a splendid looking chestnut filly by Palite (a yearling), and is in foal to Aerolite 2:07½; the resultant foal from this union should be another money earner for the owner of this mare, J. W. Marshall, of Davis.

H. W. Sylvester, of Hanford, writes: "Noticing the advertisement of Nobage in the Breeder and Sportsman, I drove to Fresno to see him, and I must say I was so very favorably impressed that I am breeding my two mares to him. One is by Strongwood, dam by Allerton, and the other is by Zombro, out of a mare by Royal Derby. With his almost perfect conformation, a splendid type of the trotting horse, and with his royal breeding and the remarkable showing his first crop of colts have made, I cannot see how I could make a better choice."

An interesting performance occurred on the Hemet Stock Farm half-mile track Wednesday, April 24. The four-year-old pacing stallion San Jacinto, by Geo. W. McKinney 2:14¼, owned by Dr. Arnold and Ed Robinson, of San Jacinto, driven by his trainer, Jim McGuire, in his work paced a beautiful mile in the remarkable time for this period of the year, of 2:10 flat; the last quarter in :31¼; and the last eighth in 15 seconds, a two-minute gait. Another feature which is a credit to this remarkable colt is that he wears nothing but quarter boots.

Chas. Whitehead has added to his string of trotters at Pleasanton two fine trotting prospects bred by that well-known and capable horseman, John Rowan, of Stockton. Both are by Mechanic (son of McKinney 2:11¼); one is out of a mare by Hawthorne; second dam by Director 2:17, the other is a mare out of a mare by Mendocino. H. E. Armstrong, former owner of the Pleasanton race track, was the purchaser.

Charley Marley, of Woodland, sold his handsome black stallion Sir Poleon, by Nushagak, to Mr. H. B. Smith, of Ukiah, Mendocino county, and the other day he forwarded to this gentleman a box containing the blue ribbons Sir Poleon won whenever exhibited. This horse is doing quite a business in the stud at his new home.

Geo. L. Warlow has the finest looking lot of young-foals at Fresno this year he has ever bred. There are several by Stanford McKinney, that, for individuality, will compare very favorably with any ever foaled at Palo Alto. The progeny of Black Hall resemble him remarkably and Cora Wickersham's foal by E. G. Diahlo 51456 is pronounced the finest looking one she has ever had. E. G. Diahlo was sired by Diablo 2:09¼, out of Estrella B. by Athaneer 35795 (son of Junio 2:22 and Athalia, dam of Athanio 2:10, etc., by Harkaway); second dam Donna-gene by Athadon 2:10 (sire of 18 in 2:30 by Mada-don); third dam Trenna by Junio 2:22; fourth dam Lustrine by Onward 2:25½; fifth dam Minnie Wren, by Challenger; sixth dam Valencia, by C. M. Clay Jr. As Cora Wickersham was also by Junio 2:22, there is an unique blending of Electioneer and Wilkes strains in this late arrival's pedigree. Mr. Warlow says he is too proud of this filly to ever put a price on her.

After visiting the southern part of California, Wm. J. Kenney (who is devoting his time to solving a problem that will undoubtedly prove beneficial to breeders and stockmen), will go to San Luis Obispo, and then visit all towns north of that city to San Francisco, and next week will not overlook the northern cities. He will be on the move until May 25th, when a convention of the men he is visiting will be held at the Palace Hotel, San Francisco.

Frank S. Turner, of Santa Rosa, writes: "I had the California Dillon-Caratina filly sold when she got out in a neighbor's field and ran into some barb wire which cut her forelegs so terribly that I don't think I can save her. She is a handsome big filly 15.2½ bands high and this accident to her will be a great loss to her sire for she was a natural trotter. The half sister to Ruth Dillon is a swell looker and I may place her instead of the other. Her dam, Oakley Russell, is one of the best bred mares in the stud book, some of her daughters are bred to Peter the Great 2:07¾, and they are all pure-gaited trotters, very handsome, intelligent and stylish."

For treatment for scratches of grease heel, I have been successful with a treatment as follows: I wash the affected parts with warm castile soap and water; then grease with fish oil once every three days to keep the sore soft, and give the following medicine: Ten cents' worth each of blood root, copperas, salt-peter and sulphur. Pulverize all together and give one tablespoonful night and morning in the feed for three weeks. I cured a very bad case with this treatment. In most cases if the blood is cured the sores will heal. This remedy is good for both cattle and horses.—Exchange.

On a slow track at the county fair grounds, at Fresno, Wednesday, May 1st, fast time was made in the horse races before a crowd of 2000 people. In the harness races the events were won in straight heats, but the crowd saw some good racing. Louis Bachant's California B. won the 2:30 trot, with W. O. White's Donnie P. and Brown's Prince dividing second and third money. The time was 2:25¼ and 2:30. Eddie Neason's White Eye annexed the 2:30 pace in 2:34½ and 2:26½, with Louis Bachant's Orchard Maid second and Abe Reynolds's Sadie Lu third.

Suing for \$41,000 for injuries incurred by the pacing mare Rena Patch, while in transit from Minneapolis to Grand Rapids, through the American Express Company, M. W. Savage was awarded damages amounting to \$1000. Mr. Savage's contract with the express company specified that one of his employees was to travel with the mare from Grand Rapids to Minneapolis, and it was proven that midway in the journey the groom was ordered from the car. Upon arrival in Grand Rapids the mare was found injured to an extent that racing was out of the question. Rena Patch paced a mile at Phoenix, Arizona, in the fall of 1909, in 2:06, and was valued at \$15,000.

R. Noble, the well-known horseman of Fortuna, Humboldt County, who campaigned the handsome trotting mare Iora 2:11½, and gave her this record in Woodland, August 20, 1901, is the latest arrival at Pleasanton. He has only brought two from Fortuna with him, but they are good ones. Maxine D. is the name of the three-year-old trotter. She was sired by Cruzados 2:29¼ (son of McKinney 2:11¼, and Stamboulette 2:27, by Stamboul 2:07½; second dam Biscari, dam of 10, by Director 2:17, etc.) out of Vada N., by Diablo 2:09¼; second dam Iora 2:11½, by Ira 2:24½; third dam Daisy Hayward, by Poscora Hayward 2:23½. The one in the adjoining stall is called Nada Dillon, sired by Humboldt Dillon (son of Sidney Dillon and Adioo Dillon by Guy Wilkes 2:15¼, etc.) and her dam was also Vada N., by Diablo 2:09¼, but she happens to be a pacer and is six-years-old. Both of these will be seen on the Pacific Coast Circuit this year.

Following is the pedigree of the handsome pure-gaited trotting colt which was recently purchased by Jim Thompson in Kentucky for L. H. Todhunter, of Sacramento. Sired by Peter the Great 2:07¼, dam Kyo (2) 2:29½ (sister to Shakespeare (3) 2:09¾, trial 2:04¼) by Jay McGregor 2:07¼; second dam Miss Spears 2:21¼ (dam of 6) by Lakewood 17082 (he by Norwood 522, out of Jet, dam of 5, by Ravenswood Jr., etc.); third dam Medium's Last (dam of Trampfat (2) 2:12¼, and 6 others in 2:30) by Happy Medium 400; fourth dam Susanne (dam of 1, and 3 dams of 10) by Countersign 885; fifth dam by Hambletonian (Inglish); sixth dam by Halcorn. Peter the Great's fame as a sire is increasing every year and this yearling trotter of his is out of one of the best shaped daughters of Jay McGregor 2:07¼, sire of the dam of Colorado E. (3) 2:04¼. Jay McGregor was by Jay Hawker 2:14¼, by Jay Bird out of Notre Dame 2:23¾, by Robert McGregor 2:17¼; granddam Christine 2:25½ (great broodmare) by Hanbrino 820, etc. Jay Hawker's dam was Sorrento (dam of The Bondsman, Belle Sentinel 2:15. Eola 2:19¼, and two others, besides that sire of pure speed, The Tramp), by Grand Sentinel. It is a question if there ever was a better bred colt purchased for a California breeder than this one, and Mr. Todhunter is to be congratulated upon securing him. All the Eastern turf periodicals give this youngster unstinted praise. The price paid was well up in the four figures.

R. Allen wants a 2:10 pacer (no record) must be a good actor and sound. Here is an opportunity for some one to make a sale. See his advertisement in our business columns.

Horses frequently have influenza accompanied with a fever, more or less inflammation of the membranes of the eye and eyelids. This causes them to take on the red or pink color, hence the name pink-eye is given the disease. Keep the animals in a semi-darkened, pure-aired stable, feeding bran mashes and boiled oats, with plenty of pure water to drink. The eyes should be bathed regularly with warm water made brackish with salt, and to every pint of water add two ounces of extract of witch hazel. Horses thus treated usually recover in nine days to two weeks. There is no preventive. It is the result of atmospheric conditions.

W. J. Kenney, "the bike man," as he is more generally known, arrived in San Francisco last Tuesday after a three weeks' journey in the interest of horse breeding and district fairs through the southern part of California. He was received most courteously by the leading farmers, merchants, bankers and stockmen in every city, town and village he visited. All those to whom he made known his mission endorsed his views and at a convention to be held at the Palace Hotel in this city, May 25th, have signified their intention to be present and to assist the cause he represents in every way possible. In a future issue we will publish an extended account of the aims and objects of this meeting and what is hoped to be accomplished.

H. J. Schlessinger, of Milwaukee, Wis., purchased last week from John E. Madden, Hamburg Place, Lexington, Ky., the two-year-old colt Belwin (1) 2:21¾, by McKinney 2:11¼, dam Belle Winnie 2:22¾, by Adbell (1) 2:23. Belwin, formerly Belwin McKinney, took his record as a yearling, in 1911, driven by Henry Williams, and Mr. Madden paid \$7500 for him at the Old Glory sale last fall. Billy Andrews, who has the colt in his stable, will race him for Mr. Schlessinger. Belwin will join Mr. Schlessinger's stud, Harvest Farms, Mayville, Wis., after being retired from racing. Aside from Wilbur Lou (1) 2:19½, the yearling colt champion, Belwin's record takes precedence over that of all other entire yearling colts. In addition, Adbell, sire of his dam, for many years held the yearling trotting championship.

The trainers who wintered at Memphis secured no particular advantage over the Northern trainers, for conditions there have been such as to forbid of any fast work up to the present time, and the colony is departing as fast as possible for new fields, there to make ready for the coming campaign. Of course, it was an exceptional winter in the Southern city and the floods have created so much damage that the trainers are anxious to depart and escape the fevers and other evils that it is feared will follow in the wake of the inundations. Northern trainers when approached by the managers of early meetings this year cannot offer the old excuse that their horses are so far behind the Southern trained horses in preparedness that it will be useless to compete at the first meetings. Every trainer now has an equal show for the money. Go to it.—Western Horseman.

Horsemen of the older school will learn with great regret that John E. Turner, the old-time light harness horse driver and trainer, was stricken with paralysis at his home in Ambler, Pa., April 16, and is in a critical condition. Mr. Turner was born at Mallow, County Cork, Ireland, in 1837, and came to this country while a child. His first appearance as a driver was made in a race on the old Plank Road, from Thirty-fourth street to Blue Bell, in Philadelphia. He entered the light harness game at Point Breeze track in 1855, when he leased the track. Among the horses driven by Mr. Turner were Trinet 2:14, Edwin Thorne 2:16¼, Santa Claus 2:17½, Hannis 2:17¼, Nil Desperandum 2:24, Bellini 2:13¼, May Thorne 2:24¼, Nettie 2:18, Happy Bee 2:15¼, Daisy Dale 2:19¾, Dick Organ 2:24¼, Happy Lady 2:16¾, Onoqua 2:08¾, and many others.

It seems a general belief among Western men that alfalfa pasture is not fit for mares during the breeding season. As touching this point and throwing light upon it we present the following letter from one of the most extensive breeders of draft horses in the West, a man who uses a great deal of alfalfa pasture. It seems rather conclusive that alfalfa should not be fed largely to mares during the breeding season though it does well for all classes of young and growing animals.

"I am only in the last year awakening to the fact that I cannot get my mares in foal when they are running on alfalfa during the breeding season. I believe, though, that it is wrong to say it is not good pasture for pregnant mares. I have no trouble that way, but do have considerable trouble getting my mares in foal when running on it at the time of service. I have now adopted the method of breeding my mares and leaving them in the barn and feeding prairie or other kinds of hay besides alfalfa until after they have passed out of season.

"Alfalfa pasture seems to be all right for growing stock of any kind, and I usually pasture my work stock on it without any had results. We now have about 600 acres of it on the farms, and I would hardly know how to raise horses without it."—Breeders' Gazette.

AZOTURIA, ITS CAUSE AND TREATMENT.

[By Ed. Hannan, V. M. D.]

There is a peculiar disease well known to horse owners which is rightly called azoturia but more commonly called "black water," and which perhaps is as much, if not more, dreaded than any other disease to which the horse family is heir to. It comes like a thief in the night and pounces upon its victim with scarcely any perceptible warning and is liable to leave a permanent reminder of its visit both on the subject attacked and on the memory of the anxious owner or whoever watches over the stricken animal.

Azoturia has been laid to the door of the liver by some writers and to the kidneys by others, while the common idea is that it is a disease of the urinary organs. The exact cause of this disease is as yet unknown, but it has been generally attributed to an increase of nitrogenous substances in the blood, with a marked increase of urea in the urine.

We do know, however, that azoturia is commonly brought about by high feeding, particularly upon food rich in nitrogenous matter, without sufficient exercise or work to cause the different organs of the system to take up and carry off the rich waste matter that necessarily is the result of these conditions.

Perhaps if the urine of the horse were looked upon as a means of diagnosis with half as much favor as is the case in the human family, much more rapid progress would be made in finding a suitable specific for the treatment of this disease; or, what would be better, a method of preventative treatment in the earlier stages that would ward off the now dreaded, serious attacks with their corresponding after-effects.

Different sections of the country, according to different reports, appear to be freer from attacks of this disease than others; perhaps, from the fact that horses are fed differently in the different sections. The Western and Southern States, where oats form the greater part of the ration for horses, have frequent outbreaks of the disease in which it appears in an enzootic form, while in the Northern and Eastern States the cases seem scattered, and rarely ever is a community attacked with the disease in an epidemic form.

It is said that while cases of azoturia are common in Canada few horses die of the disease in that country; probably because it appears in a milder form and less heroic treatment is needed to bring about a speedy recovery. In former years it was supposed to appear more frequently in mares than in geldings or stallions, but veterinarians who have had much experience in treating azoturia claim that this is not so, although breeding stallions are said to be seldom subjected to it, and the cases found among pregnant mares are also rare.

The first noticeable symptoms in the less serious attacks are profuse sweating, with heaving flanks and a desire to stop short if being worked or exercised. The muscles of the loins become rigid and sensitive to the touch and rapid breathing is early noticed, while the animal will nearly always turn its head toward the side on which the severe muscular twitching is noticeable. Lameness in one limb, usually a hind one, which rapidly becomes severe, is one of the first symptoms presented to the driver of the animal which has probably gone but a short part of its journey when attacked.

If the driver has been unfortunate enough to have already had experience with horses stricken this way, he will be sure to make an early retreat to his stable, or if too far removed from his own quarters he will make shelter somewhere as soon as possible. And this is an essential factor in the successful treatment of the disease, as the horse that has been gotten under cover quickly and early treatment begun has a great deal better chance of getting off with a light attack than one that has been allowed to stand or urged to travel until dropping from the paralysis which ensues.

While race horses during their racing season are less liable to be stricken than during their period of rest in winter, because of the fact that they are exercised regularly, the worst case that I ever saw of this kind happened on a race track as the horse was about to be stepped a mile in its training. Horses that are allowed to stay in their stalls all day Sunday without a reduction in the amount of grain fed and without being led out for a short exercising walk during the day, are the ones we find suffering on Monday morning, and the disease has been called by some, the "Monday morning disease" for this reason. Idleness for short periods of time, without attention to the feed is no doubt the real cause of this malady, but it is an established fact that horses which remain idle for very long periods are rarely ever subjected to it, which proves that the food fed during these times of rest is the all-important cause, as animals left in stalls for weeks or months are most always fed accordingly.

Although the symptoms before mentioned are always present, no great rise of temperature is found in most cases which greatly assists in making an early diagnosis, but the pulse is always accelerated and the excessive sweating that takes place is not characteristic of any other disease.

The urine, if any is voluntarily passed, is a dark, coffee color, or even black, and contains many casts, but retention of urine is most always the case. On post-mortem examination, we find congested lungs, with the heart containing many blood clots; the muscles of the loins and croup are degenerated and are divided into layers, and the bladder is found

highly colored. Examining the muscles with the naked eye, we find that they have entirely lost their consistency and color and are stringy or ropy in appearance.

Immediately upon getting the animal to his stable, treatment should be applied to rid the blood and urine of the toxins that are rapidly produced. The older methods of treatment consisted of copious bleeding, while the bladder was emptied of any urine it might contain by means of catheter or through the rectum by pressure, and these still seem to be in favor with the veterinary practitioners of the present. Hot packs or fomentations over the loins and back are used to stimulate the work of the kidneys, and if the patient shows signs of being unable to support itself it should be placed in slings.

The common habit of piling two or three heavy blankets over the back and loins is not productive of the most good, but one or two light wool blankets, or the so-called coolers, placed over a good-sized square piece of any good, heavy cloth that has been well-soaked in hot water to which a little salt has been added, are very useful and well tolerated by the animal.

If the malady threatens to take on a serious aspect, no time should be lost in calling a veterinarian, but there are times when a veterinarian is not at hand, or he is too far away to be easily reached, when, of course, something must be done to relieve the sufferer. Of the drugs that can be safely used, sweet spirits of nitre will no doubt be of most use, as it has the power of stimulating the kidneys, while nitrate of potash (saltpetre) in one-half ounce doses, are both used as diuretics. One-half to one ounce doses of aloes in a bolus (ball) can be administered when purgation is desired.

A veterinarian would use drugs that would combat the different symptoms as they arise, but you can do much to promote a quick return to a normal condition with the hot steamers or blankets before mentioned, and by stimulating the action of the skin with any good hot wash, preferably the salt and water, and with the use of the nitre and saltpetre.

Upon the return of the animal to work, care must be used in the manner of feeding, bran mash and hay alone being fed for some time, with little of any oats. A quick return to exercise is most advantageous, paralysis or atrophy of the muscles being less apt to result where the animal is given exercise or returned to light work soon after recovery.

In the shrinking or atrophy of the muscles that sometimes follows, a course of tonics is beneficial, with massaging and hand-rubbing of the parts afflicted, and when once a horse has had azoturia he should never be allowed to remain indoors a whole day without exercise.

SOMETHING OF ORANGE COUNTY DRIVERS.

While Orange county, New York, produced so many wonderful sires, which has so much to do with the upbuilding of our American trotter, yet it was just as strong in the bringing out of great horsemen. No county in all the States of these great United States ever produced better or more loyal ones. Perhaps sentiment makes me consider Alden Goldsmith and his two sons the greatest, but as I throw off sentiment at this moment and look at it in a dispassionate way, I must still say that they were the greatest.

Here is just a little note that I believe will be of interest, and which I believe is a fact that has been forgotten by all. Alden Goldsmith gave the first betless meeting ever held in this country. It was at Poughkeepsie, and he had as a partner Edwin Thorne. The laws of the State did not compel them to give that kind of a meeting, but it was the elder Goldsmith's idea that such a meeting could be made to a financial success, but Mr. Goldsmith contended that could he have had the co-operation of Mr. Thorne in after years, it would have proven so. What a change might have ensued in the conduct of our race meetings had the master of Thorndale continued his support to the venture! I think I have known all the big breeders of the last quarter of a century. Some of them I may have missed, but of those that I have come in contact with, I want to say that Alden Goldsmith was the greatest all-around man I ever knew. The greatest balancer of horses in the world was Mr. Goldsmith. He never used a toe weight, which he termed "new fangled things"; he said horses were bred to trot and did not require those artificial appliances; he always said that trotters could only be made by patient work and time. Of course, at that period of the racing business colt racing was not in vogue. I wonder if Alden Goldsmith were alive today what he would think about hoppers and other paraphernalia which is now used to make a trotter trot and pacer pace. Not to my knowledge did a Volunteer ever carry a weight, and you can bet not when the old man was around.

Of his two great sons, James H. and John A., both had their favorites. I think that the general opinion was that James was the better man, and so far as my opinion is concerned I think he was the greatest man who ever got into a sulky. Jim was a delicate man in a physical way, but he won through his magnetism. John won by sheer force and strength, and through those two things he could pick up a horse and carry him in his lap; in other words, he carried the horse. On the other hand, Jim, through a wonderful ability which he possessed, and that magnetism which he gave to the horse that was in front of him, made the horse carry him. The reason why Jim Goldsmith should be classed as the greatest of trainers and drivers lies in the fact that never in all his career did he have anything to start off with but a cast-off,

yet he won more races and more money than any other driver of his day. Another thing, he started his horses in races over half-mile tracks in May, and when the mile track meetings began in July (the Grand Circuit), he was there on the job with as fine looking horses and as well trained a lot of horses as ever a Grand Circuit stable turned out. He invariably went through the mile track campaign winning races and at the conclusion raced his horses again over the half-mile tracks until the November snow fell. A man who could do that year after year was some horseman.

Going back to the half-mile tracks, isn't it a curious thing that both these great Goldsmith boys, James and John, who were to become the recognized masters of their profession, came from the half-mile tracks three decades ago. There is another thing—such men as Geers, Andrews, Cox, Murphy, and a dozen others I could mention, who are making turf history now, came into prominence by the same route.—"Doc" Tanner in Trotter and Pacer.

THOROUGHBREDS FOR FARMERS.

Interest in the breeding of horses for army use naturally centers about a discussion of the breed most clearly adapted to that purpose. Each of the breeds of light horses in this country has furnished army horses, and each of these breeds has champions who feel that their favorite breed is best. Only a presentation of corroborative data can adequately support statements in favor of one breed or another for army use. Bare assertions or assumptions are insufficient and useless. Neither will anything be gained by acrimonious discussions. It is merely a matter of the practical merits of breeds for army work and the possibilities of economically promoting their production in this country in sufficient numbers.

Some who assume that the thoroughbred is the best horse for the army have asked why this journal has not taken that position, and has never championed the thoroughbred in any capacity. The reason is simple. We are not convinced that the thoroughbred is the best horse for army use or the one which may be the most readily and profitably produced in this country for that purpose. We have never discussed the breeding of thoroughbreds because this publication is devoted to the interests of American farmers who must breed stock of practical utility. The modern thoroughbred is a racing machine. He is not big enough for average farm work or suited by disposition to its steady grind of drudgery.

The thoroughbred has furnished a valuable infusion in the foundation stock of several breeds of horses, including practically all of the light breeds. The nerve, vigor and quality which other breeds have gained from the thoroughbred have been fully recognized and exploited in this journal. That is a matter of historical interest. The practical utility of thoroughbred horses to American farmers, either in their efforts to supply army horses or to produce farm work stock, is another matter.

The breeding of race horses is a business for the specialist, not for the general farmer. Thoroughbreds which have not speed enough for the track are too low-priced for profitable production. Farmers cannot afford to raise them when other breeds more easily managed are also more useful at farm work and sell at higher prices on the general market.

Probably the principal reason why the supply of horses for army purposes seems inadequate is that the Government attempts to buy its horses at less than their market value. Commercial interests which pay more money get the horses which the Government might obtain. So long as the Government can buy enough for its present needs at less than cur-values it is futile to encourage the breeding of horses which if not needed for the army are unsuited to farm use.—Breeder's Gazette.

SIX MILLIONS DISTRIBUTED DURING 1912.

Conservative estimates place the aggregate amount of money to be distributed among trotting and pacing horse owners this year at more than \$6,000,000. This covers stakes and open purses. There will be more than a thousand meetings, covering territory from Maine to California, and from Florida to the Canadian line.

Readville, Hartford, Lexington and other points where the trotter and pacer are in favor have already claimed dates and stated the amount of purses. These three meetings alone will give owners about \$120,000. Then there are Detroit, Buffalo, Syracuse, Poughkeepsie, Kalamazoo, North Randall, Columbus and one or two other prospective grand circuit stands.

Hardly less important is the great western circuit. This route includes Springfield, Peoria, Pekin and Aurora, Ill.; Dubuque, Des Moines and Davenport, Iowa; Indianapolis, Terre Haute, Fort Wayne and Evansville, Ind., and other cities and towns in the middle west.

Next perhaps in importance is the Lake Erie circuit, which takes in Oil City, Wilkesbarre, Hanover, Allentown and Lancaster.

Then comes the Ohio, West Virginia Pennsylvania and Maryland circuit. This circuit is made up of half mile tracks, and last year some of the fastest two-lap performances known to the harness horse world were brought off here.

These are but a handful of the whole lot of trotting organizations that will be in operation. There are about 800 fair associations in the country, and fast horse exhibitions are the drawing features.

TROTTING IN NEW ZEALAND.

Christchurch, N. Z., March 28, 1912.

Editor Breeder and Sportsman:

Since my last letter race meetings have taken place at the Metropolitan and New Brighton courses. The former fixture was this year, for the first time, confined to one day's sport consequent on the reduction in the permits granted by the government. Some fairly interesting racing was witnessed, but owing to the smallness of the stakes, few high class performers were seen. The chief event of the meeting was secured through the agency of Dr. Chutney who won comfortably in 4:44. Charlie and Willie Kerr train at their own farm near New Brighton, and during their long association with light harness racing the brothers have educated some of the best horses ever in New Zealand, including Wildwood, his son Wildwood Jr. 4:33, and grandson Calm 4:49. Mention of Wildwood Jr. reminds me that the handsome black son of Imported Wildwood has already taken a very high place amongst New Zealand sires through the doings of his juveniles, and before he finally bids adieu to the tracks I should not be surprised to see him given the opportunity of trying to beat King Cole's records of 2:08 3-5 and 4:31.

Unfavorable weather militated greatly against the success of the New Brighton meeting, and another drawback to its enjoyment was the almost entire absence of high class horses. This particular fixture, coming as it does only a few weeks before the more important New Zealand Metropolitan Easter meeting is always responsible for a large amount of crooked running, as many owners only start their horses at New Brighton with the object of getting them more favorably handicapped at the Metropolitan course. Amongst the successful competitors at New Brighton was Mr. Alf Lawrence's recent importation, Bonny Jenny, by Bonnie Direct 2:05 1/4-Jenny Mc. 2:09, by McKinney. On the opening day the American mare had to put up with second place in the Innovation Handicap, to Persuader, to whom she was conceding the liberal allowance of six seconds in a mile and a half. Starting off well Bonny Jenny looked to have a big mortgage on the stake till half a mile from home. This enabled Persuader to get such a big lead that he was enabled to defeat the visitor comfortably. The winners' time equalled a 2:30 gait, while the runner up was traveling for most of the journey at a 2:25 speed. Next day Bonny Direct's daughter broke her maiden status by appropriating the Wainoni Handicap of 70 sovs. from a large field. Drawing to the front half a mile from home she scored comfortably in 3:47 on a heavy track. I understand Mr. Lawrence intends racing Bonny Jenny till the conclusion of the present season and then retiring her to the stud. One of the most popular events at this New Brighton meeting was a race called the Stayers' Handicap, decided over a three-mile course. It attracted fifteen starters and was won by the Rothschild gelding, Gee Whiz, who got to the end of the journey on a holding track in 7:54. There are few races of this length decided in New Zealand, but they are popular both with owner's and the racing public.

Before this letter reaches its destination the New Zealand Metropolitan meeting, one of the most important of the season, will be numbered amongst the events of the past. Large entries have been received, the competitors including representatives from all parts of the Dominion. Its chief attraction will be the Metropolitan Handicap of 300 sovs., open to horses that can go two miles in 4:45 or better, for which no less than sixteen entries have been received. Six weeks later will come the autumn meeting of the Canterbury Park meeting which fixture virtually closes the present racing season.

After a lengthy hearing, the New Zealand Trotting Association found Freeman Holmes guilty of assaulting another licensed trainer, K. Smith, and withdrew his trainers' and drivers' license for three months. The trouble arose out of some crooked work in the Forbury Park Cup at Dunedin last January. It is alleged that Smith in the interest of Dillon Bell, by Harold Dillon, the ultimate winner, blocked Holmes' representative, Adonis, so badly as to entirely spoil the latter's prospects. On the conclusion of the race the stewards held an inquiry, but came to no decision. When Holmes and Smith were training their horses at Christchurch, where both live, Holmes took the law into his own hands and dealt with his adversary so severely that for a time the latter was in danger of losing one of his eyes. More is sure to be heard of the matter, as the Forbury Park stewards are making further enquiries, and there is also likely to be a civil law suit between Holmes and Smith. Most of Holmes' horses are in the meantime being looked after by J. Milne, who won a race with one of their number, Gee Whiz, at the New Brighton meeting.

The present system of handicapping as adopted throughout the Dominion, does not find favor with the New Zealand Trotting Horse Owners' and Breeders' Association. This body contends that once a horse has taken a winning record he should never be handicapped slower than that mark no matter how much his speed may depreciate. This proposal add several others as to the treatment of placed horses, and maiden performers, were submitted to a conference of the three Christchurch trotting clubs, but they received a very short shift, the delegates expressing the opinion that the existing method of handicapping had been so successful as to warrant its continuance.

There is, I am assured, a good market for any enterprising American breeder who cares to send the

right sort of horses to New Zealand. Every week I hear of enquiries for young trotting stock and wherever business has resulted the price has been most satisfactory. A shipment of well-bred colts and fillies with no record will be worth the attention of some of our San Francisco breeders.

FRED C. THOMAS.

OUR THOROUGHBREDS SELL WELL IN AUSTRALIA.

The horses brought from America to Sydney by Mr. I. H. Wheatcroft were sold at auction by Messrs. H. Chisholm & Co. last week, and it is not too much to say that results exceeded expectations. I know of several small breeders who put in an appearance with the idea of "picking up something cheap," but all the choicer lots realized fair value, and the prices made by many of the older mares were astonishing. "We would have no chance of disposing of our old mares to such advantage," remarked a well-known breeder, and even admitting they were of good type, and some had foals at foot, the Americans certainly did sell well. During the course of an interview after the sale, Mr. Wheatcroft said some of the mares did not realize the cost of their transportation, but he admitted he could not have sold them at all in America owing to the slump in the value of thoroughbred stock, as a result of the anti-hetting laws in that country. However, as the position was probably much the same in regard to the stallions and mares for which Mr. Wheatcroft received good prices, it is not surprising that he expressed himself well satisfied with his experience of the Australian market. A few months back I had a letter from Mr. B. Schreiber, a well-known American hookmaker, owner and breeder, in which he mentioned that he was the owner of several of the mares Mr. Wheatcroft was bringing to Australia, and that if they sold satisfactorily he (Schreiber) would probably get together a shipment. From this it would seem as if we are only at the beginning of an American invasion.

The 135 lots disposed of aggregated a few shillings over \$89,455, 31 brood mares reaching the three-figure mark, as did a couple of two-year-old fillies. As was anticipated, top price was made by Ora Bailey (Hanover-Ovation), who is 14 years old, and in America threw a high-class winner in Sewell, who was foaled in 1904. Ora Bailey was bought by the well-known Queenstown sportsman who races as "Mr. E. J. Craven." The other Hanover mares sold as follows: Bezique \$300; Clymena, \$200; Design \$1450; Helen Thomas, \$650; La Poupee, \$650; Over, \$200; and Tasmania, \$1800. Redmark, a mare by Magnetizer from Red Girl, went to Mr. J. H. F. Barnes at \$1650, while Mr. Craven bought Alma Dufor for \$1375. The latter is a fine big mare, and was a great performer, winning 43 of the 141 races in which she ran. Whether her extended turf career will tell against her at the stud remains to be seen; but many Australian breeders have no liking for mares which have done a lot of racing. Comparatively few purchases were made for leading studs in this State, but Mr. I. J. Sloan, of North Logan, Cowra, who has decided to go in for breeding on a fairly large scale, bought freely. On Friday no less than 16 broodmares were knocked down to him, and in addition he bought six of the yearling fillies. Other buyers to contribute to the success of the sale were Messrs. J. A. Nixon (N.S.W.), A. E. Cockran (W.A.), R. A. Hawker (S.A.), T. F. Scully, and J. Cook. The latter, I take it, was acting for Mr. Christian.

Notwithstanding many of the critics had various faults to find with St. Savin, he is an undoubtedly handsome horse, and it was regarded as certain that he would bring at least \$10,000. However, with bidding, commencing at \$5000, he went to \$15,000, and was bought by "Mr. E. J. Craven," who, I believe was prepared to go beyond that figure, if necessary. St. Savin was subsequently insured with the Yorkshire Insurance Company for the full amount of his purchase money. It is improbable Mr. Perry made any mistake in giving \$3875 for Mexican, whose foals have their full share of good looks. In America, Cesarion has been a wonderfully successful sire, but Mr. Wheatcroft's refusal to take \$5000 for him caused surprise. His owner was of opinion that he could make nearly that at the stud in one season, and announced his intention of taking him back to America. Cesarion is 20 years old, and though at one time there would have been no difficulty in filling his list at a \$250 fee in America, the anti-betting laws have changed that, and it would now take almost any horse more than one season to earn \$5000 at the stud in the States. However, there is still a likelihood of Cesarion figuring at the stud in this State, for even if he does not sell him Mr. Wheatcroft may decide that there is more money in putting the old fellow at the service of our breeders than in sending him back to America.

The yearlings, in being foaled to English time, were at a disadvantage in the first instance, and then a lot of travelling on the top of early weaning did not improve matters for them. When they were brought down to Messrs. H. Chisholm and Company's stables a few weeks ago their appearance was so much against them that if anyone had offered to bet they would average as much as \$150 each he would have found plenty of takers. Still, they did so well from then until the sale that nothing sold for less than \$175, and the 38 submitted averaged about \$322.50. As several are related to good American performers, they should gallop.—Sydney Referee.

Drink Jackson's Napa Soda.

MAYWOOD FARM PROSPECTS.

Although Sterling R. Holt, owner of Maywood Stock Farm, has given an option for the sale of his farm, it is not probable that there will be any changes at this breeding establishment for a year at least.

Training is going on as usual, in fact, a grand lot of racing material is getting a strenuous preparation over the farm half-mile track. Among them is Fleeta Dillon 2:08 3/4, the world's champion two-year-old pacing filly, now being worked at the trot. She was turned to the diagonal way of going last August, and after a showing of a half in 1:11 1/2, with the last quarter in 33 seconds, was turned out for the balance of the year. She has grown into a handsome big mare and has a lot of brush at her new way of going. Fleeta Dillon is now a five-year-old.

There probably is no better prospect for a high class trotter than Seymour Dillon, a six-year-old rugged made stallion by Sidney Dillon, out of Lady Hilda Hills (dam of Fleeta Dillon (2) 2:08 3/4), by Wilkes Boy. He was a mile last year over the farm track in 2:19 1/2, the last half of which was in 1:08, and is an old-fashioned line trotter, the kind every one likes. Mila Dillon, a four-year-old filly by Sidney Dillon out of Miss Carmore, by Rex Americus, has the distinction of having worked a mile at the trot as a two-year-old in 2:15. Although not raced last year she was worked some and found to possess this kind of speed and was held over until this year.

Harry Dillon, the handsome seven-year-old trotter that has shown such sensational speed, is another of the green trotters getting a preparation. Quarters in 30, 31 and 32 seconds have been play work for this son of Sidney Dillon and Adoo (dam of three), by Guy Wilkes 2:15 1/4, when he was at himself, and since he has been getting about ten miles a day all winter and is in good condition, it would seem that a low mark this year can be expected of him. His work over the farm track in 2:21 with halves in 1:08 and 1:09 last year were easy for him.

Dorothy Dillon (2) 2:26 3/4, is another of this select stable. Her record is no indication of her speed, although very fast when taken. She was a mile last year over the farm track in 2:12 1/2.

The good futurity winning pacing filly, Fleeta Americus (3) 2:09 1/2, of last year, now a four-year-old, is also getting her work and gives every evidence of being better than last year, but there is one other pacer, a green one, Fillmore Dillon, by Sidney Dillon, out of Earalma (dam of Boralma 2:07, and Pan Michael 2:03), by Earl, that must not be overlooked. He is a four-year-old but showed a mile in 2:13 1/2 last year in his three-year-old form. He is a chestnut, full made and resembles his sire very much.

Twenty-four yearlings are also getting their first lessons, seventeen of which are by Sidney Dillon, the others being by Rex Americus, Harry Dillon and Seymour Dillon. They are a good, rugged bunch of youngsters with size and substance. There are at least six of the seven in training by Sidney Dillon in this bunch that ought to enter the select list if given the chance.

A COMMUNICATION.

Editor Breeder and Sportsman:

The writer was one of the fortunate ones who attended the matinee at Pleasanton last Saturday. It was a grand day's sport and the crowd certainly enjoyed it. There was one incident, however, which spoiled the day for me. I refer to the last heat of the last race. In that last heat Brutus did not hold a straight course. Whether he was driven so intentionally or not I am not prepared to say. I incline to the latter opinion. However that may be, I can make no excuse for the judges who allowed that heat to go to Mr. Christenson. Harold K. had come from a position five or six lengths back of Brutus at the head of the stretch and was almost on even terms with Brutus when cut off by the latter.

The judges saw it and so did the timers and hundreds of spectators. To me it looked like a very rare decision—one of those cut-and-dried affairs. I have witnessed other decisions which savored of favoritism, and still we wonder why the sport is not more popular. The reason seems plain. Mr. Galindo, for instance, trains a stable of from two to six horses and races those which he deems fit in amateur races for pleasure. There was considerable gall mixed with his pleasure after that last heat. After he made his mild protest, which had about as much effect as the proverbial "water on a duck's back," I caught his eye, and he threw up his hands as much as to say, "What's the use?" He certainly must feel encouraged in spending his time and money when the judges at a race meeting allow a contestant to drive into his horse in the stretch. Very respectfully,

W. T. HARRIS.

[It was an unfortunate occurrence, but it is a question if there was enough room at any time for Galindo's sulky to get through between Christenson's sulky and the pole, as the latter kept his sulky about its width from the pole after he got this advantage at the head of the stretch. He had no right to pull out and let Galindo's horse through, and if in his excitement in watching the horses on the outside he heard another horse trying to come through on the inside he might have pulled his horse's head over. Had he not done so it is doubtful if Galindo's horse could have passed him, but in the future it is a circumstance which both drivers will not forget. Galindo should not have tried to get his horse and sulky through where there was no room, and Christenson should have driven straight ahead. It is not believed any wrong was willfully committed.—Ed.]

HEAR THIS TOOT OF AN AUTO HORN.

A. D. Nichols, vice-president of the Weinstock-Nichols Company, is one of those automobile enthusiasts who believe that the days of the horse are numbered. Rapid strides in motor-car development have already to a great extent discouraged horse raising, and the days of the automobile as a commercial proposition are only beginning. Speaking on the subject, Nichols said:

"A man today accomplishes four times as much in the same length of time as did his grandfather. Modern conveniences and inventions have greatly increased the usefulness of each individual, and these inventions have also increased his needs and pleasures. We live very much faster than did our fathers. We haven't time to walk. We haven't time even to take a street car. The present-day man who wants to get some place must reach his destination in the fewest possible seconds. It is for this reason that only the quickest means of transportation can survive."

"The same is true of delivery service and trucking in merchandise establishments. It is essential to the success of the business that they make quick deliveries. A customer demands that his purchase be delivered within a very short time after the order has been placed, and that horse which is to be successful must make 'quick service' one of its strongest features."

"Another reason why automobiles will supplant horse-drawn vehicles is the fact that the horse is not only inefficient, but is a menace to health. No self-respecting health department would ever allow the introduction of horses had they not before been used, and it is only a matter of a few years before health departments will forbid the use of horses on crowded thoroughfares of the cities."—S. F. Chronicle.

"Can you beat it?" is a slang phrase but very expressive in a case like this, for undoubtedly this enthusiastic auto crank only reads that portion of the daily news devoted to the automobile, and as the newspapers get a greater revenue from the manufacturers of autos and auto supplies than they do from breeders and owners of horses and manufacturers of vehicles, it is only natural that they should give more space to them. But that does not include the right of a vice-president of an auto supply company rushing into print to notify the general public that he hates a horse on the road, that he would like to see horses set aside, that all horse owners should get rid of them and buy automobiles. He does not take into consideration that the money wasted in buying automobiles to carry a box of eggs, a bar of soap, or a leg of lamb to the customers would keep that business man from going through bankruptcy. Mr. Nichol praises the modern inventions but does not state that every auto depreciates 50 per cent in value when driven away from the garage the very first day, and its selling price decreases until in three years it is thrown in the junk pile, barring accidents such as tearing down telegraph poles or filling some ditch by the roadside.

This enthusiast must think he is a wonderful philosopher, when he declares, "We live very much faster than did our fathers." Let him speak for himself. If his conscience compels him to admit this he should not try to drag everybody into the same confessional box. "We haven't time to walk." That is a truism none will deny, especially when an automobilist forgets to toot his horn and catches the unwary pedestrian who is not able to run and grinds him into mince-meat. "We haven't time to take a street car." No, that's so! The car generally takes us and in this declaration he overlooks one fact he should say: "We have no use for them, for they injure every automobile they hit, therefore they are detrimental to the industry and fatal to reckless chauffeurs." Then this "Nichol" rings up another alarm: "The present day man must reach his destination in the fewest possible seconds." Doesn't he? Just look at the number of men, women and children who have been killed by automobiles in the twinkling of an eye." Why, more people have reached their final destination via the automobile route than by any other in the same space of time since the invention of gunpowder, and statistics prove it.

As a bit of news with this wise and learned philosopher please publish the list of millionaires who have reached their "final destination" in the fewest possible seconds during the past fifteen years by means of automobiles? As a scatterer of wealth and disbursor of fortunes autos stand pre-eminent and alone. And again, will be kindly publish the list of mortgaged homes, impoverished families and financial wrecks that have been caused by those who got the auto bug in their bonnets and loved the smell of gasoline, became speed crazy and have had some horrifying remembrances to carry with them through life.

He speaks of the quick delivery in trucking merchandise. Everyone admits that for "long hauls" motor trucks are very good while they are new and all their parts are working noiselessly and well, but for "short hauls," where the truck has to stop every hundred yards to load and unload, the experience of our leading teamsters is that they are an expensive failure. Many of our large department stores purchased light delivery motor cars some time ago but have since abandoned them, except where they pay high priced chauffeurs to run these wagons long distances. The cost of maintenance, new tires, breakages, etc., and the loss of one of these expensive cars through accidents, collisions or take away all the profits. The house which makes "quick service" one of its strongest features in this manner is in a little while decorated with a sheriff's lock on the front door, and protected by a deputy at the rear, who sees that "quick delivery" from that place is checked.

Mr. Nichol says "that the horse is not only inefficient but is a menace to health." All hail to these words of wisdom! He should be knighted for making a discovery that has never been dreamed of since

Noah entered the Ark. It's a wonder that old patriarch didn't die cooped up for forty days in a boat with a horse and a mare. The Bible does not say so, but for all that, Nichol may be correct. As to the inefficiency of horses; by what other means can broken down autos be dragged to machine shops, but by the aid of horses,—he does not mention mules or oxen, he hopes, no doubt, they are non-existent. Again, another spark from this brainy carburator: "That no self-respecting health department would ever allow the introduction of horses had they not before been used!" Perhaps he is right. Automobiles existed (in his mind) long before horses and health boards, and even if these last-named organizations had little or no self-respect for allowing horses to use the streets, they should remember that our best roads are destroyed by rubber tires and that gasoline has an offensive odor.

But, to cap the climax, see how this pin-head prophet points his long finger toward the future and in thundering tones declares: "It is only a few years before health departments will forbid the use of horses on crowded thoroughfares of the cities!" After relieving himself of this, it is no wonder he trembles when he hears the general public yell: "Get the hook!"

Poor Nichol, poor alloy of brass, how soon will you drop into a slot and keep quiet and let the farmer and horsebreeder, who buy perhaps more automobiles than any other class of people, outside of the big cities, have the floor? These people believe in automobiles because they have proven to be indispensable and are not so narrow-minded as to wish that they should be destroyed. They say, and statistics prove it, that there are more horses in use today, more are being bred, greater prices are being paid for them and more people are engaging in the business of breeding horses than ever. The demand is far greater than the supply, and were a war to be declared with Mexico the United States government would have to pay seventy per cent more for horses today than they ever did, and automobiles would be absolutely useless in skirmishes or pitched battles. Mr. Nichol had better stop and consider another and perhaps one of the most valued attributes about horses—that which has from time immemorial made them man's best friend—the sentiment allied to ownership and companionship, binding the faithful four-footed intelligent horse to mankind. Something that never did and never will exist between man and his automobile. He should stop and consider (when he is sober, for surely no temperate man would ever write such stuff) that no doubt his father and mother rode in their carriage triumphantly to church behind a handsome team to be married; that in his youth he rode to school, to picnics, and to see his best girl behind some good faithful horse; or, perhaps, that his forebears rode across the continent to California in early days, and many times their precious lives were saved by some good team that never knew what it was to tire. He should not forget that, as in the past, every merchant of small means sent their wares to his home behind some all-purpose horse, and they will continue to do so for many years to come. He should not speak disparagingly of horses for he knows that for generations the good, kind animals have slowly and almost reverently wended their way along the streets of the cities and long roads in the front of the hearse which conveyed all that remained of his ancestors to their last resting place beneath the weeping willows and the little mounds of clay in the cemeteries, where the shrill toot of the auto horn will never disturb them, no more than will the blast from Gabriel's trumpet.

PLEASANTON MATINEE TODAY.

There will be five trotting and pacing races in the matinee to be held at the Pleasanton track this (Saturday) afternoon. The events are still open to all horsemen and the following entries have been received.

- 2:15 pace—Vela A. C. L. De Ryder; Dawn o'Light, W. T. McBride; Queenie R. R. G. Smith; Jerry D., Al Schwartz.
- 2:25 pace—Albany, A. Schwartz; The Mighty, William Meese; Dicto, Charles James; Nutwell, C. L. De Ryder; Gilbert E., Louie Joseph; Della H., H. G. Smith; Searching, Lee Wells.
- Free-for-all trot—Silverbunter, T. D. Sexton; El Vivillo, H. H. James; Orient, C. L. De Ryder; Borena D., H. H. Dunlap; Bodecker, Thomas Ronan; Brutus, S. Christenson; Greenbaum, Don Spencer.
- 2:25 trot—Dellelect, Charles Whitehead; Harold K., V. Gallado; Tell-Tale, C. L. De Ryder; Stratdon, Farmer Bunch; Roseline, Fred Chadbourne.
- Free-for-all pace—Welcome Boy, Al Schwartz; Billy Smith, H. H. James; Harry Direct, W. W. Fleming.

STANDARD BRED STALLIONS LICENSED.

Following is a list of stallions that were licensed by the California Stallion Registration Board from April 15th to 27th:

- Lustredon—J. P. Berry, Merced.
- Vince—Marvin Simpson, Academy.
- Athy—U. J. Bernard, Hanford.
- Young Monterey—Conusto & Alford, Ferndale.
- Coming Boy—F. N. Frary, Red Bluff.
- Lord Alvin—Frank Carter, Oakland.
- Amulet—G. W. Bonnell, Redlands.
- Barytone—F. A. Turner, Cedarville.
- El Carmel—M. T. Kibbe, San Jose.
- Docus D.—Chas. B. Drew, San Francisco.
- North California—J. V. Andrews, Red Bluff.
- Athlone—C. E. Crawford, Redley.
- Reward S.—Wm. Silsby, Whittier.
- Ed McKinney—E. P. Heald, San Francisco.

Drink Jackson's Napa Soda.

MAY DAY AT DIXON.

This annual event is anticipated with pleasure by every man, woman and child in the four counties, Solano, Sacramento, Yolo and Napa, and great preparations are made for it. The celebration this year eclipsed all previous ones. The recent rains having laid the dust, freshened the foliage and brightened the appearance of the country, made it most enjoyable. From early morn all the roads leading to the "Dairy City," as Dixon is called, were dotted with automobiles, carriages, surreys and buggies carrying happy people to the city, for there was to be a big parade, two bands of music, crowning of the May Queen, and a speech by Robert J. La Follette, of Wisconsin, one of the prominent candidates for nomination for President of the United States. Everything passed off according to programme in the forenoon and was thoroughly enjoyed.

At the half mile track, merry-go-rounds, games of chance, booths filled with articles to tempt the little ones and their elders were scattered here and there within the enclosure; and after the procession ended in the city, every available place to hitch a horse was claimed, for at least 3000 people passed through the gates either on foot or in vehicles.

There were several events which interested those in attendance, two baseball matches, a five-mile motorcycle race, and three pacing races, half-mile heats, three in five. For these last named Starter Wm. J. Kenney officiated in his well-known capacity. The judges were, J. W. Marshall, Chas. Hamilton and E. D. Dudley. Timers, Harry McFadyen and James Sutherland.

The first event was between road horses; there were only three contestants to score for the word, but it took four heats to decide it. Marie, a stout made chestnut mare, ably driven by Mr. Pritchard, won the first two heats, was beaten the third a head by Alton S., and then captured the last heat by two lengths. Opal was very speedy getting away in the lead and then stopped to do a "Texas Tommy" at the first eighth despite Cal Reams' persistent efforts to keep her on her feet when she heard the patter of the footbeats behind her and the soul-stirring music near the dancing platform.

In the 2:20 Class Pace, Jessie E., a good looking mare by Dictatus out of a mare by John Nelson Jr., won as the summary below will show. Flossie H. was quite lame, but game. Dick Verne could not negotiate the short turns well.

The Free-for-all brought out two speedy pacers, Alton, a black stallion belonging to Lou Mataivia that held the track record here for several years, and a big handsome chestnut stallion called Demonio Nutwood, belonging to W. B. Connolly, of Suisun. On the turns Alton would take the lead, but going down the back stretch, this pure-gaited son of Demonio 2:11¼, and Mamie Comet 2:23¼, by Nutwood, paced by her, going the last half of the third heat in 1:06½, the last eighth in 15¾ seconds. He is a fine looking stallion and has no record, although Fred Chadbourne drove him a mile in 2:07 last year. This horse injured his hip and was laid up for a few weeks, so this was the first time he has seen a race track since the accident occurred. He is going sound and would be a dangerous opponent to meet in the green pacing classes this year. He is only six years old and is a full brother to Madeline Marshall, dam of the black stallion Zomblack 2:26 (trial 2:08¾) now in Mr. R. J. MacKenzie's string at Pleasanton, and the stallion Zoblack 2:24½, now at Montpelier, Idaho.

Following are the summaries:

| | | | |
|---|--------|---|---|
| Road Race, Pacers, half-mile heats; 3 in 5: | | | |
| Marie, ch m (Pritchard) |1 | 2 | 1 |
| Alton S, ch s (Mataivia) |3 | 2 | 1 |
| Opal, b. m. (Reams) |3 | 3 | 3 |
| Time—1:19½, 1:15¼, 1:15¼, 1:17½. | | | |
| 2:20 Class Pace; half-mile heats; 3 in 5: | | | |
| Jessie E, ch. m. (Pritchard) |1 | 2 | 1 |
| Flossie H, b. m. (Watson) |2 | 1 | 2 |
| Dick Verne, b. g. (Rodman) |3 | 3 | 3 |
| Time—1:07¾, 1:11½, 1:07½, 1:10. | | | |
| Free-for-all Pace; half-mile heats; 3 in 5: | | | |
| Demonio Nutwood, ch. s. (Reams) |1 | 1 | 1 |
| Alton, bl. s. (Hoy) |2 | 2 | 2 |
| Time—1:07¼, 1:10½, 1:06½. | | | |

Through the activity of Wm. J. Kenney of this city, endorsed by many prominent breeders, a statewide publicity campaign is being waged in the interests of the racing industry and the holding of fairs. The principal work to be accomplished is the adoption of the laws regarding betting as enforced with such success in Kentucky. The total abolishment of bookmaking and of poolrooms and all wagering outside of racetrack enclosures; the adoption of the Paris mutuel or Totalisator system, as well as auction pools, and the division of the commission so that all over and above the cost of maintenance shall be added to the stakes and purses; and the appointment of a band of commissioners with powers so comprehensive that there can be no possible chance for any "crooked work" to be done. At the convention to be held at the Palace Hotel on the 25th day of May, there will be a large attendance, but bookmakers and their assistants will be "conspicuous by their absence." This change could never be accomplished were it not that the law regarding the initiative and referendum was passed by the last legislature. The provisions of the Kentucky law and all pertaining to this movement for the revival of interest in light harness horses as well as thoroughbreds will be fully set forth in these columns as soon as Mr. Kenney returns.

Ramona (dam of the phenomenal four-year-old pacer Del Ray) has been bred to Vernon McKinney 2:02, this year.

THE MUSIC RIDE.

Nothing that has taken place at the Riding and Driving Club, No. 701 Seventh avenue, since it was hault, was more effective or more interesting from every point of view than the Music Ride held there last Wednesday night. The decorations were neat and beautifully arranged. A band of fifty pieces played all the evening, and the 2000 spectators were surprised and delighted with the gorgeous spectacle. It surpassed all they had ever seen and reflected credit upon the management and those who took an active part.

The event of the evening was a fancy costume ride in which forty participated under the direction of Master of Ceremonies Valenty, who, with energy and military command, put the trained entrants through fancy figure riding.

In addition to the costume ride, there were jumping rides, egg and spoon racing, overall racing and the fantastic jeu de har. With spirit and enthusiasm the riders entered into these events and the evening was a huge success.

The judges, Captain William Matson and George Newhall, awarded the first prize, a silver cup, to George Ahlhorn and Miss Andrus, who were dressed as Indians and rode bareback on two spirited ponies. The second prize, a bronze cup, went to Dr. and Mrs. M. M. Posner, in fancy costume. Those who took part in the various events were:

PENSIONING FIRE HORSES.

Supervisor Alex. Vogelsang, of San Francisco, had a resolution passed at the last meeting of the Board pensioning Mollie, Queenie and Nellie, three of the oldest and most faithful mares in the Fire Department.

"If these horses are no longer able to work they should not be sold, and should either be put to death humanely, or turned out," said Vogelsang. "I do not believe in turning a faithful horse over to some one who might ill-treat it."

Mayor Rolph declared that he did not believe in putting such horses to death, but favored a plan of putting them in a pasture where they could end their days in peace. Supervisor Mauzy concurred in that idea.

Supervisor Koshland argued that horses that were no longer of use in city work might be of use somewhere else, but a resolution was finally adopted authorizing the Mayor to do whatever he wishes with Queenie, Mollie and Nellie.

Doubtless turning these old mares to pasture for the rest of their lives appears all right, but when the pasture dries up these mares, which have been grain-fed and most carefully tended and groomed for many years, will lose flesh, and becoming thinner every day will spend their last days in misery. It would be better to put them out of misery when they cannot be placed in comfortable stalls and fed chopped hay and grain every night, as soon as the pastures fail. It will only be prolonging their misery to force these faithful animals to "rustle" for a living. As to selling such worn out animals to men who will put them to the heaviest work and abuse them we are strictly opposed to such sales.

FOR HORSE OWNERS AND TRAINERS ESPECIALLY

There has just been published a 44-page book, done in fine gold, embossed cover, showing "The Harvester" 2:01, world's greatest champion stallion, drawing a "McMurray" sulky, which should be in the hands of every owner or trainer who is beginning to feel now, or knows that he needs a race sulky, jog or speed cart. This book is a fine catalog, profusely illustrated with photos and race scenes, both in this and foreign countries, and is issued by The McMurray Sulky Company, 238 N. Main Street, Marion, Ohio. This firm makes a strictly high grade line of numerous models of sulkies, carts and pleasure wagons, all fully guaranteed for life. Prices are reasonable. They would be pleased to hear from our horsemen friends.

DREW FAMILY OF HORSES.

Sixty years ago there was a family of trotters in Maine known as Drews. Some of them were quite fast for that early day and most of them were excellent roadsters. As a rule they were very handsome blood like, hardy, intelligent and docile. They had bony heads, intelligent countenances, beautiful necks, clean at the throatle, good shoulders, round barrels, strong hocks, well muscled loins, long smoothly rounded hips, strong, clean limbs and good feet. Their conformations were more suggestive of speed than strength, as their barrels were somewhat light; though fully as round, they were not so deep as the barrels of the horses of the Morgan family, yet they were not lacking in endurance.

The founder of this family is registered as Drew Horse 114. No one could claim the credit of breeding him. He was foaled in 1842, the property of Hiram Drew, Exeter, Maine. His sire was a three-year-old colt, represented to have been and probably was thoroughbred, that was obtained by A. G. Hunt in Frederickton, N. B. Mr. Hunt was then a young man and a resident of Exeter, Me. He lived to a good old age and spent the last few years of his life in Boston where he died several years ago. He was a natural horn horseman, and an excellent judge of horse stock though not a student of pedigrees. In fact but few horsemen of 60 years ago paid attention to pedigrees. They cared but little for the ancestors of a horse, if his appearance and gait suited them, writes S. W. Parlin in American Horse Breeder.

The writer became quite well acquainted with Mr. Hunt, and had several interviews with him concerning the origin and breeding of the sire of Drew Horse 114. Mr. Hunt said that he was a thoroughbred and a good race horse. Mr. J. H. Reid of Frederickton, N. B., an old-time horseman, who at one time owned the trotting stallion Robert R. Morris, 648, was greatly interested in pedigrees and knew the breeding of all the thoroughbred horses owned in the vicinity of Frederickton, N. B., and in other sections of that Province. Mr. Reid investigated the breeding of Drew Horse 114 carefully in order to get Robert R. Morris 648, whose dam was by Drew Horse registered. In a personal letter to the writer dated April 19, 1892, Mr. Reid stated that the three-year-old colt which Mr. Hunt obtained in Frederickton, N. B., and that sired Drew Horse 114, was called Young Buzzard, and was sired by imported Buzzard, a son of the renowned race horse sire Herod.

Mr. Reid stated that the dam of Young Buzzard (sire of Drew Horse 114) was "Fairy, by Lofty, a son of imported Wildair, and his second dam was Zoe, that was imported from England by the Duke of Kent, Queen Victoria's father. The dam of Lofty, sire of Fairy, was imported Doll. Fairy was a bay with strip in face, and one white fetlock behind. She stood 15½ hands, weighed 1100 pounds and trotted a mile in 2:55 pulling a heavy carryall." Mr. Reid also investigated the breeding of the dam of Drew Horse 114, and found that she was by Henry, a son of Brewster Horse by the renowned thoroughbred race horse American Eclipse. The second dam of Drew Horse 114 was Lady Jane, by Winthrop Messenger, and his third dam was the Andrews Mare, another daughter of Winthrop Messenger. The latter was a son of imported Messenger.

When Mr. Hunt reached home at Exeter, Me., with Young Buzzard he turned the colt into a pasture to graze. The colt escaped from his pasture and managed to get into another in which Mr. Drew's mare was kept. The result was a colt foal later known as Drew Horse 114. When Mr. Drew, owner of the mare, learned what had occurred, he was very angry and threatened to bring a suit for damages against Mr. Hunt who decided to have the colt castrated which was done. Mr. Hunt informed the writer that this colt was a good gaited trotter, but he trained him to run and raced him very successfully at that gait, beating one after another in matches all the best runners in that section of Maine. Mr. Hunt finally sold him to a Mr. Winter of Rhode Island, who took the horse into New York State and there won several races with him.

When Col. T. S. Lang took Gen. Knox 2:31½ to Maine in 1898 the descendants of Drew Horse 114 were the most popular of any in Eastern Maine, especially in the vicinity of Bangor. One of the fastest trotting stallions in Maine in the early sixties was Hiram Drew 2:31½, a son of Drew Horse 114. In the hands of the late Foster S. Palmer Gen. Knox improved steadily in speed and there was soon great rivalry between the friends of Hiram Drew and Gen. Knox. A match race was finally arranged between these two stallions which was decided at Waterville, Me., October 22, 1863. Gen. Knox, driven by Foster S. Palmer, won in straight heats, time 2:32½, 2:32, 2:34.

The Year Book credits Drew Horse with two standard performers, viz., Dirigo 2:29 and General McClellan 2:29. The latter seems to have been the most successful race winner that Drew Horse 114 ever got. He is credited in Chester's Complete Trotting and Pacing Records with winning 11 races, one of which was a double team race at the Riverside half-mile track, Brighton, Mass., October 17, 1866, where with Dashaway as a mate he beat the famous Ethan Allen 2:25½, with Honest Allen as a mate in straight heats, time 2:39¼, 2:39½. At Belfast, Me., September 24, 1864, General McClellan 2:29 won a race from Dirigo 2:29, (then known as Geo. B. McClellan), losing the first heat to Dirigo in 2:29, but taking the next three in 2:31, 2:28, 2:26. The time in this

race was not credited as a record for it was claimed that the track was short, but it was in this race that Dirigo made his record of 2:29.

The following year General McClellan 2:29 won three good races in one week. The first was at the Riverside track, Brighton, Mass., September 21, where he beat Leviathan and Ticonic in straight heats, time 2:33¼, 2:32½, 2:34¼. Four days later, September 25, over the same track he trotted a match race to wagon against Fearnought 2:23¼ and beat the latter in straight heats; time 2:37, 2:40¼, 2:38¼. Three days after the last mentioned race, General McClellan beat Dirigo 2:29 in straight heats at Ellsworth, Me., September 28; time 2:31, 2:30, 2:29. In 1867 General McClellan 2:29 won a match race to wagon for \$1000 a side against Commodore Vanderbilt 2:25. This race was over the Fashion Course Long Island, N. Y., June 10. General McClellan was driven in this race by the famous reinsman Dau Mace and won first, second and fourth heats in 2:30¼, 2:31½, 2:30¼. Commodore Vanderbilt 2:25 took the third heat in 2:31¼. In the fall of 1867 or sometime in 1868 General McClellan 2:29 was taken to California and kept there until he died in the winter of 1880. None of his get is credited with a record in standard time.

Dirigo 2:29 was the most successful son of Drew Horse 114 as a sire of standard performers, and had he been given the same opportunity of General McClellan 2:29 it is probable that he might have equalled or surpassed the latter as a race winner.

The descendants of Drew Horse 114 resembled the famous Morgans in some respects. As a rule their bodies were not as deep as those of Morgan horses, but they were hardy animals, cheaply kept, very docile, with the best of limbs and feet and excellent for all purposes to which light and medium weight, wiry, active horses are adapted, and some of them were good gaited, fast trotters for their day. They were first class horses for stage coach purposes. Colonel Ricker, a well known Maine horseman and noted stage route proprietor, bought a stage line with all its equipments from Col. Berry of Rockland, Vt., many years ago. After the trade was closed Col. Ricker informed Col. Berry that the horses bought from him were the best that he had ever seen on any stage line.

The majority of these horses were descendants of Drew Horse 114. When worked on the stage coach until apparently worn out, if turned to pasture and given a summer's run to grass, they would come up in the fall fat and sleek, apparently as good as new. But little of the blood of Drew Horse 114 is in existence today, and that little is much diluted but some of his descendants still show the influence of the Drew cross. It is doubtful if there has ever been a better family of roadsters in Maine, or one with better legs and feet than was the family founded by Drew Horse 114, that inherited thoroughbred blood close up on both sides.

[Molly Drew 2:27 by Winthrop 505, son of Drew Horse 114, was a good game trotter, and while owned by the late Wm. Corbitt, of the San Mateo Stock Farm, produced Alannah 2:14 and the dam of Freedom 2:27¼, once holder of the world's championship record as a yearling trotter, Laura Wilkes 2:29½, Sableodom 2:24¼, and Ora Drew 2:24¼. Winthrop also sired Corette 2:19 and the dams of Etta Wilkes 2:25¼ and Lena H. 2:29½. Winthrop was brought to California by the late Judge Wm. E. Green in 1870. Maud Vernon, the dam of Vernon McKinney 2:02, was out of Mag by Gen. McClellan 2:29, who also sired the dams of Princess Alice 2:29, Bay Thorne 2:23½, Empress 2:20.—Ed. Breeder and Sportsman.]

HANDLING STALLIONS.

There is no reason to worry about the sureness of a stallion because a large proportion of the mares first bred may return again later in the season. Mares do not naturally breed well early in the spring. They are much more likely to conceive after the weather gets warmer and their systems are cooled out by a little grazing. The small percentage of foals secured by the earlier spring services prompt many experienced stallioners to discourage farmers from bringing their mares in at all before the middle of April. They depend upon those who are determined to be early to bring in enough mares at the start of the season to get the stallion squared up in good shape for a hard season later on when his system has become accustomed to the renewed sexual activities. A horse that has been maintained in idleness all winter is also less likely to be sure at first than one having continuous exercise sufficient to keep the muscles firm and the circulation strong. Some impotent stallions have regained their vitality when the bondage of a close box stall has been exchanged for the freedom of the harness. That which can effect a cure in such bad cases will also prevent the trouble in the first place. Horses naturally take far more exercise than any other kind of stock. They require it for continued health. The stallion that has been rationally handled up to the present period of the season should get a large proportion of his mares in foal from this time on.

Vernon McKinney 2:02 has been bred to 25 of the choicest pacing mares, or dams of famous pacers, in California.

Drink Jackson's Napa Soda.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DOWITT.

OLYMPIC RIFLE TEAM.

Washington, April 25.—It has been definitely settled that the United States will be represented by a rifle team at the Olympic Games at Stockholm, Sweden.

All but fifteen hundred dollars of the amount necessary to finance the team has been subscribed, and from the way the subscriptions are now coming in this amount will undoubtedly be raised within the next two weeks. Among the recent subscriptions which materially helped to bring this decision about was one of two hundred and fifty dollars from the New York State Rifle Association and one of one hundred and seventy-five dollars from the First Infantry, Missouri National Guard.

An agreeable feature of the contributions now coming in is the number of small subscriptions received showing that individual shooters throughout the country are beginning to take some interest in the matter.

Several of the States are planning to hold preliminary try-outs during the period between the first and the eleventh of May. The men selected at these trials will be sent to Washington to take part in the final trials which will be held at the United States Marine Corps range, Winthrop, Md., May 16 to 20.

At these trials the regular service rifle may be used with the regulation trigger pull as allowed in the national matches.

The officers of the team will be team captain, Lieut. Commander Harris Laning, U. S. N., who captained the victorious navy in the national matches for a couple of years. The team adjutant will be Colonel William Libbey, assistant inspector general of rifle practice of New Jersey—well-known to all the riflemen who have been attending the national matches for some years back. Colonel Libbey is a professor in Princeton University and is well qualified for the position in every respect.

After the team is selected on May 20th the members will be allowed to proceed to their homes to arrange their affairs, if they so desire. In a few days the team will be reassembled at either the Winthrop, the Naval Academy or Sea Girt range for team practice until June 14 when they will sail on the ship "Finland" with the other athletes for Stockholm.

The team will leave the ship at Antwerp and proceed by rail to Stockholm, arriving there on the morning of June 25. This will give them four days practice on the Stockholm range as the international team match is shot on June 29.

In addition to the team and individual matches for the service rifle it is also proposed to enter the men in the team and individual matches at 300 metres for "any" rifle; in the team and individual matches with the miniature rifle and in the team and individual matches at the running deer.

The executive committee of the National Rifle Association of America may decide later to increase the number of representatives to be sent so as to include one or two men who are especially strong at the "miniature" game or at moving targets so as to increase the chances of success in these competitions.

LIEUT. ALBERT S. JONES,

Secretary National Rifle Association of America.

Steven creek, in Santa Clara county, usually approached via Mountain View, has maintained its former good reputation this year. W. J. Street, J. Smith and S. Loose recently whipped the creek successfully.

FISH LINES.

Last Wednesday, May 1, the Sierra streams and mountain lakes in game district No. 6 were open to the angler.

Among all these resorts none has the good will of the disciples of Izaak Walton to greater degree than the famous Truckee river, accounted by the majority of anglers as one of the best fishing waters in the State.

The Truckee, by recent advices, is low and clear this early in the season and should offer exceptionally good fly fishing all summer. Although there was a fall of snow in that region last week, it was not regarded as a serious menace to the condition of the river this week.

There was a representative delegation of rodsters at Boca and Truckee on May day, if the sport is on the right side of the ledger the week-end—regira of anglers for the Truckee will be a large one.

The mountain streams available this week are all reported to be low and clear. So far as that goes, it is merely a distinction as against the usual spring high water in the Sierra creeks, meaning that the water volume is favorable to ordinary fishing operations. For when the streams are very low and clear it is not an easy matter to lure the cunning and wary fish. Flailing a creek with a cast of flies under these conditions often keeps the fish out of sight and securely hidden, for when a trout sees you it is just as well to move on down or up stream.

The annual May-day outing of the San Francisco Fly-Casting Club members to the commodious clubhouse on the Truckee river, near Union Mills was celebrated this season with eclat.

A special car had been engaged for the start last Tuesday evening. Among those mentioned as probable members of the club party were: Horace B. Sperry, Tom C. Kierulff, Walter D. Mansfield, Carter Pomeroy, Jack Harron, J. F. Cooper, Paul M. Nippert, J. H. Hunt, E. A. Mocker, Charles H. Kewell, J. D. McKee, M. Osborne, James Watt and others.

W. C. Murdock has been at the club house for a few days and after whipping the Truckee during the opening week or so will devote his attention to lake fishing in Plumas county until the season opens at Webber lake, this year possibly about the first of June, two weeks earlier than usual.

The club house has recently been made more attractive by the addition of a new dining room, an open air refrigerator, a "fishhouse" and the installation of an acetylene gas lighting plant.

The "fishhouse" was the suggestion of W. W. Richards. Its utility and convenience for the proper care and storage of catches of trout will be well established this season.

Reports from Belden and other points on the Feather river indicate pretty good fishing prospects early during the season. Probably there is something reliable in this, for there has been a deal of "sooner" fishing going on up that way.

About the middle of May a large party of members of the California Anglers' Association propose to spend a few days in the vicinity of Belden or Smith's Point.

The association has received within the past week seventy-five applications for membership.

The Little Shasta river is given credit, at present, for being in better fishing condition than for thirty years past. According to W. A. Hawkins, who returned from Yreka a week ago, limits of 10 to 14 inch rainbows were to be caught in two hours. The best lures were red ant and red spinner flies, although almost any of the Coast fly patterns were effective.

That there was a big run of steelhead trout up that stream this year is shown in the fact that large numbers, "wagon loads of them," of 2 to 8 pound spent fish are in the river. When these recuperating fish have been hooked by anglers recently on the river they were generally released. In time the trout will get back to the ocean again.

Now that the season will be on for the mountain streams and lake angling, many anglers are planning trips to distant resorts. Of these there are many and generally of good repute.

The Williamson river in Oregon has gained much in favor with the fraternity of rod-wielders in the past few years. This stream is fairly wide, deep and has a rapid current.

The best fishing stretches of the Williamson river are between Sprague river and Spring creek, a distance of about six miles. Here boats may be had, or one can fish from the banks at intervals. Below the confluence with Sprague river the river runs through a marshy section until it empties in Klamath lake. The Sprague is cloudy and ash colored fishing for trout in this river, unless at the headwaters, where the stream is said to be clear, has not been notable for any good results.

Spring creek is a short stream about two and a half miles of negotiable water. In places the angler can use a boat also. The banks, however, are not brushy and afford ample opportunity for casting without entangling handicaps. This creek is said to be an ideal water for dry-fly fishing. The volume

of water is about half that of the Williamson, clear as crystal and cold as ice.

The eight or nine miles of river and creek here described are practically the only decent fishing water in that section. The trout, big rainbows, average from 4 to 8 pounds in size, lots of smaller fish, half-pounders and over abound, however.

The professor and improved governor fly patterns, have been found very killing lures, some anglers favor a No. 6 hook. A. H. Vogelsang, who knows the Williamson from an expert angler's experience, has landed 7 and 8 pound trout with an improved governor fly on a No. 10 hook.

Just when the fly-fishing is best is the question that interests the angler. Most of the experienced Williamson anglers favor the days from the middle of June to the first of August, others again are disposed to try August and September.

Klamath Falls is the point of departure for the Williamson thirty miles away. A branch railroad has been partly constructed and there is a station on the river within four miles of Spring creek, from which point the angler may reach his destination by vehicle or shank's mare, as he likes.

A Sacramento angler, Jack Marsh, who recently returned from a Klamath Falls trip, put out his line in numerous fishing resorts of that district and was rewarded with catches of seven and eight pound trout. Bait and the spoon were the lures used.

Harriman Lodge, on Pelican bay, Klamath lake, owned by the late railroad magnate, E. H. Harriman, has been sold to the Pelican Bay Investment Company and will be opened as a fishing resort this year.

A. B. Finch and Bert Spring, two popular members of the California Anglers' Association, who have been on the invalid list, are both reported to be in regained health and getting ready for a trip with rod and reel.

Wise trout anglers, for many years past, have relied on San Pablo creek and also Wildcat creek, in Contra Costa county, for excellent early season sport. The opening day visitors in the first-named stream caught nice baskets of well-conditioned fish. Charles P. Landresse and Joseph Dober have made several profitable trips to the first-named stream.

Wildcat creek is now obstructed by a concrete dam, over which steelhead trout cannot get up the stream. Charles Meeback fished the higher pools of the creek recently and caught two limits on different days. The fish took the fly readily and were from six to ten and a half inches in length.

Mocho creek, reached via Mendenhall Springs, in Alameda county, usually one of the best trouting wated in that section, has not this season lived up to its past good reputation.

Striped bass anglers have had their enthusiasm prodded up a bit during the last week by reports of catches here and there. Last Sunday the fish were running in Corte Madera creek. Farther out in the bay, near San Quentin, Mr. and Mrs. Charles Urfer landed a twelve and a six pound bass, using clams for bait. Other anglers caught a few smaller fish.

The San Antonio creek regular anglers were lucky. Billy Goodwin's fish scaled thirty pounds. Charles Bond also landed a fair-sized bass. Gus Christianson's luck was only two hungry strikes from big fish that he failed to bring to gaff.

A report from Duncan's Mills states that striped bass are very thick in Russian river—"just below the dead tree"—a fishing place well known to the steelhead angling fraternity.

THE NAME SALMON TROUT.

Professor David Starr Jordan, of Leland Stanford University sent the following letter to a daily paper for the purpose of refuting a widespread misconception and correcting erroneous quotations:

"I notice that a correspondent credits me with the statement that all the trout in California are 'salmon trout.' Some time ago another paper quoted me as saying that there are 'no trout in California.' I have just recovered from this trouble to take on the other. The name 'salmon trout' is applied in England to the brown trout, or brook trout, which has run down to the sea and come back to spawn. All trout will run to the sea if they get a chance, and when they do they grow very much larger than they do in rivers and lakes.

"The word 'salmon trout' has no meaning on this Coast. If it had it would be synonymous with 'steelhead,' which is a rainbow trout that has run down to the sea. At one time we thought that we could distinguish between rainbows that had not entered the sea and steelheads which had; but they are all the same species and the young steelheads grow up as rainbows. The rainbow and steelhead of the coastwise streams must, therefore, be considered the same. The word 'salmon trout,' if applied to any California fish, would be trout which had come up from the sea. In the mountains of California the trout do not run to the sea, and the Shasta rainbow, which never reaches the sea, is somewhat different from the rainbow of the coast. We have called it the Salmo Shasta. The Tahoe trout is a different species, as is also the 'cutthroat,' occasionally seen in Northern California, and the two or three species of golden trout found in the Sierra about Mount Whitney. There is still another trout found in the streams of Mount San Gergorio, in Southern California. The Dolly Varden is also quite different, but practically all the trout of the coastwise streams of California are rainbow trout, and all the rainbows that run into the sea are steelheads when they come back."

ODD DAYS IN SOMALILAND.

It was only my third day in real shooting country when, quite unexpectedly, came what must always remain one of the red letter days of my shikar experience. I was out early with my three shikaris and saw both gerenuk (Waller's gazelle) and aoul (Sommering's gazelle) but they were unusually wild and I had no chance of a shot. Then about 9 a. m. we suddenly struck the fresh trail of a troop of six lions!—apparently three or four adult lionesses and two or three nearly full-grown youngsters, writes a correspondent of The Indian Field.

No time lost in discussion, but after them at once. The going was not good, in some places stony and the tracking difficult in consequence, it was only the number of the beasts that made it possible to keep the trail at a fair pace. Where the ground was open, we wasted no time, but whenever we approached thick grass or hush, Abdilleh, my head shikari) was very careful, always positing me in a good position before investigating to see if the tracks had passed on. I suppose we had followed the trail for six or seven miles when at 11:30 a. m. we came to a patch of durr grass about 50 yards long and 25 or 30 broad. This durr grass grows to a height from four to six feet, in thick clumps set close together, and affords the favorite daytime cover for most nocturnal creatures in this part of the country. I was considering this with Abdilleh when Henduleh (my second shikari) a short distance away, whistled to us and pointed gesticulating into the grass. His manner left no doubt as to what he meant, so Abdilleh and I hurried quietly round to the far side. There he was making for a likly thorn hush when I stopped him, for just at the near edge of the cover where the grass was thin, stood a lioness, tail towards me, just the top of her hack and neck clearly visible and only 25 yards away! It was a chance not to be lost, and I fired; down she went to the shot out of sight in the grass.

Then I had no more time to think of her for the moment, for at the report came the sight of a lifetime: the five remaining lions breaking from the cover, from different spots, but all on the side nearest me, almost simultaneously, and all within some 20 to 30 yards; then, checked by the unexpected sight of two humans in their way, dashing hither and thither, one straight away to my right, the others in and out of the grass uncertain what to do! You see, previous to the shot their attention had been fixed on the two shikaris on the far side whom they had detected. Now I had not started out that morning with any idea of seeing lions so had not my second lion rifle, the .400, with me. Abdilleh was beside me with the .318, powerful enough to kill any lion, but not in my view the sort of weapon for the close quarter game I had come in for now. Consequently I was determined not to have both barrels of the Paradox empty at once if it could be avoided, and immediately proceeded to load the empty chamber, before attempting another shot. Then I had a snapshot at 15 yards at a lioness bolting back into the grass and she too disappeared. By the time that cartridge was replaced, the rest had made up their minds it was time to go and were galloping off to the left. I might have fired at one of these, but did not think the shot, a galloping one at 60 or 70 yards, good enough under the circumstances, and let them go.

I had two lionesses down in the long grass, both I knew hard hit, but one at least I knew to be alive, and I had no certain knowledge of how far either of them was disabled. Without a second double-harrel I was not keen on having a possible third wounded beast on my hands and don't mind saying so. Well! careful reconnoitring of the grass soon showed lioness No. 1 lying just outside round the corner, alive but done for; she made an effort to rise on seeing me but could not do it and with a second bullet she died. Listening and watching, we found that No. 2 was also alive and able to move. So we decided to fire the grass, first dragging the corpse of No. 1 out of danger from the flames. Then climbing into a convenient low tree whence I could see over the grass to some extent, I waited while Elmi (shikari No. 3) started a fire on the windward side. It blazed up quickly and in three minutes a growl or two and the waving grass showed where the second lioness was moving. She came out 25 yards from me, on her fore paws, her hindquarters dragging useless behind her.

Catching sight of the body of her dead companion close by, she made for this and sitting down beside it, bit viciously at the poor corpse. Was this a case of hitting a friend when he's down, or merely wrath that had to wreck its vengeance on something? Anyway I only wanted holes of my own making in my skins, so let her have it again. Then for the camera and steel tape. There they lay, two adult lionesses, after an experience which for a first encounter with lions must be very rarely unique. During those few crowded moments Abdilleh had stood by me splendidly; he kept saying "Don't be afraid sahib: shoot!" I didn't shoot quite as often as he wanted at the time, in which he afterwards admitted I was right; as for being afraid, there was no time to think of luxuries of that sort. These two lionesses measured 8 feet 3/4 inches and 8 feet 1 3/4 inches respectively as they lay. The Somali lion is a comparatively small breed. By the time tape and camera and skinning knife had done their work and we were on our way back to camp, it was 2 o'clock. Fortunately the lions had travelled in a circle, so that we were not very far away and were in camp in an hour and a half. As soon as we were within hearing

Henduleh began to announce our success in song which brought every one out to meet our triumphant procession. I was not sorry for a cup of tea, then came the pegging of the skins, and after an early dinner I was in bed at 8 p. m. and slept the sleep of the just. I did not dream of lions.

Next morning we were out at daybreak, meaning to try and ascertain what direction the four lions which had escaped the day before had eventually taken; though not with much hope of seeing any more of them. After stopping to shoot an aoul, as meat was wanted, we made for the scene of the previous day's proceedings. There we found the usual concourse of vultures, etc.; but both skeletons were already picked clean. We found too, which was more important, that these had been visited and inspected during the night by the remainder of the troop and the trail of these we now took up. After an hour's tracking we reached a spot where they had killed a gerenuk, of which there was not a fragment left. Their return to look for the other two, the subsequent kill and feast, must have all taken up time, which with the fact that their hunger had been in some measure satisfied tended to make our chances of coming up with them much more hopeful than they had seemed at first. But it took us quite another hour before we could get fairly going again with some special tidbit to be discussed at leisure, and it took a lot of work before we hit off the line the troop had eventually taken. And from this on they had wandered about in an apparently aimless sort of way difficult to follow. Once we thought we had them and beat some thick bush and grass: I felt my heart beat faster as I noticed a rustle in the grass, then out came a long eared fox (otocyon)! a pretty little beggar with greenish grey fur and high black brush, but not just what I was expecting. At last, however, the tracks went into a long and rather thick patch of durr grass and, there was no mistake about it, did not emerge.

We decided that firing the grass was the best thing to do, and it was done accordingly, while Abdilleh and I took up our position behind a thorn tree, 20 yards from the other end. Behind us again to the left was a small patch of high grass that the lions would probably make for in the first instance and have to pass us in so doing. This time Abdilleh had the .400 ready beside me. The blazing up of the flames was followed by several growls; then a cub broke and bolted away to the right, but he was only half grown so I let him go. Next moment a head appeared to my right front, looking at us and snarling; it disappeared and then appeared again on the other side, making a show of attacking. I did not wait to see if this was bluff but fired at his chest and he collapsed where he stood. At the report a lioness broke directly in front and, seeing me, swerved and went past on the left about ten yards away. As she did so I gave her the left barrel of the Paradox behind the shoulder; she staggered but went on, vanishing behind the next clump; however I had seen her wound was in the right spot and knew she was done for.

The next thing was to snatch the .400 from Abdilleh and push the Paradox into his hand to load. Then seeing that No. 1 lying in front was trying to raise his head I gave him a finisher. Handing the .400 back to Abdilleh, I took the Paradox which he had reloaded and aimed at a third lion which appeared and stood for a moment close to the body of No. 1. I pressed the trigger and nothing happened! Now I had had my Paradox huilt especially with a non-automatic safety mechanism, so that with the closing of the breech the gun is ready, cocked. Abdilleh in his excitement and excess of zeal, had pushed back the safety-holt after loading. It might have been an extremely awkward mistake! It only took a moment to rectify but my chance of a standing shot was gone, as the third lion, like No. 2, made past me on the left. He fell to my shot at only five or six paces distant, but was up again at once and turned to charge; however the heavy bullet in his lungs had taken all the fight out of him and he swung round so unexpectedly that my second barrel missed him clean and he too disappeared behind the grass in rear. Just at this moment a big lioness broke on the right and dashed away across the open; before I could change rifles and get in a shot she was behind bushes 60 yards away and gone.

All this had occupied a very short space of time, and the grass patch was only burnt half way through. The first thing was to drag the body of the first lion out of danger of being singed. Then behind us, where we found No. 2 lying dead 40 yards away. No. 3 we found lying in the open, 100 yards off, alive but unable to move. He was quickly finished and dragged with some difficulty up to the others. A group of three lions for the kodak this time. True, two of them were young males, not fully grown and with manes as yet undeveloped, but they measured well over seven feet and were imposing enough. But for Abdilleh's mistake over the safety holt, the remaining lioness would probably not have escaped either.

Five lions in two days to a single gun, all fairly tracked and shot on foot at close quarters! Of course it was extraordinary luck, especially in the favorable ground I found them in and the easy shots I had. But honor to whom honor is due: I could have done nothing but for the fine tracking of my three shikaris hacked up by Abdilleh's knowledge of the game. And the Paradox deserves its mead of praise: its handiness was perfect and as to its effectiveness it need only be said that each of the five lions, if not dropped on the spot, was practically disabled by the first shot. My faith in it had been justified.

AT THE TRAPS.

Washington Tournament.—Successful in every way was the eighteenth annual tournament of the Washington State Sportsmen's Association at the Spokane Rod and Gun Club's grounds, Moran's station, April 24 and 25. Practically every district was represented by veteran trap shots and newcomers in the sport and the attendance was large on both days, so it is stated in a communication from August Wolf.

E. J. Chingren of Spokane was the high gun in the two days' ten 15 bird events with 279; Pete O'Brien of Walla Walla, Wash., second with 276 and R. T. Steinke of Spokane, third with 270. The professionals scored as follows in the same events: Lee Barkley, Seattle, 286; Tom Barclay, Spokane, 277, and Fred V. Berger, Spokane, 272.

The totals for the three high men in both professional and amateur for the foregoing events and the three trophy events included, a total of 375 shot at are:

Professionals—Lee Barkley 358, Tom Barclay 337, F. V. Berger 333.

Amateurs—O'Brien 346, Chingren 338, Steinke 338.

F. M. Troech, of Vancouver, Wash., won the Post-intelligencer gold medal, emblematic of the State championship, on the opening day, breaking 25 straight. The trophy was won in 1911 by Chingren.

O'Brien and A. J. Turner of Lewiston, Idaho, tied for the L. C. Smith cup at the first day's shooting, each breaking 24 of 25 birds. O'Brien won the shoot-off with 20 to Turner's 18. The former shot from 19 yards, while the latter was placed at 16 yards.

Chingren made the highest score in the ten 15 bird events at 16 yards, open to amateurs and professionals, with 144. Hugh McElroy was second with 138, and E. W. Cooper of Tacoma, broke 134. Among professionals, Tom Barclay was second high average with 140 and C. A. Haight of San Francisco was third with 130.

The detailed scores of the opening day follow:

| Birds | 15 | 15 | 15 | 15 | 15 | 15 | 15 | 15 | T'tl. |
|---------------|----|----|----|----|----|----|----|----|-------|
| *T. Barclay | 15 | 15 | 12 | 14 | 15 | 13 | 15 | 15 | 142 |
| Starkey | 13 | 14 | 13 | 12 | 14 | 11 | 14 | 14 | 129 |
| M. Smith | 14 | 15 | 9 | 12 | 14 | 13 | 14 | 12 | 127 |
| McElroy | 14 | 14 | 11 | 13 | 13 | 14 | 15 | 14 | 125 |
| Farmin | 13 | 14 | 11 | 13 | 14 | 15 | 14 | 11 | 131 |

| Cullison | 15 | 14 | 11 | 11 | 12 | 10 | 14 | 13 | 124 |

*Professionals.
O'Brien scored the high mark of the second day in the ten 15 bird events with 144, tying Chingren's score on the opening day. Steinke was second among the amateurs with 141, and Archie Bishop of Nelson, B. C., was third with 140. Fred V. Berger led the professionals with 143; Lee Barkley was second, 142, and C. A. Haight of San Francisco, third with 138.

The Chingren challenge medal, put in competition at the Indian shoot in Eugene, Ore., last year, Berger won the trophy from Barkley, the former holder, breaking 96 out of 100 in 80 singles and 10 double rises. The scores:

| Birds | 20 | 20 | 20 | 20 | T'tl. | Birds | 20 | 20 | 20 | T'tl. |
|------------|----|----|----|----|-------|----------|----|----|----|-------|
| L. Barkley | 18 | 19 | 16 | 18 | 81 | Owens | 20 | 20 | 16 | 156 |
| Farmin | 20 | 18 | 18 | 15 | 91 | Ware | 19 | 16 | 18 | 198 |
| T. Barclay | 20 | 18 | 20 | 14 | 86 | Cullison | 19 | 16 | 18 | 160 |
| C. Holohan | 16 | 18 | 19 | 13 | 84 | Chingren | 16 | 17 | 15 | 68 |
| Nelson | 20 | 19 | 18 | 16 | 84 | O'Brien | 16 | 16 | 16 | 111 |
| Berger | 20 | 20 | 20 | 18 | 118 | McDowell | 15 | 18 | 18 | 159 |

Dr. Fulton of Walla Walla won the Spokesman-Review medal by breaking 25 straight. Lee Barkley, P. Holohan, Treosch and Nelson tied for second, with 24.

The Spokane team composed of Ware, Chingren and McElroy won the team shoot, 25 birds to the man, with 68; O'Brien, Fulton and Dryden of Walla Walla, second, 66; Smith, Fleming and Steinke, Spokane, third, 63; Pennell, Turner and Lomax, Lewiston, Idaho, fourth, 60, and Owens, Spencer and Stacey, Wenatchee, Wash., fifth, 58.

Berger's team won the special shoot for Spanish-American war veterans, with a score of 64 out of 75 from Barclay's team, which scored 60. The scores: Berger 23, Smith 21, Stacey 20, Barclay 24, Owens 23, Stair 13.

The details of the second day's ten 15 bird events follow:

| Birds | 15 | 15 | 15 | 15 | 15 | 15 | 15 | 15 | T'tl. |
|---------|----|----|----|----|----|----|----|----|-------|
| Pennell | 13 | 9 | 13 | 11 | 9 | 14 | 10 | 9 | 110 |
| Lomox | 14 | 11 | 12 | 13 | 14 | 8 | 13 | 14 | 125 |
| Turner | 9 | 14 | 11 | 13 | 11 | 14 | 12 | 14 | 121 |

Northern Crack Shot Here.—Lee B. Barkley, of Seattle, who recently won high average at the Washington State tournament, put in an appearance on Sportsman's Row early this week. He is en route for the Los Angeles shoot next week.

Vacaville Shoot.—The Vacaville Gun Club shoot April 21 brought out five squads of shooters in the Peters trophy event, 25 blue rocks, bird handicap allowance. The best score out of 25 was 21 broken by Earl Lawrence, two scores of 23 counting handicap allowance were shot by Dr. Townsen and Lawrence. Nine 25's are counted up in the following scores:

Dr. Townsen, 8 birds, broke 20—28, Dr. L. C. Marshall 8, 17—25; Frank Costello 4, 16—20; Vic Radcliff 3, 20—23; W. C. Mitchell 10, 15—25; W. C. Frahm 8, 9—17; C. L. Pierson 8, 17—25; Earl Lawrence 7, 14—19; H. A. Bassford 3, 17J20; Dr. J. D. Vird 8, 18—26; A. Ericksson 8, 17—25; Dr. H. P. Palmer 6, 12—18; Ray Rippey 4, 13—17; H. H. C. Schielke 5, 19—24; Chas. Capin 8, 14—22; R. C. Gates 6, 13—19; W. B. Parker 8, 16—24; Thos. McLaughlin 4, 13—17; Fred Ream 2, 23—25; C. H. Veldon 5, 20—25; R. C. Gray 6, 18—J24; E. H. Ream 6, 16—22; W. Buckingham 3, 20—23; R. Schaefer 8, 7—15.

Salt Lake Shoot.—H. S. Mills was high gun at the trap shoot held at the grounds of the Salt Lake Gun Club April 28th, breaking 48 out of 50 in a high wind which made shooting difficult. Gale Moffatt won the trophy, with L. E. Riter second. Carmichael, Miller and Ames tied for third place. Scores follow:

Table with columns for names and scores. Includes names like H. W. Mills, L. E. Riter, Gale Moffatt, E. J. Morgan, J. F. Cowan, J. A. Carmichael, L. A. Cummings, E. J. Miller, Bert Acker, George Ruthrop, John Sharp, Jr., C. C. Holbrook, Dr. Irvine, R. A. Kingsley, William Fowler, eGorge Ames, Dr. McCurtain, W. Young, John Huff, Hyrum Tippets, Bert Bain, Chas. Relyea, Jr., William Sibley, W. F. Gallagher, A. W. Cowan, C. Cunningham, McCaskell, A. F. Smith, L. Dinwoodey, Hamilton, K. Williams, Bert Brown, Harry Engles.

Newman Tournament.—Over 60 shooters took part in the third annual trap shoot of the Newman Blue Rock Club, April 27 and 28. Weather conditions the opening day were very pleasant, continuing so until the next afternoon, when the wind blew great guns.

The shoot was a success from start to finish, visitors from many valley points as well as from this city were present and everybody enjoyed a good time. Charley Huber and E. R. Dixon were the club committee in direction of the shoot and everything ran smoothly. "Howdydew" Rice acted as cashier and had charge of the office. This, of course, meant something definite in easy sailing for the boys.

Dick Reed carried off the high professional honors with the top score of 357 out of 380. Henry Garrison led the amateurs with 360 out of 380. Good shooting prevailed on both days, straights were numerous.

Among the number of good scores shown below we note a total of 182, 91 per cent, shot by Billy Price. Ted Riley, shot up a clip that gave him 73 straight, the best continuous tally for the tourney.

High amateurs—First Day: H. Garrison 172, Ford 167, Riley 166, Prior 165, Sears 165. Second day: H. Garrison 188, D. C. Wood 187, Fuller 187, Sears 184, Merrill 184.

High professionals—First day: Reed 172, Willet 166, Holling 164, Hawhurst 164, Lee 156. Second day: Reed 185, Hawhurst 185, Willet 184, Holling 181, Lee 172.

Newman Blue Rock Club, Newman, Cal., April 27, 1912—

Table with columns for names and scores. Includes names like Events, Targets, Dick Reed, J. B. Lee, Higgins, E. Hoiling, F. Prior, Wood, H. Garrison, F. Bell, Giovanetti, L. Hawhurst, J. M. Johnson, Fuller, H. Stelling, Brown, Xyerson, Van Arnam, C. C. Huber, H. Stevenson, Christian, F. Stevenson, F. W. Willet, T. D. Riley, Merrill, Tille, O'Leary, W. B. Sears, Smith, Cano, Partin, M. Roberts, Jeffers, McCullough, L. Elfers, F. Hopper.

Event 9—Three-man team shoot, 25 targets per man—

Los Banos: W. B. Sears 25, Smith 24, Geo. Roberts 21—70. Modesto: Wood 23, H. Garrison 22, F. Bell 24—69.

Stevenson Colony: E. R. Dixon 18, F. Stevenson 23, H. Stevenson 22—63.

San Francisco: T. Prior 22, D. R. Riley 17, H. Stelling 18—57.

Professionals: Holling 22, Hawhurst 22, Lee 22—66.

Professionals: Reed 21, Willet 24, Higgins 21—66. Newman Blue Rock Club, Newman, Cal., Sunday, April 28, 1912—

Table with columns for names and scores. Includes names like Events, Targets, Dick Reed, J. B. Lee, E. Hoiling, Higgins, F. Prior, F. Stone, W. F. Elbert, W. V. Willet.

Event 11—Five-man teams, high amateurs vs. high professionals, 50 birds per man.

Professionals: Reed 25, 23—48; Willet 25, 24—49; Hawhurst 22, 23—45; Prior 23, 25—48; Lee 22, 22—44. Total 234.

Amateurs: Woods 21, 19—40; Garrison 25, 24—49; Davidson 23, 25—48; Merrill 22, 22—44; Smith 20, 20—40. Total 221.

A Western Trap Shot Here.—O. N. Ford, known in the trap shooting world as Bobby Ford, a champion trap shot, was visiting relatives in San Jose recently and is thinking of making his home there. Ford's former home was in Central City, Ia. He has not been shooting for the past year and a half, he claims, but tried out his eye and hand Sunday over local traps and believes that he can "come back." Down in Newman last week he shot under the name of Johnson, the "ring in" did not work, the boys got on very quickly.

Urbita Gun Club.—The club's regular Sunday shoot was well attended April 28. Everybody went away pleased.

The following scores were shot: Weber 20, 22; Willis Sr. 23, 20, 18, 24; Thomas 18, 19, 16, 22; Mitchell 18, 24, 23, 23; Willis Jr. 18, 22; McRae 21, 14; Hebbard 16, 12, Allison 19; Drew 21, 23, 22, 21; Draper 24, 24, 23, 24; Cathcart 20, 19, 22, 20; Rodden 19, 22, 23, 23; Caley 20.

The club has an Ideal Leggett trap installed and everything is now in readiness for the tournament to be held May 14 and 15, following after Los Angeles and just before San Diego. We will add \$550 and parts. We are enclosing you programs under separate cover, everybody invited and we guarantee that all the shooters will go away satisfied.

Los Angeles Gun Club.—The programs for the Los Angeles Gun Club's May Tournament are now out. Anyone wishing a copy of same will be gladly mailed one upon request to Secretary Stanton A. Bruner, 945 South Flower street, Los Angeles.

The usual fine weather of Los Angeles brought out a good field of shooters on Sunday, April 28, and straight scores were as common as the targets themselves. C. D. Hagerman made a spurt and hung up a score of 99 x 100, with other very high class scores made by Van Valkenberg, R. H. Miller, Pugh, Mallory, Mills, Persinger, Rohring, Middleton and Bungay. From the shooting of the local club members during the last week, it looks as though the visiting shooters at the tournament next week will have their hands full. The scores follow, all 25 bird events:

Table with columns for names and scores. Includes names like C D Hagerman, S R Smith, C VanValkenberg, Harry Hoyt, A W Bruner, L E Hall, E H Miller, Fred Schless, J P Bull, S C Miller, S A Bruner, D E Llewellyn, J M Trens, Wm Pugh, J Schumacher, L W Slocum, J F Mallory, M G Lane, R M Arnold, W H Wiltshire, C W Clement, Gus Knight, Fred Mills, G Persinger, C E Guet, E H Bohring, G Middleton, P E Peterson, R H Bungay, Dr Taber, Wickham, H Blumenthal, Mrs EH Bohring, F Kimble, Mrs J F Mallory.

An Open Day.—Local trap shots will not have a chance to join in any regular bluerock club shoot this afternoon or tomorrow, no club shoot being set for the two days.

The Golden Gate trap grounds as well as the Exposition City traps at the Presidio, will be at the disposal of any shooters desiring to shoot bluerocks.

California Wing Club.—The regular monthly live bird shoot of the club will be the program at the Stege grounds tomorrow.

Southern California Shoots.—Following the Los Angeles tournament, the Urbita Gun Club will hold a shoot at San Bernardino, \$500 added money. San Diego is next on the schedule with \$1000 hung up in added money. Between dates a fill-in shoot will take place at Riverside.

Trap Shooters, Attention!

The general rules governing the long run trophies, which are open to amateurs and professionals, are as follows:

An amateur, to obtain the trophy, must break at least 100 single targets, straight, a professional at least 125 straight. No scores made in "extra" or "practice" events to be counted unless the events are shown in program; only scores in the program events in registered tournaments to count, and only when Du Pont powders are used by the contestants. The runs to count must be made during one shoot. In a two or three day's tournament a contestant may carry forward from the preceding day any unfinished run he may have, and should he succeed in increasing his run to 100 or better, in case of an amateur, or 125 in case of professionals, such run will be counted.

These trophies are understood to represent recognition for long runs on single targets, and scores made in other program events, such as doubles, will not be counted as affecting the run. If, however, the shooter making the run breaks all of his double targets, they will be added to his score on singles.

In order to have scores recognized, it will be necessary for the secretary, or other officer of the club holding the tournament, or one of the Du Pont representatives, to attest same.

The trophy is made of solid gold, having as its design in bas relief a trap shooter in the act of firing; on the reverse will be engraved the name and address of the winner. Attached to the medal is a gold "hanger" representing a clay target, and engraved on it will be the score, date and place where made. For each additional run of 100, in the case of amateurs, and 125 for professionals, an additional bar will be engraved and sent to the winner.

Selby Loads Win Again.

The Newman Gun Club held forth at Newman, California, April 27 and 28, and as usual Selby loads were "High."

Mr. Henry Garrison, an amateur, shooting Selby loads, was general high over all amateurs and professionals with a total of 432 out of 455. Mr. Fred Willet in the professional ranks broke 424 out of 455 —also with Selby loads. In the 50 bird race professionals against amateurs, Mr. Henry Garrison added to his laurels and the merits of Selby loads by making the fine score of 49 breaks out of 50 targets shot at, being high amateur for his squad. Mr. Fred Willet using Selby loads, in this event also broke 49 x 50, making the high "pro" score.

Down at the Easton Gun Club's grounds on April 21 Mr. Fred Willet with Selby loads, ran 65 straight, finishing high gun with 116 out of 125. In shooting at 12 pairs of doubles with Selby loads he was also "high" with 22 breaks. These victories speak for the high shooting qualities of Selby loads—the standard shotgun ammunition for Pacific Coast shooters.

PRESERVING EDIBLE EGGS.

Now that eggs are at their cheapest, it is time to consider how they may be preserved till prices are higher. The method most highly commended is that known as "preserving in water glass." Sodium silicate, commonly known as water glass, can be purchased from any druggist at from 40 to 60 cents a gallon. One gallon should suffice for 50 dozen eggs.

Mix one part of the sodium silicate with 10 or 12 parts of water, making the solution thin enough so that the eggs will sink to the bottom. Use only clean, boiled water, but be sure that it is cool before mixing it with the water glass. Put the solution in a jar or large wooden keg, and put

in the eggs day by day as soon as they are taken from the nests.

The liquid must always cover the eggs so that no part of the shell shall be exposed to the air. Stale eggs should never be packed in this manner. They will not keep and they may spoil the fresh eggs which are packed with them. Eggs should not be washed before packing. Washing removes the mucilaginous coating which makes their preservation possible. The packed eggs should be kept cool—in a cellar, if possible.

Eggs preserved in this way remain fresh enough for table use for several months. They are not discolored and the yolk retains its natural consistency.

The State Agricultural Society

OFFERS THE FOLLOWING

Guaranteed Stakes for Harness Horses

TO BE GIVEN AT THE

California State Fair, 1912

September 14 to 21.

Entries to Stakes Nos. 1 to 5 and 7 to 11, close July 1, '12.

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 2, 3, 5, 6, 7, 8, 9, 11, 12, 15, 16, 17 and 18, mile heats, 3 in 5; no race longer than 5 heats. Races Nos. 4, 10, 13 and 14, mile heats, 2 in 3. In the first three heats of Races Nos. 2, 3, 8 and 9, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won. Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards. A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |
|-------------------|-----------|------------|------------|------------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 |

J. DAVID WEST

1265 and 1267 Golden Gate Ave., near Filmore,

Phone Park 1253. SAN FRANCISCO, CAL.

A pen of a hundred good laying hens will produce enough eggs to pay for the sugar and coffee of an ordinary family, besides supplying the home table with fresh eggs.

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of Tanglefoot Fly Paper. There is fully one-third more compound per sheet on Tanglefoot than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for Tanglefoot.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans. Will protect your trees from all climbing insects.

Santa Clara County Fair Ass'n SAN JOSE, CAL.

W. J. Kenney, Agent, 531 Valencia St., San Francisco.

BARGAINS FOR SALE.

ON ACCOUNT OF REMOVAL I MUST SELL THE FOLLOWING GRANDLY BRED TROTTERS AND PACERS WITHIN THE NEXT SIXTY DAYS:

DR. W.M. S. JENNINGS, ch. g., 16 hands, 8 years old; a pacer; no record; with less than 90 days' work paced a mile in 2:11, a half in 1:01 1/2, last quarter in 30 seconds, and last eighth in 14 seconds, and last sound and is free-legged. Sired by F. S. Turner; dam Caritone by Antone (son of Dexter Prince), dam Biscari (dam of 9) by Dictator 2:17; second dam Bicara (dam of 7) by Harold, etc. One of the fastest and best "prospects" in California.

CALIFORNIA DILLON, ch. s.; pacer; record 2:18 as a three-year-old; trial 2:12 1/2, half in 1:02 1/4, quarter in 30 1/2 seconds. Sired by the great Sidney Dillon, dam Caritone by Antone; second dam Biscari (dam of 9) by Director 2:17, etc. Free-legged, sound, kind, stylish, royally bred, a sure foal-getter, and one of his colts, James W. Stewart, paced in 2:22 as a two-year-old in Salt Lake City last year.

MAJOR DILLON, ch. s.; 7 years old; 16 hands; weighs 1200 pounds. Has no record; been a mile in 2:16, half in 1:06 and a quarter in 32 seconds. Sired by Sidney Dillon; dam Maud Fowler 2:21 3/4 (dam of Sonoma Girl 2:04 1/4, etc.) by Anteeo 2:16 1/2. One of the choicest bred, soundest, purest-gaited (no hoppers) and most natural race-horses in California. He is a sure foal-getter and all of his progeny are large, stylish and fast.

YEARLING STALLION, bay, by Guy Dillon 2:23 1/2 (by Sidney Dillon, out of By Guy, dam of 3) by Guy Wilkes 2:15 3/4, out of Caritone Co. by McKinney 2:11 1/4; second dam Adioo (dam of 2) by Guy Wilkes 2:15 1/4; third dam By By (dam of 2, 3 sires of 10 and 2 dams of 5) by Nutwood; fourth dam Rapidan (dam of 3, 2 sires of 5 and 5 dams of 7) by Dictator; fifth dam Madam Headley (dam of 1, 1 sire of 4 and 2 dams of 5) by Edwin Forrest 5:51, the rest thoroughbred. This is a large, handsome, heavy-boned, trotting colt. His breeding can hardly be improved. He will undoubtedly be a very fast trotter, and who will have his equal as a sire when his days of racing end? Price \$200.

THREE FULL SISTERS, all trotters, two blacks and a brown; aged respectively 2, 3 and 4 years. Sired by Guy Dillon 2:23 1/2, out of Caritone by Antone, etc. These are halter broken, handsome, sound and straight, and bred in the purple. Prices: 2-year-old, \$175; 3-year-old, \$200; 4-year-old, \$225.

THREE-YEAR-OLD, by California Dillon, out of Caratina by McKinney 2:11 1/4; second dam By By (great broodmare) sister to Lockbeat 2:08 1/2 by Nutwood 2:18 1/4, etc. This is a pure-gaited trotter; one of the handsomest, best bred and best formed fillies of her age in California. Price \$250.

A HALF-SISTER TO RUTH DILLON 2:06 1/4. A four-year-old trotter by Guy Dillon 2:23 1/2, out of Russic Russell by L. W. Russell (a sire); second dam Oakley Russell (great broodmare) by Happy Russell 4:4, etc. This is a very fine-looking bay filly; a natural trotter; knows no other gait, and without doubt will be as fast as her half-sister. One of the classiest and most stylish lookers one could wish to see. Her bloodlines are of the very best. She is like the balance listed herein—absolutely sound Price \$250.

For further particulars, address FRANK S. TURNER, R. F. D. 1a, Santa Rosa, Cal.

Wanted to Buy

A green pacer that can step in 2:10 or better; must be a good actor; hobbles no objection. If you have a good one I will pay his full value.

R. ALLAN,

Breeder and Sportsman, San Francisco

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Giltton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3754); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

The Los Angeles Futurity Stake No. 1

FOR FOALS OF 1912

To Trot and Pace at Two and Three Years Old.

ONLY \$2 TO NOMINATE MARES. Entries close May 15, '12

TO BE GIVEN BY THE

Los Angeles Harness Horse Association

\$6,000 for Trotting Foals.

\$3,000 for Pacing Foals.

\$600 to Nominators of Dams of Winners.

\$400 to Owners of Stallions

MONEY DIVIDED AS FOLLOWS:

\$4000 for Three-Year-Old Trotters.

200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Trot.

\$2000 for Two-Year-Old Trotters.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Trot.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2000 for Three-Year-Old Pacers.

200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Pace.

\$1000 for Two-Year-Old Pacers.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace when mare was bred.

Four Special Cash Prizes for Stallion Owners.

Given to Owners of Stallions standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize, \$80.

2nd Prize, \$60.

3rd Prize, \$40.

4th Prize, \$20.

The Above Prizes Will Be Paid on June 15, 1912.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare on May 15, 1912, when name, color and description of mare and stallion bred to must be given; \$5 September 1, 1912 (with this payment color and sex of foal must be given); \$10 January 1, 1913; \$10 May 1, 1913; \$15 January 1, 1914; \$15 January 1, 1915.

STARTING PAYMENTS.—\$25 to start in the two-year-old pacing division; \$50 to start in the two-year-old trotting division; \$35 to start in the three-year-old pacing division; \$75 to start in the three-year-old trotting division. All starting payments to be made ten days before the date of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a trotter or pacer.

Colts that start at two years old are not barred from starting again in the three-year-old divisions.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The race for three-year-olds will consist of three heats one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments. This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in this entry, rules of National Trotting Association to govern.

For entry blanks and further particulars, address

SHIRLEY CHRISTY, Secretary,
Phoenix, Arizona.

CONDITIONS.

Rules of the National Trotting Association to govern, except as otherwise provided. Any class declared closed with at least four starters, will go. Money divided, 50, 25, 15 and 10 per cent.

Entrance fee 5 per cent and an additional 5 per cent for money winners, except in classes Nos. 5, 8, 9 and 12.

In class No. 5 the 2:08 pace entrance fee from horses with records of 2:17½ to 2:12, 5 per cent. From horses with records of 2:12½ to 2:17, 4 per cent. To horses with no record or slower than 2:17, 3 per cent.

In class No. 8, 2:05 pace, entrance fee from horses with records of 2:04½ to 2:08, 5 per cent. From records of 2:08½ to 2:12, 4 per cent; from horses with no record or slower than 2:12½, 3 per cent.

In class No. 12, 2:10 trot, entrance fee from horses with record of 2:09½ to 2:12, 5 per cent. From horses with records of 2:12½ to 2:16, 4 per cent. From horses with no record or slower than 2:16½, 3 per cent.

In class No. 9, 2:08 trot, entrance fee from horses with records of 2:07½ to 2:10, 5 per cent. From horses with records of 2:10½ to 2:12, 4 per cent. From horses with no record or slower than 2:12½, 3 per cent.

An additional fee of 5 per cent will be deducted from money winners on the above classes.

All races mile heats, 3 in 5, except in classes Nos. 3, 7, 8, 9 and 13, which races will be for three heats. One-third of the purse being divided at the end of

Members of any recognized driving association may participate.

each heat, 50, 25, 15 and 10 per cent, and class No. 4, mile heats, 2 in 3. A distanced horse in these races shall be entitled to money already won. Right reserved to declare off any race that does not fill satisfactorily, or to change order of program, to call two starters a walkover, who may contest for the entrance money paid in, payable 70 per cent to the first horse and 30 per cent to the second horse.

Owners may enter two or more horses from one stable for the same race by the payment of 1 per cent additional for that privilege, due when entry is made, but only one horse of the two can be started, except when proper transfer is made, according to rule and full entry fee on each entry.

In case class in which horse is entered does not fill, entry will be transferred to another class to which horse is eligible, subject to the approval of the owner.

Horses entered prior to September 1st can be declared out on that date, by written notice to the Secretary and an actual payment of 2½ per cent.

Any race not finished on the last day of the meeting may be declared ended and the money divided according to the summary. Entries close May 15th, 1912, except in class Nos. 7, 10, 11 and 13, the entries in which purses will close September 1st, 1912.

KEEP THEM WORKING

Kendall's Spavin Cure is the old reliable, safe remedy for all cases of spavin, splint, cur, ringbone, hony growth and lameness from other causes. It keeps the horses working—not loading. What it has done for others it will do for you. Keep a bottle of Kendall's Spavin Cure handy so you can use it quickly when the need arises. A one dollar bottle may save a horse for you. It's worth while to be ready. Ask your druggist the next time you are in town. Tear this advertisement out to remind you. Sold by druggists everywhere. 10¢ a bottle, 6 for \$5.00. Keep it in the house for family use, as well as in the stable. Get a copy of "A Treatise on the Horse" at your druggist or write to

DR. B. J. KENDALL COMPANY,
Enosburg Falls, Vt.

Breed to the Sire of Futurity Winners!

Demonio 28016

Record 2:11 1/2.

Bay stallion; 15 1/2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barcana (dam of Bayard Wilkes 2:11 1/2, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Blandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03 1/4, Denervo 2:06 1/4, Nordwell 2:08 3/4, Memonia 2:09 1/4, Demonio Wilkes 2:09 3/4, Ben Rush (3) 2:10 3/4, Grace R. 2:10 3/4, Miss Winn 2:12 1/4, Normono 2:14 1/4, and is a full brother to the sires, Diablo 2:09 1/4, sire of 50, Arner 2:17 1/4, sire of 2, and Don Derby 2:04 1/2, sire of 1.

Will make the season of 1912 at SUISSON STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address

RUSH & HAILE, Suisson Stock Farm, Suisson, Cal.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/2. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam; Daphne McKinney (also dam of Frank N. 2:07 1/4, the only one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscovita (dam of Bon Guy, 3-y.-o., 2:11 1/4, Yolande 2:14 1/4 and Tina 2:20 3/4) by Guy Wilkes 2:15 1/4; third dam, Moscova 2:28 1/2 (dam of Mamie R., 3-y.-o., 2:15 1/4, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is

Season of 1912 at the RACE TRACK, SAN JOSE, CAL.

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address JOS. TWHIG, Manager, Race Track, San Jose, Cal.

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59 1/4.

Dam Effie Logan (dam of Sir Albert S. 2:03 3/4; Jim Logan 2:05 1/4, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 1:25 1/2 (sire of Shecam 2:12 1/2 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08 1/4, etc.); 3rd dam Grace (dam of Daedalion 2:08 1/4, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome bay horse, is 3 years old, stands 15 1/4 hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at DAVIS, CAL.

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address J. E. MONTGOMERY, Owner. CAREY MONTGOMERY, Davis, Cal.

Get the Blood That Produces Champions!

BLACK HALL 48645

Brother in blood to The Harvester 2:02

Sired by Ozono, trial (3) 2:17 1/4, sire of Norvalon (4) 2:22 1/4 by Moko 24457 (sire of Fereno 2:05 1/4, Brenda Yorke 2:04 1/4, Native Belle (3) 2:06 1/4, and the dam of The Harvester 2:01. First dam Maggie Yeazer (dam of Walnut Hall 2:08 1/4, sire of The Harvester 2:01, etc.) by Red Wilkes 1749; second dam Docia Payne (great broodmare) by Almont 33.

Black Hall is a very handsome black horse, standing 15 1/2 hands high and weighs 1100 pounds. With his breeding, individuality, conformation, etc., he is bound to make a great sire. TERMS: \$50 for the season; usual return privilege. California Stallion License. Pure bred.

ATHADON 20990 Rec. (1) 2:27

Sire of The Donna 2:07 1/4, Athasham 2:09 1/4, Donasham 2:08 1/4, and 15 others

Sired by Matadon 9392, sire of Athadon (1) 2:27, etc. First dam Athalie (dam of 7) by Harkaway 11808; second dam, Mag by Alcalde 103, etc.

Athadon (1) 2:27, for many years the holder of the yearling trotting record, is a very handsome bay horse, standing 16 hands and weighs 1400 pounds. He has proved his worth as a sire, not only of good game race horses, but of the class of carriage horses that bring the high dollar.

TERMS: \$25. Usual return privilege. Stallion License No. 123. Pure bred.

STANFORD MCKINNEY 45173

Sire of Kinneysam (2) 2:18 1/2, winner 2-y.-o. pacing division Breeders' Futurity

Sired by McKinney 2:11 1/4 (sire of 23 in 2:10 list).

First dam Palavena (2) 2:19 1/2, also dam of Mendovena 2:19 1/2 and Menlo 2:29 1/4, sire of Blanche R. 2:06 1/4, by Palo Alto, rec. 2:08 3/4, Reg. No. 5354, he by Electioneer 125; second dam Astoria (dam of Palavena (2) 2:19 1/2 by General Benton 1755; third dam by Kentucky Prince, etc.

Stanford McKinney is a beautiful black horse with star in forehead; stands 15 1/2 hands and weighs 1050 pounds. This horse is one of the best Wilkes-Electioneer stallions in the world and it will pay any breeder to consider his blood lines well before breeding elsewhere. TERMS: \$25 for the season; usual return privilege. California Stallion License No. 126. Pure bred.

These horses will make the Season of 1912 at FRESNO, CAL., at Geo. L. Warlow's ranch. Good pasturage and best of care taken of mares for \$3.00 per month, but no responsibility assumed for accidents or escapes. For tabulated pedigrees and further particulars, address GEO. L. WARLOW, Fresno, Cal.

NOGI 2:10 1/2—Reg. No. 57383

Winner of Pacific Breeders' Futurity, Occident and Stanford Stakes, and neverbeaten as a 3 year old.

Sired by Athalo 2:24 1/4. First dam Cora Wickersham (dam of Athasham 2:09 1/4, Donasham 2:09 1/4, Nogi 2:10 1/2, Mattawan (3) 2:17 1/4, Kinneysam (2) 2:18 1/2) by Junio; second dam by Whippleton 1883; third dam by Gladiator 3336.

Nogi 2:10 1/2 is a very handsome bay stallion with black points; 7 years old; stands 16 hands and weighs 1150 pounds; and although he has only been bred to a very few mares he has proven to be a sure foal-getter, and all his colts have size, good looks and plenty of trot. No one can make a mistake in breeding to this horse.

(Registered under California Stallion Law as a Grade. Certificate No. 25.)

(Registered under California Stallion Law as Pure Bred. Certificate No. 590.)

Season of 1912 at barn of DR. T. A. DANIELSON, Madera, Cal.

TERMS: \$25 for the season, cash or approved note, payable at time of service. Usual return privilege or money refunded at owner's option. For further particulars address J. E. VINCENT (Mgr.), Madera, Cal. GEO. L. WARLOW (Owner), Fresno, Cal.

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09 1/4, Jay Bird's greatest son; dam Exine 2:18 1/4 (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15 1/4; second dam Euxine (dam of 6) by Axtell 2:12; third dam Russia 2:23 (great broodmare) by Harold 413; fourth dam Miss Russell (dam of Maud S. 2:08 1/4 and 6 others), etc., etc. Best Policy is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

FEE: \$50 for the Season. Usual return privilege.

LIFE POLICY

4 years old; handsome bay stallion, with black points; stands 16 hands; weighs 1190 pounds. Sired by Best Policy 42378; first dam by Boodle 2:12 1/2; second dam by Silver Bow 2:16; third dam by Antevolo 2:19; fourth dam by Nutwood 2:18 1/4; fifth dam by Williamson's Belmont. This horse was worked a short time as a two-year-old and trotted a half in 1:10, eighths in 16 seconds.

FEE: \$25 for the Season. Usual return privilege. Money due July 1st.

Season of 1912 at my feed stable, corner of Bridge and Center Streets, VISALIA, CAL.

After the season is over these two horses will be taken to the races this year. Good pasturage at \$2.50 per month, and the best of care taken of mares, but no responsibility assumed for accidents or escapes. Address

R. O. NEWMAN, Box 575, Visalia, Cal.

McKerron 2:04 1/2 and half-brother to Louise Carter, dam of Wilbur Lou (1) 2:19 1/2 and sire of Highfly 2:04 1/4, Alone 2:09 1/4, Joe Gans 2:19 1/4, Truheart 2:19 1/2, Just It 2:19 1/2, and others, etc., and dam of San Francisco 2:07 1/4, Mona Wilkes 2:03 1/4, etc.; 2d dam, Fanny Menlo (dam of Claudius 2:13 1/4) by Menlo 2:21, by Nutwood 2:18 1/4, greatest brood mare sire; 3rd dam, Nellie Antee by Antee 2:16 1/4; 4th dam, Fanny Patchen, by Geo. M. Patchen Jr. 2:27. Nearest McKinney is one of the handsomest McKinneys standing for public service. Color beautiful brown, 16 hands high and weighs 1260 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14 1/4 and in 1911 got a record of 2:13 1/4, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address T. W. BARTSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by Bon Voyage 2:08; dam Loma B. by Stam B. 2:11 1/4; second dam Italla (great broodmare) by Sidney 2:19 1/4; third dam Dot 2:29 by Prompter, sire of dam of Gratt 2:02 1/4. Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free.

Will make the season of 1912 at EASTERBY RANCH, 3 miles east of FRESNO, CAL. TERMS: \$50 to insure. Address A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.

Athasham

Race Rec. 2:09 1/4
Reg. No. 45026.

A Game Race
Horse in the Stud

Bay stallion; stands 15 1/2 hands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07 1/4, Athasham 2:09 1/4, Donasham 2:09 1/4, Sue 2:12, Listerine 2:13 1/4, Mattawan (3) 2:17 1/4, and 8 others in 2:30); dam the great broodmare Cora Wickersham (also dam of Nogi (3) 2:17 1/4, (4) 2:10 1/4, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasham 2:09 1/4 and Kinneysam (2) 2:18 1/4), by Junio 2:22 1/4 (sire of dams of Geo. G. 2:05 1/4, etc.). Athasham has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06 1/4 in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 16th, at Orchard Farm and Race Track, Fresno, Cal., for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place.

D. L. BACHANT, R. R. 1, Fresno, Cal.

The Jay Bird-Baron Wilkes Stallion

ALCONDA JAY 46831

California License 175

Sired by Jay Bird 5060, sire of 8 in 2:10 and 130 others in 2:30 or better; first dam Alma Wilkes (dam of 2) by Baron Wilkes 2:18; second dam Almata 2:31 by Almont 33; third dam Alma Mattawan (dam of 8) by Imp. Australian, etc. Alconda Jay sires size, style and good looks.

His colts are fast, natural trotters. Alconda Jay, dark brown stallion, stands 16 1/2 and weighs 1150 pounds. He was bred at Maplehurst Stock Farm, Paris, Ky.; foaled in 1906.

Will make the Season of 1912 at

THE SALINAS FAIR GROUNDS, SALINAS, CAL.

TERMS: \$40 the Season. Usual return privilege. Pasture, \$4 per month; every care taken of mares, but no responsibility assumed for accidents or escapes. H. H. HELMAN, Salinas, Cal.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/4.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/2, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

Agents and Correspondents wanted everywhere for the

Breeder and Sportsman

TWO GREAT SIRES.

The Bondsman

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 bands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed. License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16¹/₂, sire of Copa de Oro 1:59, John A. McKerron 2:04³/₄, etc., and 2 dams of San Francisco 2:07³/₄, Mona Wilkes 2:03³/₄, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17³/₄ and the 3-year-old filly Complete second to the Occident Stake winner El Volante in 2:13³/₄, and timed separately in 2:14³/₄, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24³/₄ pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes.

For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

TOM SMITH 2:13

Sire of Futurity Stake Winners. Reg. No. 47700

TOM SMITH is one of the handsomest sons of McKinney on the Pacific Coast. He has size, style, speed, is a sure foal getter, and has every qualification to make him one of the greatest of the McKinney tribe. He is the sire of Katalina (2) 2:22³/₄, (3) 2:15³/₄, (4) 2:11³/₄, Ella Mac (3) 2:14³/₄, Valjejo Boy 2:15, Eddie G. 2:30. Every one of his colts that has been trained has shown standard speed. Sire, McKinney 2:11³/₄; dam, the great brood mare, Daisy S. (dam of 6 with records of 2:09³/₄ to 2:28³/₄) by McDonald Chief 3563; second dam, Fanny Rose (dam of 2 in 2:20) by Ethan Allen Jr. 2903.

Will make the Season of 1912 at the

DRIVING PARK, SAN JOSE, CAL.

Fee, \$50. Usual return privilege.

The best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Excellent pasturage. Mares shipped will be met at the train.

For further particulars, address P. F. DAVEY, Driving Park, San Jose, Cal.

The Imp. Shire Stallions RAMPTON PRESIDENT

Reg. No. 27692. Foaled 1908.

Sired by Royal President II 20864; dam Rampton Gem by Somersbam Hathaton 15359. Light bay, strong built, high-class individual.

SERVICE FEE: \$30, with return privilege.

ANWICK ARTHUR Foaled 1908

Will make the Season at

Black Hawk Ranch, Burlingame,

San Mateo Co., Cal.

Apply to or address

A. W. WARD, Supt., Burlingame, Cal.

BEAUTY, BREEDING AND SPEED.

Prince Ansel 29220

2-y.-o. Race Record 2:20³/₄.

By Dexter Prince 11363 (sire of Lisonjero 2:08³/₄, Eleata 2:08³/₄, James L. 2:09³/₄, Edith 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 10 and 1 dam of 1) by Ansel 2:20 (sire of 14, 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29, 1911, 2:09³/₄; Wesos 2:12³/₄; Adansel (3) 2:14³/₄; Dorothy Ansel (2) 2:20, 1910; Laura Rodgers (2) 2:18³/₄; Frances C. (3) 2:24³/₄, Mat. 2:19; Anjella 2:27³/₄, tr. 2:16³/₄; Bonnie Princess 2:25³/₄; Princess Mamie 2:27³/₄, tr. 2:18³/₄; Prince Gay, tr. 2:12³/₄; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevola, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18³/₄; Oddmark (2), tr. 2:33; Georgie K. (2), tr. 2:30.

PRINCE ANSEL is a handsome bay stallion, stands 15.3 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09³/₄. Adansel, his three-year-old son, lowered his record to 2:14³/₄ and Wesos started three times and won twice, lowering his record to 2:12³/₄.

Season of 1911 at the Race Track, WOODLAND, CAL.

Terms: \$50 to lease, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address A. B. KENNEY, Manager Woodland Stock Farm, Woodland, Cal.

Aerolite 2:07 1/2 2-year-old Record 2:15 1/2 3-year-old Record 2:11 1/4

Sire of Ruby Light (3) 2:11¹/₂, Aeroletta (2) 2:21, and Leonid, second to her in 2:21. By Searchlight 2:03³/₄; dam, Trix by Nutwood Wilkes 2:16³/₄, sire of John A. McKerron 2:04³/₄, Copa de Oro 1:59, Happy Dentist 2:05³/₄, Nutmoor 2:06³/₄, Prof. Heald 2:09³/₄, Tidal Wave 2:06³/₄, Miss Idaho 2:09³/₄, etc.

Dam Trix, dam of Mona Wilkes 2:03³/₄ and 3 others all by different sires that have beaten 2:15; second dam Trixy by Director 2:17; third dam Mischief (dam of Brilliant, sire of Brilliantine 2:17³/₄) by Young Tuckahoe 2:28³/₄, son of Flax-tail; fourth dam Lide by Flaxtail; fifth dam by Peoria Blue Bull; sixth dam Fanny Fern by Irwin's Tuckahoe, and seventh dam by Leffler's Consul (Tbor.).

Will make a short Season at PLEASANTON, CAL.

FEE: \$50 for the Season.

For further particulars apply to

C. L. GIFFORD, Owner.

Sutherland & Chadbourne,

Pleasanton, Cal.

THE STANDARD TROTTING STALLION

AIRLIE DEMONIO 51640

Stands about 16 bands, handsome, sound, without hlemish, stylish, fine individual in every respect. Sired by Demonio 2:11³/₄ (sire of Mono Wilkes 2:03³/₄, Denervo 2:06³/₄, Nordwell 2:08³/₄, Memonio 2:09³/₄, Demonio Wilkes 2:09³/₄, Ben Rub (3) 2:10³/₄, etc., etc.), dam Potrero Girl by Prince Airlie 23045; second dam Moscova 2:28³/₄ (dam of Mamie R. (3) 2:15³/₄, Oro Belmont 2:15³/₄, La Moscova, dam of Frank N. 2:07³/₄, Bon Guy (3) 2:11³/₄, etc.), by Belmont 64; next dam Mosa (dam of 5 in the list), by Woodford Mambrino 345; next dam Hermosa (great brood mare), by Edwin Forrest.

Will make the season of 1912 at

CITY STABLES, WOODLAND, CAL.

FEE, \$30 TO INSURE. Usual return privilege. Good pasturage \$2.50 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address CHARLES JOHNSON, Woodland, Cal. Phone 40.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11³/₄, out of Helena 2:11³/₄ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16³/₄ (sire of Copa de Oro 1:59, John A. McKerron 2:04³/₄, Happy Dentist 2:05³/₄, etc.); second dam Novelist 2:27 by Norval 2:14³/₄; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

Resident Agent: A. W. du Bray, P. O. Box 102, San Francisco

Box 1, University Station, Los Angeles, Cal.

BREED TO THE BEST BRED TROTTING STALLIONS!

Palo King 2:28 1/2 --- Reg. No. 44910.

Sire of Little Lucille (3) 2:09, the greatest pacer of her age on this Coast. Sired by Marengo King 2:29 1/2 (son of McKinney 2:11 1/2 and By By by Nutwood 2:18 1/2); dam Palo Belle 2:24 1/2 by Palo Alto 2:08 1/2; second dam Belle Isle (great brood mare) by Piedmont 2:17 1/2; third dam Ida Belle (great brood mare) by Hambletonian 10; fourth dam Godfrey Star by American Star 14. Palo King is a beautiful bay, stands 16 hands, is a pure-gaited trotter, and all his progeny are intelligent, have style, finish and extreme speed. TERMS \$25 for the season.

Iran Alto 2:12 1/4 --- Reg. No. 24586.

Sired by Palo Alto 2:08 1/2; dam Elaine 2:20 (dam of 4 trotters, 1 sire of 15, 2 dams of 9) by Messenger Duroc; second dam Green Mountain Maid (dam of Electioneer and 9 others in 2:30) by Harry Clay 45, etc. Iran Alto was one of our gamest trotters. He has 15 in 2:30, 3 dams of 3 in 2:30. TERMS \$15 for the season.

Alto Express --- Reg. No. 57364

Sired by Iran Alto 2:12 1/4; dam Beautiful Bird by Nutwood Wilkes 2:16 1/2; second dam Expressive (3) 2:12 1/2 (dam of Atlantic Express (3) 2:08 1/2, Esther Belle 2:08 1/2, and the dam of Eva Bellini, timed as a two-year-old in 2:11 1/2, as a three-year-old beat 2:10 in her races) the greatest racing daughter of Electioneer. Alto Express is a perfectly made trotter and will undoubtedly be a sire. TERMS \$20 for the season.

For further particulars, address H. S. HOGOBOOM, Woodland, California.

Prince McKinney (2) 2:29 1/4 Reg. No. 51803

Winner of 2-y.-o. Trotting Division Pacific Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by McKinney 2:11 1/2, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lilly Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17 1/2, that sired Sidney, grandsire of the world's champion trotter, Lou Dillon 1:58 1/2.

Prince McKinney is a handsome dark bay horse, standing 16 hands and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St. SAN FRANCISCO, CAL.

LOUISIANA STATE TOURNAMENT

New Orleans, April 16-17, won by H. D. Freeman, with

Peters

“Steel Where Steel Belongs”
Factory Loaded Shells. . . .

On all targets shot at, Mr. Freeman was also high over all Professionals and Amateurs—583 ex 600

These were “High Gun” Shells—the medium-priced loads made by PETERS, that are better than the highest priced goods of other makes.

IF YOU WANT THE FINEST SHOTGUN AMMUNITION EVER PRODUCED, USE “STEEL WHERE STEEL BELONGS.”

THE PETERS CARTRIDGE CO., Cincinnati, O.

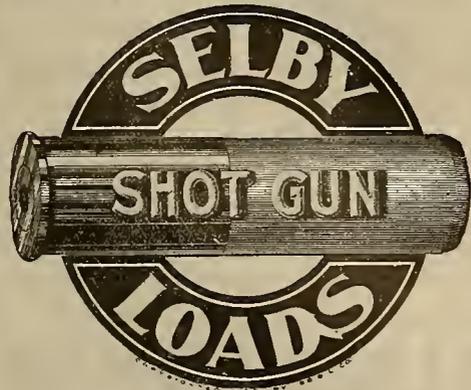

Pacific Coast Branch: 608-10-12 Howard St., San Francisco, Cal.

WINCHESTER

SMOKELESS AND BLACK POWDER FACTORY LOADED SHELLS

THE RED W BRAND

“Leader” and “Repeater” smokeless and “New Rival” and “Nublack” black powder shells, contained in boxes with a big red W on the end, are made entirely in the Winchester factory, including the loading. The complete equipment and vast experience of the Winchester Co. are utilized in every step and process of their production. Factory loaded shells have always proven the most satisfactory, as their method of manufacture insures their being uniform in size, loading and shooting. Machines are used which perform each operation with mathematical exactness. Winchester factory loaded shells can be procured in all the standard loads.

MATINEE racing has started in California and greater interest is being taken in it than ever. The joy of owning and driving a fast trotter and pacer can only be appreciated by those who have tried it. The friendly rivalry of those who think they have the best horses and are better reinmen than their associate members serves to bring to the surface that spirit of competition which is innate in all who have rich, warm blood in their veins. There was a time not many years ago when all owners considered it was absolutely necessary for them to give their horses to professional trainers. The secrets of balancing, booting and driving they believed never could be solved by them, so they contented themselves by paying high prices for colts, fillies and aged horses and were satisfied if they turned out well in the hands of some good trainer. But times have changed. The incorporation of amateur driving clubs and the building of speedways in all our large cities where automobiles and commercial vehicles were never allowed to be used, made driving a pleasure. So every owner who can "handle the ribbons" takes delight as well as healthful exercise in "working out" their favorite horses. They carry stop watches, study the shoeing problem, and never think,—as the old road drivers used to,—of stopping at a half-way roadhouse and indulging in liquid refreshments while their tired and overheated horses remain tied beneath the shed until it was time to get home, which might be either at dusk or at midnight. This was the conventional way of enjoyment when good roads were few and had their quota of attractive roadhouses.

Those who take an active part in our matinee races are generally men of means who find an enjoyment in watching the progress of the trotters and pacers they are handling. They attend race meetings and buy the best horses that appear each year and use them for matinee purposes; they keep alive the interest in the game, and especially since betting is abolished, so that incentives to wager on the results of the heats or the races are destroyed. It is a pleasure, therefore, to note that the spread of amateur racing is becoming limitless throughout the United States and that many colts and fillies which graduated from these amateur meetings have proven to be money winners on the Grand and other circuits. The men who give their time and spend their money to encourage amateur sports of any kind, and more especially trotting and pacing races, should receive every encouragement.

THE Los Angeles Harness Horse Association with one effort steps "into the limelight" this year by advertising the largest Futurity stake ever offered by an organization with similar claims on this Coast. The sum of \$10,000 is guaranteed by it for foals of 1912, to trot and pace as two and three-year-olds,

and it will only cost the insignificant sum of two dollars to nominate the mares. Out of this \$10,000 the sum of \$6,000 is to be divided among the winners of trotting events, \$3,000 for the pacers, \$600 to nominators of dams of winners, and \$400 to owners of stallions. There are many foals to make their appearance this year on the Pacific Coast that are "bred in the purple," foals whose sires and dams are celebrated not only for their rich blood inheritance but for their powers of transmitting speed and race-horse qualities to their produce. The owners of these did not breed them with a view of waiting until they were four or five years old before racing them, neither did they breed them thinking there would be very few opportunities for them to win big purses before they attained that age. These men and women know and realize the value of colt stakes, and every one endowed with foresight and business acumen can see at a glance the many advantages gained by having such foals heavily engaged in stakes like this Los Angeles Futurity Stake No. 1. The very fact that the colt's or filly's name appears in that list of eligibles adds a lustre to it and an all absorbing interest in the growth and progress of this colt or filly. If circumstances arise—as they sometimes do—when it becomes absolutely necessary to sell the young-stern, the fact that it has a possible show to win a large sum of money as a two or three-year-old enhances its value, and the cost of getting this increased price is so little that really it is incomprehensible why owners neglect such an opportunity. The terms and conditions are remarkably liberal, and by reference to the advertisement in our business columns it will be seen that entries which only cost two dollars in this stake will close next Wednesday, May 15th. If owners have not a blank, send in the name, color and description of stallion and mare bred, and their address with two dollars enclosed to Secretary J. Delorey, 305 1/2 Spring street, Los Angeles. But be sure the letter is mailed on or before May 15th. This association, for its liberality to the light harness horse industry, deserves to be encouraged, and the very best and most agreeable way to show this is to send in the names of all mares bred to stallions on this Coast or elsewhere this year. This stake is open to the world!

PLEASANTON will be on the map as the starting point for the Pacific Coast Circuit this year. Mr. R. J. MacKenzie, the recent purchaser of this beautiful course, has consented to have a four days' meeting there commencing July 24th and has announced in our business columns that \$11,000 will be divided among the winners of the trotting and pacing races. Entries to these will close June 15th. As this meeting ends just sixteen days before the Vancouver meeting begins, and as trains will start directly from there to the latter place, horses that are being trained in other parts of California can be sent to Pleasanton, where they will find plenty of stable accommodations and the finest track in the country to receive their finishing touches. The climate is unsurpassed, and Mr. Chas. De Ryder and all connected with this course, will do everything in their power to make visitors welcome. The proximity of this track to San Francisco, and the fact that two railroads now connect these places, insures a large attendance every day of the meeting. The promptitude with which the proprietor of this track has evinced his desire to aid in every way possible the trotting horse industry of this Coast is most commendable, and his efforts should be sustained and encouraged by every owner of a trotter and pacer in training. Remember, the entries to this meeting will close June 15th. On May 15th all of Mr. MacKenzie's horses will be shipped from this course to Libertyville, Illinois, hence there will be no lack of stable accommodations for all comers.

THIS is the last call for entries for the four days' meeting to be given by the Los Angeles Harness Horse Association, October 16, 17, 18, and 19, on the beautiful Exposition Park race track, Los Angeles. The sum of \$20,800, the largest amount of money ever offered at a race meeting in California, is to be disbursed among the horsemen. With the exception of four races, viz., the 2:17 class trot, the 2:25 class pace, the 2:25 class trot and the 2:12 class pace, entries for all the rest will close next Wednesday, May 15th. The entrance fee is five per cent. Attention is called to the classification, the liberal conditions and division of moneys, which can be learned by a perusal of the advertisement in

our business columns. The Los Angeles meeting follows the one at Hanford and precedes the San Diego meeting. The greatest care will be taken to have everything ready for visiting horsemen and their friends. The hospitality of the Los Angelenos is world-wide and no body of men will be received more gladly than the owners and trainers who will journey there with their strings of trotters and pacers. These men cannot afford to miss this Los Angeles meeting, and to be certain they will not, they must take the first step by sending in their entries on time. This is the last invitation, and they have only until next Wednesday to take advantage of it.

THE recent rains and terrible floods throughout the Southern States have seriously affected most of the race tracks there which were noted as "winter tracks." All horses that were being worked thereon have had to be shipped to northern cities. Next year we expect to see a large number of owners and trainers bring their horses to California where the tracks are always good, the climate genial, and green feed plenty, and where railroad transportation rates will be reduced. Without doubt, there is no place in the world to equal California as a place to train and prepare horses for racing purposes. This fact is gradually being acknowledged by all horsemen, and if nothing happens Mr. McKenzie's horses this season in the East, their triumphs will convince other owners to follow the example he has set.

"THE MEADOWS" is the name given to the beautiful mile track at Seattle, and on September 9th the race meeting will begin there. There are ten purses advertised in this issue amounting to \$11,000, divided between trotters and pacers, entries to which will close next Wednesday, May 15th. This is the final notification. All owners and trainers contemplating going north should not overlook this Seattle meeting and send their entries in not later than next Wednesday to Albert M. Robinson, P. O. Box 366, Seattle, Washington.

THE attention of all owners of colts and fillies in the district comprising Merced, Madera, Fresno, Tulare, Kern and Kings counties, is called to the colt stakes for two and three-year-old trotters and two and three-year-old pacers to be raced at the Fresno fair this fall. Entries for which will close June 1st. No owner can afford to miss this splendid opportunity. See conditions in our business columns.

ALL owners and trainers should provide themselves with the latest copies of the National Trotting Association rules. These should be read carefully and if the instructions are followed much unnecessary wrangling and disagreeable talk at race meetings will be avoided. These books are as necessary to a trainer's outfit as a chart is to a pilot.

ENTRIES will close June 1st for the Stanford Stake for 1914, for foals of 1912. The attention of our readers is called to the advertisement of this, one of the richest stakes offered in California. The first payment is only \$5.

THE next matinee given by the Park Amateur Driving Club takes place at the Stadium, May 25th and throughout the season they will be given every two weeks.

IT is understood that there are no auction pools sold on the race tracks in Kentucky, only Paris-mutuels.

L. R. Rogers, of Fresno, has sent his mare Sally Rogers to The Bondsman to be bred. Sally Rogers was sired by Chas. Derby 2:20 out of a mare by Nutwood Wikes 2:16 1/2; second dam by Dexter Prince. He has also sent his mare Sweet Alice to the same famous sire. She was by Cupid 2:18 out of Sister to Venus. She has a beautiful colt by Athasham 2:09 1/4 which he has most appropriately called Ben Bolt. Mr. Rogers is an enthusiastic horseman and believes in owning the very best individuals as well as having them bred in right lines.

Nelson O. Maynard, of Rinesdale, N. H., a driver who has been under suspension of the National Trotting Association for sixteen years for having driven a "ringer" in Claremont and Greenfield, Mass., in 1896, was reinstated by the association's board of review in New York last Monday.

"White Hat" Dan McCarty is breeding a very handsome mare called Cloudblight, to Vernon McKinney 2:02. She is by Searchlight 2:03 1/4; second dam Lady Wilkes by Roy Wilkes 2:06 1/2; third dam by Abbottsford 2:19 1/2.

NOTES AND NEWS

Don't forget the matinee at the Stadium this (Saturday) afternoon.

Over sixty mares have been hooked to The Bondsman so far this season.

Madeline Marshall (dam of Zomblack 2:24½, etc.) is in foal to The Bondsman.

Have you noticed the splendid race programme arranged for the Pleasanton race meeting in July?

Entries in a number of valuable stake events will close next Wednesday, May 15th. Don't overlook them!

On Wednesday next (May 15th) entries for ten of the early closing events at the Seattle Fair will close.

A. B. Cox's best two-year-olds this season are by Zomhro, out of The Leading Lady 2:07, and Reina del Diahlo.

The list of payments in the P. C. T. H. B. A. Futurity Stakes Nos. 11 and 12 will appear next week. They were crowded out of this issue.

Attention is called to the advertisement of mules in another column. They are priced remarkably low, as they must be sold at once.

T. M. Donahey, of Tunnellton, Pa., has purchased the mare Hazel Nut, by Neernut 2:12¾, dam Hazel McKinney 2:09¾, in foal to Trampfast 2:12¾.

If no accidents happen, Mr. R. J. MacKenzie will be the first man to own and race two pacers that will hold records of two minutes or better this season.

Remember next Wednesday, May 15th, is the date on which entries to the Los Angeles Futurity Stake—guaranteed value \$10,000—for foals of 1912, close.

Invite all your friends to join with you in visiting the Pleasanton matinee races next Saturday. Everything is free and good races will be the order of the day!

When a broodmare has produced three or four foals and none of them show any particular speed, she is a good one to sell, no matter how she may be bred.

Kinney Girl (3) by Axworthy 2:15½, out of Nora McKinney 2:12¾, the Stockton bred daughter of McKinney 2:11¾, was a winner at the big Austrian meeting.

T. W. Barstow has a two-year-old Nearest McKinney colt (brother to The Demon 2:29¾) that is considered to be one of the fastest ever seen on the San Jose race track.

S. S. Bailey's stylish mare Nancy Wave, by Tidal Wave 2:06¾; second dam by Zomhro 2:11¾; third dam by Blackwood Mambrino is due to foal any day to his horse Bon Guy 2:11¾. The youngster should be a good one.

Regarding a pacer called War Dance, a subscriber asks if he has a record and states he was by Boreal out of a mare by Eagle Bird. There is no information that such a horse ever obtained a pacing record.

Alberta (p) 2:09¾, the Searchlight pacer that Bert Webster developed at Pleasanton and which George Haag ships around the country in a crate, is due for a pretty fair record this year, according to reports from the Northwest.

W. E. Rushing, of Sultana, is handling Teddy J. 2:21, and two pacers, and will have them ready when the races are called. Mr. Putnam has a good pacer, and Mr. Sharp has two that are getting their work regularly on the track at this place.

W. R. Merrill's pacer Geo. Woodard had been only thirty days from pasture when he started in the Class "A" pace at Marysville and drove The Jewess out in 2:13¾ and 2:11½. He was timed the last quarter in 32 seconds; last eighth in 15 seconds.

Rapallo, the little trotter P. W. Hodges is winning the matinee races with, stepped the last half of the mile he won in 2:15½ at Marysville in 1:05½, last quarter in 32 seconds, and it seemed to be easy for him.

Fausta (1) 2:22¾ the one time yearling champion is yet alive and in splendid condition, in fact she lies her twenty-two years of existence. She has a six-year-old daughter at the North Randall track that will be heard of some day.

In the cemetery of a small town in northern Missouri is a gravestone that carries the following epitaph: "Here lies the body of Ebenezer Blank, who was killed by the kick of a mule. Well done, good and faithful servant."

Everybody is going to be present at the big matinee to be given at the Pleasanton race track next Saturday, May 18th. A number of amateur clubs will be represented and a splendid day's programme is being arranged.

J. W. Marshall, of Dixon, is looking forward to the time when one of his choicest mares Leota by Diahlo 2:09¾, out of Trix (dam of Aerolite 2:07½, etc.), by Nutwood Wilkes 2:16½, presents him with a foal by Joe Patchen II. It is due any day.

Ramona (dam of the phenomenal pacer Del Ray, trial 2:05, as a three-year-old) has a coal black foal at foot by Moko Hall 2:29¾ that is a natural pacer. J. W. Marshall, the owner, says "it's the husiest little wiggler he ever saw." Ramona has been bred to Vernon McKinney 2:02.

J. H. Nelson of Selma purchased Miss Idaho 2:09¾ a few days ago and will breed her to his stallion Expressive Mac. He is also the proud owner of the two-year-old brown filly Ida Mac by Expressive Mac, out of Miss Idaho, that is paid up on in the Breeders' Futurity Stake.

R. E. Wilhorn, of Merced, has a beautiful chestnut filly by Bonnie Steinway 2:06¾, out of Lindo 2:19½, by Strathway 2:19; second dam by Pasha; third dam Jewel (dam of Annie Rooney 2:17), by Oakland Boy, and he thinks so much of her he intends to keep up all payments on her in the stakes. She is bred to be a remarkably fast pacer.

L. A. Bangs, of Alameda, wears a bright smile whenever he goes out in the paddock to see his handsome mare Dolly B., by Welcome 2:10½, for by her side is a very dark chestnut foal, five weeks old, that looks as big as a foal four months older. He is by Chestnut Tom 2:17¾.

Matt Zahner of San Jose has had two additions to his string. One is a three-year-old trotting filly by Zomhro 2:11, out of a mare by Electro, belonging to Hugh Walker at San Jose, and the other is a pacing colt by Nearest McKinney 2:13¾, out of a mare by Stamhoulet 2:10¾.

The remarkable showing made by the eight-year-old Zomhro gelding Silver Hunter at Pleasanton last Saturday stamps him as a high class trotter, and in T. D. Sexton's hands will be a money-winner on the circuit this year. His mile in 2:14¾, was a good one; but his effort in the fourth heat which he won by a nose from Brutus in 2:15½ was a better one.

Owners of broodmares should not overlook the fact that every one bred to a good trotting and pacing stallion in 1911 and is due to foal or has foaled, should be nominated in the \$10,000 Los Angeles Futurity Stake No. 1, and by the payment of two dollars, that nomination on or before next Wednesday, May 15th, can be made.

Dick Wilson was kept busy holding his big two-year-old pacer Hedgewood Patchen back last Saturday. He remarked, after alighting, "I have driven and seen many a two-year-old pacer, but never knew his equal; I think he is the best colt I ever sat behind!"

Del Ray, the smooth-going pacer that worked a mile as a three-year-old in 2:05, will not be raced this year. Messrs. Hazard and Silva, his owners, preferring to prepare him for racing as a five-year-old. He has lost none of his speed and is developing into a fine large horse.

Horace W. Wilson, for thirteen years secretary of the Kentucky Trotting Horse Breeders' Association, and one of the best known horsemen in America, died at Lexington last Tuesday, aged 52 years. He was for many years secretary of the Empire Trotting Association in New York, and at one time was associate editor of a Chicago paper devoted to horse racing.

A. T. Jackson, of Stockton, is handling a very promising two-year-old trotting filly by Constructor (brother to Tom Smith 2:13¾, etc.), out of a mare called California by Cereo, he by Sable Wilkes 2:18, out of a thoroughbred mare. Mr. Jackson has "brought out" several good ones but this is the best one he ever pulled a line over.

The annual "Butchers' Day" picnic will be held at Shell Mound Park and Emeryville racetrack on June 12. There will be two centers of attraction, trotting races and the usual games and dancing at the picnic grounds. A very attractive race card, containing two \$500 purses, is being arranged. There also will be a number of open races, in which entries have been promised from all over the State.

J. B. Stetson, the Vancouver, B. C., trainer and owner has sold to Hugh Dickenson, Vernon, B. C., the pacing gelding, Mambrino Earl by The Earl 2:17, dam Lulu Glaston 2:19¾. To Albert E. Johnston of Vernon Mr. Stetson sold the pacing mare Cora Brown by Red Medium, dam Miss Dickson 2:13¾. Both of these are good race prospects. They will be trained by Eli Johnston, the local trainer at Vernon, who will race them this season. Mr. Stetson reports that he will move his training stable to Seattle within a few days. The Vancouver track has been plowed up and will not be ready for training for a few weeks.

The Riverside Club of Portland, Oregon, is preparing for the matinee season. The track belonging to the Country Club was in pretty bad shape, so last Monday work was commenced on it, and it is expected by May 30th, when the first matinee races are to be held, it will be in fine shape.

A racing circuit is being organized in the southern part of this State to travel north during the months of June and July, which will put the horses in good condition for the big circuit, which will start in the north and travel southward. The Woodland dates are July 4th, 5th and 6th.

A colt trainer of great experience says: "Do not attempt to speed colts without booting them. Once they strike a leg, a habit is formed. Boots will do much to obviate the trouble, and by their use the trainer will be saved a lot of trouble. It's an easy matter to remove the unnecessary hoots after the youngster's gait is established."

Mr. H. H. James has decided not to take Zomblack 2:24½ (trial 2:08¾) east with the balance of Mr. MacKenzie's horses on the 15th of this month. This perfect gaited trotting horse had an attack of pinkeye which developed very quickly after his arrival at Pleasanton and has not recovered sufficiently to warrant him being raced to his limit this year. As there are several others to take his place, Mr. James believes a run on pasture will put him in shape for work next fall.

Fred Chadbourne drove Aerolite 2:07½ around the Pleasanton track last Thursday and says he is better than ever and as this horse has not been bred to many mares and has had regular work all winter, he appears to be in the pink of condition. Mr. Chadbourne believes he will get a lower record than his good game sire Searchlight obtained. If he does, he will bring home considerable coin this year, as he will be raced right through the Pacific Coast Circuit.

Geo. W. Ford, of Santa Ana, recently traded his good trotting stallion Neernut 2:12¾, and ten of his oldest colts be had left, for a thirty-three acre fruit farm. Mr. Ford says he has only two two-year-olds and one year-old (Golden Maid) and two twenty-year-old mares left, which he expects to sell this summer and will then cut the Santa Ana track up into lots and take a rest. Mr. Ford adds, "I still have Goldenut; he is to matinee at San Bernardino and Riverside."

Surveyors were busy Saturday on the race track at Pleasanton, and when they get through setting up their marks the track will be made to conform to them. There will be no more hollows and hills to traverse, but it will be as perfect as a billiard table on the stretches and the grades on the turns will be made at the proper angle to insure extreme speed, combined with safety. The Pleasanton track has always been considered from two and a half to three seconds "slow."

Barney Simpson is handling a very slick-going pacer called Homburg Belle at the Pleasanton track. She belongs to A. Homberg, of Alamo, and was sired by Stillwell (brother to Diablo 2:09¾, etc.), out of a mare by Memphis, he by Alaska, a son of Electioneer; second dam by Ethan Allen Jr. The dam of this filly is also the dam of Prince Charles, sire of Princess Ethel 2:12¾, and Princess G. 2:19. Mr. Simpson has another good prospect in a mare by Sidmore, out of a mare by Diahlo 2:09¾, that belongs to J. Carr, of Decoto.

Charley Durfee was the happiest man at Pleasanton last Saturday. Mr. MacKenzie asked him if he would like to drive Vernon McKinney 2:02 a mile or two,—just workouts. Donning a brown silk suit Charley got into the sulky and after driving the horse a mile in 2:10, last quarter in 32 seconds, he was asked: "How do you like him?" He replied: "Good! I wonder how fast that fellow would go if I was to call upon him. He's the smoothest-going pacer I ever saw and I believe he will lead all in his class this year. I have a warm spot for him as he is the fastest grandson of the old horse!"

Sam Hoy, of Winters, will be seen on the circuit again this season. He has Busybody, a three-year-old trotter by Iran Alto 2:12¾, out of Diawalda by Diablo 2:09¾, and she is doing splendidly. In an adjoining stall he has a green trotter called Vernautie, that is showing a "world of speed," and Reta Verne 2:29¾; both of these are by his good stallion Jules Verne. He is also handling Jim Briggs, full brother to Kelly Briggs 2:08, and a very promising green four-year-old filly by Jules Verne out of Miss Davis (full sister to that good trotter R. Ambush 2:09¾). This one is a pacer and should get a low mark this year.

Chas. De Ryder recently drove A. L. Scott's good Bon Voyage trotting stallion Le Voyage a mile in 2:22½, last half in 1:07½. This pure-gaited trotter is one of the best bred sons of his sire and would get a very low record this year. He never was in better condition. Mr. De Ryder also had the pleasure of driving a good mile behind another of Mr. Scott's trotters, Bonnie Derhy by Bonnie Direct 2:05¾, out of Papinta (dam of Derby Lass 2:13¾) by Charles Derby 2:20; grandam Directress (dam of Willie Oshorn 2:12¾) by Director 2:17. The mile was made in 2:15½, last half in 1:05, last quarter in 31½ seconds.

The well-known trainer, Millard Sanders, is located at the Indiana State Fair Grounds at Indianapolis.

Fred Hahn, of Emeryville, has a very handsome colt by Bon Voyage 2:08, out of Red Rough by Chas. Derby 2:20; second dam Embeline by Leo Corbitt. It is a natural trotter and quite promising.

Work on the Gresham (Oregon) half-mile track is progressing finely. The first meeting to be held there will be under the auspices of the Riverside Driving Club on the Fourth of July.

Among the greatest trotting colts in Australia is called Ohio, sired by Owyhee 2:11, out of Lady Richmond (sister to those remarkable sires of trotting speed, Rothschild and Osterley). Ohio is owned by Mr. Samuel Hordern, one of the richest merchants of Sydney, Australia.

According to late reports Chas. Dean has 108 horses in his training stables in preparation for this season's harness races; Walter R. Cox, sixty-two; Thomas W. Murphy, forty-eight; Lon McDonald, thirty-five; Ed. F. Geers, thirty, and John H. Dickerson, twenty-eight.

Zoar is the peculiar name of a good bay two-year-old colt that Andy McDowell is handling at Westmont, New Jersey. This colt is pretty nearly California bred. His sire being Zombro 2:11 and his dam was Twenty-Third (dam of Sterling McKinney 2:06 1/4), by Director 2:17; grandam Nettie Nutwood, by Nutwood 2:18 1/4.

If secretaries of amateur driving clubs throughout California will mail an account of each matinee held to this journal, the same will be gratefully received and published.

All who wish to get first-class trotters and pacers should visit Frank E. Turner's place, Santa Rosa. He has some of the best "prospects" in California, best in breeding, best in appearance and best in natural speed, and he must sell, so now is the time to buy from him.

Many of the friends of Harold K. still believe that if he could have crowded through on the rail in that race at Pleasanton, April 20th, he would have defeated Brutus easily. Mr. Christenson, the owner and driver of Brutus, on hearing these rumors, said: "If there is any one or any number of Harold K.'s friends who will back their opinions with coin, I am willing and ready to race Brutus against Harold K. for any amount from \$500 to \$5000 a side, the race to be three in five heats over any track." That is a very fair offer and surely it should either arouse the friends of the good little Harold K. to action or forever silence them. The way Brutus raced Saturday proved that he can go faster every time he is raced. A drop in two weeks from 2:21 1/2 to 2:15 1/4 in a third heat and only nosed out in 2:15 1/2 in the fourth heat, shows he "trains on" and "races on."

J. Elmo Montgomery did not get away to Detroit last Thursday, as reported. At the last moment he made arrangements with Mr. R. J. MacKenzie to ship Jim Logan 2:05 1/2 with the latter's horses next Wednesday, May 15th. Regarding his work, he writes: "I believe Jim Logan is better than he ever was at this time of the year. I worked him last Saturday a mile in 2:13 1/2, last half in 1:03 1/2, last eighth in 14 1/2 seconds, and it only seemed like a jog for him. My Chestnut Tom mare Margaret M. foaled a chestnut colt April 15th, and I bred her back to Palo King. I worked Mr. S. H. Cowell's Dione mare a mile in 2:20 1/2, last half in 1:08 1/2, last quarter in 33 1/4 seconds. She will be a money-winner, as she is improving all the time, and, like her dam, is always on the trot and likes to go."

Alex H. Davidson, the well-known veterinary dentist of Phoenix, Ariz., writes: "Everything here is looking good in the horse industry. There was plenty of breeding this year, and a very promising lot of colts is to be seen and many are getting ready for the Fall fair. Patchlock is getting his share of the good mares in this valley. My mare Lillian Zolock 2:22 has another filly by Col. Green. She is a full sister to Lillian Green 2:24 1/2 and is a pacer."

CLOSING-OUT SALE.

There is no livery stable in San Francisco that enjoys a better name for the class of horses—carriage, buggy and driving horses—than the one belonging to Perry & Nolan, 2468 California street, beyond Fillmore. This firm is retiring from business, and next Thursday, at 1 p. m., E. Stewart & Co. will sell to the highest bidder without reserve over 40 head of horses, 15 hacks, 10 coupes, buggies, surreys, tally-hos, etc., 1 three-seated business buggy, a 22-passenger wagonette, 40 sets of harness, robes, safe, office fixtures etc., all in splendid condition. Besides these there will be sold three 1500-pound auto-delivery wagons suitable for laundry or grocery wagons. This is a splendid opportunity for seekers after the finest make of vehicles and harness, and horses that will be found useful for all purposes. The attention of livery stable owners is especially called to this sale, for they will find just what will suit them and another chance like this may not occur again for years. Sale takes place next Thursday, May 16th, at 1 o'clock p. m.

THE MULTI-MILLIONAIRES AND THEIR RACING TRUSTS.

Editor Breeder and Sportsman:

Many years ago racing associations that conducted racing in this country were composed mostly of persons of moderate means, at least not mostly of the very wealthy class. Later, after racing had been made both popular and profitable, the multi-millionaires with their bookmakers absorbing per cent, took charge of affairs and arbitrarily assumed jurisdiction or control over racing throughout the entire country, any racing without license or consent from those who had assumed this authority and jurisdiction, making outlaws of both owners and horses engaged in it. This, therefore, constituted a racing trust, the multi-millionaires absorbing all the privileges and the profits. It was a trust of multi-millionaires who conducted racing for profit, not for sport, for a gambler's all-absorbing profit or "kitty," for the percentage taken by bookmakers out of the money received in betting. And it was this all-absorbing get-rich-quick percentage or "kitty" that brought the multi-millionaires to the front to form this gambling trust, the most powerful, profit-taking and arbitrary trust ever known, and not a desire to keep racing respectable and conduct it upon a respectable basis. However, this is one trust that the law makers completely knocked out in most parts of the United States. Had the multi-millionaires kept racing respectable and conducted it properly, without extravagant profit-taking as their sole aim, the law makers never would have interfered.

For many years before the law makers tardily took away this kitty from the gambling trust, respectable breeders not owning stock in this gambling trust, reading the handwriting on the wall, implored the multi-millionaire to substitute Paris-Mutuels for the objectionable bookmakers and their all-absorbing booking percentage, but breeders and owners of horses not owning stock in these trusts and the public were relegated to the background and not even seriously considered except as suppliant and humiliated nonentities by aristocratic gambler magnates. So humble and menial in racing affairs had become respectable owners not in on the trust-making profit that one word of protest to or against the conduct of a most subordinate employe of the racing association, even when their horses at the post were most inhumanely and unfairly treated by a bold on assistant (?) starter would subject them to being ruled off the track for life without any appeal from the unjust and dishonest ruling, even though the conduct of that employe might be such brutality or dishonesty as should subject him to imprisonment in the penitentiary for a long term. If the gambling magnates ever expect to get back into racing and retain their "kitty," their "hold on Jimmies" and "Morello Jims," their arbitrarily assumed authority or jurisdiction over racing throughout a large territory, their authority to make star chamber rulings whereby an owner of horses is deprived of racing privileges, and other sure thing gambling appurtenances, they certainly are doomed to disappointment.

It is only under such conditions as the following that racing can be permanently restored:

1st—The racing association is to obtain its entire revenue from gate receipts alone, out of which it is to pay expenses and profits.

2nd—All other sources of revenue are to be used for paying purses and giving added money to purses and stakes.

3rd—In case gate receipts alone are insufficient to pay all expenses and purses, and also leave to the association a fair profit on the capital invested by the association in actually conducting a racing meeting, then, and then only, can a sufficient per cent, not exceeding five per cent, be deducted from money passing through the Paris-Mutuel machines and be used exclusively in payment of the deficit required for purses.

4th—No charges or fines or license fees, or charges for racing or other privileges, shall be made to or against owners, trainers, jockeys, or any one participating directly or indirectly in the racing of that particular meeting, unless all money so collected be used directly and exclusively in payment of purses.

5th—All run-up money in any selling race shall go directly to owners of contesting horses in that race, neither the racing association nor any one else retaining any portion of such run-up money.

6th—No charge shall be made to owners for entering a horse in any race other than a future stake event, and all charges made therefor in stake events shall go to owners of contesting horses in that race.

7th—A complete report shall be made daily to the State Racing Commission of all moneys received and business transacted in connection with the conduct of each day's racing, and the books and accounts and memoranda pertaining to the conducting of racing shall be at all times subject to inspection by the State Racing Commission.

8th—All persons acting in any official capacity in connection with racing, and such others (trainers, jockeys, etc.), as the State Racing Commission may designate, shall obtain a license from the State Racing Commission.

9th—No officials connected with the conduct of racing shall be allowed to make any ruling whereby any person's racing privileges shall be abridged or taken away from him for longer than one day. All rulings affecting more than a very temporary abridgment of any person's racing privileges shall be made only by the State Racing Commission.

10th—A charge for misconduct or fraud in connection with racing may be made to the State Racing

Commission against any official or against any person engaged in racing by any person or persons who wish to make such charge.

11th—Any person or association conducting a racing meeting shall submit for approval to a committee or proper person appointed by the State Racing Commission a copy of the races and their conditions to be contested for before entries to such races are made by horse owners.

12th—No racing association, nor any person or persons within this State, other than the State Racing Commission, shall assume jurisdiction or control over racing elsewhere within or without this State.

WAYSIDE OBSERVER.

MATINEE RACING AT SACRAMENTO.

The victory of John Quinn's Hymettus in the Class A mixed race was the feature of the harness meet, held at Agricultural Park, under the auspices of the Sacramento Driving Club last Sunday afternoon. Hymettus was pressed by Delilah in the first heat, and did the mile in 2:11. In the second heat she was forced to step the mile in 2:12 to win from the Jewess, owned by Alexander Levison of Rocklin.

The balance of the races were won in straight heats. Summary:

| | |
|--|-----|
| First Race, Class C Trot: | |
| Major B. (Jack Smith)..... | 1 1 |
| Katie B. (George W. Shane)..... | 2 2 |
| Flores (J. D. Cornel)..... | 3 3 |
| Time—2:24 1/4, 2:28. | |
| Second Race, Class C Trot: | |
| Blanch T. (C. T. Silva)..... | 1 1 |
| Charles F. (John Silva)..... | 2 2 |
| Godobal (L. H. Todhunter)..... | 3 3 |
| Time—2:23. | |
| Third Race, Class A Trot: | |
| Moko Hall (F. J. Ruhstaller)..... | 1 1 |
| Expedio (F. J. Ruhstaller)..... | 2 2 |
| Time—2:26, 2:34. | |
| Fourth Race, Class A Pace: | |
| Hymettus (John Quinn)..... | 1 1 |
| The Jewess (Alexander L. Rocklin)..... | 2 2 |
| Delilah (J. F. Heenan)..... | 3 3 |
| George Woodard (S. H. Cowell)..... | 4 4 |
| Rapallo (P. W. Hodges)..... | 5 3 |
| Time—2:11, 2:12. | |
| Fifth Race, Class A Pace: | |
| Colusa G. (L. Herndon)..... | 1 1 |
| Eleanor Sears (S. H. Cowell)..... | 2 2 |
| Princess Flora B. (E. O. Burge)..... | 3 3 |
| White Hose (C. F. Silva)..... | 4 4 |
| Time—2:20, 2:15 1/2. | |
| Sixth Race, Class D Trot: | |
| Won by Ben Alta (Isaac Harlin)..... | 1 1 |
| Time—2:07. | |

SALE OF GEO. WOODARD 2:07 1/2.

George Woodard, owned by W. R. Merrill, of Colusa, and who has been stationed and trained at the Marysville race track, has been sold to S. H. Cowell, a lime cement contractor of Santa Cruz, but who is now transacting business in Sacramento. The price paid for the pacer was \$750. George Woodard was one of the largest money-winning pacers that left California over the Pacific Coast circuit last season. The animal has a record of 2:07 1/2 and has been under the capable hand of Trainer Wm. Duncan at the local race course for the past two years. He made his record last summer when he paced against some of the fastest stock in the State. Mr. Duncan, when racing him over the Pacific Coast circuit, won \$6250 with him. Duncan stated to a Democrat man today that during the two years he trained George Woodard the animal only broke once. He is a level-headed animal and very easy to handle. The animal, after just being off the pasture thirty days, was made to pace a mile in 2:11 1/2 by Mr. Duncan upon the occasion of the last matinee races held in Marysville. He was entered in the matinee at Sacramento Sunday, but was somewhat fretful under his new driver and became unmanageable after the first heat, running back over the home stretch. He was brought to a stop by Mr. Cowell, who is an expert horseman, and was driven to the stable. Mr. Cowell will simply matinee this pacer.—Marysville Democrat.

CHANGES MADE IN KENTUCKY RACES.

Lexington, Ky., May 7.—Radical changes were made by the directors of the Kentucky Trotting Horse Breeders' Association yesterday. The Transylvania, formerly for 2:12 trotters, was made a 2:10 trot; the McDowell was changed to the October prize and the amount increased from \$3000 to \$5000; the Stoll Stake is increased from \$2000 to \$3000 and will hereafter be known as the Castleton Cup. David M. Look will add a cup valued at \$5000 to the winner of the stake.

The Tennessee stake is for 2:05 instead of 2:08 pacers as formerly and the amount increased from \$3000 to \$5000. The Kentucky and Lexington stakes for two and three-year-old trotters respectively will remain the same, except that winners of the Kentucky Futurity are to be barred and the entrance fee is refunded.

Before Isidor Straus started on his trip to Europe, in returning from which he and Mrs. Straus were drowned together on the Titanic, he sent his favorite driving horse Bess to roam at will in the fine pastures of the Bedford Hill (N. Y.) farm of the Montefiore Home until he should get gack. Bess had been Mr. Straus' pet for years and he would not let any one work her in his absence. Friends of Mr. and Mrs. Straus were told last week of the strange coincidence that the horse died the night the devoted old couple went to death together. Bess was locked in her stable as usual on the night of Sunday, April 14. Next morning she was found dead in her stall. The veterinary surgeon who examined her could discover no cause for her death.

THE PLEASANTON MATINEE.

As the time is rapidly approaching when the R. J. MacKenzie trotters and pacers are to leave this celebrated track for Libertyville, Ill., where they will be joined by those in charge of Chas. Dean, the idea of holding another matinee met with favor by the leading business men and merchants of Pleasanton, who ordered beautiful silver cups for the winners, and, with very little publicity these enthusiastic believers in the upbuilding and maintenance of the trotting horse industry were most agreeably surprised to see an attendance of over 1000 last Saturday.

"Pleasanton" weather, a good track, close contests and fast time recorded made this day one long to be remembered. In the forenoon several of Mr. MacKenzie's fast trotters and pacers were given work-out miles. The Merry Widow paced a mile in 2:06½, and as this track is conceded to be almost three seconds slow, it can be seen that this sweet little mare is almost up to form. Vernon McKinney 2:02, was driven by Chas. Durfee, who owned McKinney 2:11¼, the grandsire of this phenomenal pacer. The time made was not fast, but, on Wednesday, this big fellow paced the fastest quarter and eighth ever seen at Pleasanton, Mr. MacKenzie driving him. Joe Patchen II, is also in fine fettle, and the pacer that beats him this year will be kept doing his level best from wire to wire and will have to be better than a two-minute performer. Bert Kelly, Maymack and Bessie L., the green trotters, have a world of speed and plenty of it in reserve for the finish of every heat. All the others in this "splendid aggregation" are in fine fix, with the exception of the black stallion Zomblack 2:24½. He will get a rest this year.

All morning, trainers H. H. James and W. H. Fleming were busy behind their horses, Mr. MacKenzie, who is one of the best amateur drivers in the country, taking his mount and working as hard as his men, doing all he can to have his horses ready so that the public will not be disappointed this season as they were last year. The run of misfortune his horses had cannot be ascribed to lack of condition, but accidents, sickness and death seemed to hover over them all. It is hoped the "boodoo" has been driven away; and if the good earnest wishes of all who have had the pleasure of meeting Mr. MacKenzie and his corps of capable employes at Pleasanton will banish those misfortunes forever, there can be no doubt as to the return of this stable of horses to Pleasanton next fall bedecked with garlands of victory and crowned with world's records.

At one o'clock, sharp, starter J. L. McCartney rang the bell in the judge's stand and Judges L. R. Rogers, of Fresno, Daniel E. Hoffman, of San Francisco, and S. S. Bailey, of Pleasanton, took their places. In the timers' stand Col. J. C. Kirkpatrick and James Sutherland were also in readiness.

The first race called was the 2:15 pace; there were only three entries: Vela A., Dawn o' Light and Queenie R. In the first heat Dawn o' Light, the mare that won at the last matinee, broke at the first turn and fell out of the race. Queenie R. took the lead, pacing a very even mile in 2:14, going each half in exactly 1:07. Despite Chas. De Ryder's best efforts with Vela A., it was impossible for his mare to get near the leader who won by three lengths.

In the second heat Queenie R. took the lead again and never relinquished it, pacing the mile in 2:16½, Vela R. two lengths behind, and three lengths in front of Dawn o' Light who did not seem to want to pace today. Mr. Smith graciously acknowledged the receipt of the trophy, a beautiful silver cup donated by the Amador Grain and Stock Farm.

Tedious scoring marked the first heat of the free-for-all trot, in which there were entered: Hazel Patchen, Brutus, El Vivollo, Silver Hunter and Borena D. Finally the word "Go!" was given. Just then El Vivollo broke and fell behind the field. Silver Hunter had the pole and took the lead; Brutus, who was at his wheel, fell back, half way down the backstretch and his place was taken by Hazel Patchen. On rounding into the far turn Silver Hunter slowed up and Hazel Patchen passed him, but El Vivollo, ably driven by James, was seen to be coming very fast and overhauling all but Hazel Patchen challenged her at the head of the stretch. It was a pretty race to the wire. El Vivollo won by four lengths in 2:15½. He trotted the last quarter in 31 seconds. Pretty good for a four-year-old this time of the year.

In the second heat El Vivollo, being apparently too anxious, again broke going away. Silver Hunter took the lead with Brutus at his quarter. It was a pretty race to the half, Hazel Patchen tried to get up on even terms with Brutus but could not. El Vivollo made another attempt to get the lead but it was futile, he had to be content with third position as Silver Hunter won by two lengths in 2:14½, in front of Brutus. El Vivollo was a length behind the latter, Borena D. fourth and Hazel Patchen last.

Brutus took the lead away from Silver Hunter in the next heat and El Vivollo came up on even terms with him. Almost to the wire these two trotted like a team, but Brutus won by half a length in 2:15½, Borena D. two lengths behind, and a like distance in front of Hazel Patchen, who was a length and a half in front of Silver Hunter.

According to rule, only heat winners were allowed to start in the next heat. El Vivollo was withdrawn, so the race was between Brutus and Silver Hunter. This heat proved to be one of the prettiest and best contested of the meeting, if not the best ever seen in California. At no time during the mile was there

twelve inches between these steady-going trotters. The excitement in the grand stand became intense as the crowd saw how perfectly these handsome horses were matched. First one would be a little ahead, then the other. Coming into the homestretch they were on even terms, their drivers using all their skill in the battle for supremacy. About 100 yards from the wire Brutus forged ahead, but only for a few yards, Silver Hunter trotted up even with him, and to the wire they came head and head, where Silver Hunter's driver made a desperate effort and landed his horse a winner by a scant nose in 2:15½. It was learned after this heat that this horse "bore" in, and despite his driver's efforts at the half-mile pole his sulky scraped the one drawn by Brutus, and about this time Silver Hunter must also have struck his rival's sulky tire, for it burst and Brutus trotted this distance with one of his sulky wheels perfectly flat.

Mr. Sexton was awarded the handsome silver cup donated by Messrs. Bairos & Grabam, of Pleasanton. Although Brutus was defeated by the narrowest margin he was not disgraced, for he never made a break and this was the fastest time he has ever trotted. Silver Hunter is also of Grand Circuit calibre and both will be money-winners in the circuit this year. They trotted to the half in this last beat in 1:06.

The 2:25 pace also had five starters, viz: Nutwell, Dicto, Albany, Della H. and Searching, the latter to cart containing Lee Wells, the most enthusiastic horsemen in the county. The start was a perfect one. On the third score, Albany, who is a dead ringer in appearance for Direct, but not gaited like him, took the lead. Dicto and Nutwell were not an open length behind him at the half. Going to the three-quarter pole Nutwell forged to the front with Della H. (who showed a wonderful burst of speed) at his flank. On entering the homestretch Albany on the outside essayed the task of passing Nutwell, but the latter, splendidly driven by Chas. De Ryder, won from him by an open length in 2:20½, Della H. third, Dicto fourth, and Searching berding them all in by several lengths.

Albany, with Dicto at his wheel, led the field by fifteen lengths at the half, and it seemed to be a battle royal between these two; the balance were merely exercising. Coming into the homestretch Charley James tried to pass Albany with Dicto, but when the latter's nose was at Albany's throat latch, he broke and fell back as Albany jogged in a winner in 2:22½.

In the next heat Della H. proved she had class, for she challenged Albany, the leader, on the homestretch, and passing him won by a length and a half in 2:21½, Dicto third, and Searching last.

Only two appeared for the final heat, Della H. and Albany. The latter had gone three guelling beats and was tired, so Della H. had only to pace in 2:24 to win this heat and race, and was awarded the silver cup donated by Messrs. Cruickshank & Kolb, of Pleasanton.

The next event on the card was for the 2:25 class trotters. There were only four to come for the word: Tell Tale, Roseline, Camelia and Dellelect. When popular Charley De Ryder drove out on the track with Tell Tale he was greeted with loud cheering, whether for his display of courage in doing so, or for having such a peculiarly marked mare. Nevertheless, Tell Tale, to anyone who knows what a good trotter is, is very attractive, harring a screw tail sparsely covered with hair, which she carries straight up, and as it never gets in the way or is sat upon by her driver, she trots as purely as any horse ever seen at Pleasanton. Her peculiar color is not thoroughly understood by those who have an eye for pigments, but it is the same that she inherited from her dam and grandam and this last-named was a noted Opelousas mare called Jude. She was undoubtedly a descendant of the Barb stallions and mares which were brought from Spain by Cortez, hundreds of years ago. There was nothing to this race but Tell Tale. She has trotted in 2:12½ and could go that fast today, if necessary. She won the Lee Wells cup in straight heats in 2:22½ and 2:19½.

Many were the questions asked as to her history and breeding. She belongs to Dr. Rae Felt, a prominent horseman of Eureka, Humboldt county, and was sired by Edward B. (son of Stamboul 2:07½ and Celia Mc. by Dexter Prince; second dam Belle Elect by Elect, a son of Electioneer; third dam by Mambrino Eclipse; fourth dam Roxie by St. Lawrence Morgan; fifth dam by Imported Glencoe, out of Rapid Ann 2:27¾, by Overland, by Stevens' Bald Chief, sire of The Moor 780); second dam was a daughter of a noted mare called Old Jude, which came across the plains in early days. She was a peculiarly spotted light red roan with dark and flesh color shadings. She imparted to her produce the same strong joints, clean flat limbs, perfect head, large eyes, wide jaws, small muzzle she had, together with great depth through the heart, indomitable courage and great nerve force. As a saddle mare no stream was too wide for her to swim, nor no trail too steep for her to climb. She never seemed to tire and was always ready and willing to do her best for her master. Many are the tales told of her career and the powers of endurance of her sons and daughters. Tell Tale is the fastest of her descendants and one of the nicest animals to drive, so she deserved all the cheers that were unconsciously bestowed upon her today.

Fred Chadourne drove a chestnut pacing mare called Delight to heat 2:30 and made the mile in 2:27¾. She is owned by C. L. Gifford, of Lewiston, Idaho, and is to be bred to his good pacer Aerolite

2:07½. Delight was sired by a horse called Red Cloud.

The last race of the day was between Billy Smith and Harry Direct. It was the free-for-all pace. The former won in 2:12½ and 2:10¾. Harry Direct was separately timed in the last heat the last half in 1:03½, last quarter in 30¼ seconds. He is hopped pacer and a good one. Billy Smith will also be a money-winner for the McKenzie stable. Both these horses are heavily entered in stakes in the East.

Starter McCartney made an announcement that another matinee race meeting would be held at this track one week from next Saturday, that will be the 18th, and everybody is invited to come and bring their friends. The summary:

2:15 class, pacing; prize a silver cup, donated by the Amador Grain and Stock Farm:
Queenie R., b. m. by Saluator (H. G. Smith).....1 1
Vela A., b. m. (C. L. De Ryder).....2 2
Dawn o' Light, b. m. (W. T. McBride).....3 3
Time—2:14, 2:16½.

Free-for-all trotting; prize, a silver cup, donated by Bairos & Graham:
Silver Hunter, b. g. by Zombro (T. D. Sexton).....3 1 5 1
Brutus, b. g. by Strathway (S. Christenson).....5 2 1 2
El Vivollo, b. g. by The Libretto (H. H. James).....1 3 2 4
Hazel Patchen, b. m. (C. L. De Ryder).....2 6 4 0
Borena D., b. g. (H. H. Dunlap).....4 4 4 0
Time—2:15½, 2:14¾, 2:15¾, 2:15½.

2:25 class, pacing; prize a silver cup, donated by Cruickshank & Kolb:
Della H., br. m. by Hal B. (H. G. Smith).....3 3 1 1
Albany, bl. s. by Educator (A. Schwartz).....2 1 2 2
Dicto, b. g. (C. James).....4 2 3 0
Searching, b. g. (L. Wells).....5 4 3 0
Nutwell, b. g. by Nutwood Wilkes (C. De Ryder).....1 5 dr
Time—2:20½, 2:22½, 2:21½, 2:24.

2:25 class, trotting; prize a silver cup, donated by Lee Wells:
Tell Tale, sp. m. (C. L. De Ryder).....1 1
Roseline, b. m. (F. Chadbourne).....2 2
Camelia, b. m. (H. Brown).....4 3
Dellelect, b. m. (C. Whitehead).....3 4
Time—2:22½, 2:19½.

Free-for-all; prize, a silver cup:
Billy Smith, b. g. by Directly (H. H. James).....1 1
Harry Direct, b. g. (W. Fleming).....2 2
Time—2:12½, 2:10.

Against time, to beat 2:30 pacing—Delight, ch. m. by Red Cloud (F. Chadbourne), won. Time, 2:27¾.

MAY DAY RACES AT SALINAS.

The race meeting of the Salinas Driving Club was a pronounced success, notwithstanding the inclemency of the weather, for the wind blew without ceasing. There was a fine attendance. The grand stand was filled, and teams and automobiles filled the parkways and made the track look as if there were a regular fair on. The club had the Salinas band out and everything was done in order and according to precedent.

The judges of the races were Robert Garside, John Storm and Thomas Ryan; the timers, Robert W. Mann, of Watsonville, John Garside and Samuel Brisbane; starter, Jas. M. Hughes.

There were five races, all the best two in three, each owner driving his own horse except in the 2:20 pace, in which Helman drove Hebert's Elaine. The Summary:

3:00 Pace, prize, cup:
Dandy, s. g. (Louis Nissen).....1 1
Johnnie Mac, b. g. (Henry Storm).....2 2
Mayse, s. m. (Walter Norris).....3 3
Time—2:48, 2:50.

2:35 Pace; prize, cup:
Mountaineer, b. g. (Alex. Anderson).....1 1
J. B. L., s. g. (Vance Stark).....2 2
Welcome S., b. g. (H. A. Smith).....3 3
Time—2:33½, 2:30.

2:20 Pace; purse, \$100:
Elaine, b. m. (C. Z. Hebert).....3 1 1
Brunita, b. m. (Jas. Taylor).....1 2 2
Dixie, b. m. (Wm. Fiese).....2 0 0
Time—2:26, 2:28, 2:30.

2:30 Trot; purse, \$100:
Dictatus S., s. g. (Robt. Stirling).....1 1
Welcome Dan, b. g. (H. Struve).....2 3
Elois Dell, b. m. (I. J. Cornett).....3 2
Time—2:31½, 2:32½.

2:40 Trot; purse, \$100:
Salinas Girl, s. m. (W. Stow).....3 2
Robt. M., b. h. (C. Machado).....1 1
Berlock, s. g. (W. Parsons).....2 3
Adje. b. h. (A. Zabala).....4 4
Time—2:38, 2:34.

OLD-TIME COUNTY FAIR AT SAN JOSE.

At an enthusiastic meeting of the County Fair Association reports were read favoring an old-time county fair. Many contracts for space have been received and Manager Allen thinks the whole field will be needed for exhibits. He says that in Machinery Hall powerful irrigating plants will be in operation. The poultry show will be conducted for the amateur as well as for the expert and contracts for space show that the poultry-supply manufacturers will demonstrate their products on an extensive scale. There will be many exhibits from other counties which will compete for the prizes. The livestock exhibit, asserts Mr. Allen, will be as large as any on the Coast this year and the races will supply amusement for people who are seeking excitement. Many fine exhibits will be shown here before going to the State Fair at Sacramento, and reports indicate that the automobile exhibit will be the largest ever held on the Pacific Coast.

Entries for the potato contest are coming in rapidly and the indications are that the 200 of Washington State will be left in the shade. Manager Allen thinks \$20 for the best box of spuds is a fancy prize. Many schoolboys and girls are planting town lots with the best varieties. No charge is made for entry in the spud contest.—Mercury.

Drink Jackson's Napa Soda.

"MARQUE" AT THE PALATINE, ILL., TRACK.

This well-known writer for the Horse Review has been visiting Palatine, Ill., where Charley Dean has 108 trotters and pacers in active training at present. He writes the following about Mr. Dean's method of working horses and tells of the horses this trainer has which belong to Mr. R. J. McKenzie, of Winnipeg.

The system of work being followed at present is as follows: The horses are given about a mile and a half the wrong way of the track, at a good, stiff jog, and are then turned and scored the right way a few times, after which they are worked a half-mile. In working the half-mile they are brushed away from the wire and then eased up till the last eighth, when they are speeded home as fast as they can step. I think that this is an excellent speed-making plan, especially with horses that have been jogged all winter and are thoroughly seasoned and "legged up." No speed can be made by extensive jogging, that is certain, and I think Dean's process is calculated to make a lot of lick without overtaxing the horses.

For R. J. McKenzie, of Winnipeg, Charley is working twelve head, as follows: Bradmont 2:24 1/4, bay pacing gelding, six, by Alto Leyburn 2:24 1/4, trial in 1911 in 2:05 1/4, a C. of C. candidate; Frank Perry (1) 2:15, champion yearling pacer; Graham Bellini (2) 2:20 1/2, half-mile track trotting record, 1911; Baroness Helen (3) 2:18, who trotted in 2:11 in 1911; Baroness Psyche, roan filly, two, by Baron Review 2:21 1/4, trial quarter in 35 1/2 seconds in 1911; Baroness Ceres, by the same sire, roan filly, two, quarter in 35 1/2 seconds in 1911; Red Sheet, two, by Main-sheet 2:05-Alta Worthy, by Axworthy (3) 2:15 1/2; Prince Bellini, chestnut colt, three, by Bellini 2:13 1/4; chestnut colt, two, by Bellini, dam by Chimes, and Spriggan, bay colt, two, by Baron McKinney 2:10 1/4-Helen Simmons 2:11 1/4.

Frank Perry (1) 2:15, the champion pacer, seems to have suffered no ill effects from his 1911 efforts. He is in all respects a grand colt, and upon dismounting after brushing him through the stretch, Charley remarked: "It wouldn't surprise me if this fellow paced in 2:00 some day." Mr. McKenzie has instructed Charley to work Frank easily this season, as he is eligible to nearly all the futurities.

I was anxious to see Mr. McKenzie's Graham Bellini 2:20 1/2, a two-year-old that raced sensationally over the half-mile tracks of Kansas and Oklahoma, and was mighty well pleased with him in the barn and afterward on the track. Graham is a heavy bodied colt, on short legs, very substantial in build, and a trifle "over" in his knees—an excellent speed sign, if not an adornment. He wears plenty of boots, but despite this fact, is slashing gaited, picks 'em up fast, and doesn't know how to break. I observed him carefully and noticed that he took scarcely any hold of the bit, and is about as perfectly broken and educated as a trotter could be.

AT THE WALLA WALLA TRACK.

Editor Breeder and Sportsman:

A recent visit to this well-known race track shows that there is considerable work being done there by the trainers in getting their horses ready for the race meetings this fall. There are between fifty and sixty horses in all. Wm. Hogboom has thirteen head, nearly all youngsters. He is working Honey Boy, the trotter he campaigned two years ago. In another stall he has a black colt by Zolock 2:05 1/4 that should get a mark of 2:30, pacing. He also has a two-year-old by Blue Peter which he is in love with and says that all the colts and fillies by this sire, that he has seen are like this one and he believes there is a great future for Blue Peter as a sire.

George Kelly has seven in his stable, including Bonnie McK., his grandly bred sire; Bonkin 2:23, trotting, over a half-mile track; a full brother to Bonnie Antrim 2:12; Birdie McK., by Bonnie McK., out of Birdal 2:12 1/4, by Birdalex. Birdie McK. has paced a mile in 2:32, last quarter in 34 3/4 seconds. Mr. Kelly also has a three-year-old trotter he calls Eva McK., by this same sire, that has been a quarter in 37 seconds. Another is Babe-a-Lally, a three-year-old trotter by Bonnie McK. that has been a quarter in 38 seconds, and two two-year-olds by him that have been quarters in 40 and 42 seconds.

Judge Brents has a fine three-year-old by Zolock 2:05 1/4 which looks like the "real goods"; she is in the stable of J. H. Pridemore's. Bubbles is a two-year-old by Bonnie McK. which is very handsome. He was bred by Mr. D. Herrick, who sold him to Mr. Pridemore. He is staked in all the Futurities and if looks count for anything he should get his share of the money. Another fine looking colt I saw was Dark Lock, by Zolock 2:05 1/4, dam Jean Dark. He is a two-year-old, handsome and stylish as a peacock, and is black as a coal. His dam was a full sister to Antrima 2:15 1/4, by Thos. Ronan's good stallion Antrim. He belongs to Chas. S. Naylor, who, with his good wife, are very highly pleased with him.

Jan Irvin has a number of young trotters and pacers that keep him occupied almost all day. I did not have an opportunity of talking to him on that account, but will send his list of good ones along later.

Robert Breeze is one of the old-time trainers and drivers who lives in Walla Walla part of the time. He has retired from the turf but likes to go over to the track occasionally to help some of the boys work their horses.

Yours for a good meeting,

A. H. LQHMIRE.

MATINEE RACING AT SAN JOSE.

Editor Breeder and Sportsman:

Although the weather was dark and cloudy and quite cool, a good crowd of horse lovers attended the first matinee races of the season, held under the auspices of the San Jose Driving Club at the San Jose Driving Park on May Day. While but few of the club horses are up to much of a race, the three races on the program were evenly contested and quite enjoyable. Although the time made was slow, exceedingly close finishes were the order of the day. The recent improvements to the grounds, and by which every particle of spare land both inside and outside the track is covered with young alfalfa, added much to the looks of the park and was fully enjoyed by all present.

The driving club has decided to hold matinee races every two weeks; and, as many horses are mentioned as future starters, all the members look forward with pleasure to a summer of good sport in the harness horse game.

First race, 2:30 Trot:
Tommy T. (Joe Twhig) 2 1 1
Sidmont (Patsy Davey) 1 2 2
Kiss-Ke-Dee (J. Ferri) 3 3 3
Time—2:31, 2:28 1/2, 2:28.

Second race—2:30 pace:
Billy L. (Geo. Landers) 1 1 1
Dr. B. (F. Renninger) 2 2 2
Lady Rea (W. Whitehead) 3 3 3
Time—2:32 1/2, 2:28 3/4.

Third race, 2:30 mixed:
Red Rose (J. Ferri) 1 1 1
Lady Patrone (R. Patrone) 2 2 2
Valdo (J. Reilly) 4 3 3
Miss Tootsie (J. Twhig) 3 4 4
Yale (G. Creigh) 5 5 5
Budd Doble (G. McCracken) 6 6 6
Time—2:35 1/2, 2:33 1/2.

THE SECRETARY.

MATINEE RACES AT SAN BERNARDINO.

The first matinee race meeting held under the auspices of the San Bernardino Driving Club attracted a large crowd of trotting horse enthusiasts and their friends on May Day. The weather was lovely, track in excellent shape, and the racing remarkably good considering it was the first time many of the contestants had appeared together. This club is a live one and Secretary Alex. M. Wilson is a worker; and at all meetings to be held this year there will be larger fields and greater rivalry. Those who officiated were: Judges—John Miller, H. G. Stanley and A. B. Miller. Timers—Geo. W. Ford, H. C. Thomas and J. T. Wells. Starter—R. T. Curtis. Clerk of the Course—J. M. Showalter.

Race No. 1, 2:45 mixed:
Buster, by Zolock 2:05 1/4 (B. Newman) 1 1
George W., by Col. Greene (S. R. Obarr) 2 2
Jessie Wilkes, by Stanton Wilkes 2:10 1/4 (M. I. Wheeler) 4 3
Halo, by Zolock 2:05 1/4 (Thos. Holmes) 3 4
Time—2:33, 2:28.

Race No. 2, 2:25 trot:
Bonnie June, by Zolock 2:05 1/4 (G. E. Bunnell) 1 1
Cope, by Neerut 2:12 1/4 (Peter Beatty) 3 2
Hi Yu, by On Stanley (G. H. Parker) 2 3
Zombrosa, by Mein Kleiner (E. F. Binder) 4 4
Dark Streak, by Raymon (H. E. Webster) 5 5
Larry K., by Larry Kinney (A. B. Miller) 6 6
Time—2:23, 2:25.

Race No. 3, 2:20 pace:
Kid Downey, by Unknown (O. E. Holland) 1 2 1
On Bly, by On Stanley (James Campbell) 4 1 2
Betty Raymon, by Raymon (A. B. Miller) 2 4 3
Leap Year Wilkes, by Stanton Wilkes 2:10 1/4 (F. E. Cole) 3 3 6
Maud Wilkes, by Stanton Wilkes (M. I. Wheeler) 3 6 4
Ann Bonnell, by R. Ambush 2:09 1/4 (G. W. Bonnell) 5 5 8
Dash, by Neerut (Frank Thomas) 6 8 5
Zo Happy, by Zolock 2:05 1/4 (H. E. Webster) 7 7 7
Time—2:17 1/2, 2:18, 2:19.

Race No. 4, free-for-all trot:
Golden Nut, by Neerut (G. W. Ford) 1 1
Buster, by Neerut (G. E. Bonnell) 2 2
Copper Ore, by Direct Heir (G. W. Bonnell) 3 4
On Conn, by On Stanley (C. R. June) 4 3
Inyo Boy, by Osito (G. H. Parker) 5 5
Time—2:17, 2:15.

Race No. 5, special race:
Lady Halford, by Young Hal (A. E. Heller) 1 1
Bess, by Zolock 2:05 1/4 (Geo. West) 2 2
Time—2:17, 2:19.

MATINEE AT STADIUM TODAY.

The first matinee of the season in San Francisco will be held under the auspices of the Park Amateur Driving Club this (Saturday) afternoon. The officials appointed are: Judges—John A. McKerron, G. E. Erlin and G. Wempe. Times—H. A. Rosenbaum and T. F. Bannan. Starter—Daniel E. Hoffman. Marshal—H. E. Ladd. The classes and entries are as follows:

Class A trot, free-for-all—F. L. Mathes' Raymond M., A. L. Scott's Mamie Alwin, Captain William Matson's Bird Eye, Eugene Cerciat's Nearer.

Class B trot, free-for-all, slower class—Robt. Nolan's Billy Burke, Captain William Matson's Wireless, A. L. Scott's Le Voyage, Ivy L. Borden's Barney Barnato.

Pace, free-for-all—F. L. Matthes' Addie, H. Ahler's Sweet Princess, Ivy L. Borden's Black Wings, Hugh Boyle's Ida M.

EDUCATIONAL ADVERTISING.

We urge every person who owns, or is interested in horses, in any capacity, to carefully study the ad of the Reducine Company in this issue. The Reducine Company is composed of men of long experience as practical horsemen, who thoroughly understand every angle of the horse business and this ad, with others which will follow along educational lines, will be of real value, not only to amateur horsemen, but to professional horsemen as well. This ad and the others which will be published by this company, contain many points which have been proven by many years spent in the handling of large numbers of horses of all sorts and under all conditions, and for this reason they are not theoretical but entirely practical and may be safely adopted by all horsemen.

MORGAN STALLIONS FOR ARMY REMOUNTS.

At the Government breeding farm, Middlebury, Vt., where a string of seven Morgan stallions are now quartered for the purpose of solving the army remount question the books were opened March 15 for free breeding. The plans were approved by the Secretary of Agriculture and the following plans for the seven stallions, including General Gates, Bennington, Castor, Snoqualmie, Dewey, Drum Major and Troubadour were decided upon for owners of approved mares to breed to the stallions for the season of 1912.

Only mares with a square trotting gait and good conformation will be accepted. Pacers and mares with curly locks or other decidedly faulty conformation will not be accepted. In view of the probable difficulty of obtaining a suitable number of mares free from draft blood, the presence of such blood will not disqualify a mare, but in no case will such a mare be bred having more than one-half draft blood.

All mares must be free from the following unsoundness: Bone spavin, ring bone, heaves, stringhalt, lameness of any kind, broken wind, moon blindness, blindness partial or complete.

The owner of the mare to be bred shall sign an agreement at the time of first service giving the United States an option on the resulting foal at \$150, during the year said foal is three years old, estimating the foal to be one year old on the first day of January after it is foaled. For the foals of mares bred in 1912 the Government will therefore exercise its option in 1916. Most, if not all, of the horses selected will be purchased for the United States Army.

In case of death of the owner of such a mare or foal, or in case of assignment or sale, the option may be assumed by the new owner by giving notice in writing to the Chief of the Bureau of Animal Industry, United States Department of Agriculture, Washington, D. C., otherwise the stipulated service fee must be paid.

If a mare owner does not wish to give the option, he may pay the stipulated service fee in cash at the time of the first service, which will entitle him to service during the season of 1912 without return in 1913.

If for any reason, and at any time before the Government has its option, the owner of a foal under this arrangement wishes to be relieved of his option he may do so by paying the stipulated service fee in cash.

Approved mares will receive a number in the Remount Brood Mare Register and a certificate issued to that effect. In booking mares, owners should indicate first, second and third choice of stallions, so that in case the book of one horse fills more rapidly than another, a mare owner may not lose his opportunity to breed. The stallions at the farm which will be available for public service during the 1912 season, the fees for breeding and the approximate number of mares which will be bred are as follows:

| Stallions. | Age. | No. of Mares. | Without Option. | With Option. |
|---------------|------|---------------|-----------------|--------------|
| General Gates | 18 | 48 | \$25 | Free |
| Bennington | 4 | 26 | 20 | Free |
| Castor | 3 | 20 | 15 | Free |
| Snoqualmie | 3 | 12 | 15 | Free |
| Dewey | 2 | 3 | 10 | Free |
| Drum Major | 2 | 5 | 10 | Free |
| Troubadour | 2 | 3 | 10 | Free |

EXHIBIT CONTEST AT FRESNO FAIR.

One of the features of the Fresno fair this year will be a contest between towns of the county, in the way of exhibits. The directors of the Fair association have already started the movement and within the next few weeks will visit every town in the county for the purpose of inducing local people to become interested and make exhibits at the fair next October.

C. I. Pulliam, secretary of the Fair Association, met with the Chamber of Commerce at Clovis recently and reported that a great deal of interest was shown and that the probabilities are that Clovis will put up a big exhibit. A meeting was held in Selma about two weeks ago. Another meeting has been planned in Fowler next week, when the matter will be brought to the attention of the people there and other meetings will be held immediately afterward in other towns of the county.

The Fair Association will soon open an office in the Chamber of Commerce building and maintain it until the fair opens. The premium book will not be issued until after the State Fair book is out. The State Fair premium book is expected to be out within the next week or ten days. The local association is planning to add a two-year-old and three-year-old race to the driving program at the fair and George L. Warlow was appointed at a meeting of the directors, to take the matter up with the secretary of the Pacific Coast Fair Association and also with officials at Hanford and other places.

Advertising material has been ordered and within the next few weeks it is expected that the work of the association for the fair next fall will be on in full blast.—Fresno Republican.

The following is said to be a sure cure for the scratches: Boil enough white oak bark to make two gallons of strong juice; in this put in one large teaspoonful of sugar of lead and two tablespoonfuls of alum; wash the legs with a cloth or soft sponge, having the preparation warm.

Drink Jackson's Napa Soda.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

Coming Events.—The principal bluerock functions programmed for Coast shooters are:

May 21-24—Walla Walla, Wash.—Sportsmen's Association of the Northwest tournament, under the auspices of the Walla Walla G. C. P. P. Morrow, President.

June 17-19—Salida, Colo.—Colorado, New Mexico and Wyoming State Tournament, under the auspices of the Salida G. C. W. G. Meyers, Secretary.

July 17-18—Seattle (Wash.) T. S. A. A. L. Hall, Secretary.

August 27-29.—Portland, Ore.—The Interstate Association's seventh Pacific Coast Handicap Tournament, under the auspices of the Portland G. C.; \$1000 added money. The winner of first place in the Pacific Coast Handicap is guaranteed \$250 in cash and a trophy. Elmer E. Shaner, Secretary-Treasurer, Pittsburgh, Pa.

September 10-13—Denver, Colo.—Rocky Mountain Interstate Sportsmen's Association; \$5000 added money. Ambrose E. McKenzie, Manager.

June 18-21—Springfield, Ill.—The Interstate Association's thirteenth Grand American Handicap tournament, on the grounds of the Illinois Gun Club; \$1500 added money. The winner of first place in the G. A. H. guaranteed \$1000 in cash and a trophy. Elmer E. Shaner, Secretary-Treasurer, Pittsburgh, Pa.

August 14-16—Kansas City, Mo.—The Interstate Association's Seventh Western Handicap tournament, under the auspices of the Kansas City G. C.; \$1000 added money. The winner of first place in the Western Handicap is guaranteed \$250 in cash and a trophy. Elmer E. Shaner, Secretary-Treasurer, Pittsburgh, Pa.

Trap Notes.—The regular bluerock meetings for tomorrow will be the Bay View Gun Club shoot in Alameda and the Easton Gun Club shoot at Easton.

Nearly a score of shooters from San Francisco are at the Los Angeles tournament, which began yesterday.

J. G. Heath and Hugh Poston went north Wednesday. Poston will be on the representative staff of the Rem.-U.M.C. Companies and will cover the Northwest territory. Poston has made many friends since he came to the Coast.

Otto Feudner will sever his connection with the Ellery Arms Company about June 1st. He has been engaged by the Peters Cartridge Company. Feudner is widely known to sportsmen all over the Coast and has a host of friends, particularly among the shotgun devotees.

For some time past there has been a movement on foot to organize a State Sportsman's Association. This move is the last step in perfecting the target shooting game in California. The various clubs in this State have been handicapped considerably because of a lack of an organization which would put them in line for all benefits from the Interstate Association, and would form a close friendship between the various clubs of the State.

At the present time there is in the neighborhood of one hundred clubs conducted in the interest and advancement of the sport of trap shooting in the State. The most of these clubs have been organized within the past year, and while they are all well able to take care of themselves, they would be greatly benefited by the aid the Association could give them.

One of the features connected with this organization would be that the different clubs throughout the State could join together and give one large tournament each year, holding it under supervision of the association. A tournament of this nature would allow the Pacific Coast shooters the opportunity of getting acquainted with one another, and put California on the map good and strong with the Eastern shooting fraternity.

In view of the above, and many other benefits to be derived from a State Sportsman's Association, the Los Angeles Gun Club members called a meeting to be held Friday evening, May 10, at eight o'clock, Burbank Hall, Los Angeles. At this time there will be many California shooters in that city, owing to the fact that this is the evening of the first day of the Los Angeles Gun Club's May tournament, and a hearty invitation was extended to all shooters in the city at that time to be present. It was desirable that every gun club in this State, no matter how large or how small they may be, would have at least one member present to represent them.

"Now is the time to settle this matter in a satisfactory way. California must have a sportsman's association, and it is hoped that when the charter clubs are counted we will have at least fifty clubs enrolled," states Secretary Bruner of the Los Angeles Gun Club.

California Wing Club.—The May shoot of the club took place the 4th inst at Stege, Contra Costa county, under ideal weather conditions and with the added satisfaction of a lot of fast birds trapped.

W. W. Terrill, shooting from the twenty-nine yard peg, was the only shooter to score straight in both of the club events, the forenoon medal shoot and the afternoon purse race. He grassed every bird in clever style. Tony Prior, twenty-nine yards, also tallied straight in the medal shoot. Ten shooters in the eleven hole cut in with a microscope on the third and fourth moneys. Simonton's fifth bird, hard hit, dropped over the fence and squelched an even chance for a divide with the two straights. Charley Huber of Newman failed to connect with his last bird.

Terrill, Gregg, Stelling and Sherwood, each with a full dozen tally, annexed the club purse in the afternoon match. Tony Prior's tenth bird packed the leaden pellets over the boundary fence. Webb's fourth target played the same trick. Walsh had hard luck with the ninth double-barreled offer.

After the regular club events were shot a ten bird pool was on tap. Sherwood, Nauman, Captain Du Bray (who was just nosed out by two extremely hard birds in the club events). Webb and Sterling divided the pot. The scores follow.

Forenoon medal match, 12 pigeons, \$50 added, 4 moneys, high guns, distance bandicaps—

Saturday Afternoon Shoots.—Clay pigeon enthusiasts can avail themselves of the opportunity for indulging in practice shooting at the Golden Gate Gun Club grounds, opposite the old baseball grounds in Alameda any Saturday afternoon.

Last Saturday afternoon several squads of local shooters were at the Alameda shooting grounds and pulverized about 2000 inanimate targets. The feature of the day was a three-man team race. The first match was a tie, each side breaking 67 out of 75 birds. The shoot-off was won by a margin of one bird—70 to 69. The scores were:

First match—P. J. Holohan 20, J. B. Lee 23, E. L. Schultz 24; total 64. C. A. Haight 20, Dick Reed 25, P. McRae 22; total 67.

Second match—Holohan 25, Lee 21, Schultz 24; total 70, Haight 24, Reed 25, McRae 20; total 69.

Straight scores of 25 were shot by Dick Reed, three, and P. J. Holohan of Portland, one.

Scores in 25-bird shoots were: C. A. Haight 21, 21, 22, 19; Dick Reed 25, 21, 20, 23; P. J. Holohan 22, 20, 23, 23; J. B. Lee 23, 22, 23; T. D. Riley 22, 20, 20, 24, 23; W. A. Simonton 20, 18, 23, 20, 21, 17, 19; M. O. Feudner 19, 21, 23, 16; G. W. Colby 17, 14, 15, 17, 17, R. Henderson 6, 3, 13; E. R. Cuthbert 21, 17, 12, 16, 19; Lester Prior 17, 22, 23, 21, 21; H. Stelling 18, 21, 21, 21; P. McRae 22; "Howdydew" Rice 17; E. L. Schultz 24.

Exposition City Gun Club.—At the regular monthly club shoot of the Exposition City Gun Club April 28, at the Presidio traps a number of the regular powder

burners were missing—they were at the San Joaquin Valley tournament.

The challenge trophy event was hotly contested. Emil Hoelle won the first class honors with 16 breaks. George Thomas annexed the second class prize with 14 breaks. W. D. Mansfield's score of 15 was the winning one in the third class. Harry Dutton broke 14 and came out on top in the fourth class.

Thomas' win was challenged by three shooters. He won the second time with 16 out of 20. The other scores were: W. A. Simonton 15, J. H. Jones 13, N. W. Sexton 11.

Mansfield's third class win brought out other challenges.

J. W. Dorsey's 18 breaks was the next winning score against Mansfield's 11, D. M. Hanlon 15, C. Westergeld 13, Dr. C. Clark 14, W. B. Sanborn 12. Dorsey had to contest another match against Dr. Clark 13, Hanlon 13, Mansfield 10, Westergeld 11, Dorsey 9. The two 13 men shot off the tie, each breaking 16. The concluding tie shoot was won by Hanlon 15 to 12.

Hoelle made the high score in the handicap trophy event, breaking 15 out of 20 clays at 20 yards distance. The best scores in the grub shoot were three 12's out of 15 birds. In the opening club match 19 out of 20 by J. W. Dorsey was high gun in that event.

A cold day and heavy southwest wind interfered with the shooting of many good scores. The grub shoot was an argument between two eleven man teams. The starred scores are those of the winning squad. The losing side paid for luncheon served on the grounds.

The scores of the club events follow: Event 1, club match; event 2, grub shoot; event 3, handicap trophy; event 4, challenge.

San Jose Shoot.—O. N. Ford, self-styled amateur champion gunsbot of the world, is in San Jose to make his home, and competed in a live pigeon shoot at Meridian Corners last Sunday, making a high score of 24 birds out of 25, despite the fact that the birds were strong winged farm birds which traveled like lightning when the traps were sprung. A strong north wind helped them to escape.

The contest was a three-cornered match in which M. Cadwallader and Hoag also shot. Cadwallader killed 21 and Hoag 18. In the blue rock shoot Ford broke 49 out of 50, giving him 99 out of the last 100 shots. Ford is the only shot in the United States who has competed in every State. He had not fired a shot in 18 months up to coming to San Jose, but is rapidly regaining his old time form.

Dr. A. M. Barker and Ford left Wednesday for Los Angeles, where they will compete in the largest clay-bird shoot ever held on the Pacific Coast. On their return they propose organizing a gun club in San Jose. According to Ford, this city has the material for the best gun club on the Coast.

Ford will send the Mercury daily reports from the shoot at Los Angeles, where 200 of the crack shots of America will be in action. He shoots at San Bernardino May 14 and 15 and at San Diego May 17-18-19.

—San Jose Mercury.
Hoopla! nothing like publicity, you know.

Vacaville Shoot.—The Vacaville Gun Club trophy bluerock shoot held May 5, shows the following scores: 25 targets, bird handicap—Vic Radcliff broke 21 out of 25, 3 bird handicap allowance, 24; Tom McLaughlin 16—4—20, E. Erickson 20—6—26, R. C. Gray 18—6—24, C. L. Peterson 17—6—23, Fred Ream 24, scratch; Dr. J. D. Wirt 18—5—23, Dr. Leroy Townsen 17—3—20, W. Z. McBride 19—6—25, Ray Rippey 13—8—21, Dr. Wildon 19—3—22, H. A. Bassford 19—6—25, W. C. Mitchell 12—7, H. Schielke 16—5—21, Emmet Ream 17—7—23, W. C. Mitchell 16—8—24, S. B. Watts 16—8—24.

Boulder Creek Gun Club.—The initial shoot of the club will take place at Boulder Creek, Santa Cruz county tomorrow. The Santa Cruz County Fish and Game Protective Association will be the guests of the club. A big barbecue lunch will be served on the beautiful grounds in the Santa Cruz mountains during the day.

Flour City Shoot.—Haas carried off the honors at the Stockton Gun Club shoot at the Baths last Sunday. The following scores were made:

Garrow 221 out of 275, Zignego 35—50, Fisher 33—50, Lonjers 116—150, Haas 214—250, Gilbert 46—75, Hampton 107—150, Sanford 46—100, Lynch 6—50, Riley 13—50, Clark 47—75, Mitchell 82—100, Kinnear 68—100, Kinnear 67—100, Ralph 61—75, Graham 16—25, Archie Atwood 53—75, Al Atwood 11—50, Brawner 70—75, "Pop" Merrill 83—100.

NATIONAL RIFLE ASSOCIATION INDOOR CHAMPIONSHIP.

The following are the prize winners and scores of the National championships:

Revolver:

| | |
|--|-----|
| Dr. John R. Hicks, New York..... | 457 |
| W. C. Ayer, St. Louis, Mo..... | 454 |
| Geo. Armstrong, Portland, Ore..... | 453 |
| John Dietz, New York..... | 449 |
| Dr. D. A. Atkinson, West View, Pa..... | 448 |

Pistol:

| | |
|---------------------------------------|-----|
| A. P. Lane, New York..... | 469 |
| John Dietz, New York..... | 466 |
| Geo. Armstrong, Portland, Ore..... | 464 |
| Dr. H. E. Sears, Beverly, Mass..... | 459 |
| J. E. Gorman, San Francisco, Cal..... | 459 |

Pocket Revolver:

| | |
|------------------------------------|-----|
| John Dietz..... | 205 |
| Fred V. Berger, Spokane, Wash..... | 204 |
| Dr. J. R. Hicks, New York..... | 203 |
| Hans Roedder, New York..... | 203 |
| A. P. Lane, New York..... | 202 |

The following are the prize winners and their scores of the State championships:

| |
|--|
| Arizona—A. G. Paul Palen 427, L. O. Howard 361. |
| California—H. A. Harris 436, R. P. Prentys 433, Wm. A. Siebe 421. |
| Illinois—Col. W. H. Whigham 417, Capt. Edward Bitfell 411, Geo. Springsguth 391. |
| Indiana—Capt. C. E. Reese 389, Capt. Albert Black 366, Arthur Lepper 347. |
| Kentucky—F. I. Knighten 370, J. H. Ward 369, Wm. I. Morton 354. |
| Massachusetts—G. F. Hoffman 442, F. S. Beckford 404. |
| Minnesota—Joseph McManus 422, A. A. Farrington 416. |
| Missouri—Ed Krondl 440, Dr. M. R. Moore 433. |
| Pennsylvania—Herman Thomas 441, J. G. Royal 426. |
| New York—A. P. Lane 436. |
| Ohio—T. J. Mail 411, T. H. Clarke 403, W. H. Cox 390. |
| Oregon—W. H. Hubbard 446, F. C. Hackney 439. |
| Rhode Island—Edw. C. Parkhurst 432, H. C. Miller 381. |
| Utah—W. B. Albertson 404, H. J. Rodmer 399, L. B. McCormick 345. |
| Washington—Fred V. Berger 439, Frank Fromm 438, L. B. Bush 428. |
| Washington, D. C.—Capt. S. Ferre 438, J. C. Bunn 398. |

The following made meritorious scores and were awarded bronze medals: C. C. Crossman 430, Geo. W. Wilson 427, Walter Hinckley 425, Lieut. I. B. Martin 425.

| Washington—W. C. Baartholomew 173, J. E. Wilborn 168. |

The following made meritorious scores and were awarded bronze medals: T. C. Beal 201, Dr. W. A. Atkinson 176, Lieut. John S. Upham 177, J. C. Baum 179.

Four fish law violators were arrested recently for illegal fishing with a net in Purissima creek, San Mateo county. They were taken before a justice of the peace, pleaded guilty and were fined \$50 apiece.

FISH LINES.

Up to a fortnight or so ago fishing conditions and prospects were alluring for the Klamath, upper Sacramento and McCloud trouting resorts. Since then matters have changed. Snow enough had fallen on the mountain ranges to raise the waters and tinge them with snow broth. The mountain camps of the territory mentioned were covered with snow, so it is reported by observing anglers recently returning from an April fishing trip.

Klamath Hot Springs.—Klamath river fishing, near the Hot Springs, opened up ripe April 1. Good catches were made with both spoon and helgramite baits. Several boxes of trout sent to this city were prize beauties. Otto Feudner received one box of three fish that scaled eleven pounds.

A three-days' rain in that region accented by a cold spell, temporarily stopped sport that will revive very much when fair weather prevails again.

A number of local anglers are booked for the Klamath from May 15 to 18, when the trout fishing should be very good.

Shovel creek has offered most attenuated sport so far this year. The middle of this month, however, is counted on for the beginning of better results, for then the second run of steelheads is about due.

The Shovel creek egg-taking station is regarded by many Klamath river anglers as most detrimental to early fishing on the river and creeks above. The steelhead trout run up the Klamath river in three annual divisions—the last of March, about the middle of May and a final spurt in September.

The initial run of trout up Shovel creek, a few miles below the Hot Springs, makes a big contribution of ripe steelheads to the fish traps of the egg-taking station. Fish that should have had two weeks' more time to swim the long journey up river and fulfill the functions of nature in the small headwater branches, are caught, stripped of their reproductive burdens and thrown back into deep and swift water, where, it is alleged, they have scant chance to recuperate and get back into salt water again.

Anglers caught many spent fish last month in the vicinity of Shovel creek that were found to be so lifeless and impoverished in condition that they were thrown back into the river.

The erection by a power company of an immense concrete dam across the Klamath river, so high that it cannot be equipped according to State law, with a fish ladder, which the salmon and steelhead can climb, is another matter that has been under discussion by Klamath river devotees.

Coupled with all this is the pleasing news that mountain quail, grouse and deer hunting in that region, when the seasons open, will be better than for past years, a favorable winter helping feather and fur to increase materially.

Upper Sacramento.—Tom Lawson of San Jose had a week-end try in the Sacramento, near Sims, and found the fishing most indifferent. W. P. and William Filmer left last Wednesday for Sims and may have a more acceptable story to tell when they return. With improved weather conditions, there is no question but what the sport at various points on the upper Sacramento should be of high class this season.

Truckee Trouting.—The Truckee river trout season in this State began Wednesday, May 1. The opening services were conducted by a rather large delegation of enthusiastic anglers. No doubt the split-bamboo pilgrims at various points on the river will be as numerous, if not more so today and tomorrow.

The river was low, exceedingly so, and had been clear in the forenoons. As soon, however, as the sun's rays get busy on the snow-mantled summits of the surrounding Sierra the river becomes roiled, and then the fishing for the day is over—fly fishing, that is.

As to results during the week, reports differ. One thing has been agreed upon, and that is, bait fishing, angleworms, has been productive of trout baskets at Truckee and Boca. Some claims have been made for good luck with spoons. A few fish have been taken; but this is not the time nor condition for spoon work on the Truckee. Those market fishermen who used minnow bait have had good luck.

Near Union Mills, the lodge of the San Francisco Fly-Casting Club was the headquarters for W. D. Mansfield, T. C. Kierulff, E. A. Mocker, Jack Harron, P. M. Nippert, Dr. W. T. Burnham, J. D. McKee, F. J. Cooper, Charles H. Kewell and others.

Several good baskets were caught; a few fish nearly a pound in weight among these. The outlook for the Truckee river this season, however, is regarded as a most pleasing one a bit later on.

Last Sunday the rain poured down heavily all day in the canyon and snow fell on the adjacent mountain tops.

Plumas County.—A press dispatch this week states: "Prospects for the biggest season's catch in the history of Plumas county trout streams are urging local guides and fishermen to prepare early for a rush to the trout streams and lakes of the Greenville district. The season opened May 1.

Never before have the rainbow, Eastern brook, cutthroat and other lesser varieties of game fish so thronged the water lanes of the mountains. Wolf creek, which flows through Greenville, and Indian creek, into which Wolf creek empties a few miles below the town will furnish limit creels for all who care to whip them on the opening days.

Reports from the Big Meadows country, particularly from Dota Springs, show that the season's fishing will crowd the record for big fish."

Garcia River.—A favorite angling territory with many anglers is the headwater country of the Garcia river. Good roads can be found via Cloverdale and Yorkville into the Ornbau valley. The early visitors this year, by way of Cazadero found several bridges out of commission.

Last week Attorney-General U. S. Webb, Siegel Webb, Dr. Henry Abrahams and Otto Tum Suden made up an automobile party for that section. The upper reaches of the river were most favorable for fly-fishing and limit catches of fine trout were not hard to get, ten-inch fish being plentiful. A yellow-bodied gray hackle and the March brown patterns were the most killing lures.

Feather River.—For the sportsmen who have been getting their tackle ready for a Feather river trip, advices from Portola, Belden, Marston, Smith's Point and other resorts, give out the disappointing news that rain, sleet, snow and cold weather helped to disappoint the anglers who went out on the opening day.

At Belden what fishing there is requires angleworm and salmon fly bait. At Marston later on good fishing will be available. Jules Weil, writing from Smith's Point, intimates trout fishing should be good by the middle of the month.

Big Sulphur.—The Big Sulphur creek, going from Cloverdale, has afforded nice trout fishing recently. Harry Gosliner had no trouble in getting a limit of acceptable sized fish recently. Other anglers had equally good luck.

Marin County Streams.—Lake Lagunitas, on the Mount Tamalpais slope, has been well patronized by anglers since the opening day last week. At this picturesque mountain lake—or rather reservoir—the fishing has been very good, plenty of ten to twelve-inch fish having been caught. Among the visitors have been Dr. Frank Barr and three guests, John Barr of San Rafael, Dave Harefield, John B. Coleman, Jack Lemmer, James Maynard, Pete Howard, J. Polhemus and others.

A permit from the water company is necessary for access to the lake. The limit basket is 20 fish, the hours for fishing being from 8 a. m. until 4 p. m. All fishing must be done with a fly or spoon, bait fishing being forbidden.

For the first time this season, reports the past week were that the Nicasio has been good for daily limit baskets.

The main Paper Mill, from the Lagunitas down has been pretty well fished, best takes have been made below Camp Taylor, mostly small sized fish. Later on the stream will be worth a visit or two again.

The Paper Mill tidewaters up to the big rock, have been "full of fish." Jim Andrews caught thirty-two trout in and near the white house pool with a red spinner fly and also a No. 2-0 spoon. George A. Wentworth, Frank Dolliver, James Black, Herman Herzer and others have cut in on the sport recently.

The Salmon Creek Club men have enjoyed very good fly fishing for two weeks past. Among the recent visitors to the Bodega preserve have been: Phil B. Bekeart, Guy T. Wayman, Ned Bosqui, J. B. Lemmer, Lee Harpham, Dr. Trask, D. Harefield, J. B. Coleman, H. Hansen and other sportsmen. Plenty of eight to twelve inch trout, with several large ones, has been the grist.

Mud creek, at Camp Pistolesi, has turned out sime fine baskets of trout the past week.

Vallejo Angling.—The large reservoirs in Wild Horse and Green valleys, that supply Vallejo with fresh water, have for years past been well stocked with trout.

Both bodies of water have been favorite fishing resorts, permits, however, being necessary for opportunity to catch trout.

Mayor W. J. Tormey has requested the Fish and Game Commission to plant 100,000 trout fry in the lakes this year, which is acceded to will be pleasing news to many sportsmen.

San Mateo Streams.—Pescadero creek and its branches—the Gazos, Big and Little Buteno—have been visited by quite a number of fishermen for a week and more past. General results have been satisfactory.

At least 75 ambitious rod-packers were along the banks of the Purissima. A few trout were taken, mostly small fish, the best baskets being caught far up in the hills. Tunitas Glen and Lobitas creek, farther south, were not overlooked by the Sunday fishermen, results ranging from indifferent to bad.

A few fish can be taken in the San Gregorio lagoon on bait fishing. The upper branches—La Honda, Alpine and Harrington—are reported to be yet worth a trip.

Santa Cruz Salmon.—Salmon fishing off Santa Cruz in Monterey bay recently has resulted in glowing reports of good sport received by local fishermen. Last Sunday the fishing was good until about midday when a heavy wind blew up and stopped the fun for the time being.

One drawback has been the scarcity of anchovies for bait. Last Sunday the bay was black with schools of these small fish by the million. One haul of a net would have produced enough bait for all the salmon fishermen out. Not a boat had enough bait to last until 12 o'clock.

Up to a week ago none of the Capitola boats were in commission. The Santa Cruz boats have raised the tariff to \$10 a day—this means up to 12 o'clock only. Some boatmen also claim the fish taken by their patrons. As for the usual scarcity of bait, that is an old complaint and seemingly inexcusable. Probably a dodge of unscrupulous boatmen.

A NATIONAL BUFFALO PRESERVE.

Walter Noble Burns, writing a special article for the Saturday Evening Post on "The Last Stand of the Buffalo," says that the movement started by the American Bison Society to have the government purchase Antelope island, in the Great Salt Lake, and convert it into a buffalo preserve, has progressed far enough to warrant the belief that within the next year or two it will be added to the nation's buffalo pastures. The late John E. Dooly put a herd of buffalo on the island and they are doing splendidly. His son, John E. Dooly, Jr., is at the island today. It is the plan to purchase the animals owned by him and keep them on the island, adding to them from other herds.

In 1895 there were only 800 buffaloes alive in the world. This marks the minimum numerical strength of the buffalo. By so slight a tenure did the buffalo cling to racial existence that preservation seemed a forlorn hope, but the buffaloes rallied in the last ditch. The tattered remnants of the once mighty herds began slowly to increase. Today the future of the buffalo seems more hopeful. The figures given out by the American Bison Society January 1, 1912, show a big increase since 1895, the new figures published in the Saturday Evening Post being as follows:

| | |
|---|------|
| Montana national bison range..... | 70 |
| Wichita national bison range..... | 30 |
| Yellowstone Park—in captivity—estimated..... | 140 |
| Philip herd, South Dakota..... | 300 |
| Antelope island herd—Utah—estimated..... | 100 |
| Goodnight herd, Texas—estimated..... | 140 |
| Conrad herd, Montana—estimated..... | 60 |
| Corbin herd, New Hampshire—estimated..... | 80 |
| Wainwright herd—Canada..... | 1031 |
| Other government parks in Canada—estimated.. | 80 |
| In United States owned privately or scattered among city parks and zoological collections—estimated | 388 |

Total 2539

"Within the past few years the United States and Canada have established herds of buffaloes on government ranges that reproduce as nearly as it is possible to do under the fence the conditions under which the buffalo lived in the wild freedom of prairie days. Left to themselves in these spacious pastures, the buffaloes may be deepened upon to work out their own salvation—slowly, but surely."

"The United States now possesses three buffalo parks. These are the Wichita national bison range in western Oklahoma, the Montana national bison range in northwestern Montana and the fenced in range in Yellowstone national park. Canada is breeding buffaloes in Rocky mountain park at Banff, and in Elk Island park; but its great buffalo nursery is at Wainwright, in Alberta, where it has established the most extensive fenced in game preserve and the largest herd of buffaloes in the world. The herd now numbers more than a thousand head.

"With the establishment of the park in South Dakota, but one other important detail in the American Bison Society's general scheme for the national preservation of the buffalo will remain to be accomplished. That is the transformation of Antelope island, in Great Salt Lake, into a national buffalo park. The island is twenty-five miles northwest of Salt Lake city. It is about sixteen miles long, from one to five wide, and contains between 25,000 and 30,000 acres. Officers of the American Bison Society have looked it over and declared it would make an ideal buffalo range. It is a mountainous island containing fine natural pastures for summer and winter grazing, and it is abundantly watered. A herd of buffaloes numbering about one hundred at the close of 1911 runs wild upon the island. Both island and buffaloes are owned by the estate of John Dooly of Salt Lake city. The movement to convert the island into a government park has progressed far enough to warrant the belief that within the next year or two it will be added to the nation's buffalo pastures. It is to be hoped the entire Dooly herd will be purchased and kept upon the island.

"It is to the American Bison Society that all the credit must be given for putting the buffalo in this country on a safe footing for the future. The original herds in all three national parks have been gifts to the government. The nucleus herd in Yellowstone park was the gift of C. J. 'Buffalo' Jones, who purchased the animals and had them transported at his own expense to Yellowstone park. The nucleus herd of the Montana range was the gift of the American Bison Society."

Monterey County Licenses.—For the fiscal year ending April 27, Monterey county has collected through its county clerk, T. P. Joy, a total of \$2,505 for hunting licenses. The collections were as follows: Five hundred hunting licenses at \$1 each, \$500; 1800 resident licenses at \$1 each, \$1800; five non-resident licenses at \$10 each, \$50; 5 alien licenses at \$25 each, \$125; 20 duplicate resident licenses at \$1 each, \$20; 10 duplicate resident licenses at \$1 each, \$10.

Louis H. Starnes, representative in Spokane of the American Timber Holding Association, received congratulations all around at the Inland Club a few days ago on the success of his hunting trip in the Coeur d'Alene district of northern Idaho. With the aid of an acquaintance who owns a claim in the district he routed a big cinnamon bear, and as Bruin was attempting a getaway, brought the bear down with a single shot. Starnes will have the skin mounted.

PROGRESS OF FEDERAL GAME PROTECTION.

Bills to provide federal protection for migratory birds, which were introduced in the United States Senate by Senator McLean and in the House of Representatives by Congressman Weeks, have both been reported favorably out of committee. The former was considered by the Senate Committee on Forest Reservations and the Protection of Game, and the latter by the House Committee on Agriculture.

In urging the necessity of this legislation, the American Game Protective and Propagation Association, of 111 Broadway, New York City, says:

"Millions of dollars can annually be saved to the people of the United States by wise and conservative treatment of the enormous natural resources represented by our migrants. Under present conditions countless numbers of ducks, geese and shore birds are slaughtered at a time when every female killed means the destruction of a small flock. At all times the killing goes on at a rate that is out of all proportion to the natural increase.

"Mr. E. V. Visart, State Game Warden of Arkansas, reported in his endorsement of the Weeks' bill that 90,600 birds were sent from Mississippi county in one shipment on October 16, 1911. According to the Game Warden of Louisiana, there were 4,265,585 ducks, geese and shore birds killed in that State during the winter of 1910 and 1911.

"The favorable report on the McLean bill by the Senate Committee contains the following:

"Game Commissioners and other officials representing forty-eight States of the Union, together with some of the leading ornithologists of the country, appeared before your committee and their testimony, based upon years of experience and practical observation, was conclusive of the fact that State control of migratory birds must, from the very nature of the surrounding temptations and conditions, end in failure."

"It is further pointed out in this report that the annual loss to the country through insect pests amounts to from seven hundred and ninety-five to eight hundred million dollars. To bring home the significance of these figures, the report adds that: 'There are about six hundred colleges in the United States today. Their buildings and endowments have been centuries in accumulation. The value of the college and university buildings is estimated at \$260,000,000 and the endowments at \$219,000,000. If they should be destroyed tomorrow—buildings and endowments—the insect tax of one year would replace them and leave a balance to endow thirty-two new universities in the sum of ten million dollars.

"We have in this country today about twenty million school children, and the cost of their education has become far the heaviest tax laid upon the surplus of the country, yet it costs more by many millions to feed our insects than it does to educate our children. If there is any way in which this vast and destructive tax upon the National income can be prevented or stayed or resisted in any appreciable measure, it would seem to be the part of wisdom to act without delay."

"In conclusion the report says: 'All of the foregoing evidence goes to demonstrate the existence of a natural economic relation between these three orders of life (vegetation, insects and birds). There is a sort of interdependence, and the existence of each one is dependent upon the existence of the others. But for the vegetation the insects would perish, and but for the insects the birds would perish, and but for the birds the vegetation would be shortly destroyed by the unchecked increase of insect destroyers.

"It is the earnest recommendation of your committee that the pending bill receive favorable consideration."

CALIFORNIA LIONS DISAPPEARING RAPIDLY.

That the extermination of the California lion is fast being accomplished was the gist of reports made by State wardens at a recent meeting of the Fish and Game Commission. Stimulated by the bounties of \$20 offered by the State and additional county bounties, the number of hunters engaged in running down the pests that have preyed on the deer and sheep in the ranges has doubled and the number of stock and game killings proportionately diminished. In 1908, the first year the \$20 bounty was in effect, 482 lions were killed, while in the past year less than half the number of scalps has been presented for bounty.

"From present indications," said Secretary Ernest Schaeffe, "the lions probably will be wiped out within a few years."

Discussion brought out the fact that, this being one of the driest years in the history of the State, action was immediately necessary to minimize the damage to fish, especially trout in the smaller streams. Arrangements were ordered for the transferring of fish to streams that will continue flowing all year.

From commercial fishing licenses up to March 31 \$18,645, was received; from citizens' licenses, \$4902.50, which is \$50 less than last year.

For the preserving of the few remaining elk efforts will be made by the Commission to have elk brought into Northern California from Washington, Oregon, Wyoming and Yellowstone Park.

Professor Joseph Grinnell, curator or vertebrate zoology of the University of California, addressed the Commission regarding big-horn mountain, which up to 1860, thrived in California. At present, according to the professor, there are a great many of the sheep on both sides of Imperial valley, which, if protected during the next few years, will develop sufficiently for the holding of an open season.

TRADE NOTES

Remington-U.M.C. Wins.

It is evident the trap shooters on the Pacific Coast have stamped with their approval the new Remington-U.M.C. Eastern factory loads, which have been on the Coast a few weeks.

At the Washington State shoot, held at Spokane, April 23 and 24, high amateur average was won by E. J. Chingren, with a score of 279 out of 300, using a Remington-U.M.C. pump gun and Eastern factory loaded shells.

Mr. Tom Barclay won second professional average with a score of 277 out of 300 with the same combination.

Mr. Fred V. Berger also did some remarkable shooting with a new Remington-U.M.C. pump gun.

At the tournament of the Newman Gun Club held April 27 and 28, the new Remington-U.M.C. factory loaded shells were very much in evidence.

Mr. "Dick" Reed won high professional average with a score of 357 out of 380. Mr. D. C. Wood of Modesto made a good score of 347 out of 380, and Mr. T. D. Riley made the longest run of the tournament, 73 straight, also the best score of 98 out of 100. All of the above shot Remington-U.M.C. pump guns and Eastern factory loaded shells.

On the second day of the tournament eight of the amateurs who made 90 per cent or better used the Arrow Eastern factory loads.

Mr. J. R. Converse of Los Angeles, in trying out Remington-U.M.C. factory shells made the remarkable score of 99 out of 100.

These grand scores testify to the wonderful shooting qualities of Remington-U.M.C. Eastern factory loads.

Winchester Wins.

The State championship of Louisiana was won by Guy Macmurdo at the Louisiana State shoot held at New Orleans, April 16 and 17, Mr. Macmurdo making a perfect score of 50 targets with Winchester "Leader" shells.

Mr. C. A. Ferguson in breaking 49 x 50 targets at Mitchell, April 17, won high amateur average. He shot Winchester shells—the reliable Red W. Brand.

With a score of 50 straight targets J. W. Hawkins, Jr. won high general average at Huntington, W. Va., 20, shooting Winchester shells and a Winchester gun. J. B. Knapp was high amateur with a score of 47, shooting a Winchester gun.

D. Nelson won high general average at Spencer, Iowa, April 18th with Winchester shells, making a score of 134 x 150.

In breaking 97 out of 100 at Oklahoma City, April 14, Mrs. Topperwein won high general average for the shoot, running away ahead of every other shooter. Mr. C. G. Spencer, who shot at 75 targets, broke the entire number.

A. R. King, scoring 176 x 200 targets at Denver, Colo., April 14, won high amateur average. He shot a Winchester gun and "Repeater" shells. Mr. King also won the special medal by scoring 92 x 100.

The State championship of Washington was won by F. M. Troeh at Spokane, April 24, who scored 25 straight with Winchester shells and a Winchester gun. S. A. Fulton, who won the Spokesman-Review medal also with a score of 25 straight, used the same shooting combination. Lee R. Barkley won high general average for the shoot with the Red W. combination.

J. M. Hawkins slipped one under a perfect score by getting 99 x 100 at Cumberland, Md., April 18, shooting a Winchester gun and Winchester shells.

Peters Points.

At Xenia, Ohio, April 11, Mr. C. A. Young won high general average 97 x 100 and Mr. J. A. Penn high amateur average 93 x 100, both using Peters factory loaded shells.

At the northern Kentucky Gun Club, Dayton, Ky., April 14, Capt. G. W. Daveron won high Amateur average 96 x 100, Mr. Lester German high professional average 98 x 100 and Mr. C. A. Young second professional average 93 x 100, all using Peters factory loads.

At Atglen, Pa., April 11, Mr. Neaf Apgar shooting Peters "steel where steel belongs" loads, won high professional average 139 x 150.

At Livermore, Iowa, April 16, Mr. L. H. Fitzsimmons, shooting Peters factory loads won high professional average, 176 x 200.

There was a sensation sprung at the Louisiana State shoot, New Orleans, La., April 15-17. Everybody was talking about it but nobody was surprised. Peters high gun shells with "steel where steel belongs," shot by that well known professional H. D. Freeman, made a record that has never before been equalled on the New Orleans grounds. His score on the targets that counted in the average was 293 x 300, or 98.3 per cent. On all targets, including special events and practice day he broke 583 x 600, or 97.2 per cent. Mr. Freeman is shooting in excellent form but modestly asserts that there never was any such ammunition produced that could compare in shooting quality with the Peters "steel where steel belongs" shells.

A Good Move.—Deputy Fish and Game Commissioner W. J. Moore last week took 4000 perch from the reservoir of the Napa City Water Company and placed them in Napa river above the dam.

Drink Jackson's Napa Soda.

EDUCATIONAL ADVERTISING

Copyrighted 1912 by THE REDUCINE CO., Inc.
All Rights Reserved.

This advertisement is not founded on a fad or a theory, but is the result of over thirty-five years of our own personal, practical experience, and you can accept it as absolutely reliable.

The Government of the United States has adopted the rules for shoeing given below and every horse owned by the U. S. is shod under strict regulations covering the points as we give them.

Here are shown three senseless and unpardonable mistakes in shoeing horses. These three operations are the cause of more lameness in horses than all other causes combined. No horse whose foot is treated as shown in the three cuts first given below can possibly be comfortable in his feet and he will not travel as well as if shod properly. He will not do as well and be as good-gaited or sure-footed. If you have your horse shod as he should be shod, he will work or race better and he will last longer.

Half the lameness above the hoof is caused by some foot trouble which came first from bad shoeing. Shoe your horse right—no foot trouble.

If your horse has any sort of foot lameness, has dry, contracted, mis-shaped or brittle feet, treat him with Reducine will cure every kind of foot disease. Reducine will grow a new, sound, elastic, tough hoof on any horse quicker than any other preparation or method of treatment. Reducine will cure navicular lameness, if the joint is not stiff, and if the bones of the coffin joint are not diseased. Reducine will cure any case of thrush with a single application.

REDUCINE

BAD.

Worse than useless.—Never pare away the sole, bars or frog of any horse's hoof. This rule applies to every horse from The Harvester down to the cheapest, most humble workhorse. God Almighty made the hoof of a horse with a thick sole to protect the sensitive foot from bruises and all injuries. He made it so that it will shed itself in flakes. Paring the sole is no more reasonable than paring the sole of your own shoe so thin that every time you step on a stone it will hurt your foot. Besides this, the sole, bars and frog are the floor of the foot which must sustain the horse's weight. As soon as the sole is pared, the hoof begins to contract and pinch, and this adds to the discomfort caused by the thinning of the sole. The horse becomes afraid to go on hard, stony roads or to extend himself on a hard track. You have noticed how a horse's foot grows down and expands when he is turned out without shoes for a few weeks. You can then see the new growth from the coronet down.

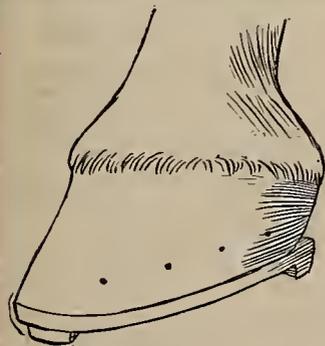

VERY BAD.

Trying on a shoe while hot—or "seating it" while hot—is a very bad practice and the smith who will do it is not a good mechanic. No shoe should ever be touched to a hoof while the shoe is too hot to be held in the smith's hand. A hot shoe will kill the life and destroy the elasticity of the hoof one-half inch in five seconds.

UNPARDONABLE.

Putting on a shoe too small for the hoof or allowing the shoe to slip back while being nailed on and then fitting the foot to the shoe is the work of a botch, not that of a workman who knows his business. The shoe should never be smaller than flush with the outside of the hoof all around—a little larger is better—and when it is nailed on and the nails clinched, the job is finished. The horse will then stand squarely on top of the shoes. There will be no ruinous destruction or weakening of the outside shell. The enamel will not be destroyed or injured. The foot will not grow out over the shoe for as long as any shoe should be left on, and all this time your horse will be doing his work in comfort. It takes less labor and it takes less time to shoe a horse as he should be shod than is required to do the job improperly, as it is too often done. The right way to shoe any and every horse is to wet and true the hoof with the rasp—finish with the fine side of the rasp—no paring knife or buttress—fit the shoe cool—fit the shoe so that the outside is flush, or a trifle more than flush, with the outside edge of the hoof—nail on the shoe without letting it slip back or out of place—clinch the nails—and that is all—absolutely all.

CUT NO. 1.

Shows a shoe made flush with the out side of the shell of the hoof. The horse stands squarely on top of the shoe. All his weight is carried on the shell of the hoof—where it should be carried—and the shoe does not press on the sole of his foot. A horse shod this way will never have any corns. This shoe fits and will not pinch the horse even if left on two months.

These cuts show how to treat a horse with Reducine for thrush and for Navicular Disease, Brittle Hoofs, Hoof-bound and Contracted Hoofs. Every horse so treated will, in from twelve to seventeen weeks, become sound in his feet and his hoofs will become as fine, tough and elastic as a buffalo horn and his feet will be normal in size and shape. To treat a horse's foot, clip the hair around the coronet. Paint on a heavy coat of Reducine, from an inch above to an inch below the hairline. Rub this first coat in briskly by hand for ten minutes by the watch. At once paint on another heavy coat. Once a day for ten days, paint on another heavy coat of Reducine, one coat over the others, so as to get a plaster of Reducine as possible in that time. Cover the bottom of the hoof with one single heavy coat of Reducine and with a thin wooden paddle work the Reducine gently but thoroughly to the very bottom of the cleft of the frog and every cleft and crevice. Have the horse re-shod—strictly according to the suggestions given above—at the end of a month. Repeat all this hoof treatment after each monthly shoeing for four months. Your horse will then be sound in his feet. He will then have sound, tough, elastic hoofs of normal size and shape. Reducine never fails in these cases if the simple directions given here are carefully followed and no point given is neglected.

CUT NO. 2.

Shows a shoe too small. The hoof is rasped down to make it fit the shoe. The enamel on the outside is destroyed up to and above the nail holes. The shell is tapered down to a thin edge where it touches the shoe. Many times we have seen the shell rasped away until no part of it reaches down to the shoe. The weight of the horse is carried on the sole of the hoof—where it is soft. The hoof will soon grow out over and beyond the shoe and it will become embedded in the bottom of the hoof—the horse will be uncomfortable from the first—his discomfort will increase from day to day—the hoof will become more or less dry and brittle—the horse will be liable to develop corns, etc. No horse shod in this way will long remain good-gaited, sure-footed or perfectly sound in his feet. All this cutting away the sole, bars or frog or burning the bottom with a hot shoe or rasping the outside are contrary to nature, to common sense and to good workmanship.

CUT NO. 3.

IMPORTANT NOTICE.

No preparation for treatment, or no dressing for looks, containing oil, vaseline, or any sort of grease should ever be used on the foot of a horse.

Nature provides that a horse's feet shall be wet with dew eight hours out of twenty-four and that his feet shall be wet every time that he goes for a drink. Nothing is so ruinous to the hoof of a horse or the nails of a man as grease. Nature never puts grease on the hoof of a horse. Horses running wild in a state of nature never have brittle hoofs, corns or contracted feet. Before you apply Reducine to the foot of your horse, see that there is no grease on the hoofs. Grease will kill the effect of Reducine, no matter whether it is applied before Reducine has been used or afterwards. If your horse is kept shod all the time and on dry floors and driven where it is dry, pack his feet every night with wet clay and pick them out in the morning.

For sale by druggists and horse goods dealers or direct from us. Cash with order in all cases. Please send N. Y. draft, express order or P. O. order.

Shows a shoe that will ruin any foot in time. No clip should ever be used on any shoe. The hoof of a horse, when healthy, grows faster than your finger nails—almost as fast as your beard. Shoeing a horse with one or more clips holds the foot as if in a vise, and is a ruinous practice. Few horses work sound or long on city streets and most of them have clips on their shoes.

PUBLIC TRAINING STABLE.

Al. Russell, Los Angeles, Cal.

I have decided to make my home in Los Angeles, Cal., and will conduct a Public Training Stable. I would be pleased to meet or correspond with parties having horses to train or race. My stable is located on Menlo avenue, between 38th and 39th streets, one-half block from the New Exposition Track. This year I will race my horses through the Canadian and Pacific Circuits, starting about June 1st. **AL. RUSSELL**, 910 W. 39th St., Los Angeles, Cal.

BARGAINS FOR SALE.

ON ACCOUNT OF REMOVAL I MUST SELL THE FOLLOWING GRANDLY BRED TROTTERS AND PACERS WITHIN THE NEXT SIXTY DAYS:

DR. WM. S. JENNINGS, ch. g., 16 hands, 8 years old; a pacer; no record; with less than 90 days' work paced a mile in 2:11, a half in 1:01½, last quarter in 30 seconds, and last eighth in 14 seconds, and last sound and is free-legged. Sired by F. S. Turner; dam Caritone by Antone (son of Dexter Prince), dam, Biscari (dam of 3) by Dictator 2:17; second dam Bicara (dam of 7) by Harold, etc. One of the fastest and best "prospects" in California.

CALIFORNIA DILLON, ch. s.; pacer; record 2:18 as a three-year-old; trial 2:12½, half in 1:02½, quarter in 30½ seconds. Sired by the great Sidney Dillon, dam Caritone by Antone; second dam Biscari (dam of 9) by Director 2:17, etc. Free-legged, sound, kind, stylish, royally bred, a sure foal-getter, and one of his colts, James W. Stewart, paced in 2:22 as a two-year-old in Salt Lake City last year.

MAJOR DILLON, ch. s.; 7 years old; 16 hands; weighs 1200 pounds. Has no record; been a mile in 2:16, half in 1:06 and a quarter in 32 seconds. Sired by Sidney Dillon; dam Maud Fowler 2:21½ (dam of Sonoma Girl 2:04½, etc.) by Antone 2:16½. One of the choicest bred, sourest, purest-gaited (no hoppers) and most natural pacer-horses in California. He is a sure foal-getter and all of his progeny are large, stylish and fast.

YEARLING STALLION, bay, by Guy Dillon 2:23½ (by Sidney Dillon, out of By Guy, dam of 3) by Guy Wilkes 2:15½, out of Carimo C., by McKinney 2:11½; second dam Adioo (dam of 2) by Guy Wilkes 2:15½; third dam By Eye (dam of 2, sires of 10 and 2 dams of 3) by Nutwood; fourth dam Rapidan (dam of 3, 2 sires of 54 and 5 dams of 7) by Dictator; fifth dam Madam Headley (dam of 1, 1 sire of 4 and 2 dams of 5) by Edwin Forrest 8:51, the rest thoroughbred. This is a large, handsome, heavy-boned, trotting colt. His breeding can hardly be improved. He will undoubtedly be a very fast trotter; and who will have his equal as a sire when his days of racing end. Price \$200.

THREE FULL SISTERS, all trotters, two blacks and a brown; aged respectively 2, 3 and 4 years. Sired by Guy Dillon 2:23½, out of Caritone by Antone, etc. These are halter broken, handsome, sound and straight, and bred in the purple. Prices: 2-year-old, \$175; 3-year-old, \$200; 4-year-old, \$225.

THREE-YEAR-OLD by California Dillon, out of Caratna by McKinney 2:11½; second dam By Eye (great broodmare) sister to Lockheart 2:08½ by Nutwood 2:18½, etc. This is a pure-gaited trotter; one of the handiest, best bred and best formed fillies of her age in California. Price \$250.

A HALF-SISTER TO RUTH DILLON 2:06½. A four-year-old trotter by Guy Dillon 2:23½, out of Russle Russell by Bay Rose 2:20½ (a sire); second dam, Oakley Russell (great broodmare) by Happy Russell 4:44, etc. This is a very fine-looking bay filly; a natural trotter; knows no other gait, and without doubt will be as fast as her half-sister. One of the classiest and most stylish lookers one could wish to see. Her bloodlines are of the very best. She is like the balance listed herein—absolutely sound. Price \$250.

For further particulars, address **FRANK S. TURNER**, R. F. D. 1a, Santa Rosa, Cal.

Wanted to Buy

A green pacer that can step in 2:10 or better; must be a good actor; hoppers no objection. If you have a good one I will pay his full value.

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and full entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

CHAS. L. DE RYDER, Manager, Pleasanton, Cal.

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 2, 3, 5, 6, 7, 8, 9, 11, 12, 15, 16, 17 and 18, mile heats, 3 in 5; no race longer than 5 heats. Races Nos. 4, 10, 13 and 14, mile heats, 2 in 3. In the first three heats of Races Nos. 2, 3, 8 and 9, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won. Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less. Distances in all heats 80 yards, but if the field is more than eight, 100 yards. A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart. Owners may enter two horses from one stable in same race and he held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. | |
|-------------------|-----------|------------|------------|------------|------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 | \$15 |
| 2:15 Trot | 35 | 35 | 35 | 20 | 20 |
| 2:12 Trot | 65 | 65 | 65 | 55 | 55 |
| 2:08 Trot | 15 | 15 | 10 | 10 | 10 |
| 2:20 Amateur Trot | 15 | 15 | 10 | 10 | 10 |
| 2:20 Pace | 20 | 20 | 20 | 15 | 15 |
| 2:15 Pace | 35 | 35 | 35 | 20 | 20 |
| 2:11 Pace | 65 | 65 | 65 | 55 | 55 |
| Free-for-All Pace | 15 | 15 | 10 | 10 | 10 |
| 2:15 Amateur Pace | 15 | 15 | 10 | 10 | 10 |

STATE AGRICULTURAL SOCIETY.

Stanford Stake for 1914.

TROTTING STAKE FOR FOALS OF 1911.

Entries close June 1, 1912.

To be trotted at the California State Fair of 1914. \$50 entrance, of which \$5 must accompany nomination, June 1, 1912; \$5 November 1, 1912; \$10 June 1, 1913; \$10 June 1, 1914, and \$20 on the tenth day before the first day of the State Fair of 1914. The Stanford Cup of the value of not less than \$250.00 to be added by the Society. Mile heats, three in five, to harness.

The stakes and added money to be divided 50, 25, 15 and 10 per cent. Right reserved to declare two starters a walkover. When only two start they may contest for the entrance money paid in, to be divided 66 2/3 per cent to the winner and 33 1/3 per cent to the second horse. A horse distancing the field will be entitled to first money only. In no case will a horse be entitled to more than one money.

A horse not winning a heat in the first three shall not start in the fourth heat, unless said horse shall have made a dead heat; but horses so ruled out shall have a right to share in the prize according to their rank in the summary at the close of their last heat.

Nominators are not held for full amount of entrance in case colt goes wrong; only forfeit the payments made, which relieves you from further responsibility and declares entry out.

The stake is growing in value each year; every breeder should enter in it; it will enhance the value of his colt in case he desires to sell.

Your colt entered in the Occident Stake for 1914 is eligible for entry in this stake.
